NOTE

This volume contains the text of Acts assented to in 1999.

It also contains information that enables the reader to locate an Act, to trace the stages of its consideration in the National Assembly and to determine its effects on existing legislation.

Each Act is preceded by an introductory page indicating, in addition to the chapter number and title of the Act, the corresponding bill number, the name of the Member who introduced the bill, the date of each stage of consideration in the National Assembly, the date of assent, the date or dates of coming into force if fixed on 1 March 2000, and a list of the Acts amended by the Act.

The table of amendments is a cumulative listing of all amendments made to the Revised Statutes of Québec, 1977 and other public Acts, including amendments made by the Acts passed in 1999. It is followed by a table of general amendments and a table of corrections made for updating purposes since 1979 pursuant to the Act respecting the consolidation of the statutes and regulations (R.S.Q., chapter R-3).

The equivalence table lists the chapter number in the Revised Statutes of Québec assigned to Acts adopted between 1 January 1999 and 1 January 2000.

A table, compiled since 1964, shows the dates on which public legislative provisions came into force by proclamation or order in council, except those already indicated in the annual volumes of statutes. The next table enumerates legislative provisions which have yet to be brought into force by proclamation or order in council. Another table lists the letters patent issued in respect of municipalities in 1999, whose publication is required by law.

The table of concordance lists, opposite each other, the bill number of each Act and its chapter number in the annual volume of statutes.

Most of the information described above can be found in the yellow pages of the volume. An alphabetical index is provided at the end of the volume.

AN ACT RESPECTING THE CONSTRUCTION OF INFRASTRUCTURES AND EQUIPMENT BY HYDRO-QUÉBEC ON ACCOUNT OF THE ICE STORM OF 5 TO 9 JANUARY 1998

[Assented to 19 June 1999]

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS :

- Legalization. **1.** The object of this Act is to give legal validity to the construction by Hydro-Québec of infrastructures and equipment in the administrative regions of Estrie, Mauricie, Montérégie, Montréal, Outaouais and Québec on account of the ice storm of 5 to 9 January 1998.
- Retroactive exemption. **2.** The construction by Hydro-Québec, prior to 11 March 1999, of the infrastructures and equipment referred to in Part I of the Schedule is retroactively exempted from authorization by the Government under the Hydro-Québec Act (R.S.Q., chapter H-5).
- Retroactive exemption. The same applies to the acquisition by expropriation of the immovables and real rights necessary for the construction and operation of such infrastructures and equipment, as regards both government authorization under the above-mentioned Act and authorization under the Expropriation Act (R.S.Q., chapter E-24).
- Retroactive exemption. **3.** The operations referred to in Part I of the Schedule and operations accessory thereto, carried out prior to 11 March 1999, as well as the operation of the infrastructures and equipment constructed prior to that date, are retroactively exempted from the application of the Act respecting land use planning and development (R.S.Q., chapter A-19.1), the Act respecting the preservation of agricultural land and agricultural activities (R.S.Q., chapter P-41.1) and the Environment Quality Act (R.S.Q., chapter Q-2).
- Retroactive exemption. Past or future operations to preserve and secure such infrastructures and equipment as well as restoration operations required by property damaged by the construction of such infrastructures and equipment are also exempted from the application of those Acts.
- Past and future operations. **4.** The exemptions provided for in sections 2 and 3 are applicable, as regards both past and future operations, to the connection of the line referred to in paragraph 2 of Part I of the Schedule to the Des Cantons and Saint-Césaire Substations and, in an emergency, to the operation of that 230 kV line.

