NOTE

This volume contains the text of Acts assented to in 2001.

It also contains information that enables the reader to locate an Act, to trace the stages of its consideration in the National Assembly and to determine its effects on existing legislation.

Each Act is preceded by an introductory page indicating, in addition to the chapter number and title of the Act, the corresponding bill number, the name of the Member who introduced the bill, the date of each stage of consideration in the National Assembly, the date of assent, the date or dates of coming into force if fixed on 1 March 2002, and a list of the Acts, Regulations and Rules amended by the Act.

The table of amendments is a cumulative listing of all amendments made to the Revised Statutes of Québec, 1977 and other public Acts, including amendments made by the Acts passed in 2001. It is followed by a table of general amendments and a table of corrections made for updating purposes since 1979 pursuant to the Act respecting the consolidation of the statutes and regulations (R.S.Q., chapter R-3).

The equivalence table lists the chapter number in the Revised Statutes of Québec assigned to Acts adopted between 1 January 2001 and 1 January 2002.

A table, compiled since 1964, shows the dates on which public legislative provisions came into force by proclamation or order in council, except those already indicated in the annual volumes of statutes. The next table enumerates legislative provisions which have yet to be brought into force by proclamation or order in council. Other tables contain information relating to letters patent, supplementary letters patent, orders, proclamations and orders in council required by law to be published.

The table of concordance lists, opposite each other, the bill number of each Act and its chapter number in the annual volume of statutes.

Most of the information described above can be found in the yellow pages of the volume. An alphabetical index is provided at the end of the volume.

AN ACT TO PROVIDE FOR THE MAINTENANCE OF PHARMACEUTICAL SERVICES IN QUÉBEC

[Assented to 22 February 2001]

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS:

DIVISION I

INTERPRETATION

- Interpretation. 1. In this Act,
- “Association”; “Association” means the Association québécoise des pharmaciens propriétaires constituted under the Professional Syndicates Act (R.S.Q., chapter S-40);
- “Board”. “Board” means the Régie de l’assurance maladie du Québec.

DIVISION II

MAINTENANCE OF SERVICES

- Pharmaceutical services and medications. 2. As of 00:01 on 23 February 2001, every pharmacist shall, in accordance with the provisions of the Health Insurance Act (R.S.Q., chapter A-29), the Act respecting prescription drug insurance (R.S.Q., chapter A-29.01) and the applicable instruments thereunder, furnish to persons eligible under the basic prescription drug insurance plan established by the Act respecting prescription drug insurance or under a program administered by the Board under the Act respecting the Régie de l’assurance maladie du Québec (R.S.Q., chapter R-5), pharmaceutical services and medications prescribed by a physician, a resident in medicine, a dentist or a midwife, without reducing, slowing down or modifying his or her usual professional activity.
- Applicability. This section does not apply to pharmacists referred to in section 432 of the Act respecting health services and social services (R.S.Q., chapter S-4.2) working for an institution to which that Act applies.
- Prohibition. 3. No pharmacist may participate in concerted action consisting in the pharmacist’s becoming a non-participating professional within the meaning of the Health Insurance Act.

- Nullity. Every notice of non-participation concerning a pharmacist transmitted to the Board between 25 January 2001 and 22 February 2001 is absolutely null.
- Prohibition. 4. The Association is prohibited from undertaking or continuing concerted action that involves a contravention of the first paragraph of section 2 or of section 3 by pharmacists, whether or not the pharmacists are members of the Association.
- Compliance. 5. The Association must take the appropriate measures to induce its members to comply with the first paragraph of section 2 and of section 3.
- Prohibition. 6. No person may, by omission or otherwise, prevent or impede the furnishing of pharmaceutical services or medications.
- Prohibition. 7. No person may prohibit or hinder a person's access to a place to which that person has a right of access to furnish or receive pharmaceutical services or medications.
- Prohibition. 8. No person may help or, by encouragement, advice, consent, authorization or order, induce a pharmacist, the Association or any other person to contravene any provision of this division.

DIVISION III

POWER OF THE GOVERNMENT

- Order. 9. Notwithstanding any inconsistent provision of an Act, regulation or agreement, the Government may determine by order what will stand in lieu of an agreement within the meaning of section 19 of the Health Insurance Act between the Minister of Health and Social Services and the Association.
- Effect. The provisions of the order may have effect from 1 April 1998 to 31 March 2002.

DIVISION IV

ADMINISTRATIVE AND CIVIL MEASURES

§1. — Deductions

- Prohibition. 10. From the time the Minister of Health and Social Services informs the Board in writing that the Minister has ascertained that the Association has engaged in an act referred to in section 4 or has failed to take the measures referred to in section 5, no union assessment, special assessment or other amount in lieu thereof required to be withheld by the Board pursuant to an agreement to which the Association is a party and that binds the Board under section 19 of the Health Insurance Act may be deducted by the Board during the year 2001.

§2. — *Reduction of remuneration*

- Remuneration. 11. Notwithstanding any inconsistent provision of an Act, regulation or agreement, where the Board or an inspector referred to in section 18 ascertains that a pharmacist has contravened the first paragraph of section 2, no remuneration, other than the cost of medications, may be paid by the Board to the pharmacist who is bound by an agreement under section 19 of the Health Insurance Act for pharmaceutical services furnished in the pharmacy where the contravention took place, for the period of the ascertained contravention.
- Recovery of amount paid. If a payment has been made to a pharmacist despite the provisions of the first paragraph, the Board shall recover the amount of the payment from the pharmacist by set-off or otherwise.
- Remuneration. 12. The remuneration payable to a pharmacist bound by an agreement under section 19 of the Health Insurance Act for pharmaceutical services furnished by the pharmacist after a period of contravention referred to in section 11, other than the cost of medications, shall be the remuneration normally payable, reduced for each day or part of a day during which the contravention continued, by an amount equal to the quotient obtained by dividing the amount of the remuneration, other than the cost of medications, paid by the Board pursuant to the agreement during the period beginning on 23 January 2001 and ending on 21 February 2001 in respect of the pharmaceutical services furnished in the pharmacy where the contravention took place, by the number of days of operation of that pharmacy during that period.
- Amounts withheld. 13. The Board shall withhold the amounts recovered pursuant to the second paragraph of section 11 or deducted pursuant to section 12. It shall inform each pharmacist concerned of the amounts withheld. Amounts are withheld up to 10% of the remuneration payable to the pharmacist per billing period.
- Change in ownership. Where such amounts cannot be withheld because of a change in the ownership of the pharmacy, the Board shall recover from the pharmacist concerned the amounts owing with accrued interest, if any, by set-off or otherwise.
- Registered charity. 14. The Board shall remit the sums referred to in section 12 to a registered charity within the meaning of the Taxation Act (R.S.Q., chapter I-3) designated by order of the Government.
- Disagreement. 15. Any disagreement as to the application of section 11 or section 12 must be referred to arbitration as if it were a dispute resulting from the application of an agreement within the meaning of section 54 of the Health Insurance Act.
- Disagreement. In the case of a disagreement as to the application of the first paragraph of section 11, a pharmacist bound by an agreement under section 19 of the Health Insurance Act is entitled to the reimbursement of the amount withheld only if the pharmacist establishes that the pharmacist who allegedly contravened the first paragraph of section 2 complied with that paragraph or was prevented

from complying therewith despite having taken all reasonable measures to do so and that the non-compliance with that paragraph was not part of concerted action.

Arbitration.

The person to whom a disagreement referred to in the second paragraph is referred for arbitration may only confirm or set aside the decision of the Board on the basis of that paragraph alone.

§3. — *Civil liability*

Damage.

16. The Association is liable for any damage caused during a contravention of the first paragraph of section 2 or of section 3 by its members, unless it establishes that the damage is not a result of the contravention or that the contravention is not part of concerted action.

Compensation.

17. Any person who suffers damage by reason of an act performed in contravention of the first paragraph of section 2 or of section 3 may apply to the competent court to obtain compensation.

Class action.

Notwithstanding article 1003 of the Code of Civil Procedure (R.S.Q., chapter C-25), where a person referred to in the first paragraph brings a class action under Book IX of that Code by way of a motion in accordance with the second paragraph of article 1002 of that Code, the court shall authorize the bringing of the class action if it is of the opinion that the person to whom the court intends to ascribe the status of representative is in a position to adequately represent the members of the group described in the motion.

DIVISION V

- Consultation. “24.5. Before making a classification, the Minister shall consult any municipality or urban community whose territory contains any part of the forest lands concerned.
- Consultation. The Minister must also consult any Native community concerned.
- Observations. The Minister must, in addition, give holders of management permits issued for the cultivation and operation of a sugar bush, the holders of agreements issued under Chapter III or of forest management contracts, and the holders of mining rights referred to in section 8 of the Mining Act (chapter M-13.1), an opportunity to present observations concerning the forest lands concerned.

- Adverse effect. “24.9. Where the Minister considers that the exercise of a mining right referred to in section 8 of the Mining Act, within the boundaries of an exceptional forest ecosystem, may have an adverse effect on the maintenance of biological diversity, the Minister may order that all work cease and either enter into an agreement with the holder of the mining right providing for the abandonment of the right according to the procedure set out in the said Act, or expropriate the right in accordance with the Expropriation Act (chapter E-24).”

- Different standards. The Minister may, similarly, impose the application of different standards of forest management, at the request of a Native community or on the Minister’s own initiative following consultation with a Native community, to facilitate the conciliation of forest management activities with the activities pursued by the community for food, ritual or social purposes.

Where a general forest management plan, or an amendment to such a plan, is submitted to the Minister for approval, the Minister may, for all or part of the management unit or territorial unit concerned, permit a departure from the standards for forest management prescribed by government regulation if it is shown that the substitute measures proposed by the agreement or contract holder offer equivalent or superior protection for forest resources and the forest environment.
- Substitute measures. The plan must indicate the regulatory standards from which a departure is to be permitted and specify the scope of the substitute measures, the places where they will apply, the results they are designed to achieve and the mechanisms that will ensure their application.
- Consultation. Before giving authorization, the Minister shall consult the other ministers concerned.
- Compliance. A person does not contravene the regulatory provisions indicated in the general plan approved by the Minister if the person complies with the corresponding provisions of the plan.
- Amendment or revocation. “25.3.1. The Minister may amend or revoke an authorization given under section 25.3 and make a corresponding amendment to the general plan where
- (1) the Minister observes that all or some of the substitution measures have failed to achieve the results specified in the plan ; or
 - (2) the regulatory standards have been amended.

“DIVISION 0.1

“MANAGEMENT UNITS

- Management units. “35.1. The management unit is the basic territorial unit for forest management activities carried out to supply a wood processing plant, and more specifically for the determination of the annual allowable cut, forest

protection and forest development objectives, and the means to be implemented to meet those objectives.

- Delimitation. “35.2. The Minister shall establish and make public, not later than 1 September 2002, the delimitation for management units. The delimitation shall come into force on 1 April 2005.
- Bio-physical characteristics. For the purposes of the delimitation, the Minister shall, as far as possible, take into account, in particular, the bio-physical characteristics and historical use of the territory.
- Management units. “35.3. Each management unit shall consist, as far as possible, of a single block containing, in particular, the areas intended for forest production.
- Perimeter. The perimeter of each unit shall be drawn on the maps kept by the department.
- Prohibition. No management unit may be established to the north of the territorial limit determined by the Minister.
- Prescribed method and hypotheses. “35.4. The Minister shall determine the annual allowable cut for the management unit, by species or group of species, and the annual yield of the areas intended for forest production, using the method and hypotheses prescribed in the forest management manual.
- Annual allowable cut. “35.5. The annual allowable cut is the maximum volume of timber of a particular species or group of species that may be harvested annually in perpetuity from a given management unit without reducing the productive capacity of the forest environment.
- Annual yield. The annual yield is the annual allowable cut for a particular species or group of species, expressed as the volume that may be harvested on average per hectare in an area intended for forest production, taking into consideration the age-class distribution of stands in the area concerned, the silvicultural techniques that may be applied and the bio-physical characteristics of the area.
- Silvicultural techniques. Where the forest area contains high-quality hardwood or softwood species, the annual yield must be established taking into consideration the silvicultural techniques that permit not only to maintain the yield in volume but also to increase the quality of the timber harvested.
- Objectives. “35.6. The Minister may also assign objectives, for the management unit, concerning the protection or development of forest environment resources, including increased yield objectives to increase, through the carrying out of silvicultural treatments, the annual allowable cut over the long term.
- Consultation. Before assigning objectives, the Minister shall consult the other ministers concerned, if applicable, and, in conformity with the consultation policy referred to in section 211, the regional organizations or bodies concerned.

- General plan. “35.7. The annual allowable cut, annual yield and objectives assigned to the management unit shall be integrated into the general forest management plan for the unit.
- Supervision. The Minister shall supervise the preparation of the general plan.
- Special requirements. “35.8. The Minister may, in order to exercise the powers and functions set out in sections 35.4, 35.6 and 35.7, impose special requirements on the holders of timber supply and forest management agreements or forest management agreements.
- Multiple agreements. “35.9. A forest management unit may be the subject of several agreements under this chapter. In no case may the total volume of timber allocated under the agreements, by species or group of species, exceed the annual allowable cut for the management unit.
- Joint filing. “35.10. Where a management unit is the subject of several agreements, the plans, evaluations and corrective program referred to in section 61 and the annual report that must be filed in connection with the unit shall be filed jointly by all the agreement holders.
- Representative. The agreement holders shall designate one of their number to act as their representative with the Minister as regards the preparation of a plan, corrective program or annual report of activities, and they shall advise the Minister of the designation. The agreement holders are solidarily liable for the payment of the costs incurred by the Minister pursuant to section 59.2 for establishing the general plan.
- Binding. Each agreement holder is bound, for the purposes of paragraph 1 of section 60, only for the carrying out of the silvicultural treatments for which that holder is responsible according to the annual management plan, but the holder is also warrantor for the carrying out of the other treatments provided for by the plan as if the holder were bound as solidary surety.
- Liability. In addition, the agreement holders are solidarily liable for the carrying out of the evaluations referred to in section 60, for the application of the corrective program referred to in section 61 and, in a case of failure to pay, for the payment of the costs incurred by the Minister pursuant to section 61.1.
- Rules of management. “35.11. Where a management unit is the subject of several agreements, the holders of the agreements must, at the request of one of the holders and unless otherwise provided under any other agreement between them, agree upon rules of management to facilitate the fulfilment, in whole or in part, of their obligations referred to in section 35.10.
- Arbitration. If the holders have not come to an agreement 45 days after the notification of the request, one of them may require that the dispute be submitted to arbitration.

- Proceedings. “35.12. The arbitration proceedings are governed by the provisions of Book VII of the Code of Civil Procedure (chapter C-25), with the necessary modifications.
- Decision. In making their decision, the arbitrators may take into account the rules of management applicable in other management units or in similar circumstances and those already agreed upon in respect of the unit concerned. The arbitration award operates as stipulations agreed upon between the parties with respect to the subject of the dispute.
- Prohibition. “35.13. No agreement under section 35.11 or arbitration award may be set up against the State. Any such agreement or award applies subject to the provisions of the general forest management plan that are referred to in paragraph 9 of section 52.
- Exceptional measure. “35.14. The Minister may, as an exceptional measure, modify the boundaries of a management unit, subdivide it or join it to another unit, where the Minister considers that the unit, or another unit, because of a reduction in the areas intended for forest production or for any other reason, no longer has the characteristics required for optimum forest management. The same applies where the Minister considers it expedient to modify the northern limit.
- New delimitation. The Minister shall make the new delimitation public at least two years before the date set for the forwarding of new general forest management plans ; the date of coming into force of the new delimitation shall be the same as the date applicable to the general plans.
- First general plan. For the establishment of the first general plan of a new management unit and the related consultations, and for the following five-year revision of the agreements, every holder of a current agreement covering all or part of the new unit is deemed to be the holder of an agreement concerning that unit and allocating, by species or group of species, a volume of timber equal to the percentage allocated under the current agreement in the common area.
- Withdrawal. Where production areas are withdrawn from a forest production area in circumstances described in section 35.15, sections 77.4 and 77.5 apply. The same applies where production areas are withdrawn following a modification to the northern limit.
- Modification of areas. “35.15. The Minister may, without modifying the boundaries of a management unit, modify the areas intended for forest production on the grounds of public interest, and in particular in response to :
- (1) the classification of an exceptional forest ecosystem or a change to the boundaries of a previously classified ecosystem ;
 - (2) the application of another Act ;

(3) a modification to a land use plan referred to in Division III of Chapter II of the Act respecting the lands in the public domain (chapter T-8.1).

- Exceptional measure. The Minister may, as an exceptional measure, so modify the areas intended for forest production by reason of the issue of a permit for the cultivation and operation of a sugar bush or by reason of the carrying on of an agricultural activity.
- Revision. “35.16. In addition to the modifications that may be made when the Minister approves or finalizes the general plan, the annual allowable cut, annual yield and objectives assigned to the management unit shall be revised every five years.
- Revision. They may be revised by the Minister, where the Minister considers it expedient, following a modification to the areas intended for forest production, the issue of a permit for the cultivation and operation of a sugar bush in an area intended for forest production, the occurrence of an event mentioned in section 79 or the issue of an order under section 80.1. The same applies where considered expedient by the Minister by reason of the carrying on of an agricultural activity in an area intended for forest production.
- Public information. “35.17. The information contained in general forest management plans, annual management plans and corrective programs mentioned in sections 61 and 77.3, as approved or finalized by the Minister, and the information contained in the reports filed under section 55 or 70, is public information.”

- c. F-4.1, s. 43, am. 34. Section 43 of the said Act is amended by inserting “the volumes of timber allocated under forest management agreements, the volumes of timber that may be harvested by the holders of forest management contracts,” after “forests” in the first line of paragraph 2.

- c. F-4.1, ss. 43.1 and 43.2, added. 35. The said Act is amended by inserting the following sections after section 43:
- Volume. “43.1. The Minister shall indicate, in the agreement, the volume of round timber of each species or group of species allocated for each management unit covered by the agreement.
- Exceptional measure. “43.2. The Minister may, as an exceptional measure, allow that part of the round timber harvested by the agreement holder, in the course of a year, be intended for a processing plant other than the plant specified in the agreement, in particular where the Minister considers it necessary to avoid a deterioration or loss of timber or to ensure the optimal use of the timber.”
- c. F-4.1, ss. 44-46, repealed. 36. Sections 44 to 46 of the said Act are repealed.

Following a reduction in the annual allowable cut assigned to a management unit covered by several agreements, the Minister may take account of the impacts on regional or local economic activity of the apportionment of the reduction in volume among the agreement holders for the species or group of species concerned, and vary the reduction based on the impacts.

Postponement.

“77.3. Where the Minister decides, taking into account the elements mentioned in subparagraphs 5 and 6 of the first paragraph of section 77, to reduce the volume allocated under an agreement, the Minister may postpone

If forest production is not sufficient to allocate an equivalent volume to each of the agreement holders whose agreement is affected by a reduction, the Minister shall take into account the criteria set out in section 77.2.

Compensation. Where the agreement holder has carried out forest management activities, as part of a plan approved by the Minister under subdivision 4 of Division I, that have not been credited in payment of dues, the Government shall, after giving the agreement holder an opportunity to present observations, grant the agreement holder compensation for the loss suffered in the amount considered fair by the Government based on the value of the activities.”

- Special plan. The Minister shall indicate, in the special plan, the volume of timber that each participant must salvage and the silvicultural treatments that each must carry out, beginning with the holders of agreements concerning the management unit covered by the special plan.
- Volume of timber. “79.1. The volume of timber to be salvaged under a special plan forms part of the volume that an agreement holder is authorized to harvest in the management unit covered by the special plan under the management permit provided for in section 86. Where the agreement of the agreement holder does not concern the management unit affected by the natural disaster, the volume to be salvaged is substituted for a corresponding volume to which the agreement holder is entitled in another management unit, designated by the Minister among the management units covered by the agreement holder’s agreement. The Minister may, where the Minister considers that there is a risk of timber being lost, allow the annual volume under the agreement to be exceeded, for the time and on the conditions determined by the Minister.
- Reduction. Where an agreement holder fails to participate in a special plan, the annual volume authorized under the management permit concerned shall be reduced, for the current or for the following year, by a volume equal to the volume that has to be harvested by the agreement holder.
- Financial assistance. “79.2. The Minister may, for the implementation of a special plan, grant financial assistance to an agreement holder who applies to the Minister in writing, in particular in the form of a credit on the dues payable by the agreement holder under this Act.”

The volume of timber obtained shall be substituted for the corresponding

volume to which the holder is entitled in the unit affected by the natural disaster. In no case may the total of the substituted volumes obtained in a unit exceed the total of the volumes that the holders of agreements concerning the management unit have obtained in the management unit affected by the natural disaster under the special plan.”

“tax shelter” means a property that would be a tax shelter, as defined in section 1079.1, if

(a) the cost of a right to receive production were equal to the aggregate of all amounts each of which is a matchable expenditure to which the right relates ; and

(b) sections 158.2 to 158.12 did not apply for the purpose of computing an amount, or in the case of a partnership a loss, represented to be deductible ;

“taxpayer”.

“taxpayer” includes a partnership.

Limitation as to a matchable expenditure.

For the purposes of the definition of “matchable expenditure” in the first paragraph, the amount of an expenditure that a taxpayer may deduct in computing the taxpayer’s income for a taxation year under this chapter, otherwise than under this division, is not a matchable expenditure.

Limitation on the deductibility of a matchable expenditure.

“158.2. Subject to section 158.3, no amount of a matchable expenditure may be deducted by a taxpayer in computing the taxpayer’s income from a business or property for a taxation year.

Deduction of a matchable expenditure.

“158.3. If a taxpayer’s matchable expenditure would, but for section 158.2 and this section, be deductible in computing the taxpayer’s income for a taxation year, the taxpayer may deduct in respect of the matchable expenditure in computing the taxpayer’s income for a taxation year the amount that is determined under section 158.4 for the year in respect of the expenditure.

Amount of deduction.

“158.4. The amount to which section 158.3 refers for a taxation year in respect of a taxpayer’s matchable expenditure is the amount that is the least of

(a) the aggregate of the amount by which the amount determined under this subparagraph for the preceding taxation year in respect of the matchable expenditure exceeds the amount of the matchable expenditure deductible in computing the taxpayer’s income for that preceding year and the lesser of

- i. 1/5 of the matchable expenditure, and
- ii. the amount determined by the formula

$$(A/B) \times C;$$

(b) the aggregate of all amounts each of which is included in computing the taxpayer’s income for the year, other than any portion of such amount that is the subject of a reserve claimed by the taxpayer for the year under this Act, in respect of the right to receive production to which the matchable expenditure relates and the amount by which the amount determined under this subparagraph for the preceding taxation year in respect of the matchable expenditure exceeds the amount of the matchable expenditure deductible in computing the taxpayer’s income for that preceding year; and

(c) the amount by which the aggregate of all amounts each of which is the amount of the matchable expenditure that would, but for this division, have been deductible in computing the taxpayer’s income for the year or a preceding taxation year exceeds the aggregate of all amounts each of which is the amount of the matchable expenditure deductible under section 158.3 in computing the taxpayer’s income for a preceding taxation year.

Interpretation.

In the formula provided for in subparagraph *a* of the first paragraph,

(a) A is the number of months that are in the taxation year and after the day on which the right to receive production to which the matchable expenditure relates is acquired ;

(b) B is the lesser of 240 and the number of months that are in the period that begins on the day on which the right to receive production to which the matchable expenditure relates is acquired and that ends on the day the right is to terminate ; and

(c) C is the amount of the matchable expenditure.

Special rules.

“158.5. For the purposes of this division, the following rules apply :

(a) where a taxpayer’s matchable expenditure is made before the day on which the related right to receive production is acquired by the taxpayer, the expenditure is deemed to have been made on that day ;

(b) where a taxpayer has one or more rights to renew a particular right to receive production to which a matchable expenditure relates for one or more additional terms, after the term that includes the time at which the particular right was acquired, the particular right is deemed to terminate on the latest day on which the latest possible such term could terminate if all rights to renew the particular right were exercised ;

(c) where a taxpayer has more than one right to receive production that can reasonably be considered to be related to each other, the rights are deemed to be one right ; and

(d) where the term of a taxpayer’s right to receive production is for an indeterminate period, the right is deemed to terminate 20 years after it is acquired.

Proceeds of disposition considered income.

“158.6. Where in a taxation year a taxpayer disposes of all or part of a right to receive production to which a matchable expenditure relates, the proceeds of the disposition shall be included in computing the taxpayer’s income for the year.

Arm’s length disposition.

“158.7. Subject to sections 158.8 and 158.9, the amount that a taxpayer may deduct, under section 158.3, in computing the taxpayer’s income for a taxation year, in respect of a matchable expenditure, other than a matchable expenditure no portion of which would, if this division were read without reference to this section, be deductible under section 158.3 in computing the taxpayer’s income, is deemed to be the amount determined under subparagraph c of the first paragraph of section 158.4 for the year in respect of the matchable expenditure where in the year

(a) the taxpayer disposes, otherwise than in a disposition to which subsections 1 and 2 of section 544 or sections 556 to 564.1 and 565 apply, of

all of the taxpayer's right to receive production to which the matchable expenditure relates; or

(b) the taxpayer's right to receive production to which the matchable expenditure relates has expired.

Non-arm's length disposition and special arm's length case.

“158.8. Section 158.9 applies where a taxpayer's particular right to receive production to which a matchable expenditure, other than a matchable expenditure no portion of which would, if this division were read without reference to sections 158.7 and 158.9, be deductible under section 158.3 in computing the taxpayer's income, relates has expired or the taxpayer has disposed of all of the right, otherwise than in a disposition to which subsections 1 and 2 of section 544 or sections 556 to 564.1 and 565 apply, and

(a) where

i. during the period that begins 30 days before and ends 30 days after the disposition or expiry, the taxpayer or a person affiliated, or who does not deal at arm's length, with the taxpayer acquires a right to receive production, in this section and section 158.9 referred to as the “substituted property”, that is, or is identical to, the particular right, and

ii at the end of the period referred to in subparagraph i, the taxpayer or a person affiliated, or who does not deal at arm's length, with the taxpayer owns the substituted property; or

(b) during the period that begins at the time of the disposition or expiry and ends 30 days after that time, a taxpayer that had an interest, directly or indirectly, in the right to receive production, has another interest, directly or indirectly, in another right to receive production, which is a tax shelter or a tax shelter investment as defined by section 851.38.

Amount of deduction if non-arm's length disposition.

“158.9. Where this section applies because of section 158.8 to a disposition or expiry in a taxation year or a preceding taxation year of a taxpayer's right to receive production to which a matchable expenditure relates, the following rules apply:

(a) the amount that may be deducted under section 158.3 in respect of the expenditure in computing the taxpayer's income for a taxation year that ends at or after the disposition or expiry of the right is the amount determined under section 158.4 for the year in respect of the expenditure; and

(b) the amount determined under section 158.4 in respect of the expenditure for a taxation year is deemed to be the amount determined under subparagraph c of the first paragraph of section 158.4 in respect of the expenditure for the year where the year includes the time that is immediately before the first time, after the disposition or expiry,

i. at which the right would, if it were owned by the taxpayer, be deemed by Title I.1 of Book VI or section 999.1 to have been disposed of by the taxpayer,

ii. that is immediately before control of the taxpayer is acquired by a person or group of persons, if the taxpayer is a corporation,

iii. at which winding-up of the taxpayer begins, other than a winding-up to which sections 556 to 564.1 and 565 apply, if the taxpayer is a corporation,

iv. where section 158.8 applies otherwise than because of paragraph *b* thereof, at which a 30-day period begins throughout which neither the taxpayer nor a person affiliated, or who does not deal at arm's length, with the taxpayer owns the substituted property, or a property that is identical to the substituted property and that was acquired after the day that is 31 days before the period began, or

v. where section 158.8 applies otherwise than because of paragraph *a* thereof, at which a 30-day period begins throughout which no taxpayer who had an interest, directly or indirectly, in the right has an interest, directly or indirectly, in another right to receive production if one or more of those direct or indirect interests in the other right is a tax shelter or tax shelter investment as defined by section 851.38.

Partnerships.

“158.10. For the purposes of paragraph *b* of section 158.9, where a partnership ceases to exist at any time after a disposition or expiry referred to in section 158.9, the partnership is deemed not to have ceased to exist, and each taxpayer who was a member of the partnership immediately before the partnership would, but for this section, have ceased to exist is deemed to remain a member of the partnership until the time that is immediately after the first of the times described in subparagraphs i to v of paragraph *b* of section 158.9.

Identical property.

“158.11. For the purpose of applying section 158.8, otherwise than because of paragraph *b* thereof, and section 158.9, a right to acquire a particular right to receive production, other than a right, as security only, derived from a mortgage, agreement of sale or similar obligation, is deemed to be a right to receive production that is identical to the particular right.

Application of
Title VIII of Book VI.

“158.12. For the purpose of applying Title VIII of Book VI to an amount that would, if this division were read without reference to this section, be a matchable expenditure any portion of the cost of which is deductible under section 158.3, the expenditure is deemed to be a tax shelter investment and that Title VIII shall be read without reference to paragraph *b* of section 851.41.

Debt obligations.

“158.13. Where the rate of return on a taxpayer's right to receive production to which a matchable expenditure, other than a matchable expenditure no portion of which would, if this division were read without reference to this section, be deductible under section 158.3 in computing the

taxpayer's income, relates is reasonably certain at the time the taxpayer acquires the right, the following rules apply:

(a) for the purposes of section 92.5 and the regulations made under that section,

i. the right is deemed to be a debt obligation in respect of which no interest is stipulated to be payable in respect of the principal amount, and

ii. the obligation is deemed to be satisfied at the time the right terminates for an amount equal to the total of the return on the debt obligation and the amount that would otherwise be the matchable expenditure that is related to the right; and

(b) notwithstanding section 158.3, no amount may be deducted in computing the taxpayer's income in respect of any matchable expenditure that relates to the right.

Non-applicability of division.

“158.14. Subject to sections 158.1 and 158.13, this division does not apply to a taxpayer's matchable expenditure in respect of a right to receive production if no portion of the expenditure can reasonably be considered to have been paid to another taxpayer, or to a person with whom the other taxpayer does not deal at arm's length, to acquire the right to receive production from the other taxpayer and

(a) the taxpayer's expenditure cannot reasonably be considered to relate to a tax shelter or tax shelter investment, as defined by section 851.38, and none of the main purposes for making the expenditure is that the taxpayer, or a person with whom the taxpayer does not deal at arm's length, obtain a tax benefit; or

(b) before the end of the taxation year in which the expenditure is made, the aggregate of all amounts each of which is included in computing the taxpayer's income for the year, other than any portion of such an amount that is the subject of a reserve claimed by the taxpayer for the year under this Act, in respect of the right to receive production to which the matchable expenditure relates, exceeds 80% of the expenditure.”

“851.41. Notwithstanding any other provision of this Part, the amount of any expenditure that is a taxpayer’s tax shelter investment, the cost or capital cost of such tax shelter or the amount of any expenditure of a taxpayer an interest in which is a tax shelter investment, shall be reduced, where applicable, to the amount by which the amount of the taxpayer’s expenditure otherwise determined exceeds the aggregate of

“851.42. For the purposes of this Title, the unpaid principal of an indebtedness is deemed to be a limited-recourse amount unless

(b) the indebtedness bears interest at a rate equal to or greater than the lesser of

Timing.

“851.44. Where at any time a taxpayer has paid an amount, in this section referred to as the “repaid amount”, on account of the principal amount of an indebtedness that was, before that time, the unpaid principal amount of a loan or any other form of indebtedness in respect of an expenditure of the taxpayer to which the first paragraph of section 851.39 applies, in this section referred to as the “former amount or benefit”, the following rules apply:

Short-term debt.

