NOTE

This volume contains the text of Acts assented to in 2000.

It also contains information that enables the reader to locate an Act, to trace the stages of its consideration in the National Assembly and to determine its effects on existing legislation.

Each Act is preceded by an introductory page indicating, in addition to the chapter number and title of the Act, the corresponding bill number, the name of the Member who introduced the bill, the date of each stage of consideration in the National Assembly, the date of assent, the date or dates of coming into force if fixed on 1 March 2001, and a list of the Acts amended by the Act.

The table of amendments is a cumulative listing of all amendments made to the Revised Statutes of Québec, 1977 and other public Acts, including amendments made by the Acts passed in 2000. It is followed by a table of general amendments and a table of corrections made for updating purposes since 1979 pursuant to the Act respecting the consolidation of the statutes and regulations (R.S.Q., chapter R-3).

The equivalence table lists the chapter number in the Revised Statutes of Québec assigned to Acts adopted between 1 January 2000 and 1 January 2001.

A table, compiled since 1964, shows the dates on which public legislative provisions came into force by proclamation or order in council, except those already indicated in the annual volumes of statutes. The next table enumerates legislative provisions which have yet to be brought into force by proclamation or order in council. Other tables contain information relating to letters patent, supplementary letters patent, orders, proclamations and orders in council required by law to be published.

The table of concordance lists, opposite each other, the bill number of each Act and its chapter number in the annual volume of statutes.

Most of the information described above can be found in the yellow pages of the volume. An alphabetical index is provided at the end of the volume.

AN ACT TO REGULATE THE FOREST MANAGEMENT ACTIVITIES OF HOLDERS OF TIMBER SUPPLY AND FOREST MANAGEMENT AGREEMENTS FOR THE YEARS 2000-2001 AND 2001-2002

[Assented to 6 April 2000]

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS :

CHAPTER I

PLANNING OF THE FOREST MANAGEMENT ACTIVITIES OF HOLDERS OF TIMBER SUPPLY AND FOREST MANAGEMENT AGREEMENTS

DIVISION I

GENERAL PROVISION

Rules. 1. This chapter establishes special rules to govern the planning of the forest management activities of the holders of timber supply and forest management agreements for the years 2000-2001 and 2001-2002. However, it does not apply to the planning of forest management activities carried out in the common areas listed in Schedule I.

DIVISION II

PROVISIONS APPLICABLE FOR 2000-2001

§1. — *Forest management activities carried out in the common areas listed in Schedule II*

Management permit, 2000-2001. 2. For the year 2000-2001, the forest management permit for the supply of a wood processing plant referred to in section 86 of the Forest Act (R.S.Q., chapter F-4.1) is replaced, with regard to forest management activities carried out in the common areas listed in Schedule II, by the management permit issued under this subdivision.

Management permit. The management permit is issued to the holder of a timber supply and forest management agreement by the Minister of Natural Resources once the holder's annual forest management plan has been approved.

Approval. 3. The annual management plan is approved by the Minister, with or without amendment, taking into consideration the comments made concerning

the five-year plan during the public consultation held pursuant to section 58.2 of the Forest Act and, where applicable, the results of conciliation under section 58.3 of that Act.

Comments.

The Minister shall also take into consideration any comments received from the James Bay Advisory Committee on the Environment.

Forest management permit.

4. The forest management permit authorizes the holder of the timber supply and forest management agreement to harvest, during the year 2000-2001, timber intended for the supply of the processing plant specified in the agreement, up to 50% of the annual volume fixed therein, and to carry out the other forest management activities described in the annual forest management plan approved by the Minister, including, in particular, reforestation and pre-commercial thinning activities.

Revision.

5. The annual plan and the forest management permit are revised as soon as the Minister has approved the updating of the general forest management plan.

Approval.

The updating of the general forest management plan is approved, with or without amendment, taking into consideration the comments made concerning the plan during the public consultation held pursuant to section 58.2 of the Forest Act and, where applicable, the results of conciliation under section 58.3 of that Act.

Comments.

The Minister shall also take into consideration any comments received from the James Bay Advisory Committee on the Environment.

Updating.

6. The Minister may, on the Minister's initiative, update a general forest management plan if the agreement holder fails to submit the updating of the plan for approval before 1 May 2000.

Consultation.

The Minister must, before updating a general forest management plan, make the proposed updating of the plan available for examination by the public for a period of 45 days. During this period, the Minister must consult the regional county municipality concerned and consult, in accordance with the procedure established for the purposes of section 58.2 of the Forest Act, the persons or groups having applied therefor in the first 20 days of that period. The application for consultation must be made in writing, give reasons and state the interest of the applicant in the forest to which the plan applies.

Consultation.

The Minister must also send the proposed updating of the general forest management plan to the James Bay Advisory Committee on the Environment, for examination and comment, if the plan concerns a forest in the domain of the state that is situated in a territory to which section 133 of the Environment Quality Act (R.S.Q., chapter Q-2) applies. The Advisory Committee must forward its comments, if any, within 90 days.

- Revision. 7. The revision of the annual plan and the forest management permit shall be based on the new updated forest management strategies in the general plan approved by the Minister. The revision must ensure that forest production is respected in the common area concerned during the period covered by the five-year plan.
- Volume of timber. 8. The volume of timber that may be harvested under the permit is revised on the basis of
- (1) the result obtained when the annual allowable cut is calculated for the updating of the general plan approved by the Minister ;
- (2) the volume of timber already harvested during the period covered by the five-year plan.
- Revised volume. Notwithstanding the first paragraph, the revised volume may not exceed the volume allocated in the holder's timber supply and forest management agreement. However, the volume may be increased in accordance with section 92.0.1 of the Forest Act where forest production in the common area during the period covered by the five-year plan so permits.
- Apportionment. 9. Where volumes of timber of a species or group of species in a common area are allocated to two or more agreement holders, and where the total of all such volumes exceeds forest production for that species or group of species in the common area, the reduction in the volume of timber that each holder is authorized to harvest compared to the volume allocated in the holder's agreement shall be apportioned among the holders in proportion to the volumes allocated in their agreements in the common area concerned.
- Revision. 10. Agreement holders must revise their five-year forest management plan to bring it into conformity with the updating of the general plan approved by the Minister. The revised five-year plan must be submitted to the Minister for approval before 1 December 2000.
- Provisions applicable. Sections 58.1 to 58.3 of the Forest Act and section 144 of the Environment Quality Act apply to the revised five-year plan before its approval.
- Prohibition. 11. No forest management permit for 2001-2002 may be issued until the updating of the general plan and the revised five-year forest management plan have been approved by the Minister.
- §2. — *Forest management activities carried out in common areas listed in Schedule III*
- Forest management permit, 2000-2001. 12. For the year 2000-2001, the forest management permit for the supply of a wood processing plant referred to in section 86 of the Forest Act shall be issued, with regard to forest management activities carried out in a common area listed in Schedule III, by the Minister of Natural Resources to the holder of a timber supply and forest management agreement once the holder's annual management plan has been approved in accordance with section 13.

Approval. 13. The annual forest management plan is approved by the Minister, with or without amendment, taking into consideration the comments made concerning the five-year plan established on the basis of the general forest management plan, as approved, during the public consultation held pursuant to section 58.2 of the Forest Act and, where applicable, the results of conciliation under section 58.3 of that Act.

DIVISION III

PROVISIONS APPLICABLE FOR 2001-2002

Management permit, 2001-2002. 14. For the year 2001-2002, the forest management permit for the supply of a wood processing plant referred to in section 86 of the Forest Act is replaced, with regard to forest management activities carried out in a common area listed in Schedule III, by the management permit issued under this division.

Management permit. The management permit is issued to the holder of a timber supply and forest management agreement by the Minister of Natural Resources once the holder's annual management plan has been approved.

Approval. 15. The annual management plan is approved by the Minister, with or without amendment, taking into consideration the comments made concerning the five-year plan during the public consultation held pursuant to section 58.2 of the Forest Act and, where applicable, the results of conciliation under section 58.3 of that Act.

Forest management permit. 16. The forest management permit authorizes the holder of the timber supply and forest management agreement to harvest, during the year 2001-2002, timber intended for the supply of the processing plant specified in the agreement, up to 50% of the annual volume fixed therein, and to carry out the other forest management activities described in the annual forest management plan approved by the Minister, including, in particular, reforestation and pre-commercial thinning activities.

Revision. 17. The annual plan and the forest management permit are revised as soon as the Minister has approved the updating of the general forest management plan.

Approval. The updating of the general forest management plan is approved, with or without amendment, taking into consideration the comments made concerning the plan during the public consultation held pursuant to section 58.2 of the Forest Act and, where applicable, the results of conciliation under section 58.3 of that Act.

Updating. 18. The Minister may, on the Minister's initiative, update a general forest management plan if the agreement holder fails to submit the updating of the plan for approval before 1 April 2001.

- Consultation. The Minister must, before updating a general forest management plan, make the proposed updating of the plan available for examination by the public for a period of 45 days. During this period, the Minister must consult the regional county municipality concerned and consult, in accordance with the procedure established for the purposes of section 58.2 of the Forest Act, the persons or groups having applied therefor in the first 20 days of that period. The application for consultation must be made in writing, give reasons and state the interest of the applicant in the forest to which the plan applies.
- Provisions applicable. 19. Sections 7 to 9 apply, with the necessary modifications, to the revision, pursuant to this division, of the annual plan, the forest management permit, and the volume of timber that may be harvested under the permit.
- Revision. 20. Agreement holders must revise their five-year forest management plan to bring it into conformity with the updating of the general plan approved by the Minister. The revised five-year plan must be submitted to the Minister for approval before 1 December 2001.
- Provisions applicable. Sections 58.1 to 58.3 of the Forest Act apply to the revised five-year plan before its approval.
- Prohibition. 21. No forest management permit for 2002-2003 may be issued until the updating of the general plan and the revised five-year forest management plan have been approved by the Minister.

CHAPTER II

REVISION OF TIMBER SUPPLY AND FOREST MANAGEMENT AGREEMENTS

- Revision. 22. As soon as the updating of all the general plans for the common areas of the management unit of the holder of a timber supply and forest management agreement has been approved by the Minister, the Minister shall revise the residual volume of round timber from the domain of the state that has been allocated, the area of the forest management unit or the annual yield indicated in the holder's agreement, taking into account the criteria listed in section 77 of the Forest Act. Section 78 of the Forest Act applies to a revision, pursuant to this section, of the volume of timber allocated in the agreement.
- Presumption. Until the holder's agreement has been revised in accordance with this section, the volume of timber revised in accordance with the rules and criteria set out in sections 8 and 9 is deemed to be the volume allocated in the agreement.

CHAPTER III**MISCELLANEOUS PROVISIONS**

- c. F-4.1, s. 92.0.1, am. 23. Section 92.0.1 of the Forest Act (R.S.Q., chapter F-4.1) is amended by adding “and only where the forest production of the common area during the period covered by the five-year forest management plan so permits” at the end of the third paragraph.
- Precedence. 24. The provisions of this Act prevail over any incompatible provision of the Forest Act.
- Coming into force. 25. This Act comes into force on 6 April 2000.

Aspects.

2. Qualifying professional training for police personnel has three aspects: basic training, advanced training and in-service training.

Basic training is the training that provides basic skills in a given area of police work. Basic training in police patrolling is a prerequisite for basic training in the remaining two areas of police work.

Advanced training.

Advanced training is training designed to upgrade skills or develop a specialized skill in a given area of police work.

In-service training.

In-service training covers all activities designed to facilitate the integration of a police officer into the police force to which the officer belongs and to allow the officer to perform police work within the force in as harmonious and functional a manner as possible.

- Applicability. 2. The provisions of this Act apply from the fiscal year 2000-2001.
- Balance. 3. Every public institution must, during a fiscal year, maintain a balance between its expenditures and its revenues.
- Deficit prohibited. 4. No public institution may have a deficit at the end of a fiscal year.
- Resource envelope. 5. At the beginning of a fiscal year, the Minister shall inform each regional board of the resource envelope allotted to it pursuant to the Act respecting health services and social services (R.S.Q., chapter S-4.2) for the purpose of financing the expenditures relating to the services to be provided by public institutions.
- Ministerial policies and priorities. The Minister shall, at the same time, inform the regional board of the ministerial policies and priorities to be complied with both as regards the allocation of resources and the maintenance of a balanced budget, and as regards the organization and accessibility of services.
- Conditions. In addition, the Minister may indicate to a regional board conditions for the allocation of resources applicable to one or more institutions in its region. The regional board must comply therewith or obtain the approval of the Minister for any adjustments it proposes.
- Amounts allocated. 6. Within three weeks after receiving the information provided for in section 5, the regional board shall inform the boards of directors of the institutions in its region of the amounts allocated to the operating budgets of the institutions. The total of the amounts allocated shall not exceed the resource envelope attributed to the regional board for that purpose.
- Regional policies and priorities. The regional board shall, at the same time, inform the boards of directors of the regional policies and priorities that will be applicable to the budgets and services of the institutions, as determined by the regional board in accordance with the ministerial policies and priorities.

