Special rules governing labour expenditure of a corporation.

For the purposes of the definition of “labour expenditure” in the first paragraph, the following rules apply :

(a) for the purposes of paragraph *a* of that definition, the salaries or wages directly attributable to the production of a property that is a qualified performance are, where an eligible employee directly undertakes, supervises or supports the production of the property, the portion of the salaries or wages paid to or on behalf of the employee that may reasonably be considered to relate to the production of the property ;

(b) remuneration, including a salary or wages, does not include remuneration by reference to the profits or revenues derived from the operation of a property or an expenditure as remuneration that is, or may reasonably be considered to be, incurred by a corporation, as a mandatary, on behalf of another person ;

(c) the amount referred to in paragraph *a* or *b* of that definition shall be determined by considering, where the salary or wages, or remuneration, as the case may be, relates to the performance of the property before an audience, only the performances before an audience that occur in the three years after the first performance of the property before an audience ;

(d) the amount of the labour expenditure of a corporation for a taxation year in respect of a property shall be reduced, where applicable, by the amount of any government assistance and non-government assistance attributable to that expenditure, that the corporation has received, is entitled to receive or may reasonably expect to receive on or before the corporation's filing-due date for the year ; and

(e) where, for a taxation year, a corporation is not a qualified corporation, its labour expenditure for the year in respect of a property is deemed to be nil.

Production costs.

For the purposes of subparagraph *i* of paragraph *b* of the definition of “qualified labour expenditure” in the first paragraph, the production costs of a corporation, for a taxation year, in relation to the production of a property that is a qualified performance are deemed to include the following amounts, but do not include the costs incurred for the broadcasting and promotion of the property nor the costs incurred in relation to a private performance of the property :

(*a*) the portion of the production costs, other than the production fees and administration costs, to the extent that they are reasonable in the circumstances and included in the production cost, cost or capital cost, as the case may be, of the property to the corporation, that is incurred in the year to produce the property, to the extent that the portion of those costs is incurred during a period from the pre-production of the property to the end of a period of three full years beginning on the day of the first performance of the property before an audience ;

(*b*) an amount relating to the production fees and administration costs in connection with the production of the property that corresponds to 15% of the amount determined in accordance with paragraph *a* ; and

(*c*) an amount equal to the fair market value of the use by the corporation before the end of the year of property or services as part of the production of the property, for no consideration on the part of the corporation.

Deemed repayment of assistance.

For the purposes of subparagraph 2 of subparagraph *i* of paragraph *a* of the definition of “qualified labour expenditure” in the first paragraph, and of subparagraph *i* of paragraph *b* of that definition, an amount of assistance is deemed, in respect of a property that is a qualified performance, to be repaid by a corporation in a taxation year, pursuant to a legal obligation, where that amount

(*a*) reduced, for the purpose of computing the amount that the corporation is deemed to have paid to the Minister for a taxation year under section 1029.8.36.0.0.11, in respect of the property,

For the purposes of subparagraph *i* of paragraph *b* of the definition of “qualified labour expenditure” in the first paragraph, an amount of government assistance or non-government assistance that a qualified corporation is entitled to receive in a taxation year in respect of a property that is a qualified performance is deemed not to be such an amount where that amount

(a) would, but for this paragraph, reduce, because of that subparagraph *i*, the production costs of the corporation for the year in respect of the property, for the purpose of computing the amount that the corporation is deemed to have paid to the Minister for the taxation year under section 1029.8.36.0.0.11 in respect of the property ;

Maximum tax credit.

The amount that a corporation is deemed to have paid to the Minister, under this section, on account of its tax payable for a taxation year under this Part in respect of a property that is a qualified performance shall not exceed the

amount by which, where the property is co-produced, the amount obtained by applying to \$300,000 its share, expressed as a percentage, of the production costs in relation to the production of the property stipulated in an agreement or, in any other case, \$300,000, exceeds the aggregate of all amounts each of which is an amount that the corporation is deemed to have paid to the Minister under this section in respect of the property for a preceding taxation year.

Series of operations.

Where this section applies in relation to a merger of corporations or transfer of property, referred to as “initial operation” in this paragraph, that occurred in the particular year, and in relation to a merger of corporations or transfer of property, referred to as “subsequent operation” in this paragraph, that occurred subsequently in the same year, and where any of the predecessor corporations or the corporation or partnership wound up or dissolved in the subsequent operation is a corporation or partnership that was, in the initial operation, the corporation resulting from the merger of corporations or the person or partnership that is the transferee of the transfer of property, mention of any corporation, person or partnership mentioned in subparagraph *a* or *b* of the first paragraph in relation to any such operation, made in subparagraph i of subparagraph *a* of the second paragraph or subparagraph i of subparagraph *b* of that paragraph, is deemed to include mention of any other corporation, person or partnership mentioned in subparagraph *a* or *b* of the first paragraph in relation to the other operation, made in either subparagraph i or made because of this paragraph.”

(1) the value of any pension to which the member was entitled prior to death; or

(2) if the member was not entitled to a pension prior to death, the value of the deferred pension to which the member would have been entitled had the member ceased to be an active member on that day and not died.

Determination of value of benefit.

The value of the benefit provided for in the first paragraph shall be determined without reference to the assumptions as to survival or mortality for the period prior to the first payment of the pension. Moreover, the following shall be added, where applicable, to the value of the benefit:

(1) any voluntary additional contribution credited to the account of the member and any member contribution paid in excess of the limit set in section 60 as well as the value of the additional pension under section 60.1, with accrued interest, as well as any amounts previously transferred, even otherwise than under section 98, with accrued interest, or the value of the pension purchased with those amounts; and

(2) any interest accrued between the date of death and the date of payment of the lump sum benefit, at the rate used for determining the value thereof.

The spouse may also revoke the waiver provided the committee is notified in writing before the member's death or, in the case of the pension referred to in the second paragraph of section 87, before the first payment of the member's pension.

Restrictions.

A waiver under this section does not entail a waiver of the rights which may devolve upon the spouse as the member's successor. In addition, notwithstanding such a waiver, the pension plan is deemed, for the purposes of article 415 of the Civil Code of Québec, to be governed by an Act which grants a right to death benefits to the surviving spouse."

The redetermined pension shall be in the same amount and have the same characteristics as the pension that would be payable to the member at the date of redetermination had the member not had a spouse on the date the payment of the pension began.

Redetermination.

Unless the pension committee has received the notice provided for in section 89, it must also redetermine the member’s pension if the benefits accrued to the member under the plan are partitioned, pursuant to section 107 or 110, subsequent to the first payment to the member of a pension established having regard to the spouse’s right to a pension under section 87.

In such a case, the annual amount of the replacement pension increased, where applicable, by the annual amount of any other temporary benefit to which the member or the spouse is entitled under the plan shall not exceed the lesser of

(1) 40% of the Maximum Pensionable Earnings established pursuant to the Act respecting the Québec Pension Plan for the year in which payment of the pension begins; and

In addition, a report that has been transmitted to the Régie can only be amended or replaced at the request or with the authorization of and subject to the conditions fixed by the Régie.”

c. R-15.1, s. 130, replaced.

78. Section 130 of the said Act is replaced by the following section:

Value of obligations.

“130. The actuarial valuation required under paragraph 2 of section 118 may be limited to the determination on a funding basis of the value of the additional obligations arising from an amendment to the pension plan or may only concern the variation in the current service contribution arising from the amendment. The value or the variation shall be determined on the basis of the same assumptions and methods as were used for the preceding actuarial valuation, unless they are not appropriate in view of the nature of the amendment made to the pension plan.

Value of obligations.

However, where the amendment to the pension plan increases the pensions already in payment and the additional obligations arising from the amendment are insured at the date on which the actuarial valuation report is prepared, the value of the obligations may be assumed to correspond to the premium paid to the insurer, discounted at the date of actuarial valuation according to the rate of return of the pension fund.

Increased obligations.

Where the amendment increases the obligations arising from the pension plan, an improvement unfunded actuarial liability equal to the value of the additional obligations shall be determined unless

(1) the actuary certifies that the pension plan would be funded and solvent or partially solvent if an actuarial valuation of the whole pension plan were made on the effective date of the amendment; and

(2) the value of the additional obligations is less than or equal to the value of the surplus assets determined at the time of the last actuarial valuation of the whole plan, less any portion of the surplus assets used pursuant to Chapter X.1 and the value of the obligations arising from any other amendment to the pension plan which, after being the subject of an actuarial valuation subsequent to the last valuation of the whole plan, was certified pursuant to subparagraph 1.

- Period of amortization. The period of amortization of the unfunded liability cannot exceed five years unless the actuary certifies that the pension plan is solvent or partially solvent at the valuation date.
- Degree of solvency. Unless the actuary certifies that the degree of solvency of the pension plan at the valuation date is or exceeds 100%, the actuary shall estimate the degree of solvency of the plan at the valuation date and indicate it in the actuary's report. In addition, the estimated degree of solvency applies from the date the valuation report is transmitted to the Régie for the purpose of paying out the value of benefits to members and beneficiaries under section 142.
- Financial position. Every certification required under this section shall reflect the financial position of the plan at the date of the actuarial valuation, estimated on the basis, in particular, of the actual rate of return of the pension fund and the contributions actually paid into the pension fund since the last actuarial valuation of the whole plan."
- c. R-15.1, s. 133, replaced.
Payment of higher amortization amounts. **79.** Section 133 of the said Act is replaced by the following section :
- "133. Where the employer pays a contribution which exceeds the contribution required under sections 39 and 140, the excess paid since the date of the last actuarial valuation of the whole pension plan may serve to reduce, in the following order, the amounts remaining to be paid in connection with
- (1) any amount determined pursuant to subparagraph 4 of the second paragraph of section 137;
 - (2) any technical actuarial deficiency;
 - (3) any initial unfunded actuarial liability;
 - (4) any improvement unfunded actuarial liability.
- Reduction. The reduction must, where applicable, be effected at the time of the first actuarial valuation of the whole pension plan subsequent to the excess payment of contribution.
- Insufficient excess. If the excess is insufficient to eliminate an unfunded liability or an amount determined pursuant to subparagraph 4 of the second paragraph of section 137, the reduction shall be applied proportionately to each amount remaining to be paid. In addition, if there is more than one unfunded liability or deficiency of the same nature or more than one amount determined pursuant to the said subparagraph, the reduction shall be applied from the earliest to the most recent."
- c. R-15.1, s. 134, am. **80.** Section 134 of the said Act is amended
- (1) by replacing "subparagraph 3" in the fifth line of the first paragraph by "subparagraph 4";

(2) by adding the following sentence at the end of the second paragraph :
 “This paragraph may not operate to prevent the reduction of the amortization amounts which, in relation to an improvement unfunded actuarial liability, remains to be paid after the fifth year following the date of the actuarial valuation.”;

(3) by adding the following paragraph after the second paragraph :

Restrictions.

“If the reduction option under section 133 is exercised, no reduction under this section may be made before that reduction. Moreover, if an improvement unfunded actuarial liability is determined at the date of the actuarial valuation, a reduction under this section can only be made before the determination of the unfunded liability. In such a case and for the sole purposes of the second paragraph, the liabilities of the plan on a solvency basis may be determined without reference to the related amendment to the plan.”

c. R-15.1, s. 138,
replaced.

81. Section 138 of the said Act is replaced by the following section :

Value of assets.

“138. For the purpose of determining the solvency of a pension plan, the assets of the plan shall be established according to their liquidation value or an estimate thereof and be reduced by the estimated amount of the administration costs to be paid out of the pension fund assuming that the pension plan is terminated on the valuation date.

Liabilities.

The liabilities of the pension plan shall be equal to the value of the obligations arising from the plan assuming that the plan is terminated on that date. Where the plan provides expressly that the amount of a member’s pension must be established with reference to the progression of the member’s remuneration after termination, the value of the pension must be established assuming that the plan is terminated in such circumstances that the benefits accrued to the member in respect of the pension must be estimated at their maximum value. Where the plan provides for other obligations the value of which depends on the circumstances in which the plan is terminated, they must be included in the liabilities to the extent provided in the scenario used for that purpose by the actuary in charge of the valuation.

Valuation report.

If the liabilities established pursuant to the second paragraph are less than the value of the obligations arising from the pension plan assuming that the plan is terminated on the valuation date in such circumstances that the benefits accrued to the members must be estimated at their maximum value, the valuation report must also indicate the latter value.

Determination of
values.

The values referred to in the second and third paragraphs shall be determined by applying sections 211 and 212 and subparagraph 1 of the second paragraph of section 212.1, with the necessary modifications. In the case of pensions already in payment, inasmuch as they are not insured at the valuation date, those values shall be determined according to an estimation of the premium that an insurer would charge to insure the pensions in the thirty-day period following the valuation date.

Liabilities.

Where, at the valuation date, the liabilities of the pension plan on a funding basis include obligations arising from an amendment whose effective date is subsequent to the date of the actuarial valuation but prior to the date referred to in paragraph 3 of section 118, the liabilities on a solvency basis shall be computed on the assumption that the effective date of the amendment is the valuation date. In addition, the degree of solvency determined on the basis of the liabilities so calculated shall apply, for the purpose of paying out the value of benefits to members and beneficiaries under section 142, from the effective date of the amendment or, where there is more than one effective date, from the first thereof.”

Maximum amount.

“146.2. The maximum amount of surplus assets that may be appropriated to the payment of employer contributions shall be the lesser of the surplus assets of the pension plan as determined on a funding basis and the surplus assets as determined on a solvency basis in the last actuarial valuation of the whole plan, reduced to take into account the value of the additional obligations arising from any amendment to the plan which, having been made after the last actuarial valuation of the whole plan, has not entailed the determination of an improvement unfunded actuarial liability.

Limitation.

In the case of a pension plan to which Chapter X does not apply, the maximum amount shall be limited to the portion of the assets which exceeds

the value of the obligations arising from the plan, assuming that the plan is terminated.

Surplus assets and payment of employer contributions.

However, no such amendment may be made while an application for union certification involving members of the plan is pending; if the application is granted, the prohibition is extended to the date of signature of the first collective agreement.

Amendment to pension plan.

“146.5. An amendment to a pension plan confirming the employer’s right to appropriate surplus assets to the payment of employer contributions and operating as provided in section 146.7 can only be made to give effect to a proposal of the employer which not only satisfies the requirements imposed by law and the pension plan for the amendment of the plan and has received consent from all parties as required thereunder, but also has received the concurrence

“DIVISION I**“WITHDRAWAL FROM MULTI-EMPLOYER PLAN
AND TERMINATION OF PLAN****“§ 1. — *Withdrawal from multi-employer pension plan***

Conditions.