“851.46. Sections 851.42 and 851.43 do not apply to an indebtedness the principal of which is repaid by a taxpayer not later than 60 days after the indebtedness was incurred and that would otherwise be considered to be a limited-recourse amount solely because of the application of any of those sections unless

(a) any portion of the repayment is made with a limited-recourse amount; or

(b) the repayment may reasonably be considered to be part of a series of indebtedness and repayments that ends more than 60 days after the indebtedness was incurred.

Series of loans or repayments.

“851.47. For the purposes of paragraph *a* of section 851.42, a debtor is deemed not to have made arrangements to repay an indebtedness within 10 years where the debtor’s arrangement to repay can reasonably be considered to be part of a series of indebtedness and repayments that ends more than 10 years after it begins.

of transactions was to increase the taxpayer's gross revenue for the purposes of section 1082.5.

No adjustment unless appropriate.

“1082.13. An adjustment, other than an adjustment that results in or increases a transfer pricing capital adjustment or a transfer pricing income adjustment of a taxpayer for a taxation year, shall not be made under section 1082.4 unless, in the opinion of the Minister, the circumstances are such that it would be appropriate that the adjustment be made.”

“PART V.1

“PENSION PLAN OF THE JUDGES OF THE COURT OF QUÉBEC AND OF CERTAIN MUNICIPAL COURTS

“CHAPTER I

“SCOPE

Applicability.

“224.1. The pension plan established by this Part applies to judges of the Court of Québec and judges of the municipal courts of Laval and Québec appointed after 31 December 2000. It also applies to judges of those courts appointed before 1 January 2001 and still in office on that date, to the extent that they elect to participate in that plan before 1 January 2002.

Applicability. The same shall apply to judges of the Municipal Court of Montréal if Ville de Montréal has become a party to the pension plan under section 31 of chapter 8 of the statutes of 2001.

“CHAPTER II

“CONTRIBUTIONS

Contributions. “224.2. A judge must pay, as contributions to this plan, an amount corresponding to 7% of the judge’s annual salary. The annual salary of a judge is the salary fixed by order under section 115. However, the additional remuneration paid to a chief judge, senior associate chief judge, associate chief judge, coordinating judge or associate coordinating judge and all other remuneration paid to a judge referred to in sections 131 to 134 shall be excluded from the salary.

Leave without pay. Where a judge is granted leave without pay under section 122.0.1, the judge’s annual salary for the purposes of this section is the salary to which the judge would have been entitled pursuant to the order made under section 115 had the judge exercised the functions attached to the judge’s office during the year concerned. The annual salary of a judge who is a party to an agreement granting leave with deferred pay under section 122.0.1 is the salary received by the judge in each of the years covered by the agreement.

Salary increase or adjustment. Any lump sum paid as a salary increase or adjustment for a preceding year is added to the salary for the year in which it is paid. However, if the lump sum is paid in a year for which no service is credited, it forms part of the salary for the last year for which service is credited prior to the year of payment.

Payment of contributions. The judge shall pay the contributions provided for by this section until the date on which the judge ceases to hold office, subject to the applicable fiscal rules.

“CHAPTER III

“PENSION AND REFUND

Requirements. “224.3. A judge who ceases to hold office is eligible for a pension if the judge

(1) has reached 65 years of age ;

(2) has accumulated at least 21.7 years of service ;

(3) has, in years of age and years of service, a combined total of 80 or more.

Refund. “224.4. A judge under 65 years of age who, upon ceasing to hold office, has less than two years of service is entitled to a refund of the

contributions paid with accrued interest, unless the judge elects to transfer such years or parts of a year of service to another pension plan pursuant to a transfer agreement made under section 246.24.

Contributions.

If the judge dies before obtaining the refund, the judge's contributions shall be refunded to the judge's spouse or, if the judge leaves no spouse, to the judge's heirs.

Interest.

“224.5. For the purposes of this pension plan, the contributions paid, including those from which a judge was exempt, bear interest at the rate fixed by regulation, from the midpoint of the year in which they were paid until the first day of the month in which the payment of benefits begins or in which the contributions are refunded.

Deferred pension.

“224.6. A judge who, upon ceasing to hold office, has two years of service or more but does not satisfy any of the requirements set out in section 224.3, is entitled to a deferred pension payable at 65 years of age, computed in accordance with sections 224.8 and 224.9, unless the judge elects to transfer such years or parts of a year of service to another pension plan pursuant to a transfer agreement made under section 246.24.

Rights.

A deferred pension confers on the judge's spouse, children or heirs, from the time it becomes payable, the same rights as those provided in the case of a judge who is in receipt of a pension.

Cancellation.

The deferred pension of a judge is cancelled if the judge is reappointed to an office to which pensionable service is attached under this pension plan, and the years or parts of a year of service accumulated are added to those already credited.

“CHAPTER IV**“COMPUTATION AND PAYMENT OF THE PENSION**

Year of service.

“224.7. For the purposes of this pension plan, a year or part of a year of service is any year or part of a year

(1) during which a judge of the Court of Québec or of the municipal court of a municipality that is a party to this pension plan held judicial office or during which a judge was granted leave without pay or leave with deferred pay under section 122.0.1, to the extent that the judge has paid the contributions required under section 224.2, and subject to the applicable fiscal rules;

(2) during which the judge held any function to which pensionable service is attached under this plan;

(3) of past service credited pursuant to a transfer agreement made under section 246.24;

(4) in respect of which the judge receives benefits, as a salary replacement under an employee benefits plan established under the first paragraph of section 122 or, where applicable, under an equivalent plan in effect in a municipality that is a party to this pension plan, including any year or part of a year during which the judge was relieved from judicial duties under section 93.1.

- Conditions. The Government shall fix, by order, the conditions that must be fulfilled so that a year or part of a year during which a judge was granted leave without pay or leave with deferred pay may be counted for the purposes of the pension plan.
- Refund. If a judge has received, in respect of certain years, a refund of contributions paid including the contributions from which the judge was exempt, and has not repaid those contributions as permitted by sections 224.26, 244.9 and 244.10, such years shall be taken into account for pension eligibility purposes only.
- Restriction. A year or part of a year of service shall not be counted under this plan if it is counted under another pension plan.
- Limit. A judge shall not accumulate service and shall not acquire entitlement to any additional amount of pension under this plan after 30 December of the year in which the judge reaches 69 years of age.
- Amount of pension. “224.8. The annual amount of a judge’s pension is equal to the amount obtained by multiplying the judge’s average salary by 1.5% per year of credited service. That amount, however, shall not exceed the amount obtained by multiplying the defined benefit limit applicable under the Income Tax Act (Revised Statutes of Canada, 1985, chapter 1, 5th Supplement) for the year in which the judge retires, by the number of years of credited service.
- Limit. Notwithstanding the first paragraph, the annual amount of a judge’s pension, including the amounts to which the judge is entitled as supplementary benefits under the plan established pursuant to the second paragraph of section 122, shall not exceed 65% of the judge’s average salary.
- Average salary. “224.9. The average salary of a judge is the average salary for the three best remunerated years of service or, if the judge has less than three years of service, the average salary for all of the judge’s years of service.
- Average salary. To determine a judge’s average salary, the annual salaries taken into consideration are those of all the years of service of the judge as fixed by an order under section 115. However, the additional remuneration attached to the office of chief judge, senior associate chief judge or associate chief judge shall be included in those salaries only if the judge has held such an office for at least seven years. The additional remuneration paid to a coordinating judge or associate coordinating judge and any other remuneration paid to a judge to whom sections 131 to 134 apply shall be excluded from such salaries.

- Salary adjustment. Any lump sum paid as a salary adjustment for a preceding year shall form part of the salary for the year in which it is paid. However, if the lump sum is paid in a year for which no service is credited, it forms part of the salary for the last year for which service is credited prior to the year of payment.
- Leave with deferred pay. For the purposes of this section, the salary pertaining to a year of service covered by an agreement granting leave with deferred pay under section 122.0.1 is the salary that the judge would have received if the judge had not been a party to such an agreement.
- Reduction. “224.10. A judge’s pension that begins to be paid before the judge reaches 65 years of age and before the judge’s age and years of service total 80 shall be reduced, for its duration, by the amount obtained by multiplying the amount of the pension established pursuant to the first paragraph of section 224.8 by 0.25% per month, computed for each month comprised between the date on which payment of the pension begins and the date on which the judge will reach 65 years of age or the date on which the judge’s age and years of service will total 80, whichever occurs first.
- Life pension. “224.11. A pension paid to a judge under this pension plan is a life pension and payment must begin on or before 31 December of the year in which the judge reaches 69 years of age.
- Payment. The latter rule does not, however, apply to a judge who continues to hold office after that date; in such a case, payment of the pension begins when the judge applies therefor to the Commission administrative des régimes de retraite et d’assurances and any salary paid to the judge shall be reduced in accordance with section 118 from the time payment of the pension begins.
- Amount of pension. The annual amount of a judge’s pension that begins to be paid after 31 December of the year in which the judge reaches 69 years of age is the same as the amount to which the judge would have been entitled if payment of the pension had begun on that date. Furthermore, in such a case, the judge is not entitled to any retroactive pension payment.

“CHAPTER V

“DEATH BENEFITS

- Payment. “224.12. The pension of a judge who dies after retirement shall continue to be paid to the judge’s spouse or, if the judge leaves no spouse, to the judge’s heirs, until the first day of the month following the death of the judge.
- Spouse’s pension. “224.13. From the day the payment of the pension of a judge ceases by reason of death or from the day a judge dies while in office and before being entitled to a pension, a life pension equal to 50% of the pension the judge was receiving or would have received if the judge had been entitled to the payment of a pension at the time of death shall be granted to the judge’s spouse.

- Contributions paid to heirs. If a judge dies while in office, before being entitled to a pension, and leaves no spouse or child who satisfies any of the requirements set out in section 224.18, the judge's heirs are entitled to a refund of the contributions paid, with accrued interest.
- Contributions paid to spouse or heirs. If a judge who, upon ceasing to hold office, was entitled only to a deferred pension dies before reaching 65 years of age, the judge's contributions shall be refunded, with interest, to the judge's spouse or, if the judge leaves no spouse, to the judge's heirs. The same applies to a judge who dies having accumulated less than two years of service.
- Spouse. “224.14. For the purposes of this pension plan, the spouse of a judge is the person who, at the time of the judge's death,
- (1) is married to the judge ;
 - (2) has been living in a de facto union with the judge, who was unmarried, whether the person is of the same or opposite sex, for not less than three years, or for not less than one year if
 - (a) a child has been born or is to be born of their union ;
 - (b) they have jointly adopted a child during their de facto union ; or if
 - (c) one of them has adopted the child of the other during that de facto union.
- Reduction. “224.15. If a judge dies before reaching 65 years of age and before the judge's age and years of service total 80 or more, the pension the judge would have received is, for the purpose of computing the spouse's pension, reduced in accordance with section 224.10.
- Reduction. “224.16. Judges may, before ceasing to hold office, elect to reduce their pension to allow their spouse to benefit from a pension that is more advantageous than the pension provided for in section 224.13. This reduction may, at the judge's option, be equal to 3.5%, in which case the spouse will be entitled to a pension equal to 60% of the reduced pension, or 5.7%, in which case the spouse will be entitled to a pension equal to 66 ²/₃% of the reduced pension.
- Irrevocability. The election is irrevocable from the time the judge ceases to hold office, even in the absence of a spouse entitled to a pension.
- Presumption. However, the election is deemed never to have been made if the judge dies while in office, before being entitled to a pension, and leaves no spouse entitled to a pension.
- Judge's children. “224.17. Each child of a judge who dies while in office or after retirement is entitled to receive, as pension,

(1) if a pension is paid to the judge's spouse, 10% of the pension used as the basis for computing the spouse's pension;

(2) if there is no spouse entitled to a pension, 20% of the pension which would have been used as the basis for computing the spouse's pension;

(3) if the judge's spouse dies while receiving a pension, 20% of the pension used as the basis for computing the spouse's pension and indexed from the judge's death.

More than four children.

However, if there are more than four children, the total amount of the pensions payable to them shall in no case exceed the amount representing 10% or 20%, as the case may be, of the basis amount, multiplied by four, which shall be divided equally among the children.

Requirements.

"224.18. To be entitled to a pension under section 224.17, a child must be a dependant of the judge at the time of the latter's death and must satisfy one of the following requirements:

(1) be under 18 years of age;

(2) be 18 years of age but under 25 and a full-time student in an educational institution designated in Schedule I to the Act respecting the Teachers Pension Plan (chapter R-11) or designated by regulation under section 47 of the said Act;

(3) be an invalid as a result of illness or an accident, require medical treatment and be totally unable to perform work of any kind.

Pension to children.

However, the child of a judge who, at the time of the latter's death, is not a dependant of the judge or does not satisfy any of the requirements set out in subparagraphs 1, 2 and 3 of the first paragraph or who ceases to satisfy any such requirement and who, before reaching 25 years of age, satisfies or again satisfies either of the requirements set out in subparagraphs 2 and 3 of the first paragraph and would have been a dependant of the judge had the latter not died is entitled to receive a pension under section 224.17.

Minor child.

"224.19. The pension of a minor child is granted until the child reaches majority.

Child of full age.

The pension of a child of full age who is a full-time student in an educational institution is granted until the child reaches 25 years of age for the period during which the child attends an educational institution on a full-time basis; the pension of a child of full age who is an invalid is granted for the period of invalidity.

Pension granted to a child.

"224.20. The pension granted to a child is paid from the day on which payment of the spouse's pension begins or, if there is no spouse entitled to a pension, from the day on which a spouse's pension would have become

payable. If the spouse dies, the new pension granted to the child is paid from the first day of the month following the month of the death of the spouse.

Pension granted to a child.

The pension granted to a child under the second paragraph of section 224.18 is paid from the first day of the month following the date on which the child satisfies or again satisfies either of the requirements set out in subparagraphs 2 and 3 of the first paragraph of the said section.

Pension granted to a child.

The pension granted to a child under 18 years of age is paid to the person having the care of the child.

Pension granted to spouse and children.

“224.21. The pension granted to the spouse and children runs until the first day of the month following the date on which the recipient ceases to be entitled to it.

Balance paid to heirs.

“224.22. If the total of the amounts paid as pension to a judge or to a judge’s spouse and children, including the amounts paid as supplementary benefits under the plan established pursuant to the second paragraph of section 122, is less than the total of the contributions paid, with accrued interest, the difference shall be refunded to the judge’s heirs when payment of a pension to the last person entitled to it ceases.

Interest.

For the purposes of this section, contributions shall bear interest until the date of the first payment of benefits.

“CHAPTER VI

TRANSITIONAL AND FINAL PROVISIONS

Election to participate.

22. A judge who elects to participate in the pension plan provided for in Part V.1 of the Courts of Justice Act must so advise the Commission administrative des régimes de retraite et d’assurances in writing before 1 January 2002. Once the notice is received by the Commission, the election is irrevocable. Judges appointed after 31 December 1999 are deemed to have elected to participate in that pension plan.

Judge’s spouse.

The spouse of a judge who was in office on 31 December 2000 and who died between that date and the date of the coming into force of this Act, or who dies after 31 December 2000 without having made the election but before the final date set for doing so, may make the election in the place and stead of the judge, according to the conditions that would have applied to the judge.

Contributions.

23. A judge to whom the first paragraph of section 22 applies must pay to the Commission administrative des régimes de retraite et d’assurances the contributions required under section 224.2 of the Courts of Justice Act for the year 2001. In addition, the judge must pay, as contributions for past service subsequent to 1989, an amount equal to the contributions the judge would have paid for the year 2000, pursuant to section 224.2, if the pension plan had

been in force on 1 January 2000. However, that amount may not exceed the amount qualifying as contributions for past service under the applicable fiscal rules.

Payment.

Payment of the amounts referred to in the first paragraph shall be made in full within 60 days from the date of mailing by the Commission of a notice to that effect or in equal instalments, with interest from the sixty-first day from the date of mailing of the notice, over a period not exceeding three years determined by agreement between the judge and the Commission. The amount pertaining to the contributions for the year 2001 that may be paid in instalments is limited to the amount indicated in the notice.

Payment in full.

However, those amounts must be paid in full before the day on which payment of the judge's pension begins or, if the payment of the pension began between 1 January 2001 and the date of coming into force of this Act, within 60 days from the date of mailing by the Commission of a notice to that effect.

Payment of balance.

If the judge dies before having paid in full the amounts required, the judge's spouse must, to be entitled to the pension granted under the plan provided for in Part V.1, pay the balance of those amounts, within 60 days from the date of mailing by the Commission of a notice to that effect.

Presumption.

Failing payment of the amounts required within the time limit provided for in the third or the fourth paragraph, the judge is deemed, notwithstanding section 22, never to have elected to participate in the plan provided for in Part V.1 and the amounts paid by the judge shall be refunded to the judge or the judge's spouse, as the case may be, with interest.

Adjustment of pension.

24. The Commission administrative des régimes de retraite et d'assurances shall adjust the amount of any pension already being paid at the time the election is made, including any amount paid as supplementary benefits under the plan established pursuant to the second paragraph of section 122 of the Courts of Justice Act. The Commission shall pay, in a lump sum, the difference, if any, between the amount of the adjusted pension and the amount of pension effectively received, for each of the months elapsed since payment of the pension began, with interest computed from the date of each monthly payment of the pension.

Replacement of pension.

25. A judge who has ceased to hold office between 31 December 1999 and 1 January 2001 is entitled to replace the pension to which the judge is entitled under the pension plan provided for in Part VI of the Courts of Justice Act by the pension to which the judge would have been entitled under the pension plan provided for in Part V.1 of that Act if the plan had come into force on 1 January 2000 and the judge had elected to participate in it. Such a replacement also concerns the amounts to which the judge is entitled as supplementary benefits under the plan established pursuant to the second paragraph of section 122 of that Act.

- Contributions.** The judge referred to in the first paragraph must advise the Commission administrative des régimes de retraite et d'assurances of such a replacement in writing before 1 January 2002 and pay, as contributions for past service subsequent to 1989, an amount equal to the contributions the judge would have paid pursuant to section 224.2 of the Courts of Justice Act, if the pension plan had come into force on 1 January 2000, for the days elapsed between that date and the day on which the judge ceased to hold office. However, that amount may not exceed the amount qualifying as contributions for past service under the applicable fiscal rules and must be paid in full within 60 days from the date of mailing by the Commission of a notice to that effect, failing which the judge is deemed never to have requested the replacement of his or her pension and the amounts paid shall be refunded to the judge, with interest.
- Payment of balance.** If the judge dies before having paid that amount in full, the judge's spouse must, to be entitled to the pension resulting from the replacement, pay in full the balance of the amounts required, within 60 days from the date of mailing by the Commission of a notice to that effect, failing which the judge is deemed never to have requested the replacement of the judge's pension and the amounts paid by the judge shall be refunded to the judge's spouse, with interest.
- Replacement.** The spouse of a judge who was in office on 31 December 1999 but who died between that date and 1 January 2001 may request the replacement of the pension, in the place and stead of the judge, according to the conditions that would have applied to the judge.
- Adjustment of pension.** On receipt of the notice and the amount required by this section, the Commission shall adjust the amount of the pension, including any amount paid as supplementary benefits under the plan established pursuant to the second paragraph of section 122 of the Courts of Justice Act. The Commission shall pay, in a lump sum, the difference, if any, between the amount of the adjusted pension and the amount of pension effectively received, for each of the months elapsed since payment of the pension began, with interest computed from the date of each monthly payment of the pension.
- Presumption.** 26. If a judge dies without leaving a spouse entitled to a pension and before paying in full the amounts required under sections 23 and 25, or if, as the case may be, the judge's spouse dies before paying those amounts, the judge is deemed never to have elected to participate in the plan provided for in Part V.1 of the Courts of Justice Act or never to have requested the replacement of his or her pension and the amounts paid shall be refunded to the judge's heirs, with interest.
- Interest.** 27. For the purposes of sections 23 to 26, the amounts paid or refunded shall bear interest, compounded annually, at a rate of 6%.
- Presumption.** 28. Any amount paid by a judge or the judge's spouse as contributions for past service pursuant to sections 23 and 25 shall, for the purposes of the

pension plan provided for in Part V.1 of the Courts of Justice Act, be deemed to be contributions paid pursuant to section 224.2 of that Act.

Consolidated revenue fund.	29. The amounts collected under sections 23 to 27 shall be paid into the consolidated revenue fund and the amounts refunded by the Commission administrative des régimes de retraite et d'assurances shall be taken out of the fund.
Election made by judge.	30. The election made by a judge pursuant to section 238 of the Courts of Justice Act becomes inoperative if the judge elects to participate in the pension plan provided for in Part V.1 of the Courts of Justice Act. A new election must be made in accordance with section 224.16 of that Act.
Provision not applicable.	The first paragraph does not apply to a judge who requests the replacement of his or her pension under section 25.
Agreement.	31. Ville de Montréal and, with the authorization of the Government, the Commission administrative des régimes de retraite et d'assurances may, until 31 December 2001, enter into an agreement to enable the city to become a party to the pension plan provided for in Part V.1 of the Courts of Justice Act with respect to the judges of the municipal court who are in office on 1 January 2001 and elect to participate in the plan, and with respect to judges appointed after 31 December 2000.
Effect.	An agreement entered into under the first paragraph has effect from 1 January 2001.
Pension plan.	Such an agreement may also enable the municipality to become a party to the pension plan provided for in Part VI of the said Act with regard to the judges of the municipal court who will not elect to participate in the pension plan provided for in Part V.1 and with regard to persons who, on 1 January 2001, are receiving a pension under an equivalent pension plan that is in force in their municipality.
No agreement entered.	If no agreement is entered into pursuant to this section, Ville de Montréal must establish a pension plan equivalent to the pension plan provided for in Part V.1 of the Courts of Justice Act and a supplementary benefits plan equivalent to the supplementary benefits plan established by the Government under the second paragraph of section 122 of that Act. The plan shall apply from 1 January 2001 and judges have until 31 December 2001 to elect to participate in it.
Sums to be transferred.	32. The sums of money to be transferred by Ville de Montréal pursuant to an agreement entered into under section 31 shall be established on the basis of the value of benefits determined according to assumptions and methods determined by order of the Government.
Consolidated revenue fund.	The sums shall be paid into the consolidated revenue fund.

- Rates of contribution. 33. The Government shall fix, by order, the rate of contribution of the cities of Laval and Québec to the pension plan provided for in Part VI of the Courts of Justice Act, for the years 1997 and following, and their rate of contribution to the pension plan provided for in Part V.1 of that Act. The Government shall also fix the rate of contribution of Ville de Montréal if an agreement is entered into pursuant to section 31.
- Contributions. The rates referred to in the first paragraph include the contributions required under the supplementary benefits plan established pursuant to the second paragraph of section 122 of the said Act.
- Provisions applicable. 34. Sections 22 to 28 and 30 also apply to the judges of the Municipal Court of Montréal, with the necessary modifications. If no agreement is reached pursuant to section 31, the notices required shall be given to the clerk of the city within the prescribed time and the amounts collected or refunded pursuant to those provisions shall be collected or refunded by the city.
- Rate of interest. 35. Until the Government makes a regulation under section 224.29 of the Courts of Justice Act, the rate of interest applicable to the contributions paid into the pension plan provided for in Part V.1 of that Act is 6% compounded annually, and that rate shall be in force from 1 January 2001.
- c. R-12, Sched. II, am. 36. Schedule II to the Act respecting the Civil Service Superannuation Plan (R.S.Q., chapter R-12), amended by section 328 of chapter 12 of the statutes of 2000 and by section 66 of chapter 53 of the statutes of 2000, is again amended by replacing “PART VI OR VI.1” in paragraph 2.1 by “PART V.1, VI OR VI.1”.
- c. R-12, Sched. III, am. 37. Schedule III to the said Act, amended by section 66 of chapter 53 of the statutes of 2000, is again amended by replacing “Part VI or VI.1” in paragraph 1 by “Part V.1, VI or VI.1”.
- 1999, c. 62, s. 8, am. 38. Section 8 of the Act to amend the Courts of Justice Act and the Act respecting municipal courts (1999, chapter 62) is amended by inserting “, 224.9” after “122” in the fourth line.
- Revocation of resolution. 39. The resolution passed by the National Assembly on 22 March 2000 relating to the report of the Committee on the remuneration of the judges of the Court of Québec and municipal judges of Laval, Montréal and Québec, as tabled in the National Assembly on 28 October 1999 (Sessional Paper No. 639-19991028), is revoked.
- Implementation of recommendations. The Government shall take, in accordance with the second paragraph of section 246.44 of the Courts of Justice Act, the necessary steps to implement in their entirety the recommendations of the Committee.

 - (4) the person has had an interruption of earnings as defined by regulation of the Conseil de gestion.

CHAPTER II

BENEFITS

DIVISION I

CONTENT OF BENEFITS AND CONDITIONS OF ENTITLEMENT

§1. — *Maternity benefits*

Maximum number of weeks.	7. The maximum number of weeks of maternity benefits is 18 or, in the case of an election pursuant to section 18, 15.
Payment.	The payment of maternity benefits shall begin not earlier than the sixteenth week preceding the expected date of delivery and end not later than 18 weeks after the week of delivery. However, the payment may end after the expiry of the 18 weeks, but before the end of the benefit period, if the child is hospitalized and if, following a request, the weeks of benefits are suspended during the child's hospitalization.
Termination of pregnancy.	8. A termination of pregnancy occurring after the nineteenth week of pregnancy gives entitlement to the same benefits as in the case of maternity. The payment of the benefits shall end not later than 18 weeks after the week during which the termination of pregnancy occurs.

§2. — *Paternity benefits*

Maximum number of weeks.	9. The maximum number of weeks of paternity benefits is 5 or, in the case of an election pursuant to section 18, 3. Payment may not begin before the week of the birth of the child or exceed the benefit period.
--------------------------	---

§3. — *Parental benefits*

Total number of weeks.	10. The total number of weeks of parental benefits to which the parents of a child may be entitled shall not exceed 32 or, in the case of an election pursuant to section 18, shall not exceed 25. Payment may begin the week of the birth of the child at the earliest, but may not exceed the benefit period.
------------------------	---

§4. — *Adoption benefits*

Total number of weeks.

11. The total number of weeks of adoption benefits to which the adoptive parents of a child may be entitled shall not exceed 37 or, in the case of an election pursuant to section 18, shall not exceed 28. Payment may begin, at the earliest, the week of the arrival of the child into the care of one of the parents within the framework of an adoption procedure or, in the case of an adoption outside Québec, two weeks before the week of the child's arrival; this total number of weeks may not exceed the benefit period.

Adoption outside Québec.

If the adoption outside Québec does not materialize, the benefits paid during the two weeks preceding the expected child's arrival are not recoverable.

Child of spouse.

12. Persons who adopt the child of their spouse are not entitled to benefits under this plan.

§5. — *Conditions of entitlement*

Claim.

13. No benefits under this plan shall be granted unless a claim for benefits is filed, except where an exemption is provided for in a regulation of the Conseil de gestion.

Information and documents.

The regulation shall, in addition, specify the information and documents that must accompany a claim for benefits. In addition, the Régie des rentes du Québec, referred to as the Board, may require the claimant to provide any other information or document it considers necessary to determine the claimant's entitlement to a benefit.

Parent living with child.

14. The benefits payable under this plan, except maternity benefits, shall be granted only if the parent normally lives with the child whose birth or adoption gives entitlement to the payment of benefits. If the child is hospitalized, the child is deemed to be present with the parent throughout the child's hospitalization.

Death or separation.

If the child dies or ceases to live with the parent, the child is deemed to be present with the parent until the end of the week of death or separation.

Single delivery and single adoption.

15. The delivery of more than one child as a result of a single pregnancy and the adoption of more than one child at the same time shall be considered to be a single delivery and a single adoption for the purposes of this Act.

Previous event.

In the case of a delivery or adoption occurring while at least one of the parents is eligible for parental or adoption benefits for a previous event, the number of weeks of parental or adoption benefits is equal to the lesser of the following:

(1) the total number of weeks of parental or adoption benefits fixed under section 10 or 11;

- (2) the number of weeks that have lapsed between the two events.
- Concurrent payments. Lastly, benefits may not be paid concurrently to one person for more than one event.
- Allocation. 16. The total number of weeks of parental or adoption benefits may be allocated to one parent, divided between the parents or allocated concurrently to the parents.
- Absence of agreement. The Conseil de gestion may determine by regulation the conditions on which weeks of benefits are to be divided if there is no agreement between the parents.
- Death of parent. 17. In the event of the death of one of the parents and if at least one of them is eligible under this plan, the number of weeks of maternity or paternity benefits of the deceased parent that were not used on the date of the parent's death shall be added to the total number of weeks of parental benefits fixed under section 10.
- Parental benefits. The parental benefits payable to the surviving parent from the death are calculated on the basis of the greater of the average weekly earnings of the surviving parent and the average weekly earnings of the deceased parent.
- Adoption benefits. The same applies to the calculation of the adoption benefits payable from the death of one of the adoptive parents, if at least one of them is eligible under this plan.
- Death of father. The provisions of the first and second paragraphs also apply when the death of the father occurs three hundred days or less before the birth of the child.

DIVISION II

CALCULATION FOR THE PURPOSES OF ELIGIBILITY FOR OR PAYMENT OF BENEFITS

- Weekly benefits. 18. The amount of weekly benefits shall be equal to the following percentage of the average weekly earnings, calculated in accordance with this division, of the person entitled thereto :
- (1) 70% for the 18 weeks of maternity benefits, the five weeks of paternity benefits and the first seven weeks of parental benefits, and for the first 12 weeks of adoption benefits ;
- (2) 55% for the remaining weeks of parental or adoption benefits.
- Election. Notwithstanding the first paragraph, a person may, on the conditions prescribed in a regulation of the Conseil de gestion, elect for weekly benefits equal to 75% of the person's average weekly earnings. The maximum number

of weeks of benefits shall be, in that case, 15 for maternity benefits, three for paternity benefits, 25 for parental benefits and 28 for adoption benefits.

- Election. An election made by a parent who is the first to receive benefits in respect of a birth or adoption applies to the benefits of the other parent. Except in exceptional circumstances, an election is irrevocable.
- Increase. 19. The benefits may, on the conditions prescribed in a regulation of the Conseil de gestion, be increased, up to the limit fixed in the regulation, where the family income of the recipient is below the threshold determined in the regulation. The regulation shall establish, in particular, the constituents of a recipient's family income and a calculation method as well as the manner in which an increase is calculated.
- Data. The data relating to family benefits may be used for the purposes of this section.
- Qualifying period. 20. The qualifying period of a person is, subject to the exceptions provided for in a regulation of the Conseil de gestion, the period of 52 weeks preceding a benefit period or, where insurable earnings from a business are taken into account, the calendar year preceding the benefit period.
- Extension. The qualifying period may, for the purpose of determining a person's entitlement to benefits, be extended on the conditions prescribed in a regulation of the Conseil de gestion. However, an extended qualifying period may not exceed 104 weeks.
- Average weekly earnings. 21. The average weekly earnings of a person are the average of the person's insurable earnings, apportioned in the manner prescribed in a regulation of the Conseil de gestion, in particular, according to the nature of the earnings.
- Insurable earnings from employment. Where only insurable earnings from employment are considered, the average of the insurable earnings is established from the last 26 weeks of the person's qualifying period that involve such earnings. If the number of weeks of the qualifying period that involve insurable earnings is less than 26, the average is obtained on the basis of that number of weeks, but the divisor may not be less than 16.
- Insurable earnings from business. Where insurable earnings from a business are considered, the average of the insurable earnings is equal, subject to exceptions prescribed by regulation of the Conseil de gestion, to 1/52 of the insurable earnings reported to the Minister of Revenue for the year preceding the beginning of the person's benefit period.
- Average weekly earnings. The average weekly earnings of a person may not exceed the amount obtained by dividing the maximum insurable earnings established under section 5 by 52 and may not be less than 1/52 of \$2,000.