- Operating budgets. 7. Within three weeks after the date on which the particulars specified in section 6 are transmitted to the boards of directors of public institutions by the regional board, the boards of directors shall adopt the operating budgets of the institutions, which must show a balance between revenues and expenditures, and shall inform the regional board and the Minister.
- Expenditures and commitments. 8. The expenditures and commitments authorized by a regional board, except commitments made before 1 April 1999, to finance the operations of the health and social services system in its region during a fiscal year shall not exceed the resource envelope allocated to the board for that year.
- Financial position. 9. The executive director of a public institution shall prepare and submit to the Minister, at the Minister's request and at the intervals and on the dates determined by the Minister, a statement showing the financial position of the institution.
- Information. The executive director shall also ensure that the information is transmitted to each member of the board of directors of the institution before the next board meeting.
- Budgetary balance at risk. 10. The executive director of a public institution shall, if the executive director is of the opinion that budgetary balance is at risk during a fiscal year, inform the board of directors of the institution of that fact without delay.
- Operating budget. As soon as the board of directors ascertains that it will not be possible to maintain budgetary balance, the board shall amend the institution's operating budget to post any anticipated deficit as an expenditure and shall inform the regional board and the Minister. A recovery plan must also be prepared and submitted for approval to the Minister who may approve it with or without amendment.
- Control mechanisms. 11. Where warranted by the financial position of a public institution, in particular where the budgetary balance is at risk, the Minister may establish control mechanisms to ensure that the objective of this Act is attained. The Minister may, in particular, require that the institution implement an assessment program or an internal audit program.
- Directive. The Minister may also, in the same circumstances, issue, in respect of a public institution, a directive concerning the management of its human, budgetary, physical or informational resources. The directive is binding on the institution from the date fixed therein.

- Borrowings. 13. No public institution may borrow to meet operating expenditures unless expressly authorized by the Minister.

Provisional administration.

14. Where at any time during a fiscal year the Minister finds that a public institution is not complying with the requirements of section 7, that the expenditures of a public institution exceed its revenues or that a regional board is not complying with the prescriptions of section 8, the Minister may, for that sole reason, assume the provisional administration of the institution or the regional board pursuant to the Act respecting health services and social services or exercise, on the Minister's own initiative, the powers provided for in sections 499 to 501 of that Act.

CHAPTER III

LOCAL AND REGIONAL AUTHORITIES

DIVISION I

FIRE SAFETY COVER PLAN

- Fire safety cover plan. 8. The regional county municipalities, urban communities and the Kativik Regional Government shall, in conjunction with the local municipalities within their territorial limits, establish, in compliance with the policies determined by the Minister, a fire safety cover plan designed to determine, for the whole of their territory, fire protection objectives and the actions required to achieve them.
- Laval and Mirabel. The cities of Laval and Mirabel have the same responsibility with regard to their territories. For the purposes of this division, the cities of Laval and Mirabel shall be considered to be regional authorities.

Regional and local authorities.

Unless it is also considered to be a regional authority with the authorization of the Minister, any other local municipality whose territory is not within the territorial limits of a regional authority must make an agreement with a regional authority or a local authority whereby the territory of the local municipality is to be considered to be within the territorial limits of that authority for the purposes of this division, or with other municipalities in the same situation to associate for the purpose of establishing a fire safety cover plan for the whole of their territory. In the latter case, one of the municipalities, designated for that purpose in the agreement, shall be considered to be a regional authority for the purposes of this division.

Joint plans.

9. All or part of the fire safety cover plan of a regional authority may be established jointly with other regional authorities so as to take into account the risks and resources within their territorial limits as well as the risks and resources within contiguous local municipalities.

Evaluation of fire risks.

10. The fire safety cover plan shall include, in addition to the fire hazard reports made under section 5, an inventory, evaluation and classification of the fire risks present in the territory concerned and specify their location. The fire safety cover plan shall also include an inventory and evaluation of existing or planned fire protection measures, the human, physical and financial resources allocated to fire safety by the local or regional authorities or by intermunicipal boards, and the infrastructures and water sources available for fire safety purposes. In addition, the fire safety cover plan shall include an analysis of the functional relations between those resources and an evaluation of the operational procedures in force.

Optimum objectives.

The fire safety cover plan shall determine, for each class of risk listed or each part of the territory defined, optimum fire protection objectives that can be achieved having regard to the measures and resources in place. The fire safety cover plan shall also specify the actions to be taken by the municipalities and, where applicable, the regional authority to achieve the determined objectives on incorporating their implementation plans.

Periodic assessment.

Lastly, the fire safety cover plan shall contain a procedure for the periodic assessment of the effectiveness of the actions taken and the degree to which the determined objectives have been attained.

Other emergencies.

11. The fire safety cover plan may include similar elements with regard to other emergency situations likely to require the use of the same resources. However, those elements create obligations only to the extent determined by the local or regional authority concerned and only if expressly specified.

Establishment of safety cover plan.

12. The fire safety cover plan must be established, in accordance with the procedure set out in the following sections, after notification to that effect from the Minister.

- Information. 13. Local municipalities must provide the regional authority with the information necessary for the drawing up of the fire safety cover plan. Local municipalities must also indicate the means they can resort to to optimize their resources as regards fire safety matters.
- Proposed objectives. 14. After making a list and an evaluation of the risks, means, measures and resources reported, the regional authority shall propose the optimum protection objectives that may be achieved by the development of appropriate measures and the efficient management of all available resources. The objectives may pertain to prevention, personnel training, emergency preparedness and emergency response procedures.
- Strategies. The regional authority shall also propose strategies for achieving those objectives, such as the adoption of minimum safety rules, the development of uniform operational procedures and the establishment or sharing of services.
- Assessment of proposals. 15. The municipalities shall convey their opinion to the regional authority concerning its proposals, mentioning in particular the impact the implementation of the proposals would have on the organization of their human, physical and financial resources.
- Determination of objectives. Once the exchanges are completed, the regional authority shall determine optimum protection objectives for each class of risk or part of the territory it defines as well as the actions needed, on a regional or local scale or over part of the territory, to achieve the objectives. The regional authority shall also determine a procedure for the periodic assessment of the effectiveness of the actions taken and the degree to which the determined objectives have been attained.
- Implementation. 16. Each municipality concerned and, where applicable, the regional authority shall then determine the specific actions they must take and the conditions for their implementation, specifying, in particular, the area of jurisdiction of the authority or the intermunicipal board in charge, the resources allocated to the measures envisaged, any necessary intermunicipal agreements, the actions that may be implemented immediately and, in other cases, the phases and schedule of implementation. Such specific actions may include the adoption of regulatory measures, the establishment of inspection measures and of procedures for the calling, mobilization and deployment of resources, or the planning of personnel training activities.
- Plan. Such actions and the conditions of implementation shall be set out in a plan adopted by the authority responsible for the implementation of the plan or, in the case of an intermunicipal board, in a joint plan adopted by the municipalities concerned.
- Compliance. 17. Before incorporating the implementation plans into the draft fire safety cover plan, the regional authority shall verify that they are in compliance with the objectives determined and the actions needed.

- Consultation. 18. A draft fire safety cover plan shall then be submitted for consultation to the population of the territory of the regional authority at a public meeting held by the authority, and shall also be transmitted to contiguous regional authorities.
- Changes. 19. Changes may be made to the draft of the fire safety cover plan and, if applicable, to the implementation plans, to reflect the results of consultations.

The fire safety cover plan and any amendment made thereto and in respect of which the Minister has issued a certificate of compliance are deemed to be in compliance with ministerial policies and the implementation plans are deemed to be in compliance with the determined objectives of the fire safety cover plan, once they have been adopted in accordance with the procedure set out in this division.

Cost.

The cost of the intervention or assistance shall be borne by the municipality having requested it, according to a reasonable tariff established by resolution by the providing municipality.

Annual report. 35. Every local or regional authority and every intermunicipal board in charge of the implementation of measures provided for in a fire safety cover plan must, within three months after the end of their fiscal year, adopt, by resolution, and transmit to the Minister a report of their fire safety activities for the preceding fiscal year and their fire safety projects for the coming year to their council.

DIVISION III

MUNICIPAL FIRE SAFETY SERVICES

Fire safety service. 36. The fire safety service established by a local or regional authority or by an intermunicipal board shall be in charge of firefighting and rescue operations in the event of a fire.

Other emergencies. It may also be in charge, together with the other services concerned, of emergency response in the case of other emergencies, assistance to accident victims, disaster assistance and emergency evacuation.

Other functions. In exercising its functions, the fire safety service shall also participate in the evaluation of fire risks and other hazards, the prevention of fires, emergency response procedures as well as in the determination of the point of origin, probable causes and circumstances of fires.

Firefighters. 37. The fire safety service shall be staffed by full-time or part-time firefighters or by volunteer firefighters. The fire chief must be a firefighter.

Regulations. 38. Conditions governing the exercise of functions related to the areas of practice mentioned in section 53 in a fire safety service may be prescribed by regulation of the Government. Such conditions may be fixed according to classes of personnel. The regulation may include exemptions or provisional conditions for the personnel in office.

Training. Any training received to meet the conditions fixed by the Government must be validated by the École nationale des pompiers du Québec.

- Chain of command. 39. Emergency response operations in the event of a fire shall be conducted under the authority of the fire chief or, if the fire chief is absent, of a firefighter designated by the fire chief.
- Chain of command. Where a fire requires the joint intervention of several fire safety services, all the emergency response operations shall be under the direction of the fire chief of the fire safety service serving the locality where the fire occurs, unless otherwise agreed. If there is no fire safety service in the municipality concerned, the operations shall be under the direction of the fire chief designated by the person having required the intervention under section 33.
- First firefighter. However, until the fire chief or designated firefighter arrives at the scene of the fire, the first firefighter to arrive at the scene shall direct operations.

 - (5) authorize the demolition of a structure to prevent the spread of fire ;
 - (6) order any other measure necessary to secure the premises ;
 - (7) accept or require, where the firefighting personnel available is insufficient, the assistance of any person capable of providing assistance ;
 - (8) accept or requisition the necessary private firefighting resources where the resources of the service are insufficient or not readily accessible in an emergency.
- Common repute. 41. During an emergency, common repute shall be sufficient proof of the appointment of a firefighter and of the firefighter's right to act in that capacity.

Compensation for assistance.

42. The authority responsible for a service that has expressly accepted, required or requisitioned a person's assistance or property under subparagraph 7 or 8 of the second paragraph of section 40 is bound, within one month from the date a claim is filed with the authority by that person in the year following the emergency, to grant to the person compensation determined on the basis of the current rates for the hiring of that type of service or property.

Representation or defence.

The authority responsible for the service must also assume the representation or defence of such a person in a coroner's inquest or a fire investigation commissioner's inquiry or in a proceeding concerning an act in the performance of the tasks entrusted to the person during the emergency and referred to a court, a tribunal or a body exercising adjudicative functions.

Reimbursement.

The authority may, rather than assuming a person's representation or defence, agree with the person on the reimbursement of reasonable costs incurred by the person or the person's representative. However, the authority is dispensed from that obligation where

- (1) the person specifically consents thereto in writing ;
- (2) the authority is the plaintiff in the proceeding ;
- (3) the act in question amounts to a gross or intentional fault ; or

(4) the person is convicted of an offence or indictable offence and had no reasonable grounds to believe that his or her conduct was in conformity with the law.

Determination of point of origin.

43. Subject to any restrictions that may be imposed by a police service in the cases referred to in section 45, the fire chief or a qualified person designated by the fire chief for that purpose must, in respect of every fire having occurred in the territory served by the service, determine the point of origin, probable causes and immediate circumstances, including the characteristics of the damaged immovable or property and the sequence of events.

44. For the purposes of section 43, the fire chief or the person designated by the fire chief may, during the 24 hours following the fire,

(1) prohibit access to the scene of the fire to facilitate the search for or the preservation of any thing relevant for the purposes of his or her functions ;

(3) that is a particular case specified by the police service.

Provisions applicable to things seized.

46. The provisions respecting things seized in the Code of Penal Procedure (R.S.Q., chapter C-25.1) apply, with the necessary modifications, to the documents and things seized under section 44, once they have been seized.

Immunity.

47. The members of a fire safety service and the persons whose assistance is expressly accepted or is required under subparagraph 7 of the second paragraph of section 40, are exempt from liability for any damage that may result from their intervention during a fire or other emergency in respect of which mandatory emergency procedures are set out in the fire safety cover plan pursuant to section 11, unless the damage results from their intentional or gross fault.

Immunity.

The exemption applies to the authority having established the service or having required the person's intervention or assistance, except if the authority has failed to adopt a plan for the implementation of the fire safety cover plan as required or if the measures or procedures provided for in the applicable implementation plan and relating to the acts in question were not implemented as established.

The authorization, whether acted upon or not, shall be returned to the justice of the peace who granted it not later than 15 days after its issue.

| | |
|---|---|
| Exception. | However, no authorization is required for access to the damaged premises within 24 hours after a fire or where the conditions for obtaining the authorization exist and, owing to the urgency of the situation, the time required to obtain an authorization may seriously endanger human health or safety or the safety of property, or result in the disappearance, destruction or loss of anything that may be useful to the commissioner's investigation. |
| Inspection of occupied premises. | 96. - Inquiry. 100. An inquiry concerning the point of origin, probable causes or circumstances of a fire or concerning any connection with other fires may be initiated if the fire investigation commissioner is of the opinion, following his or her investigation, that an inquiry would be expedient and would not impede the progress of any current police investigation.

- Use of premises. The secretary-treasurer or the clerk of the local municipality where the hearing is to be held must, on request of the fire investigation commissioner, allow the fire investigation commissioner to use the necessary premises. If the hearing is to be held in a locality where a court of justice sits, the clerk of the court shall have the same obligations, unless the premises are being used for court sittings or sittings of other bodies exercising adjudicative functions.

