EXPLANATORY NOTES

This bill amends the Act respecting off-highway vehicles to provide for stricter regulation of the use of such vehicles. It increases the minimum age for operating an off-highway vehicle from 14 to 16. It puts a limit on the engine power of off-highway vehicles available for short-term rental. It specifies that the operator of an off-highway vehicle must comply with the conditions, restrictions and prohibitions imposed by an off-highway vehicle club for the use of trails, including the requirement to pay an access fee. It reinforces traffic control on trails by providing for the hiring of new security officers. It also makes adjustments concerning the operation of off-highway vehicles on private land and trails operated by a club as well as on certain public highways. In addition, the bill prescribes progressive fines for speeding offences.

The bill contains measures to better control noise emissions and hydrocarbon releases into the environment attributable to off-highway vehicles. Among other measures, it prohibits modifying an off-highway vehicle, the exhaust system in particular, in such a way that such emissions or releases may be increased.

The bill maintains for a five-year period immunity from legal action for neighbourhood nuisances, noise or odours relating to the operation of off-highway vehicles on trails forming part of the interregional network to be established by order of the Minister. It provides for a review of the immunity after three years. It also grants immunity to persons who agree to trails being laid out and operated on their property.

Lastly, the bill replaces the approval required from the Minister of Transport regarding municipal by-laws governing the operation of off-highway vehicles on public highways by a power of disallowance.

LEGISLATION AMENDED BY THIS BILL:

- Highway Safety Code (R.S.Q., chapter C-24.2);
- Act respecting off-highway vehicles (R.S.Q., chapter V-1.2).