Insurable earnings. 22. For the purposes of sections 20 and 21, insurable earnings shall include

(1) the amount of insurable earnings from employment, which is all wages on which a person must pay a premium under Chapter IV or insurable earnings as defined by the Employment Insurance Act;

(2) the amount of insurable earnings from a business, which corresponds to the amount by which any amount that is a person's earnings for the year from a business calculated according to Part I of the Taxation Act (R.S.Q., chapter I-3), except income under paragraph v of section 87 and section 154.1 of that Act, exceeds any amount that is the person's loss so calculated, for the year, from a business and on which the person must pay a premium.

DIVISION III

PAYMENT OF BENEFITS

Benefit period. 23. The benefit period means the period within which benefits may be paid.

Duration. The benefit period shall begin the week in which the first benefit is payable to the person entitled thereto and end the week in which the last benefit is payable. DIVISION I

GENERAL PROVISIONS

- Prohibition. 4. No person may offer or provide, for remuneration, passenger transportation by automobile, unless authorized therefor by a taxi owner's permit.
- Taxi owner's permit. 5. A taxi owner's permit authorizes its holder to own one taxi, one limousine or one "de grand luxe" limousine and either operate the automobile personally if the holder of the taxi owner's permit is also the holder of a taxi driver's permit, or entrust the operation or custody of the automobile to the holder of a taxi driver's permit under a leasing contract or a contract of employment providing for a salary or a commission.
- Restriction. A person may not hold, directly or indirectly, more taxi owner's permits than the number authorized by regulation.
- Private transportation. A taxi owner's permit only authorizes private passenger transportation except as provided in section 7. "Private transportation" means transportation where one customer and the persons designated by that customer are given exclusivity of the trip.
- Conditions. No permit may be issued or maintained unless the permit is attached to a taxi, a limousine or a "de grand luxe" limousine. The holder of a taxi owner's permit who replaces his or her automobile must register the replacement with the Commission des transports du Québec before using the automobile under his or her permit.
- Area. 6. A taxi owner's permit shall be issued to serve an area delimited by the Commission.
- Taxi owner's permit. A taxi owner's permit also authorizes the holder to offer transportation services by taxi in a territory for which no other permit has been issued as well as in any other territory if, in that case, the pick-up point or the destination of the trip is located within the servicing area indicated in the permit. However,

such permit may, on the conditions fixed by regulation, allow or prohibit the servicing, by a permit holder, of a territory that includes regional infrastructures and equipment.

Shared transportation services.

7. The holder of a taxi owner's permit may offer shared passenger transportation services if the holder is bound by contract to a municipal or supramunicipal authority or to any other person authorized by an order. Such shared services may be provided in the entire territory of the contracting party if the territory served under the taxi owner's permit is located, in whole or in part, in that of the contracting party.

Shared transportation services.

Shared transportation services may also be provided by the holder of a taxi owner's permit at the places and according to the conditions, in particular, as to the routes and services, prescribed by regulation, where the territory served under the holder's permit is located in whole or in part in the territory of the taxi route or service.

Automobiles.

8. The holder of a taxi owner's permit may only use automobiles that meet the regulatory requirements applicable to the category of services the Commission has authorized the holder to offer.

Personal use.

A holder of a taxi owner's permit or a taxi driver's permit who uses the automobile attached to the permit for personal use must, if so required, prove that the automobile is not in service.

Information.

9. Upon payment of the fees established by the Société de l'assurance automobile du Québec or, where applicable, by a municipal or supramunicipal authority, the holder of a taxi owner's permit may have access to information about the acts alleged, in a statement of offence or a conviction, against the drivers employed by the holder or by a person to whom the permit holder is bound by a contract pertaining to the use of a taxi, a limousine or a "de grand luxe" limousine under the holder's control, provided the acts occurred in the exercise of their occupation. The information released must however only include the identity of the driver, the nature of the act alleged as well as the moment when it occurred.

DIVISION II

ISSUE OF PERMITS

Notice.

10. The Commission shall issue the taxi owner's permits to be used in a servicing area after sending a notice to the Association professionnelle des chauffeurs de taxi du Québec and after taking into consideration, where applicable, the maximum number of taxi owner's permits it is authorized to issue and the conditions it must impose pursuant to an order made under the third paragraph. The Commission must, however, consider any application made by a person who shows that the issue of a permit is necessary to meet a specific need, in particular with respect to transportation services required by handicapped persons.

Conditions and restrictions.	The Commission may fix special conditions and restrictions applicable to the maintenance of the taxi owner's permit it issues.
Maximum number of permits.	The Government may, by order, for each servicing area it specifies, fix the maximum number of taxi owner's permits that may be issued by the Commission according to the services specified by the Government and, where applicable, the conditions determined by the Government. The number, according to the Government's assessment, must take into consideration, for each servicing area concerned, the balance to be kept between the demand for services by taxi and the profitability of the enterprises of the holders of a taxi owner's permit. The conditions determined by the Government may limit the periods of service, the clientele transported or any other terms and conditions of operation. An order may be made only after consultation, in particular, of the holders of a taxi owner's permit concerned. The Minister of Transport shall decide, in each case, the consultation procedures and make them known to the public.
Maximum period.	11. A taxi owner's permit shall be issued for a maximum period of five years and cannot be renewed on the expiry of the period for which it was issued.
Conditions.	To obtain the issue of a taxi owner's permit, a person must not be in any of the situations described in the first and third paragraphs of section 18, and must pay duties and satisfy the other conditions prescribed by regulation.
Exception.	The first paragraph does not apply to permits in force on 15 November 2000.
Specialized transportation services by taxi.	12. The Commission may authorize the holder of a taxi owner's permit to provide specialized transportation services by taxi throughout Québec if the territory served under the taxi owner's permit, before the specialization, is included in the territory of a supramunicipal authority designated with respect to such services.
Exception.	However, the holder may not provide specialized transportation services in the territory of another supramunicipal authority designated with respect to such services, unless the pick-up point or the destination of the trip is located in the territory of the supramunicipal authority that includes the territory served under the taxi owner's permit before the specialization.
Specialization.	The specialization of transportation services by taxi requires the permit holder, until the Commission allows the holder to abandon such specialization, to provide only the specialized services for which the holder obtained authorization and to use only the vehicles that meet the requirements established by regulation for such services.
Identification.	The Government shall, by order, identify the supramunicipal authorities referred to in the first paragraph as well as the categories of transportation services that may be recognized for the specialization of the services provided by the holder of a taxi owner's permit.

- Identification. 13. The Government may, by order, identify the municipal or supramunicipal authorities it authorizes to exercise the powers of regulation and control it specifies over transportation by taxi. For the purposes of this section, a band council and an Indian reserve may be recognized by the Government as an authority having the same powers as a municipal or supramunicipal authority for the purposes of this Act.
- Powers. The body known as the “Bureau du taxi de la Communauté urbaine de Montréal” on 15 November 2000 has authority to exercise the powers that may be delegated to a municipal or supramunicipal authority under this Act.
- Intervention. Any authority referred to in this section has sufficient interest to intervene at any time when the Commission receives an application for the issue of a taxi permit or for the specialization of services which concern its territory.
- Conditions. 14. The holder of a taxi owner’s permit providing specialized services must, when offering or providing specialized transportation services, comply with the conditions prescribed by regulation.
- Taxi owner’s permit. 15. The holder of a taxi owner’s permit may offer, in his or her servicing area, transportation services by taxi comparable to specialized transportation services by taxi. The permit holder must, however, comply with any request made by a customer for nonspecialized private transportation services by taxi.
- Contract. The first paragraph does not apply in the territory served under the taxi owner’s permit providing specialized services unless the holder of a taxi owner’s permit providing unspecialized services enters into a contract with a permit holder providing specialized services, for the purpose of providing transportation services to the latter’s customers.

DIVISION III

RENEWAL

- Expiry. 16. Any taxi owner’s permit expires on 31 March every year.
- Renewal. The permit may be renewed on payment of the annual duties to the Commission or to the mandatory designated by the Commission unless the holder of the taxi owner’s permit is in a situation in which his or her permit may be revoked or, being expired, may not be renewed. The duties are fixed by regulation.
- Failure to pay duties. 17. The Commission may, on payment of the costs it fixes by regulation, relieve a holder of a taxi owner’s permit of the failure to pay the prescribed annual duties before 31 March if the holder proves, no later than the 60th day after the expiry of the time limit, that the failure is the result of a situation beyond the holder’s control.

DIVISION IV**REVOCACTION, ASSIGNMENT, TRANSFER AND ACQUISITION OF INTEREST**

- Revocation. **18.** The Commission shall revoke the taxi owner's permit of a holder who has been found guilty in the last five years of a criminal offence or an indictable offence related to the use of a permit for transportation by taxi.
- Revocation. The Commission shall also revoke the taxi owner's permit of a holder if he or she
- (1) has not paid the prescribed annual duties payable for the renewal or maintenance of the taxi owner's permit;
 - (2) contravened the first paragraph of section 21 or engaged in a practice contrary to the public interest referred to in section 22; or
 - (3) used or allowed the use of the automobile attached to his or her permit while the taxi owner's permit was suspended.
- Suspension or revocation. The Commission may suspend or revoke the taxi owner's permit of a holder who has been found guilty in the last five years of
- (1) a criminal offence or an indictable offence related to sexual offences, public morals and disorderly conduct, offences against the person and reputation, prostitution, common bawdy-houses, robbery, extortion, false pretences, forgery, fraud, intimidation, mischief, including attempt and complicity, and provided for, as the case may be, in either Part V or Part VII of the Criminal Code (Revised Statutes of Canada, 1985, chapter C-46), with the exception of paragraphs *a* and *c* of subsection 1 of section 175, of sections 176 to 178, of sections 210, 212, 213, 216, 217, 247 to 263, of paragraphs *b* and *c* of subsection 1 of section 264.1 and of sections 287 to 320, 343, 346, 362, 366, 368, 380, 397, 398, 423, 430, 433 to 436.1 and 463 to 465; or
 - (2) a criminal offence or an indictable offence related to the traffic of narcotics, their importation or exportation or in poppy or cannabis production, and provided for, as the case may be, in sections 5, 6 and 7 of the Controlled Drugs and Substances Act (Revised Statutes of Canada, 1985, chapter C-38.8).
- Revocation. No person whose taxi owner's permit is revoked under the first or third paragraph may obtain a taxi owner's permit before the lapse of five years after he or she was found guilty. The third paragraph does not apply to an offence or an act committed before (*insert here the date of coming into force of this section*).
- Prohibition. **19.** No taxi owner's permit issued on or after 15 November 2000 may be assigned or transferred or be the subject of any acquisition of interest.

- Restriction. The automobile attached to the permit may only be driven by the holder of the taxi owner's permit unless the holder proves to the Commission that safety, availability or quality of service can only be guaranteed if the automobile may be driven by another driver. Where that is the case, the taxi owner's permit must bear a mention stating that the automobile attached to the permit may be driven by the holder of a taxi driver's permit bound by a contract of employment with the holder of the taxi owner's permit, for the time indicated by the Commission.
- Assignment or transfer. 20. A taxi owner's permit issued before 15 November 2000 may, with the authorization of the Commission granted in accordance with the second paragraph, be assigned or transferred to a new acquirer, to a hypothecary creditor or to an heir provided that the person satisfies the conditions prescribed by regulation, in particular the payment of the duties.
- Assignment or transfer. Before granting its authorization, the Commission must ensure that the assignment or transfer is not contrary to the public interest and that the taxi owner's permit is not the subject of suspension or revocation proceedings. Where the application for authorization concerns a permit charged with a hypothec and the Commission has received a copy of the contract, the Commission must satisfy itself that the creditor consents to the assignment or transfer.
- Application. The Commission must grant the application of a hypothecary creditor requesting the transfer, after the conditions for the exercise of hypothecary rights are fulfilled, of the taxi owner's permit held by a debtor who has defaulted on his or her contractual obligations.
- Hypothecary creditor. As well, the Commission must allow the intervention of a hypothecary creditor seeking the automatic transfer of the taxi owner's permit of a debtor, as realization of the creditor's security, should the Commission revoke the permit pursuant to this Act. Where that is the case, the decision of the Commission to revoke the debtor's taxi owner's permit only has effect with respect to the debtor. A hypothecary creditor who acquires a permit under this section must make an undertaking to the Commission to pay to the Association professionnelle des chauffeurs de taxi du Québec, within the time the Commission indicates, the difference between the price of disposition of the permit and the amount of the creditor's claim, including costs and interest.
- Presumption. A permit referred to in the third and fourth paragraphs is deemed to have been issued for the first time before 15 November 2000.
- Notice. 21. Every person or partnership intending to acquire, directly or indirectly, an interest in the enterprise of a holder of a taxi owner's permit is required to give notice of the intended acquisition to the Commission.
- Inquiry. Even if no notice is given, the Commission may, of its own motion or at the request of the Minister or any interested person, make an inquiry to determine whether the acquisition of interest contravenes this Act or is contrary to the public interest.

Public interest. 22. Any practice whereby a taxi driver transfers to a holder of a taxi owner's permit the ownership of an automobile which is intended to be attached to the permit of that taxi owner, and where he or she enters with that same person into a contract by which the driver becomes the operator of the automobile under a leasing contract, or obtains custody of it through a contract of employment is contrary to the public interest.

Public interest. The assignment or transfer of a taxi owner's permit is not contrary to the public interest, if the automobile attached to the permit is excluded from the transaction and if the assignee, transferee or hypothecary creditor declares the substituted automobile to the Commission.

Inquiry. Even if no notice is given, the Commission may, of its own motion or at the request of the Minister or any interested person, make an inquiry to determine whether a connection described in the first paragraph exists between a holder of a taxi owner's permit and a taxi driver.

Prohibition. 23. No person may, without special authorization of the Commission, and even temporarily, exercise the rights conferred by a taxi owner's permit before the Commission has rendered a decision regarding the assignment or transfer.

CHAPTER III

TAXI DRIVER'S PERMIT

Taxi driver's permit. 24. A taxi driver's permit authorizes the holder to carry on the occupation of taxi, limousine or "de grand luxe" limousine driver when driving an automobile attached to the taxi owner's permit.

Custody of automobile. A driver may have the custody of such an automobile pursuant to a contract of employment binding the driver to a holder of a taxi owner's permit. The driver may also operate the automobile personally if he or she is the holder of the taxi owner's permit to which that automobile is attached or if he or she is bound to a person holding such a permit under a leasing contract for the automobile.

Restriction. A taxi driver's permit may only be issued to the holder of a permit of the appropriate class pursuant to the Highway Safety Code.

Issue of permit. 25. The taxi driver's permit shall be issued by the Société or, in the case of a delegation made pursuant to the second paragraph, by the municipal or supramunicipal authority concerned. The authority shall notify the Société without delay of any taxi driver's permit issued by it.

Identification. The Government may, by order, identify the municipal or supramunicipal authorities that are authorized to exercise powers that it indicates in matters concerning taxi driver's permits.

Conditions.

26. No person may obtain, maintain or renew a taxi driver's permit

(1) unless the person passes an examination on the knowledge required, the formalities, procedures, and content of which shall be established by the Société or, where applicable, by a municipal or supramunicipal authority, and that will serve to allow the person to obtain any subsequent renewal of his or her taxi driver's permit;

(2) if the person has been convicted, in the last five years, of a criminal offence or an indictable offence related to the operation of a service of transportation by taxi;

(3) if the person has been convicted, in the last five years, of a criminal offence or an indictable offence related to sexual offences, public morals and disorderly conduct, offences against the person and reputation, prostitution, common bawdy-houses, robbery, extortion, false pretences, forgery, fraud, intimidation, mischief, including attempt and complicity, and provided for, as the case may be, in either Part V or Part VII of the Criminal Code, with the exception of subparagraphs *a* and *c* of section 175(1), of sections 176 to 178, of sections 210, 212, 213, 216, 217, 247 to 263, of subparagraphs *b* and *c* of section 264.1(1) and of sections 287 to 320, 343, 346, 362, 366, 368, 380, 397, 398, 423, 430, 433 to 436.1 and 463 to 465;

(4) if the person has been convicted, in the last five years, of a criminal offence or an indictable offence related to the traffic of narcotics, their importation or exportation as well as poppy and cannabis production, and provided for as the case may be in sections 5, 6 and 7 of the Controlled Drugs and Substances Act; and

(5) unless the person pays the annual duties and satisfies the other conditions prescribed by regulation.

Offender.

No person who has been found guilty of an offence or an act referred to in subparagraphs 2 to 4 of the first paragraph may obtain, maintain or renew a taxi driver's permit before the lapse of five years after he or she was found guilty.

Applicability.

The first paragraph does not apply to an offence or act committed before (*insert here the date of coming into force of this section*), except in the case of an offence or act referred to in subparagraph 2 of that paragraph.

Regulation.

27. The holder of a taxi driver's permit must, in addition, comply with any regulation that

(1) requires, for the territories it indicates, that a person, in order to obtain or maintain a taxi driver's permit, attend a course to gain the topographical and geographical knowledge required to carry on the occupation of taxi driver in a specific territory; and

(2) requires, for the areas and territories it indicates, that a person, in order to obtain and maintain a taxi driver's permit, attend a course in whatever basic knowledge, skills, abilities and conduct are required to carry on the occupation of taxi driver in a specific territory.

Photograph.

28. The taxi driver's permit must contain a photograph of the holder taken by the Société or, where applicable, the municipal or supramunicipal authority, bear a number and include any other information determined by regulation.

Criminal or indictable offence.

29. Where a person is convicted of a criminal offence or an indictable offence referred to in section 26, the person's taxi driver's permit shall be revoked by operation of law and the judge pronouncing the conviction shall inform the person of the conviction and order that the permit be confiscated and returned to the Société or, where applicable, to the municipal or supramunicipal authority which issued it.

Notice.

The notice may be given at the time of the decision or after the decision has been rendered. In any case, the date of confiscation is deemed to be the date of the conviction.

Suspension or revocation.

30. The Société shall suspend or revoke the taxi driver's permit it has delivered to a person upon the driver's licence of that person being suspended or revoked, unless a restricted permit has been issued in accordance with section 118 of the Highway Safety Code.

Notification.

Where the taxi driver's permit has been issued by a municipal or supramunicipal authority, the Société shall notify the authority of the suspension or revocation of the driver's licence of the holder of that taxi driver's permit, unless a restricted permit has been issued. Upon receiving the notice, the authority is required to suspend or revoke the taxi driver's permit of the person.

Suspension or revocation.

31. Every person whose taxi driver's permit is suspended or revoked shall return the permit to the Société or, where applicable, to the municipal or supramunicipal authority which issued it. Where a person refuses or fails to comply, the Société or, where applicable, the authority may ask a peace officer to confiscate the taxi driver's permit of that person, who shall immediately hand over the permit to the peace officer who demands it.

CHAPTER IV

TAXI TRANSPORTATION SERVICE INTERMEDIARY'S PERMIT

Intermediary.

32. The Commission shall issue a taxi transportation service intermediary's permit to any person wishing to act as an intermediary in an area located in a territory determined by order, if the person pays the fees fixed by the Commission by regulation, and satisfies the other conditions prescribed by regulation, in particular the payment of the duties. Before issuing the permit, the Commission shall notify the Association professionnelle des chauffeurs de taxi.

Conditions and restrictions.	An intermediary's permit may be subject to special conditions and restrictions.
Delegation.	The Government may, by order, delegate the exercise of the powers under this section to any municipal or supramunicipal authority it indicates.
Renewal.	33. A taxi transportation service intermediary's permit shall be issued for a period of no more than five years. It may be renewed but may not be transferred or be the subject, directly or indirectly, of any acquisition of interest. This section shall not be construed as prohibiting the sale of the enterprise of a holder of a taxi transportation service intermediary's permit.
Restriction.	34. Only a holder of a taxi transportation service intermediary's permit may provide publicity, call distribution or other similar services to taxi owners and to taxi drivers.
Applicability.	The first paragraph does not apply to a travel agent's licence holder within the meaning of the Travel Agents Act (R.S.Q., chapter A-10) or to a person installing a sign to advertise a taxi stand.

CHAPTER V

ASSOCIATION PROFESSIONNELLE DES CHAUFFEURS DE TAXI

Establishment.	35. The "Association professionnelle des chauffeurs de taxi du Québec" is hereby established.
Legal person.	The Association is a legal person governed by Part III of the Companies Act (R.S.Q., chapter C-38).
Internal by-laws.	The internal by-laws of the Association must provide for the position of vice-president, which may only be filled by the holder of a taxi driver's permit who usually carries on the occupation of taxi driver in the main taxi servicing area located in the territory of Ville de Montréal.
Functions.	36. The principal functions of the Association are to represent, collectively and individually, all the holders of a taxi driver's permit and to promote their interests, in particular, by improving practices in the taxi industry as regards human resources, by promoting services and employee benefits for taxi drivers, by disseminating information and providing training relevant to their activities, and by promoting taxi service utilization.
Responsibility.	The Association is also responsible for developing and enforcing a code of ethics governing the actions and conduct of holders of a taxi driver's permit and for setting up a discipline committee to examine the complaints from users, the Commission, the Société de l'assurance automobile du Québec and the municipal and supramunicipal authorities.

- Restriction. However, notwithstanding the first paragraph, the Association may not intervene, directly or indirectly, in the administration or management of the day-to-day business of a holder of a taxi owner's permit.
- Discipline committee. 37. The discipline committee of the Association has the power to reprimand, or impose a penalty for wrongful actions, omissions or wrongful conduct of a holder of a taxi driver's permit, whether or not the permit holder is a member of the Association. The discipline committee may set time limits and conditions to remedy the situation. It may also suspend the right of a person to carry on the occupation of taxi driver.
- Observations. In every case, the committee must give the person whose action, omission or conduct is to blame the right to present observations within reasonable time. The holder of a taxi driver's permit whose right to carry on his or her occupation has been suspended may not carry on the occupation of taxi driver while the suspension lasts. In each case, the Association must, for the purposes of section 31, notify the Société or, where applicable, the municipal or supramunicipal authority that issued the taxi driver's permit.
- Arbitration. If the holder of a taxi driver's permit is not satisfied with a decision of the discipline committee, the holder may apply in writing for arbitration within ten days of the decision. In such a case, the notice referred to in the second paragraph is cancelled or suspended, according to the decision of the arbitrators, until the date on which the arbitration award is homologated. Articles 940.1 to 940.5 and 941 to 947 of the Code of Civil Procedure (R.S.Q., chapter C-25) apply to arbitration under this section.
- Legal interest. 38. The Association has a legal interest and may intervene at any time before the Commission, a court or a municipal or supramunicipal authority to defend the interests of the holders of a taxi driver's permit or to denounce a wrongful act committed by the holder of a taxi driver's permit.
- Representations. The Association may also make representations to the Commission on any matter concerning passenger transportation for remuneration. However, where it receives a notice under the first paragraph of section 10 or the first paragraph of section 32, it shall, within three days after the date of the notice, indicate to the Commission its intention to intervene. Failing that, it is deemed not to object.
- Membership. 39. Every holder of a taxi driver's permit is entitled to be a member of the Association and to take part in its activities.
- Interpretation. The first paragraph may not be construed as prohibiting a person who is the holder of both a taxi driver's permit and a taxi owner's permit from being a member of the Association and joining any association that represents the specific interests of the holders of taxi owner's permits.
- Annual contribution. 40. For the financing of its activities, the Association may, by means of a by-law approved by a majority of the votes cast by all holders of a taxi driver's permit after the holding of a vote, establish an annual contribution.

- Right to vote. Every holder of a taxi driver's permit, whether or not the permit holder is a member of the Association, has the right to vote. To exercise the right to vote, permit holders who are not members must register with the Association and establish their quality as holders of a taxi driver's permit within the time prescribed by regulation.
- Counting of votes. The Commission shall determine, together with the Association, the manner in which the vote is to be announced, held and supervised and the manner in which votes are to be counted.
- Contribution. 41. Every holder of a taxi driver's permit must pay the contribution fixed under section 40 to maintain his or her taxi driver's permit.
- Contribution. The Association shall send to the Société and, where applicable, to a municipal or supramunicipal authority that issues taxi driver's permits the list of taxi drivers who failed to pay the contribution within the time limits determined in the Association's by-laws. The Société and the authority must suspend the taxi driver's permit of those persons, whether or not they are members of the Association, until proof of payment of the contribution is furnished.
- Inquiry. 42. The Minister of Transport may direct a person designated by the Minister to inquire into the management or the activities of the Association.
- Immunity and powers. The person so designated shall have, for the purposes of the inquiry, the immunity and powers of commissioners appointed under the Act respecting public inquiry commissions (R.S.Q., chapter C-37), except the power to order imprisonment.
- Inquiry. 43. The Government may, during or after the inquiry, order that the powers of the Association be suspended for the period it determines or that its directors be dismissed, and appoint an administrator who shall exercise the powers of the board of directors.
- Revocation of decision. 44. The administrator may, subject to the rights of third persons in good faith, revoke any decision made by the Association.
- Detailed report. 45. The administrator must present to the Government, as soon as possible, a detailed report on the administrator's findings, together with the administrator's recommendations. The administrator has the same powers and immunity as the investigator designated under section 42.
- Report. 46. The Government may, upon the report of the administrator,
- (1) lift the suspension of the powers of the board of directors;
 - (2) dismiss the members of the board of directors it designates and order that a meeting of the Association be held for the election of new board members.

- Disqualification. A member of the board dismissed from office becomes disqualified to hold office as director of the Association for a period of five years from the date of dismissal.
- Measures. 47. The Government may, by order, determine any measure concerning the composition of the board of directors of the Association, the conditions to meet to be eligible as a director, the procedure applicable to the election of the directors, the organization, management and administration of the Association and a vote held under section 46, such order taking precedence over any by-law of the Association.

CHAPTER VI

OBLIGATIONS OF OWNERS, DRIVERS AND INTERMEDIARIES

- Contracts. 48. The holder of a taxi driver's permit must keep in the automobile of which he or she has custody or control a copy of the contract of employment or leasing contract entered into with the holder of a taxi owner's permit.
- Notification. 49. The holder of a taxi owner's permit or the holder of a taxi transportation service intermediary's permit, where the permit holder is subject to certain restrictions as regards the permit holder's operations, must notify thereof all holders of a taxi owner's permit and all holders of a taxi driver's permit to whom the permit holder is bound.
- Prohibition. 50. No publicity, call distribution or other similar services may be provided to a person who is not the holder of a taxi owner's permit or a taxi driver's permit.
- Inspection report. 51. Every driver of a taxi, limousine and "de grand luxe" limousine must, in accordance with the standards prescribed by regulation, fill, keep up to date and keep in the automobile an inspection report of the automobile the driver operates.
- Pre-departure inspection. The driver must conduct a pre-departure inspection of the automobile he or she operates and record in the inspection report his or her observations on the mechanical condition and cleanliness of the automobile. A driver may not have more than one inspection report for the automobile he or she operates.
- Defects. Where the driver is not the holder of the taxi owner's permit, he or she must without delay inform the holder of the taxi owner's permit of any defect recorded and forward a copy of the automobile's inspection report to the holder of the taxi owner's permit.
- Mechanical defects. 52. A driver who discovers after departure a mechanical defect must report the defect without delay to the holder of the taxi owner's permit according to the form and tenor determined by regulation.

- Prohibition. 53. No person shall operate a taxi, limousine or “de grand luxe” limousine that has a major defect, within the meaning of the second paragraph of section 58, discovered during an inspection.
- Notification. 54. A driver whose taxi driver’s licence or driver’s licence or class authorizing the driving of a taxi has been modified, suspended or revoked must without delay notify the holder of the taxi owner’s permit in the manner determined by regulation.
- Obligation. 55. A driver must, at the request of a peace officer or an inspector appointed under section 66, hand over his or her taxi driver’s permit, the inspection report referred to in section 51 and a copy of the leasing contract or the contract of employment.
- Limousines. 56. The holder of a taxi owner’s permit must maintain his or her taxi, limousine or “de grand luxe” limousine in good condition and comply with the standards applicable to the construction, identification and mechanical maintenance of such automobiles and their mandatory equipment and ensure that mechanical inspection is performed under the conditions determined by regulation or under the Highway Safety Code.
- Limousines. The driver of a taxi, limousine or “de grand luxe” limousine must ensure that both the car body and passenger compartment of the automobile are clean and that the equipment including, where applicable, the taximeter and domelight, functions properly.
- Defects. 57. The holder of a taxi owner’s permit must correct any defect that is reported to the permit holder. In the case of a minor defect, the permit holder must make the necessary repairs or have them made within 48 hours to preserve the right to maintain the taxi, limousine or “de grand luxe” limousine in operation. In the case of a major defect, the automobile may not be operated.
- Major repairs. All major repairs must be made according to prevailing standards by a certified mechanic.
- Defects. 58. The holder of a taxi owner’s permit who is advised that a notice of defect has been issued by a vehicle manufacturer pursuant to the Motor Vehicle Safety Act (Statutes of Canada, 1993, chapter 16) must without delay take the necessary measures to have the defect corrected as specified in the manufacturer’s directions or to have the vehicle repaired or modified so as to eliminate the defect.

The person is presumed to be operating under a taxi owner’s permit to provide specialized services subject to the rules governing such permits. The person may only retain the services of a holder of a taxi driver’s permit to drive his or her “de grand luxe” limousine.
- Annual duties. The person is required to pay an annual duties of \$5,000 to the Commission to maintain his or her privilege, which can neither be assigned nor transferred. “CHAPTER II

“SPECIAL PROVISIONS CONCERNING THE ORGANIZATION OF POLICE SERVICES

Local municipalities. “353.1. Local municipalities having a population of less than 50,000 inhabitants that do not form part of a metropolitan community or a census metropolitan area and that on 21 June 2001 were being served by a municipal police force shall be governed by the following provisions.

Police force. Every municipality that had its own police force may continue to be served by that police force to the extent that the police force provides level 1 services at the latest on 1 June 2002. In such a case, the agreements requiring the municipality to provide police services to other municipalities shall be maintained, subject to the right of each municipality so served to withdraw from the agreement and be served by the Sûreté du Québec. Where the municipality that offered the services of its police force chooses to be henceforth served by the Sûreté du Québec, the agreements are terminated by operation of law.

Police services intermunicipal boards. Police services intermunicipal boards shall be maintained, subject to a unanimous decision of the parties to the contrary. Where an intermunicipal board is dissolved, every service agreement entered into between the intermunicipal board and municipalities that are not party to the agreement establishing the intermunicipal board is terminated by operation of law. Where an intermunicipal board is to continue to exist, any such service agreement is maintained, subject to the right of each municipality so served to

withdraw from the agreement and be served by the Sûreté du Québec. Where one of the municipalities party to the agreement establishing the intermunicipal board wishes to be served by the Sûreté du Québec, the municipality must obtain the consent of the other municipalities party to that agreement.

Census agglomeration.

All the municipalities forming part of a census agglomeration described in Schedule F may, provided that at least one of the municipalities was, on 21 June 2001, served by a municipal police force, agree to share, in accordance with the terms and conditions provided for in section 71, the services of the same police force. Such police force will, at the latest on 1 June 2002, be required to provide the services of the level prescribed by section 70. The Minister may, however, subject to the conditions the Minister determines, allow that only some of the municipalities forming part of the same census agglomeration share the services of a single police force.

Organization plan.

The municipalities that elect to be served by a municipal police force must establish, in an organization plan, that the police force will meet the conditions set out above. The plan must be submitted to the Minister for approval within 30 days from publication in the *Gazette officielle du Québec* of the regulation replacing Schedule I to the Regulation respecting the amount payable by the municipalities for the services of the Sûreté du Québec, enacted by Order in Council 326-92 (1992, G.O. 2, 1115). Every municipality that fails to do so is deemed to have elected to be served by the Sûreté du Québec.