“198. The withdrawal of an employer from a multi-employer pension plan is conditional upon the amendment of the plan to that effect. The amendment of the plan is subject to authorization by the Régie.

Date of withdrawal.

The date of withdrawal is the effective date of the amendment. If the amendment is made following the bankruptcy of the employer, the effective date of the amendment is the date of the bankruptcy.

Persons affected.

The persons affected by the withdrawal are

(1) the active members in the employ of the employer at the date of withdrawal;

(2) the non-active members at that date whose active membership ended while they were in the employ of the employer; and

(3) the beneficiaries at that date of a pension benefit that derives from the benefit of a member whose active membership ended while the member was in the employ of the employer.

Bankruptcy or
insolvency of
employer.

“199. If an employer that is a party to a multi-employer pension plan is bankrupt or becomes insolvent, within the meaning of the Bankruptcy and Insolvency Act (Revised Statutes of Canada, 1985, chapter B-3), the plan must be amended to allow for the withdrawal of the employer and, where applicable, for substitution of another employer. If the person authorized under the plan to make such an amendment fails to do so within 30 days after the pension committee is informed of the insolvency or bankruptcy, the pension committee shall proceed with the amendment.

Notice to members and
beneficiaries.

“200. Before applying for the registration of an amendment allowing for the withdrawal of an employer from a multi-employer pension plan, the pension committee shall, in addition to informing the members as required by section 26, send to every member and beneficiary affected by the withdrawal a notice informing them

(1) of the degree of solvency of the plan as established in the last actuarial valuation;

(2) of the effect of full payment of benefits under the plan, particularly as concerns the application of the second paragraph of section 230.1 and section 240.2;

(3) of the right of non-active members and beneficiaries affected by the withdrawal whose pension is in payment at the date of withdrawal to request, within the following 30 days, that payment of the pension be henceforth assumed by an insurer selected by the pension committee, according to the conditions prescribed by regulation, and that their rights under the plan be thus satisfied; and

(4) of the option available to members and beneficiaries affected by the withdrawal, other than those to whom paragraph 3 applies, to elect either not to require payment in full of their benefits under the plan or to require payment in full by means of a transfer under section 98, which applies with the necessary modifications, or, where applicable, by means of the payment in a lump sum or the transfer into a registered retirement savings plan of the portion of their accrued benefits that is refundable.

Application for registration.

“201. An application for registration of an amendment allowing for the withdrawal of an employer from a multi-employer pension plan must include, in addition to what is required by section 24,

(1) the name of the withdrawing employer and the effective date of the amendment;

(2) the names of the members and beneficiaries affected, with the status of each, at the date referred to in paragraph 1, as an active member, a non-active member whose pension is not in payment, a non-active member whose pension is in payment or a beneficiary; and

(3) a copy of the notice provided for in section 200, together with a declaration of the pension committee certifying that the notice has been sent to every member and beneficiary affected.

Payment of contributions.

“202. Within 60 days after the application for registration is filed with the Régie, the pension committee shall require the withdrawing employer to pay any contribution the employer has failed to pay into the pension fund or, as the case may be, to the insurer.

Filing of report.

Within the same time or within such additional time as the Régie may grant, the pension committee shall file with the Régie a report establishing the benefits accrued to each member and beneficiary affected and the value thereof, and containing the information prescribed by regulation. The report must be prepared by an actuary; in the case of a plan referred to in paragraph 2 of section 116, it can be prepared by the pension committee. The value of the benefits accrued to the members and beneficiaries must be determined at the effective date of the amendment allowing for the withdrawal of the employer or, with the authorization of and subject to the conditions determined by the Régie, at the date of the next full actuarial valuation of the plan.

Exemption.

If, within the time prescribed in the second paragraph, the pension committee sends a notice to the Régie certifying that the employer has paid all unpaid contributions in full and, where Chapter X applies to the pension plan, a declaration of an actuary attesting that the plan is solvent at the effective date of the amendment, the pension committee is dispensed from filing the report provided for in the second paragraph.

Withdrawal of employer.

“203. The Régie may not authorize the amendment of a multi-employer pension plan to allow for the withdrawal of an employer, unless

(1) the report or, as the case may be, the notice and declaration sent to the Régie pursuant to section 202 are in conformity with this Act; and

(2) the pension committee attests that the contributions referred to in the first paragraph of section 202 have been paid into the pension fund or to the insurer or will not likely be recovered, despite the pension committee’s demands, by reason of the bankruptcy or insolvency of the employer.

“§ 2. — *Termination of pension plan*

Notice of termination.

“204. Except if termination is precluded by agreement or the pension plan is a plan rendered compulsory by an order or decree which does not authorize termination, an employer — or, in the case of a multi-employer pension plan, even not considered as such under section 11, the employers jointly, — may terminate the plan by means of a written notice of termination to the members and beneficiaries affected, to every certified association representing members, to the pension committee and, where applicable, to the insurer.

Contents.

The notice shall indicate the date of termination and the names of the members and beneficiaries affected. The date of termination may in no case be subsequent to the day preceding the day on which the benefits of the last member or beneficiary under the plan have been paid in full. Moreover, unless every member whose active membership in the plan is to cease upon or after the termination of the plan consents thereto in writing, the date of termination may not precede the date on which member contributions cease to be collected or the date occurring 30 days before the date on which the notice of termination is given to the active members.

Termination by the Régie.

“205. The Régie may terminate a pension plan

(1) if, without having transmitted a notice of termination, the employer — or, in the case of a multi-employer pension plan, even not considered as such under section 11, every employer — fails to collect member contributions or to pay employer contributions or the member contributions collected into the pension fund or to the insurer;

(2) where the pension committee, a person or body to whom powers have been delegated or any party to the plan fails to comply with an order issued by the Régie under this Act; or

Within 15 days after receipt of a notice of termination from the employer or a decision of the Régie terminating the pension plan, the pension committee shall transmit to the Régie, to the employer and to every certified association representing members a declaration of termination containing the information prescribed by regulation, together with the attestations and documents prescribed by regulation. |
| Termination report. | “207.2. Within 90 days after receipt of a notice of termination or a decision terminating the pension plan, the pension committee shall transmit to the Régie a termination report establishing the benefits accrued to each member and beneficiary affected and the value thereof, and containing the information prescribed by regulation. The report must be prepared by an actuary; in the case of a plan referred to in paragraph 2 of section 116, the report can be prepared by the pension committee. The Régie shall forthwith send an acknowledgment of receipt to the pension committee, indicating the date on which it received the report. |
| Copy of the report. | The pension committee shall also provide a copy of the report to the employer and to every certified association representing members, informing them that they may present written observations to the committee within the time limit set out in the first paragraph. The committee must send the report in a timely manner so as to allow the employer and the certified associations at least ten days to present observations. |
| Notice. | Where applicable, the copy of the report sent to the employer must be accompanied with a notice, a copy of which must be sent to the Régie, indicating <p>(1) that any amount due by the employer according to the report must be paid into the pension fund or to the insurer, as the case may be; and</p> |

(2) if the employer intends to make an agreement with the other interested parties as to the allocation of the surplus assets determined in the termination report, the date before which the declaration, the agreement or the draft agreement, as the case may be, provided for in sections 230.1 and 230.2 must be transmitted by the employer to the Régie and to the pension committee.

Multi-employer pension plan.

The committee must make sure that the notice is published in a timely manner so as to allow interested persons at least ten days to present their claim

pursuant to the first paragraph. In the case of a multi-employer pension plan, even not considered as such under section 11, the notice must be published with respect to each employer that is a party to the plan in the region in Québec where the greatest number of members in the employ of the employer reside at the date of termination.

Supplement to the termination report.

“207.5. CHAPTER IV

NOTARIAL ACTS

DIVISION I

EXECUTION OF NOTARIAL ACTS

Notarial act. 34. A notarial act is executed *en minute* or *en brevet*.

Act *en minute*. 35. An act *en minute* is an act that a notary must deposit and preserve in his or her notarial records, and from which authentic copies or extracts may be issued.

- Acts en minute.* Acts *en minute* must be executed and preserved in any medium approved by regulation of the Bureau that ensures the integrity of the acts. The draft act and the closed act need not be in the same medium. Entries made in such acts must, upon the closing of the act, be permanent and complete and be protected against alterations.
- Act of deposit. An act of deposit drawn up by a notary for the purpose of depositing a document other than an act executed *en minute* or a copy of such an act in the notarial records must be executed *en minute*.
- Acts en minute.* 36. Acts *en minute* forming part of notarial records must be executed separately and numbered consecutively beginning with the number one.
- Errors and declaration. 37. If the same number is given to more than one minute or if any other mistake is made in numbering, the act remains authentic, but as soon as the error is discovered, the notary or, in the case of joint or shared notarial records, one of the notaries or partners shall make a declaration under his or her oath of office below the signatures on any minute that contains such an error, describing the nature of the error, and shall enter in the repertory the number as it appears on the minute. A copy of the declaration must be sent to the secretary of the Order without delay.
- Omissions and declaration. If a number has been omitted, as soon as the mistake is discovered, a declaration recording the omission of the number shall be inserted in the notarial records, at the place where the act bearing the omitted number should have been. The omitted number shall be entered in the repertory with a note to the effect that no act corresponds to the number. A copy of the declaration must be sent to the secretary of the Order without delay.
- Obligations. The obligations imposed on notaries under this section are also incumbent on any person who, in particular as provisional custodian or assignee, is the depositary of the notarial records.
- Act *en brevet.* 38. An act *en brevet* is an act, in the form of one or more originals, that a notary executes and may deliver to the parties. No authentic copy of or extract from an act *en brevet* may be issued.
- Acts en brevet.* Powers of attorney, authorizations, acquittances and other ordinary acts may be executed *en brevet*.
- Acts en brevet.* 39. Acts *en brevet* may be executed in any medium approved by a regulation of the Bureau that ensures the integrity of the acts.
- Entries. Entries made in such acts must, upon the closing of the act, be permanent and complete and be protected against alterations.
- Officiating notary. 40. The choice of an officiating notary to execute a notarial act is determined by agreement between the parties.

- Officiating notary. If there is no agreement, the choice falls to
- (1) the creditor, for acts of obligation, surety bonds or acts of a similar nature;
 - (2) the debtor, for a simple discharge;
 - (3) the new creditor, for a discharge with subrogation or a discharge following the payment of a debt with the proceeds of a hypothecary loan, despite any agreement or stipulation to the contrary between the former creditor and the debtor;
 - (4) the purchaser or transferee, for the sale of movable or immovable property or rights where
 - (a) the purchaser or transferee pays the purchase price in full; or
 - (b) the purchaser or transferee pays all or part of the purchase price to the seller or transferor with the proceeds of a hypothecary loan contracted for that purpose;
 - (5) the seller or transferor, for the sale of movable or immovable property or rights, where the purchaser or transferee undertakes to pay a balance of the sale price to the seller or transferor or to assume a pre-existing obligation of the seller or transferor.
- Officiating notary. Despite any agreement to the contrary, the choice of a notary falls to the party entitled to choose the notary pursuant to subparagraph 4 or 5 of the second paragraph for a discharge resulting from the payment of a claim secured by a real right encumbering property sold or transferred where the payment is made out of the proceeds from the sale or transfer of the property.
- Prohibition. 41. No notary may execute an act if the notary or the notary's spouse is or represents one of the parties to the act.
- Authenticity. 42. Subject to the provisions of section 41 and the provisions of the Civil Code with respect to wills, an act executed by a notary who is related or connected by marriage to one of the parties in any degree is authentic. An act executed by a notary who is a senior executive or employee of a legal person that is a party to the act is also authentic.
- Identity. 43. A notary shall, by all reasonable means, verify the identity, quality and capacity of each party to a notarial act to be signed before the notary.
- Identity. Where one of the parties signs before a notary other than the officiating notary pursuant to the second paragraph of section 50, it is incumbent upon that other notary to verify the identity, quality and capacity of the party concerned.

Liability. 44. Parties to acts executed by a notary or to documents drawn up by the notary at their request are solidarily liable for the notary's disbursements and fees.

DIVISION II

FORM OF NOTARIAL ACTS

Form. 45. Notarial acts shall be written in ink of good quality, typewritten or printed, legibly and permanently. The use of forms reproduced by any technical means is authorized provided that the forms have the same characteristics as typewritten or printed acts. Notarial acts may not contain, other than the usual spaces, any blanks or intervening spaces that are not crossed out.

Abbreviations. Notarial acts shall contain no abbreviations. Amounts, dates, numbers and other figures, other than simple references that are not absolutely essential, shall be written out in full and entries written out in full shall take precedence over figures, should there be a difference.

Added words, letters or signs. 46. No words written over, interlineations or additions shall appear in the body of an act or in the marginal notes or footnotes; any words, letters, figures or signs written over, interlined or added are deemed unwritten.

Words crossed out. If words, letters or figures are crossed out, they shall be crossed out in such manner that they may be counted.

Inserts and additions. 47. Inserts and additions to inserts may only be written in the margin or at the end of the act; they must be initialled by the signatories to the act, under pain of nullity.

Initials. 48. If the length of an insert requires that it be continued at the end of the act, the continuation shall be initialled by all the signatories to the act in the same manner as inserts in the margin, under pain of nullity. The same applies to inserts at the end of the act and to other inserts which cannot be fully contained in the margin.

Number of inserts. 49. The number of inserts and additions and the number of words, letters or figures crossed out and the fact that they are null must be mentioned at the end of the act, above the signatures.

Closing of act. 50. A notarial act shall be closed by the signatures affixed in the presence of the officiating notary by the parties and the witnesses required in the matter, and by the signature of the officiating notary, which must be affixed on the day and at the place of signing by the last of the parties to do so.

Signature. Any party to a notarial act may sign it in the presence of a notary other than the officiating notary, provided that the last signature is affixed before the officiating notary. A signature may also be affixed before a notary designated by a resolution of the Bureau and authorized to practise in a State which has a

professional order belonging to the Union internationale du notariat latin, provided that the signature is affixed within the territorial boundaries of that State. In such cases, after the party signs, the notary must enter and sign an attestation, immediately below the party's signature, that the signature was affixed before him or her, indicating the date on which it was affixed.

