M.O., 2018

Order 2018-03 of the Minister of Transport, Sustainable Mobility and Transport Electrification dated 22 March 2018

An Act respecting the Réseau électrique métropolitain (chapter R-25.02)

Zones in the jurisdiction of the Autorité régionale de transport métropolitain that lend themselves to coordination of urbanization and shared transportation services

THE MINISTER OF TRANSPORT, SUSTAINABLE MOBILITY AND TRANSPORT ELECTRIFICATION,

CONSIDERING section 97.1 of the Act respecting the Autorité régionale de transport métropolitain (chapter A-33.3) which assigns to the Autorité régionale de transport métropolitain the power to identify zones in its jurisdiction that lend themselves to coordination of urbanization and shared transportation services it finances, even in part, through the imposition of transportation dues;

CONSIDERING section 97.2 of that Act which assigns to the Autorité régionale de transport métropolitain the power to make a by-law subjecting certain work to payment of transportation dues;

CONSIDERING that, under section 36 of the Act respecting the Réseau électrique métropolitain (chapter R-25.02), in the pursuit of its mission and to increase shared transportation services in the Montréal metropolitan area, the Autorité régionale de transport métropolitain must among other things promote the construction of the Réseau électrique métropolitain, now known as the Réseau express métropolitain;

CONSIDERING section 84 of that Act which provides that 26 November 2017 is the deadline before which the Autorité régionale de transport métropolitain must make the first by-law concerning the transportation dues regarding the Réseau express métropolitain project and that failing that, the Minister may make the by-law and in such a case, replace the Autorité régionale de transport métropolitain for the identification of the zones concerned;

CONSIDERING section 12 of the Regulations Act (chapter R-18.1) which provides that a proposed regulation may be made without having been published, if the authority making it is of the opinion that the urgency of the situation requires it;

CONSIDERING section 88.10 of the Transport Act (chapter T-12) which provides that implementation of the Réseau express métropolitain project must be authorized by the Government;

CONSIDERING that the Caisse de dépôt et placement du Québec must submit its proposal regarding the project and that the proposal specifics are likely to lead to speculation, particularly in the zones subject to transportation dues;

CONSIDERING that it is essential for the local municipalities that will be collecting the transportation dues on behalf of the Autorité régionale de transport métropolitain to be made aware of the details as soon as possible so that they may be prepared accordingly as soon as the by-law comes into force on 1 May 2018;

CONSIDERING that such a situation constitutes an urgency requiring the by-law be made without publication;

CONSIDERING that it is expedient to identify the zones in the jurisdiction of the Autorité régionale de transport métropolitain that lend themselves to coordination of urbanization and shared transportation services, those zones being the zones appearing on the maps appended to this Order;

ORDERS AS FOLLOWS:

The zones in the jurisdiction of the Autorité régionale de transport métropolitain that lend themselves to coordination of urbanization and shared transportation services are the zones delineated on the maps appearing as Schedules appended to this Order;

This Order comes into force on 1 May 2018.

ANDRÉ FORTIN,
Minister of Transport, Sustainable Mobility and Transport Electrification

For information only, the lots that are wholly or partly situated in the zone of Deux-Montagnes Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

The zone corresponds to a circle having a radius of 1 000 metres extending outward from Grand Moulin Station, whose location is described in the reference project transmitted to the Authority by the Caisse de dépôt et placement du Québec on 23 November 2017.
The zone delineation is adjusted to exclude any lot from which access to the REM station on foot or by car is not possible, on foot or by car, owing to the presence of a watercourse.

For information only, the lots that are wholly or partly situated in the zone of Grand-Moulin Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Ste-Dorothée Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Île Bigras Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Roxboro-Pierrefonds Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Sunnybrooke Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Bois-Franc Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Du Ruisseau Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Montpellier Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Correspondance A40 Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Mont Royal Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Canora Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Edouard-Montpetit Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Gare Centrale Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

The zone corresponds to a circle having a radius of 1 000 metres, extending outward from Ile-Des-Soeurs Station, whose location is described in the reference project transmitted to the Authority by the Caisse de dépôt et placement du Québec on 23 November 2017.

The zone delineation is adjusted to exclude any lot from which access to the REM station in any season is not possible, on foot or by car, owing to the presence of a watercourse.