Police service organization plan.

“353.2. The municipalities that are to be served by a municipal police force pursuant to sections 71 and 72 must submit to the Minister for approval, at the latest on 1 January 2002, a police service organization plan stating, in particular, that the services of the required level will be provided at the latest on 1 June 2002. However, if a municipality resulting from a municipal merger and referred to in the first paragraph of section 71 has a population of 100,000 or more on 1 June 2002, the municipality will not be required to submit such a plan before 1 July 2002 and the services of the required level will not be required to be provided before 1 January 2003. In both cases, if a municipality fails to meet the requirements, the Minister may establish the terms and conditions according to which the police services are to be shared by the municipalities concerned.

Police officers.

“353.3. A police officer who is the holder of a permanent position or holds a managerial position within a municipal police force that is abolished because the services in the territory served by the officer are to be provided by the Sûreté du Québec becomes a member of the Sûreté du Québec, subject to the police officer having neither reached 65 years of age nor accumulated the maximum number of years of credited service under the plan referred to in section 353.4 and subject to the officer’s right of refusal. A police officer so transferred shall be reclassified within the Sûreté du Québec according to the officer’s accumulated years of service and, where applicable, according to the officer’s former responsibilities, with the remuneration attaching thereto.

- Remuneration. If the remuneration received by the police officer exceeds the remuneration payable within the Sûreté du Québec, it shall be maintained until the salary scale applicable to the police officer progresses to attain the level of the officer's remuneration.
- Conditions of employment. The other conditions of employment applicable to the transferred police officer, including employment benefits, shall be the same, taking into account the officer's recognized seniority, as those applicable to the members of the Sûreté du Québec.
- Auxiliary member. A police officer who is not the holder of a permanent position within a municipal police force becomes an auxiliary member of the Sûreté du Québec, subject to the officer's right of refusal, and shall be subject to the conditions that apply to auxiliary members.
- Transfer. The transfer of police officers from a municipal police force to the Sûreté du Québec shall be made according to staffing requirements, the level of responsibilities and the number of managerial positions existing within the municipal police force on 15 May 2001.
- Service recognized. "353.4. Notwithstanding any provision to the contrary, the following shall be recognized as regards a police officer transferred pursuant to section 353.3 for the sole purposes of eligibility for any benefit under the Pension Plan of the members of the Sûreté du Québec, established under the Act respecting the Syndical Plan of the Sûreté du Québec (R.S.Q., chapter R-14):
- (1) the years of service accumulated in a permanent position within a municipal police force;
- (2) the hours of service accumulated in a non-permanent position, up to the maximum of hours, for a year, provided for in the conditions of employment applicable to the members of the Sûreté and insofar as the police officer's employer was contributing to his or her pension plan.
- Retirement. Every police officer so transferred shall not be required to retire before 65 years of age or accumulating the maximum number of years of credited service under the plan, whichever occurs first.
- Abolition of municipal police force. "353.5. Before a municipal police force may be abolished, a municipality or an intermunicipal board must ensure that the body that administers a pension plan, other than a defined contribution plan, of which a person referred to in section 353.3 or 353.7 is a member has entered into, with the Commission administrative des régimes de retraite et d'assurances, a general agreement for the transfer of the person's rights under the plan to the Pension Plan of the members of the Sûreté du Québec, the Government and Public Employees Retirement Plan or another pension plan applicable to employees of the State. The Commission may enter into such an agreement with the authorization of the Government.

- Conditions. The conditions set out in such an agreement apply to the group constituted by the persons who are referred to in the first paragraph and who come under the same employer, subject to their individual right to opt for another plan in accordance with section 98 of the Supplemental Pension Plans Act (R.S.Q., chapter R-15.1).
- Integration of municipal police officers. “353.6. A police officer who, after the integration of municipal police officers under section 353.3, becomes a member of the Sûreté du Québec, may not receive concomitantly his or her remuneration in that capacity and, as the case may be, a pension under the Pension Plan of the members of the Sûreté du Québec or the pension plan applicable to the police officer as member of the municipal police force that was abolished because police services are henceforth to be provided by the Sûreté.
- Regulation. The regulation under section 17 of the Act concerning the organization of police services (2001, chapter 19) may pertain to the terms and conditions relating to the drawing of both a pension and remuneration, including those applicable in the event of non-compliance with the provisions of the first paragraph.
- Non-police personnel. “353.7. Any member of the non-police personnel of a municipality who on 15 May 2001 was the holder of permanent position and exercised functions considered necessary to the activities of a municipal police force that is abolished because police services are to be provided by the Sûreté du Québec becomes an employee of the State insofar as the personnel member is named in a decision of the Conseil du trésor, subject to the conditions determined therein. An employee so transferred is deemed to have been appointed in accordance with the Public Service Act (R.S.Q., chapter F-3.1.1).
- Conditions of employment. The Conseil du trésor may determine the classification, the remuneration and any other employment condition applicable to an employee so transferred.
- Integration. “353.8. Any police officer of the Sûreté du Québec whose position is affected because the territory in which the officer ordinarily exercised his or her functions will henceforth be under the jurisdiction of a municipal police force may ask to be integrated into that police force. The police force must integrate the police officer before it may proceed with any hiring.
- Records, documents and archives. “353.9. The police records, documents and archives belonging to an abolished municipal police force become those of the new police force.
- Investigations. The same applies to investigations and any other police matter in progress.
- First regulation. “353.10. The first regulation made under section 77 in relation to the costs of police services provided by the Sûreté du Québec is not subject to the publication requirement under section 8 of the Regulations Act (R.S.Q., chapter R-18.1) and, notwithstanding section 17 of that Act, comes into force

on the date of its publication in the *Gazette officielle du Québec* or on any later date fixed therein.

Amendment to
Schedules E and F.

“353.11. Schedules E and F may, if need be, be amended by order of the Government.

94. Any contract involving an expenditure of at least \$25,000 and of less than \$100,000, from among the contracts to which the first paragraph of section 93 applies or the object of which is mentioned in section 101, may be awarded only after a call for tenders, by way of written invitation, to at least two insurers, contractors or suppliers, as the case may be.

In the case of a supply or services contract, the electronic tendering system to be used for the publication of the call for public tenders shall be the system approved by the Government.

Interpretation :

For the purposes of the second paragraph,

“construction contract”;

(1) “construction contract” means a contract regarding the construction, reconstruction, demolition, repair or renovation of a building, structure or other civil engineering work, including site preparation, excavation, drilling, seismic investigation, the supply of products and materials, equipment and machinery if these are included in and incidental to a construction contract, as well as the installation and repair of fixtures of a building, structure or other civil engineering work;

- “supply contract”;
- (2) “supply contract” means a contract for the purchase, lease or rental of movable property that may include the cost of installing, operating and maintaining property, except a contract in respect of property related to cultural or artistic fields as well as computer software for educational purposes, and subscriptions;
- “services contract”.
- (3) “services contract” means a contract for supplying services that may include the supply of parts or materials required to supply the services, except a contract in respect of services related to cultural or artistic fields that can, under an Act or a regulation, be provided only by a physician, dentist, nurse, pharmacist, veterinary surgeon, engineer, land surveyor, architect, chartered accountant, advocate or notary.
- Time limit.
- The time limit for receipt of tenders must not be less than eight days. However, in the case of tenders in relation to a contract referred to in the second paragraph, the time limit for the receipt of tenders must not be less than 15 days.

- A call for public tenders in relation to a contract referred to in the second paragraph may stipulate that only tenders submitted by contractors or suppliers, in addition to contractors or suppliers having an establishment in Québec, who have an establishment in a province or territory covered by an intergovernmental agreement on the opening of public procurement applicable to the transit authority will be considered. Such a call for tenders may also stipulate that the goods concerned must be produced in a territory comprising Québec and any such province or territory.
- Fixed price or unit price.
- Tenders may not be called for nor may the contracts resulting therefrom be awarded except on a fixed price or unit price basis.
- Opening of tenders.
- All tenders must be opened publicly in the presence of at least two witnesses, on the date and at the time and place mentioned in the call for tenders. All tenderers may be present at the opening of the tenders. The names of the tenderers and their respective prices must be declared aloud on the opening of the tenders.
- Awarding contract.
- Subject to section 96, a transit authority may not, without the prior authorization of the Minister, award the contract to any person other than the person who submitted the lowest tender within the prescribed time. However, where it is necessary, to comply with the conditions for a government grant, that the contract be awarded to a person other than the person who submitted the lowest tender within the prescribed time, a transit authority may, without the authorization of the Minister, award the contract to the person whose tender is the lowest among the tenders submitted within the prescribed time that fulfil the conditions for the grant.
- Bid weighting system.
96. A transit authority may choose to use a system of bid weighting and evaluating whereby each bid obtains a number of points based on the price as well as on the quality or quantity of goods, services or work, the delivery

procedure, servicing, the experience and financial capacity required of the insurer, supplier or contractor or on any other criteria directly related to the procurement.

Call for tenders.

Where the transit authority chooses to use such a system, the call for tenders or any document to which it refers shall mention all the requirements and all criteria that will be used for evaluating the bids, as well as the weighting and evaluation methods based on those criteria.

Award.

In such a case, the transit authority shall not award the contract to a person other than the person whose bid was received within the time fixed and obtained the highest score.

Lowest tender.

For the purposes of the last sentence of the eighth paragraph of section 95, the bid having obtained the highest score shall be considered to be the lowest tender.

Qualification process.

97. A transit authority may establish a qualification process which shall not discriminate on the basis of the province or country of origin of the goods, services, insurers, suppliers or contractors.

Discrimination.

However, where the transit authority establishes a qualification process solely for the purpose of awarding a contract referred to in the second paragraph of section 95, the process may discriminate as permitted in the case of a call for public tenders in relation to such a contract under the fifth paragraph of section 95.

Notice.

The transit authority shall invite the interested parties to obtain their qualification or the qualification of their goods or services, by causing the secretary to publish a notice to that effect in accordance with the rules set out in the second paragraph of section 95.

Certification.

98. A call for tenders may stipulate that the goods, services, insurers, suppliers or contractors concerned by or able to satisfy the call for tenders must first be certified, qualified or registered by an organization accredited by the Standards Council of Canada or first be certified or qualified under the process provided for in section 97.

Exception.

The first paragraph does not apply where, under the process provided for in section 97, only one insurer, supplier or contractor has become qualified.

Discrimination.

99. Subject to the fifth and eighth paragraphs of section 95 and section 100, no call for public tenders or document to which it refers shall discriminate on the basis of the province or country of origin of the goods, services, insurers, suppliers or contractors.

Awarding of contracts.

100. The Government shall, by regulation, establish the rules relating to the awarding of a contract referred to in section 101.

- Publication of tenders. The regulation shall determine whether such a contract is to be awarded after a call for public tenders published in an electronic tendering system approved by the Government, after a call for tenders by way of an advertisement published in a newspaper or after the use of a register of suppliers.
- Register of suppliers. Where the regulation determines that the contract is to be awarded after the use of a register of suppliers, it must designate the body responsible for the establishment of the register and for its management and financing and must set out, in particular, the rules that apply to the registration of suppliers and to their selection as suppliers who may tender.
- Rate schedule. In each case, the regulation must establish a rate schedule fixing the maximum hourly rate that may be paid by the transit authority.
- Contracts of \$100,000 or more. 101. The following contracts, if they involve an expenditure of \$100,000 or more, must be awarded in accordance with the regulation under section 100:
- (1) a contract for the supply of services that can, under an Act or a regulation, be provided only by a physician, dentist, nurse, pharmacist, veterinary surgeon, engineer, land surveyor, architect, chartered accountant, advocate or notary, except if the service is necessary for the purposes of a proceeding before a tribunal, a body or a person exercising judicial or adjudicative functions ;
 - (2) a contract whose purpose is to obtain energy savings for the transit authority, where it involves both the providing of professional services and the performance of work or the supply of equipment, materials or services other than professional services.
- Prohibition. 102. A transit authority may not divide into several contracts having similar subject-matter an insurance contract or a contract for the performance of work, the supply of equipment or materials or the providing of services other than professional services necessary for the purposes of a proceeding before a tribunal, a body or a person exercising judicial or adjudicative functions, unless the division is warranted on grounds of sound administration.
- Exemption. 103. Subject to the third paragraph of section 89, the Minister of Municipal Affairs and Greater Montréal may, on the conditions determined by the Minister, allow the transit authority to award a contract without calling for tenders or without being required to award it in accordance with the regulation provided for in section 100, or allow the transit authority to award a contract after a call for tenders made by written invitation rather than by advertisement in a newspaper or rather than in accordance with that regulation.
- Exception. The first paragraph does not apply where, pursuant to the terms of an intergovernmental agreement on the opening of public procurement applicable to the transit authority, the tenders must be public tenders.

- Movable property. 104. A transit authority may obtain any movable property from or through the General Purchasing Director designated under section 3 of the Act respecting the Service des achats du gouvernement (chapter S-4). A transit authority may also obtain any service through the General Purchasing Director acting within a mandate entrusted to the General Purchasing Director by the Government under section 4.1 of that Act.
- Exception. To the extent that the terms of any agreement on the opening of public procurement applicable to a transit authority are observed, section 93 does not apply to contracts entered into by a transit authority with or through the General Purchasing Director in accordance with the regulations under the Financial Administration Act (chapter A-6).
- Irresistible force. 105. Notwithstanding section 93, the chair of a transit authority or, if the chair is absent or unable to act, the director general may, in a case of irresistible force which might endanger the life or health of the population or seriously damage or seriously interfere with the operation of the equipment of the transit authority, order such expenditure as the chair or the director general considers necessary and award any contract necessary to remedy the situation.
- Report. The chair or director general, as the case may be, shall table a report giving the reasons for the expenditure or contract at the next meeting of the board.
- Renewal. 106. Notwithstanding section 93, a transit authority may, without being required to call for tenders, renew any insurance contract awarded following a call for tenders, provided that the total duration of the period covered by the original contract and the period covered by the renewal and, where applicable, by any previous renewal, does not exceed five years.
- Premiums. The premiums stipulated in the original contract may be modified for the period covered by any renewal referred to in the first paragraph.
- Leasing contract. 107. A transit authority may enter into a leasing contract in respect of movable property that must be acquired by tender in accordance with section 93, provided it discloses in the call for tenders that it has the option to enter into a leasing contract in respect of the property.
- Notice. Where the transit authority opts to enter into a leasing contract, it must give notice thereof in writing to the successful tenderer. Upon receipt of the notice, the tenderer must enter into a contract for the movable property with the lessor, which the transit authority shall designate in the notice, on the conditions under which the tender was accepted.
- Joint call for tenders. 108. Notwithstanding any inconsistent provision of a general law or special Act, a transit authority and any municipality or other supramunicipal body whose territory includes the area of jurisdiction of the transit authority may make a joint call for public tenders for the purpose of awarding an insurance contract or a contract for the supply of equipment or materials or the providing of services.

- Option to purchase. For the purposes of the first paragraph, a contract for the supply of equipment includes a contract for the lease of equipment with an option to purchase.
- Acceptance binding. Acceptance of a tender referred to in this section also binds, as regards the successful tenderer, each party to the call for tenders.
- Prohibited alienation. 109. A transit authority may not alienate property having a value greater than \$25,000 for which it has specifically been awarded a grant except with the authorization of the Minister.
- Charity. 110. A transit authority may give to a charity any property having a value that does not exceed \$10,000.
- Notice of alienation. 111. A transit authority shall publish twice a year in a newspaper distributed in its area of jurisdiction a notice mentioning any property having a value greater than \$10,000 that it alienated in the previous six months, the person to whom the property was alienated and the price of alienation.

For the purposes of section 116, a transit authority may require that its treasurer determine in a certificate the appropriations the treasurer considers necessary for the next fiscal year for payment of the interest on securities issued or to be issued by the transit authority, for repayment or redemption of such securities and for the requirements of their sinking funds and any other charge related to the debt of the transit authority, except the amounts required in principal, interest and accessories in relation to the issue of treasury bills, loans contracted in anticipation of revenue and renewable loans falling due during the fiscal year covered by the budget.
- Appropriations. The treasurer shall also determine in the certificate the appropriations necessary to meet, during the next fiscal year, the obligations undertaken by the transit authority during previous fiscal years. The treasurer may amend the certificate until 31 December preceding the fiscal year to which it applies if the appropriations mentioned therein have not been adopted by the city or the municipalities concerned. Acquisitions and works.

The Société de transport de Montréal may acquire any property required for the construction and operation of its subway guided land transport enterprise, dig a tunnel under any immovable regardless of its owner, and construct and operate any accessory works.

Authorization.

However, the Société must obtain the authorization of the Agence métropolitaine de transport if its construction work disturbs the subway extension work referred to in section 47 of the Act respecting the Agence métropolitaine de transport (chapter A-7.02).

- Expropriation by city. The Société must, however, propose to the city concerned that it proceed with the expropriation, at its own expense, unless the city has already indicated its intention not to expropriate or the right is of the nature of a servitude or affects only the subsoil. The city has 90 days to accept, by resolution, the proposal of the Société failing which the city is deemed to have refused. The city may, however, within those 90 days, transfer its right to expropriate to the public transit authority in its territory.
- Ownership. The city or, where applicable, the public transit authority concerned, is the owner of the expropriated property, subject to its obligation to transfer to the Société de transport de Montréal, free of charge, the property necessary to its work.
- Transfer. Where expropriation is made by the Société de transport de Montréal, the Société shall transfer to the public transit authority concerned, free of charge, all property that is not necessary to its work.
- Underground construction. 154. Where underground construction work is undertaken, as of the commencement of the work and without formality or compensation, but subject to an action for damages, the Société de transport de Montréal shall become the owner of the volume occupied by the tunnel together and of the area extending five metres outward from the interior concrete wall of the subway tunnel. In addition, the Société is deemed to hold a legal servitude established in favour of the volume occupied by the tunnel and limiting the stress that may be applied to the upper surface of the volume to 250 kilopascals.
- Procedure. However, the Société de transport de Montréal shall, on the commencement of the work, notify the owner of the land of the work and of the provisions of this section. In the year following the completion of work, the Société de transport de Montréal shall deposit in its archives a copy of a plan certified by the head of the department concerned, showing the horizontal projection of the tunnel. It shall register the plan in the registry office and the registrar shall receive the plan and make a notation in its respect in the land register.
- Certified copy. 155. Where the Société de transport de Montréal orders, by resolution, the expropriation of a property or the establishment of a reserve for public purposes on the property, the secretary shall without delay send a certified copy of the resolution to the city concerned.

In addition to section 114 under which Ville de Montréal is, as of 1 January 2002, guarantor of the obligations of the Société de transport de Montréal in respect of the property referred to in the first paragraph, an obligation is established, chargeable to the immovables situated in the territory corresponding to the former territory of the municipalities referred to in the first paragraph, with respect to that same property, to secure any obligation contracted by the Communauté urbaine de Montréal towards the holders of securities issued before 1 January 2002 and towards any person holding a claim under a contract concerning that property on that date. The securities and the contracts constitute direct and general obligations of Ville de Montréal chargeable to those immovables.

- Rights. Every right under the first paragraph shall cease to apply to a person in respect of any period, beginning on 1 January 2002, during which the person holds office as a member of the council of a municipality in the territory of Québec.

Amount of compensation.	<p>“233.1. Amount of compensation.	<p>The amount of the compensation is also based on the remuneration that the person referred to in the first paragraph of section 233 was receiving on 15 November 2000, directly from a mandatory body of the municipality or a supramunicipal body within the meaning of sections 18 and 19 of the Act respecting the Pension Plan of Elected Municipal Officers (R.S.Q., chapter R-9.3).</p>
Remuneration.	<p>In the case of a person who is a member of the council of a local municipality to which the first paragraph of section 233 refers, whose territory was situated within the territory of the Communauté métropolitaine de Montréal, the remuneration applicable for the purposes of the second paragraph is the remuneration the person was receiving on 31 December 2001. If on that date the person was receiving remuneration from both the Communauté urbaine de Montréal and the Communauté métropolitaine de Montréal, the remuneration applicable for the purposes of the second paragraph is the greater of the two on that date.</p>
Maximum compensation.	<p>The compensation established pursuant to the first, second and third paragraphs, excluding the part described in the fifth paragraph, may not be greater, on an annual basis, than the maximum remuneration payable under section 21 of the Act respecting the remuneration of elected municipal officers.</p>
Provisional contribution.	<p>The compensation must also, where applicable, include any amount corresponding to the provisional contribution payable under section 26 of the Act respecting the Pension Plan of Elected Municipal Officers that the local municipality, mandatory body of the municipality or supramunicipal body would have been required to pay in relation to the remuneration provided for in the first and second paragraphs in respect of the person referred to in the first paragraph of section 233.</p>
Payment of compensation.	<p>“233.2. The compensation shall be paid by the new city whose territory comprises the territory of the former municipality in which the person referred to in the first paragraph of section 233 was a council member, in bi-monthly payments during the period beginning on 1 January 2002 and ending on the date on which the first general election would have been held following the expiry of the term of office in progress on 31 December 2001.</p>
Agreement.	<p>The person eligible for compensation may agree with the new city on any other manner of payment of the compensation.</p>

Financing.	<p>“233.3. The Government shall participate in the financing of one-half of the expenses representing the payment of the part of compensation referred to in section 233.1 that is based on the basic remuneration or, as the case may be, on the minimum annual remuneration, provided for in the Act respecting the remuneration of elected municipal officers (R.S.Q., chapter T-11.001), of the person eligible under the program and on the amount of the provisional contribution payable in respect of that part of the compensation.</p>
Amount forwarded to new city.	<p>The Government shall forward every amount corresponding to the part of the expenses to which the Government must contribute to the new city whose territory comprises the territory of the former municipality in which the person eligible for the compensation was a council member.</p>
Balance of expenses.	<p>“233.4. The balance of the expenses representing the payment of the compensation including, where applicable, the provisional contribution, constitutes a debt that is a burden on the taxable immovables situated in the part of the territory of the city corresponding to the territory of the local municipality to which the first paragraph of section 233 refers, in which the person eligible under the program was a council member.</p>
Membership maintained.	<p>“233.5. Every person referred to in section 233 who, on 31 December 2001, is a member of the Pension Plan of Elected Municipal Officers established under the Act respecting the Pension Plan of Elected Municipal Officers (R.S.Q., chapter R-9.3) shall continue to be a member of that plan for the period mentioned in the first paragraph of section 233.2. However, the member may, before 15 February 2002, notify the new city of the person’s choice to cease membership in the plan. The person must forward a copy of the notice to the Commission administrative des régimes de retraite et d’assurances as soon as possible. Membership in the plan of the person giving the notice ceases on 1 January 2002.</p>
Pensionable salary.	<p>The pensionable salary of a person continuing to be a member of the plan pursuant to section 233 is equal to the amount of the compensation paid to the person in the period mentioned in the first paragraph of section 233.2, less any amount of the compensation payable as a provisional contribution. In such case, the provisional contribution shall be paid by the city to the Commission administrative des régimes de retraite et d’assurances at the same time as the member’s contribution which the city must withhold on each payment of compensation.</p>
Termination of membership.	<p>A person electing to terminate membership in the pension plan referred to in the first paragraph shall retain entitlement to the portion of the compensation relating to the provisional contribution.</p>
Prohibition.	<p>“233.6. No local municipality referred to in section 5 of any of Schedules I to V may adopt a by-law under section 31 of the Act respecting the remuneration of elected municipal officers (R.S.Q., chapter T-11.001).</p>
Effect.	<p>The first paragraph has effect from 15 November 2000.”</p>

In such a case, the second paragraph of section 5 and sections 6 and 8 apply, with the necessary modifications and, in the case of section 8, as regards the debts, having regard to the apportionment determined by the agreement establishing the management board in respect of capital expenditures.

Request for termination.

Sums from industrial immovable.

“8.5. The sums derived from the operation or leasing by the city of an industrial immovable, after deduction of related administration and maintenance costs, or from the alienation of the immovable, must be used to discharge the engagements made in respect of the immovable by any municipality referred to in section 5.

Discharge.

If the industrial immovable referred to in the first paragraph was the subject of an agreement under section 13.1 of the Act respecting municipal industrial immovables (R.S.Q., chapter I-0.1) which provided for terms and conditions relating to the apportionment of expenditures among the municipalities, the discharge pursuant to the first paragraph of the engagements made must be consistent with those terms and conditions as regards the taxable immovables situated in any part of the territory of the city that corresponds to the territory of any such municipality.

The balance represents the portion of the expenditures concerned that may be financed using any source of revenue specific to that purpose imposed on the whole territory of the city or any other revenue therefrom that is not reserved for other purposes.

Revenues.

The revenues to be used for the purposes of the division under the third paragraph are

(1) the revenues derived from the general property tax, except the revenues not taken into account in establishing the aggregate taxation rate of the municipality and the revenues that the municipality would have collected from the surtax on vacant land had it imposed that surtax rather than fix a general property tax rate specific to the category provided for in section 244.36 of the Act respecting municipal taxation;

Tax burden.

The tax burden shall consist of

If the city avails itself of any of the powers provided for in sections 150.1 and 150.2, it shall, subject to any regulation under the second paragraph, prescribe the rules to determine whether the increase under that section results solely from the constitution of the city and, if not, to establish the part resulting from the constitution.

- Regulation. The Government may, by regulation, determine the only cases in which an increase is deemed not to result from the constitution of the city.
- Correspondences. If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) and imposes the surtax or the tax on non-residential immovables or the surtax on vacant land, it must, if it avails itself of the power provided for in section 150.1, prescribe the rules to enable the appropriate correspondences to be made so as to obtain the same results, as regards the application of that section, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to each tax or surtax imposed.
- Percentage increase. “150.6. For the purpose of the establishment of the percentage increase referred to in section 150.1 for the fiscal year 2002, where the local municipality whose territory constitutes the sector concerned has appropriated as revenue for the fiscal year 2001 all or part of its surpluses from preceding fiscal years, in an amount exceeding the average of the amounts it appropriated for the fiscal years 1996 to 2000, the difference obtained by subtracting from that excess amount the amount of the sum that the municipality was exempted from paying, by the operation of sections 90 to 96 of chapter 54 of the statutes of 2000, for the special local activities financing fund, shall be included for the fiscal year 2001 in the tax burden borne by the aggregate of the units of assessment situated in the sector.

- Provisions applicable. The second and third paragraphs of section 150.1, the third paragraph of section 150.5 and section 150.6 apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.

The city may, for a fiscal year, fix the rate of the business tax in such manner that, in relation to the preceding fiscal year, the decrease in the revenues derived from that tax in respect of the aggregate of the business establishments situated in a sector is not greater than the percentage, applicable only to the group formed of the sectors concerned, fixed by the city.
- Amounts in lieu of tax. The revenues derived from the amounts to stand in lieu of the business tax that must be paid by the Government in accordance with the second paragraph of section 210 or the second paragraph of section 254 and the first paragraph of section 255 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) shall be included in those revenues.
- Rules respecting a supplement. “151.2. If the city does not avail itself of the power provided for in section 151 or 151.1, it may prescribe the rules enabling it to require a supplement for a fiscal year in such manner that, in relation to the preceding fiscal year, the decrease in the tax burden borne by any unit of assessment or any business establishment is not greater than the percentage, applicable only to the group formed of the whole territory, fixed by the city.
- Provisions applicable. The second and third paragraphs of section 150.1, the third paragraph of section 150.5 and section 150.6, in the case of a unit of assessment, or the second paragraph of section 151.1, in the case of a business establishment, apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.
- Adaptations. If it avails itself of the power provided for in the first paragraph, the city shall determine the rules to enable the rules set out in the provisions among those referred to in the second paragraph which take into consideration aggregates of units or of establishments, to be adapted to each unit of assessment or business establishment considered individually.
- “§4. — *Miscellaneous provisions*
- Powers. “151.3. The city may avail itself of the powers provided for in Division III.1 of Chapter XVIII of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of one sector without doing so in respect of another sector, or it may avail itself of such powers in a different manner according to the sectors.
- Coefficient. “151.4. Where, under section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city fixes, for a fiscal year prior to the fiscal year in which the first assessment roll drawn up specifically for the city comes into force, a general property tax rate specific to any of the categories provided for in sections 244.34 and 244.35 of that Act, the coefficient referred to in section 244.44 or 244.47 of that Act is the coefficient established on the

basis of a comparison of the last two property assessment rolls of the local municipality, among the local municipalities referred to in section 5, that has the largest population for 2001.

Business tax. “151.5. For the fiscal year 2002, the city shall impose the business tax in respect of a sector in which that tax was imposed for the fiscal year 2001 and refrain from imposing such a tax in respect of any other sector. In the first case, the city shall fix the rate in such manner that the revenues from the business tax estimated for the fiscal year 2002 in respect of the sector are not less than the business tax revenues that the municipality concerned estimated for the fiscal year 2001.

Business tax. For every fiscal year subsequent to the fiscal year 2002, if the city does not impose the business tax in respect of the whole of its territory it may impose the business tax in respect of any sector in which that tax was imposed for the fiscal years 2001 and 2002.

Roll of rental values. For the purposes of the first two paragraphs, the roll of rental values in force in the sector for the fiscal year 2001 shall continue to apply until the end of the last fiscal year for which it was drawn up. The city may, if necessary for the purposes of those paragraphs, cause a roll of rental values to be drawn up pursuant to the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of a sector rather than in respect of the whole of its territory.

Tax credits program. “151.6. The city may establish a program for the purpose of granting, in the circumstances described in the second paragraph, a credit applicable in respect of the amount of the general property tax imposed, for any fiscal year from the fiscal year referred to in subparagraph 1 of that paragraph, on any unit of assessment situated in a sector and that belongs to the group described in section 244.31 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1).

Conditions. The credit may be granted where the following conditions are met :

(1) for a particular fiscal year, the business tax is not imposed in respect of the sector, either separately or as part of the whole territory of the city, or, if the business tax is imposed, the estimated revenues therefrom in respect of the sector are less than those of the preceding fiscal year ;

(2) the business tax was imposed in respect of the sector, for the fiscal year preceding the fiscal year referred to in subparagraph 1, without being imposed in respect of the whole territory of the city ; and

(3) the general property tax revenues estimated in respect of the sector for the fiscal year referred to in subparagraph 1 and derived from the application of all or part of any of the rates specific to the categories provided for in sections 244.33 and 244.34 of the Act respecting municipal taxation are greater than they would have been were it not for the loss of or decrease in business tax revenues.

- Credit.** The credit shall diminish the amount payable of the general property tax imposed on any unit of assessment referred to in the first paragraph in respect of which all or part of a rate referred to in subparagraph 3 of the second paragraph applies. The amount of the credit shall be established according to the rules set out in the program.
- Cost.** The cost of the aggregate of the credits granted in respect of the units of assessment situated in the sector shall be a burden on the aggregate of the units situated in the sector that belong to the group referred to in the first paragraph.
- Correspondences.** If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation and imposes the surtax or the tax on non-residential immovables, it must, if it avails itself of the power under the first paragraph, prescribe the rules enabling the appropriate correspondences to be made so as to obtain the same results, as regards the application of the first four paragraphs, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to the surtax or the tax on non-residential immovables.
- Averaging of variation in taxable values.** “151.7. Where a local municipality referred to in section 5 has availed itself, in respect of its roll of assessment that came into force on 1 January 2001, of the power provided for in section 253.27 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city may, on or before the adoption of the budget for the fiscal year 2002, provide that the averaging of the variation in the taxable values resulting from the coming into force of the roll will continue for that fiscal year in respect of the sector concerned.”

Rules.

