EXPLANATORY NOTES

This Act allows a passenger to be transported, under certain conditions, on a four-wheel all-terrain vehicle originally designed to transport one person only. Such a vehicle may be modified by the addition of a seat which must be installed according to the standards of the seat manufacturer.

The Act provides that the operator of a vehicle modified in such a way must be at least 18 years of age to transport a passenger and must hold a certificate attesting to the fact that the operator has the competence and knowledge required to operate such a vehicle when transporting a passenger. The Act also changes the regulatory powers of the Government and the applicable penal provisions.

The Act also makes changes to the provisions governing compulsory equipment.

Finally, the Act grants to the Minister of Transport the power to authorize and oversee the testing of new vehicles, equipment and traffic rules.

LEGISLATION AMENDED BY THIS ACT:

- Act respecting off-highway vehicles (R.S.Q., chapter V-1.2).