For information only, the lots that are wholly or partly situated in the zone of Ile-Des-Soeurs Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Panama Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Du Quartier Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Rive-Sud Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building

For information only, the lots that are wholly or partly situated in the zone of Pointe-Claire Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Des Sources Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

M.O., 2018

Order 2018-04 of the Minister of Transport, Sustainable Mobility and Transport Electrification dated 22 March 2018

An Act respecting the Réseau électrique métropolitain (chapter R-25.02)

Transportation dues regarding the Réseau express métropolitain

THE MINISTER OF TRANSPORT, SUSTAINABLE MOBILITY AND TRANSPORT ELECTRIFICATION,

CONSIDERING that, under section 36 of the Act respecting the Réseau électrique métropolitain (chapter R-25.02), in the pursuit of its mission and to increase shared transportation services in the Montréal metropolitan area, the Autorité régionale de transport métropolitain must among other things promote the construction of the Réseau électrique métropolitain, now known as the Réseau express métropolitain;

CONSIDERING section 97.2 of the Act respecting the Autorité régionale de transport métropolitain (chapter A-33.3) which assigns to the Autorité régionale de transport métropolitain the power to make a by-law subjecting certain work to payment of transportation dues;

CONSIDERING section 97.3 of that Act which provides the content of that by-law, in particular the zones within which work is subject to dues, which zones must correspond to those identified in accordance with section 97.1 of that Act;

CONSIDERING section 84 of the Act respecting the Réseau électrique métropolitain which provides that 26 November 2017 is the deadline before which the Autorité régionale de transport métropolitain must make the first by-law concerning the transportation dues regarding the Réseau express métropolitain project and that failing that, the Minister may make the by-law;

CONSIDERING the zones lending themselves to coordination of urbanization and shared transportation services identified in Minister's Order 2018-03 dated march 22, 2018;

CONSIDERING section 12 of the Regulations Act (chapter R-18.1) which provides that a proposed regulation may be made without having been published, if the authority making it is of the opinion that the urgency of the situation requires it;

CONSIDERING section 88.10 of the Transport Act (chapter T-12) which provides that implementation of the Réseau express métropolitain project must be authorized by the Government;

CONSIDERING that the Caisse de dépôt et placement du Québec must present its proposal regarding the project and that the proposal specifics are likely to lead to speculation, particularly in the zones subject to transportation dues;

CONSIDERING that it is essential for the local municipalities that will be collecting the transportation dues on behalf of the Autorité régionale de transport métropolitain to be made aware of the details as soon as possible so that they may be prepared accordingly as soon as the by-law comes into force on 1 May 2018;

CONSIDERING that such a situation constitutes an urgency requiring the by-law be made without publication;

CONSIDERING it is expedient to make the first by-law referred to in section 97.2 of the Act respecting the Autorité régionale de transport métropolitain concerning transportation dues regarding the Réseau express métropolitain;

ORDERS AS FOLLOWS:

The first by-law of the Autorité régionale de transport métropolitain concerning transportation dues regarding the Réseau express métropolitain, the text of which is appended to this Order, is hereby made;

The zones in which work is subject to such dues are those identified in Minister's Order 2018-03 dated March 22, 2018.

ANDRÉ FORTIN,
Minister of Transport, Sustainable Mobility and Transport Electrification

TRANSPORTATION DUES BY-LAW

An Act respecting the Autorité régionale de transport métropolitain
(chapter A-33.3, r. 1)

SCHEDULE

By-law respecting transportation dues regarding the Réseau express métropolitain

Act respecting the Autorité régionale
de transport métropolitain

CHAPTER I
INTRODUCTION

1. The purpose of this By-law is to finance the Réseau express métropolitain (REM), a shared transportation system, by subjecting certain work to payment of transportation dues in zones within the jurisdiction of the Autorité régionale de transport métropolitain (the Authority) and identified as lending themselves to coordination of urbanization and shared transportation services.

2. A further purpose of this By-law is to require a permit be obtained for work subject to REM transportation dues if the work may be carried out without such a permit in a local municipality's territory, in accordance with section 97.7 of the Act respecting the Autorité régionale de transport métropolitain.