“129.1. The city is subject to the rules provided for by the applicable legislation in respect of all the local municipalities, in particular the rules that prevent the fixing of different general property tax rates according to the parts of the municipal territory and the rules that provide for the use of specific sources of revenue to finance expenditures relating to debts.

Exceptions.

The city may, however, depart from those rules but only insofar as is necessary for the application of any of the provisions of this division or of section 8.6.

“§2. — *Limitation on increases in the tax burden*

Powers.

“130. The city shall avail itself either of the power provided for in section 130.1 and, if it imposes the business tax, of that provided for in section 130.2, or of the power provided for in section 130.7.

5% increase.

“130.1. The city may, for a fiscal year, fix any general property tax rate in such manner that, in relation to the preceding fiscal year, the increase in the tax burden borne by the aggregate of the units of assessment situated in a sector and in respect of which all or part of the rate applies is not greater than 5%.

Tax burden.

The tax burden shall consist of

(1) the revenues derived from the general property tax which result from the application of all or part of a rate of that tax ;

(2) the revenues derived from other taxes, including the taxes imposed on the basis of the rental value of immovables and compensations considered by the applicable legislation to be taxes, in particular the taxes used to finance services such as the supply of drinking water, waste water purification, snow removal, waste disposal, and residual materials upgrading ;

(R.S.Q., chapter F-2.1) or by the Government in accordance with section 254 and the first paragraph of section 255 of that Act, or by the Crown in right of Canada or by one of its mandataries ;

Exclusion. However, the revenues referred to in the second paragraph which are used to finance expenditures relating to debts shall be excluded from the tax burden.

5% increase. “130.2. The city may, for a fiscal year, fix the rate of the business tax in such manner that, in relation to the preceding fiscal year, the increase in the revenues derived from that tax in respect of all the business establishments situated in a sector is not greater than 5%.

Restriction. “130.4. Where the increase under section 130.1 or 130.2 does not result solely from the constitution of the city, the maximum shall apply only in respect of the part of the increase that results from the constitution.

Rules on source of increase. “130.5. If the city avails itself of any of the powers provided for in sections 130.1 and 130.2, it shall, subject to any regulation under the second paragraph, prescribe the rules to determine whether the increase under that section results solely from the constitution of the city and, if not, to establish the part resulting from the constitution.

Regulation. The Government may, by regulation, determine the only cases in which an increase is deemed not to result from the constitution of the city.

Correspondences. If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) and imposes the surtax or the tax on non-residential immovables or the surtax on vacant land, it must, if it avails itself of the power provided for in section 130.1, prescribe the rules to enable the appropriate correspondences to be made so as to obtain the same results, as regards the application of that section, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to each tax or surtax imposed.

- Percentage increase. “130.6. For the purpose of the establishment of the percentage increase referred to in section 130.1 for the fiscal year 2002, where the local municipality whose territory constitutes the sector concerned has appropriated as revenue for the fiscal year 2001 all or part of its surpluses from preceding fiscal years, in an amount exceeding the average of the amounts it appropriated for the fiscal years 1996 to 2000, the difference obtained by subtracting from that excess amount the amount of the sum that the municipality was exempted from paying, by the operation of sections 90 to 96 of chapter 54 of the statutes of 2000, for the special local activities financing fund, shall be included for the fiscal year 2001 in the tax burden borne by the aggregate of the units of assessment situated in the sector.
- 5% increase. “130.7. The city may prescribe the rules enabling it to grant an abatement for a fiscal year in such manner that, in relation to the preceding fiscal year, any increase in the tax burden borne by a unit of assessment or a business establishment is not greater than 5%.
- Provisions applicable. The second and third paragraphs of section 130.1 and sections 130.2 to 130.6 apply, with the necessary modifications, for the purposes of the limitation on the increase under the first paragraph.

- Provisions applicable. The second and third paragraphs of section 130.1, the third paragraph of section 130.5 and section 130.6 apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.
- Rate of the business tax. “131.1. The city may, for a fiscal year, fix the rate of the business tax in such manner that, in relation to the preceding fiscal year, the decrease in the revenues derived from that tax in respect of the aggregate of the business establishments situated in a sector is not greater than the percentage, applicable only to the group formed of the sectors concerned, fixed by the city.

- Amounts in lieu of tax. The revenues derived from the amounts to stand in lieu of the business tax that must be paid by the Government in accordance with the second paragraph of section 210 or the second paragraph of section 254 and the first paragraph of section 255 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) shall be included in those revenues.
- Rules respecting a supplement. “131.2. If the city does not avail itself of the power provided for in section 131 or 131.1, it may prescribe the rules enabling it to require a supplement for a fiscal year in such manner that, in relation to the preceding fiscal year, the decrease in the tax burden borne by any unit of assessment or any business establishment is not greater than the percentage, applicable only to the group formed of the whole territory, fixed by the city.
- Provisions applicable. The second and third paragraphs of section 130.1, the third paragraph of section 130.5 and section 130.6, in the case of a unit of assessment, or the second paragraph of section 131.1, in the case of a business establishment, apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.
- Adaptations. If it avails itself of the power provided for in the first paragraph, the city shall determine the rules to enable the rules set out in the provisions among those referred to in the second paragraph which take into consideration aggregates of units or of establishments, to be adapted to each unit of assessment or business establishment considered individually.
- “§4. — *Miscellaneous provisions*
- Powers. “131.3. The city may avail itself of the powers provided for in Division III.1 of Chapter XVIII of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of one sector without doing so in respect of another sector, or it may avail itself of such powers in a different manner according to the sectors.
- Coefficient. “131.4. Where, under section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city fixes, for a fiscal year prior to the fiscal year in which the first assessment roll drawn up specifically for the city comes into force, a general property tax rate specific to any of the categories provided for in sections 244.34 and 244.35 of that Act, the coefficient referred to in section 244.44 or 244.47 of that Act is the coefficient established on the basis of a comparison of the last two property assessment rolls of the local municipality, among the local municipalities referred to in section 5, that has the largest population for 2001.
- Business tax. “131.5. For the fiscal year 2002, the city shall impose the business tax in respect of a sector in which that tax was imposed for the fiscal year 2001 and refrain from imposing such a tax in respect of any other sector. In the first case, the city shall fix the rate in such manner that the revenues from the business tax estimated for the fiscal year 2002 in respect of the sector are not less than the business tax revenues that the municipality concerned estimated for the fiscal year 2001.

- Business tax. For every fiscal year subsequent to the fiscal year 2002, if the city does not impose the business tax in respect of the whole of its territory it may impose the business tax in respect of any sector in which that tax was imposed for the fiscal years 2001 and 2002.
- Roll of rental values. For the purposes of the first two paragraphs, the roll of rental values in force in the sector for the fiscal year 2001 shall continue to apply until the end of the last fiscal year for which it was drawn up. The city may, if necessary for the purposes of those paragraphs, cause a roll of rental values to be drawn up pursuant to the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of a sector rather than in respect of the whole of its territory.
- Tax credits program. “131.6. The city may establish a program for the purpose of granting, in the circumstances described in the second paragraph, a credit applicable in respect of the amount of the general property tax imposed, for any fiscal year from the fiscal year referred to in subparagraph 1 of that paragraph, on any unit of assessment situated in a sector and that belongs to the group described in section 244.31 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1).
- Conditions. The credit may be granted where the following conditions are met:
- (1) for a particular fiscal year, the business tax is not imposed in respect of the sector, either separately or as part of the whole territory of the city, or, if the business tax is imposed, the estimated revenues therefrom in respect of the sector are less than those of the preceding fiscal year;
 - (2) the business tax was imposed in respect of the sector, for the fiscal year preceding the fiscal year referred to in subparagraph 1, without being imposed in respect of the whole territory of the city; and
 - (3) the general property tax revenues estimated in respect of the sector for the fiscal year referred to in subparagraph 1 and derived from the application of all or part of any of the rates specific to the categories provided for in sections 244.33 and 244.34 of the Act respecting municipal taxation are greater than they would have been were it not for the loss of or decrease in business tax revenues.
- Credit. The credit shall diminish the amount payable of the general property tax imposed on any unit of assessment referred to in the first paragraph in respect of which all or part of a rate referred to in subparagraph 3 of the second paragraph applies. The amount of the credit shall be established according to the rules set out in the program.
- Cost. The cost of the aggregate of the credits granted in respect of the units of assessment situated in the sector shall be a burden on the aggregate of the units situated in the sector that belong to the group referred to in the first paragraph.
- Correspondences. If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation and imposes the surtax or the tax on

non-residential immovables, it must, if it avails itself of the power under the first paragraph, prescribe the rules enabling the appropriate correspondences to be made so as to obtain the same results, as regards the application of the first four paragraphs, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to the surtax or the tax on non-residential immovables.

Averaging of variation in taxable values.

“131.7. Where a local municipality referred to in section 5 has availed itself, in respect of its roll of assessment that came into force on 1 January 2001, of the power provided for in section 253.27 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city may, on or before the adoption of the budget for the fiscal year 2002, provide that the averaging of the variation in the taxable values resulting from the coming into force of the roll will continue for that fiscal year in respect of the sector concerned.”

Succession.

“8.2. The city succeeds to the rights, obligations and charges of a management board referred to in section 8.1. In such a case, the second paragraph of section 5 and sections 6 and 8 apply, with the necessary modifications and, in the case of section 8, as regards the debts, having regard to the apportionment determined by the agreement establishing the management board in respect of capital expenditures.

Request for termination.

“8.3. In the case of an intermunicipal agreement providing for the establishment of an intermunicipal management board composed in part of municipalities referred to in section 5, the city may request the Minister of Municipal Affairs and Greater Montréal to terminate the agreement on a date other than the date provided for in the agreement to enable the management board to be dissolved. If the Minister accepts the request, sections 468.48 and 468.49 of the Cities and Towns Act (R.S.Q., chapter C-19) apply, with the necessary modifications, from the date a copy of the Minister’s acceptance is transmitted to the intermunicipal management board and the municipalities that are members thereof.

Sums from industrial immovable.

“8.5. The sums derived from the operation or leasing by the city of an industrial immovable, after deduction of related administration and maintenance costs, or from the alienation of the immovable, must be used to discharge the engagements made in respect of the immovable by any municipality referred to in section 5.

Discharge.

If the industrial immovable referred to in the first paragraph was the subject of an agreement under section 13.1 of the Act respecting municipal industrial immovables (R.S.Q., chapter I-0.1) which provided for terms and conditions relating to the apportionment of expenditures among the municipalities, the discharge pursuant to the first paragraph of the engagements made must be consistent with those terms and conditions as regards the taxable immovables situated in any part of the territory of the city that corresponds to the territory of any such municipality.

Financing of expenditures.

“8.6. The city may provide that the expenditures relating to the debts of each municipality referred to in section 5 shall be financed in part by revenues derived exclusively from the territory of that municipality and, for the remainder, by revenues derived from the whole territory of the city.

Exceptions.

The following expenditures may not be covered by such a decision and shall continue to be financed in the same manner as they were for the fiscal year 2001, subject to any other provision, where the expenditures, for that fiscal year,

(c) a source of revenue that, under section 244.9 of the Act respecting municipal taxation, is used specifically for that purpose.

Computation.

For the purpose of determining which part of the expenditures covered by the decision under the first paragraph must be financed as provided in the fourth paragraph, the total of the revenues of the municipality listed in subparagraphs 1 to 4 of the fifth paragraph is divided by the total of the revenues of the municipality for the fiscal year 2001 listed in that paragraph.

Determination of mode of financing.

The product obtained by multiplying those expenditures by the quotient thus obtained represents the portion of the expenditures that must be financed using any source of revenue specific to that purpose imposed on the part of the territory that corresponds to the territory of the municipality. The balance represents the portion of the expenditures concerned that may be financed using any source of revenue specific to that purpose imposed on the whole territory of the city or any other revenue therefrom that is not reserved for other purposes.

Revenues.

The revenues to be used for the purposes of the division under the third paragraph are

(1) the revenues derived from the general property tax, except the revenues not taken into account in establishing the aggregate taxation rate of the municipality and the revenues that the municipality would have collected from the surtax on vacant land had it imposed that surtax rather than fix a general property tax rate specific to the category provided for in section 244.36 of the Act respecting municipal taxation ;

(2) the revenues derived from any special tax imposed on all the immovables in the territory of the municipality on the basis of their taxable value ;

(3) the revenues derived from any amount in lieu of a tax referred to in subparagraph 1 or 2 that must be paid by the Government in accordance with the second paragraph of section 210 of the Act respecting municipal taxation or the first paragraph of sections 254 and 255 of that Act or by the Crown in right of Canada or by one of its mandataries, except, in the case where the amount is in lieu of the general property tax, the revenues that would be covered by the exception provided for in subparagraph 1 if it were the tax itself ;

(5) the revenues derived from the surtax on vacant land, the surtax or the tax on non-residential immovables, the business tax and any other tax imposed on the basis of the rental value of an immovable ;

(6) the revenues covered by the exception under subparagraph 1 or 3 ;

(7) the revenues derived from any amount in lieu of a tax, other than an amount referred to in subparagraph 3, that must be paid by the Government in accordance with the second paragraph of section 210 of the Act respecting

- Tax burden. The tax burden shall consist of
- (1) the revenues derived from the general property tax which result from the application of all or part of a rate of that tax ;
 - (2) the revenues derived from other taxes, including the taxes imposed on the basis of the rental value of immovables and compensations considered by the applicable legislation to be taxes, in particular the taxes used to finance services such as the supply of drinking water, waste water purification, snow removal, waste disposal, and residual materials upgrading ;
 - (3) the revenues derived from the amounts to stand in lieu of taxes that must be paid in respect of immovables by the Government in accordance with the second paragraph of section 210 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) or by the Government in accordance with section 254 and the first paragraph of section 255 of that Act, or by the Crown in right of Canada or by one of its mandataries ;
 - (4) the revenues of which the city has deprived itself by granting a credit in respect of any of the sources of revenue referred to in any of subparagraphs 1 to 3, for the application of section 8 as regards the allocation of the credit from a surplus.
- Exclusion. However, the revenues referred to in the second paragraph which are used to finance expenditures relating to debts shall be excluded from the tax burden.
- 5% increase. “87.2. The city may, for a fiscal year, fix the rate of the business tax in such manner that, in relation to the preceding fiscal year, the increase in the revenues derived from that tax in respect of all the business establishments situated in a sector is not greater than 5%.

- Amounts in lieu of tax. The revenues derived from the amounts to stand in lieu of the business tax that must be paid by the Government in accordance with the second paragraph of section 210 or the second paragraph of section 254 and the first paragraph of section 255 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) shall be included in those revenues.
- Increase of less than 5%. “87.3. If the city avails itself of any of the powers provided for in sections 87.1 and 87.2, it may replace the maximum percentage increase in that section by another maximum percentage increase, applicable only to the group formed of the sectors concerned, which must be less than 5%.
- Restriction. “87.4. Where the increase under section 87.1 or 87.2 does not result solely from the constitution of the city, the maximum shall apply only in respect of the part of the increase that results from the constitution.
- Rules on source of increase. “87.5. If the city avails itself of any of the powers provided for in sections 87.1 and 87.2, it shall, subject to any regulation under the second paragraph, prescribe the rules to determine whether the increase under that section results solely from the constitution of the city and, if not, to establish the part resulting from the constitution.
- Regulation. The Government may, by regulation, determine the only cases in which an increase is deemed not to result from the constitution of the city.
- Correspondences. If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) and imposes the surtax or the tax on non-residential immovables or the surtax on vacant land, it must, if it avails itself of the power provided for in section 87.1, prescribe the rules to enable the appropriate correspondences to be made so as to obtain the same results, as regards the application of that section, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to each tax or surtax imposed.
- Percentage increase. “87.6. For the purpose of the establishment of the percentage increase referred to in section 87.1 for the fiscal year 2002, where the local municipality whose territory constitutes the sector concerned has appropriated as revenue for the fiscal year 2001 all or part of its surpluses from preceding fiscal years, in an amount exceeding the average of the amounts it appropriated for the fiscal years 1996 to 2000, the difference obtained by subtracting from that excess amount the amount of the sum that the municipality was exempted from paying, by the operation of sections 90 to 96 of chapter 54 of the statutes of 2000, for the special local activities financing fund, shall be included for the fiscal year 2001 in the tax burden borne by the aggregate of the units of assessment situated in the sector.
- 5% increase. “87.7. The city may prescribe the rules enabling it to grant an abatement for a fiscal year in such manner that, in relation to the preceding fiscal year, any increase in the tax burden borne by a unit of assessment or a business establishment is not greater than 5%.

- Provisions applicable. The second and third paragraphs of section 87.1 and sections 87.2 to 87.6 apply, with the necessary modifications, for the purposes of the limitation on the increase under the first paragraph.
- Rules. - “§3. — *Limitation on decreases in the tax burden*
- General property tax rate. “88. The city may, for a fiscal year, fix any general property tax rate in such manner that, in relation to the preceding fiscal year, the decrease in the tax burden borne by the aggregate of the units of assessment situated in a sector and in respect of which all or part of the rate applies is not greater than the percentage, applicable only to the group formed of the sectors concerned, fixed by the city.
- Provisions applicable. The second and third paragraphs of section 87.1, the third paragraph of section 87.5 and section 87.6 apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.
- Rate of the business tax. “88.1. The city may, for a fiscal year, fix the rate of the business tax in such manner that, in relation to the preceding fiscal year, the decrease in the revenues derived from that tax in respect of the aggregate of the business establishments situated in a sector is not greater than the percentage, applicable only to the group formed of the sectors concerned, fixed by the city.
- Amounts in lieu of tax. The revenues derived from the amounts to stand in lieu of the business tax that must be paid by the Government in accordance with the second paragraph of section 210 or the second paragraph of section 254 and the first paragraph of section 255 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) shall be included in those revenues.
- Rules respecting a supplement. “88.2. If the city does not avail itself of the power provided for in section 88 or 88.1, it may prescribe the rules enabling it to require a supplement for a fiscal year in such manner that, in relation to the preceding fiscal year, the decrease in the tax burden borne by any unit of assessment or any business establishment is not greater than the percentage, applicable only to the group formed of the whole territory, fixed by the city.
- Provisions applicable. The second and third paragraphs of section 87.1, the third paragraph of section 87.5 and section 87.6, in the case of a unit of assessment, or the second paragraph of section 88.1, in the case of a business establishment, apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.

- Adaptations. If it avails itself of the power provided for in the first paragraph, the city shall determine the rules to enable the rules set out in the provisions among those referred to in the second paragraph which take into consideration aggregates of units or of establishments, to be adapted to each unit of assessment or business establishment considered individually.
- “§4. — *Miscellaneous provisions*
- Powers. “88.3. The city may avail itself of the powers provided for in Division III.1 of Chapter XVIII of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of one sector without doing so in respect of another sector, or it may avail itself of such powers in a different manner according to the sectors.
- Coefficient. “88.4. Where, under section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city fixes, for a fiscal year prior to the fiscal year in which the first assessment roll drawn up specifically for the city comes into force, a general property tax rate specific to any of the categories provided for in sections 244.34 and 244.35 of that Act, the coefficient referred to in section 244.44 or 244.47 of that Act is the coefficient established on the basis of a comparison of the last two property assessment rolls of the local municipality, among the local municipalities referred to in section 5, that has the largest population for 2001.
- Business tax. “88.5. For the fiscal year 2002, the city shall impose the business tax in respect of a sector in which that tax was imposed for the fiscal year 2001 and refrain from imposing such a tax in respect of any other sector. In the first case, the city shall fix the rate in such manner that the revenues from the business tax estimated for the fiscal year 2002 in respect of the sector are not less than the business tax revenues that the municipality concerned estimated for the fiscal year 2001.
- Business tax. For every fiscal year subsequent to the fiscal year 2002, if the city does not impose the business tax in respect of the whole of its territory it may impose the business tax in respect of any sector in which that tax was imposed for the fiscal years 2001 and 2002.
- Roll of rental values. For the purposes of the first two paragraphs, the roll of rental values in force in the sector for the fiscal year 2001 shall continue to apply until the end of the last fiscal year for which it was drawn up. The city may, if necessary for the purposes of those paragraphs, cause a roll of rental values to be drawn up pursuant to the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of a sector rather than in respect of the whole of its territory.
- Tax credits program. “88.6. The city may establish a program for the purpose of granting, in the circumstances described in the second paragraph, a credit applicable in respect of the amount of the general property tax imposed, for any fiscal year from the fiscal year referred to in subparagraph 1 of that paragraph, on any

unit of assessment situated in a sector and that belongs to the group described in section 244.31 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1).

Conditions.

The credit may be granted where the following conditions are met :

(1) for a particular fiscal year, the business tax is not imposed in respect of the sector, either separately or as part of the whole territory of the city, or, if the business tax is imposed, the estimated revenues therefrom in respect of the sector are less than those of the preceding fiscal year ;

(2) the business tax was imposed in respect of the sector, for the fiscal year preceding the fiscal year referred to in subparagraph 1, without being imposed in respect of the whole territory of the city ; and

(3) the general property tax revenues estimated in respect of the sector for the fiscal year referred to in subparagraph 1 and derived from the application of all or part of any of the rates specific to the categories provided for in sections 244.33 and 244.34 of the Act respecting municipal taxation are greater than they would have been were it not for the loss of or decrease in business tax revenues.

Credit.

The credit shall diminish the amount payable of the general property tax imposed on any unit of assessment referred to in the first paragraph in respect of which all or part of a rate referred to in subparagraph 3 of the second paragraph applies. The amount of the credit shall be established according to the rules set out in the program.

Cost.

The cost of the aggregate of the credits granted in respect of the units of assessment situated in the sector shall be a burden on the aggregate of the units situated in the sector that belong to the group referred to in the first paragraph.

Correspondences.

If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation and imposes the surtax or the tax on non-residential immovables, it must, if it avails itself of the power under the first paragraph, prescribe the rules enabling the appropriate correspondences to be made so as to obtain the same results, as regards the application of the first four paragraphs, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to the surtax or the tax on non-residential immovables.

Averaging of variation in taxable values.

“88.7. Where a local municipality referred to in section 5 has availed itself, in respect of its roll of assessment that came into force on 1 January 2001, of the power provided for in section 253.27 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city may, on or before the adoption of the budget for the fiscal year 2002, provide that the averaging of the variation in the taxable values resulting from the coming into force of the roll will continue for that fiscal year in respect of the sector concerned.”

Request for
termination.

“8.3. In the case of an intermunicipal agreement providing for the establishment of an intermunicipal management board composed in part of municipalities referred to in section 5, the city may request the Minister of Municipal Affairs and Greater Montréal to terminate the agreement on a date other than the date provided for in the agreement to enable the management board to be dissolved. If the Minister accepts the request, sections 468.48 and 468.49 of the Cities and Towns Act (R.S.Q., chapter C-19) apply, with the necessary modifications, from the date a copy of the Minister’s acceptance is transmitted to the intermunicipal management board and the municipalities that are members thereof.

Exceptions.	<p>The following expenditures may not be covered by such a decision and shall continue to be financed in the same manner as they were for the fiscal year 2001, subject to any other provision, where the expenditures, for that fiscal year,</p> <ul style="list-style-type: none"> (1) are not chargeable to the ratepayers of the municipality, in particular because they are financed by contributions from other bodies or by subsidies ; (2) are financed by revenues derived from <ul style="list-style-type: none"> (a) a special tax imposed on the taxable immovables situated in only a part of the territory of the municipality or imposed solely on the immovables to the benefit of which work has been carried out ; (b) an amount in lieu of a tax referred to in subparagraph <i>a</i> that must be paid by the Government in accordance with the second paragraph of section 210 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) or the first

The balance represents the portion of the expenditures concerned that may be financed using any source of revenue specific to that purpose imposed on the whole territory of the city or any other revenue therefrom that is not reserved for other purposes.

Revenues.

- Rules. “75.1. The city is subject to the rules provided for by the applicable legislation in respect of all the local municipalities, in particular the rules that prevent the fixing of different general property tax rates according to the parts of the municipal territory and the rules that provide for the use of specific sources of revenue to finance expenditures relating to debts.
- Exceptions. The city may, however, depart from those rules but only insofar as is necessary for the application of any of the provisions of this division or of section 8.6.
- “§2. — *Limitation on increases in the tax burden*
- Powers. “76. The city shall avail itself either of the power provided for in section 76.1 and, if it imposes the business tax, of that provided for in section 76.2, or of the power provided for in section 76.7.
- 5% increase. “76.1. The city may, for a fiscal year, fix any general property tax rate in such manner that, in relation to the preceding fiscal year, the increase in the tax burden borne by the aggregate of the units of assessment situated in a sector and in respect of which all or part of the rate applies is not greater than 5%.

- Tax burden. The tax burden shall consist of
- (1) the revenues derived from the general property tax which result from the application of all or part of a rate of that tax ;
- (2) the revenues derived from other taxes, including the taxes imposed on the basis of the rental value of immovables and compensations considered by the applicable legislation to be taxes, in particular the taxes used to finance services such as the supply of drinking water, waste water purification, snow removal, waste disposal, and residual materials upgrading ;

- 5% increase. “76.2. The city may, for a fiscal year, fix the rate of the business tax in such manner that, in relation to the preceding fiscal year, the increase in the revenues derived from that tax in respect of all the business establishments situated in a sector is not greater than 5%.
- Amounts in lieu of tax. The revenues derived from the amounts to stand in lieu of the business tax that must be paid by the Government in accordance with the second paragraph of section 210 or the second paragraph of section 254 and the first paragraph of section 255 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) shall be included in those revenues.

- Regulation. The Government may, by regulation, determine the only cases in which an increase is deemed not to result from the constitution of the city.
- Correspondences. If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) and imposes the surtax or the tax on non-residential immovables or the surtax on vacant land, it must, if it avails itself of the power provided for in section 76.1, prescribe the rules to enable the appropriate correspondences to be made so as to obtain the same results, as regards the application of that section, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to each tax or surtax imposed.
- Percentage increase. “76.6. For the purpose of the establishment of the percentage increase referred to in section 76.1 for the fiscal year 2002, where the local municipality whose territory constitutes the sector concerned has appropriated as revenue for the fiscal year 2001 all or part of its surpluses from preceding fiscal years, in an amount exceeding the average of the amounts it appropriated for the fiscal years 1996 to 2000, the difference obtained by subtracting from that excess amount the amount of the sum that the municipality was exempted from paying, by the operation of sections 90 to 96 of chapter 54 of the statutes of 2000, for the special local activities financing fund, shall be included for the fiscal year 2001 in the tax burden borne by the aggregate of the units of assessment situated in the sector.
- 5% increase. “76.7. The city may prescribe the rules enabling it to grant an abatement for a fiscal year in such manner that, in relation to the preceding fiscal year, any increase in the tax burden borne by a unit of assessment or a business establishment is not greater than 5%.
- Provisions applicable. The second and third paragraphs of section 76.1 and sections 76.2 to 76.6 apply, with the necessary modifications, for the purposes of the limitation on the increase under the first paragraph.

- “§3. — *Limitation on decreases in the tax burden*
- General property tax rate. “77. The city may, for a fiscal year, fix any general property tax rate in such manner that, in relation to the preceding fiscal year, the decrease in the

Provisions applicable. The second and third paragraphs of section 76.1, the third paragraph of section 76.5 and section 76.6 apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.

The city may, for a fiscal year, fix the rate of the business tax in such manner that, in relation to the preceding fiscal year, the decrease in the revenues derived from that tax in respect of the aggregate of the business establishments situated in a sector is not greater than the percentage, applicable only to the group formed of the sectors concerned, fixed by the city.

Amounts in lieu of tax. The revenues derived from the amounts to stand in lieu of the business tax that must be paid by the Government in accordance with the second paragraph of section 210 or the second paragraph of section 254 and the first paragraph of section 255 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) shall be included in those revenues.

Rules respecting a supplement. “77.2. If the city does not avail itself of the power provided for in section 77 or 77.1, it may prescribe the rules enabling it to require a supplement for a fiscal year in such manner that, in relation to the preceding fiscal year, the decrease in the tax burden borne by any unit of assessment or any business establishment is not greater than the percentage, applicable only to the group formed of the whole territory, fixed by the city.

Provisions applicable. The second and third paragraphs of section 76.1, the third paragraph of section 76.5 and section 76.6, in the case of a unit of assessment, or the second paragraph of section 77.1, in the case of a business establishment, apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.

Adaptations. If it avails itself of the power provided for in the first paragraph, the city shall determine the rules to enable the rules set out in the provisions among those referred to in the second paragraph which take into consideration aggregates of units or of establishments, to be adapted to each unit of assessment or business establishment considered individually.

“§4. — *Miscellaneous provisions*

Powers. “77.3. The city may avail itself of the powers provided for in Division III.1 of Chapter XVIII of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of one sector without doing so in respect of another sector, or it may avail itself of such powers in a different manner according to the sectors.

- Coefficient. “77.4. Where, under section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city fixes, for a fiscal year prior to the fiscal year in which the first assessment roll drawn up specifically for the city comes into force, a general property tax rate specific to any of the categories provided for in sections 244.34 and 244.35 of that Act, the coefficient referred to in section 244.44 or 244.47 of that Act is the coefficient established on the basis of a comparison of the last two property assessment rolls of the local municipality, among the local municipalities referred to in section 5, that has the largest population for 2001.
- Business tax. “77.5. For the fiscal year 2002, the city shall impose the business tax in respect of a sector in which that tax was imposed for the fiscal year 2001 and refrain from imposing such a tax in respect of any other sector. In the first case, the city shall fix the rate in such manner that the revenues from the business tax estimated for the fiscal year 2002 in respect of the sector are not less than the business tax revenues that the municipality concerned estimated for the fiscal year 2001.
- Business tax. For every fiscal year subsequent to the fiscal year 2002, if the city does not impose the business tax in respect of the whole of its territory it may impose the business tax in respect of any sector in which that tax was imposed for the fiscal years 2001 and 2002.
- Roll of rental values. For the purposes of the first two paragraphs, the roll of rental values in force in the sector for the fiscal year 2001 shall continue to apply until the end of the last fiscal year for which it was drawn up. The city may, if necessary for the purposes of those paragraphs, cause a roll of rental values to be drawn up pursuant to the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of a sector rather than in respect of the whole of its territory.
- Tax credits program. “77.6. The city may establish a program for the purpose of granting, in the circumstances described in the second paragraph, a credit applicable in respect of the amount of the general property tax imposed, for any fiscal year from the fiscal year referred to in subparagraph 1 of that paragraph, on any unit of assessment situated in a sector and that belongs to the group described in section 244.31 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1).
- Conditions. The credit may be granted where the following conditions are met :
- (1) for a particular fiscal year, the business tax is not imposed in respect of the sector, either separately or as part of the whole territory of the city, or, if the business tax is imposed, the estimated revenues therefrom in respect of the sector are less than those of the preceding fiscal year ;
- (2) the business tax was imposed in respect of the sector, for the fiscal year preceding the fiscal year referred to in subparagraph 1, without being imposed in respect of the whole territory of the city ; and

(3) the general property tax revenues estimated in respect of the sector for the fiscal year referred to in subparagraph 1 and derived from the application of all or part of any of the rates specific to the categories provided for in sections 244.33 and 244.34 of the Act respecting municipal taxation are greater than they would have been were it not for the loss of or decrease in business tax revenues.

Credit. The credit shall diminish the amount payable of the general property tax imposed on any unit of assessment referred to in the first paragraph in respect of which all or part of a rate referred to in subparagraph 3 of the second paragraph applies. The amount of the credit shall be established according to the rules set out in the program.

Cost. The cost of the aggregate of the credits granted in respect of the units of assessment situated in the sector shall be a burden on the aggregate of the units situated in the sector that belong to the group referred to in the first paragraph.