- Separate projects. The Acts referred to in section 3 shall apply in respect of the proposed operations referred to in Part II of the Schedule and operations accessory thereto, as though they were part of projects separate from those that gave rise to the operations referred to in Part I of the Schedule.
- Authorization. The continuation of such construction operations is subject to authorization by the Government, which shall stand in lieu of the authorization required under subparagraph 1 of the first paragraph of section 73 of the Act respecting the Régie de l'énergie (1996, chapter 61).
- Presumption. **6.** To determine the rate base pursuant to subparagraph 1 of the first paragraph of section 49 of the Act respecting the Régie de l'énergie, the infrastructures and equipment referred to in Part I of the Schedule are deemed to be assets prudently acquired and useful for the operation of Hydro-Québec's power transmission system.
- Maps. **7.** The location of the infrastructures and equipment referred to in Part I of the Schedule is shown on the maps reproduced in sessional paper number 284-19990506 tabled in the National Assembly on 6 May 1999.
- Validity. **8.** No act to which Hydro-Québec is party is invalid for the sole reason that it relates to an operation which, in the absence of this Act, would be inconsistent with the objectives of a development plan or would contravene the provisions of a by-law of a regional county municipality, an Act referred to in section 2 or 3 or a statutory instrument under such an Act.
- Proceedings prohibited. **9.** No proceedings against the Government or Hydro-Québec may be admitted or maintained on the grounds that operations referred to in Part I of the Schedule or operations accessory thereto, carried out prior to 11 March 1999, were carried out without the authorizations referred to in section 2 or in contravention of an Act referred to in section 3 or its statutory instruments or on the grounds that infrastructures or equipment referred to in Part I of the Schedule constructed prior to that date are being operated in contravention of such an Act or statutory instrument.

- Arbitration. Any disagreement as to the application of this section shall be referred to arbitration as if it were a grievance within the meaning of the applicable conditions of employment.
- Cessation of payment. **8.** Where an institution ascertains that a certified association of employees representing nurses in the institution's employ has declared or carried on a strike in contravention of section 4 of the Act to ensure that essential services are maintained in the health and social services sector, the institution shall cease to pay, for the period determined under the third paragraph, to any nurse released during that period to carry on union activities for the association or the federation, after so advising the association of employees, any salary for the time during which the employee is released.
- Applicability. The first paragraph also applies where an institution ascertains that the nurses represented by the association of employees do not comply with section 2 of that Act in sufficient number to ensure that the essential services,

as provided in an agreement or list or, if none, as provided in sections 111.10 and 111.10.1 of the Labour Code (R.S.Q., chapter C-27), are maintained.

Duration of penalty. The cessation of payment prescribed by this section shall continue for twelve weeks for each day or part of day during which the institution has ascertained the existence of circumstances described in the first or second paragraph.

Exception. However, the cessation of payment prescribed by this section does not apply in respect of an employee who is released where the employee participates in the work of a committee referred to in this Act.

Necessary measures. **9.** The executive director of an institution shall take the necessary measures to ensure that the sanctions provided for in sections 7 and 8 of this Act and sections 18 to 22 of the Act to ensure that essential services are maintained in the health and social services sector are applied not later than from the second pay period after the pay period during which the contraventions occurred.

Application of measures. The application of the measures may not be deferred, cancelled or reduced by agreement.

§4. — *Modifications to certain conditions of employment*

Conditions of employment modified. **10.** The conditions of employment of nurses, in force pursuant to section 51 of the Act respecting the process of negotiation of the collective agreements in the public and parapublic sectors, are modified to make the conditions of employment agreed between the parties at the negotiating session of 22 June 1999 and set out in the schedule applicable until the renewal of stipulations negotiated and agreed at the national level.

Joint committee. **11.** A joint committee on the remuneration of nurses is hereby established.

Composition. The joint committee is composed of representatives of the federation, and of representatives of the Conseil du trésor and the management negotiating committee established under section 36 of the Act respecting the process of negotiation of the collective agreements in the public and parapublic sectors.

Mandate. **12.** The mandate of the committee is to examine the following matters :

(1) the recognition of separate positions for nurses and nurses with a bachelor's degree ;

(2) the admission requirements applicable to those separate positions ;

(3) the consideration for salary purposes of post-college training ;

(4) the evaluation of positions held by nurses with a bachelor's degree and their ranking in the government system of pay relativity, as well as the review of the evaluation and ranking of positions held by nurses.