CHAPTER II
DETERMINATION OF TRANSPORTATION DUES

DIVISION 1
RATE AND CALCULATION OF DUES

3. The work under Division 2 of this Chapter is subject to payment of transportation dues with respect to a building wholly or partly situated in a zone that lends itself to coordination of urbanization and shared transportation services financed by the Authority, even in part, as those zones are more amply described in Chapter III, at the applicable rate set in Schedule C and adjusted in accordance with section 85 of the Act respecting the Réseau électrique métropolitain.

The dues are calculated in accordance with section 97.2 of the Act respecting the Autorité régionale de transport métropolitain at the time the relevant permit is issued for the work subject to payment of the dues.

The rate of the dues is adjusted by operation of law in the same manner as the amount of $750,000 set in the first paragraph of section 97.2 of the Act respecting the Autorité régionale de transport métropolitain, using the provisions in that section that determine the adjustment of that amount.

DIVISION 2
WORK SUBJECT TO PAYMENT OF DUES

4. The following work having a value and floor area exceeding the value and floor area out in section 97.2 of the Act respecting the Autorité régionale de transport métropolitain is subject to the payment of dues if the work is carried out to

(1) Erect a building;

(2) Rebuild a building except for floor area reconstruction following a fire that occurred in the preceding 24 months;

(3) Increase the floor area of a building; or

(4) Redevelop a building in connection with a change in use, even partial, consisting in a change from one to another of the following 8 classes, described in Schedule D which forms an integral part of this By-law:

1. Housing;

2. Retail, restaurant or entertainment trade and personal services;

3. Business offices and professional services;

4. Accommodation or conference venue business;

5. Institutional;

6. Industry, wholesale trade, para-industrial services and automobile services;

7. Research and development industry and data centres;

8. Other.

DIVISION 3
VALUE OF WORK

5. For the purpose of determining the transportation dues, the value of the work subject to payment of the dues that is established by the municipality at the time the permit is issued includes the total of the following fees, excluding taxes:

(1) fees for supplying and installing all material and equipment integrated into the building, including the material and equipment relating to architecture, structure, mechanics and electricity, but not including fees for supplying and installing devices used in connection with an industrial process or industrial production; and

(2) excavation and backfilling fees.

DIVISION 4
DETERMINATION OF THE FLOOR AREA OF WORK SUBJECT TO PAYMENT OF TRANSPORTATION DUES

6. For the purpose of determining the transportation dues, the floor area of work subject to payment of the dues is equal to the sum of each floor area covered by the work, including mezzanine and basement work. Floor area is measured from the outside surface of the external walls.

DIVISION 5
PAYMENT OF DUES

7. The debtor of the transportation dues is the owner of an immovable on which work under section 4 is carried out.

The term "owner" means

(1) the person holding the right of ownership in an immovable;

(2) the person possessing an immovable as the emphyteuta;

(3) the person possessing an immovable as the usufructuary;

(4) the person holding a right of superficies in an immovable;

(5) the occupant of an immovable belonging to a person referred to in section 97.12 of the Act respecting the Autorité de transport régional métropolitain or belonging to any other person not subject to payment of the transportation dues, excluding occupation by any of those persons; and

(6) the syndicate of co-owners.

8. The dues are payable by the owner, are collected by the local municipality on behalf of the Authority, and must be paid in full by bank draft at the time the permit referred to in the second paragraph of section 3 is issued. Payment by a third person is deemed to be made on behalf of the owner.

9. Assessment of whether the threshold levels are met for work subject to payment of dues must take into consideration the value of the constructions and works and the movables incorporated as well as the floor areas previously authorized for a building owned by the same owner by municipal by-laws or this By-law since its coming into force and in the 48 months since the last authorization.

10. If work subject to payment of dues is carried out without a permit, the dues are payable by the sole fact that the work is work subject to such payment.

CHAPTER III
RULES FOR THE DETERMINATION OF ZONES LENDING THEMSELVES TO COORDINATION OF URBANIZATION AND SHARED TRANSPORTATION SERVICES

11. This By-law applies with respect to the zones lending themselves to coordination of urbanization and shared transportation services identified in Minister's Order 2018-03 dated march 22, 2018, those zones appearing with the stations and delineations in Schedules A and B.

The zones are defined in relation to where each REM station is located, using the Cartesian coordinates of each station shown in Schedule B, which are based on the North American Datum of 1983 (NAD83) and the Modified Transverse Mercator projection system (MTM Zone 8), in accordance with the Système québécois de référence cartographique (SQRC).