Correspondences. If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation and imposes the surtax or the tax on non-residential immovables, it must, if it avails itself of the power under the first paragraph, prescribe the rules enabling the appropriate correspondences to be made so as to obtain the same results, as regards the application of the first four paragraphs, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to the surtax or the tax on non-residential immovables.

Averaging of variation in taxable values. “77.7. Where a local municipality referred to in section 5 has availed itself, in respect of its roll of assessment that came into force on 1 January 2001, of the power provided for in section 253.27 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city may, on or before the adoption of the budget for the fiscal year 2002, provide that the averaging of the variation in the taxable values resulting from the coming into force of the roll will continue for that fiscal year in respect of the sector concerned.”

“8.6. The city may provide that the expenditures relating to the debts of each municipality referred to in section 5 shall be financed in part by revenues derived exclusively from the territory of that municipality and, for the remainder, by revenues derived from the whole territory of the city.

Exceptions.

The following expenditures may not be covered by such a decision and shall continue to be financed in the same manner as they were for the fiscal year 2001, subject to any other provision, where the expenditures, for that fiscal year,

(1) are not chargeable to the ratepayers of the municipality, in particular because they are financed by contributions from other bodies or by subsidies ;

(2) are financed by revenues derived from

(a) a special tax imposed on the taxable immovables situated in only a part of the territory of the municipality or imposed solely on the immovables to the benefit of which work has been carried out ;

(b) an amount in lieu of a tax referred to in subparagraph *a* that must be paid by the Government in accordance with the second paragraph of section 210 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) or the first paragraph of sections 254 and 255 of that Act or by the Crown in right of Canada or by one of its mandataries ;

(c) a source of revenue that, under section 244.9 of the Act respecting municipal taxation, is used specifically for that purpose.

Computation.

For the purpose of determining which part of the expenditures covered by the decision under the first paragraph must be financed as provided in the fourth paragraph, the total of the revenues of the municipality listed in subparagraphs 1 to 4 of the fifth paragraph is divided by the total of the revenues of the municipality for the fiscal year 2001 listed in that paragraph.

Determination of mode of financing.

The product obtained by multiplying those expenditures by the quotient thus obtained represents the portion of the expenditures that must be financed using any source of revenue specific to that purpose imposed on the part of the territory that corresponds to the territory of the municipality. The balance represents the portion of the expenditures concerned that may be financed using any source of revenue specific to that purpose imposed on the whole territory of the city or any other revenue therefrom that is not reserved for other purposes.

Revenues.

The revenues to be used for the purposes of the division under the third paragraph are

(1) the revenues derived from the general property tax, except the revenues not taken into account in establishing the aggregate taxation rate of the municipality and the revenues that the municipality would have collected from the surtax on vacant land had it imposed that surtax rather than fix a general property tax rate specific to the category provided for in section 244.36 of the Act respecting municipal taxation ;

(2) the revenues derived from any special tax imposed on all the immovables in the territory of the municipality on the basis of their taxable value ;

(3) the revenues derived from any amount in lieu of a tax referred to in subparagraph 1 or 2 that must be paid by the Government in accordance with the second paragraph of section 210 of the Act respecting municipal taxation or the first paragraph of sections 254 and 255 of that Act or by the Crown in right of Canada or by one of its mandataries, except, in the case where the amount is in lieu of the general property tax, the revenues that would be covered by the exception provided for in subparagraph 1 if it were the tax itself ;

(4) the revenues derived from the source provided for in section 244.1 of the Act respecting municipal taxation, except revenues that, under section 244.9 of that Act, are used specifically to finance expenditures related to debts ;

(5) the revenues derived from the surtax on vacant land, the surtax or the tax on non-residential immovables, the business tax and any other tax imposed on the basis of the rental value of an immovable ;

(6) the revenues covered by the exception under subparagraph 1 or 3 ;

(7) the revenues derived from any amount in lieu of a tax, other than an amount referred to in subparagraph 3, that must be paid by the Government in accordance with the second paragraph of section 210 of the Act respecting municipal taxation or sections 254 and 255 of that Act or by the Crown in right of Canada or by one of its mandataries ;

Sector.

“100. For the purposes of this division, the territory of each local municipality referred to in section 5 constitutes a sector.

- Rules. “100.1. The city is subject to the rules provided for by the applicable legislation in respect of all the local municipalities, in particular the rules that prevent the fixing of different general property tax rates according to the parts of the municipal territory and the rules that provide for the use of specific sources of revenue to finance expenditures relating to debts.
- Exceptions. The city may, however, depart from those rules but only insofar as is necessary for the application of any of the provisions of this division or of section 8.6.
- “§2. — *Limitation on increases in the tax burden*
- Powers. “101. The city shall avail itself either of the power provided for in section 101.1 and, if it imposes the business tax, of that provided for in section 101.2, or of the power provided for in section 101.7.
- 5% increase. “101.1. The city may, for a fiscal year, fix any general property tax rate in such manner that, in relation to the preceding fiscal year, the increase in the tax burden borne by the aggregate of the units of assessment situated in a sector and in respect of which all or part of the rate applies is not greater than 5%.
- Tax burden. The tax burden shall consist of
- (1) the revenues derived from the general property tax which result from the application of all or part of a rate of that tax ;
 - (2) the revenues derived from other taxes, including the taxes imposed on the basis of the rental value of immovables and compensations considered by the applicable legislation to be taxes, in particular the taxes used to finance services such as the supply of drinking water, waste water purification, snow removal, waste disposal, and residual materials upgrading ;
 - (3) the revenues derived from the amounts to stand in lieu of taxes that must be paid in respect of immovables by the Government in accordance with the second paragraph of section 210 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) or by the Government in accordance with section 254 and the first paragraph of section 255 of that Act, or by the Crown in right of Canada or by one of its mandataries ;
 - (4) the revenues of which the city has deprived itself by granting a credit in respect of any of the sources of revenue referred to in any of subparagraphs 1 to 3, for the application of section 8 as regards the allocation of the credit from a surplus.
- Exclusion. However, the revenues referred to in the second paragraph which are used to finance expenditures relating to debts shall be excluded from the tax burden.

- 5% increase. “101.2. The city may, for a fiscal year, fix the rate of the business tax in such manner that, in relation to the preceding fiscal year, the increase in the revenues derived from that tax in respect of all the business establishments situated in a sector is not greater than 5%.
- Amounts in lieu of tax. The revenues derived from the amounts to stand in lieu of the business tax that must be paid by the Government in accordance with the second paragraph of section 210 or the second paragraph of section 254 and the first paragraph of section 255 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) shall be included in those revenues.
- Increase of less than 5%. “101.3. - Restriction. “101.4. Where the increase under section 101.1 or 101.2 does not result solely from the constitution of the city, the maximum shall apply only in respect of the part of the increase that results from the constitution.
- Rules on source of increase. “101.5. If the city avails itself of any of the powers provided for in sections 101.1 and 101.2, it shall, subject to any regulation under the second paragraph, prescribe the rules to determine whether the increase under that section results solely from the constitution of the city and, if not, to establish the part resulting from the constitution.
- Regulation. The Government may, by regulation, determine the only cases in which an increase is deemed not to result from the constitution of the city.
- Correspondences. If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) and imposes the surtax or the tax on non-residential immovables or the surtax on vacant land, it must, if it avails itself of the power provided for in section 101.1, prescribe the rules to enable the appropriate correspondences to be made so as to obtain the same results, as regards the application of that section, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to each tax or surtax imposed.
- Percentage increase. “101.6. For the purpose of the establishment of the percentage increase referred to in section 101.1 for the fiscal year 2002, where the local municipality whose territory constitutes the sector concerned has appropriated as revenue for the fiscal year 2001 all or part of its surpluses from preceding fiscal years, in an amount exceeding the average of the amounts it appropriated for the fiscal years 1996 to 2000, the difference obtained by subtracting from that excess amount the amount of the sum that the municipality was exempted from paying, by the operation of sections 90 to 96 of chapter 54 of the statutes of 2000, for the special local activities financing fund, shall be included for the fiscal year 2001 in the tax burden borne by the aggregate of the units of assessment situated in the sector.

- 5% increase. “101.7. The city may prescribe the rules enabling it to grant an abatement for a fiscal year in such manner that, in relation to the preceding fiscal year, any increase in the tax burden borne by a unit of assessment or a business establishment is not greater than 5%.
- Provisions applicable. The second and third paragraphs of section 101.1 and sections 101.2 to 101.6 apply, with the necessary modifications, for the purposes of the limitation on the increase under the first paragraph.
- Rules. If it avails itself of the power provided for in the first paragraph, the city shall determine the rules to enable the rules set out in the provisions among those referred to in the second paragraph which take into consideration aggregates of units or of establishments, to be adapted to each unit of assessment or business establishment considered individually.
- “§3. — *Limitation on decreases in the tax burden*
- General property tax rate. “102. The city may, for a fiscal year, fix any general property tax rate in such manner that, in relation to the preceding fiscal year, the decrease in the tax burden borne by the aggregate of the units of assessment situated in a sector and in respect of which all or part of the rate applies is not greater than the percentage, applicable only to the group formed of the sectors concerned, fixed by the city.
- Provisions applicable. The second and third paragraphs of section 101.1, the third paragraph of section 101.5 and section 101.6 apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.
- Rate of the business tax. “102.1. The city may, for a fiscal year, fix the rate of the business tax in such manner that, in relation to the preceding fiscal year, the decrease in the revenues derived from that tax in respect of the aggregate of the business establishments situated in a sector is not greater than the percentage, applicable only to the group formed of the sectors concerned, fixed by the city.
- Amounts in lieu of tax. The revenues derived from the amounts to stand in lieu of the business tax that must be paid by the Government in accordance with the second paragraph of section 210 or the second paragraph of section 254 and the first paragraph of section 255 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) shall be included in those revenues.
- Rules respecting a supplement. “102.2. If the city does not avail itself of the power provided for in section 102 or 102.1, it may prescribe the rules enabling it to require a supplement for a fiscal year in such manner that, in relation to the preceding fiscal year, the decrease in the tax burden borne by any unit of assessment or any business establishment is not greater than the percentage, applicable only to the group formed of the whole territory, fixed by the city.

- Provisions applicable. The second and third paragraphs of section 101.1, the third paragraph of section 101.5 and section 101.6, in the case of a unit of assessment, or the second paragraph of section 102.1, in the case of a business establishment, apply, with the necessary modifications, for the purposes of the limitation on the decrease under the first paragraph.
- Adaptations. If it avails itself of the power provided for in the first paragraph, the city shall determine the rules to enable the rules set out in the provisions among those referred to in the second paragraph which take into consideration aggregates of units or of establishments, to be adapted to each unit of assessment or business establishment considered individually.
- “§4. — *Miscellaneous provisions*
- Powers. “102.3. The city may avail itself of the powers provided for in Division III.1 of Chapter XVIII of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of one sector without doing so in respect of another sector, or it may avail itself of such powers in a different manner according to the sectors.
- Coefficient. “102.4. Where, under section 244.29 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city fixes, for a fiscal year prior to the fiscal year in which the first assessment roll drawn up specifically for the city comes into force, a general property tax rate specific to any of the categories provided for in sections 244.34 and 244.35 of that Act, the coefficient referred to in section 244.44 or 244.47 of that Act is the coefficient established on the basis of a comparison of the last two property assessment rolls of the local municipality, among the local municipalities referred to in section 5, that has the largest population for 2001.
- Business tax. “102.5. For the fiscal year 2002, the city shall impose the business tax in respect of a sector in which that tax was imposed for the fiscal year 2001 and refrain from imposing such a tax in respect of any other sector. In the first case, the city shall fix the rate in such manner that the revenues from the business tax estimated for the fiscal year 2002 in respect of the sector are not less than the business tax revenues that the municipality concerned estimated for the fiscal year 2001.
- Business tax. For every fiscal year subsequent to the fiscal year 2002, if the city does not impose the business tax in respect of the whole of its territory it may impose the business tax in respect of any sector in which that tax was imposed for the fiscal years 2001 and 2002.
- Roll of rental values. For the purposes of the first two paragraphs, the roll of rental values in force in the sector for the fiscal year 2001 shall continue to apply until the end of the last fiscal year for which it was drawn up. The city may, if necessary for the purposes of those paragraphs, cause a roll of rental values to be drawn up pursuant to the Act respecting municipal taxation (R.S.Q., chapter F-2.1) in respect of a sector rather than in respect of the whole of its territory.

- Tax credits program. “102.6. The city may establish a program for the purpose of granting, in the circumstances described in the second paragraph, a credit applicable in respect of the amount of the general property tax imposed, for any fiscal year from the fiscal year referred to in subparagraph 1 of that paragraph, on any unit of assessment situated in a sector and that belongs to the group described in section 244.31 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1).
- Conditions. The credit may be granted where the following conditions are met:
- (1) for a particular fiscal year, the business tax is not imposed in respect of the sector, either separately or as part of the whole territory of the city, or, if the business tax is imposed, the estimated revenues therefrom in respect of the sector are less than those of the preceding fiscal year;
 - (2) the business tax was imposed in respect of the sector, for the fiscal year preceding the fiscal year referred to in subparagraph 1, without being imposed in respect of the whole territory of the city; and
 - (3) the general property tax revenues estimated in respect of the sector for the fiscal year referred to in subparagraph 1 and derived from the application of all or part of any of the rates specific to the categories provided for in sections 244.33 and 244.34 of the Act respecting municipal taxation are greater than they would have been were it not for the loss of or decrease in business tax revenues.
- Credit. The credit shall diminish the amount payable of the general property tax imposed on any unit of assessment referred to in the first paragraph in respect of which all or part of a rate referred to in subparagraph 3 of the second paragraph applies. The amount of the credit shall be established according to the rules set out in the program.
- Cost. The cost of the aggregate of the credits granted in respect of the units of assessment situated in the sector shall be a burden on the aggregate of the units situated in the sector that belong to the group referred to in the first paragraph.
- Correspondences. If the city does not avail itself of the power provided for in section 244.29 of the Act respecting municipal taxation and imposes the surtax or the tax on non-residential immovables, it must, if it avails itself of the power under the first paragraph, prescribe the rules enabling the appropriate correspondences to be made so as to obtain the same results, as regards the application of the first four paragraphs, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to the surtax or the tax on non-residential immovables.
- Averaging of variation in taxable values. “102.7. Where a local municipality referred to in section 5 has availed itself, in respect of its roll of assessment that came into force on 1 January 2001, of the power provided for in section 253.27 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the city may, on or before the

adoption of the budget for the fiscal year 2002, provide that the averaging of the variation in the taxable values resulting from the coming into force of the roll will continue for that fiscal year in respect of the sector concerned.”

- Authorization. 496. Every municipality or urban community referred to, as the case may be, in section 5 of any of Schedules I to V of the Act to reform the municipal

territorial organization of the metropolitan regions of Montréal, Québec and the Outaouais (2000, chapter 56), and every body of such municipality or urban community must, to alienate any property having a value greater than \$10,000, obtain the authorization of the Minister of Municipal Affairs and Greater Montréal.

- Opinion. The Minister may, before deciding an application for authorization, request the opinion of the transition committee that was constituted in the territory comprising the territory of the municipality, urban community or body.
- Contract awarding process in progress. 497. Every contract awarding process in progress on 21 June 2001, in accordance with a provision amended, replaced or struck out by this Act, shall be continued according to that provision and to any provision of the Act so amended which refers or is related thereto, notwithstanding the amendment, replacement or striking out thereof by this Act.
- Provisions applicable. 498. Section 264 of the Act respecting the Communauté métropolitaine de Montréal (2000, chapter 34), as it read before being replaced by section 213 of this Act, continues to apply in respect of any document, referred to in that section, that was served on the Minister of Municipal Affairs and Greater Montréal before 21 June 2001. However, the obligation, set out in that section, to obtain the opinion of the Community, is deemed to be met by the sole fact that the opinion was requested from the Community by the Minister.
- Effect. 499. Sections 30 and 200 have effect for the purposes of municipal fiscal years from the fiscal year 2002.
- Provisions applicable 500. The provisions of the Act respecting elections and referendums in municipalities (R.S.Q., chapter E-2.2) relating to the notion of elector for the purposes of the division of the territory into electoral districts, as they read on 20 June 2001, continue to apply in respect of a local municipality which, on that date, has adopted the draft by-law dividing its territory into electoral districts.
- Date replaced. 501. For the purposes of any regular election to be held in 2001, the date of 1 January provided for in sections 162.1 and 512.4.1 of the Act respecting elections and referendums in municipalities (R.S.Q., chapter E-2.2), enacted by sections 86 and 101, respectively, is replaced by 21 June 2001.
- Property assessment rolls. 502. Every property assessment roll that comes into force on 1 January 2002 must contain, upon being deposited, the entries referred to in section 57.1 and the first paragraph of section 57.1.1 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) as amended by sections 111 and 112.
- Amendment. Every property assessment roll in force on 21 June 2001 that does not contain those entries must be amended not later than 15 September 2001 to include such entries, unless it must be replaced by the property assessment roll referred to in the first paragraph.

Global certificate.

In order to add the entries, the competent assessor may, instead of proceeding in accordance with the provisions of the Act respecting municipal taxation relating to the updating of the roll, file a global certificate for all the alterations. In such a case,

(1) for any fiscal year for which the roll applies, the local municipality concerned may neither levy the surtax or the tax on non-residential immovables nor avail itself of section 244.29 of the Act respecting municipal taxation to levy the general property tax at a rate specific to the category of non-residential immovables provided for in section 244.33 of that Act;

(2) the clerk or the secretary-treasurer of the local municipality is not required to send a notice of alteration;

(3) no application for review may be filed nor any action to quash or set aside be brought with regard to the alterations.

Effect.

503. Sections 119, 121 and 122 have effect for the purpose of any fiscal year from the fiscal year 2002.

Interpretation.

For the purposes of the third paragraph of section 231.5 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1) enacted by section 121, if the preceding fiscal year referred to in that paragraph is the fiscal year 2001, all of the territories and the budgets of the municipalities referred to in section 5 of Schedule I to chapter 56 of the statutes of 2000 are, for that fiscal year, considered to be, respectively, the territory and the budget of Ville de Montréal constituted by section 1 of the Schedule.

Effective date of recognition.

504. The Minister of International Relations may indicate, in respect of any recognition granted before 21 June 2001 under a regulation made by the Government under section 210 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the date on which the recognition became effective.

Provisions applicable.

That section, as amended by section 120, applies in such a case in respect of the exemption and obligation arising from the recognition in respect of the payment of a sum provided for in that section.

Joint commission.

505. The Government may, following the constitution of a new city in the Saguenay region by an order under section 125.27 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9), enacted by section 143 of this Act, establish a joint commission whose object is to coordinate residual materials management in the territory of the new city and in any adjacent territory of a regional county municipality designated as a rural regional county municipality.

Composition.

The order establishing the commission shall determine the number of its members and its composition, the manner in which those members are designated, the commission's mission, its procedure and its powers.

- Joint land use planning commission. The Government may also, rather than creating a separate commission, assign to a joint land use planning commission established under section 75.1 of the Act respecting land use planning and development (R.S.Q., chapter A-19.1), such functions as it considers useful to entrust to the joint commission for the purpose of coordinating residual materials management in the territory in which the commission has jurisdiction.
- Fiscal year 2002. 506. For the purposes of the fiscal year 2002, sections 29, 30 and 34 of the Act respecting the Société de promotion économique du Québec métropolitain (R.S.Q., chapter S-11.04) shall be read as follows :
- Budget estimates. “29. Before 15 January 2002, the Société must submit its budget estimates for the current fiscal year to the Communauté métropolitaine de Québec.
- Approval. The budget estimates must be approved by the Community not later than 28 February.
- Renewal. If, on 1 March, the budget estimates of the Société have not been approved by the Community, the budget estimates for the fiscal year 2001 shall be renewed.
- Payment of contribution. “30. The Communauté métropolitaine de Québec shall pay its contribution to the Société on the date and according to such terms and conditions as the board of directors of the Société determines after consultation with the Community.
- Orientations. “34. Before 15 January 2002, the Société shall transmit its orientations and the means of action envisaged for the fiscal year 2002 to the Communauté métropolitaine de Québec.”
- Complementary document. 507. The council of Ville de Montréal must adopt not later than 31 March 2002 the complementary document to the planning program referred to in section 88 of Schedule I to the Act to reform the municipal territorial organization of the metropolitan regions of Montréal, Québec and the Outaouais (2000, chapter 56), replaced by section 265 of this Act.
- By-law. The coming into force of the by-law adopting the complementary document to the planning program has the same effect, provided for in the Act respecting land use planning and development (R.S.Q., chapter A-19.1), as an amendment to the city’s planning program.
- Election for office of warden. 508. Every regional county municipality designated as a rural regional county municipality may, by by-law, order that an election for the office of warden must be held in 2001, 2002 or 2003 in accordance with section 210.29.2 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9), with the following modifications :
- (1) for the purposes of that section, the year chosen is considered to be the year in which the general election must be held in all the local municipalities

to which Title I of the Act respecting elections and referendums in municipalities (R.S.Q., chapter E-2.2) applies ;

(2) the by-law is considered to be the by-law provided for in section 210.29.1 of that Act if, depending on whether the year chosen is 2001, 2002 or 2003, it is in force on 1 August 2001, 1 January 2002 or 1 January 2003.

- Obligation. The holding of such an election in the chosen year does not set aside the obligation to hold an election in 2005.
- Interpretation. The sections referred to in the first paragraph are those enacted by section 151.
- Maximum annual remuneration. 509. Until the coming into force of the first amendment to the Regulation respecting the maximum annual remuneration of elected municipal officers, made by Order in Council 1672-92 (1992, G.O. 2, 5081) for the purpose of fixing the maximum annual amount of remuneration which a warden elected in accordance with section 210.29.2 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9), enacted by section 151, is entitled to receive, that amount is \$65,000.
- 10% increase. 510. The amounts provided for in the Regulation respecting the tariff of remuneration payable for municipal elections and referendums (R.R.Q., 1981, chapter E-2.2, r.2) shall be increased by 10% from 21 June 2001. If the amount computed after the increase includes a decimal part, the decimal part shall be struck out and, where the first decimal would have been a figure greater than 5, the whole number shall be increased by 1. However, where the computed amount is to be multiplied by the number of electors or of qualified voters, the first three decimals are taken into account and, where the fourth decimal would have been a figure greater than 5, the third decimal shall be increased by 1. The chief electoral officer shall publish the results of the increase in the *Gazette officielle du Québec*.
- Applicability. The increase does not apply in the case of a by-election in respect of which the notice of election was given before 21 June 2001 or in the case of a referendum for which, on that date, the public notice required under section 572 of the Act respecting elections and referendums in municipalities (R.S.Q., chapter E-2.2) has been given.
- General election. 511. A general election must be held in 2005 in all local municipalities to which Title I of the Act respecting elections and referendums in municipalities (R.S.Q., chapter E-2.2) applies.
- Prohibition. No regular election may be held in 2004 in such a local municipality.
- Coming into force. 512. This Act comes into force on 21 June 2001, except the following provisions which come into force on 1 January 2002: sections 12 to 27, paragraph 1 of section 31, sections 32, 44 and 45, section 52, paragraph 1 of section 59, sections 133, 134, 179 to 188, 218 to 224, 227 to 230, 232, 235 to

The association has 90 days after the date of receipt of the notice to apply to the Commission for a determination as to the application of section 45.

- Prescribed time. In the absence of such a notice, the time prescribed for filing such an application is 270 days from knowledge of the fact that the undertaking has been alienated or that the operation of all or a part of the undertaking has been transferred.
- Rules applicable. “45.2. Where the operation of part of an undertaking is transferred and notwithstanding section 45, the following rules apply :
- (1) the collective agreement expires on the date fixed for its expiry or 12 months after the date of the transfer of the operation of part of the undertaking, whichever is earlier, unless, on motion by an interested party filed within the prescribed time, as the case may be, in the first or second paragraph of section 45.1, the Commission determines that the new employer remains bound by the collective agreement until the date fixed for its expiry, if it considers that the transfer was made for the purpose of dividing a bargaining unit or interfering with the power of representation of an association of employees ;
- (2) the new employer is not bound by the certification or the collective agreement where a special agreement on the transfer includes a clause to the effect that the parties elect not to apply to the Commission to request the application of section 45. Such a clause binds the Commission but does not affect the effect, within the transferring employer’s enterprise, of the certification of the association of employees having signed the agreement.
- Applicability. Subparagraph 1 of the first paragraph does not apply in the case of the transfer of the operation of part of an undertaking between employers of the public and parapublic sectors within the meaning of paragraph 1 of section 111.2.
- Provisions applicable. “45.3. Where an undertaking subject to the Canada Labour Code (Revised Statutes of Canada, 1985, chapter L-2) as regards labour relations becomes, in that regard, subject to the legislative authority of Québec, the following provisions shall apply :
- (1) a certification granted, a collective agreement made and proceedings commenced under the Canada Labour Code for the securing of certification or the making or carrying out of a collective agreement are deemed to be a certification granted, a collective agreement made and filed and proceedings commenced under this Code ;
- (2) the employer remains bound by the certification or collective agreement or, where section 45 would have been applicable had the undertaking been under the legislative authority of Québec, the new employer becomes bound by the certification or collective agreement as if the employer were named therein and becomes *ipso facto* a party to any related proceeding in the place and stead of the former employer ;

(3) proceedings in progress for the securing of certification or the making or carrying out of a collective agreement shall be continued and decided according to the provisions of this Code, with the necessary modifications.

Collective agreement.

However, the collective agreement made by an uncertified association binds the new employer only until the expiry of 90 days after the date of alienation or transfer of operation if the association has not filed, during that time, a petition for certification in respect of the bargaining unit governed by the collective agreement or in respect of an essentially similar unit. If such a petition for certification is filed within that time, the collective agreement continues to bind the new employer until the date of a decision rendered by the Commission refusing, as the case may be, to grant certification.

Restriction.

No certification may be applied for by another association of employees in respect of such a bargaining unit before the expiry of 90 days or, if a petition for certification is filed during that time, before the date of the decision of the Commission refusing, as the case may be, to grant certification.”

The Commission may also, upon the motion of an interested party, settle any difficulty arising out of the application of those sections and of their effects in the manner it considers the most appropriate. To that end, the Commission may, in particular, render any decision necessary for the implementation of an agreement reached by the interested parties on the description of the bargaining units and on the designation of an association to represent the group of employees to whom the bargaining unit described in the agreement applies or on any other question of common interest.

(4) merge bargaining units and, where two or more collective agreements apply to the employees of the new employer included in a bargaining unit

resulting from the merger, determine the collective agreement that remains in force and make any modification or adaptation to the provisions of the collective agreement it considers necessary.

Merger.

The merger of bargaining units entails the merger, if any, of the employees' seniority lists to which they applied, according to the rules determined by the Commission governing the employees' integration.

Transfers.

Where the operation of an undertaking is transferred to another during certification proceedings, the Commission may decide that the transferring employer and the transferee are successively bound by the certification."

[Assented to 21 June 2001]

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS :

- c. C-24.2, s. 64, am. 1. Section 64 of the Highway Safety Code (R.S.Q., chapter C-24.2) is amended by adding the following paragraph at the end :
- Conditions. “In the case of a licence authorizing a person to drive a road vehicle only if it is equipped with an alcohol ignition interlock device, the Société shall establish conditions for the issue of the licence and conditions for the use of the alcohol ignition interlock device. Where so required by the Société, the licence holder must furnish the data collected by the alcohol ignition interlock device.”
- c. C-24.2, s. 73, am. 2. Section 73 of the said Code is amended by adding the following paragraphs after the third paragraph :
- Chronic alcoholism. “If the examination shows that the person suffers from chronic alcoholism or a pharmaco-physiological alcohol dependence or the assessment shows that the person’s relationship with alcohol compromises the safe operation of a road vehicle corresponding to the class of licence applied for, the probationary licence or driver’s licence that may be issued to the person by the Société shall authorize the person to drive a road vehicle only if it is equipped with an alcohol ignition interlock device approved by the Société.
- Exemption. If warranted by exceptional medical reasons, the Société may exempt a person from the obligation to equip the vehicle the person drives with an alcohol ignition interlock device. In that case, the person is prohibited from driving or having the care or control of a vehicle if any alcohol is present in the person’s body. The Société may require the person to furnish it with any relevant information or documents concerning the person’s relationship with alcohol.”
- c. C-24.2, s. 76, replaced. 3. Section 76 of the said Code is replaced by the following section :
- Prohibition. “76. No licence may be issued to a person whose licence has been cancelled or whose right to obtain a licence has been suspended following a conviction for an offence under section 180, until one, three or five years have elapsed since the date of the cancellation or suspension, according to whether, in the ten years preceding the cancellation or suspension, the person incurred no cancellation or suspension, one cancellation or suspension, or more than one cancellation or suspension under that section.

- Period of ineligibility. Where a conviction is followed by an order prohibiting the driving of a road vehicle made under subsection 1 or 2 of section 259 of the Criminal Code (Revised Statutes of Canada, 1985, chapter C-46) for a period that exceeds the period applicable under the first paragraph, the applicable period shall be equal to the period established in the order.
- Restricted licence. Upon the expiry of the order referred to in the second paragraph or as soon as permitted by the Criminal Code, a person whose licence has been cancelled or whose right to obtain a licence has been suspended following a conviction for an offence referred to in subparagraph 4 of the first paragraph of section 180 may be authorized to drive a road vehicle, under a restricted licence, if it is equipped with an alcohol ignition interlock device. The restricted licence is valid until the end of the period determined under the first paragraph.
- Additional conditions. If the offence giving rise to the cancellation or suspension is an offence referred to in subparagraph 4 of the first paragraph of section 180, the following additional conditions apply to the issue of a new licence :
- (1) if, during the ten years preceding the cancellation or suspension, the person incurred no cancellation or suspension under subparagraph 4 of the first paragraph of section 180, the person must

 - (b) establish, to the satisfaction of the Société, after undergoing a summary assessment by a duly authorized person working in a rehabilitation centre for alcoholic and other addicted persons or in a hospital centre offering rehabilitation services to such persons that the person's relationship with alcohol or drugs does not compromise the safe operation of a road vehicle corresponding to the class of licence applied for. If the summary assessment is not conclusive, the person must satisfy that requirement on the basis of a comprehensive assessment ;
 - (2) if, during the ten years preceding the cancellation or suspension, the person incurred one or more cancellation or suspension under subparagraph 4 of the first paragraph of section 180, the person must satisfy the requirement specified in subparagraph *b* of subparagraph 1 on the basis of a comprehensive assessment.
- Assessment report. An assessment report must be submitted to the Société within the time it specifies.
- Probationary licence. If the restricted licence referred to in the third paragraph is expired and an assessment has not established to the satisfaction of the Société that the person's relationship with alcohol or drugs does not compromise the safe operation of a road vehicle corresponding to the class of licence applied for, the Société may issue to the person, for the period it determines, a probationary

licence or a driver's licence authorizing the person to drive a road vehicle only if it is equipped with an alcohol ignition interlock device approved by the Société."