- Coordination.** The committee shall ensure that its work is coordinated with that of other work groups or committees whose mandate is also to examine the relativity, for salary purposes, of technical, professional or support positions in the public and parapublic sectors.
- Progress report.** The committee shall submit to the parties, not later than 30 September 1999, a progress report setting forth matters that have been documented sufficiently to enable an agreement to be concluded during 1999, and matters that will necessitate the work being continued.
- Final report.** The final report of the committee shall be submitted to the parties not later than 30 September 2000.

DIVISION II

PHARMACEUTICAL SERVICES IN INSTITUTIONS

- Inquiry.** **13.** At the request of any interested person, the Conseil des services essentiels shall conduct an inquiry into any strike, slowdown or other concerted action, apprehended or in progress, involving a body representing the pharmacists working for institutions and in connection with the negotiations to renew an agreement referred to in section 432 of the Act respecting health services and social services (R.S.Q., chapter S-4.2).
- Inquiry.** The council may conduct such an inquiry on its own initiative.
- Powers.** **14.** If the council considers that the strike, slowdown or other concerted action is or is likely to be prejudicial to a service to which the users of institutions are entitled, the council may exercise its powers under sections 111.17 to 111.20 of the Labour Code.

DIVISION III

FINAL PROVISIONS

- Applicability.** **15.** This Act shall not operate to restrict the application of the Act to ensure that essential services are maintained in the health and social services sector.
- Coming into force.** **16.** This Act comes into force on 2 July 1999.

SCHEDULE
(*section 10*)

**CONDITIONS OF EMPLOYMENT AGREED BETWEEN THE PARTIES
AT THE NEGOTIATING SESSION OF 22 JUNE 1999**

Transfers

1. Vacant positions are posted within a period of 90 days from the day the positions become vacant except where they are covered by a special measure. In that case, they are posted within a period not exceeding 12 months from a notice relating to the special measure.

Positions temporarily deprived of an incumbent

2. An employee registered on an availability list assigned, for a scheduled period of six months or more, to a full-time position temporarily deprived of its incumbent is considered to be a full-time employee during that period, and the benefits associated with full-time status are applied to the employee.

3. The parties may agree locally on any question related to the float team, in particular questions related to the conditions for the assignment of employees.

4. When no assignment is available for an employee on the float team, the assignment held by an employee on the availability list may be given to the employee on the float team. The employee on the availability list concerned is the employee with the least seniority among those who have an assignment with less than 20 days left and for which the employee on the float team meets the requirements.

5. An employee registered on the availability list may be assigned in advance. The assignment may not be disputed by the employee and may not be claimed by another employee by reason of seniority, if not more than seven days remain before the date of the beginning of the assignment.

6. An employee holding a part-time position who temporarily leaves that position in order to obtain an assignment in the employee's centre of activities, is not obliged to continue in the assignment if the number of days of the assignment becomes less than that of the employee's position.

7. During the period of annual vacation, an employee on the availability list may be assigned to replace more than one employee on annual vacation. The assignments are given within 30 days of the posting of the annual vacation schedule.

8. Before recruitment agency nurses are called upon, an assignment in a local community service centre of 14 days or less or of an undetermined length of time that was not granted in whole to an employee on the availability list is divisible and is offered, by order of seniority, according to the availability expressed, in the following order:

- (1) to employees who hold part-time positions in the centre of activities ;
- (2) to other employees registered on the availability list.

However, when it becomes foreseeable that the length of an assignment, which was undetermined, will be greater than 14 days, this paragraph ceases to apply following a notice of seven days to the employees concerned.