The zones for the Édouard-Montpetit, Gare Centrale and McGill stations correspond to a circle having a radius of 500 metres extending outward from each station.

The zones for the other stations listed in Schedule C correspond to a 1-kilometre circle extending outward from each station.

The zone delineation is adjusted to exclude any immovable in an agricultural zone within the meaning of the Act respecting the preservation of agricultural land and agricultural activities (CQLR, chapter P-41.1).

The zone delineation is adjusted to exclude any lot from which access to the REM station in any season is not possible, on foot or by vehicle, owing to the presence of a watercourse.

CHAPTER IV
EXEMPTIONS

12. In addition to the exemptions provided for in section 97.12 of the Act respecting the Autorité régionale de transport métropolitain, no dues are payable for work carried out on an immovable forming part of an agricultural operation described in section 36.2 of the Act respecting the Ministère de l'agriculture, des pêcheries et de l'alimentation (CQLR, chapter M-14).

CHAPTER V
OBLIGATIONS OF THE MUNICIPALITY

13. The municipality in whose territory a zone is situated must, on the Authority's behalf, collect the dues payable for work subject to them carried out on a building, without any reduction in the dues even though the work is carried out on a building only partly situated in a zone.

14. The procedure for collecting the dues entails the municipality requiring every person applying for a permit for work under section 4 to furnish, in addition to the specifics required under the applicable permit issue system, all information and supporting documents required by Schedule E to assess whether the work covered by the application is to be made subject to the payment of dues.

15. If the work subject to this By-law may be undertaken without it being necessary for a permit to first be issued by the municipality, to be able to carry out the work the owner of the immovable concerned must obtain a permit issued under this By-law. The municipality is responsible for issuing the permit.

16. If the municipality becomes aware that the location of the building being worked on, the actual area of work under section 4 or the actual value of that work is different from that established at the time the authorizing permit is issued, the municipality must inform the Authority and the dues are adjusted higher or lower, entailing a supplement or a reimbursement, as the case may be.

17. Any provisions of this By-law requiring a permit be obtained to carry out work subject to the payment of transportation dues and providing for a permit issue system that are inconsistent with the provisions of a municipal by-law dealing with the same matter have no effect as with respect to the territory in which such a municipal by-law is in force.

18. Remittance to the Authority of the dues collected and the reports containing the related information is to take place on the dates and in the manner set forth in section 97.10 of the Act respecting the Autorité régionale de transport métropolitain.

CHAPTER VI
OFFENCE PROVISIONS

19. Anyone who refuses or fails to pay the transportation dues determined by the municipality is guilty of an offence and is liable to a fine equal to the sum of the following amounts:

(1) the amount of the dues calculated under Chapter II; and

(2) the following additional amount:

(a) in the case of a natural person,

i. for a first offence: from $250 to $5,000;

ii. for a repeat offence: from $500 to $10,000; or

(b) in all other cases,

i. for a first offence: from $250 to $10,000;

ii. for a repeat offence: from $500 to $20,000.

The portion of the fine consisting of the amount of dues referred to in subparagraph 1 of the first paragraph is payable to the Authority as dues that should have been paid when they first became payable.

The Authority institutes the penal proceedings provided for in this By-law.

CHAPTER VII
FINAL

20. This By-law comes into force on 1 May 2018.

This By-law is revoked, pursuant to subparagraph 2 of the second paragraph of section 38 of the Act respecting the Réseau électrique métropolitain (CQLR, chapter R-25.02), on the earlier of the date on which the six hundred million dollar ($600,000,000) financing target is reached and the date that is fifty (50) years after the coming into force of this By-law.

For information only, the lots that are wholly or partly situated in the zone of Deux-Montagnes Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

Street name
The zone corresponds to a circle having a radius of 1 000 metres, extending outward from Grand Moulin Station, whose location is described in the reference project transmitted to the Authority by the Caisse de dépôt et placement du Québec on 23 November 2017.
The zone delineation is adjusted to exclude any lot from which access to the REM station in any season is not possible, on foot or by car, owing to the presence of a watercourse.