- Methods.** The Régie may use any other method it considers appropriate when fixing or modifying a demand-side management tariff or an emergency power tariff. A demand-side management tariff is a tariff applied to a consumer by the electric power distributor at the consumer's request, according to which the cost of electric power is based on the market price or according to which service to the consumer may be interrupted by the distributor.
- Rates.** Rates applicable to a class of consumers must be uniform throughout the electric power distribution system, with the exception of independent electric power distribution systems north of the 53rd parallel.
- Restriction.** The Régie shall not modify the rates applicable to a class of consumers in order to alleviate the cross-subsidization of rates applicable to classes of consumers.
- Exception.** The fourth paragraph does not apply where the Régie fixes or modifies a transition rate in respect of a consumer that is transferring to another class of consumers.
- Cost of electric power.** "52.2. The cost of electric power referred to in section 52.1 shall be established by the Régie by adding the cost of heritage pool electricity and the actual costs to the electric power distributor of the supply contracts entered into to meet the needs of Québec markets in excess of the heritage pool, or the needs to be supplied out of an energy block determined by the Government in a regulation under subparagraph 2.1 of the first paragraph of section 112. The cost of electric power shall be attributed to the various classes of consumers according to their consumption characteristics, that is, utilization factors and power losses attributable to the transmission and distribution system.
- Determination of cost.** For the purposes of the first paragraph, the cost of heritage pool electricity shall be established by totalling the products obtained by multiplying the consumption of heritage pool electricity attributable to each class of consumers by the cost attributed to that class of consumers, it being provided
- (1) that the annual heritage pool corresponds to the net consumption by Québec markets, up to 165 terawatt-hours, exclusive of consumption under demand-side management or emergency power tariffs, consumption attributed to independent electric power systems and consumption out of the energy blocks determined by regulation of the Government;
 - (2) that the cost attributed to each class of consumers is based on an average heritage pool electricity cost of 2.79 cents per kilowatt-hour and corresponds
 - i. for the year 2000, to the cost stated in Schedule I;
 - ii. for subsequent years until such time as heritage pool consumption reaches 165 terawatt-hours, to the cost determined by the Régie on the proposal of the electric power distributor, based on Schedule I, changes in rate

classes and the consumption characteristics referred to in the first paragraph ;
and

iii. for the following years, to the cost determined by the Government.

Special contracts.

In the case of special contracts entered into under the Hydro-Québec Act (chapter H-5), the cost of electric power corresponds to the rate stipulated in the contract, less the transmission and distribution costs applicable according to consumption characteristics, and does not affect the cost to the electric power distributor applicable to other classes of consumers for the purposes of section 52.1.

Modification of cost.

The heritage pool electricity cost attributed to a class of consumers may only be modified subject to the conditions provided in section 24.1 of the Hydro-Québec Act (chapter H-5). Subsequent to any such modification, the modified heritage pool electricity cost is the cost to be used by the Régie for the purposes of this section.

Determination of revenues.

“52.3. The revenues required for the operation of the electric power distribution system shall be established having regard to the provisions of subparagraphs 1 to 10 of the first paragraph of section 49, the last paragraph of that section and sections 50 and 51, with the necessary modifications.

Provisions applicable.

The provisions of the Labour Code apply with the necessary modifications to the extent that the provisions are not inconsistent with the provisions of this chapter.

Powers.

A labour commissioner to whom a petition addressed to the labour commissioner general is referred and an arbitrator responsible for determining

the content of a first collective agreement may, for the purposes of the decision or award they are to render, rule on any question arising from the application of the second paragraph.

- Agreement. “176.2. A comprehensive agreement on the description of the bargaining units may be made by the municipality resulting from the amalgamation, the associations certified in respect of the employees of the municipalities that ceased to exist on the amalgamation and, where applicable, any association of employees having presented, within the time applicable under any of paragraphs *c* to *e* of section 22 of the Labour Code (chapter C-27) and in respect of a group of employees of a municipality that ceased to exist on the amalgamation, an application for certification that is pending on the date of the coming into force of the order relating to the amalgamation.

- Certification. “176.5. The labour commissioner to whom an agreement made under section 176.3 is referred shall certify the association designated in the agreement.
- Representativeness. If, however, the agreement concerns a bargaining unit in which at least 40% of the employees were not represented by a certified association on the date of the coming into force of the order, the commissioner must ascertain the representativeness of the designated association by holding a vote by secret ballot before granting certification.
- Decision. The labour commissioner shall render a decision within 150 days after the date of the coming into force of the order.
- Description of bargaining units. “176.6. If no agreement on the description of the bargaining units is made within the 30-day period following the date of the coming into force of the order, the municipality may make an application to the labour commissioner general requesting that a labour commissioner determine the description.

- Formalities. The application must be accompanied by a copy of the decision, if any, granting the certification, before the date of the coming into force of the order, to the association in respect of all or part of the group of employees covered by the association's request, or by the application for certification previously made for that purpose by the association before that date.
- Designation. "176.8. Where the labour commissioner general considers it appropriate to do so, the labour commissioner general may at any time designate a person and request that person to attempt to bring the municipality and the associations concerned to agree on the description of the bargaining units and the associations concerned to agree on the designation of an association to represent a group of employees covered by a bargaining unit.
- Decision. "176.9. The labour commissioner to whom an application made to the labour commissioner general is referred pursuant to section 176.6 or 176.7 shall render a decision within 150 days from the date of the coming into force of the order.
- Decision. The labour commissioner's decision may, in particular, address a matter relating to the inclusion of persons in or the exclusion of persons from a bargaining unit.
- Representations. Before rendering a decision, the labour commissioner shall allow the interested parties to make representations in the manner the labour commissioner considers appropriate. The labour commissioner is not bound to call the parties to a hearing.

“176.12. As of the date of the coming into force of the order, the exercise by the employees of the municipality of their right to strike is suspended until the 90th day following the first anniversary of that date.

Collective agreement.

“176.13. Every collective agreement binding upon a municipality that ceased to exist on amalgamation expires on the date provided for its expiry or on the date of the first anniversary of the coming into force of the order, whichever is earlier.

Conditions of employment.

Where a collective agreement expires on the latter date, the only conditions of employment to be maintained pursuant to section 59 of the Labour Code (chapter C-27) are the conditions of employment in force on that date.

Notice of meeting.

“176.14. Unless the parties agree to start negotiations to make a new collective agreement on an earlier date, the notice provided for in section 52 of the Labour Code (chapter C-27) may not be given before the date of the first anniversary of the coming into force of the order and section 52.2 of the Code shall not apply in its respect.

Formalities.

Such an agreement must be evidenced in writing and a copy of the agreement must be transmitted as soon as possible to the Minister of Labour.

- Referral of dispute. “176.15. At any time after a conciliator has intervened, a party to the negotiations to make a first collective agreement in respect of a group of employees of the municipality may request the Minister of Labour in writing to refer the dispute to an arbitrator. A copy of the request must be forwarded at the same time to the other party.
- Mediator. In such a case, the Minister may, where the Minister is of the opinion that the conciliator’s intervention has been unsuccessful, appoint a mediator from a list specially drawn up by the Minister for the purposes of this chapter.
- Mediation. “176.16. The mediator has 45 days to attempt to bring the parties to an agreement. The Minister may, only once and at the request of the mediator, extend the period of mediation by not more than 15 days.
- Report. “176.17. If there is no agreement at the expiry of the period of mediation, the mediator shall give the parties a report specifying the matters on which there has been agreement and the matters which are still in dispute. The mediator may, where considered appropriate by the mediator, make a recommendation to the parties with a view to settling the dispute. The mediator shall also submit a copy of the report to the Minister with comments and a recommendation as to the arbitration of the dispute.
- Recommendation. Where the mediator has made a recommendation to the parties, the recommendation must be submitted to the municipality for approval and be submitted to the group of employees concerned for a secret ballot to be held in accordance with the provisions of Division II of Chapter II of the Labour Code (chapter C-27).
- Decision and vote. The municipality must inform the Minister of its decision and the certified association must inform the Minister of the result of the vote.
- Arbitration. “176.18. Where, in the opinion of the Minister, there is no likelihood of the parties reaching agreement on a collective agreement within a reasonable time, the Minister may request the mediator to arbitrate the dispute. The Minister shall so inform the parties.
- Provisions applicable. “176.19. Section 76, the first paragraph of section 80, sections 81 to 93, 93.5 and 93.7 of the Labour Code (chapter C-27) and sections 176.20 and 176.21 of this Act apply to the arbitration.
- Award. Notwithstanding section 92 of the said Code, the award of the arbitrator shall bind the parties for a period of not more than three years.
- Award. “176.20. In making an award, the arbitrator must take into consideration, on the basis of the evidence collected at the inquiry, the conditions of employment of the other employees of the municipality, the conditions of employment prevailing in similar municipalities or in similar circumstances, the situation in Québec and the wage and economic prospects for Québec.

- Arbitration award. No arbitration award shall operate to guarantee a minimum workforce for a group of employees that did not have such a guarantee, to increase the minimum workforce guaranteed for a group of employees that had such a guarantee or to increase the workforce formed by the employees covered by the bargaining unit.
- Harmonization. If, for the purposes of the award, the arbitrator harmonizes different conditions of employment applied to the employees covered by the award, the harmonization alone shall not operate to increase the total of the municipality's annual expenditures related, in respect of those employees, to remuneration and to employee benefits of the following nature :
- (1) wages, bonuses, allowances and income replacement indemnities ;
 - (2) contributions of the municipality, as an employer, to pension plans and group insurance plans and to public plans such as health insurance, employment insurance and the Québec Pension Plan ;
 - (3) contributions paid to the Commission de la santé et de la sécurité du travail and to the Commission des normes du travail ;
 - (4) other employee benefits such as redemption of sick-leave days, vacation bonuses, moving costs, and free room and board.
- Pension plan. “176.21. Where the arbitration award contains a provision relating to a pension plan, the arbitrator shall forward a copy to the administrator of the plan and to the Régie des rentes du Québec.
- Police officers and firefighters. “176.22. Sections 176.15 to 176.19 do not apply to a dispute relating to the negotiation to make a first collective agreement for a group of employees made up of police officers or firefighters.
- Provisions applicable. The settlement of such a dispute is governed by sections 94 to 99.4 and 99.7 to 99.9 of the Labour Code (chapter C-27) and by sections 176.20 and 176.21 of this Act.
- Provisions applicable. “176.23. The provisions of this chapter apply, with the necessary modifications, in the case of a total annexation.

- Application. An application may be made by a local municipality to the Minister if such equipment is owned by one of its mandataries.
- Request by Minister. The Minister may, on the Minister’s own initiative and if in the Minister’s opinion the intervention of the Commission may be useful to settle a dispute over the local or supralocal nature of equipment, the management of supralocal equipment, the financing of expenditures relating to supralocal equipment or the sharing of the revenue generated by such equipment, request the Commission to carry out the study provided for in the first paragraph.

- Public hearing. “24.9. The Commission may hold a public hearing on the equipment in respect of which the request has been made.
- Report. “24.10. The Commission shall report to the Minister on completion of its study.
- Recommendation. Where the Commission is of the opinion that the equipment is of a supralocal nature, its report must contain a recommendation stating which municipal body is to be responsible for managing the equipment.
- Financing of expenditures. In such a case, the report must determine the local municipalities that are to participate in the financing of the expenditures relating to the equipment or in the sharing of the revenue generated by the equipment, and provide the rules enabling each municipality’s share to be established.
- Agreement. “24.11. If the Commission’s report states that the equipment is of a supralocal nature, the Minister may request the bodies concerned to enter into an agreement on the management and financing of the equipment and to transmit a copy of the agreement to the Minister within the time the Minister prescribes.

Conciliator. For the purpose of facilitating agreement among the bodies concerned, the Minister may appoint a conciliator.

Extension. At the request of a body concerned or of the conciliator, the Minister may grant an extension to enable an agreement to be reached and transmitted to the Minister.

Report. "24.12. If a copy of the agreement is not received within the time prescribed, the Minister may request the conciliator appointed under section 24.11 or, if there is no such conciliator, the conciliator the Minister appoints, to make a report to the Minister on the situation.

Absence of agreement. "24.13. In the absence of an agreement entered into under section 24.11, the Government may adopt any measure related to the management of the equipment, the financing of the expenditures relating to the equipment and the sharing of the revenue generated by the equipment.

Order. "24.14. The order comes into force on the day of its publication in the *Gazette officielle du Québec* or on any later date indicated therein.

Revocation. The order may be revoked without a new study under section 24.6 being carried out in relation to the equipment.

New study. "24.15. The Minister may, if new circumstances justify it, request the Commission to carry out a new study in respect of any equipment determined by the Minister.

Provisions applicable. "24.16. This division also applies, with the necessary modifications, in respect of an infrastructure, a service or an activity.

Organization of event. If the service is supplied or the activity is carried on in relation to an event, it makes no difference whether the event is organized by the local municipality or by a third person.

Provisions applicable. "24.17. This division also applies, to the extent provided in the third paragraph, in respect of equipment or an infrastructure that is situated in the territory of a local municipality, is at the disposal of the citizens and ratepayers of more than one such municipality and is referred to in one of the last three paragraphs of section 255 of the Act respecting municipal taxation (chapter F-2.1).

Equipment deemed supralocal. Equipment or an infrastructure that meets those conditions is deemed to be of a supralocal nature.

Provisions applicable. Only the provisions of this division that concern the determination of supralocal nature and the participation of local municipalities in the financing

of expenditures apply, with the necessary modifications and in particular the modifications provided in the fourth paragraph, in respect of that equipment or that infrastructure.

Loss of revenue.