- Signature. Within the limits and subject to the conditions determined by regulation of the Bureau, an act executed in a medium other than paper may be signed by the parties and the witnesses in the notary's absence and the notary, in such a case, is not required to sign the act at the place of signing by the last party to do so.
- Reading. 51. Before it is signed, a notarial act must be read aloud to each of the parties by the notary or by a third person appointed by the notary. The act need not be read to parties who have themselves read the act or where the parties declare to the notary that they have taken cognizance of it and exempt the notary from reading it. Mention of the declarations and exemption must be made in the act, above the signatures.
- Presumption. The inclusion in the act of the words "After due reading hereof" constitutes a simple presumption that the act has been read in accordance with the provisions of this Act.
- Required particulars. 52. A notarial act shall specify the date of the act, the name, official quality and place of the professional domicile of the notary who executes the act, the name, quality and address of each party and a designation of the powers of attorney or mandates produced, the presence, name, quality and address of any witness required, the place where the act is executed, the number of the minute given to the act, the notarial records in which the act will be deposited or the fact that the act is executed *en brevet*, and the fact that the act has been read or, where applicable, the mention required by section 51.
- Required signatures. 53. A notarial act must contain the signatures of the parties or their declaration that they are unable to sign, the signatures of the witnesses and the official signature of the notary or notaries.
- Sufficient designation. The official signature of any notary, other than the officiating notary, before whom a party signs shall constitute a sufficient designation.
- Attestation. Where a party signs a notarial act in the presence of a notary other than the officiating notary, and the notary signs an attestation entered in the act pursuant to the second paragraph of section 50, the party is deemed for the purposes of the act to have appeared before the officiating notary.
- Place of execution. 54. A notarial act shall be declared to be executed at the place where it is closed. That place is sufficiently described if the name of the municipality is specified. In the case described in article 3110 of the Civil Code, the name of the State must be specified in addition to the name of the municipality.

- Plurality of dates or places. 55. Where an act between several parties is signed or consented to by the parties on different days or at different places, the notary may express the plurality of dates or places by mentioning the day on which and the place where each party signed the act or consented thereto.
- Sufficient description. 56. A notarial act *en minute* under the authority of which an act is executed must be sufficiently described in that act by the nature and date of the notarial act, the name of the notary who executed it, the minute number given to it and the designation of the notarial records in which it is kept and, where applicable, its registration number in the appropriate register for the publication of rights. No copy of a notarial act *en minute* is to be annexed to the act.
- Other acts and documents. All other acts and documents under the authority of which an act is executed must be annexed and sufficiently described, acknowledged as true and signed in the presence of the notary by the party or parties who produce them and countersigned by the notary.
- Annexed documents. Any other document which the parties wish to annex to an act may be so annexed by complying with the formalities prescribed in the second paragraph.
- Medium other than paper. 57. All acts and documents, other than notarial acts *en minute*, under the authority of which an act is executed in a medium other than paper may be annexed to the act by any means approved by a regulation of the Bureau that ensures the integrity of the acts and documents and maintains their relation to the act to which they are annexed.
- Reproduction. Where a notarial act *en minute* is executed in a medium other than paper, any annexes in paper form must, before being annexed in accordance with section 56, be reproduced in the same medium as the act to which they are to be annexed.
- Alterations prohibited. 58. A notary may not alter or change the content of a notarial act after a party signs it, unless the party agrees to the alteration or change by affixing his or her initials in the margin opposite any changes made.
- Alterations prohibited. Nor may a notary suppress, destroy or alter a notarial act after it is closed. Should it be necessary to make changes to the act, the parties may do so only by means of another act.
- Joint notarial records. 59. Notaries who deposit their acts in the same joint or shared notarial records may not execute acts under the name of the partnership or under the name designating the notarial records in which their acts are deposited.
- Name of partnership. They may, however, use the name of the partnership in advertisements, notices, petitions and other documents that are not notarial acts.
- Signature other than official signature. 60. Any act executed and signed by a notary that does not bear the official signature of the notary filed with the secretary of the Order shall nevertheless

be authentic and have effect as if it had been signed with the notary's official signature.

Applicability. 61. The first paragraph of section 45 and sections 46 to 49 apply only to notarial acts executed on paper.

Applicability. The other provisions of this Act apply to all notarial acts, whatever the medium in which they are executed.

DIVISION III

PRESERVATION OF NOTARIAL ACTS *EN MINUTE*

§1. — Keeping of notarial records

Notarial records. 62. Notarial acts executed *en minute* must be deposited in notarial records kept in Québec or in any place suitable for the preservation of the records determined by resolution of the Bureau.

Notarial records. Notarial records may be individual, joint or shared.

Joint notarial records. 63. Joint notarial records are notarial records constituted by two or more notaries and held by them in indivision. If indivision is terminated, the notarial records may not be partitioned.

Undivided share. The undivided share held by a notary in joint notarial records may only be alienated in favour of one or more notaries.

Shared notarial records. 64. Shared notarial records are notarial records constituted by notaries practising in a general partnership. Shared notarial records form part of the property of the partnership and may not be partitioned.

Designation of notarial records. 65. A notary shall, upon being sworn in, provide to the secretary of the Order a statement designating the notarial records in which his or her notarial acts will be deposited and specifying whether they are individual, joint or shared notarial records. Any change relating to the notarial records must be notified to the secretary of the Order at least 15 days prior to the change.

Content. 66. Notarial records must include a repertory of the notarial acts executed *en minute* and an index to the repertory, in which the information prescribed by regulation of the Bureau must be entered. The repertory and the index form part of the notarial records.

Possession. 67. Possession of acts kept in notarial records and the documents annexed thereto may not be surrendered except in the cases provided by law.

Surrender. Before possession may be surrendered, the notary or, in the case of joint or shared notarial records, one of the notaries or partners shall make a true copy

of the act and documents which, after being signed by the judge ordering the filing of the act and documents or, where section 192 of the Professional Code applies, by the person requiring the production of the act and documents in the exercise of his or her functions, is substituted for and stands in lieu of the minute until the act *en minute* is re-deposited in the notarial records.

Reproduction. Where an act was received in a medium other than paper, it shall be reproduced and delivered to the judge ordering the filing of the act or, where section 192 of the Professional Code applies, to the person requiring the production of the act in the exercise of his or her functions.

Custodian and assignee. The same obligation applies to any person who, in particular as provisional custodian or assignee, is the depositary of the notarial records.

Public service notaries. 68. The Minister of Justice, in his or her capacity as Notary General for Québec, shall keep the notarial records in which notarial acts executed *en minute* by notaries to whom the Public Service Act (R.S.Q., chapter F-3.1.1) applies are deposited.

Sets of notarial records. The Minister may, by order, establish two or more sets of notarial records. The Minister shall give notice thereof to the secretary of the Order.

§ 2. — *Assignment, surrender and provisional custody of notarial records*

Assignment and surrender. 69. Notarial records may, subject to the conditions determined by regulation of the Bureau and with the authorization of the Administrative Committee, be assigned, in whole or in part, to another notary or a general partnership of notaries. Notarial records may also, subject to the conditions determined by regulation of the Bureau and with the authorization of the secretary of the Order, be surrendered, in whole or in part, to the Superior Court.

Assignment or surrender. 70. The heirs of a notary must, subject to the conditions determined by regulation of the Bureau, assign the notary's notarial records or surrender them to the Superior Court.

Assignment or surrender. 71. As soon as a notary who keeps individual notarial records is removed from the roll, the notary shall, subject to the conditions determined by regulation of the Bureau, assign the notarial records or surrender them to the Superior Court.

Assignment or surrender. Joint or shared notarial records must, subject to the conditions determined by regulation of the Bureau, be assigned or surrendered if all the notaries who deposit their notarial acts in the records have been removed from the roll or if the general partnership is dissolved. The person in charge of liquidating the partnership is responsible for effecting the assignment or surrender.

Access prohibited. Except in circumstances described in the second paragraph, the Administrative Committee or, in urgent cases, the president may prohibit access by a notary who has been removed from the roll to joint or shared notarial records, and enjoin the other notaries using the notarial records

concerned to take every necessary measure to prevent the notary from having access to the notarial records.

- Surrender by assignee. 72. The assignee of notarial records shall surrender the records to the Superior Court at the expiry of the maximum period, determined by regulation of the Bureau, for which the records were assigned.
- Time limit. 73. The surrender of notarial records, where it is mandatory, must be made within 15 days from the event that gives rise to it. However, if the Administrative Committee considers it warranted by the circumstances, the Committee may grant any extension it deems appropriate.
- Notification. 74. The clerk of the Superior Court shall notify the secretary of the Order without delay of every surrender of notarial records. The fees collected for searches, copies or extracts belong to the State.
- Archives. 75. Notarial records surrendered to the Superior Court form part of its archives.
- Recovery. 76. Any notary whose notarial records have been surrendered may recover them subject to the conditions determined by regulation of the Bureau.
- Provisional custodian. 77. The Administrative Committee or, in urgent cases, the president may, subject to the conditions determined by regulation of the Bureau, appoint a provisional custodian for the individual notarial records of a notary where
- (1) the notary's right to practise is limited;
 - (2) the notary is under investigation by the syndic of the Order or the subject of a complaint filed with the committee on discipline or is being prosecuted for a criminal offence which, in the reasoned opinion of the Administrative Committee or, as the case may be, the president, is closely related to the notary's professional practice;
 - (3) the notary is the subject of a judicial application for the institution of protective supervision, for homologation of a mandate given in anticipation of his or her inability or for confinement in an institution pursuant to article 30 of the Civil Code;
 - (4) a medical report issued in the circumstances described in sections 48 to 51 of the Professional Code shows that the notary cannot practise for health reasons;
 - (5) the notary has failed to comply with the requirements of section 89; or
 - (6) the preservation of the notarial records is compromised, in the opinion of the Administrative Committee or, as the case may be, the president.
- Practising notary. The provisional custodian must be a practising notary.

- Provisional custody. Provisional custody extends to all files relating to the notarial records and to every register or trust accounting document as well as to all funds, securities or other instruments delivered to the notary in trust.
- Notification. The clerk of the court shall, as soon as possible, notify the secretary of the Order of any proceeding referred to in subparagraph 3 of the first paragraph.
- Provisional custodian. 78. The Administrative Committee, or in urgent cases, the president may, subject to the conditions determined by regulation of the Bureau, appoint a provisional custodian in respect of joint or shared notarial records if all the notaries who deposit their acts in the notarial records are in a situation described in subparagraphs 1 to 5 of the first paragraph of section 77. If the conditions for the appointment of a provisional custodian do not exist, the Administrative Committee or, as the case may be, the president may prohibit access to the notarial records by any notary that is in any of those situations, and enjoin the other notaries who deposit their acts in the notarial records to take every necessary measure to prevent the notary from having access to the notarial records.
- Provisional custodian. As well, the Administrative Committee, or in urgent cases, the president may, subject to the conditions determined by regulation of the Bureau, appoint a provisional custodian in respect of joint or shared notarial records if, in the opinion of the Committee or president, the preservation of the notarial records is compromised.
- Provisions applicable. The provisions of the second, third and fourth paragraphs of section 77 apply.
- Sealed records. 79. The Administrative Committee or the president may require that all files relating to notarial records that may be placed under provisional custody be sealed until a provisional custodian is appointed or until the notarial records are transferred or surrendered. The application shall be made by motion to the Superior Court of the judicial district in which the notary or notaries who deposited their acts in the notarial records last practised or, in the case of shared notarial records, the district where the general partnership concerned is established. The judge or, in the judge's absence, the clerk has full and complete jurisdiction in the matter.
- Offence and penalty. 80. Any person in possession of the notarial records or any other document referred to in section 77 for which a provisional custodian has been appointed shall deliver the notarial records or document to the provisional custodian on being served a notice of the latter's appointment in accordance with the Code of Civil Procedure. The person is liable to a fine of \$100 for each day's delay, beginning from service of the notice. Every person required to surrender notarial records who refuses or neglects to do so is liable to the same fine upon the expiry of the time given to surrender the notarial records. A notary who contravenes the provisions of this section is liable, in addition, to the disciplinary penalties prescribed by the Professional Code.

- Non-compliance. **81.** Where a person required to comply with the provisions of section 80 refuses or neglects to do so or where it is impossible to serve the notice of appointment of the provisional custodian, any person designated by the president may, with the authorization of a judge of the Superior Court, take possession of the notarial records or of any other document subject to provisional custody or of the notarial records to be surrendered and either deliver them to the provisional custodian or surrender them to the office of the Superior Court.
- Application. The application, which is made by motion, may not be presented to the judge unless it has been served on the party concerned at least one clear day beforehand. The judge may, by way of exception, exempt the applicant from serving the application on the party concerned where the judge considers that it would compromise the preservation of the notarial records and other documents, or in urgent cases. The application is heard and decided by preference.
- Authorization. The judge may, subject to the specified conditions, authorize the applicant to enter, in the presence of a bailiff, any premises where the notarial records or other documents concerned are kept and, if necessary, cause any locked door, filing cabinet or safe to be opened by any necessary means.
- Legal depositary. **82.** The provisional custodian is, for the duration of the provisional custody, the legal depositary of the notarial records under provisional custody, and the custodian of all files and documents relating to the notarial records.
- Fees. **83.** In addition to disbursements, the provisional custodian is entitled to the fees fixed by the Administrative Committee, which shall be charged to the person whose records are under provisional custody. However, in the case of provisional custody ordered in the circumstances described in subparagraph 2 or 3 of the first paragraph of section 77, the Administrative Committee shall, after a decision is rendered by the court or by the committee on discipline, determine which of the notary or notaries, the general partnership involved or the Order is to pay the costs.
- Fees. The provisional custodian is also entitled to fees for making searches and for issuing copies or extracts.
- Costs. The costs incurred for the surrender of the notarial records shall be charged, where the surrender is voluntary, to the person who surrenders them. Where the surrender of the notarial records is mandatory, the costs shall be charged to the person required to surrender them.

DIVISION IV

COPIES OF OR EXTRACTS FROM NOTARIAL ACTS *EN MINUTE*

- Issuance of copies or extracts. **84.** The right to issue copies of or extracts from a notarial act *en minute* or its annexes belongs exclusively, in the case of individual notarial records, to

the notary who deposits his or her notarial acts therein and, in the case of joint or shared notarial records, to the notaries who deposit their notarial acts therein, to the mandatary referred to in section 89, the assignee of the notarial records and to the clerk of the Superior Court who is the depositary of the notarial records. The Notary General for Québec or the notaries designated by the Notary General shall issue copies of or extracts from the notarial acts deposited in notarial records kept by the Notary General.

Issuance of copies or extracts.

The provisional custodian of notarial records, alone and to the exclusion of any other person referred to in the first paragraph, may issue copies of or extracts from the minutes and annexes in the notarial records that are under provisional custody.

Medium.

85. Copies of or extracts from acts executed in any medium other than paper may be issued in any medium determined by a regulation of the Bureau that ensures the integrity of the copies or extracts.

Wills and codicils.