For information only, the lots that are wholly or partly situated in the zone of Grand-Moulin Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Ste-Dorothée Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

The zone corresponds to a circle having a radius of 1 000 metres, extending outward from Ile Bigras Station, whose location is described in the reference project transmitted to the Authority by the Caisse de dépôt et placement du Québec on 23 November 2017.

The zone delineation is adjusted to exclude any lot from which access to the REM station in any season is not possible, on foot or by car, owing to the presence of a watercourse.

For information only, the lots that are wholly or partly situated in the zone of Île Bigras Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Roxboro-Pierrefonds Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

The zone corresponds to a circle having a radius of 1 000 metres, extending outward from Sunnybrooke Station, whose location is described in the reference project transmitted to the Authority by the Caisse de dépôt et placement du Québec on 23 November 2017.

The zone délineation is adjusted to exclude any lot from which access to the REM station in any season is not possible, on foot or by car, owing to the presence of a watercourse.

For information only, the lots that are wholly or partly situated in the zone of Sunnybrooke Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Bois-Franc Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Du Ruisseau Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Montpellier Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Correspondance A40 Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Mont Royal Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Canora Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Ile-Des-Soeurs Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Panama Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Du Quartier Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Sainte-Anne-De-Bellevue Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

For information only, the lots that are wholly or partly situated in the zone of Pointe-Claire Station, according to the graphic matrix of the cadastre updated on 28 September 2017, are listed in the following table.

Every lot that is wholly or partly situated in the zone at the time the permit is issued must be considered, even though it does not appear in this table. The municipality is responsible for determining whether a lot is situated in the zone, according to the most up-to-date version of the cadastre.

Whether work is subject to the transportation dues will be determined at the time the permit is issued, according to the location in the zone of the building covered by the work.

M.O., 2018

Order number 2018 005 of the Minister of Health and Social Services dated 20 March 2018

An Act respecting health services and social services (chapter S-4.2)

Regulation to amend the Regulation respecting certain terms of employment applicable to senior administrators of agencies and of public health and social services institutions

THE MINISTER OF HEALTH AND SOCIAL SERVICES,

CONSIDERING the first paragraph of section 487.2 of the Act respecting health services and social services (chapter S-4.2), which provides in particular that the Minister may, by regulation, determine the standards and scales which must be used by agencies and public institutions for the selection, appointment and engagement of and the remuneration and other terms of employment applicable to senior administrators;

CONSIDERING that the Minister made the Regulation respecting certain terms of employment applicable to senior administrators of agencies and of public health and social services institutions (chapter S-4.2, r. 5.2);

CONSIDERING the authorization obtained by the Conseil du trésor in accordance with the third paragraph of section 487.2 of the Act;

CONSIDERING that it is expedient to make the Regulation to amend the Regulation respecting certain terms of employment applicable to senior administrators of agencies and of public health and social services institutions;

ORDERS AS FOLLOWS:

The Regulation to amend the Regulation respecting certain terms of employment applicable to senior administrators of agencies and of public health and social services institutions, attached as a Schedule, is hereby made.

GAÉTAN BARRETTE,
Minister of Health and Social Services

Regulation to amend the Regulation respecting certain terms of employment applicable to senior administrators of agencies and of public health and social services institutions

An Act respecting health services and social services (chapter S-4.2, s. 487.2)

1. The Regulation respecting certain terms of employment applicable to senior administrators of agencies and of public health and social services institutions (chapter S-4.2, r. 5.2) is amended by inserting the following after section 40.2:

"**40.3.** A senior administrator working in the Far North region determined by the Minister shall receive, for the period from 1 April 2015 to 30 March 2020, an attraction and retention allowance.

The allowance is paid to the senior administrator in the form of a lump sum in proportion to the time worked and according to the procedures of the employer's pay system. A statutory holiday, a flexible leave, an annual leave and a personal leave are considered to be time worked.

The amounts and the terms of application of the allowance are established by the Minister.

40.4. As of 1 April 2018, a senior administrator required by his employer for the development or implementation of a major or national large-scale project receives an allowance of 5% or 10% of the senior administrator's salary.

The allowance depends on the scope of participation in the project. The scope is measured, among other things, by the scale of the desired objectives and expected results, as well as the leeway and power of representation granted to the senior administrator.

The major or national large-scale project must have been authorized by the Minister. The Minister establishes the percentage of the allowance based on the scope of participation of the senior administrator in the project. The project is valid for a maximum period of 18 months. It may be extended by 9 months, subject to the authorization of the Minister.