The compensation for any loss of revenue suffered by a local municipality to which the amount of money provided for in section 254 of the Act respecting municipal taxation is paid in respect of the equipment or infrastructure is deemed to constitute the financing of expenditures relating to the equipment or the infrastructure. The loss of revenue is determined by comparing the amount received by the municipality and the amount it would receive if the rate used to compute the amount were 100% of the aggregate taxation rate of the municipality rather than the percentage mentioned in the applicable paragraph of section 255 of that Act. The municipality is deemed to own the equipment or infrastructure.”

List.

12. On or before 30 September 2000, every regional county municipality shall transmit to the Minister of Municipal Affairs and Greater Montréal a list of the equipment, infrastructures, services and activities that

Accompanying document.

The regional county municipality shall attach to the list a document proposing rules relating to the management of the equipment, infrastructures, services or activities mentioned in the list, the financing of the expenditures relating to the equipment, infrastructures, services or activities and the sharing of the revenue generated by the equipment, infrastructures, services or activities.

Extension.

The Minister may, at the request of a regional county municipality, grant an extension.

List not received.

If the list accompanied with the document required under the second paragraph is not received within the time prescribed, the Minister may request the Commission municipale du Québec to make such a list. In such a case, sections 24.7 to 24.17 of the Act respecting the Commission municipale (R.S.Q., chapter C-35), enacted by section 8, apply as if the list were a study carried out under section 24.6 of that Act.

Provision applicable.

13. Section 111 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9) applies to every local municipality in respect of whose territory a recommendation for amalgamation has been formulated by one of the committees of elected municipal officers established or, as the case may be, by one of the mandataries designated to act in any of the census metropolitan areas of Montréal, Québec and the Outaouais as defined by Statistics Canada, as of the date on which the local municipality is informed by the Minister of Municipal Affairs and Greater Montréal of the fact that amalgamation has been recommended in respect of its territory, as if that local municipality were a party to a joint application for amalgamation the text of which is published on that day.

Determination of day.

However, the day to be considered for the purposes of the application of section 111 as provided in the first paragraph is, as the case may be,

(1) where the text of a joint application for amalgamation concerning the territory of that local municipality is published before or after the day on which the local municipality is informed in accordance with the first paragraph, the day of publication of the text; or

(2) the day specified in the first paragraph of section 125.10 of the Act respecting municipal territorial organization enacted by section 1.

Committees and mandataries.

The committees of elected municipal officers and the mandataries referred to in the first paragraph are those established or designated, as the case may be, pursuant to the white paper on municipal reorganization.

- List. 14. The Government shall establish a list of local municipalities from among those to which Volet I of the Politique de consolidation des communautés locales applies.
- Exclusion from list. The following municipalities shall not be included in that list:
- (1) a municipality that adopted, before 1 July 1999, a resolution by which, in the opinion of the Government, it has signified its true intention of being a party to a joint application for amalgamation the text of which was to be published, in accordance with section 90 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9), not later than 15 September 1999;
 - (2) a municipality that was a party to a joint application for amalgamation which, in the opinion of the Government, is consistent with the objectives of the Politique de consolidation des communautés locales and the text of which was published not later than 1 December 1999;
 - (3) a municipality whose territory is situated in a census agglomeration or a census metropolitan area defined by Statistics Canada.
- Intention. For the purpose of determining the true intention of the municipality, the Government may consider any acts or omissions, even those subsequent to the adoption of the resolution referred to in subparagraph 1 of the second paragraph, of members of the council.
- Equalization amount. 15. For a municipality included in the list and a local municipality whose territory is situated in a census agglomeration or a census metropolitan area, other than those listed in the schedule, the equalization amount referred to in section 17 or 23, as the case may be, of the Regulation respecting the equalization scheme, made by Order in Council 1087-92 (1992, G.O. 2, 4065), is deemed to be

 - (2) for any subsequent fiscal year, nil.
- Exception. Subject to the third paragraph, where the territory of a municipality included in the list is subsequently amalgamated or is annexed in its entirety, the municipality resulting from the amalgamation or the annexing municipality is not affected, notwithstanding section 114 or 166 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9), by the operation of the first paragraph.
- Presumption. For the purposes of the first paragraph, where a municipality resulting from an amalgamation has a territory situated in a census agglomeration or a census metropolitan area, or has annexed such a territory in its entirety, the municipality is deemed to be a local municipality whose territory is situated in such an

DIVISION I

WINDING-UP

- Provisions applicable. 168. Divisions II and III of the Winding-up Act (R.S.Q., chapter L-4) apply to the winding-up of a financial services cooperative, subject to the provisions of this Division.
- Interpretation. For the purposes of the application of the said Act to a financial services cooperative, the word “company” means a financial services cooperative, the word “shareholder” means a member of the cooperative. In addition, where a provision of the said Act requires the vote of the shareholders representing a specified proportion of the capital stock of a company, that provision is considered to require the number of votes cast by the members corresponding to the specified proportion in value.
- Resolution. 169. The winding-up of a financial services cooperative may be decided by a resolution adopted by the vote of three-fourths of the members present at a special meeting.
- Liquidator. The general meeting shall appoint, by the vote of a majority of the votes cast, a liquidator who is entitled to immediate possession of the property of the financial services cooperative.

- Purposes. The cooperative shall thereafter exist and carry on business solely for the purposes of the winding-up of its affairs.
- Security. 170. In order to guarantee the performance of his or her duties before taking possession of the property of the financial services cooperative, the liquidator shall give sufficient security and maintain it thereafter.
- Security. At the request of the Inspector General or of any other interested person, a judge of the Superior Court may determine the amount and nature of the security and increase it according to circumstances.
- Applicability. This section does not apply to a federation or to a security fund acting as a liquidator for a credit union belonging to the group.
- Notice. 171. Every financial services cooperative that has decided to effect the winding-up of its business shall give notice to the Inspector General, by filing a declaration to that effect in accordance with the Act respecting the legal publicity of sole proprietorships, partnerships and legal persons within 10 days after the passing of a resolution to that effect and forward to the Inspector General, within the same time, a certified copy of the resolution.
- Publication. The cooperative shall cause a notice to that effect to be published.
- Notice. Every credit union that has decided to effect the winding-up of its business must also give notice to the federation within 10 days after the passing of a resolution to that effect and forward to the federation, within the same time, a certified copy of the resolution.
- Notice. The notice shall indicate the name and address of the liquidator and the address to which claims may be sent by interested persons.
- Suspension of proceedings. 172. From the date of deposit of the declaration in the register, all proceedings against the property of the financial services cooperative, whether by seizure before judgment, seizure in execution or otherwise, shall be suspended.
- Costs. The costs incurred by a creditor directly or through an attorney after the publication of the notice shall not be collocated out of the proceeds of the property of the cooperative.
- Proceedings. A judge of the Superior Court of the district in which the head office of the cooperative is located may, however, on the conditions the judge considers suitable, authorize the institution or continuance of any proceedings.
- Payment. 173. The liquidator shall first pay the debts of the financial services cooperative, the costs of winding-up and the shares referred to in section 713. The liquidator shall then redeem the shares according to their respective ranks.

- Balance of assets. The balance of the assets of a credit union devolves upon the federation or, if the credit union does not belong to a federation, upon a legal person designated by the Government.
- Public Curator. The amounts representing the deposits or shares that could not be redeemed shall be remitted to the Public Curator, together with a statement setting out the amounts and the name and last known address of the persons entitled thereto and the date of their remittance to the Public Curator.
- Public Curator. The provisions of the Public Curator Act apply to the amounts remitted to the Public Curator under the third paragraph.
- Winding-up or dissolution. 174. In the event of the winding-up or dissolution of a federation, the liquidator or Public Curator, as the case may be, shall, after the payments referred to in the first paragraph of section 173 are made, divide the remaining assets among the credit unions in proportion to the number that their members, except their auxiliary members, are of the total number of the members of all the credit unions belonging to the network. Where there remains no credit union that is a member of the federation, the liquidator shall remit the remaining assets to a legal person designated by the Government.
- Approval. 175. If the members of a credit union fail to confirm the account referred to in section 16 of the Winding-up Act, the account shall be submitted for approval to the federation or, if the credit union is not a member of a federation, to the Inspector General.
- Approval. If the members of a federation fail to confirm the account referred to in section 16 of the Winding-up Act, the account shall be submitted for approval to the Inspector General.
- Summary report. 176. The liquidator shall, within the time and in respect of the period determined by the Inspector General, transmit, at the request of the Inspector General, a summary report of the liquidator's activities or any document or information required by the Inspector General concerning the conduct of the winding-up.
- Copy. 177. The liquidator shall transmit to the Inspector General a copy of the summary report submitted by the liquidator to the general meeting pursuant to section 15 of the Winding-up Act.
- Final report. 178. When the winding-up of the financial services cooperative is completed, the liquidator shall transmit a final report on the liquidator's activities to the Inspector General.
- Documents. The liquidator of a credit union shall forward to the federation the documents of which the liquidator took possession for the purposes of the winding-up. If the credit union was not a member of a federation, the documents must be forwarded to the Inspector General.

Documents. The liquidator of a federation shall forward such documents to the Inspector General.

Members. 309. The members of the board of directors or the board of ethics are elected or appointed from among the persons determined in a by-law of the federation. If there is no such by-law, the members of a board, except the president of the federation, are elected or appointed from among members of the general meeting.

- Term of office. 310. The term of office of the members of a board is three years, except for the term of office of the president of the federation.
- Rotation. The federation must determine by by-law a mode of rotation so that one-third of the members of a board, to the nearest whole number, are replaced each year.
- Term of office. The federation may, for the purposes of this section, shorten or lengthen the term of office of the members of a board.
- Term of office. On the expiry of a member's term of office, the member shall remain in office until re-elected or replaced.
- Members. 311. A decrease in the number of members of a board does not end the term of those who remain in office.
- Vacancy. 312. In the event of a vacancy, the members of a board may appoint a replacement for the unexpired portion of the term of office. If they fail to do so, the general meeting shall fill the vacancy.
- Quorum. If, due to vacancies, a quorum cannot be reached, two members of the federation or a member of a board may order the secretary of the federation to call a special meeting within 10 days to fill the vacancies.
- Expenses. If the secretary fails to act, the meeting may be called by the persons who ordered the holding of the meeting. The federation shall reimburse those who called the meeting for reasonable expenses incurred by them to hold the meeting.
- Resignation. 313. A member of a board may resign from office by giving notice to that effect.

 - (3) the Inspector General, acting as the mandatary of the legal person or the holding company, if the legal person or the holding company and the cooperative which controls it have both neglected to exercise such right of action after having been formally notified to do so by the Inspector General.
- Copy. Where formal notice is given by a cooperative pursuant to subparagraph 2 of the first paragraph, a copy of the notice must be transmitted to the Inspector General.

Obligations. 486. The sole fact that the investments of a legal person referred to in the first paragraph of section 480 or of a holding company are in compliance with this Act does not release the directors and officers from the obligations incumbent upon them.

- Seizure. 563. The Inspector General shall not keep the document seized under section 562 for over 90 days unless proceedings are brought within that time. A judge of the Court of Québec may order the period during which the seized documents are kept reduced or extended for a further 90 days.

Inquiry. 564. The Inspector General may order an inquiry into any matter within the Inspector General's jurisdiction, if the Inspector General is of the opinion that the public interest requires it.

DIVISION II

CONTROL

Guidelines. 565. The Inspector General may, after consulting the Minister and the federations, issue guidelines for financial services cooperatives concerning

- (1) the adequacy of their capital base ;
- (2) the adequacy of their liquid assets ;
- (3) any other practice of sound and prudent management, in particular relating to investments.

Guidelines. The guidelines are not regulations.

Guidelines. 566. A financial services cooperative that fails to comply with the guidelines issued under section 565 is, for the purposes of sections 573 to 583, deemed to have failed to adhere to sound and prudent management practices.

Non-compliance. 567. The Inspector General may order a financial services cooperative to cease a course of action or to implement specified measures if the Inspector General is of the opinion that the credit union is not adhering to sound and prudent management practices or is not complying with

(1) a provision of this Act, a normative instrument adopted by the Government or a federation under this Act, an order of the Government under the second paragraph of section 67 or a written instruction ;

(2) a compliance program ; or

(3) an undertaking under this Act.

Non-compliance. The Inspector General may also order a legal person or a partnership controlled by a financial services cooperative to cease a course of action or to implement specified measures if the Inspector General is of the opinion that the legal person or partnership is not complying with a provision of this Act, a normative instrument adopted under this Act, a written instruction or an undertaking under this Act.

Management practices. 568. The Inspector General may make an order pursuant to section 567 where, in the opinion of the Inspector General, the conduct of a financial services cooperative is contrary to sound and prudent management practices, even if the cooperative complies with the guidelines.

- Non-compliance. 569. Where, in the opinion of the Inspector General, the board of audit and ethics of a credit union or the board of ethics of a federation is not exercising its functions in accordance with the provisions of this Act, the Inspector General may order the board to take the measures indicated by the Inspector General to remedy the situation.
- Notification. Before exercising the power set out in the first paragraph, the Inspector General shall, pursuant to section 5 of the Act respecting administrative justice (R.S.Q., chapter J-3), notify the financial services cooperative and, if the cooperative is a credit union, the federation, and give it or them an opportunity to present observations.
- Order. 570. The order of the Inspector General must state the reasons on which the order is based. The Inspector General shall send the order to each director of the legal person concerned or, as the case may be, to each member of the board of audit and ethics of the credit union or, as the case may be, of the board of ethics of the federation. The order shall become effective on the day it is served or on any later date indicated therein.
- Order. Before issuing an order, the Inspector General shall give the contravener at least 15 days' notice indicating the grounds purporting to justify the order, the date on which the order is to take effect and the right of the contravener to present observations.
- Provisional order. 571. However, the Inspector General may, without prior notice, issue a provisional order, valid for a period not exceeding 15 days, if the Inspector General is of the opinion that the granting of time to the person concerned to present observations could be prejudicial.
- Order. The order must state the reasons on which it is based and shall become effective on the day it is served on the person concerned. The latter may, upon receiving such order, present observations to the Inspector General.
- Revocation. 572. The Inspector General may revoke an order issued under sections 567 to 571.
- Injunction. 573. The Inspector General may, by a motion, apply to a judge of the Superior Court for an injunction in respect of any matter relating to this Act or a government regulation thereunder.
- Motion. The motion for an injunction constitutes an action.
- Security. The procedure prescribed in the Code of Civil Procedure (R.S.Q., chapter C-25) applies, except that the Inspector General cannot be required to give security.