86. Chapter 45

AN ACT RESPECTING EQUAL ACCESS TO EMPLOYMENT IN PUBLIC BODIES AND AMENDING THE CHARTER OF HUMAN RIGHTS AND FREEDOMS

[Assented to 5 December 2000]

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS :

DIVISION I

OBJECT AND SCOPE

- Special framework. 1. This Act establishes a special framework to provide equal access to employment in order to remedy the situation experienced by persons belonging to certain groups discriminated against in employment, namely women, aboriginal peoples, persons who are members of visible minorities because of their race or the colour of their skin and persons whose mother tongue is neither French nor English and who belong to a group other than the aboriginal peoples group or the visible minorities group.
- Scope. 2. This Act applies to the following public bodies if they employ 100 or more persons for a continuous period of six months in each of two consecutive years :
- (1) bodies the majority of whose members or directors are appointed by the Government or a minister or whose capital stock forms part of the domain of the State, except agencies to which section 92 of the Charter of human rights and freedoms applies ;
- (2) municipalities, urban communities, metropolitan communities, intermunicipal boards, intermunicipal transit authorities, intermunicipal boards of transport, transit authorities of urban communities and any other municipal body whose board of directors is composed in the majority of elected municipal officers, except the Cree Regional Authority and the Kativik Regional Government ;
- (3) school boards governed by the Education Act (R.S.Q., chapter I-13.3), the Conseil scolaire de l'île de Montréal, institutions whose instructional program is the subject of an international agreement within the meaning of the Act respecting the Ministère des Relations internationales (R.S.Q., chapter M-25.1.1), general and vocational colleges, institutions accredited for purposes of subsidies under the Act respecting private education (R.S.Q., chapter E-9.1) and university level institutions listed in paragraphs 1 to 11 of section 1 of the Act respecting educational institutions at the university level (R.S.Q., chapter E-14.1) ;

(4) public institutions governed by the Act respecting health services and social services (R.S.Q., chapter S-4.2), private institutions governed by that Act that operate with sums received from the consolidated revenue fund, regional boards established under that Act, except institutions and the regional board governed by Part IV.1 of that Act, and the Corporation d'hébergement du Québec.

Sûreté du Québec. The Sûreté du Québec, with respect to its members, and persons appointed by the Government or a minister, together with the personnel they direct, are considered to be public bodies within the meaning of the first paragraph in the exercise of the functions assigned to them by law or by the Government or the minister.

DIVISION II

ANALYSIS OF WORKFORCE

Analysis of workforce. 3. Every public body that is subject to this Act shall conduct an analysis of its workforce to determine how many persons belonging to each of the groups targeted by this Act, hereinafter referred to as target groups, are in its employ in each type of occupation.

Types of occupation. Types of occupation shall be determined by the employer and matched with the base groups in the National Occupational Classification established in 1993 by the Minister of Employment and Immigration of Canada.

Separate analysis. 4. A public body may conduct a separate analysis of the workforce in each of its establishments if warranted by disparities in the number of persons qualified for a type of occupation in the relevant recruitment areas.

Temporary personnel. Likewise, a public body may exclude temporary or part-time personnel from the analysis if warranted by the circumstances.

Report. 5. After consultation with the personnel or personnel representatives, the workforce analysis report shall be sent to the Commission des droits de la personne et des droits de la jeunesse and shall indicate the number of members in each target group and the proportion represented by each target group in each type of occupation within the public body's workforce.

Content. The report shall also indicate, for each type of occupation, the required skills and experience as well as the public body's relevant recruitment area.

Time limit. 6. The Commission may impose a time limit for the sending of the workforce analysis report on any public body.

Order. If the public body fails to send its workforce analysis report to the Commission within the imposed time limit, the Commission may apply to the Human Rights Tribunal for an order directing the public body to send the report within the time specified by the Tribunal.

| | |
|----------------------------------|---|
| Representation of target group. | 7. In order to determine whether a target group is underrepresented in a type of occupation, the Commission shall compare the representation of the group within the public body's workforce with the representation of the group among persons qualified for that type of occupation or capable of becoming qualified for that type of occupation within a reasonable time in the relevant recruitment area. |
| Occupational grouping. | For that purpose, the Commission may, after consulting with the public body, group types of occupation into occupational groups. |
| Results. | 8. The Commission shall notify the public body of the results of its comparison by type of occupation or occupational group. |
| Equal access employment program. | 9. A public body is required to establish an equal access employment program for a type of occupation or occupational group where, in the Commission's opinion, the representation of a target group in the type of occupation or occupational group within the public body's workforce generally does not reflect the representation of the target group among qualified persons in the applicable recruitment area. |
| Representation maintained. | Otherwise, a public body must see to it that the representation of the target groups within its workforce is maintained. |

DIVISION III

EQUAL ACCESS EMPLOYMENT PROGRAM

| | |
|-------------------------|---|
| Program and time limit. | 10. A public body subject to this Act that is required to establish an equal access employment program shall send the program to the Commission, after consultation with the personnel or personnel representatives, within 12 months after the public body receives notice to that effect. |
| Separate programs. | 11. Separate programs may be developed for one or more establishments if warranted by disparities in the number of persons qualified for a type of occupation in the relevant recruitment areas. |
| Temporary personnel. | Likewise, the public body may exclude temporary or part-time personnel from the program where warranted by the circumstances. |
| Assistance. | 12. The Commission shall, on request, lend its assistance in the development of an equal access employment program. |
| Purpose. | 13. The purpose of an equal access employment program is to increase the representation of each target group concerned in the workforce and to correct practices in employment systems. |
| Content. | An equal access employment program shall comprise the following : |

- (1) a review of employment systems and more particularly of recruitment, training and promotion policies and practices ;
- (2) numerical goals, by type of occupation or by occupational group, to be achieved with respect to each target group concerned ;
- (3) temporary corrective measures with specified goals, by type of occupation or by occupational group, for the hiring or promotion of persons in each target group concerned ;
- (4) equal opportunity measures and, if needed, support measures to eliminate discriminatory management practices ;
- (5) a timetable for the implementation of measures and the achievement of goals ;
- (6) measures to consult and inform the personnel and their representatives ;
and
- (7) the identity of the person in a position of authority who is responsible for the implementation of the program.

Restriction.

14. An equal access employment program cannot require a public body

- (1) to hire or promote unqualified persons ;
- (2) to hire or promote persons without basing the hiring or promotion on merit in cases where a collective agreement or established practices require that hiring or promotion be based on selection according to merit ;
- (3) to take actions that would be unduly prejudicial to the interests of the public body or of persons who are not members of a target group concerned ;
- (4) to create new positions in its workforce ; or
- (5) to exclude seniority as a criterion for hiring, promotion, dismissal, layoff, recall or redeployment.

Assessment.

15. The Commission shall take the following factors into account in assessing the content of an equal access employment program :

- (1) the size of the public body's workforce and the number of employees in a type of occupation or occupational group ;
- (2) the availability, within each target group, of qualified persons or persons capable of becoming qualified within a reasonable time in the public body's workforce and in the relevant recruitment area ;

(3) the underrepresentation, both in absolute numbers and expressed as a percentage, of each target group concerned;

(4) the anticipated growth or reduction of the public body's workforce during the period covered by the program timetable;

(5) the reasonableness of numerical goals;

(6) the proposed corrective measures, equal opportunity measures and support measures, if any; and

(7) the timetable set for the program.

Documents.

For the purpose of assessing a program, the Commission may require any document or information from a public body and make the necessary verifications.

Modification of program.

16. The Commission may request a public body to modify its equal access employment program if, in the Commission's opinion,

(1) the measures proposed are not likely to rectify the situation for persons in the target groups concerned;

(2) the numerical goals are too low having regard to the availability of qualified persons in each of the target groups concerned; or

(3) the timetable for the implementation of measures or the achievement of numerical goals is unreasonable.

Notice.

The Commission shall issue a notice with reasons to the public body and indicate the time within which the program must be modified and re-submitted to the Commission.

Recommendations.

17. If, in the opinion of the Commission, a public body has failed to develop or implement an equal access employment program or has failed to modify its program in accordance with the Commission's notice, the Commission may make recommendations to the public body.

Order.

18. If the public body fails to comply with a recommendation of the Commission, the Commission may apply to the Human Rights Tribunal for an order directing the public body to prepare, modify or implement an equal access employment program within the time specified by the Tribunal.

Modifications.

The program shall be filed with the Tribunal. The Tribunal may make such modifications to the program as it considers appropriate.

Modification, postponement or cancellation.

19. An equal access employment program may be modified, postponed or cancelled if new facts so warrant, particularly where the juridical structure of a public body is modified, by amalgamation or otherwise.

| | |
|---|--|
| Agreement. | Any agreement reached between the Commission and a public body to modify, postpone or cancel an equal access employment program must be evidenced in writing. |
| Application to Human Rights Tribunal. | In case of disagreement between the Commission and a public body, either may apply to the Human Rights Tribunal for a determination as to whether new facts warrant the modification, postponement or cancellation of the program. |
| Achievement of goals. | 20. A public body required to implement an equal access employment program shall make all reasonable efforts to achieve the goals of the program according to the timetable. |
| Report. | The public body shall report every three years to the Commission on the implementation of the program, the measures taken and the goals achieved. |
| Maintenance of equal-access employment. | 21. Once the goals of an equal access employment program have been achieved, a public body must see to it that equal-access employment is maintained. |

DIVISION IV

REGULATIONS AND MISCELLANEOUS PROVISIONS

| | |
|------------------------------------|--|
| Regulations. | <p>22. After consulting with the Commission des droits de la personne et des droits de la jeunesse, the Government may make regulations</p> <p>(1) determining criteria, standards, scales, conditions or procedures relating to the development, implementation or application of equal access employment programs established under this Act and fixing the limits thereof;</p> <p>(2) determining the contents of the reports to be sent to the Commission; and</p> <p>(3) prescribing any measure necessary for or incidental to the purposes of equal access employment programs.</p> |
| List of bodies and report. | 23. Every three years, the Commission des droits de la personne et des droits de la jeunesse shall publish a list of the public bodies that are subject to this Act and report on the state of equal access to employment in those public bodies. |
| Member of Commission acting alone. | 24. A member of the Commission, designated by the president, may act alone to make recommendations to a public body or apply to the Human Rights Tribunal. |
| Delegation of functions. | The Commission may authorize a member of its personnel to exercise all or part of the functions of the Commission under this Act, except applying to the Human Rights Tribunal, and issue a certificate to that effect to the personnel |

member. The authorized personnel member must, on request, identify himself or herself and produce the certificate signed by the president of the Commission.

- Presumption. 25. Training costs with respect to employees of a public body incurred for the development of an equal access employment program are deemed to be eligible expenditures within the meaning of section 5 of the Act to foster the development of manpower training (R.S.Q., chapter D-7.1).
- Structural changes. 26. The modification of the juridical structure of a public body, by amalgamation or otherwise, shall have no effect upon obligations relative to an equal access employment program; the program shall be binding on the new public body until such time as an analysis of the workforce shows that the public body is not required to establish an equal access employment program or a new program is developed.
- Structural changes. If two or more public bodies are affected by a modification of juridical structure, the equal access employment program developed for the public body with the greatest number of employees shall become the program applicable to the new public body until such time as it is adjusted or terminated in accordance with this Act.

“DIVISION III.0.1

“EXEMPTION ARISING FROM RECOGNITION GRANTED BY THE COMMISSION

“§1. — Nature, content and subject of recognition

- Recognition. “243.1. The Commission may, in accordance with the provisions of this division, grant recognition giving rise, pursuant to paragraph 10 of section 204, the seventh paragraph of section 208 or paragraph 5 of section 236, to a property tax or business tax exemption.
- Revocation or confirmation. The Commission may, in the same manner, revoke the recognition or, on periodic review, confirm the recognition or declare it to have lapsed.
- Content. “243.2. The recognition shall mention the person recognized, the immovable concerned and the user of the immovable.
- “User”. “User” means the owner, lessee or occupant whose use of the immovable concerned meets the conditions set out in section 243.8.
- Part of unit. Where, pursuant to section 2, the immovable concerned forms only part of a unit of assessment or of an immovable included in the unit of assessment, the recognition shall delimit that part.
- Person granted recognition. “243.3. The person who may be granted recognition giving rise to a property tax exemption is the owner of the immovable concerned.
- Lessee or occupant. However, in the case referred to in the first or in the second paragraph of section 208, that person is the lessee or occupant of the immovable concerned who would otherwise be required to pay the property taxes.
- Person granted recognition. “243.4. The person who may be granted recognition giving rise to a business tax exemption is the person who would otherwise be required to pay that tax by reason of the activity the person carries on in the immovable concerned.

- Presumption. The recognition giving rise to a property tax exemption is deemed, for the user mentioned in the recognition and in respect of the activity the user carries on in the immovable concerned, to be recognition giving rise to a business tax exemption.
- Provisions applicable. If there is no business tax in the territory of the local municipality in which the immovable concerned is situated, the first two paragraphs shall be applied as if that tax were imposed by the municipality having jurisdiction.
- “§2. — *Conditions for obtaining recognition*
- Application for recognition. “243.5. Except in the case provided for in the second paragraph of section 243.4, recognition must be applied for by the person to whom the recognition may be granted.
- Prohibition. No person whose application has been refused shall re-apply for recognition within five years following the refusal.
- New application. However, the person may re-apply for recognition if, in a declaration under oath submitted with the new application, the person explains how the situation on which the Commission based its refusal has changed, and why that change should give rise to a different decision.
- Restriction. “243.6. No person may be granted recognition or be mentioned in the recognition as the user of the immovable concerned unless the person is a non-profit legal person.
- Restriction. “243.7. No recognition may be granted in respect of an immovable unless the use of the immovable meets the conditions set out in section 243.8.
- Prohibition. However, no recognition shall be granted in respect of an immovable if that use consists in providing lodging other than temporary lodging, or storage services.
- Carrying on of activities. “243.8. The user must carry on, without pecuniary gain, one or more eligible activities in such a manner that the carrying on of those activities constitutes the main use of the immovable.
- Eligible activities. The following are eligible activities :
- (1) the creation, exhibition or presentation of a work in a field of artistic endeavour, provided, in the case of an exhibition or presentation, the possibility of attending is offered to the public without preferential terms ;
 - (2) any activity of an informational or educational nature intended for persons who, as a recreational activity, wish to improve their knowledge or skills in any field of art, history, science and sport or any other recreational field, provided the possibility of participating in the activity is offered to the public without preferential terms ;

(3) any activity carried on to

(a) promote or defend the rights or interests of persons who, by reason of their age, language or ethnic or national origin, or because they have a disease or a handicap, form a group ;

(b) fight any form of illegal discrimination ;

(c) assist oppressed persons and persons who are socially or economically disadvantaged or otherwise in difficulty ;

(d) prevent persons from finding themselves in difficulty.