Workload complaint procedure

9. Where a complaint filed with the Committee on Nursing has not been settled :

(1) one of the parties may, within five working days from the date the Committee's recommendations are received, require the intervention of a resource person. That person is responsible for collecting the facts and attempting to bring the parties to an agreement within a period of five working days ;

(2) the parties agree on the choice of the resource person within 10 working days. Failing agreement, the person is appointed by the Minister of Health and Social Services ;

(3) if the complaint is not settled, the resource person files a written report and the evidence collected with each party and the designated arbitrator in accordance with paragraph 4 ;

(4) the employee concerned or the association of employees may request arbitration within 30 days of the date the resource person's report is filed. The parties agree upon the choice of the arbitrator. Failing agreement, the arbitrator is appointed by the Minister of Labour ;

(5) the arbitrator decides the complaint summarily after receiving the parties' observations. The decision of the arbitrator must contain reasons and be rendered in writing within three weeks following the arbitrator's appointment. The arbitrator transmits the decision to the Minister of Health and Social Services as well as to the parties. The decision is executory and binding on the parties. Unless otherwise indicated therein, the decision must be put into application within 30 days, except if it is absolutely impossible ;

(6) the expenses and fees of the resource person and of the arbitrator, if any, are borne by the employer.

Conversion of replacement hours into positions

10. The parties agree on the importance of converting replacement hours into positions so as to contribute to the reduction of precarious employment among the employees.

To that end, a parity committee is set up in each institution. The local parties undertake, in the four months following the coming into force of this Act, to convert replacement hours into positions. Such conversion is to be effected to the extent justified by the needs.

For that purpose, the parties use as an annual basis for calculation the budget period in which there was the lowest number of replacement hours in the 12 months preceding the coming into force of the schedule. These hours include the hours worked in the certification unit by employees on the availability list, those worked by the replacement team, excluding those worked by surplus personnel, those worked by an employee of another certification unit and those worked by recruitment agency nurses, to which are added overtime hours worked to replace a complete work shift.

The parties analyze the number of hours so obtained and, in order to reduce them, take into account

(1) the number of hours of positions that were created following a conversion of replacement hours into positions and the number of replacement hours attributable to vacant positions. Those hours are those worked since the end of the reference month and do not include those attributable to development ;

(2) the number of hours worked as replacement for positions that have been abolished ;

(3) the number of hours involving a conversion affecting employment ;

(4) the recurrent nature of absences ;

(5) the frequency of simultaneous absences per work shift or part of work shift as well as per day of the week ;

(6) the need to ensure that the creation of positions does not lead to a shortage of staff or an increase in the number of hours worked.

The employer must post the number of positions corresponding to the total number of hours resulting from the conversion. The number must be posted within 30 days of the end of the work by the committee.

The parties agree to promote as much as possible the conversion of replacement hours into full-time positions. The conversion is carried out by the creation of positions in the following manner :

(1) first in the centres of activities where justified by the needs :

— first full-time positions ;

— then part-time positions in accordance with the procedure established for the assignment of part-time positions ;

(2) then by float team positions or compound positions or compound positions of which the float team is a component :

- first full-time positions ;
- then part-time positions in accordance with the procedure established for the assignment of part-time positions.

Where, in one of the preceding steps, the number of work days not recovered following the procedure established for the assignment of part-time positions is lower than four days per two-week period, the employer may also post a compound position including more than one position title in the same centre of activities or in more than one centre of activities or consider that the float team is a component of the compound position, despite the definition of compound position. The parties agree locally on the administrative arrangements necessary for the management of the compound positions.

The local parties may agree to set up interdepartmental float teams. The employees on such a team are called upon to work exclusively within a limited number of pre-determined centres of activities.

The parties may also agree upon any other arrangements capable of maximizing the effect of the provisions of this paragraph.

For the purpose of participation in the work of the parity committee, the employer grants days of leave without loss of salary to one or several employees in the proportion established as follows :

- from 1 to 49 employees : 10 days
- from 50 to 99 employees : 21 days
- from 100 to 299 employees : 42 days
- 300 employees and more : 60 days.

For the purposes of the preceding paragraph, the number of employees included in the certification unit is the number of employees on 1 January of the current year.

Institutions affected by a total closure or change of vocation following the publication of the regional boards' three-year plans for the reorganization of services are exempted from the application of this paragraph.