- Suspension of powers. 574. The Minister may, after obtaining the advice of the Inspector General, suspend the powers of the board of a financial services cooperative and appoint a provisional administrator to exercise the powers of the cooperative for such period as the Minister may determine, if the Minister has grounds to believe
- (1) that the credit union or network has failed to maintain a capital base meeting the requirements of this Act;
 - (2) that the assets of the financial services cooperative are inadequate to ensure effective protection of the depositors, creditors and members;
 - (3) that the financial services cooperative does not adhere to sound and prudent management practices;
 - (4) that the financial services cooperative has failed to comply with the Inspector General's written instructions concerning a compliance program;
 - (5) that there has been misappropriation of property;
 - (6) that a serious fault has been committed, in particular, embezzlement or breach of trust by members of the board of a financial services cooperative, or that such members have been seriously remiss in the performance of the obligations imposed on them by this Act or a government regulation thereunder.
- Powers. The provisional administrator may authorize any person to exercise the powers set out in the first paragraph.
- Suspension of powers. 575. Before exercising the powers set out in section 574, the Minister shall give the members of the board of a financial services cooperative whose powers are suspended an opportunity to present observations. The Minister shall also give the cooperative and, if the cooperative is a credit union, the federation an opportunity to present observations.
- Urgency. However, if warranted by the urgency of the situation, the Minister may order the suspension, for a period not exceeding 15 days, without giving the members referred to in the first paragraph or the financial services cooperative or, if the cooperative is a credit union, the federation an opportunity to present observations.
- Suspension of powers. 576. Where the powers of the board of directors are suspended, the provisional administrator shall exercise, in addition to the powers of the board of directors, those of the general meeting.
- Term of office. 577. The provisional administrator shall remain in office until the expiry of his or her appointment, unless the Minister prolongs or terminates the administrator's appointment.

- Immunity. 578. The provisional administrator cannot be prosecuted by reason of any act done in good faith in the performance of the provisional administrator's duties.
- Report. 579. The provisional administrator shall submit to the Minister, as soon as practicable, a detailed report of his or her findings, together with recommendations.
- Report. The provisional administrator shall also, at the Minister's request, submit any additional report.
- Report. 580. The provisional administrator shall, at the end of his or her appointment, make a complete report of the provisional administration to the Minister.
- Minister's powers. 581. The Minister, after considering the report of the provisional administrator and on the recommendation of the Inspector General, may

 - (2) remove from office the members of the board of the financial services cooperative and order the provisional administrator to call a special meeting to elect new members;
 - (3) order, on such conditions as the Minister may determine, the winding-up of the financial services cooperative and appoint a liquidator.
- Disqualification. Any member who is removed from office under this section becomes disqualified from sitting as a member of the board of any financial services cooperative and of any legal person belonging to the group for a period of five years from the date of the member's removal from office.
- Decision. 582. The decision of the Minister ordering the winding-up of the financial services cooperative has the same effect as an order made by a judge of the Superior Court under section 24 of the Winding-up Act (R.S.Q., chapter L-4). Division IV of that Act and sections 170 and 172 to 179 of this Act apply, with the necessary modifications, to the winding-up.
- Interpretation. For the purposes of the Winding-up Act where it applies to a financial services cooperative, "company" means a financial services cooperative, and "shareholder" means a member of the cooperative. In addition, where a provision of that Act requires the vote of the shareholders representing a specified proportion of the capital stock of a company, the provision is considered to require the number of votes cast by the members present at a general meeting of the cooperative corresponding to the specified proportion in value.

- Order. In the case of such a winding-up, the order is final. However, the Minister may terminate the winding-up where the interest of the members justifies it.
- Expenses. 583. The expenses, fees and outlays entailed by the provisional administration shall be charged to the financial services cooperative concerned, unless the Minister orders otherwise.

- Meetings and affairs. 48. The executive committee may adopt an internal management by-law concerning its meetings and the conduct of its affairs. The by-law may also, if permitted by the internal management by-laws of the Community, enable the executive committee to delegate to any employee of the Community the power to authorize expenditure and enter into contracts on behalf of the Community, on the conditions determined by the executive committee and in accordance with the rules and restrictions applicable to the Community.

- Failure to attend. 65. The council may, in the by-law adopted under section 64, prescribe the conditions on which the failure of a member of the council to attend a meeting of the council, the executive committee or any other committee on which the member sits as a member of the council entails a reduction in the member's remuneration or allowance, and prescribe the rules for computing the reduction.
- Expenses. 66. The expenses actually incurred by any member of the council on behalf of the Community, the executive committee or any other committee on which the member sits must, in each case, be previously authorized by the council. The council shall approve payment upon receipt of a statement and supporting documents.

- Unforeseen expenses. If all the appropriations for a fiscal year have been used, the council may appropriate, for the purposes provided in this section, all or part of the balance of the sums provided for in the budget to cover unforeseen administrative expenses.
- Provisions applicable. **69.** Sections 66 to 68 apply in respect of acts performed or expenses incurred while the member is representing the Community, the executive committee or any other committee, otherwise than in the course of the work of those bodies, or while the member is participating in any convention, seminar or other event held for the purpose of providing information or training relevant to the performance of a member's duties.
- Provisions applicable. Those sections also apply in respect of acts performed or expenses incurred, for meals, in connection with a meeting of the council, the executive committee or any other committee, or in connection with any meeting held for the purposes of such a meeting, provided that no member was excluded from the meeting for any reason other than the member's disqualification.

- Director general. The director general may suspend an employee. The director general shall immediately report the suspension to the council. The council shall decide the case of the suspended employee, after making an inquiry.
- Director general. 79. The director general is responsible for the administration of the Community and, for that purpose, plans, organizes, directs and supervises its activities.
- Director general. 80. For the purposes of sections 78 and 79, the director general shall, in particular,

The Community may, subject to the applicable legislative provisions, make agreements respecting the exercise of its jurisdiction with a person, a government, a government department, an international organization, an agency of a government or international organization, or any other public body. It may then carry out such agreements and exercise the rights and fulfil the obligations arising therefrom, even outside its territory.
- Agreement. However, to make an agreement with a municipality of Québec, the Community shall proceed in accordance with sections 122 to 124.
- Agreement. 98. The Community may make an agreement with the Government under which certain responsibilities, defined in the agreement, that are assigned by an Act or regulation to the Government, to a Minister or to a government body, are transferred to the Community on an experimental basis.

- Expropriation. 101. The Community may acquire by expropriation any immovable, within its territory, which it may require for the attainment of its objects.

- Two-thirds majority. The decision to acquire an immovable by expropriation shall be made by two-thirds of the votes of the members of the council of the Community.
- Presumption. 102. For the purposes of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), an immovable is deemed to belong to the Community upon the Community's taking possession of it in accordance with the Expropriation Act (R.S.Q., chapter E-24).
- Resolution. 103. When the council of the Community adopts a resolution stating its intention to expropriate an immovable or establish a reserve for public purposes on an immovable, the secretary of the Community shall send forthwith to the local municipality concerned a certified copy of the resolution.
- Issue of permit prohibited. After receiving the resolution and for a period of six months following the adoption of the resolution, the municipality shall not, except where urgent repairs are required, issue a permit or certificate for a structure, alteration or repair in respect of the immovable.
- Indemnity. 104. No indemnity may be granted for buildings erected on or improvements or repairs, other than authorized urgent repairs, made to the immovable, for the duration of the prohibition. However, the Administrative Tribunal of Québec may grant an indemnity in the manner provided in Title III of the Expropriation Act (R.S.Q., chapter E-24).
- Notice. 105. The secretary shall publish every month, in a newspaper circulated in the territory of the Community, a notice describing each property of a value greater than \$10,000 that was alienated by the Community during the preceding month otherwise than by auction or by public tender. The notice shall mention the price of alienation and the identity of the purchaser.
- Contracts. 106. Any contract involving an expenditure of more than \$20,000 must be awarded by the Community in accordance with the applicable provisions of sections 107 and 108, in particular,
- (1) insurance contracts ;
 - (2) contracts for the performance of work ;
 - (3) contracts for the supply of materials or equipment, including contracts for the lease of equipment with an option to purchase ;
 - (4) contracts for the providing of services other than professional services, subject to the second paragraph of section 108.
- Applicability. The first paragraph does not apply to a contract
- (1) whose object is the supply of materials or equipment or the providing of services for which a tariff is fixed or approved by the Government of Canada or of Québec or by a minister or body thereof ;

(2) whose object is the supply of materials or equipment or the providing of services and which is entered into with a municipal body within the meaning of the Act respecting Access to documents held by public bodies and the Protection of personal information (R.S.Q., chapter A-2.1);

(3) whose purpose is to obtain energy savings for the Community and whose object is both the providing of professional services and the performance of work or the supply of materials, equipment or non-professional services;

(4) whose object is the performance of work to remove, move or reconstruct mains or installations for waterworks, sewers, electricity, gas, steam, telecommunications, oil or other fluids and which is entered into with the owner of the mains or installations, with a municipal body within the meaning of the Act respecting Access to documents held by public bodies and the Protection of personal information or with a public utility for a price corresponding to the price usually charged by an undertaking generally performing such work;

(5) whose object is the supply of software or the performance of service or maintenance work on computer or telecommunication systems, and which is entered into with an undertaking generally operating in the field, for a price usually charged by such an undertaking for such software or such work;

(6) whose object is the providing of services by a single supplier or by a supplier in a monopoly position in the field of communications, electricity or gas;

(7) whose object is the maintenance of specialized equipment which must be carried out by the manufacturer or his representative;

(8) whose object is the supply of bulk trucking services, through the holder of a brokerage permit issued under the Transport Act (R.S.Q., chapter T-12).

Interpretation.

A contract which, as a result of an exception provided for in subparagraph 2 or 3 of the third paragraph of section 108, is not a supply contract or a services contract for the purposes of the second paragraph of that section, is not a contract for the supply of equipment or materials or for the supply of services, as the case may be, for the purposes of subparagraphs 3 and 4 of the first paragraph of this section.

Contract.

107. Any contract involving an expenditure of \$100,000 or less, from among the contracts to which the first paragraph of section 106 applies, may be awarded only after a call for tenders, by way of written invitation, to at least two insurers, contractors or suppliers, as the case may be.

Contract.

108. Any contract involving an expenditure of \$100,000 or more, from among the contracts to which the first paragraph of section 106 applies, may be awarded only after a call for tenders by way of an advertisement published in a newspaper circulated in the territory of the Community.

- Publication. In the case of a construction, supply or services contract, the call for public tenders must be published by means of an electronic tendering system accessible both to contractors and suppliers having an establishment in Québec and to contractors and suppliers having an establishment in a province or territory covered by an intergovernmental agreement on the opening of public procurement applicable to the Community and in a newspaper that is circulated in the territory of the Community or, if it is not circulated therein, that is a publication specialized in the field and sold mainly in Québec. In the case of a supply or services contract, the electronic tendering system to be used for the publication of the call for public tenders shall be the system approved by the Government.
- Interpretation. For the purposes of the second paragraph,
- “construction contract”; (1) “construction contract” means a contract regarding the construction, reconstruction, demolition, repair or renovation of a building, structure or other civil engineering work, including site preparation, excavation, drilling, seismic investigation, the supply of products and materials, equipment and machinery if these are included in and incidental to a construction contract, as well as the installation and repair of fixtures of a building, structure or other civil engineering work;
- “supply contract”; (2) “supply contract” means a contract for the purchase, lease or rental of movable property that may include the cost of installing, operating and maintaining property, except a contract in respect of property related to cultural or artistic fields as well as computer software for educational purposes, and subscriptions;
- “services contract”. (3) “services contract” means a contract for supplying services that may include the supply of parts or materials required to supply the services, except a contract in respect of services related to cultural or artistic fields that can, under an Act or a regulation, be provided only by a physician, dentist, nurse, pharmacist, veterinary surgeon, engineer, land surveyor, architect, chartered accountant, advocate or notary.
- Time limit. The time limit for receipt of tenders must not be less than eight days. However, in the case of tenders in relation to a contract referred to in the second paragraph, the time limit for the receipt of tenders must not be less than 15 days.
- Restriction. A call for public tenders in relation to a contract referred to in the second paragraph may stipulate that only tenders submitted by contractors or suppliers, in addition to contractors or suppliers having an establishment in Québec, who have an establishment in a province or territory covered by an intergovernmental agreement on the opening of public procurement applicable to the Community will be considered. Such a call for tenders may also stipulate that the goods concerned must be produced in a territory comprising Québec and any such province or territory.