Continuing eligibility.

“243.9. No activity shall cease to be an eligible activity within the meaning of the first paragraph of section 243.8 solely because the user derives income from it or it is carried on through a mandatary of the user.

Presumption.

A user who charges, as consideration for the service constituting the user’s carrying on of the eligible activity, an amount equal to or less than the cost of the service is deemed not to act for pecuniary gain.

Field of artistic endeavour.

“243.10. For the purposes of subparagraphs 1 and 2 of the second paragraph of section 243.8, the following form part of a field of artistic endeavour :

(1) the stage, including the theatre, the opera, music, dance and variety entertainment ;

(2) the making of films, whatever the technical medium, including video ;

(3) the recording of discs and other modes of sound recording ;

(4) painting, sculpture, engraving, drawing, illustration, photography, textile arts, art video or any other form of expression of the same nature ;

(5) the working of wood, leather, textiles, metals, silicates or any other material to produce a work intended for a decorative or expressive purpose ;

(6) literature, including novels, stories, short stories, dramatic works, poetry, essays or any other written works of the same nature.

Main and immediate cause.

“243.11. For the purposes of subparagraph 3 of the second paragraph of section 243.8, the pursuit of one or more of the objectives mentioned in subparagraphs *a* to *d* of that subparagraph must be the main and immediate cause of the activity carried on by the user in the immovable.

Direct relation not required.

However, the activity need not involve a direct relation between the user and the persons on whose behalf those objectives are pursued. The activity may consist in particular in support being given to intermediaries who, without pecuniary gain, act for the benefit of those persons.

“§3. — *Duration of recognition*

- Coming into force. “243.12. The Commission shall, in the recognition, fix the date on which it comes into force.
- Restriction. That date shall not be prior to 1 January of the year in which the application for recognition was received.
- Alteration to roll. However, where the application was made pursuant to an alteration to the roll which may make the applicant a debtor of a property tax or of the business tax, and was received within 12 months after the sending of the notice of alteration to the applicant, the date of coming into force of the recognition fixed by the Commission may be any date not prior to the date on which the alteration takes effect.
- Recognition ceases. “243.13. Recognition shall cease to be in force pursuant to the provisions of subdivisions 4 to 6 when it lapses by operation of law, is revoked or declared, following a periodic review, to have lapsed.
- Presumption. “243.14. During the period in which the recognition is in force, the recognized person is deemed to be a person to whom any provision that refers to a person mentioned in section 204 or in any of the paragraphs of that section applies, for the purpose of establishing a rule applicable in respect of an immovable or of its owner, lessee or occupant, to the extent that the immovable is the immovable in respect of which the recognition has been granted.
- Applicability. The same applies where a provision, for the same purposes, makes reference to a person mentioned in paragraph 10 of section 204. The first paragraph does not apply if the reference concerned excludes such a person.
- “§4. — *Lapsing of recognition by operation of law*
- Lapsing of recognition. “243.15. Recognition lapses by operation of law if, as a result of an alteration to the roll, it appears the immovable concerned no longer exists or is no longer entered on the roll, the recognized person or the other user mentioned is no longer the owner, lessee or occupant, or the connection between the elements of the recognition forming the basis for the recognition has otherwise ceased to exist.
- Effective date. “243.16. The lapsing of recognition by operation of law becomes effective on the same date as the alteration to the roll which gave rise to the lapsing.
- Effect. The first paragraph does not render paragraph 5 of section 177 inoperative as regards the effective date of an alteration to the roll which, pursuant to paragraph 9 or 11 of section 174 or paragraph 4 of section 174.2, must result from the recognition ceasing to be in force on the date referred to in the first paragraph.

“§5. — Revocation of recognition

- Revocation. “243.17. The Commission may revoke recognition if one of the conditions set out in subdivision 2 is no longer met.
- Initiative or request. The Commission may act on its own initiative or at the request of the local municipality in whose territory the immovable concerned is situated.
- Decision. “243.18. The Commission shall, in its decision, fix the date on which the revocation takes effect.
- Date. That date shall not be prior to 1 January of the year in which the Commission, according to whether it acts on request or on its own initiative, receives the request or renders its decision.
- “§6. — Recognition confirmed or declared to have lapsed on periodic review*
- Conditions. “243.19. In accordance with the provisions of this subdivision, every person who has been granted recognition that is in force shall periodically, to avoid the lapsing of the recognition, satisfy the Commission that the conditions set out in subdivision 2 continue to be met.
- Notice. “243.20. Where nine years, or five years in the case provided for in the first paragraph of section 243.4, have elapsed since recognition that is in force was obtained, the Commission shall give the recognized person a notice in writing informing the person of the rules set out in this subdivision.
- Documents required. The Commission shall specify in the notice any document that the recognized person is required to transmit to the Commission for the purposes of section 243.19, and shall fix the time limit for the transmission.
- Copy to municipality. The Commission shall transmit a copy of the notice to the local municipality in whose territory the immovable in respect of which the recognition has been granted is situated. The Commission shall also transmit to the local municipality a copy of any document received from the recognized person or, as the case may be, a notice stating that the person has failed to submit a required document.
- Hearing. “243.21. The Commission shall hold a hearing if it considers a hearing necessary to render an appropriate decision, or if the municipality so requests, not later than the tenth day after the expiry of the time limit fixed in the notice referred to in the second paragraph of section 243.20.
- Confirmation. “243.22. The Commission shall confirm the recognition if it is satisfied that the conditions set out in subdivision 2 continue to be met, or, if not, shall declare the recognition to have lapsed.
- Presumption. For the purposes of section 243.20, confirmation of the recognition is deemed to be obtained on the date on which the decision is rendered.

- Effective date. In its decision declaring the recognition to have lapsed, the Commission shall fix the date on which the lapsing is to have effect, which shall not be prior to 1 January of the year in which the decision is rendered.
- “§7. — *Procedure*
- Consultation. “243.23. Before granting recognition, the Commission shall consult the local municipality in whose territory the immovable concerned by the request is situated, and give the local municipality a notice in writing describing the elements of the proposed recognition, requesting its opinion in that respect and informing it of the rule set out in section 243.24.
- Applicability. The first paragraph applies, with the necessary modifications, in the case of a revocation not requested by the municipality and in the case of a confirmation in respect of which the Commission has received every document requested from the recognized person.
- Opinion. “243.24. The municipality shall transmit its opinion to the Commission within 90 days following transmission of the notice.
- Opinion. If the municipality fails to transmit its opinion, the proceeding before the Commission may continue notwithstanding that failure, and the municipality is nevertheless not foreclosed from transmitting its opinion.
- Filing of financial statements. “243.25. The person applying for recognition shall file its financial statements with the Commission at the request of the Commission or of the municipality. The same applies for any other person to be mentioned in the recognition as a user of the immovable.
- Applicability. The first paragraph applies, with the necessary modifications, where the revocation of recognition or the periodic review of recognition forms the subject of a proceeding before the Commission.”

“§1. — *General powers*

Property tax rates.

“244.29. Every local municipality may, in accordance with the provisions of this division, fix for a fiscal year several general property tax rates according to the categories to which the units of assessment belong.

Prohibition.

However, no municipality shall, for the same fiscal year, fix both

(1) a general property tax rate specific to the category of non-residential immovables described in section 244.33 and impose the surtax or the tax provided for in section 244.11 or 244.23 ;

(2) a general property tax rate specific to the category of serviced vacant land described in section 244.36 and impose the surtax provided for in section 486 of the Cities and Towns Act (chapter C-19) or article 990 of the Municipal Code of Québec (chapter C-27.1).

“§2. — *Categories of immovables*

Categories.

“244.30. For the purposes of this division, the categories of immovables are as follows :

- (1) the category of non-residential immovables ;
- (2) the category of industrial immovables ;
- (3) the category of immovables consisting of six or more dwellings ;
- (4) the category of serviced vacant land ; and
- (5) the residual category.

Composition.

The composition of the category of non-residential immovables and of the residual category shall vary according to the various assumptions concerning the existence of rates specific to other categories.

Unit of assessment.

A unit of assessment may belong to more than one category.

Determination of composition.

“244.31. For the purpose of determining the composition of the category of non-residential immovables, the group comprised of the units of assessment that include a non-residential immovable or a residential immovable for which the operator is required to hold a classification certificate issued under the Act respecting tourist accommodation establishments (chapter E-15.1) shall be taken into account.

Exclusion.

However, the following units of assessment do not belong to that group :

(1) a unit of assessment that is comprised solely of an agricultural operation registered in accordance with a regulation made under section 36.15 of the Act respecting the Ministère de l’Agriculture, des Pêcheries et de l’Alimentation (chapter M-14);

(2) a unit of assessment for the whole of which a certificate was issued under section 220.2;

(3) a unit of assessment that is comprised solely of vacant land, of a body of water or of both vacant land and a body of water;

(4) a unit of assessment constituting only a dependency of a unit consisting entirely of residential immovables not referred to in the first paragraph; and

(5) a unit of assessment that is comprised solely of the road bed of a railway to which section 47 applies.

Applicability.

Notwithstanding section 2, the second paragraph applies only to a whole unit of assessment.

Classes.

“244.32. Every unit of assessment belonging to the group described in section 244.31 forms part of one of the following classes, according to the percentage represented by the taxable value of the aggregate of non-residential immovables included in the unit in relation to the total taxable value of the unit :

(1) class 1A : less than 0.5% ;

(2) class 1B : 0.5% or more and less than 1% ;

(3) class 1C : 1% or more and less than 2% ;

(4) class 2 : 2% or more and less than 4% ;

(5) class 3 : 4% or more and less than 8% ;

(6) class 4 : 8% or more and less than 15% ;

(7) class 5 : 15% or more and less than 30% ;

- (9) class 7: 50% or more and less than 70% ;
- (10) class 8: 70% or more and less than 95% ;
- (11) class 9: 95% or more and less than 100% ;
- (12) class 10: 100%.

Interpretation :

For the purposes of the first paragraph,

“non-residential immovable”;

(1) “non-residential immovable” means any such immovable, other than such an immovable that is included in an agricultural operation registered in accordance with a regulation made under section 36.15 of the Act respecting the Ministère de l’Agriculture, des Pêcheries et de l’Alimentation (chapter M-14), and any residential immovable referred to in the first paragraph of section 244.31 ;

“taxable value”.

(2) “taxable value” means, in addition to its ordinary meaning, the non-taxable value where

(a) property taxes must be paid in respect of the immovable pursuant to the first paragraph of section 208 ;

(b) a sum to stand in lieu of property taxes must be paid in respect of the immovable, either by the Government pursuant to the second paragraph of section 210 or the first paragraph of sections 254 and 255, or by the Crown in right of Canada or one of its mandataries.

Composition.

“244.33. The composition of the category of non-residential immovables corresponds to the composition of the group described in section 244.31.

Assumption.

However, on the assumption that there exists a rate specific to the category of industrial immovables, the composition of the category of non-residential immovables corresponds to the composition of the group described in section 244.31, excluding the units of assessment referred to in subparagraph 1 of the first paragraph of section 244.34.

Units of assessment.

“244.34. The following units of assessment belong to the category of industrial immovables :

(1) a unit of assessment that is occupied or intended for occupancy solely by its owner or by a single occupant and that is mainly used or intended for industrial production purposes ; and

(2) a unit of assessment that contains several premises occupied or intended for occupancy by different occupants, including the owner notwithstanding section 1, where one of the premises is mainly intended or used for industrial production purposes.

- Applicability. Notwithstanding section 2, subparagraphs 1 and 2 of the first paragraph apply respectively, even if the premises are also used or intended for other purposes, to the whole unit of assessment and the whole separate premises.
- “premises”. For the purposes of the first two paragraphs, “premises” means any part of a unit of assessment that is a non-residential immovable within the meaning of section 244.32 and is the subject of a separate lease to which the owner is a party, is intended to be the subject of such a lease, is occupied exclusively by the owner or is intended to be so occupied by him.
- Part of unit. The part of the unit of assessment that is intended to be the subject of a separate lease or that is intended to be occupied exclusively by the owner shall be delimited by taking into consideration the largest possible aggregate of parts of the unit which, normally and in the short term, may be leased or occupied only as a whole. In the case of an immovable whose operator is required to hold a classification certificate issued under the Act respecting tourist accommodation establishments (chapter E-15.1), the aggregate of the parts intended for lodging constitutes separate premises.
- Dwellings. “244.35. Every unit of assessment that includes one or more than one residential complex and where the number of dwellings in the unit is equal to or greater than six belongs to the category of immovables consisting of six or more dwellings.
- Serviced vacant land. “244.36. Every unit of assessment that is comprised solely of serviced vacant land and, where applicable, of any building referred to in the second paragraph belongs to the category of serviced vacant land.
- Vacant land. Vacant land is land on which no building is situated. Land is also vacant land where, according to the property assessment roll, the value of the building situated on the land or, where there are several buildings, the sum of their values, is less than 10% of the value of the land.
- Serviced land. Serviced land is land that is adjacent to a public street along which water and sanitary sewer services are available.
- Applicability. Notwithstanding section 2, the first paragraph applies only to a whole unit, and the second and third paragraphs apply to the whole of the land included in that unit.
- Exclusions. The following units of assessment do not belong to the category :
- (1) a unit of assessment that includes an agricultural operation registered in accordance with a regulation made under section 36.15 of the Act respecting the Ministère de l’Agriculture, des Pêcheries et de l’Alimentation (chapter M-14) ;
 - (2) a unit of assessment that includes land used continuously for housing or land used continuously for industrial or commercial purposes other than the commercial parking business ;

(3) a unit of assessment that includes land owned by a railway undertaking and on which there is a railway track, including a railway track situated in a yard or building;

(4) land used for overhead electric powerlines;

(5) land on which construction is prohibited by law or by by-law.

Assumption.

“244.37. On the assumption that a rate specific to one or more other categories exists, a unit of assessment belongs to the residual category if it does not belong to the category or categories, as the case may be, in respect of which the assumption is made.

Exclusion.

A unit of assessment does not belong to the residual category even if, according to the assumption retained, part of the basic rate is applied under any of sections 244.51 to 244.57 to calculate the amount of the general property tax imposed on the unit.

“§3. — *Rules relating to the establishment of rates*

“A- Basic rate

Basic rate.

“244.38. The municipality shall fix a basic rate.

Residual category.

The basic rate shall constitute the rate specific to the residual category.

“B- Rate specific to the category of non-residential immovables

Non-residential immovables.

“244.39. The rate specific to the category of non-residential immovables must be equal to or greater than the basic rate.