The senior administrator may not hold his position during his designation to carry out the project. At the end of his designation, the senior administrator resumes his position with his employer, subject to the provisions respecting employment stability provided for in Chapter 5. The senior administrator's choice under section 94 is made at the end of his designation.

The allowance is paid to the senior administrator in the form of a lump sum in proportion to the time worked and according to the procedures of the employer's pay system. A statutory holiday, a flexible leave, an annual leave and a personal leave are considered to be time worked. ".

M.O., 2018

Order number 2018 006 of the Minister of Health and Social Services dated 20 March 2018

An Act respecting health services and social services (chapter S-4.2)

Regulation to amend the Regulation respecting certain terms of employment applicable to officers of agencies and health and social services institutions

THE MINISTER OF HEALTH AND SOCIAL SERVICES,

CONSIDERING the first paragraph of section 487.2 of the Act respecting health services and social services (chapter S-4.2), which provides in particular that the Minister may, by regulation, determine the standards and scales which must be used by agencies, public institutions and private institutions under agreement for the selection, appointment and engagement of and the remuneration and other terms of employment applicable to senior and middle management personnel;

CONSIDERING that the Minister made the Regulation respecting certain terms of employment applicable to officers of agencies and health and social services institutions (chapter S-4.2, r. 5.1);

CONSIDERING that it is expedient to amend the Regulation;

CONSIDERING the authorization obtained by the Conseil du trésor in accordance with the third paragraph of section 487.2 of the Act;

CONSIDERING that it is expedient to make the Regulation to amend the Regulation respecting certain terms of employment applicable to officers of agencies and health and social services institutions;

ORDERS AS FOLLOWS:

The Regulation to amend the Regulation respecting certain terms of employment applicable to officers of agencies and health and social services institutions, attached as a Schedule, is hereby made.

GAÉTAN BARRETTE,
Minister of Health and Social Services

Regulation to amend the regulation respecting certain terms of employment applicable to officers of agencies and health and social services institutions

An Act respecting health services and social services (chapter S-4.2, s. 487.2)

1. The Regulation respecting certain terms of employment applicable to officers of agencies and health and social services institutions (chapter S-4.2, r. 5.1) is amended in section 14 by inserting the following after the second paragraph:

"Despite the second paragraph, as of 1 April 2019, the salary increase granted to an officer shall vary between 0% and 6%, provided such increase does not take the officer's salary above the maximum for the salary class of the position he holds.

The terms of increase are established as follows:

(1) 0% where the officer does not meet the expectations;

(2) 2% where the officer partially meets the expectations;

(3) 4% where the officer meets the expectations;

(4) 6% where the officer far exceeds the expectations (the employer grants 6% to a maximum of 25% of officers on the rise).

Where an employer does not carry out the officer's performance appraisal, a salary increase of 4% is granted to that officer.".

2. Section 25 is amended by replacing the second paragraph by the following:

"Where the rule provided for in the first paragraph no longer applies, the officer shall be entitled to the salary rules provided for in the second paragraph of section 20, with the necessary modifications.".

3. Section 27 is amended

(1) by inserting "intermediate" before "officer" in the first and second paragraphs;

(2) by adding the following paragraph at the end:

"Except for the period from 1 April 2018 to 31 March 2019, the provisions of this section apply to a physician officer referred to in section 8.1, with the necessary modifications.".

4. Section 29.0.1 is amended by inserting the following after the second paragraph:

"As of 1 April 2017, an officer who holds an office of senior managerial advisor in nursing care to supervise the quality of the practice and whose usual powers of his office are exercised at more than 50% in a unit or activity centre referred to in the first or second paragraph receives an allowance for critical care of 14% of the officer's salary. As of that same date, the officer who coordinates the unit's or activity centre's evening, night, weekend or statutory holiday activities referred to in the first or second paragraph receives 25% of that allowance.".

5. Section 29.0.1.1 is amended by inserting the following after the first paragraph:

"As of 1 April 2017, an officer who holds an office of senior managerial advisor in nursing care to supervise the quality of the practice and whose usual powers of his office are exercised at more than 50% in an activity centre referred to in the first paragraph also receives that allowance.".