- Restriction. Tenders may not be called for nor may the contracts resulting therefrom be awarded except on a fixed price or unit price basis.
- Tenders. All tenders must be opened publicly in the presence of at least two witnesses, on the date and at the time and place mentioned in the call for tenders. All tenderers may be present at the opening of the tenders. The names of the tenderers and their respective prices must be declared aloud on the opening of the tenders.
- Contract. Subject to section 109, the Community may not, without the prior authorization of the Minister, award the contract to any person other than the person who submitted the lowest tender within the prescribed time. However, where it is necessary, to comply with the conditions for a government grant, that the contract be awarded to a person other than the person who submitted the lowest tender within the prescribed time, the Community may, without the authorization of the Minister, award the contract to the person whose tender is the lowest among the tenders submitted within the prescribed time that fulfil the conditions for the grant.
- Bid weighting system. 109. The Community may choose to use a system of bid weighting and evaluating whereby each bid obtains a number of points based on the price as well as on the quality or quantity of goods, services or work, the delivery procedure, servicing, the experience and financial capacity required of the insurer, supplier or contractor or on any other criteria directly related to the procurement.
- Call for tenders. Where the Community chooses to use such a system, the call for tenders or any document to which it refers shall mention all the requirements and all criteria that will be used for evaluating the bids, as well as the weighting and evaluation methods based on those criteria.
- Award. In such a case, the Community shall not award the contract to a person other than the person whose bid was received within the time fixed and obtained the highest score.
- Lowest tender. For the purposes of the last sentence of the eighth paragraph of section 108, the bid having obtained the highest score shall be considered to be the lowest tender.
- Qualification process. 110. The Community may establish a qualification process which shall not discriminate on the basis of the province or country of origin of the goods, services, insurers, suppliers or contractors.
- Discrimination. However, where the Community establishes a qualification process solely for the purpose of awarding a contract referred to in the second paragraph of section 108, the process may discriminate as permitted in the case of a call for public tenders in relation to such a contract under the fifth paragraph of section 108.

- Notice. The Community shall invite the interested parties to obtain their qualification or the qualification of their goods or services, by causing the secretary to publish a notice to that effect in accordance with the rules set out in the second paragraph of section 108.
- Certification. 1 1 1. A call for tenders may stipulate that the goods, services, insurers, suppliers or contractors concerned by or able to satisfy the call for tenders must first be certified, qualified or registered by an organization accredited by the Standards Council of Canada or first be certified or qualified under the process provided for in section 110.
- Exception. The first paragraph does not apply where, under the process provided for in section 110, only one insurer, supplier or contractor has become qualified.
- Discrimination. 1 1 2. Subject to the fifth and eighth paragraphs of section 108, no call for public tenders or document to which it refers shall discriminate on the basis of the province or country of origin of the goods, services, insurers, suppliers or contractors.
- Awarding of contracts. 1 1 3. The Minister may, on the conditions determined by the Minister, allow the Community to award a contract without calling for tenders, or allow the Community to award a contract after a call for tenders made by written invitation rather than by advertisement in a newspaper.
- Intergovernmental agreement. The first paragraph does not apply where, pursuant to the terms of an intergovernmental agreement on the opening of public procurement applicable to the Community, the tenders must be public tenders.
- Movable property. 1 1 4. The Community may obtain any movable property from or through the General Purchasing Director designated under section 3 of the Act respecting the Service des achats du gouvernement (R.S.Q., chapter S-4). The Community may also obtain any service through the General Purchasing Director acting within a mandate entrusted to the General Purchasing Director by the Government under section 4.1 of that Act.
- Agreement. To the extent that the terms of any agreement on the opening of public procurement applicable to the Community are observed, section 106 does not apply to contracts entered into by the Community with or through the General Purchasing Director in accordance with the regulations under the Financial Administration Act (R.S.Q., chapter A-6).
- Expenditures. 1 1 5. Notwithstanding section 106, the chair of the council or, if the chair is absent or unable to act, the director general may, in a case of irresistible force which might endanger the life or health of the population or seriously damage or seriously interfere with the operation of the equipment of the Community, order such expenditure as the chair or the director general considers necessary and award any contract necessary to remedy the situation.

- Report. The chair, the director general or, if applicable, the head of the department shall table a report giving the reasons for the expenditure or contract at the next meeting of the council.
- Renewal. 116. Notwithstanding section 106, the council may, without being required to call tenders, renew any insurance contract awarded following a call for tenders, provided that the total of the period covered by the original contract and the period covered by the renewal and, where applicable, by any previous renewal, does not exceed five years.
- Premiums. The premiums stipulated in the original contract may be modified for the period covered by any renewal referred to in the first paragraph.
- Leasing contract. 117. The Community may enter into a leasing contract in respect of movable property that must be acquired by tender in accordance with section 106, provided it discloses in the call for tenders that it has the option to enter into a leasing contract in respect of the property.
- Notice. Where the Community opts to enter into a leasing contract, it must give notice thereof in writing to the successful tenderer. Upon receipt of the notice, the tenderer must enter into a contract for the movable property with the lessor, which the Community shall designate in the notice, on the conditions under which the tender was accepted.
- Joint call for tenders. 118. Notwithstanding any inconsistent provision of a general law or special Act, the Community and any municipality or other supra-municipal body whose territory is situated within the territory of the Community may make a joint call for public tenders for the purpose of awarding an insurance contract or a contract for the supply of equipment or materials or the providing of services other than professional services.
- Leasing of equipment. For the purposes of the first paragraph, a contract for the supply of equipment includes a contract for the lease of equipment with an option to purchase.
- Call for tenders. The call for public tenders is made by the Community.
- Restriction. Where a municipality or a body is a party to the call for public tenders, it may not make a call for tenders or award a contract in respect of the object of the call unless the Community decides not to give effect to the call.
- Acceptance binding. Acceptance of a tender by the Community also binds, as regards the successful tenderer, each municipality or body that is a party to the call for tenders.

Reasons.

An opinion stating that the metropolitan plan is not consistent with those aims and projects must include reasons. In such a case, the Minister shall, in the opinion, request that the Community replace the metropolitan plan.

Transmission of opinion.

The Minister shall serve the opinion on the Community. In the case provided for in the second paragraph, the Minister shall transmit a copy of the opinion to each local municipality whose territory is situated within the territory to which the plan is to apply.

Replacement of metropolitan plan.

142. If the opinion of the Minister states that the plan is not consistent with the aims and projects referred to in section 141, the Community shall, within 120 days of service of the opinion, replace the metropolitan plan with another which is consistent with those aims and projects.

New plan.

A new plan which differs from the plan it replaces for the sole purpose of taking the opinion into account need not be preceded by the drafts prescribed in sections 131 and 137; section 140 applies in respect thereof.

New opinion.

Where, in accordance with section 149, the Minister extends the period prescribed in the first paragraph or grants a new period to the Community for replacing the plan, the Minister may give a new opinion, in accordance with section 141, notwithstanding the expiry of the period prescribed therein. In such a case, the Community shall replace the metropolitan plan by another, which takes the new opinion into account, before the end of the later of the following days:

(1) the 120th day after service of the new opinion;

(2) the last day of the period established by having the extension period or the new period granted by the Minister begin on the date of service of the new opinion.

Amendment.

143. Where, on the expiry of the period provided for in section 142, the Community has not passed a by-law adopting a new plan, the Government may, by order, amend the plan which was the subject of the opinion provided for in section 141 so that the plan is consistent with the aims and projects referred to in that section.

By-law.

Where, before the expiry of that period, the council has passed a by-law adopting a new plan which is not consistent with those aims and projects, the Minister may either make the request provided for in the second paragraph of section 141 or recommend that the Government exercise the power provided for in the first paragraph.

Amended plan. The plan, as amended by the Government, is considered to be a plan adopted in its entirety by a by-law of the Community.

Copy. As soon as practicable after the making of the order, the Minister shall serve a copy thereof on the Community. For the purpose of the issue of certified true copies of the plan, the copy of the order shall stand in lieu of the original.

Coming into force. 144. The metropolitan land use and development plan shall come into force on the day the Minister serves an opinion on the Community declaring that the plan is consistent with the aims and projects referred to in section 141 or, in the absence of an opinion, at the expiry of the period prescribed in that section. However, a plan which has been amended by the Government shall come into force on the date mentioned in the order made under section 143.

Notice. As soon as practicable after the coming into force of the plan, the secretary of the Community shall publish a notice of the date of coming into force of the plan in a newspaper circulated in the territory of the Community. The secretary shall transmit, at the same time, a certified true copy of the by-law to each local municipality whose territory is situated within the territory to which the plan is to apply and, for registration purposes, to the Commission municipale du Québec.

Follow-up and implementation. 145. As soon as practicable after the coming into force of the metropolitan plan, the Community shall develop tools to ensure the follow up and implementation of the plan and evaluation of the progress made toward attaining its aims and the actions it proposes and shall, not later than two years after the date of coming into force of the plan and every two years thereafter, adopt a report in respect thereof.

§2. — *Effects of the metropolitan plan*

Replacement of plans of regional county municipalities. 146. From its coming into force, the metropolitan land use and development plan replaces the development plans of the regional county municipalities whose territory is situated entirely within the territory of the Community and the Community, in respect of the part of its territory formed by the territory of the regional county municipalities, is a regional county municipality for the purposes of the Act respecting land use planning and development (R.S.Q., chapter A-19.1), except Chapter I of its Title II, subject to the following modifications :

(1) the secretary of the Community or any other employee of the Community designated for that purpose by its executive committee and that committee are, respectively, considered to be the secretary-treasurer and the executive committee of the regional county municipality ;

(2) the period of 120 days provided for in sections 56.4 and 56.14 of that Act is replaced by a period of six months ;

(3) the Community may hold its public consultation meetings through its council or a committee established under section 50;

(4) subject to section 237.2 of the Act respecting land use planning and development, a traffic by-law of a local municipality whose territory is situated in the territory to which the plan applies must be in conformity with the aims of the metropolitan plan of the local municipality and with the plan's complementary document and sections 59 to 59.4, 137.2 to 137.8, 221 to 226 and 240 of that Act apply, with the necessary modifications, in respect of such a by-law.

Metropolitan plan.

The coming into force of the metropolitan plan has the effects, provided for in sections 59 to 60 of the Act respecting land use planning and development, of the coming into force of a by-law adopting a revised plan. For the purposes of section 252 of that Act, those provisions and the provisions relating to the effects of the coming into force of a by-law amending the metropolitan plan, and the rules relating to the conformity of the planning program, a by-law or an act with the aims of the plan, the provisions of the complementary document or those of a by-law or an interim control resolution are consistent with the Charter of the city of Montréal. However, the city is not required to adopt or amend a by-law not provided for in its charter; if the charter of the city provides for a by-law that corresponds to a by-law which the provisions of this Act mentioned in the first paragraph require to be adopted or amended by the council of the city, the council shall adopt or amend the by-law as it amends the planning program provided for in its charter, in accordance with the charter and with the applicable provisions of the Act respecting land use planning and development, with the necessary modifications.

Opinion.

In addition, from the coming into force of the metropolitan plan, the Minister of Municipal Affairs and Greater Montréal shall, before giving an opinion under any of sections 51, 53.7, 56.4, 56.14 and 65 of the Act respecting land use planning and development to a regional county municipality whose territory is situated partially in the territory of the Communauté métropolitaine de Montréal, obtain the opinion of the Community.

§3. — *Interim control*

From the adoption of the resolution referred to in section 129, subdivisions 2, 3 and 4 of Division VII of Chapter I of Title I of the Act respecting land use planning and development (R.S.Q., chapter A-19.1) apply to the Community in respect of the territory to which the metropolitan plan is to apply, with the necessary modifications.

Resolution.

A resolution adopted by the Community under section 62 of the Act respecting land use planning and development ceases to have effect

The report by the chair shall be published in a newspaper circulated in the territory of the Community.

163. The secretary shall give public notice of the meeting at which the budget or the three-year fixed assets program must be submitted to the council, not later than eight days before it takes place.

Publication.

164. The adopted budget and three-year program, or an explanatory document, shall be published in a newspaper circulated in the territory of the Community.

Certificate of treasurer.

165. Not later than 30 September each year, the treasurer shall determine in a certificate the appropriations the treasurer considers necessary for the next fiscal year for payment of the interest on securities issued or to be issued by the Community, for repayment or redemption of such securities and for the requirements of their sinking funds and any other charge related to the debt of

the Community, except however, the amounts required in principal, interest and accessories in relation to the issue of treasury bills, loans contracted in anticipation of revenue and renewable loans falling due during the fiscal year covered by the budget. The treasurer shall also determine in the certificate the appropriations necessary to meet, during the next fiscal year, the obligations undertaken by the Community during previous fiscal years. The treasurer may amend the certificate until 31 December preceding the fiscal year to which it applies if the appropriations mentioned therein have not been adopted by the council. The treasurer shall file the certificate and any amendment in the office of the secretary. The secretary shall notify the council of the filing at the first sitting held after the filing.

- Financial obligations. The treasurer shall also include in the certificate referred to in the first paragraph the appropriations necessary during the next fiscal year to pay the obligations of the Community under collective agreements or its by-laws or under legislative or regulatory provisions adopted by the Government of Québec or the Government of Canada or any of its ministers or bodies.
- Amounts included in budget. The amounts shown in the certificate shall be included in the budget of the Community for the fiscal year covered by the budget.
- Contingency fund. The budget shall also appropriate an amount of at least 1% of the expenses of the Community to cover expenditures not provided for in its budget, the settlement of claims and the payment entailed by court sentences.
- Filing and distribution of budget. 166. The budget of the Community must be filed in the office of the secretary of the Community. The secretary shall forward a copy of the budget to each municipality whose territory is situated within the territory of the Community and to every member of the council not later than 1 November.
- Submission of budget. 167. The budget of the Community shall be submitted to the council not later than 15 November, at a special meeting convened for that purpose.
- Adoption. The meeting shall be adjourned as often as necessary and shall not be closed until the budget has been adopted. If there is no quorum, the meeting shall be automatically adjourned to 8:00 p.m. on the following juridical day.
- Separate items. The council is not bound to adopt simultaneously all the appropriations of the budget and thus may adopt an appropriation separately.
- Adoption. The council may also, before 1 January, adopt temporarily, for a period of three months, one quarter of an appropriation provided for in the budget. The same applies before each period beginning on 1 April, 1 July and 1 October. The council may thus adopt at the same time
- (1) three quarters of an appropriation if it does so before 1 April; and
 - (2) two quarters of an appropriation, if it does so before 1 July.