Specific rate.

If the municipality does not impose the business tax for the same fiscal year, the specific rate shall not exceed the product obtained by multiplying the municipality’s aggregate taxation rate by the coefficient applicable under section 244.40.

Calculation.

If the municipality does impose the business tax for the same fiscal year and subject to the fourth paragraph of section 244.43, the specific rate must be such that the revenues derived from the rate being applied do not exceed the result obtained by performing the following operations consecutively:

(1) multiplying the taxable non-residential property assessment of the municipality by the municipality’s aggregate taxation rate;

(2) multiplying the product obtained under subparagraph 1 by the coefficient applicable under section 244.40;

(3) subtracting, from the product obtained under subparagraph 2, the revenues of the municipality from the business tax.

- Specific rate. The aggregate taxation rate, the taxable non-residential property assessment and the revenues are those anticipated for the fiscal year for the purposes of which the rate specific to the category of non-residential immovables must be fixed.
- Coefficient. “244.40. The applicable coefficient is 1.96.
- Applicable coefficients. However, in the case of a municipality whose territory is comprised within the territory of a public transit authority mentioned in this paragraph, or coincides therewith, the applicable coefficient is the coefficient mentioned in one or the other of the following subparagraphs, according to the body whose territory is comprised in or coincides with the territory of the municipality :
- (1) in the case of the Société de transport de la Communauté urbaine de Montréal : 2.50 ;
 - (2) in the case of the Société de transport de la Ville de Laval : 2.18 ;
 - (3) in the case of the Société de transport de la rive sud de Montréal : 2.42 ;
 - (4) in the case of the Société de transport de l’Outaouais : 2.05 ;
 - (5) in the case of the Société de transport de la Communauté urbaine de Québec : 2.13 ;
 - (6) in the case of the Corporation métropolitaine de transport de Sherbrooke : 2.22 ;
 - (7) in the case of the Corporation intermunicipale de transport des Forges : 1.97 ;
 - (8) in the case of the Corporation intermunicipale de transport de la rive sud de Québec : 2.05 ;
 - (9) in the case of the Corporation intermunicipale de transport du Saguenay : 1.99.
- Applicability. In the case of a municipality whose territory is comprised within the territory of the Société de transport de l’Outaouais, the second paragraph does not apply unless its territory is served by the public transit network of the transit authority, within the meaning of section 193.0.1 of the Act respecting the Communauté urbaine de l’Outaouais (chapter C-37.1) or any by-law under that section.
- Calculation. “244.41. For the purposes of section 244.39, the municipality’s aggregate taxation rate is the quotient obtained by dividing the total amount of the revenues for the fiscal year from the taxes, compensations and modes of tariffing that will be imposed by the municipality among those referred to in the regulation made under paragraph 3 of section 263, by the municipality’s taxable property assessment for the fiscal year concerned.

| | |
|------------------------------|---|
| Taxable property assessment. | The taxable property assessment is the total of the taxable values entered on the property assessment roll of the municipality. |
| Taxable values. | If the municipality does not avail itself of sections 253.27 to 253.34, the taxable values used for the purposes of the second paragraph are, for the first fiscal year for which the roll applies, those entered thereon on the date of its deposit and, for the second and third fiscal years, those entered thereon on the date of the first and second anniversaries of the deposit. |
| Adjusted assessment. | If the municipality avails itself of sections 253.27 to 253.34, the taxable property assessment established for the first fiscal year shall be used, as adjusted, to establish the aggregate taxation rate for each of the first and second fiscal years for which the roll applies. For the third fiscal year, the aggregate taxation rate shall be established in the same manner as if the municipality had not availed itself of those sections. |
| Determination. | The adjusted assessment referred to in the fourth paragraph shall be determined by using, instead of their taxable values entered on the roll, the adjusted values that would apply to certain taxable units of assessment for the purposes of the imposition of property taxes for the first or the second fiscal year, as the case may be, if any reference in sections 253.28 to 253.30, 253.33 and 253.34 to the coming into force of the roll concerned meant the date of its deposit. |
| Adjusted value. | For the purpose of establishing the adjusted value applicable for the second fiscal year, the net increase or decrease in the taxable values resulting from alterations made to the roll in the 12 months following the date of the deposit of the roll shall be added to or subtracted from that determined for such fiscal year under the fifth paragraph. |
| Fiscal years. | <p>In cases where the sole fiscal year, the second fiscal year or the fiscal year subsequent to the third fiscal year for which a roll applies is considered to be the third fiscal year under section 72.1, the obligation under the third paragraph of this section to take into account the values entered on the roll on the date of the second anniversary of its deposit is</p> <ol style="list-style-type: none"> (1) in the first case, inoperative; (2) in the second case, adapted as if the anniversary concerned were the first; (3) in the third case, adapted as if the anniversary concerned were that preceding the beginning of the supplementary fiscal year for which the roll applies. |
| Taxable assessment. | “244.42. For the purposes of section 244.39, the taxable non-residential property assessment of the municipality is the total of the taxable values, entered on the property assessment roll of the municipality, of the taxable units of assessment belonging to the group provided for in section 244.31. |

- Taxable value. However, in the case of a unit of assessment referred to in section 244.51, in the case of a unit of assessment referred to in section 244.52, and in the case of a unit of assessment forming part of any of classes 1A to 8 provided for in section 244.32, 40% of the taxable value in the first case, 20% of the taxable value in the second case, and, in the third case, that part of the value which corresponds to the percentage of the rate specific to the category of non-residential immovables that is applicable to the unit under section 244.53 or that would be applicable to the unit were all or part of the rate specific to the category of industrial immovables not applicable to the unit, shall be taken into account, instead of its taxable value.
- Provisions applicable. The last five paragraphs of section 244.41 apply, with the necessary modifications, to the determination of the taxable non-residential property assessment for each fiscal year for which the roll applies.
- “C- Rate specific to the category of industrial immovables
- No rate. “244.43. There shall be no rate specific to the category of industrial immovables unless there is a rate specific to the category of non-residential immovables.
- Limitation. The rate specific to the category of industrial immovables must be equal to or greater than both the basic rate and 80% of the rate specific to the category of non-residential immovables.
- Limitation. The rate specific to the category of industrial immovables shall not exceed 120% of the rate specific to the category of non-residential immovables, the product obtained under the second paragraph of section 244.39, or the maximum rate specific to the category of industrial immovables that is established under section 244.44.
- Applicability. In addition, if the municipality imposes the business tax for the same fiscal year, the third paragraph of section 244.39 applies in respect of the combination of rates specific to non-residential immovables and industrial immovables, and the revenues that may not exceed the result obtained under that paragraph are the revenues derived from that combination being applied.
- Maximum rate. “244.44. The maximum rate specific to the category of industrial immovables is the product obtained by multiplying the rate specific to the category of non-residential immovables by the applicable coefficient for the fiscal year concerned.
- Coefficient. Where the municipality fixes a rate specific to the category of industrial immovables for a fiscal year, without doing so for the last fiscal year for which its property assessment roll in force immediately before the roll applying for the fiscal year for which the rate is fixed applied, the applicable coefficient for that fiscal year is the quotient resulting from the division under section 244.45.

- Applicable coefficient.** Where the municipality fixes such a rate after doing so for the last fiscal year for which that preceding roll applied, the applicable coefficient for the fiscal year for which the rate is fixed is the product obtained by multiplying the quotient resulting from the division under section 244.45 by the coefficient applicable for that preceding fiscal year. However, the second paragraph applies, as if no rate specific to the category of industrial immovables had been fixed by the municipality for that preceding fiscal year, where that rate was equal to or less than the rate specific to the category of non-residential immovables.
- Quotient.** “244.45. For the purposes of section 244.44, the quotient that is valid for each of the fiscal years for which a property assessment roll applies, subject to the fifth paragraph in the case of a fiscal year subsequent to the first fiscal year, is the quotient obtained by dividing the number referred to in the second paragraph by the number referred to in the third paragraph.
- Number to be divided.** The number to be divided is the number obtained by subtracting from or adding to 1, as the case may be, the decimal that corresponds to the percentage decrease or increase, established by a comparison, between the roll referred to in the first paragraph as it exists on the day of its deposit and the preceding roll as it existed on the preceding day, having regard to the fifth paragraph where applicable, of the total of the taxable values of the non-residential units of assessment other than industrial units of assessment.
- Divisor number.** The divisor number is obtained by applying the rules set out in the second paragraph in respect of the total of the taxable values of the industrial units of assessment.
- Headings.** For the purposes of the second and third paragraphs, the units of assessment and the values are those that, if the summary of the roll concerned reflecting the state of the roll on the day of its deposit were accompanied by a summary of the preceding roll reflecting the state of that roll on the preceding day, would be listed on the form prescribed by the regulation made under paragraph 1 of section 263 pertaining to such a summary under the following headings :
- (1) in the case of non-residential units other than industrial units and their taxable values, all successive headings beginning with the heading designated “4 --- TRANSPORT, COMM., PUBLIC SERVICES” and ending with the heading designated “7 --- CULTURAL AND RECREATIONAL”;
- (2) in the case of industrial units and their taxable values, all headings designated “2-3 --- MANUFACTURING INDUSTRIES” and “85 -- Mining”.
- Alteration.** Where, in respect of a unit of assessment referred to in the fourth paragraph, an alteration is made to the roll referred to in the first paragraph or to the preceding roll to enter the taxable value of the unit that should have been entered at the time the roll concerned was deposited or not later than the preceding day, as the case may be, the quotient previously established is

replaced, for the purpose of establishing the maximum rate specific to the category of industrial immovables for any fiscal year, other than the first fiscal year, for which the roll concerned applies, if the alteration is made before 1 September preceding the beginning of the fiscal year. For the purposes of the replacement, the net increase or decrease in the taxable values of the units resulting from all the alterations referred to in this paragraph and made before 1 September preceding the beginning of the fiscal year to which the replacement pertains is added to or subtracted from, as the case may be, the taxable values taken into account pursuant to the fourth paragraph.

- Assessor. The assessor who deposits the roll referred to in the second paragraph shall, on request, furnish to the municipality the percentages fixed pursuant to the second and third paragraphs.
- Percentages replaced. If the municipality avails itself of the power under section 253.27 in respect of the roll referred to in the first paragraph, the percentages fixed pursuant to the second and third paragraphs are replaced
- (1) where the roll applies for three fiscal years, by one-third and two-thirds of those percentages, respectively, for the first and second fiscal years ; and
 - (2) where the roll applies for two fiscal years, by one-half of those percentages for the first fiscal year.
- “D- Rate specific to the category of immovables consisting of six or more dwellings
- Specific rate. “244.46. The rate specific to the category of immovables consisting of six or more dwellings must be equal to or greater than the basic rate.
- Limitation. The rate specific to the category of immovables consisting of six or more dwellings shall not exceed 120% of the basic rate or the maximum rate specific to that category.
- Maximum rate. “244.47. The maximum rate specific to the category of immovables consisting of six or more dwellings is the product obtained by multiplying the basic rate by the applicable coefficient for the fiscal year concerned.
- Coefficient. Where the municipality fixes a rate specific to that category for a fiscal year, without doing so for any of the fiscal years for which its property assessment roll in force immediately before the roll applying for the fiscal year for which the rate is fixed applied, the applicable coefficient for that fiscal year is the quotient resulting from the division under section 244.48.
- Applicable coefficient. Where the municipality fixes such a rate after doing so for the last fiscal year for which that preceding roll applied, the applicable coefficient for the fiscal year for which the rate is fixed is the product obtained by multiplying the quotient resulting from the division under section 244.48 by the coefficient applicable for that preceding fiscal year.

- Quotient. “244.48. For the purposes of section 244.47, the quotient that is valid for each of the fiscal years for which a property assessment roll applies is the quotient obtained by dividing the number referred to in the second paragraph by the number referred to in the third paragraph.
- Number to be divided. The number to be divided is the number obtained by subtracting one from or by adding to one, as the case may be, the decimal that corresponds to the percentage increase or decrease, established by a comparison, between the roll referred to in the first paragraph as it exists on the day of its deposit and the preceding roll as it existed on the preceding day, of the total of the taxable values of the residential assessment units, without taking into account units in which there are six or more dwellings.
- Divisor number. The divisor number is obtained by applying the rules set out in the second paragraph in respect of the total of the taxable values of the residential units of assessment in which there are six or more dwellings.
- Headings. For the purposes of the second and third paragraphs, the units of assessment and the values are those that, if the summary of the roll concerned reflecting the state of the roll on the day of its deposit were accompanied by a summary of the preceding roll reflecting the state of that roll on the preceding day, would be listed on the form prescribed by the regulation made under paragraph 1 of section 263 pertaining to such a summary under the following headings :
- (1) in the case of the aggregate of residential units and their taxable values, the heading designated “1 --- RESIDENTIAL” ;
 - (2) in the case of the units in which there are six or more dwellings and their taxable values, all successive headings beginning with the heading designated “10 -- Dwellings/Number: 6 to 9” and ending with the heading designated “10 -- Dwellings/Number: 200 and more”.
- Assessor. The assessor who deposited the roll referred to in the second paragraph shall, on request, furnish to the municipality the percentages fixed in accordance with the second and third paragraphs.
- Percentages to be used. If the municipality avails itself of the power under section 253.27 in respect of the roll referred to in the first paragraph, the following percentages shall be used rather than the percentages fixed pursuant to the second and third paragraphs :
- (1) where the roll applies for three fiscal years, one-third and two-thirds of those percentages, respectively, for the first and second fiscal years ; and
 - (2) where the roll applies for two fiscal years, one-half of those percentages for the first fiscal year.
- “E- Rate specific to the category of serviced vacant land

- Specific rate. “244.49. The rate specific to the category of serviced vacant land must be equal to or greater than the basic rate.
- Limitation. The rate specific to the category of serviced vacant land shall not exceed twice the basic rate.
- “§4. — *Rules relating to the application of the rates*
- Rate applicable. “244.50. The rate fixed for a fiscal year in respect of a category applies, subject to the other provisions of this subdivision, for the purpose of calculating the amount of the general property tax imposed for that fiscal year on a unit of assessment belonging to that category.
- Calculation. “244.51. In the case of a unit of assessment that includes the road bed of a railway situated in a yard which belongs to a railway enterprise and which, on 16 June 1994, was either a yard of the Canadian National Railway Company (C.N.) or of Canadian Pacific Limited (C.P. Rail) or a yard of VIA Rail Canada Inc. situated in the territory of Ville de Montréal, the amount of the tax shall be calculated, where a rate has been fixed in respect of the category of non-residential immovables, at 40% of that rate and at 60% of the basic rate.
- Applicability. Notwithstanding section 2, the first paragraph applies to the whole unit even if it includes an immovable other than the road bed.
- Calculation. “244.52. In the case of a unit of assessment where activities inherent in the mission of a residential and long-term care centre within the meaning of the Act respecting health services and social services (chapter S-4.2) are carried on in accordance with a permit issued under that Act, the amount of the tax shall be calculated, where a rate has been fixed in respect of the category of non-residential immovables, at 20% of that rate and at 80% of the basic rate.
- Applicability. Where, under section 2, the first paragraph is deemed to apply to only part of a unit of assessment, the third paragraph of section 61, sections 244.32 and 244.53 and, to the extent that they refer to the classes provided for in the latter sections, sections 244.42 and 244.54 to 244.56 and the second paragraph of section 261.5 do not apply in respect of the unit.
- Classes. “244.53. In the case of a unit of assessment that belongs to any of classes 1A to 8 provided for in section 244.32, the amount of the tax shall be calculated, where a rate has been fixed in respect of the category of non-residential immovables, by applying one of the following combinations, according to the class to which the unit belongs:
- (1) class 1A: 0.1% of the rate specific to the category of non-residential immovables and 99.9% of the basic rate;
- (2) class 1B: 0.5% of the rate specific to the category of non-residential immovables and 99.5% of the basic rate;

(3) class 1C: 1% of the rate specific to the category of non-residential immovables and 99% of the basic rate;

(4) class 2: 3% of the rate specific to the category of non-residential immovables and 97% of the basic rate;

(5) class 3: 6% of the rate specific to the category of non-residential immovables and 94% of the basic rate;

(6) class 4: 12% of the rate specific to the category of non-residential immovables and 88% of the basic rate;

(7) class 5: 22% of the rate specific to the category of non-residential immovables and 78% of the basic rate;

(8) class 6: 40% of the rate specific to the category of non-residential immovables and 60% of the basic rate;

(9) class 7: 60% of the rate specific to the category of non-residential immovables and 40% of the basic rate;

(10) class 8: 85% of the rate specific to the category of non-residential immovables and 15% of the basic rate.