Two years after the conversion of replacement hours into positions has been effected, the parties shall effect another conversion.

- Payment of annual vacation pay. **7.** Notwithstanding the expiry of the Decree respecting the women's clothing industry, an employee to whom an employer has credited sums as compulsory annual vacation pay between 1 March 1999 and 29 February 2000 is entitled to payment during the year 2000 of annual vacation pay equal to 8% of the monthly earnings reported in respect of the employee, for that period, to the joint committee responsible for monitoring and ensuring compliance with the decree, provided the vacation indemnities have been collected as provided in section 8.03 of the decree.
- Time limit. The joint committee shall pay to such an employee, not later than 8 July 2000, vacation pay equal to 6% of those earnings, and, not later than 8 December 2000, the Commission des normes du travail shall pay to the employee vacation pay equal to 2% of the same earnings.

- Presumption. For the purposes of applying the first paragraph and the Regulation respecting the monthly report of the Ladies' Clothing Joint Commission (O.C. 359-93 dated 17 March 1993) in respect of an employer referred to in that paragraph, the Decree respecting the women's clothing industry is deemed to subsist until 11 July 2000.

The funds and sums transferred to the Commission and the sums collected by the Commission pursuant to section 8 become funds kept in trust by the Commission for the sole purpose of paying that vacation pay and making the payments provided for in section 7, and subparagraph *o* of the second paragraph of section 22 of the Act respecting collective agreement decrees does not apply to such funds and sums.
- Allocation of funds. The Minister of Labour shall allocate, out of the remaining property referred to in section 27 of the Act respecting collective agreement decrees, the sums

required to provide for the vacation pay and payments referred to in the first paragraph if the funds kept in trust by the Commission are insufficient. Joint plan.

Two or more regional county municipalities or urban communities may agree to establish a joint residual materials management plan. Exclusion option.

Dumping restriction.

Where an urban community or regional county municipality intends to restrict or prohibit the dumping or incineration in its territory of residual materials from outside the territory, it must state that intention in the plan and where a limit is set, indicate the quantities applicable to the residual materials concerned.

- Dumping restriction. Where the draft management plan states that the urban community or regional county municipality intends to restrict or prohibit the dumping or incineration in its territory of residual materials from outside the territory, the Minister shall indicate whether, in the Minister’s opinion, the restriction or

prohibition is likely to compromise public health or safety ; if that is the case, the Minister shall call on the parties concerned to collaborate and to reassess the residual materials elimination capacity needs of each neighbouring urban community or regional county municipality, or urban community or regional county municipality served by an elimination facility located in the territory covered by the draft plan, so as to prevent adverse effects on public health or safety.

The notice must also be sent to each neighbouring urban community or regional county municipality, or urban community or regional county municipality served by an elimination facility located in the territory covered by the plan.

Regulatory powers.	<p>“53.21. If the urban community or regional county municipality has not amended its management plan within the time specified in the notice of refusal or within any additional time granted by the Minister, or if the latter gives an unfavourable opinion within that time on the amendments made to the plan, the Minister may exercise the regulatory powers in the place and instead of the urban community or regional county municipality in order to bring the management plan into compliance with government policy or to prevent adverse effects on public health or safety.</p>

The brokerage permit holder shall allocate to a new subscriber the average working time of the other subscribers or, in the case of a transfer, the working time of the transferor.
- Priority.** The order of the trucks on the priority list gives priority to subscribers having accumulated the least working time with their first trucks.

Interest payable.

Any amount of interest payable under this Act must be determined as if the presumption provided in the first paragraph did not apply.”

(2) Subsection 1 applies in respect of gifts made after 31 July 1997.

c. I-3, ss. 752.0.10.16
– 752.0.10.18, added.

96. (1) The said Act is amended by inserting, after section 752.0.10.15, the following sections:

Gift of non-qualifying
securities.