If warranted by exceptional medical reasons, the Société may exempt a person from the obligation to equip the vehicle the person drives with an alcohol ignition interlock device. In that case, the person is prohibited from driving or having the care or control of a vehicle if any alcohol is present in the person's body. THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS :

CHAPTER I

SCOPE

DIVISION I

APPLICABILITY

- Applicability. 1. The Pension Plan of Management Personnel applies, to the extent provided for in this chapter, to employees and persons appointed or engaged on or after 1 January 2001 to hold, with the corresponding classification, non-unionizable employment designated in Schedule I and referred to in Schedule II.
- Applicability. The plan also applies to the extent provided for in this chapter, from 1 January 2001, to employees and persons referred to in Schedule II, appointed or engaged before that date to hold, with the corresponding classification, non-unionizable employment designated in Schedule I, to the extent that, on 31 December 2000, they were members of the Government and Public Employees Retirement Plan as employees governed by the special provisions enacted under Title IV.0.1 of the Act respecting the Government and Public Employees Retirement Plan (R.S.Q., chapter R-10), and to the extent that, on 1 January 2001, they would have maintained their membership in the plan under the said special provisions if those provisions had not been replaced by this Act.
- Schedules. For the purposes of the second paragraph, Schedules I and II are the schedules in force on 1 January 2001.
- Applicability. 2. The plan also applies, to the extent provided for in this chapter, to
- (1) a person who was a member of the Government and Public Employees Retirement Plan on 31 December 2000 as a non-unionizable employee pursuant to an order made before 1 January 2001, to the extent that such an order continues to apply to that person ;
 - (2) a full-time member of a body established under an Act of Québec if the member applies therefor and if the Government makes an order to that effect ;

(3) an administrator of state within the meaning of the Public Service Act (R.S.Q., chapter F-3.1.1) or the chief executive officer of an agency who becomes an employee or full-time member of a university institution or of an organization designated by the Government if he or she applies to continue to be a member of the plan and if the Government makes an order to that effect;

(4) a person engaged by contract by the Government under section 57 of the Public Service Act if the person applies therefor and if the Government makes an order to that effect;

(5) a member of the staff of a minister or of a person referred to in section 124.1 of the Act respecting the National Assembly (R.S.Q., chapter A-23.1), who holds non-unionizable employment designated in paragraph III of Schedule I and who is not entitled to assignment or reassignment to pensionable employment under this plan or the Government and Public Employees Retirement Plan if, at the member's request, the Government makes an order to that effect, except where the member may avail himself or herself of section 4.1 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (R.S.Q., chapter R-9.2), section 9.0.1 of the Act respecting the Teachers Pension Plan (R.S.Q., chapter R-11) or section 54 of the Act respecting the Civil Service Superannuation Plan (R.S.Q., chapter R-12);

(6) an employee appointed or engaged to hold, with the corresponding classification, non-unionizable employment designated in Schedule I, who is released without pay by an employer and who, while released without pay, holds non-unionizable employment designated in paragraph V of Schedule I with an organization designated in Schedule III;

(7) an employee who was a member of this plan in respect of pensionable employment under the Government and Public Employees Retirement Plan immediately before being released without pay by his or her employer for union activities and who, while released without pay, is in the employ of a body designated in Schedule II.1 of the Act respecting the Government and Public Employees Retirement Plan if, where applicable, the employee belongs to the class of employees mentioned in that schedule in respect of that body;

(8) any other person to whom this plan becomes applicable pursuant to an Act, a regulation or an order.

Applicability.

3. This plan does not apply to a person who

(1) is under 18 years of age;

(2) becomes an employee on or after 31 December of the year in which the person attains 69 years of age;

(3) is excluded by regulation by reason of the class of employees to which the person belongs or the person's conditions of employment, remuneration or mode of remuneration;

(4) is receiving benefits under a pension plan provided for in the Courts of Justice Act (R.S.Q., chapter T-16);

(5) is a member of the Sûreté du Québec;

(6) is a Member of the National Assembly;

(7) is an administrator of state within the meaning of the Public Service Act or is a member of a body or agency to which the plan otherwise applies or would otherwise apply, if the person applies therefor and if the Government makes an order to that effect.

Applicability.

Moreover, the plan does not apply to a person in respect of employment referred to in the first paragraph of section 7 if, in such employment, the person is a member of another pension plan, except if, pursuant to section 3.2 of the Act respecting the Government and Public Employees Retirement Plan, the person is a member of the plan established by that Act.

Employees.

4. The employees and persons to whom this plan applies are, for the purposes of this plan, considered to be employees unless they are pensioners under this plan, the Government and Public Employees Retirement Plan, the Pension Plan of Peace Officers in Correctional Services, the Teachers Pension Plan, the Civil Service Superannuation Plan, the Pension Plan of Certain Teachers or the pension plans established pursuant to sections 9, 10 and 10.0.1 of the Act respecting the Government and Public Employees Retirement Plan.

Cessation of membership.

5. An employee ceases to be a member of the plan on 31 December of the year in which the employee attains 69 years of age.

DIVISION II

PARTICIPATION

Membership.

6. For the purposes of this plan, an employee is a member of a plan from the first day on which the employee holds pensionable employment.

Membership.

However, an employee who, on 31 December 2000, is a member of the Government and Public Employees Retirement Plan as an employee governed by the special provisions enacted under Title IV.0.1 of the Act respecting the Government and Public Employees Retirement Plan and who, on that date, remains entitled to be governed by those provisions, shall become a member of this plan on 1 January 2001 to the extent that, on that date, the employee would have continued to be a member of the Government and Public Employees Retirement Plan if those provisions had not been replaced by this Act.

Pensionable employment.

7. Any employment referred to in Schedule I must, in order to be pensionable employment under this plan, correspond to at least 40% of the regular time of a full-time employee holding pensionable employment. In addition,

employment is, in respect of an employee, pensionable employment under this plan only to the extent that the employee has the classification attached to the employment.

Pensionable employment.

Pensionable employment under the Act respecting the Government and Public Employees Retirement Plan becomes, in respect of an employee who qualifies for membership in this plan pursuant to Division III of this chapter, pensionable employment under this plan from the day after the day on which the employee becomes so qualified. However, if such an employee ceases to be a member of this plan, unionizable employment within the meaning of the Act respecting the Government and Public Employees Retirement Plan becomes, in respect of the employee, pensionable employment under this plan if the employee holds such unionizable employment within 180 days from the date on which the employee ceased to be a member of this plan.

Presumption.

An employee to whom this plan applies is deemed to hold pensionable employment at any time when the employee holds full-time or part-time employment, which includes, among other periods, any period during which the employee is on leave without pay, is receiving salary insurance benefits and, in the case of a female employee, is on maternity leave.

Salary insurance.

For the purposes of this plan, salary insurance means the salary insurance that is mandatory for the employee but does not include the salary insurance referred to in section 43.

Presumption.

8. For the purposes of sections 6, 7, 10 and 12, an employee is deemed to hold pensionable employment when the person simultaneously holds more than one employment referred to in Schedule I constituting at least 40% of the regular time of a full-time employee holding such employment, if the employee's classification is related to each such employment.

Exclusion.

The Government may, by regulation, exclude employees from the application of the first paragraph by reason of the class to which they belong or their conditions of employment.

Participation in pension plan.

9. For the purposes of this plan, participation in a pension plan continues as long as the employee remains a member of the plan. However, for the purposes of eligibility for and computation of benefits under this plan, the participation of an employee who ceases to be a member of this plan for any period during which the employee does not hold pensionable employment, is deemed to have ceased,

(1) if the employee is not eligible for a pension, on the last day the employee held pensionable employment or, where applicable, on the date the Commission administrative des régimes de retraite et d'assurances received an application for redemption pursuant to which years and parts of a year of service were credited or counted under the plan or in respect of which such years and parts of a year of service were counted for the purpose of acquiring pension credits under the Act respecting the Government and Public Employees Retirement Plan, if such date is subsequent to the last day referred to above;

(2) if the employee is eligible for a pension, on the first day the employee became so eligible, from the day or date that would have been considered if paragraph 1 had applied.

DIVISION III

QUALIFICATION

Qualification.	<p>10. An employee qualifies for membership in this plan if the service credited to the employee in respect of employments referred to in the first paragraph of section 7 is not less, during each year or part of a year included in a period of at least 24 consecutive months, than 40% of the service credited to a full-time employee holding such employment during each of those years or parts of a year. The employee qualifies for membership in this plan</p> <p>(1) on the last day of the last year or of the part of a year included in the 24-month period if the employee, to that date, is a member of the plan ; or</p> <p>(2) on the day the employee ceases to be a member of the plan, if the employee was not a member of the plan on the date determined in subparagraph 1 and if, to that date, the employee is assured of meeting, as of that day, the requirement of this paragraph.</p>
Membership.	<p>An employee qualified in accordance with the first paragraph is a member of this plan in respect of all employment referred to in section 7 from the day following the day on which the employee qualifies for membership.</p>
Presumption.	<p>11. An employee is deemed to hold employment referred to in the first paragraph of section 7 while the employee is participating in the employment stability measures provided in the employee's conditions of employment or the classification rules that are applicable to management personnel.</p>
24-month period.	<p>12. The 24-month period provided for in section 10 begins on the first day the employee holds employment referred to in the first paragraph of section 7.</p>
Days taken into account.	<p>For the purposes of section 10, the only days in respect of which the employee paid or was exempt from contributions and, in the case of a female employee, the days during which the employee was on maternity leave, are to be taken into account. Any other period during which an employee is on leave without pay shall not be taken into account and shall have no effect other than suspending the calculation of the 24-month period referred to in that paragraph if the employee ceases to meet the conditions provided for therein by reason of such leave.</p>
24-month period.	<p>The days and parts of a day during which a person is not a member of the plan do not constitute a suspension or an interruption of the 24-month period.</p>
Determination of qualification.	<p>For the purpose of determining an employee's qualification for membership, a new period of 24 months may begin on the first day on which the employee</p>

holds employment referred to in the first paragraph of section 7, even if the employee begins to hold such other employment before the end of the previous period.

Death of employee.

13. An employee who dies before qualifying for membership in this plan and who, at the time of death, was holding employment referred to in the first paragraph of section 7 is deemed to have qualified on the date of his or her death. If, at the time of death, the employee was not holding such employment, the employee is deemed to have qualified on the date of the end of his or her participation in this plan if the service credited to the employee in respect of employment referred to in the first paragraph of section 7 is not less, for each year or part of a year included in the period comprised between the beginning of the employee's participation and the date of the employee's death, than 40% of the service credited to a full-time employee holding such employment.

Presumption.

An employee referred to in the second paragraph of section 80 who applies for the amount referred to in the first paragraph of that section before qualifying for membership in this plan and who, at the time the Commission receives the employee's application, is holding employment referred to in the first paragraph of section 7 is deemed to have qualified on the date of receipt of the application. If, on that date, the employee is not holding such employment, the employee is deemed to have qualified on the date on which the employee ceased to be a member of this plan if the service credited in respect of employment referred to in the first paragraph of section 7 is not less, for each year or part of a year included in the period comprised between the beginning of the employee's participation and the receipt of the employee's application, than 40% of the service credited to a full-time employee holding such employment.

Presumption.

14. An employee referred to in the second paragraph of section 1 or a person referred to in section 2 who has completed the 24-month period provided for in section 4 or 5 of the Regulation respecting special provisions applicable to non-unionizable employees, enacted by Order in Council 787-97 (1997, G.O. 2, 3335) as it read on 31 December 2000, is deemed to be qualified for membership in this plan in accordance with section 10.

24-month period.

15. The period of 24 consecutive months referred to in section 10 of this Act comprises the period during which the employee referred to in section 1 or the person referred to in section 2 was, before 1 January 2001, governed by the special provisions enacted under Title IV.0.1 of the Act respecting the Government and Public Employees Retirement Plan as it read on that date, if the employee had not, at that time, completed the 24-month period and if the employee had not lost the right to be so governed on 31 December 2000.

Cessation of qualification.

16. An employee ceases to qualify for membership in this plan on the day the employee holds unionizable employment within the meaning of the Act respecting the Government and Public Employees Retirement Plan if the employee begins to hold unionizable employment more than 180 days after the date on which this plan ceased to apply to the employee. The employee shall be a member of the Government and Public Employees Retirement Plan from that day, subject to the first paragraph of section 3.1 of that Act.

Cessation of membership.

17. Subject to the fourth paragraph of section 12, if the service credited to an employee in respect of employment referred to in the first paragraph of section 7 for a year or part of a year included in a 24-month period provided for in section 10 is less than the percentage of the credited service determined in section 10, the employee ceases to be a member of the plan

(1) on the last day of the year or part of a year included in the 24-month period if, on that day, the employee was a member of the plan ; or

(2) the last day on which the employee ceases to be a member of the plan if the employee was not a member of the plan on the date determined in subparagraph 1.

Membership.

The employee is, in respect of employment referred to in the first paragraph of section 7, a member of the Government and Public Employees Retirement Plan on the day following the day on which the employee ceases to be a member of this plan or, in the case provided for in subparagraph 2 of the first paragraph, the first day on which the employee holds pensionable employment under the Government and Public Employees Retirement Plan. That paragraph applies, subject to section 3.1 of the Act respecting the Government and Public Employees Retirement Plan.

Presumption.

However, in the case provided for in subparagraph 2 of the first paragraph, where the person does not hold pensionable employment under the Government and Public Employees Retirement Plan, the person is, for the purposes of eligibility for and computation of benefits under the plan, deemed to have ceased to be a member of the plan on the date determined in section 9 as if the person had qualified for membership in this plan.

Recognition of years of service.

18. The Government may, by regulation, for the purpose of qualification under this plan, recognize years or parts of a year of service accumulated in non-unionizable employment by employees who belong to a class designated by the Government before becoming members of this plan. For that purpose, the Government shall determine the circumstances, conditions and procedure of recognition.

DIVISION IV

SPECIAL PROVISIONS

Membership.

19. A person who is qualified for membership in this plan and who receives benefits under the mandatory basic long-term salary insurance plan applicable to management personnel in the public and parapublic sectors shall continue to be a member of this plan in respect of the employment giving the employee entitlement to the benefits as long as the employee receives such benefits if the employment relationship has been terminated by the employee's employer. The insurer shall pay the contributions that would have been paid by the person in respect of the employment and the contributions shall be credited to the account of the person.

- Applicability. 20. Notwithstanding the second paragraph of section 3, the plan applies to employees and persons referred to in Schedule II who were appointed or engaged to hold, with the corresponding classification, non-unionizable employment designated in Schedule I and who are members of a supplemental pension plan with regard to an employer party to this plan, if the employees holding, with the corresponding classification, non-unionizable employment corresponding to at least 40% of the regular time of an employee holding full-time non-unionizable employment have elected to be members of this plan by a poll held in accordance with sections 6 and 7 of the Act respecting the Government and Public Employees Retirement Plan.
- Applicability. The plan applies to the extent provided for in this chapter from the date determined in section 8 of the said Act.
- Applicability. 21. Notwithstanding the second paragraph of section 3, this plan applies, to the extent provided for in this chapter, to any employee who holds, with the corresponding classification, non-unionizable employment designated in Schedule I and whose supplemental pension plan with regard to an employer party to the plan ended after 31 December 2000 by reason of an amendment to the supplemental pension plan.
- Membership. 22. A person who ceases to be a member of a supplemental pension plan with regard to an employer party to this plan and who subsequently returns to the same or other employment that is pensionable employment under that supplemental pension plan shall, to the extent provided for by this chapter, be a member of this plan if the employment is also referred to in the first paragraph of section 7, unless the supplemental pension plan requires the person to resume membership in that plan pursuant to a clause pertaining to interruption of service.
- Special provisions. 23. Notwithstanding any inconsistent provision of this Act, except the provisions of Chapter VIII, the Government may establish special provisions with respect to classes or subclasses of employees it designates. The Commission shall, in administering this plan in respect of an employee belonging to a class so designated, take into account the special provisions applicable to such a class. Divisions I and II of Chapter IV of Title III of the Act respecting the Government and Public Employees Retirement Plan do not apply to such an employee but the employee may, in the year following the mailing date of any decision of the Commission concerning the employee, file with the Commission an application for arbitration. The arbitrator shall be one of the persons appointed pursuant to the second paragraph of section 183 of that Act, and sections 184 to 186 of that Act shall apply. However, an employee who belongs to a class so designated may elect not to be governed by the special provisions by filing an application to that effect with the Commission within a period of one year from the day on which those provisions began to govern the employee, and the employee's election shall apply from that day. The employee may, even after making that election, reconsider his or her decision and elect in favour of the special provisions by sending a notice to that effect to the Commission, and the employee's election shall apply from the date on which the notice is received by the Commission.

- Effect. An order under the first paragraph may have effect 12 months or less before it is made.
- Cessation of membership. A person who is a member of the Teachers Pension Plan or the Civil Service Superannuation Plan, as the case may be, ceases to be a member of his or her plan on the day preceding the day on which the person joins a class of employees designated under the first paragraph. In such a case, the person shall be a member of this plan from the day on which the person joins such a class. However, the person may elect to continue to be a member of his or her plan by filing an application to that effect with the Commission within one year from the day on which the person becomes a member of this plan, and the person's election shall apply from that day. After making that election, the person may reconsider his or her decision and elect to become a member of this plan and be governed by the special provisions established pursuant to the first paragraph by sending a notice to that effect to the Commission, and the person's election shall apply from the date on which the notice is received by the Commission.
- Notice of election. An employee who is a member of the Pension Plan of Certain Teachers and who belongs to a class of employees designated under the first paragraph may elect to become a member of this plan by sending a notice to that effect to the Commission, and the employee's election shall apply from the date on which the notice is received by the Commission. The employee shall be credited, for pension purposes, with the years and parts of a year of service credited under the Pension Plan of Certain Teachers if the employee's contributions have not been refunded to the employee or if the employee is not a pensioner under this plan. The employee shall continue to be entitled to the benefits or advantages available to him or her under the Act respecting the Pension Plan of Certain Teachers (R.S.Q., chapter R-9.1) if the employee availed himself or herself thereof before electing to become a member of this plan. The Government may determine which provisions of the said Act shall continue to apply for the purposes of eligibility for and computation and payment of benefits.
- Pensioner. In the case of a pensioner under the Pension Plan of Certain Teachers, the Teachers Pension Plan or the Civil Service Superannuation Plan who is a member of this plan and belongs to a class of employees designated under the first paragraph, the provisions of that paragraph apply, with the necessary modifications, notwithstanding any inconsistent provision of those plans, with the exception of the provisions concerning the partition and transfer of benefits between spouses.
- Special pension plan. 24. The Government may also establish a special pension plan for persons who belong to classes of full-time employees it designates from those excluded by virtue of subparagraph 7 of the first paragraph of section 3. In that case, if a person belongs to such a class and is a member of the Civil Service Superannuation Plan, the person may elect to become a member of that special plan by sending a notice to that effect, and the special plan applies to that person from the first of the month occurring not less than three months after receipt of the notice.

Partition of family patrimony.

For the purposes of partition of the family patrimony, the Government may render all or some of the rules prescribed in Chapter VIII or enacted by the Government under the provisions of that chapter applicable to the plan, with the necessary modifications. It may also, for the same purposes, prescribe special provisions concerning the establishment and valuation of the benefits accrued under such plan as well as the reduction, by reason of the payment of the sums attributed to the spouse, of the sums payable under such plan.

CHAPTER II

DETERMINATION OF PENSIONABLE SALARY AND YEARS OF SERVICE

DIVISION I

PENSIONABLE SALARY

Basic salary.

25. The pensionable salary of an employee is the basic salary paid to the employee in the course of a calendar year, the salary to which the employee would have been entitled during a period of absence to which salary insurance applies and, in the case of a female employee, the salary to which the employee would have been entitled had there been no maternity leave.

Basic salary.

Unless included by government regulation, bonuses, allowances, compensations or other additional remuneration shall not be included in the basic salary.

Increase or adjustment.

26. Notwithstanding section 25, any lump sum paid as an increase or adjustment of the pensionable salary for a previous year shall form part of the pensionable salary for the year in which it is paid.

No service credited.

However, where the lump sum is paid in a year during which no service is credited, it shall be included in the pensionable salary of the last year during which service is credited prior to payment of the lump sum.

Exclusion.

Any part of the lump sum that is attributable to an increase or adjustment of the salary paid to a pensioner for any period during which the pensioner is not an employee for the purposes of the plan, even if the pensioner holds pensionable employment under the plan, shall be excluded.

Release with pay.

27. The pensionable salary of an employee who is released with pay to hold pensionable employment under this plan with an association representing the management personnel or for union activities is the salary paid to the employee by an employer and the salary, if any, paid to the employee by a body designated in Schedule III or, as the case may be, by a body designated in Schedule II.1 of the Act respecting the Government and Public Employees Retirement Plan.

- Contributory amount. The body concerned must pay its employer's contributory amount and deduct the contributions from the pensionable salary it pays to such an employee.
- Pensionable salary. 28. The pensionable salary of an employee in any calendar year shall not be less than the basic salary to which the employee is entitled in that year, determined in accordance with the conditions of employment applicable and according to the second paragraph of section 25, with the exception of any lump sum paid subsequently as an increase or adjustment of the pensionable salary for that year.
- Simultaneous employments. 29. The pensionable salary of an employee who simultaneously holds more than one pensionable employment in a year is the aggregate of the salary paid to the employee for each employment if the total service credited to the employee in respect of such employments is less than or equal to one year.
- Reduction. If the total service credited in respect of the pensionable employments of the employee is reduced for the purposes of section 32, the pensionable salary of the employee shall be equal to the total of the following amounts :
- (1) the pensionable salary attached to each employment in respect of which service is credited in full ; and
 - (2) the pensionable salary attached to the employment in respect of which service is credited in part, multiplied by the service credited in respect of that employment over the service accumulated in such employment.
- Maximum salary. 30. Notwithstanding sections 25 to 29, the pensionable salary of an employee shall not exceed the salary necessary to reach the defined benefit limit applicable for each year under the Income Tax Act (Revised Statutes of Canada, 1985, chapter 1, 5th Supplement).
- Pensionable salary. For the purposes of the first paragraph, the pensionable salary of an employee who, for the service accumulated in a calendar year, is credited with less than one year of service is, without exceeding the salary necessary to reach the limit referred to in the first paragraph, equal to the amount obtained by carrying out, in order, the following operations :
- (1) dividing the salary referred to in sections 25 to 29, reduced by the amount established in accordance with the third paragraph of section 53, by the service credited ; and
 - (2) adding to the result of that operation the amount established in accordance with the third paragraph of section 53.
- Exception. For the purposes of the second paragraph, the limit provided for in the first paragraph is not taken into account as regards the pensionable salary referred to in the third paragraph of section 53.

DIVISION II**YEARS OF SERVICE**

- Year of service credited. 31. One year of service or part of a year of service is credited, for each calendar year, to the employee for the service accumulated if the contributions have been paid and not refunded and for service that is otherwise credited to the employee under the provisions of the plan. The same applies with respect to an employee who has at least 35 years of credited service without being required to pay contributions.
- Computation. Service is credited according to the number of days and parts of a day for which the employee paid or was exempt from contributions and the days and parts of a day otherwise credited to the employee out of the number of contributory days in a year, that is, 200 or 260, according to the basis of remuneration. If, in the total number of days and parts of a day, there remains part of a day that is less than 0.5, the fraction is disregarded or, if the fraction is equal to or greater than 0.5, it is considered a full day.
- Simultaneous employments. 32. If an employee simultaneously holds more than one pensionable employment under the plan or the Government and Public Employees Retirement Plan pursuant to the second paragraph of section 7, the service accumulated by the employee is credited up to one year of service, beginning with service in respect of the employment to which the highest annual basic salary that is paid or would have been paid to the employee pursuant to the conditions of employment applicable on the last day credited in the year is attached.
- Service credited. Notwithstanding the first paragraph, no employee may, in the year in which the employee becomes a member of this plan, be credited with more service than the number of contributory days comprised between the date on which the employee becomes a member of this plan and the end of that year. During the year in which the employee retires or becomes entitled to a deferred pension, the employee may not be credited with more service than the number of contributory days comprised between 1 January and the date the employee ceased to be a member of the plan. In such cases, the service is credited, beginning with the service pertaining to the employment to which the highest annual basic salary is attached, in accordance with the first paragraph.
- Maximum service credited. 33. If an employee who does not qualify for membership in this plan is, at the same time, a member of this plan and the Government and Public Employees Retirement Plan, the total service credited to the employee under this plan, pursuant to sections 31 and 32, and the total service credited to the employee under the Government and Public Employees Retirement Plan shall not exceed one year.
- Salary insurance benefits. 34. The days and parts of a day of a period during which an employee receives salary insurance benefits or during which the employee would receive such benefits were it not for the waiting period prescribed by the salary insurance plan or were he or she not receiving a disability benefit under the

Act respecting the Québec Pension Plan (R.S.Q., chapter R-9) or an income replacement indemnity under the Act respecting industrial accidents and occupational diseases (R.S.Q., chapter A-3.001), the Automobile Insurance Act (R.S.Q., chapter A-25), the Act to promote good citizenship (R.S.Q., chapter C-20), the Crime Victims Compensation Act (R.S.Q., chapter I-6) or under any other Act, other than an Act of Québec, having the same effect, shall be credited, without contributions, up to three years of service.

- Exception. However, the limit of three years of service prescribed in the first paragraph shall not apply in the case of a compulsory salary insurance plan in force on 31 December 1989 which, on that date provides, in favour of certain groups of employees covered by this plan, benefits payable up to the age of 65 years or up to the age of retirement providing the employee belongs to one of those groups and the group's participation in the salary insurance plan is maintained.
- Contributions. Notwithstanding the foregoing, if the salary insurance plan so provides, the insurer shall pay the contributions which would have been paid by the employee, and they shall be credited to the account of the employee.
- Income replacement indemnity. The days and parts of a day during which a female employee receives the income replacement indemnity provided for in section 36 of the Act respecting occupational health and safety (R.S.Q., chapter S-2.1) by reason of the exercise of a right granted under sections 40, 41 and 46 of the said Act, are credited without contributions.
- Salary insurance benefits. 35. A person referred to in the first paragraph of section 34 who, under the person's salary insurance plan provided for in his or her conditions of employment, is entitled to salary insurance benefits for a maximum period of two years of service, shall continue to be a member of the plan even if the person's employer has terminated his or her employment, during the year following the last day of that two-year period, if on that day the person is a disabled person within the meaning of his or her salary insurance plan.
- Service credited. During that year, the service credited to the person, without contributions, is the service that would have been credited to the person if the person had held such employment, and his or her pensionable salary is the salary he or she would have received.
- Reduction. However, the service credited to a person who dies, resigns or retires during the year following the two-year period referred to in the first paragraph shall be reduced by the period comprised between the date of the event and the end of that year. The service credited under this section to a person who resumes holding pensionable employment during that period is reduced by the period comprised between the first day on which the person holds such employment and the end of the year.
- Maternity leave. 36. The days and parts of a day of a maternity leave shall be credited to the employee, without contributions, up to 130 contributory days.

- Several employments. If the employee holds more than one pensionable employment in a year, the days and parts of a day of such a leave shall be credited to her before any other service.
- Accumulated sick leave. 37. The days and parts of a day of absence that are totally compensated out of accumulated sick leave are credited to the employee only if the contributions have been paid. Such rule applies even in cases provided for in sections 34, 36, 123 and 125. The days and parts of a day of absence are also credited to an employee with at least 35 years of credited service, without payment of contributions being required.
- Leave without pay. 38. The days and parts of a day during which an employee is on part-time or full-time leave without pay are credited, on the conditions and according to the terms determined by regulation, on the application of the employee, if
- (1) the leave has been authorized by the employee's employer;
 - (2) the employee pays an amount equal to 200% of the contributions that would have been deducted from the pensionable salary the employee would have received if he or she had not been on leave according, as the case may be, to the number of days and parts of a day comprised in the leave out of the number of contributory days in the year, that is, 200 or 260, according to the basis of remuneration;
 - (3) the employee holds, in the case of a full-time leave without pay, pensionable employment under this plan, the Government and Public Employees Retirement Plan, even if, while in that employment, the employee is a member of the Pension Plan of Certain Teachers, or pensionable employment under the Act respecting the Pension Plan of Peace Officers in Correctional Services if, in that case, the employee was not holding pensionable employment under the Civil Service Superannuation Plan at the time of his or her leave without pay, from the end of the last leave authorized by the employer or, in the case of a part-time leave without pay, from the end of the authorized leave, unless he or she has died or become disabled or eligible for retirement, or unless upon his or her return, the employee has availed himself or herself of an agreement of transferability entered into under section 203 or, if the leave is followed by a maternity leave, from the end of the leave or, where such is the case, from the end of a leave without pay immediately following a maternity leave.
- Maternity, paternity or adoption leave. However, in the case of unpaid leave that relates to maternity, paternity or adoption leave, the employee shall pay only one-half of the amount referred to in subparagraph 2 of the first paragraph, provided the unpaid leave is permitted under the employee's conditions of employment.
- Leave without pay. An employee on leave without pay who holds pensionable employment under this plan or the Act respecting the Government and Public Employees Retirement Plan for part of that period may be credited, in accordance with the first or second paragraph, with only the days and parts of a day during which the employee did not hold such employment.

- Redemption of leave. 39. If the application to redeem a leave without pay authorized by the employer is not received within six months following the return to work in the case of a full-time leave without pay, or within six months following the end of the authorized leave in the case of a part-time leave without pay, the amount required to pay the cost of redemption is increased by interest at the rate in force on the date of receipt of the application. The interest is computed from the end of the sixth month following the return to work or, in the case of a part-time leave without pay, from the end of the sixth month following the end of the authorized leave, until the date of receipt of the application, and is compounded annually.
- Cost of redemption. 40. The amount required to pay the cost of redeeming a period of unpaid leave, including the interest referred to in section 39, is payable either in cash or by instalments spread over the period and payable at the intervals determined by the Commission.
- Interest. Any amount paid by instalments shall be increased by interest, compounded annually, at the rate in force on the date of receipt of the application and computed from the date on which the redemption proposal made by the Commission expires.

CHAPTER III

CONTRIBUTIONS AND CONTRIBUTORY AMOUNTS

DIVISION I

CONTRIBUTIONS

- Amount withheld. 41. The employer shall, except with respect to a pensioner, even a pensioner holding pensionable employment under this plan or the Government and Public Employees Retirement Plan, who is not an employee for the purposes of this plan and with respect to an employee referred to in section 70 of the Act respecting the Teachers Pension Plan, section 43.1 or section 89.4 of the Act respecting the Civil Service Superannuation Plan or section 112 of the Act respecting the Pension Plan of Peace Officers in Correctional Services and from, in the latter cases, the date on which the employee's election not to become a member of this plan applies, withhold from the pensionable salary the employer pays to each employee and, in the case of a pensioner, from any lump sum paid under section 26, an annual amount equal to the contribution rate determined by regulation made under section 174, from that part of the pensionable salary which exceeds 35% of the maximum pensionable earnings within the meaning of the Act respecting the Québec Pension Plan.
- Exemption. However, the exemption of 35% is, for the purposes of the deduction, established according to the number of days and parts of a day for which the employee or, as the case may be, the pensioner was assessed or exempt from contributions, out of the number of contributory days in a year, that is, 200 or 260, according to the basis of remuneration.

Exception. No amount shall be withheld from the pensionable salary paid to an employee who has at least 35 years of credited service.

Contribution rate. 42. The contribution rate applicable to an employee who has elected to become a member of the Government and Public Employees Retirement Plan pursuant to section 215.0.0.1.1 of the Act respecting the Government and Public Employees Retirement Plan as it read on 31 December 2000 is established by adding 4% to the contribution rate provided for in section 41, up to a maximum of 7.25% for employees who were members of the Civil Service Superannuation Plan and 8.08% for employees who were members of the Teachers Pension Plan.

Contribution rate. Where the contribution rate under section 41 is equal to or greater than the maximum rates established in the first paragraph, the contribution rate applicable to an employee who has elected to become a member shall become, from that time, the rate established under that section.

Amount withheld. 43. Except in the case provided for in the third paragraph of section 41, the insurer shall withhold, from any lump sum it pays to an employee under a mandatory supplementary long-term salary insurance plan applicable to management personnel in the public and parapublic sectors, the amount provided for in section 41, as part of the measures designed to protect the employee's salary following rehabilitation.

DIVISION II

CONTRIBUTORY AMOUNTS

Payment by employers. 44. Employers, except those listed in Schedule IV, shall pay to the Commission, at the same time as they remit the contributions of their employees, an amount equal to those contributions.