- Presumption. If, on 1 January, the budget of the Community has not been adopted, one quarter of the appropriations provided for in the budget of the preceding fiscal year with the exception of the appropriations mentioned in the seventh paragraph, is deemed adopted and shall come into force. The same applies on 1 April, 1 July and 1 October if on each of those dates the budget has not been adopted.
- Exception. The presumption of adoption and the coming into force provided for in the fifth paragraph do not apply to the appropriations provided for in the budget for the preceding fiscal year, which correspond
- (1) to those mentioned in the certificate of the treasurer referred to in section 165 ;
 - (2) to those then adopted separately under the third paragraph ; and
 - (3) to those one quarter of which have then been adopted under the fourth paragraph for the same period of three months.
- Presumption. In the hypothesis mentioned in the fifth paragraph, the appropriations mentioned in the certificate of the treasurer referred to in section 165 and included in the budget under study are deemed to be adopted on 1 January and shall then come into force.
- Retroactive effect. The adoption, after 1 January, of the budget or one of its appropriations in accordance with the third paragraph is retroactive to that date. The same rule applies to the by-laws and resolutions arising therefrom.
- Copy to Minister. A certified copy of the budget of the Community shall be transmitted to the Minister within 30 days of its adoption.
- Management of budget. 168. The head of each department shall be responsible for the management of the budget of that department, according to the provisions of this Act, under the supervision of the council.
- Supplementary budget. 169. During a fiscal year, the Community may adopt a supplementary budget.
- Rules. The supplementary budget shall be prepared, filed and forwarded according to the rules, modified as necessary, applicable to the annual budget. A copy of the budget must be sent to the municipalities and the members of the council not less than 15 days before it is submitted to the council.
- Special meeting. The supplementary budget shall be submitted to the council at a special meeting convened for that purpose. The meeting may close without the budget being adopted.
- Presumption. If the supplementary budget is not adopted within 15 days from the day it is submitted, the appropriations mentioned in the certificate of the treasurer

referred to in section 165 and included in the budget are nevertheless deemed to be adopted and shall come into force on the expiry of that period.

- Apportionment. 170. The expenses provided for in the supplementary budget shall be apportioned in accordance with section 177, with the necessary modifications. However, for the purposes of the apportionment, the data that was used to determine the basis of the apportionment of the expenditures provided for in the annual budget for the same fiscal year shall be used for each municipality.
- Approval of transfers. 171. Every transfer of an appropriation within the budget requires the approval of the council. The council may only give approval after obtaining the written opinion of the head of the department concerned.
- Treasurer's attestation. 172. No by-law or resolution of the council authorizing or recommending the expenditure of moneys shall have effect before the filing of a certificate of the treasurer attesting that appropriations are available or will be available at the proper time for the purposes for which such expenditure is proposed.
- Balance of appropriation. 173. The balance of an appropriation voted by a budget and not entirely spent at the end of a fiscal year lapses except where, on or before the following 1 March, the Community reserves it by allocating it to the available surplus.
- Budget surplus. 174. During a fiscal year, the Community on report of the treasurer may appropriate to expenses for such fiscal year or for a subsequent fiscal year it determines any estimated budget surplus for the current fiscal year and any surplus from the preceding fiscal year.
- Budget amended. The appropriation of a surplus to expenditures for a fiscal year amends the budget for that fiscal year accordingly.
- Carried over surplus or deficit. Any other surplus or any deficit for a fiscal year shall be entered in the revenues or expenditures for the fiscal year following that in which the auditor transmitted a report for the first mentioned fiscal year.
- Responsibility of treasurer. 175. The treasurer shall be personally responsible for all moneys paid out by the treasurer and which, to the treasurer's knowledge, exceed the amount appropriated for such purpose.
- Signing of cheques. The treasurer or any other employee designated for such purpose by the council shall sign the cheques issued by the Community. The facsimile of the treasurer's or employee's signature shall have the same effect as if the signature itself had been affixed thereto.
- Guarantee. 176. The payment of the expenses of the Community, including the payment of interest on and amortization of its loans, is guaranteed by its general fund.
- Expenses. 177. The expenses of the Community, including those resulting from payment of interest on and accessories and amortization of its loans, shall be

charged to the municipalities whose territories are situated within the territory of the Community.

Apportionment.

Except the expenses relating to a service governed by a special tariff or of those otherwise governed by this Act or by other Acts, those expenses shall be apportioned among the municipalities in proportion to their respective fiscal potentials, within the meaning of section 261.5 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1).

Fiscal potential.

For the purpose of establishing the fiscal potential, the coefficient of 0.96 provided for in subparagraph 2 of the first paragraph of that section 261.5 is replaced by the coefficient of 0.44.

Apportionment of expenditures.

However, the Community may, by a by-law adopted by two-thirds of the votes of the members of its council, provide that all or part of its expenditures are apportioned on the basis of another criterion.

Terms and conditions.

178. The Community shall prescribe, by by-law, the terms and conditions for determining the aliquot shares of the expenses of the Community and payment thereof by the municipalities.

Provisions of by-law.

The by-law may, in particular, prescribe, for each situation set out in section 167 or 169,

(1) the date on which the data used to provisionally or finally establish the basis of apportionment of the expenses of the Community are to be considered;

(2) the time limit for determining each aliquot share and for informing each municipality of it;

(3) the obligation of a municipality to pay its aliquot share in a single payment or its right to pay it in a certain number of instalments;

(4) the time limit within which each instalment must be paid;

(5) the rate of interest payable on an outstanding instalment;

(6) the adjustments that may result from the deferred coming into force of all or part of the budget of the Community or from the successive use of provisional and final data in determining the basis of apportionment of the expenses of the Community.

Rate of interest.

Instead of fixing the rate of interest payable on an outstanding instalment, the by-law may provide that such rate shall be fixed by resolution when the budget of the Community is adopted.

Rate of interest.

179. The Community may, in the by-law provided for in section 178, prescribe that the rate of interest it fixes in the by-law or in the resolution provided for in the third paragraph of the said section applies to every amount

payable to the Community that is or becomes payable, or fix, by by-law, a specific rate of interest applicable to such an amount.

- Program. 180. The Community shall, by by-law, establish a program to share the growth in its tax base in accordance with the rules determined by a regulation of the Government.

- Fund. The fund is comprised of the amount determined in accordance with the second paragraph of section 180 and the interest it generates.
- Contestation. 182. Contestation by a municipality of a sum claimed by the Community does not exempt the municipality from paying the amount while the contestation is pending.
- Petition. If there is no payment within 90 days after the receipt of a formal notice, the Commission municipale du Québec may, at the request of the Community, file a petition to have the said municipality declared in default in accordance with Division VI of the Act respecting the Commission municipale (R.S.Q., chapter C-35).
- General or special tax. 183. For the purpose of paying its share of the expenses of the Community or its contribution to the program established under section 180, each municipality may impose a general or special tax based on the assessment of the taxable immovables in its territory, by following the procedure provided for that purpose in the Act governing it.
- Financing. 184. Subject to the regulation of the Government made under paragraph 8.2 of section 262 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the Community may, by by-law, provide that all or part of the property, services or activities of the Community shall be financed by means of a tariff involving a fixed amount, exigible on an *ad hoc* basis, in the form of a subscription or under terms similar to those of a subscription for the use of a property or service or in respect of a benefit derived from an activity.
- Provisions applicable. Sections 244.3 to 244.6 and the first and third paragraphs of section 244.8 of the Act respecting municipal taxation apply, with the necessary modifications, to the tariff referred to in the first paragraph.

Part of the loan, not exceeding 5% of the amount of the expenditure authorized by the loan by-law in force, may be reserved for repayment to the general fund of the Community of all or part of the sums expended, before the passage of the loan by-law, in connection with the object of the by-law. |
| By-law. | That part of the loan must be specified in the by-law. |

c. T-12, s. 4.1.01,
added.

1. The Transport Act (R.S.Q., chapter T-12) is amended by inserting the following section after section 4.1 :

Demonstration of
expertise or means.

“4.1.01. The Minister may, by way of an order taking effect on the date of its publication in the *Gazette officielle du Québec*, require the persons designated by the Minister from among persons filing a first application for registration, or registered for less than 30 days and for the first time, in the register of operators or the register of owners of heavy vehicles established under the Act respecting owners and operators of heavy vehicles (1998, chapter 40) to demonstrate to the Minister, within the time the Minister indicates, the expertise or means available to them to implement in their businesses administrative measures capable of reasonably ensuring the safety of road users on roads open to public vehicular traffic and preserving the integrity of the road network.

Inquiry.

The Minister shall request the Commission to make an inquiry, in accordance with the Act respecting owners and operators of heavy vehicles, if a person subject to an order has not demonstrated the required expertise or means within the prescribed time, or if the demonstration made is unsatisfactory to the Minister. Before making the request to the Commission, the Minister must invite the person to take a professional knowledge test that will allow the person’s expertise to be demonstrated objectively. The Minister may designate a person by agreement or contract to prepare and administer tests for the purposes of this section.”

c. T-12, Div. V.1.01,
ss. 48.11.01-48.11.23,
added.

2. The said Act is amended by inserting the following division after Division V.1 :

“DIVISION V.1.01

“FORUM OF STAKEHOLDERS IN THE GENERAL FREIGHT TRUCKING INDUSTRY

“§1. — *Establishment of Forum*

Establishment.

“48.11.01. The “Forum of stakeholders in the general freight trucking industry” is hereby established.

- Object.** The object of the Forum is to encourage dialogue between the major stakeholders in the general freight trucking industry in Québec as regards the various commercial practices prevailing in the industry.
- Definitions.** “Stakeholders in the general freight trucking industry” or “industry stakeholders” means freight movers and clients operating in the motor freight transportation sector. “Client” means an operator of heavy vehicles, a transport service intermediary or a person requesting or participating in the arranging of transportation within the meaning of the Act respecting owners and operators of heavy vehicles who enters into a motor freight transportation contract with a freight mover. “Motor freight transportation” means transportation by heavy vehicle of any goods or materials except the exclusive transportation of goods and materials expressly excluded by a government order made under this section. “Freight mover” means a person who owns or holds a right within the meaning of section 2 of the Highway Safety Code in respect of a single tractor truck registered in Québec, who usually only drives that tractor truck and whose principal business activity consists in driving that tractor truck.
- Application of division.** The fact that a freight mover drives a tractor truck belonging to a partnership or legal person controlled by the freight mover is no obstacle to the application of this division. If a tractor truck is owned by two or more persons, the person whose principal activity consists in driving that tractor truck is deemed to be a freight mover provided the person meets the other conditions established in this section.
- Mandate.** “48.11.02. More particularly, the mandate of the Forum is
- (1) in keeping with the public interest as well as government agreements on public procurement, to see to the drafting of one or more model contracts pertaining to any subject agreed upon by the Forum and designed to establish the various rights and obligations of the parties as regards business transactions between a freight mover and a client; such a model contract may in particular provide for the considerations essential to the making of a contract, the terms and conditions of payment, the determination of the distance travelled and the price variations of certain products and services;
 - (2) to establish effective dispute settlement processes in the general freight trucking industry within the meaning of this division;
 - (3) to propose to the Minister requirements to be made applicable to estimates, contracts, bills of lading and documents binding between a freight mover and a client;
 - (4) to promote compliance by industry stakeholders with the agreements referred to in paragraph 1 and, where applicable, with the requirements ordered by the Government under paragraph *n* of section 5;
 - (5) to express its opinion on issues of concern to industry stakeholders which it takes up or which are referred to it by the Minister; and

(6) to establish a strategic plan, to be adjusted annually, setting out the objectives pursued, priorities established and results expected by the Forum, and including, in respect of the industry stakeholders, development projections over three years.

- Composition. “48.11.03. The Forum shall be composed of a chair and no more than 10 other members.
- Appointment. Three members shall be appointed by the Minister, upon the designation of their respective group, to represent the three major groups of clients that do business with freight movers. In addition, the Minister, after consulting with those three members, shall appoint two other members upon the designation of their respective group and shall assign a number of votes to them. For the designation of the three members representing the major clients groups, the Minister shall select three groups and assign a certain number of votes to them according to the Minister’s analysis of the data contained in the research report dated 17 February 2000 entitled “Étude de la situation de travail des camionneurs du Québec”.
- Appointment. No more than five members shall be appointed by the Minister, upon designation of their respective group, to represent the five major groups of freight movers certified by the Commission. The Commission shall assign a number of votes to each such freight movers group in accordance with section 48.11.15.
- Chair. “48.11.04. The Government shall appoint the chair of the Forum.
- Term. “48.11.05. The members of the Forum shall be appointed for a term of no more than three years. On the expiry of their term, the members shall remain in office until replaced or reappointed.
- Representation. Any member of the Forum, except the chair, may be generally or specially represented at meetings of the Forum.
- Terms of employment. “48.11.06. The Government shall determine the remuneration, employee benefits and other terms of employment of the chair.
- Remuneration. The other members of the Forum shall receive no remuneration, except in such cases, on such conditions and to such extent as may be determined by the Government. They are, however, entitled to the reimbursement of expenses incurred in the exercise of their functions, on the conditions and to the extent determined by the Government.
- Quorum. “48.11.07. The quorum at meetings of the Forum is seven members, including at least three representatives of clients groups and three representatives of freight movers groups. However, if less than five freight movers groups have been certified by the Commission, the quorum is six members including at least three representatives of clients groups and two representatives of freight movers groups.