6. Section 29.0.1.2 is amended by inserting the following after the first paragraph:

"The rule referred to in the first paragraph applies to a senior managerial advisor, with the necessary modifications.".

7. Subdivision 7 of Division 8 of Chapter 3 is replaced by the following:

"***§7.*** *Attraction and retention allowance for officers on the roll of the Ordre des psychologues du Québec*

29.0.4. An officer of the psychologist profession who is a member of the Ordre des psychologues du Québec carrying out a duty whose nature of the position corresponds to the training and profession required to hold such a managerial duty receives an attraction and retention allowance of

(1) 9.5% for the period from 1 April 2017 to 1 April 2019;

(2) 6.9% for the period from 2 April 2019 to 30 March 2020.

The allowance is paid to the officer in the form of a lump sum in proportion to the time worked and according to the procedures of the employer's pay system. A statutory holiday, a flexible leave, an annual leave and a personal leave are considered to be time worked.

"***§8.*** *Attraction and retention allowance for officers on the roll of the Barreau du Québec*

29.0.5. An officer of the advocate profession who is a member of the Barreau du Québec carrying out a duty whose nature of the position corresponds to the training and profession required to hold such a managerial duty receives, as of 1 April 2017, an attraction and retention allowance.

For an officer who has reached for at least 1 year the maximum of the officer's salary class, the allowance is 5% of the officer's salary. That percentage is increased to 10% for the officer who has reached it for at least 2 years and to 15% after at least 3 years. Despite the foregoing, for the officer referred to in section 24 or 25, the salary shall be the salary determined by those sections.

The allowance is paid to the officer in the form of a lump sum in proportion to the time worked and according to the procedures of the employer's pay system. A statutory holiday, a flexible leave, an annual leave and a personal leave are considered to be time worked.

"***§9.*** *Attraction and retention allowance for medical physician officers*

29.0.6. As of 1 April 2017, an officer who holds graduate-level training attesting to graduate studies recognized in medical physics and who directly supervises a unit or service where activities related to the officer's field of studies are mainly carried out receives an attraction and retention allowance of 6.2% of the officer's salary.

The allowance is paid to the officer in the form of a lump sum in proportion to the time worked and according to the procedures of the employer's pay system. A statutory holiday, a flexible leave, an annual leave and a personal leave are considered to be time worked.

"***§10.*** *Attraction and retention allowance for occupational hygiene technician officers*

29.0.7. As of 1 April 2017, an officer who holds a diploma of college studies in environmental, occupational health and safety techniques and who directly supervises a unit or service where activities related to the officer's field of studies are mainly carried out receives an attraction and retention allowance of 13.5% of the officer's salary.

The allowance is paid to the officer in the form of a lump sum in proportion to the time worked and according to the procedures of the employer's pay system. A statutory holiday, a flexible leave, an annual leave and a personal leave are considered to be time worked.

"***§11.*** *Attraction and retention allowance for biomedical engineering technician officers*

29.0.8. As of 1 April 2017, an officer who holds a diploma of college studies with a specialization in electrical engineering and who directly supervises a unit or service where activities related to the officer's field of studies are mainly carried out receives an attraction and retention allowance of 9% of the officer's salary.

The allowance is paid to the officer in the form of a lump sum in proportion to the time worked and according to the procedures of the employer's pay system. A statutory holiday, a flexible leave, an annual leave and a personal leave are considered to be time worked.

"***§12.*** *Availability allowance*

29.0.9. As of 1 April 2018, where the duty of a senior officer requires that the senior officer be available on a regular and continuous basis outside the senior officer's standard work schedule and that the establishment in which the senior officer works offers services 24 hours a day and 7 days a week, the senior officer receives an availability allowance.

That allowance represents 3.5% of the director's salary and 3% of the assistant director's salary. The allowance replaces the compensation for availability referred to in section 27.

The allowance is paid to the senior officer in the form of a lump sum in proportion to the time worked and according to the procedures of the employer's pay system. A statutory holiday, a flexible leave, an annual leave and a personal leave are considered to be time worked.

The board of directors of the institution must designate the senior officer who is required to ensure continuity in the delivery of health services or social services in order to avoid any break in the continuity of such services.

This section does not apply to a physician officer referred to in section 8.1.".

