EXPLANATORY NOTES

This Act amends various legislative provisions applicable to municipalities and various other municipal bodies with regard particularly to the rules governing the awarding of contracts.

The Act grants the Government the power to determine by regulation any authorization, condition or rule to which a contract awarded by a municipal body is subject, in addition to the authorizations, conditions or rules for awarding contracts already set out or provided for in the Act applicable to the municipal body concerned. It requires municipal bodies to adopt a contract management policy and make it accessible.

The Act introduces a prohibition for members of the council and officers or employees of the municipal body against revealing, before the opening of tenders, any information that may be used to determine the number of persons or the identity of the persons who have submitted a tender or requested a copy of the call for tenders or of a document to which it refers.

It provides that the municipal body must establish an estimate of the price of a contract involving an expenditure of \$100,000 or more before any tenders are opened or the contract is entered into.

The Act requires every municipal body to publish and keep up to date, on the Internet, a list of the contracts it enters into that involve an expenditure of \$25,000 or more. It identifies the information on the list and states that it must remain posted for at least three years. It also sets out the rules governing payment of a contract.

The Act also extends to various municipal bodies the powers the Minister has to give advice, make recommendations and carry out investigations or verifications with regard to municipalities. It specifies the powers of the persons who will carry out the verifications and grants the Minister the power to give instructions to the council of a municipal body following an investigation or a verification. Lastly, the Act provides that the advice, recommendations and instructions of the Minister will be posted on the department's website.