“**752.0.10.16.** For the purposes of this chapter, where at any particular time an individual makes a gift, including a gift that, but for this section and section 752.0.10.9, would be deemed under section 752.0.10.10 to have been made at the particular time, of a non-qualifying security of the individual and the gift is not an excepted gift of the individual, the following rules apply:

(a) except for the purpose of determining the individual's proceeds of disposition of the security pursuant to section 752.0.10.12, the gift is deemed not to have been made;

(b) where the security ceases to be a non-qualifying security of the individual at a subsequent time that is within 60 months after the particular time and the donee has not disposed of the security at or before the subsequent time, the individual is deemed to have made a gift to the donee of property at the subsequent time and the fair market value of that gift is deemed to be the lesser of the fair market value of the security at the subsequent time and the amount of the gift made at the particular time that would, but for this section, have been included in the individual's total charitable gifts or total Crown gifts for a taxation year;

(c) where the security is disposed of by the donee within 60 months after the particular time and paragraph *b* does not apply to the security, the individual is deemed to have made a gift to the donee of property at the time of the disposition and the fair market value of that gift is deemed to be the lesser of the fair market value of any consideration, other than a non-qualifying security of the individual or a property that would be a non-qualifying security of the individual if the individual were alive at the time of the disposition, received by the donee for the security and the amount of the gift made at the particular time that would, but for this section, have been included in the individual's total charitable gifts or total Crown gifts for a taxation year; and

(d) a designation under section 752.0.10.12 in respect of the gift made at the particular time may be made in the individual's fiscal return for the year that includes the subsequent time referred to in paragraph *b* or the time of the disposition referred to in paragraph *c*.

Exchanged security.

“752.0.10.17. Where a share, in this section referred to as the “new share”, that is a non-qualifying security of an individual has been acquired by a donee referred to in section 752.0.10.16 in exchange for another share. in this section referred to as the “exchanged share”, that is a non-qualifying security of the individual as a result of a transaction to which any of sections 301, 301.1, 537 and 541 to 555.4 applies, the new share is deemed for the purposes of section 752.0.10.16 and this section to be the same share as the exchanged share.

Fair market value of a gift.

“752.0.10.18. For the purposes of this chapter, the fair market value of a gift of property made at any particular time by an individual is deemed to be equal to the fair market value of the gift of property otherwise determined minus the amount described in the second paragraph, where

(a) if the property is a non-qualifying security of the individual, the gift is an excepted gift; and

(b) within 60 months after the particular time,

i. the donee holds a non-qualifying security of the individual that was acquired by the donee on the latest of 1 August 1997 and any time that is after 60 months before the particular time, or

ii. where the individual and the donee do not deal at arm's length with each other,

(1) the individual or any person or partnership with whom or with which the individual does not deal at arm's length uses property of the donee under an agreement that was made or modified after the time that is 60 months before the particular time and has begun to so use it after 31 July 1997, and

(2) the property was not used in the carrying on of the donee's charitable activities.

Interpretation.

The amount to which the first paragraph refers is the aggregate of all amounts each of which is the fair market value of the consideration given by the donee to acquire a non-qualifying security referred to in subparagraph i of subparagraph *b* of the first paragraph or the fair market value of property referred to in subparagraph ii of that subparagraph *b*, as the case may be.

Fair market value of the consideration.

Where the first paragraph applies for the purpose of determining the fair market value of a gift made at any particular time by an individual, the fair market value, referred to in the second paragraph, of consideration given to acquire a non-qualifying security referred to in subparagraph i of subparagraph *b* of the first paragraph or of property referred to in subparagraph ii of that subparagraph *b* is deemed to be equal to the fair market value of the consideration otherwise determined minus any portion of it that has been used under the first paragraph to reduce the fair market value of another gift made before that time by the individual."

(2) Subsection 1, where it enacts sections 752.0.10.16 and 752.0.10.17 of the said Act, applies in respect of gifts made after 31 July 1997.

(3) Subsection 1, where it enacts section 752.0.10.18 of the said Act, has effect from 1 August 1997.