Calculation.

In the circumstance described in the first paragraph, the amount of the tax shall be calculated, in the case of a unit of assessment belonging to class 9 or 10 provided for in section 244.32, by applying only 100% of the rate specific to the category of non-residential immovables.

Presumption.

If a rate has also been fixed in respect of the category of immovables with six dwellings or more and if the unit of assessment referred to in the first paragraph also belongs to that category, the reference to the basic rate in that paragraph is deemed to be replaced by a reference to the rate specific to that category.

Provisions applicable.

The first three paragraphs apply subject to sections 244.54 to 244.56 if a rate has also been fixed in respect of the category of industrial immovables. The second paragraph applies subject to section 244.57 if a rate has also been fixed in respect of the category of serviced vacant land.

Classes.

“244.54. For the purposes of the rules relating to the application of the rates where one of those rates has been fixed in respect of the category of industrial immovables, each unit of assessment belonging to that category and referred to in subparagraph 2 of the first paragraph of section 244.34 belongs to one of the following classes, according to the percentage that the area of the industrial premises included in the unit or in the aggregate of such premises is of the total non-residential area of the unit

(1) class 1I: less than 25%;

(2) class 2I: 25% or more and less than 75%;

(3) class 3I: 75% or more.

Interpretation :

For the purposes of the first paragraph,

“industrial premises”;

(1) “industrial premises” means premises within the meaning of section 244.34 that are mainly intended or used for industrial production purposes ;

“non-residential area”.

(2) “non-residential area” means the area of any non-residential immovable within the meaning of section 244.32.

Calculation.

“244.55. In the case of a unit of assessment that belongs to class 2I provided for in section 244.54, the amount of the tax shall be calculated, where a rate has been fixed in respect of the category of industrial immovables, at 50% of that rate and 50% of the rate that has been fixed in respect of the category of non-residential immovables.

Calculation.

In the case of a unit of assessment that belongs to another class provided for in section 244.54, the amount of the tax shall be calculated, where a rate has been fixed in respect of the category of industrial immovables, by applying only the rate specific to the category of non-residential immovables, if the unit belongs to class 1I, or the rate specific to the category of industrial immovables, if the unit belongs to class 3I.

Applicability.

The first two paragraphs apply subject to section 244.56.

Calculation.

“244.56. Where a rate has been fixed in respect of the category of industrial immovables, the amount of the tax shall be calculated, in the case of a unit of assessment belonging to that category that is part of any of the classes provided for in section 244.32, by applying the rule set out in the second paragraph and by multiplying, by the percentage of the rate specific to the category of non-residential immovables provided for in section 244.53 in respect of that class,

(1) the rate specific to the category of industrial immovables, if the unit is referred to in subparagraph 1 of the first paragraph of section 244.34 or belongs to class 3I provided for in section 244.54 ;

(2) the rate specific to the category of non-residential immovables, if the unit belongs to class 1I provided for in section 244.54 ;

(3) half of each of the rates referred to in subparagraphs 1 and 2, if the unit belongs to class 2I provided for in section 244.54.

Calculation.

In addition to the multiplication under the first paragraph, the amount of the tax shall be calculated by applying the percentage of the basic rate or, as the case may be, of the rate specific to the category of immovables with six dwellings or more that is provided for in section 244.53 in respect of the class to which the unit of assessment belongs.

- Calculation. “244.57. In the case of a unit of assessment belonging to both the category of non-residential immovables and the category of serviced vacant land, where a rate has been fixed in respect of each of those categories, the amount of the tax shall be calculated by applying, in addition to the rate specific to the first category, the rate obtained by subtracting the basic rate from the rate specific to the second category.
- Reference. “244.58. In any legislative or regulatory provision, except in this division, any reference to the general property tax rate means, unless otherwise indicated by the context, the rate, part of rate or combination of such parts that, according to the rules provided for in this subdivision, applies in the calculation of the amount of the tax imposed on the unit of assessment concerned.
- Applicability. The first paragraph applies subject to section 253.59.
- “§5. — *Abatement in respect of certain vacancies*
- Entitlement. “244.59. A municipality may, by by-law, provide that, where it has fixed a rate specific to the category of non-residential immovables, the debtor of the tax imposed on a unit of assessment belonging to the group provided for in section 244.31 is entitled, under certain conditions, to an abatement taking into account the fact that the unit or non-residential premises of the unit are vacant.
- Amount. The amount of the abatement shall not exceed the difference obtained by subtracting from the amount of the tax that is payable under the rules provided for in subdivision 4 from the amount that would be payable if the basic rate were applied.
- Restriction. The abatement shall be granted to the debtor only if the average percentage of unoccupancy of the unit for the reference period exceeds 20%.
- By-law. “244.60. The by-law must
- (1) define the meaning of non-residential premises, vacancy of a unit of assessment or of premises, average percentage of unoccupancy of a unit and reference period;
 - (2) prescribe the rules for calculating the abatement;
 - (3) prescribe the terms and conditions according to which an abatement is granted as well as the rules which apply where a debtor acquires or loses the right to an abatement during a fiscal year or where the amount of the abatement varies.
- Rules. The rules for calculating the abatement must take into account, in particular,
- (1) the rate, part of rate or combination of such parts that, according to the rules provided for in subdivision 4, applies in the calculation of the amount of the tax imposed on the unit of assessment concerned;

- (2) the basis of imposition of the tax ;
- (3) the part of the fiscal year during which the vacancy exists.

By-law.

“244.61. The by-law may

(1) prescribe that a unit of assessment or non-residential premises be taken into consideration for the purposes of abatement only if they are vacant for the number of days it fixes, specify whether the days taken into account in computing the number must occur consecutively and, in such a case, whether the days must be included in a single fiscal year or whether they may be included in two fiscal years and specify whether the unit or premises, once a number has been reached, are to be taken into consideration for the purposes of abatement from the day the number is reached or from the first of the days, consecutive or not, as the case may be, included in the fiscal year for which abatement is granted ;

(2) prescribe the rules, including verification measures, to be used to establish whether or not the vacancy exists and whether or not the average percentage of unoccupancy is attained ;

(3) provide for interest to be added to the amount of a tax supplement or overpayment which must, in the circumstances described in subparagraph 3 of the first paragraph of section 244.60, be paid or refunded.

Notification.

“244.62. During the time the by-law is in force, when occupancy of a unit of assessment or separate premises thereof begins or ceases or when a change of occupant occurs, the debtor of the tax must, within 30 days or within any other time limit agreed upon with the clerk of the municipality, give written notice thereof to that municipality or inform it in any other manner agreed upon with the clerk.

Offence and penalty.

Every person who, knowing that occupancy of the unit of assessment or separate premises thereof for which he owes the tax has begun or ceased or that a change of occupant has occurred, fails to inform the municipality thereof in the manner and within the time limit applicable under the first paragraph or, if the person learned of the fact too late to act within the prescribed time, as soon as possible thereafter, is guilty of an offence and liable to a fine of \$500.

Penalty.

- Conditions of employment. In any other case, the person shall be appointed, for the unexpired portion of the person's term with the Commission, with the conditions of employment that were applicable to the person as a member of the Commission.
- Nullity. 1 18. Every act performed under any of sections 24.6 to 24.16 of the Act respecting the Commission municipale (R.S.Q., chapter C-35), enacted by section 8 of chapter 27 of the statutes of 2000, in respect of an infrastructure or equipment referred to in the provision repealed by section 17, is absolutely null.

Presumption. Any mention of such an infrastructure or equipment in any list or document referred to in the provision amended by section 105 is deemed unwritten.

Reimbursement. 119. Every local municipality in respect of which no election proceeding related to the regular election planned for 2000 took place owing to the application of the first paragraph of section 125.10 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9) may, if that application occurred within the seven days preceding the date planned for the beginning of the election period within the meaning of section 364 of the Act respecting elections and referendums in municipalities (R.S.Q., chapter E-2.2), make a reimbursement of expenses in accordance with the provisions of the second paragraph and, where applicable, of the regulation made under the third paragraph.

Reimbursement. The municipality may reimburse to every person who, prior to the date on which the first paragraph of that section 125.10 applied, had manifested his or her true intention of being a candidate at that election by performing an act having that intention as its only reasonable ground, every expense incurred by the person to perform the act using his or her personal funds. The municipality may also reimburse, to every party whose authorization granted under the Act respecting elections and referendums in municipalities is valid for the municipality, every expense that a person qualified to do so incurred for the party, before that date, in view of the election.

By-law. The municipality may adopt a by-law to specify what constitutes an act or an expense under the second or the third paragraph and to establish the terms and conditions of reimbursement.

Presumption. For the application of sections 304, 305, 361 and 362 of the Act respecting elections and referendums in municipalities in respect of a member of the council of the municipality entitled to receive a reimbursement, the reimbursement is deemed to be one of the member's conditions of employment.

Provisions respecting the effective date of fiscal measures

Effect. 120. Sections 5, 12, 37, 40 to 48 and 50, paragraphs 2 and 3 of section 54, paragraph 2 of section 56, paragraph 1 of section 59, sections 62 and 65 to 70, paragraphs 1 and 2 of section 71 and sections 77, 78, 80 to 84, 86 and 87 have effect for the purposes of municipal fiscal years from the fiscal year 2001.

Effect. Paragraph 4 of section 71, paragraph 1 of section 79 and section 85 have effect for the purposes of any such fiscal year from the fiscal year 2002.

Nullity. 121. Any alteration to a property assessment roll made after 24 May 2000 the object of which is to have all or part of an immovable unduly omitted with respect to section 68.1 of the Act respecting municipal taxation entered on the roll, is absolutely null.

- Applicability. The first paragraph does not apply to an alteration made under section 182 of that Act where, on 24 May 2000,
- (1) the agreement, decision or judgment giving rise to the alteration had been entered into, was executory or had become *res judicata*, respectively ; or
- (2) the complaint, application for review, or proceedings to quash or set aside that led to the agreement, decision or judgment giving rise to the alteration was pending.
- Presumption. 122. The entries referred to in sections 57 and 57.1 of the Act respecting municipal taxation which appear on a property assessment roll in force on 1 January 2001 are deemed to also be entries referred to respectively in the second and first paragraphs of section 57.1.1 of that Act enacted by section 41.
- Prohibition. 123. No program established by the Government or one of its ministers or bodies to indemnify municipalities for all or part of the reduction in their property tax base resulting from the application of section 47 shall, for the purpose of establishing that reduction, take into account any immovable or part of an immovable referred to in that section that was entered on the assessment roll after 14 March 2000.
- Presumption. 124. Until the coming into force of section 26 of chapter 10 of the statutes of 2000, any reference, in the first paragraph of section 244.31 and the fourth paragraph of section 244.34 of the Act respecting municipal taxation enacted by section 82, to a classification certificate issued under the Act respecting tourist accommodation establishments (R.S.Q., chapter E-15.1) is deemed to be in reference to a permit issued under the Tourist Establishments Act.
- Maximum rate. 125. For the purpose of establishing the maximum rate specific to the category of industrial immovables provided for in section 244.44 of the Act respecting municipal taxation enacted by section 82, for the municipal fiscal years for which a property assessment roll that comes into force on 1 January 2001 applies, the effect of the application of section 28 of chapter 19 of the statutes of 2000 or of section 47 of this Act on the taxable value of a unit of assessment shall be disregarded in applying section 244.45 of the Act respecting municipal taxation enacted by section 82.
- Taxable value. For that purpose, where the taxable value of the unit of assessment as it exists on the roll at the time the roll is deposited does not include the value of an immovable that, pursuant to a provision referred to in the first paragraph, ceases to be required to be entered on the roll and where the taxable value of the unit as it exists on the roll on the day preceding the deposit includes the value of such an immovable, the latter value shall be subtracted from the value in which it is so included.