- Meetings. “48.11.08. The chair shall call and preside at the meetings of the Forum and ensure that they are properly conducted. The chair shall decide any question of procedure. Decisions of the chair are final.
- Meetings. The Forum shall meet at least once every three months at the place determined by the chair. At such quarterly meetings, only the members who are present may constitute a quorum, even if other members take part in the meeting by means of equipment authorized by this Act.
- Special meeting. Six members may require that the chair call a special meeting. The special meeting must be held within five days after the requisition is received.
- Meeting. “48.11.09. The members of the Forum may, if they all agree, take part in a meeting by means of telephone or other communications equipment enabling all participants to hear one another. The participants are, in such a case, deemed to have attended the meeting.
- Votes. “48.11.10. Other than the chair, who has only one vote, the members of the Forum present at a meeting have the following number of votes:
- (1) the members representing clients groups have the number of votes and fractions of votes, out of a total of 15 votes, assigned to each by the Minister under the second paragraph of section 48.11.03;
- (2) the members representing freight movers groups have the number of votes and fractions of votes, out of a total of 15 votes, assigned to each by the Commission pursuant to section 48.11.15.
- Secretary. “48.11.11. The Minister shall designate a secretary for the Forum from among the employees in the Minister’s department.
- Minutes. “48.11.12. The minutes of a meeting of the Forum, approved by the Forum and certified by the chair, are authentic, as are documents and copies emanating from the Forum or forming part of its records if certified by the chair or by a person authorized by the chair.
- Committees. “48.11.13. The Forum may form committees to examine particular matters, especially to evaluate the use and application of model contracts, determine their mode of operation and designate their members.
- Arbitration of disputes. “48.11.14. The Forum may, by resolution, certify persons to arbitrate disputes between a freight mover and a client, in accordance with the rules of civil law or particular rules established by the Forum.
- “§2. — *Certification by the Commission*
- Certification. “48.11.15. A group of freight movers forming a cooperative, syndicate, union, federation or confederation or a non-profit legal person may be certified by the Commission if the group shows that it represents at least 10% of freight

movers, according to the list established by the Commission, and that it is able to offer group and individual services to freight movers in keeping with the objects set out in its articles of constitution or letters patent.

Maximum of groups certified.

The Commission shall certify a maximum of five groups of freight movers as the major freight movers groups, assign to each such group a number of votes and fractions of votes and notify the Minister. The votes and fractions of votes shall be allocated among the groups in proportion to the number of freight movers, whether members or affiliates, that each certified group represents in relation to the total number of freight movers represented by other certified groups.

“affiliate”

An “affiliate” means a freight mover who is not a member of a certified group of freight movers and who must, where applicable, pay a contribution to such a group pursuant to section 48.11.18.

Statement in writing.

The Commission shall request a freight mover whose name appears among the members of at least two groups referred to in the first paragraph to state in writing which of the groups the freight mover wishes to be included in.

List of freight movers.

“48.11.16. On or before 15 August 2000, the Commission shall establish the list of freight movers referred to in the first paragraph of section 48.11.15 on the basis, in particular, of the information referred to in section 49 of the Act respecting owners and operators of heavy vehicles. The list shall be revised every three years by the Commission.

Notification.

Following a revision of the list, the Commission shall notify the chair of the Forum of stakeholders in the general freight trucking industry and the Minister of the representativeness of the five major certified groups and of the number of votes and fractions of votes assigned to each.

Functions.

“48.11.17. The functions of a certified freight movers group shall consist in representing all its members and affiliates and promoting their interests, in particular through the improvement of the commercial practices of industry stakeholders, the promotion of services and employment benefits for freight movers, the distribution of information relevant to the commercial operations of freight movers, and the promotion of logistical and administrative services for their businesses.

Annual contribution.

“48.11.18. Every freight mover who is not a member of a certified freight movers group must, to avoid having the Commission prohibit his or her heavy vehicle from being put into operation or operated pursuant to the Act respecting owners and operators of heavy vehicles, pay to the certified group of his or her choice the annual contribution fixed at a special meeting of the members of the group for the financing of the group’s activities.

Right to vote.

Every freight mover, whether a member or an affiliate of the certified freight movers group to which he or she pays a contribution, has the right to vote at the special meeting at which the annual contribution is fixed and has

only one vote. Where a certified group of freight movers is affiliated with an organization, a member or affiliate only has a right to vote at a special meeting of the group even if certain rules of the organization provide for special mechanisms, as regards contributions for the financing of its activities, that apply to all groups with which it is affiliated.

Applicability.

This section shall operate only if more than 50% of the persons named on the list of freight movers established in accordance with section 48.11.16 decide in favour of its application, either personally or through the certified group to which they belong. The Commission shall agree with the certified freight movers groups on the procedure to be determined by the Commission to allow the results of the decision to be established and published and, where applicable, to ensure that contributions are paid.

Applicability.

This section does not apply to a freight mover to which a collective agreement, within the meaning of the Labour Code (chapter C-27) or the Canada Labour Code (Revised Statutes of Canada, 1985, chapter L-2), applies and who pays dues to a certified association not certified by the Commission as a freight movers group.

Inquiry.

“48.11.19. In order to ensure that the interests of freight movers are adequately protected, the Commission may direct any person it designates to inquire into the management or the activities of a certified freight movers group.

Powers and immunities.

The person so designated shall have for the purposes of the inquiry the powers and immunities of a commissioner appointed under the Act respecting public inquiry commissions (chapter C-37), except the power to order imprisonment.

Cancellation of certification.

“48.11.20. Following an inquiry report showing that the interests of freight movers are not being adequately protected, the Commission may cancel the certification of the group concerned. In that case, the Commission shall notify the Forum of stakeholders in the general freight trucking industry and the Minister.

“§3. — *Provisions accessory to contracts between a freight mover and a client*

Nullity.

“48.11.21. In the performance of a contract between a freight mover and a client, any clause the effect of which is to cause a freight mover who effects part of the freight movement to assume all of the risks and be liable for all freight charges and transportation costs is null.

Nullity.

In addition, any clause in such a contract that materially compels a freight mover to contravene a legislative or regulatory provision respecting the safety of road users on roads open to public vehicular traffic or the preservation of the integrity of the road network is null.

- Ratification. “48.11.22. The Government may, by order, ratify any model contract proposed by the Forum of stakeholders in the general freight trucking industry and perform any act necessary to promote its use.
- Regulation. “48.11.23. Except where a formal agreement is reached between the major industry stakeholders during the proceedings of the Forum of stakeholders in the general freight trucking industry, the Government may, as of 1 October 2000, by a regulation proposed by the Minister after consulting the Minister of Labour, enact requirements in respect of each and every one of the objects referred to in paragraph 1 of section 48.11.02.
- Presumption. Such requirements are deemed to have been enacted under paragraph *n* of section 5 and to apply to all freight movers and clients. Every first proposed regulation under this section may, notwithstanding section 11 of the Regulations Act (chapter R-18.1) be made or submitted for approval as early as the fifteenth day following its publication in the *Gazette officielle du Québec*.”
- 1998, c. 40, s. 18.1, added. 3. The Act respecting owners and operators of heavy vehicles (1998, chapter 40) is amended by inserting the following section after section 18:
- Suretyship contract. “18.1. The Government may, by regulation, in the cases and according to the terms and conditions it determines, impose on the transport service intermediaries it indicates the obligation to obtain and maintain a suretyship contract for an amount it determines, and file the contract with the Commission, so as to guarantee the performance of their obligations toward other contracting parties. The suretyship contract must be accompanied with an undertaking by the surety to notify the Commission in the event of cancellation or non-renewal of the contract or reduction of the suretyship amount.
- Refusal or cancellation of registration. If such a suretyship contract is not obtained or maintained, the registration of the transport service intermediary on the list established under section 16 shall be refused or cancelled. An intermediary whose registration has been cancelled cannot present another application for registration until the default has been remedied and 90 days have elapsed since the date of cancellation.
- Name and address of surety. The Commission shall publish the name and address of the surety together with the name of the intermediary whose obligations are guaranteed by the surety.”
- 1998, c. 40, s. 40, am. 4. Section 40 of the said Act is amended
- (1) by inserting “name or” after “who gives the” in the first line of the first paragraph;
- (2) by striking out “name or” in the second line of the second paragraph.
- Appointment. 5. Notwithstanding the third paragraph of section 48.11.03 and section 48.11.15 of the Transport Act, the Minister of Transport shall, not later than 3 July 2000, appoint from among the major stakeholders having made

representations to the Minister on behalf of freight movers since 1 January 2000, three members, upon the designation of their respective group, and allocate among them, at the Minister's discretion, the 15 votes to be assigned to all the members representing groups of freight movers in accordance with paragraph 2 of section 48.11.10 of that Act. Until 1 December 2000, those groups are deemed to be the only certified groups of freight movers within the meaning of Division V.1.01 of the Transport Act and to have the number of votes assigned to them by the Minister and no other group of freight movers may make an application for certification to the Commission before that date.

- First revision of list. 6. Notwithstanding the first paragraph of section 48.11.16 of the Transport Act, the Commission shall, for the purposes of the certification of groups of freight movers, produce the first revision of the list of freight movers on or before 1 November 2000.
- Report. 7. On or before 1 June 2003, the Minister shall submit to the Government a report on the carrying out of this Act and the expediency of maintaining or amending its provisions.
- Tabling. The report shall be tabled within the next 15 days in the National Assembly or, where the Assembly is not in session, within 15 days of resumption. The report shall be examined by the appropriate parliamentary committee.
- Coming into force. 8. The provisions of this Act come into force on the date or dates to be fixed by the Government, except section 3, which comes into force on 16 June 2000.

“230.13. A corporation, other than an excluded corporation, that carries on a business in Canada or is a member of a partnership that carries on a business in Canada may elect, irrevocably, to deduct for a taxation year the

lesser of the corporation's income for the year from a qualified business, computed without reference to this section, and the proportion determined under the second paragraph of the aggregate of

(a) an amount not exceeding 230% of the aggregate of all amounts each of which is wages or part of a consideration, or the corporation's share of such an amount, in respect of which the corporation would, but for this division and section 1029.8.21.3, be deemed to have paid an amount to the Minister, on account of its tax payable for the year, under Division II of Chapter III.1 of Title III of Book IX;

(b) an amount not exceeding 460% of the aggregate of all amounts each of which is a qualified expenditure, an eligible fee or the corporation's share of such an amount, in respect of which the corporation would, but for this division and section 1029.8.21.3, be deemed to have paid an amount to the Minister, on account of its tax payable for the year, under any of Divisions II.1 to II.3 of Chapter III.1 of Title III of Book IX, as the case may be; and

For the purposes of section 230.14, the assets of a corporation that is associated in a taxation year with one or more other corporations is equal to the amount by which the aggregate of the assets of the corporation and of each corporation with which it is associated, determined in accordance with sections 230.14 and 230.15, exceeds the aggregate of the amount of investments the corporations own in each other and the balance of accounts between the corporations.
- Reduction of assets. “230.17. For the purposes of sections 230.14 to 230.16, where in a taxation year a corporation or a corporation with which it is associated reduces its assets by any transaction and, but for that reduction, section 230.14 would not apply to the corporation, the assets are deemed not to have been so reduced unless the Minister decides otherwise.
- Expenditure limit. “230.18. For the purposes of section 230.14, the expenditure limit of a corporation for a taxation year is an amount equal to \$2,000,000, except where the corporation is associated in the year with one or more other corporations that are not controlled, directly or indirectly in any manner whatever, by one or more persons not resident in Canada, in which case, subject to sections 230.19 to 230.21, the expenditure limit for the year is nil.
- Allocation agreement. “230.19. Notwithstanding section 230.18, where all of the corporations that are not controlled, directly or indirectly in any manner whatever, by one or more persons not resident in Canada and that are associated with each other in a taxation year have filed with the Minister, in prescribed form, an agreement whereby, for the purposes of section 230.14, they allocate an amount to one or more of them for the taxation year and the amount so allocated or the aggregate of the amounts so allocated, as the case may be, is equal to \$2,000,000, the expenditure limit for the year of each of the corporations is equal to the amount so allocated to it.

“230.20. If any of the corporations that are not controlled, directly or indirectly in any manner whatever, by one or more persons not resident in Canada and that are associated with each other in a taxation year fails to file with the Minister the agreement referred to in section 230.19 within 30 days after notice in writing by the Minister is forwarded to any of them that such an agreement is required for the purpose of any assessment of tax under this Part, the Minister shall, for the purposes of section 230.13, allocate an amount to one or more of them for the taxation year, which amount or the aggregate of which amounts, as the case may be, shall be equal to \$2,000,000, and in any such case, notwithstanding section 230.18, the expenditure limit for the year of each of the corporations is equal to the amount so allocated to it.

(b) where a corporation that is not controlled, directly or indirectly in any manner whatever, by one or more persons not resident in Canada has a taxation year that is less than 51 weeks, its expenditure limit for the year is equal to such proportion of its expenditure limit for the year determined without reference to this paragraph as the number of days in the year is of 365.