8. Section 29.1 is amended by adding the following at the end:

"As of 1 April 2017, an officer who holds an office of senior managerial advisor where the usual powers of his office are exercised at more than 50% in psychiatry shall receive the holidays referred to in the first paragraph.".

9. The following is inserted after section 29.1:

"**DIVISION 10**
DEVELOPMENT OF MAJOR OR NATIONAL LARGE-SCALE PROJECTS

29.2. As of 1 April 2018, an officer required by his employer for the development or implementation of a major or national large-scale project receives an allowance of 5% or 10% of the officer's salary.

The allowance depends on the scope of participation in the project. The scope is measured, among other things, by the scale of the desired objectives and expected results, as well as the leeway and power of representation granted to the officer.

The major or national large-scale project must have been authorized by the Minister. The Minister establishes the percentage of the allowance based on the scope of participation of the senior administrator in the project. The project is valid for a maximum period of 18 months. It may be extended by 9 months, subject to the authorization of the Minister.

The officer may not hold his position during his designation to carry out the project. At the end of his designation, the officer resumes his position with his employer, subject to the provisions respecting employment stability provided for in Chapter 5. The officer's choice under section 94 is made at the end of his designation.

The allowance is paid to the officer in the form of a lump sum in proportion to the time worked and according to the procedures of the employer's pay system. A statutory holiday, a flexible leave, an annual leave and a personal leave are considered to be time worked.".

Treasury Board

Gouvernement du Québec

T.B. 219030, 20 March 2018

An Act respecting the Pension Plan
of Management Personnel
(chapter R-12.1)

Contributory amount into the employees' contribution fund

Additional contributory amount into the employees' contribution fund under the Pension Plan of Management Personnel

WHEREAS, under the first paragraph of section 196.30 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), the Government pays into the employees' contribution fund referred to in section 176 an annual contributory amount corresponding to the product obtained by multiplying a percentage and the sum of the salaries of the employees who are members of the plan for a given year. This percentage, the reference year for the sum of the salaries used for the purposes of the multiplication, and any condition applicable to the payment of the annual contributory amount are determined by regulation;

WHEREAS, under the second paragraph of section 196.30, the annual contributory amount is based on the amount corresponding to the reduction of the amortization expense for unamortized actuarial losses, reported in the Government's income statement for the year concerned, due to the decrease in the actuarial value of the Government's obligations with regard to the plan. That decrease is determined by Retraite Québec and is related to the amendments made by the Act to foster the financial health and sustainability of the Pension Plan of Management Personnel and to amend various legislative provisions (2017, chapter 7). However, the annual contributory amount may not exceed that amount;

WHEREAS the Conseil du trésor made the Regulation under the Act respecting the Pension Plan of Management Personnel (chapter R-12.1, r. 1) by Decision 202420 dated 24 May 2005;

WHEREAS the Conseil du trésor made the Regulation to amend the Regulation under the Act respecting the Pension Plan of Management Personnel by Decision 218307 dated 21 November 2017, with the purpose of determining a percentage, a reference year for the sum of the salaries used for the purposes of the multiplication and a condition applicable to the payment of the annual contributory amount of the 2017-2018 fiscal year;

WHEREAS, under the third paragraph of section 196.30, the Government may pay an additional contributory amount into the employees' contribution fund, according to the terms and conditions it determines. If applicable, the annual contributory amount for subsequent years is reduced as a result of the additional contributory amount paid;

WHEREAS, under the fourth paragraph of section 196.30, the sums required for the purposes of that section must be taken out of the Consolidated Revenue Fund;

WHEREAS the Conseil du trésor decided, by Decision 218430 dated 19 December 2017, that an additional contributory amount of $250,000,000 be paid into the employees' contribution fund under the Pension Plan of Management Personnel;

WHEREAS it is expedient to pay a new additional contributory amount into the employees' contribution fund;

WHEREAS, under section 40 of the Public Administration Act (chapter A-6.01), the Conseil du trésor, after consulting the Minister of Finance, exercises the powers conferred on the Government by an Act that establishes a pension plan applicable to personnel of the public and parapublic sectors, except for certain powers;

WHEREAS the consultation has taken place;

THE CONSEIL DU TRÉSOR DECIDES:

THAT an additional contributory amount of $168,500,000 is hereby paid into the employees' contribution fund under the Pension Plan of Management Personnel.