- Presumption. 126. Until the coming into force of the first regulation made under paragraph 12 of section 262 of the Act respecting municipal taxation enacted by section 88, immovables that are structures, works, machines or equipment specific to a wharf or a port facility and in respect of which the legislation of the Parliament of Canada concerning subsidies to municipalities to stand in lieu of property taxes and any instruments under that legislation provide that, by reason of the nature of the immovables, no such subsidy is payable, are deemed to be the structural members determined by such a regulation.
- Assumption. For the purposes of the first paragraph, the immovables concerned shall be assumed, if that is not already the case, to belong to the Crown in right of Canada and to be managed by one of its ministers.
- Compensation. 127. The Government shall fix the amount of the compensation to be paid by the Société des Traversiers du Québec to replace any tax it ceases to pay because of the application of section 46.
- Effect. 128. Section 33 has effect from 1 February 2001.
- Provisions respecting exemptions arising from recognitions granted by the Commission municipale du Québec*
- Interpretation: 129. For the purposes of sections 130 to 138,
- “new scheme”; (1) “new scheme” means the provisions referred to in paragraph 2 of section 59, paragraph 2 of section 63, paragraph 3 of section 71 and section 76, as they read as of 20 December 2000;
- “former scheme”. (2) “former scheme” means the provisions referred to in paragraph 2 of section 59, sections 61 and 64, paragraph 3 of section 71, section 72 and paragraphs 3, 5 and 6 of section 79, as they read on 19 December 2000.
- Proceedings. 130. Every proceeding the object of which is the obtaining or revocation of recognition under the former scheme, that was pending before the Commission municipale du Québec on 26 October 2000 and remained pending on 19 December 2000, and that, on the first of those dates, was ready for hearing, remains governed by the former scheme.
- Recognition. 131. Every recognition granted under the former scheme and that was in force on 19 December 2000 or that is obtained after that date following a proceeding referred to in section 130 remains in effect, unless that effect ceases in the meantime by reason of a revocation or lapsing, until the applicable expiry date among those provided in sections 132 and 133.
- Revocation. Recognition may be revoked in accordance with the former scheme.
- Lapsing. Recognition lapses by operation of law if, as a result of an alteration to the property assessment roll or the roll of rental values, it appears that the immovable concerned no longer exists or is no longer entered on the roll, the

recognized institution or body is no longer the owner, lessee or occupant, or the connection between the elements of the recognition forming the basis for the recognition has otherwise ceased to exist. Section 243.16 of the Act respecting municipal taxation, enacted by section 76, applies for the purpose of determining the date on which the lapsing becomes effective.

- Expiry. 132. According to whether the recognition was obtained nine or more years ago, five years or more but less than nine years ago, or less than five years ago, the date on which recognition expires by operation of law coincides with the end of 2001, 2002 or 2003.
- Time. The time elapsed since the obtaining of the recognition shall be calculated to 19 December 2000.
- Date of expiry. However, in the case of recognition obtained after that date following a proceeding referred to in section 130, the date on which the recognition expires by operation of law coincides with the end of 2003.
- Provisions applicable. The first three paragraphs apply subject to any different expiry date fixed by the Commission under section 133.
- Application. 133. A recognized institution or body may, before the date on which its recognition expires by operation of law, present an application under the new scheme.
- Expiry date. If the Commission grants the application, the day that is the expiry date of the recognition obtained under the former scheme is, unless the Commission fixes another day in its decision, the day preceding the date of coming into force of the recognition granted under the new scheme.
- Fixing of date. If the Commission does not grant the application, the Commission shall fix the expiry date in its decision. That date may not be prior to 31 December of the year at the end of which, were it not for the application referred to in the first paragraph, the recognition would have expired by operation of law.
- Notice. 134. The Commission shall give the recognized institution or body a notice in writing informing the institution or body of the rules set out in sections 131 to 133 and providing a brief explanation of the new scheme.
- Content. The notice shall specify the time limit that applies for the presentation of an application.
- Due time. The notice must be given in due time before the expiry of the time limit.
- Decision. 135. If the recognized institution or body does not present an application under the new scheme within the applicable time limit, the Commission shall, on its own initiative, after ensuring the requirements of section 134 have been met, render a decision evidencing the fact that the recognition expired by operation of law.

- New time limit. 136. Where the Commission becomes aware that it has not met the requirements of section 134, it shall fix a new time limit within which the recognized institution or body may present an application under the new scheme.
- Applicability. Sections 133 to 135 shall then again apply, as if the new time limit were substituted for that provided for in the first paragraph of section 133.
- Provisions applicable. 137. During the period in which recognition obtained under the former scheme remains in effect, the relevant provisions among those referred to in sections 49 and 60 and in paragraphs 2 and 4 of section 79, as they read on 19 December 2000, continue to apply consequentially.
- Notice. 138. Every local municipality that imposes the business tax for its fiscal year 2001 shall, not later than 30 June 2001, give a notice in writing to any institution or body that is a registered charity for the purposes of the Taxation Act (R.S.Q., chapter I-3) and that, according to its records, occupies an immovable situated in its territory.
- Contents. The notice must inform the institution or body that the business tax exemption it may avail itself of by operation of law will cease to exist, provide a brief explanation of the new scheme and inform the institution or body of the rule set out in the third paragraph.
- Exception. Notwithstanding the second paragraph of section 120, the business tax exemption the institution or body may avail itself of by operation of law does not cease on 1 January 2002 if the institution or body has presented an application under the new scheme and the application is pending on that date. The last two paragraphs of section 133 then apply as if the exemption resulted from recognition obtained under the former scheme and that is to expire by operation of law at the end of 31 December 2001.

Provision respecting contributions to the special local activities financing fund

- Request for payment. 139. The amendment made by section 92 to the amount that a municipality must pay for the year 2000 pursuant to section 5 of the Act to establish the special local activities financing fund (R.S.Q., chapter F-4.01) does not require the Minister of Municipal Affairs and Greater Montréal to send to the municipality, pursuant to section 8 of that Act, a new request for payment.

Provisions respecting the application of regulations under the Act respecting municipal taxation

- Presumption. 140. Until the coming into force of the first amendment made after 19 December 2000 to the Regulation respecting compensations in lieu of taxes (R.R.Q., 1981, c. F-2.1, r.0.1.1), every provision of the regulation that lists the revenues that are not to be taken into account for the purpose of establishing the aggregate taxation rate is deemed to also mention the portion of the revenues of the general property tax determined under the second paragraph.

Computation.

That portion is the difference obtained by subtracting the amount under subparagraph 2 from the amount under subparagraph 1 :

(1) the amount from which the other amount is subtracted is the amount of the revenues derived from the tax imposed on the units of assessment belonging to one of the categories provided for in sections 244.33 and 244.34 and resulting from the fixing, under section 244.29, of a rate specific to the category ;

(2) the amount that is subtracted from the other amount is the amount of the revenues that would derive from the tax imposed on the units of assessment referred to in subparagraph 1, if the basic rate provided for in section 244.38 or, in the case where the municipality has fixed a rate specific to the category provided for in section 244.35, the average rate established pursuant to the third paragraph, were applied.

Computation.

The average rate is obtained by dividing the amount under subparagraph 1 by the amount under subparagraph 2 :

(1) the amount to be divided is the amount of the revenues which

(a) are derived from the tax imposed on the units of assessment in respect of which all or part of the basic rate provided for in section 244.38 or of the rate specific to the category provided for in section 244.35 is used to calculate the amount of the tax ;

(b) result from the application of all or part of a rate referred to in subparagraph *a* ;

(2) the dividing amount is the amount of the taxable values of the units of assessments referred to in subparagraph *a* of subparagraph 1, as they are determined taking into account, in the case of a unit in respect of which only a percentage of a rate referred to in that subparagraph *a* is applied, only the corresponding percentage of its taxable value.

References.

The sections referred to in the second and third paragraphs are the sections in the Act respecting municipal taxation enacted by section 82.

Provisions applicable.

The first four paragraphs also apply to every provision of the Regulation respecting the equalization scheme (R.R.Q., 1981, c. F-2.1, r.9.001) and the Regulation respecting the aggregate taxation rate (R.R.Q., 1981, c. F-2.1, r.14.1) that lists the revenues not to be taken into account for the purpose of establishing the standardized aggregate taxation rate.

Presumption.

141. Until the coming into force of the first amendment made after 19 December 2000 to the Regulation respecting the form or minimum content of various documents relative to municipal taxation (R.R.Q., 1981, c. F-2.1, r.4.2.1), every provision of the regulation that mentions the third paragraph of section 244.13 or 244.25 of the Act respecting municipal taxation, or the percentage of 40% provided for in that paragraph is deemed to also mention

the fourth paragraph of section 244.13 or 244.25 of that Act enacted by section 78 or 81, as the case may be, or the percentage of 20% provided for in that paragraph.

Regulation.

For the same period, any provision of the regulation

(1) that requires the content of the property assessment roll to be reflected by an indication of the fact that a unit of assessment may be subject to the surtax on serviced vacant land or to the surtax or tax on non-residential immovables is deemed to also require the content of the roll to be reflected by an indication that a unit of assessment belongs to one of the categories provided for in sections 244.33 to 244.36;

(2) that requires the content of the property assessment roll to be reflected by an indication that a unit of assessment is subject to a provision of the Act respecting municipal taxation referred to in the first paragraph is deemed to also require the content of the roll to be reflected by an indication that a unit of assessment is subject to, as the case may be, section 244.51 or 244.52;

(3) that requires the content of the property assessment roll to be reflected by an indication and an explanation of the number of a category to which a unit of assessment belongs for the purposes of the surtax or the tax on non-residential immovables is deemed to also require the content of the roll to be reflected by an indication and an explanation of the number of a class provided for in section 244.32 or 244.54;

(4) that requires the percentage of the rate of the surtax or of the tax on non-residential immovables applicable to a unit of assessment to be mentioned and explained is deemed to also require the percentage provided for in any of sections 244.51 to 244.53, 244.55 and 244.56 to be mentioned and explained;

(5) that requires an abatement applicable to the amount of the surtax on non-residential immovables and related to the vacancy of the unit of assessment or separate premises thereof to be explained is deemed to also require the abatement provided for in section 244.59 and granted in respect of a unit to be explained.

References.

The sections referred to in the second paragraph are the sections in the Act respecting municipal taxation enacted by section 82.

Presumption.

142. Until the coming into force of the first amendment made after 19 December 2000 to the Regulation respecting the maximum taxable value of certain rectories (R.R.Q., 1981, c. F-2.1, r.4.3), a reference to the taxable value in any provision or in the title of the regulation is deemed to be a reference to the non-taxable value.

Sums not paid.

143. For the municipal fiscal year 2001, all sums that, subsequent to the application of subparagraph 1 of the first paragraph of section 15 of chapter 27 of the statutes of 2000 enacted by section 109, are not paid as they would otherwise have been paid under the Regulation respecting the equalization

scheme (R.R.Q., 1981, chapter F-2.1, r.9.001) must be used to finance any program of the Government or one of its ministers or bodies that is intended to assist regional county municipalities in the exercise of their functions as regards residual materials management, fire safety or emergency preparedness.

Applicability. The same applies, to a maximum of \$3,500,000, for each of the fiscal years 2002 and 2003.

Portion of the sums. 144. For each of the municipal fiscal years 2002 and 2003, the portion of the sums referred to in the first paragraph of section 143 in excess of \$3,500,000 shall be paid, in the manner determined by the Government, to the local municipalities entitled to receive an amount under the regulation mentioned in that paragraph and to which subparagraph 1 of the first paragraph of section 15 of chapter 27 of the statutes of 2000 enacted by section 109 does not apply.

Excess amount. The excess amount shall be apportioned among the municipalities in proportion to the amounts payable to them, for the fiscal year, under section 23.3 of the regulation.

Provision relating to the interpretation of certain stipulations in leases

Presumption. 145. Where, at the beginning of the first municipal fiscal year for which a local municipality fixes, under section 244.29, a rate specific to the category provided for in section 244.33, a unit of assessment belonging to the group provided for in section 244.31 is the subject of a lease containing a stipulation relating to the surtax or the tax on non-residential immovables, the stipulation is deemed to relate, in the case of each fiscal year that begins during the term of the lease and for which the municipality fixes such a specific rate, to the difference obtained by subtracting the amount that would be payable if only the basic rate provided for in section 244.38 were applied from the amount of the general property tax payable in respect of the unit.

References. The sections mentioned in the first paragraph are the sections of the Act respecting municipal taxation enacted by section 82.

Interpretation. For the purposes of the first paragraph, in the case of a non-taxable unit of assessment, “surtax on non-residential immovables”, “tax on non-residential immovables” and “general property tax” means the sum in lieu of any of those taxes that must be paid in respect of the unit, either by the Government in accordance with the second paragraph of section 210 of the Act respecting municipal taxation or the first paragraph of sections 254 and 255 of that Act, or by the Crown in right of Canada or a mandatory thereof.

- Opinion required. The council may also, in the internal management by-laws, determine any matter on which the executive committee must give its opinion to the council, and prescribe the terms and conditions of consultation. The internal management by-laws may also prescribe the manner in which a member of the council may request the executive committee to report to the council on any matter within the jurisdiction of the executive committee.
- Internal management by-law. 35. The executive committee may adopt an internal management by-law concerning its meetings and the conduct of its affairs. The by-law may also, if permitted by the internal management by-laws of the city, enable the executive committee to delegate to any employee of the city the power to authorize expenditure, on the conditions determined by the executive committee and in accordance with the rules and restrictions applicable to the city, and enter into contracts on behalf of the city.

Majority. 36. A decision by the council to delegate a power to or withdraw a power from the executive committee must be supported by a majority of two-thirds of the votes of the members of the council.

Standards. It must, however, administer its allotment in conformity with the minimum standards fixed by by-law of the city council regarding the level of services to be offered by each borough council.

Tariffing. 125. The only mode of tariffing which may be used by the borough council to finance all or part of its property, services or activities is a tariff involving a fixed amount charged on an *ad hoc* basis, in the form of a subscription or under terms similar to those of a subscription, for the use of a property or service or in respect of a benefit derived from an activity.

Tariffing. No borough council may require the inhabitants and ratepayers of the other city boroughs to pay an amount greater than the amount required from the inhabitants and ratepayers of the borough.

Revenues. Revenues generated by the application by the borough council of a mode of tariffing referred to in the first paragraph are for the exclusive use of the borough council.

(2) if the subject of the by-law is the execution of permanent work on waste water purification works, drinking water supply systems, underground conduits, road surfacing, curbs, sidewalks, lighting and traffic signs and signals, and the acquisition by agreement or expropriation of land or servitudes required for the execution of that permanent work.

Repayment of loan. In addition, where repayment of the loan is, in accordance with section 487 of the Cities and Towns Act (R.S.Q., chapter C-19), charged partly to the owners of immovables in the whole territory of the city and partly to the owners of immovables in part of the territory,

(1) the by-law need not be submitted for approval to the qualified voters where the portion charged to the owners in part of the territory is less than 25%; and

(2) where that portion is 25% or more, the by-law must be submitted to the approval of the qualified voters in the part of the territory concerned.

Business tax. The first paragraph applies, with the necessary modifications, as regards the business tax payable in respect of the same business establishment.

Interpretation. 131. For the purposes of sections 129 and 130, where the tax on non-residential immovables is levied for a fiscal year, and the surtax on non-residential immovables is levied for the following fiscal year, or vice versa, the same tax shall be considered to be levied for both fiscal years.