Payment by employers. The employers listed in Schedule V must also pay, on the dates fixed by the Government, their share of the cost of the transferred service of their employees.

Payment by Government. 45. The Government shall, in respect of the employers listed in Schedule VI, pay to the Commission, on the dates determined by the Minister of Finance, the employer's contributory amounts in respect of the employees to whom a cost-sharing agreement between the Government of Canada and the Government of Québec applies.

Insurer. 46. In the case referred to in section 43, the insurer shall pay to the Commission, at the same time as it sends the contributions of the employees, an amount equal to those contributions.

Qualifying employer premiums. 47. The amounts paid pursuant to sections 44 to 46 must be qualifying employer premiums within the meaning of the Income Tax Act (Revised Statutes of Canada, 1985, chapter 1, 5th Supplement).

Amounts capitalized.

48. The Minister of Finance shall determine the amounts that could, from year to year and at prescribed periods, be capitalized to take into account undertakings or guarantees of the Government with respect to this Act. The amounts so capitalized shall be drawn from the consolidated revenue fund.

CHAPTER IV

BENEFITS

DIVISION I

EMPLOYEE'S PENSION

§1. — Eligibility for pension

Normal retirement age.

49. For the purposes of this plan, normal retirement age is 65 years of age. However, an employee who ceases to be a member of the plan is entitled to a pension if the employee

(1) has attained 60 years of age ;

(2) has at least 35 years of service ;

(3) has, in years of age and years of service, a combined total of 88 or more, if the employee is 55 years of age or over ;

(4) has attained 55 years of age, subject to section 56.

Date.

The pension is granted to the employee on the date on which the employee retires within the meaning of section 59.

Teachers.

50. An employee who is a teacher, within the meaning of the Teachers Pension Plan and who becomes eligible for a pension within two months after the end of a school year, within the meaning of that plan, is entitled to his or her pension at the end of that school year.

§2. — Computation of pension

Annual amount.

51. The annual amount of the employee's pension is equal, on the date on which the employee ceases to be a member of the plan, to the total of the following amounts :

(1) the amount obtained by multiplying the average pensionable salary obtained pursuant to the first paragraph of section 52 by 2% per year of service credited before 1 January 1992; and

(2) the amount obtained by multiplying the average pensionable salary obtained pursuant to the second paragraph of section 52 by 2% per year of service credited after 31 December 1991.

Years taken into account.

For the purposes of the first paragraph, the number of years of an employee's credited service taken into account shall not exceed 35.

Average pensionable salary.

52. For the purposes of subparagraph 1 of the first paragraph of section 51, the average pensionable salary is obtained by performing, in order, the following operations:

(1) dividing the pensionable salary for each year, without taking into account the limit imposed by section 30, by the credited service, except service credited under section 111;

(2) selecting, from among the highest salaries resulting from the division the number of salaries required to bring the aggregate of the contributory periods corresponding to each year for which the salaries are selected up to three or, where the aggregate is less than three, selecting all the salaries;

(3) multiplying each salary so selected for each year by the corresponding contributory period; and

(4) dividing the sum of the salaries resulting from the multiplication by the sum of the corresponding contributory periods.

Average pensionable salary.

For the purposes of subparagraph 2 of the first paragraph of section 51, the average pensionable salary is obtained by performing, in order, the following operations:

(1) dividing the pensionable salary for each year by the service credited, except service credited under section 111; and

(2) applying subparagraphs 2 to 4 of the first paragraph.

Years of service credited.

For the purposes of subparagraph 1 of the first and second paragraphs, all the years and parts of a year of service credited must be counted and service credited pursuant to sections 123, 125 and 126 shall not be counted in respect of service credited prior to 1 January 1992.

Contributory period.

A contributory period is, for the purposes of this subdivision, the number of contributory days comprised in the period during which the employee was a member of the plan in a year or comprised in the period during which days and parts of a day were otherwise credited to him or her with contributions, except the days and parts of a day determined by regulation, out of the number of contributory days in the year concerned, namely, 200 or 260, according to the basis of remuneration. The first contributory period of a new employee who is a member of the plan begins on the first day in respect of which the employee was assessed or exempt from contributions and the last period ends on the last day in respect of which the employee was assessed or exempt from contributions.

- Exclusion. 53. For the purposes of section 52, any lump sum paid by way of an increase in or adjustment to the pensionable salary for a previous year and any amount paid during the year in which the employee ceases to be a member of this plan and pertaining to the pensionable salary earned in the previous year shall be excluded from the salary referred to in subparagraphs 1 and 3 of the first paragraph of section 52 and from the salary referred to in the corresponding subparagraphs of the second paragraph of that section.
- Amounts added. However, such lump sums or amounts shall be added to the result obtained under those subparagraphs for the purposes of subparagraphs 2 and 4 of the first paragraph of section 52 and the corresponding subparagraphs of the second paragraph of that section.
- Computation. The amounts referred to in the first and second paragraphs correspond, for the years and parts of a year of service credited after 31 December 1989, to the amount by which the pensionable salary of the employee exceeds the annual basic salary paid to the employee or, as the case may be, that would have been paid to the employee under the conditions of employment applicable on the last credited day of the year, multiplied by the service credited to that employee in the course of the year or, if the employee holds more than one pensionable employment in the course of a year, to the amount by which the employee's pensionable salary exceeds the total annual basic salary for each employment multiplied by the credited service pertaining to each employment in accordance with sections 29 and 32.
- Service not counted. The service credited under section 111 and, in respect of the years 1990 and 1991, the service credited under sections 123, 125 and 126 shall not be counted for the purposes of the third paragraph.
- Average pensionable salary. 54. For the purpose of determining the average pensionable salary, the pensionable salary and the contributory periods must be determined according to the years and parts of a year of service credited to the employee under a pension plan referred to in the first paragraph of section 137 of the Act respecting the Government and Public Employees Retirement Plan and according to the relevant basis of remuneration for each of those years, namely, 200 or 260. The same rule applies for the purposes of section 57, and of sections 55 and 62 to the extent that the said sections refer to section 57.
- Exclusion. However, the pensionable salary and the contributory periods of all the years and parts of a year of service credited under this plan on the basis of actuarially equivalent benefits, and those of any years and parts of a year preceding them, are excluded from the average pensionable salary.
- Minimum average pensionable salary. 55. For the purposes of subparagraph 1 of the first paragraph of section 51, the average pensionable salary may in no case be less than \$7,000.
- Reduction. 56. Where an employee is entitled to a pension pursuant to subparagraph 4 of the first paragraph of section 49, the employee's pension is reduced for its duration by 1/4 of 1% per month, computed for each month comprised

between the date on which the pension is granted and the nearest date on which the pension would have otherwise been granted to the employee without actuarial reduction, at the time the employee ceased to be a member of the plan, under this division.

Amount of pension. Where section 112 applies, the amount of the employee's pension under the first paragraph shall be established on the basis of the provisions of the regulation under section 113.

Reduction. 57. From the month following the sixty-fifth birthday of a pensioner or from the month following the date of the employee's retirement if that date is subsequent to the employee's sixty-fifth birthday, his pension is reduced by the amount obtained by multiplying

(1) 0.7%;

(2) the number of years of service credited after 31 December 1965, up to 35; and

(3) that part of the average pensionable salary which does not exceed the average maximum pensionable earnings, within the meaning of the Act respecting the Québec Pension Plan, in respect of all the last years of service required in order that the total amount of the corresponding periods of contribution be equal to five, or where the total amount is less than five, by counting all the years.

Computation. In the computation of the average maximum pensionable earnings, each maximum amount of pensionable earnings concerned must be computed according to the report established for computing each period of contribution.

Reduction. Where the pension is reduced pursuant to section 63, the amount obtained pursuant to subparagraphs 1, 2 and 3 of the first paragraph is reduced by 2%.

Reduction. However, where the employee continues to hold pensionable employment under the plan after 30 December of the year in which the employee attains 69 years of age, the reduction provided for in the first paragraph applies from the month following that date as if the employee had retired.

§3. — *Maximum benefits*

Pension amounts. 58. The pension amounts computed pursuant to subdivision 2 of this division shall be granted only within the limits authorized under the Income Tax Act (Revised Statutes of Canada, 1985, chapter 1, 5th Supplement).

§4. — *Payment of pension*

Payment of pension. 59. The pension becomes payable to the employee entitled to it from the day on which the employee retires.

- Presumption. An employee who ceases to be a member of the plan and is eligible for a pension without actuarial reduction is presumed to retire on the day after the day on which the employee ceases to be a member of the plan. However, if the employee continues to hold pensionable employment under the plan after 30 December of the year in which the employee attains 69 years of age, the day after the day on which the employee ceases to hold such employment is the day on which the employee retires.
- Retirement. An employee who ceases to be a member of the plan, who is eligible for an actuarially reduced pension and who applies therefor retires
- (1) on the day after the day on which the employee ceases to be a member of the plan, if the employee's pension application is received at the Commission within 60 days of the day on which the employee ceases to be a member of the plan ;
 - (2) on the date of receipt of the employee's pension application if the date falls more than 60 days after the date on which the employee ceased to be a member of the plan, but not after the date on which the pension would have otherwise been granted to the employee without actuarial reduction at the time the employee ceased to be a member of the plan ;
 - (3) on the date indicated in the employee's pension application if it is after the date of receipt of the application and the date on which the employee ceased to be a member of the plan, but not after the date on which the pension would have otherwise been granted to the employee without actuarial reduction at the time the employee ceased to be a member of the plan ; or
 - (4) on the first date on which a pension would have otherwise been granted to the employee without actuarial reduction at the time the employee ceased to be a member of the plan if the date of receipt of the pension application is subsequent to that date.
- Presumption. However, where the employee referred to in the third paragraph does not apply for a pension, the employee is presumed to retire on the first date on which a pension would have otherwise been granted to the employee without actuarial reduction at the time the employee ceased to be a member of the plan.
- Payment for life. 60. The pension is paid to the pensioner for life.
- Spouse or successors. 61. The spouse or, if there is no spouse, the successors of a deceased pensioner shall be entitled to receive, until the first day of the month following the pensioner's death, the pension the pensioner would have received or would otherwise have received for the month of death.

DIVISION II**SPOUSE'S PENSION**

- Death. 62. From the day payment of the pension of a pensioner ceases by reason of death, or as the case may be, from the day of the death of an employee who is eligible for a pension, the spouse shall be entitled to receive as pension one-half of the pension the pensioner was receiving or, as the case may be, would have otherwise been entitled to receive, or which the employee would have been entitled to receive, with, in every case, the reduction provided for in section 57 from the month following the death, even if the pensioner or employee dies before attaining 65 years of age.
- Applicability. The first paragraph also applies to the spouse of the employee who ceased to be a member of the plan and was eligible for a pension.
- Reduction. 63. The employee may, when the employee applies for a pension, elect to reduce his or her pension by 2% for its duration to enable his or her spouse to receive a pension equal to 60% of the reduced pension to which the employee is entitled, instead of the pension provided for in section 62. An employee who is entitled to a deferred pension may also make such an election within 90 days preceding the date of the employee's sixty-fifth birthday.
- Irrevocability of election. Any such election is irrevocable once payment of the employee's pension has begun, even where there is no spouse entitled to a pension.
- Actuarial value. 64. The actuarial value of a pension which becomes payable to the spouse following the death of a person who is a member of the plan, established in accordance with the actuarial assumptions and methods determined by regulation, must not be less than the total of the contributions with accrued interest up to the date of death. If the actuarial value is less, the spouse's pension shall be adjusted so that it is equal in value to the total of the contributions and interest.
- Total of contributions. The second paragraph of section 68 applies for the purpose of determining the total of such contributions.
- Spouse. 65. For the purposes of the plan, the spouse is the person who is married to the employee or pensioner, as the case may be, or, in the case of an unmarried employee or pensioner, the person of the opposite or the same sex who was unmarried at the time of the death of the employee or pensioner and who had been living in a conjugal relationship with the pensioner or employee for a period of not less than three years immediately prior to the employee's or pensioner's death and had been publicly represented as the employee's or pensioner's spouse by the employee or pensioner or who, during the year preceding the employee's or pensioner's death, was living in a conjugal relationship with the employee or pensioner while one of the following situations occurred:

- (1) a child was or is to be born of their union ;
- (2) they adopted a child together ; or
- (3) one of them adopted a child of the other.

Pension to spouse. 66. The pension granted to the spouse is paid for life and runs until the first day of the month following the spouse's death.

DIVISION III

REFUND AND DEFERRED ANNUITIES

§1. — General provisions

Refund. 67. If the employee dies before becoming eligible for a pension and has less than two years of service, the employee's contributions shall, subject to section 79, be refunded to his or her spouse or, if the employee has no spouse, to the employee's successors.

Spouse or successors. 68. If the employee dies before becoming eligible for a pension and has at least two years of service, the employee's spouse or, if the employee has no spouse, the employee's successors, are entitled to receive the higher of the following two amounts :

- (1) the total contributions with accrued interest up to the date of death ;
- (2) the actuarial value of the deferred pension established on the date of death in accordance with the actuarial assumptions and methods determined by regulation.

Total contribution. The total of the contributions is established on the basis of the second paragraph of section 77 and section 79.

Exclusion. Where section 140 applies, the contributions and the actuarial value of the deferred pension in respect of the years and parts of a year of service credited pursuant to sections 126, 130 and 139 are excluded for the purposes of the first paragraph.

Interest. The amount determined pursuant to the first paragraph bears interest, compounded annually, at the rates determined for each period by this Act from the date of death of the employee to the date on which the refund is made.

Refund. 69. If the employee who dies is eligible for a pension but has no spouse entitled to a pension, the employee's contributions are refunded to the employee's successors, subject to section 79. The same rule applies to a pensioner who dies and has no spouse entitled to a pension.

- Refund. 70. If an employee who is less than 55 years of age ceases to be a member of the plan before becoming eligible for a pension and has less than two years of service, the employee is entitled, except if section 34 applies and subject to section 79, to a refund of contributions. However, the contributions are not refunded if the employee resumes membership in this plan or the Government and Public Employees Retirement Plan.
- Refund. If the person dies before obtaining a refund, the contributions shall be refunded to the employee's spouse or, if the employee has no spouse, to the employee's successors.
- No refund obtained. 71. If the employee referred to in section 70 resumes membership in the plan without having obtained a refund of contributions, the years and parts of a year of service accumulated by the employee shall be added to those already credited.
- Refund. 72. The contributions shall be refunded to the employee entitled thereto on or after the 211th day after the day on which the employee ceased to be a member of this plan or the Government and Public Employees Retirement Plan for the last time. However, the 211-day period does not apply if the employee is suffering from an illness which, on the basis of a medical certificate, is likely to lead to death within a period of two years.
- Application. An application for a refund of contributions must be filed with the Commission by means of the prescribed form.
- Contributions. 73. For the purposes of this division, subject to sections 68 and 76, contributions include all amounts paid by the employee and all amounts from which the employee was exempt under this plan or under any other pension plan from which the employee's service was transferred to this plan excluding, however, all contributions deducted in excess for any year subsequent to the year 1986. Contributions also include the interest, if any, accrued on those amounts in accordance with the relevant pension plan. However, contributions do not include amounts refunded to the employee under any of such pension plans if, upon a transfer of service on an actuarially equivalent basis, the total amount of accumulated contributions exceeded the actuarial value of the benefits accrued under the new pension plan.
- Cessation of membership. 74. An employee who ceases to be a member of this plan when the employee is not eligible for a pension is only entitled, except if section 34 applies, to a deferred pension if the employee has at least two years of service.
- Cancellation. The deferred pension is cancelled if the person transfers his or her years and parts of a year of service to the Government and Public Employees Retirement Plan, the Pension Plan of Peace Officers in Correctional Services or the Pension Plan of Certain Teachers, or if the person avails himself or herself of a transfer agreement concerning this plan entered into in accordance with section 203, or if the person dies before the deferred pension becomes payable. In this latter case, section 68 applies.

- Cancellation. 75. Any deferred pension is cancelled if the employee returns to pensionable employment under the plan and the years of service accumulated by the employee shall be added to the years of service already credited.
- Reduction. However, if the employee had elected to receive an amount and a deferred pension in accordance with section 51 of the Act respecting the Government and Public Employees Retirement Plan as it read on 31 December 1990, the recomputed pension is reduced by that part of the annual value of the original pension that was paid to the employee.
- Computation. 76. The annual amount of the deferred pension is computed in the same manner as the pension. However, as regards the deferred pension, the amount obtained pursuant to the first paragraph of section 57 is indexed in the same manner as the deferred pension until 1 January in the year in which the employee reaches 65 years of age.
- Adjustment. If the actuarial value of the deferred pension established in accordance with the actuarial assumptions and methods determined by regulation is less than the total of the contributions with interest accrued on the date of the employee's sixty-fifth birthday, the deferred pension is adjusted so that it is equal in value to the total of the contributions and interest.
- Presumption. Notwithstanding section 59, an employee who is entitled to a deferred pension is deemed to retire on the day of his or her sixty-fifth birthday. The deferred pension shall be payable to the employee from that date and for life.
- Interest. 77. Contributions are refunded with interest.
- Interest. However, contributions relating to service that had been credited to the employee under another pension plan and that was credited under this plan in accordance with section 139 are refunded without interest, except, where applicable, interest payable on the amount determined under section 68.
- §2. — *Special provisions*
- Members of National Assembly. 78. An employee who becomes a Member of the National Assembly before being granted a pension or a deferred pension shall be entitled to such pension for the years and parts of a year of service credited to the employee under this plan if they have not been transferred to another pension plan, if the employee acquires the right to a retirement pension as a Member of the National Assembly and repays any contributions refunded to him or her.
- Members of National Assembly. If the employee became a Member before 1 January 1992, the pension shall be payable from the time the Member begins to receive the retirement pension acquired as a Member of the National Assembly.
- Reduction. 79. When contributions are refunded, if amounts have been paid as pension under this plan or a pension plan out of which the employee's service has not been transferred to this plan on an actuarially equivalent basis, the total

amount of the contributions of the employee, and interest accrued, if any, on such contributions up to the date on which a pension became payable, is reduced by the amounts paid as pension from the date on which the pension ceased to be paid. The balance of the contributions and of accrued interest, if any, shall bear interest from that date, at the rate in force on the date of refund for every period during which no amount was paid as pension.

Refund.

However, if a pension is payable to an employee, spouse or child under section 140, the refund of contributions provided for in sections 67 and 70 does not include contributions relating to service credited in accordance with sections 130 and 139. In that case, the first paragraph of this section applies, at the time the pension becomes payable, in respect of other contributions but without taking into account the amounts paid as pension under section 140. Where the employee is entitled only to a deferred pension under this plan, the amounts paid as pension under section 140 are deducted only from the amount of contributions relating to service credited in accordance with sections 130 and 139 if that pension is more advantageous than the benefits under this plan.

DIVISION IV

EMPLOYEE SUFFERING FROM A TERMINAL ILLNESS

Illness.

80. Except in the case of a pensioner, an employee who has ceased to be a member of this plan and who, according to a medical certificate, is suffering from an illness likely to lead to death within a period of two years is, if the employee is entitled only to a deferred pension or to an actuarially reduced pension under section 56, entitled to receive the higher of the following amounts :

(1) the total contributions with interest accrued up to the date of receipt of the application ;

(2) the actuarial value of the employee's pension established on that date in accordance with the actuarial assumptions and methods determined by regulation under section 68.

Exception.

The same applies to an employee who can provide such a certificate and who, if he or she ceased to be a member of this plan on the date of receipt of the application, would be entitled only to one or other of those pensions. However, an employee who receives the amount referred to in the first paragraph ceases to be a member of the plan on that date and, subject to section 83, is not considered to be an employee for the purposes of the plan, even if he or she continues to hold pensionable employment after the date of receipt of the application.

Contributions.

For the purposes of this section, contributions include the amounts referred to in section 73, and in establishing the total of such contributions, the second paragraph of section 77 and section 79 are taken into account. In addition, where section 140 applies, the contributions and the actuarial value of the

pension relating to the years and parts of a year of service credited under sections 126, 130 and 139 are excluded.

- Interest. The amount referred to in the first paragraph bears interest, compounded annually, at the rates determined for each period by this Act, from the date of receipt of the application until the date on which the refund is made.
- Refund. 81. The refund of the amount referred to in section 80 cancels entitlement to any other benefit, advantage or refund provided for by this plan.
- Cancellation. 82. The spouse of an employee referred to in the first or second paragraph of section 80 may, upon the death of the employee, obtain that the refund of the amount referred to in the said section be cancelled if the spouse applies therefor to the Commission before the amount is received. In such a case, the employee's application for a refund is deemed never to have been made.
- Notice. 83. An employee who has ceased to be a member of this plan pursuant to the second paragraph of section 80 or who has ceased to be a member of the Government and Public Employees Retirement Plan pursuant to the second paragraph of section 59.1 of the Act respecting the Government and Public Employees Retirement Plan, and who, at the end of a period of two years from the date on which the application for a refund of the amount referred to in either of those sections is received, holds pensionable employment under this plan may elect to be a member of or resume membership in this plan by sending a notice to that effect to the Commission. Notwithstanding section 6, the employee shall become a member of this plan on the date on which the notice is received by the Commission.
- Years of service. 84. An employee who has availed himself or herself of the first or second paragraph of section 80 may be credited with the years or parts of a year of service that had been credited before the date of the refund if the employee applies therefor and pays an amount equal to the amount that was refunded to the employee, with interest, compounded annually, at the rates determined for each period by this Act. The interest runs from the date of the refund until the date of the redemption proposal made by the Commission.
- Payment. The amount established under the first paragraph is payable either in cash or by instalments spread over the period and at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal made by the Commission expires.
- Years of service. 85. An employee who has availed himself or herself of the second paragraph of section 80 may be credited with the years and parts of a year of service pertaining to the period during which the employee would have been a member of this plan had it not been for the application of that paragraph if the employee applies therefor and pays an amount equal to the contribution the employee would have paid if he or she had been a member of this plan, with

interest, compounded annually at the rates determined for each period by this Act. The interest runs from the mid-point of each year up to the date of the redemption proposal made by the Commission. However, as regards the years and parts of a year of service credited to the employee, section 34 applies, where expedient, as though the employee had been a member of this plan during that period.

Payment.

The amount established under the first paragraph is payable either in cash or by instalments spread over the period and at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal made by the Commission expires.

Years of service.

86. An employee who has availed himself or herself of the first or second paragraph of section 59.1 of the Act respecting the Government and Public Employees Retirement Plan may be credited with the years or parts of a year of service that had been credited before the date of the refund if the employee applies therefor and pays an amount equal to the amount that was refunded to the employee, with interest, compounded annually at the rates determined for each period by this Act. The interest runs from the date of the refund until the date of the redemption proposal made by the Commission.

Payment.

The amount established under the first paragraph is payable either in cash or by instalments spread over the period and at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal made by the Commission expires.

Years of service.

87. An employee who has availed himself or herself of the second paragraph of section 59.1 of the Act respecting the Government and Public Employees Retirement Plan may be credited with the years and parts of a year of service of the period during which he or she would have been a member of that plan had it not been for the application of that paragraph if the employee applies therefor and pays an amount equal to the contribution the employee would have paid if he or she had been a member of that plan, with interest, compounded annually, at the rates determined for each period by this Act. The interest runs from the mid-point of each year up to the date of the redemption proposal made by the Commission. However, as regards the years and parts of a year of service credited to the employee, section 21 of the Act respecting the Government and Public Employees Retirement Plan applies, where expedient, as though the employee had been a member of that plan during that period.

Payment.

The amount established under the first paragraph is payable either in cash or by instalments spread over the period and at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal made by the Commission expires.

DIVISION V**TOTALLY AND PERMANENTLY DISABLED EMPLOYEE**

Transfer.

88. Except in the case of a pensioner, an employee who is totally and permanently disabled within the meaning of the Income Tax Act (Revised Statutes of Canada, 1985, chapter 1, 5th Supplement), who has ceased to be a member of this plan and who is entitled only to a deferred pension shall be entitled to transfer into a locked-in retirement account the amount determined under section 80. In such a case, sections 81, 82, 84 and 86 apply, where applicable. The expression “locked-in retirement account” has the meaning assigned by the Regulation respecting supplemental pension plans approved by Order in Council 1158-90 (1990, G.O. 2, 2318).

DIVISION VI**EMPLOYEE RECEIVING BENEFITS AND A SALARY**§1. — *General provisions*

Pensionable employment.

89. A person 65 years of age or over may hold pensionable employment under this plan or, if the person is a pensioner under this plan, pensionable employment under the Government and Public Employees Retirement Plan and receive as a pensioner

(1) pension benefits under this plan, the Pension Plan of Peace Officers in Correctional Services, the Teachers Pension Plan, the Civil Service Superannuation Plan or the pension plans established pursuant to sections 9, 10 and 10.0.1 of the Act respecting the Government and Public Employees Retirement Plan, and additional benefits under the Pension Plan of Peace Officers in Correctional Services;

(2) pension benefits under section 80 of the Act respecting the Government and Public Employees Retirement Plan,

(3) pension credit under the Act respecting the Government and Public Employees Retirement Plan, the Act respecting the Teachers Pension Plan, the Act respecting the Civil Service Superannuation Plan and any benefit payable under the Act respecting the Pension Plan of Certain Teachers, or

(4) an annual pension under section 84 of the Act respecting the Government and Public Employees Retirement Plan.

Exception.

However, the provisions of the first paragraph do not apply on or after 31 December of the year in which the person attains 69 years of age.

Presumption.

90. An employee holding pensionable employment under this plan who receives pension benefits under the plan or a pension credit under the Act respecting the Government and Public Employees Retirement Plan, the Act respecting the Teachers Pension Plan or the Act respecting the Civil Service

Superannuation Plan is deemed to have retired and is not considered to be an employee for the purposes of the plan.

- Exception. 91. The limit imposed by section 30 does not apply for the purposes of this division.
- Maximum benefits. 92. The benefits that a pensioner may receive shall not be greater than the amount by which the annual salary exceeds the salary referred to in section 99.
- Benefits. 93. To determine the benefits that a pensioner is entitled to receive, the benefits are adjusted in accordance with the plan concerned.
- Annual salary. 94. The annual salary is equal to the salary defined in section 25,
(1) received by the pensioner on the day he or she ceased to be a member of the plan, computed on a yearly basis, or
(2) that the pensioner would otherwise have received on the day he or she ceased to be a member of the plan or that the pensioner would have received on that day had he or she not been, in particular, on leave without pay or receiving salary insurance benefits, computed on a yearly basis.
- Reduction. The annual salary of a pensioner who was not a full-time employee is reduced to the same fraction as that calculated in respect of service.
- Computation. 95. In the case of a pensioner who, when he or she was an employee, held simultaneously more than one pensionable employment under this plan, the salary is computed in the same manner as the pensionable salary in such a case.
- Indexing. 96. To determine the annual salary for the years following the year in which the pensioner ceased to be a member of the plan, the salary is indexed for each year concerned and at the time prescribed under section 119 of the Act respecting the Québec Pension Plan, according to the rate of increase of the Pension Index determined by that Act.
- Adjustment. However, the first adjustment shall be made proportionately to the number of days for which the pensioner received or would have received benefits in the year he or she ceased to be a member of the plan in relation to the total number of days in that year.
- Payment. 97. The amounts payable as benefits are, where applicable, paid in the following order:
(1) the pension granted under this plan;
(2) the pension and the additional benefit granted under the Pension Plan of Peace Officers in Correctional Services;

(3) the pension granted under the pension plans established pursuant to sections 9, 10 and 10.0.1 of the Act respecting the Government and Public Employees Retirement Plan;

(4) the pension granted under the Civil Service Superannuation Plan;

(5) the pension granted under the Teachers Pension Plan;

(6) any benefits granted under the Act respecting the Pension Plan of Certain Teachers;

(7) the pension credit acquired under section 101 of the Act respecting the Government and Public Employees Retirement Plan and, where that is the case, under section 203 of this Act, and the amounts payable under section 80 of the Act respecting the Government and Public Employees Retirement Plan;

(8) the other pension credits granted under the Act respecting the Government and Public Employees Retirement Plan, the Act respecting the Teachers Pension Plan and the Act respecting the Civil Service Superannuation Plan; and

(9) the annual pension acquired under section 84 of the Act respecting the Government and Public Employees Retirement Plan.

Accounts payable in part.

Where any of the amounts referred to in the first paragraph, except the pension granted under the Pension Plan of Peace Officers in Correctional Services and the pension increase referred to in section 20 of the Act respecting the Pension Plan of Certain Teachers, is payable in part only, the payable part is taken, first, out of that portion that relates to years of service subsequent to 30 June 1982.

Application.

98. A person who wishes to hold pensionable employment under this plan and receive benefits must make an application therefor.

Certificate of employment.

The person must join a certificate of employment containing, in particular, the annual salary referred to in section 94 and such other information as may be required by the Commission to his or her application.

Report.

99. Within 30 days preceding the anniversary date of the day the pensioner began to receive benefits, the Commission must require the employer to file a report containing

(1) the amount of the salary that corresponds to the salary defined in section 25 and that was paid to the pensioner in the 12 months preceding the anniversary date or that would have been paid had he or she not been, among other things, on leave without pay or receiving salary insurance benefits;

(2) the estimated amount of the salary that corresponds to the salary defined in section 25 and that the employer is to pay to the pensioner for the 12 months following the anniversary date; and

(3) any other information that may be required by the Commission.

Variation. 100. If, as a result of a change or a departure, the salary estimated by the employer varies in a proportion of 10% or more, the employer, not later than 30 days after varying the salary, must so inform the Commission.

Amount of benefits. 101. If the amount of the benefits computed under section 92 becomes nil, sections 153 to 162 apply.

Amount of benefits. 102. If the amount of the benefit received by the pensioner is less than that to which the pensioner is entitled, the Commission shall pay the amount due within two months of receiving a report under section 99.

Amount of benefits. If the amount of the benefit received by the pensioner is greater than that to which the pensioner is entitled, the Commission shall set off the overpayment in the manner determined by regulation under section 147 of the Act respecting the Government and Public Employees Retirement Plan.

Interest. No interest may be charged on any sum thus paid or collected.

§2. — *Special provision*

Benefits. 103. A pensioner who holds pensionable employment under the plan shall receive benefits at the latest from 31 December of the year in which he or she attains 69 years of age.

DIVISION VII

ADDITIONAL BENEFITS

Increase. 104. The amount of the employee's pension is increased by an amount of pension equal to 1.1% of the average pensionable salary used in computing the employee's pension for each year and part of a year

(1) counted under this plan and in respect of which the employee obtained a paid-up annuity certificate or in respect of which pension credit is or would have been granted to the employee under the Act respecting the Government and Public Employees Retirement Plan, the Act respecting the Teachers Pension Plan or the Act respecting the Civil Service Superannuation Plan;

(2) recognized, solely for purposes of eligibility, in respect of a female employee under section 125 of this Act or section 221.1 of the Act respecting the Government and Public Employees Retirement Plan; and

(3) recognized, solely for purposes of eligibility, in respect of an employee for the amounts corresponding to years and parts of a year so recognized and transferred into a locked-in retirement account following the employer's designation as a body referred to in Schedule II of this Act or the employee's becoming a member of the plan after a poll held under section 6 or 7 of the Act respecting the Government and Public Employees Retirement Plan.

- Employee under 65 years of age. 105. An employee who is under 65 years of age is also entitled to cause a pension amount of \$230 to be added to the amount of the employee's pension for each of the years considered pursuant to section 104. The amount is payable until the end of the month in which the pensioner attains 65 years of age.
- Provisions applicable. 106. Section 56 applies in respect of any pension amounts added under sections 104 and 105.
- Pension amounts. 107. The pension amounts added under sections 104 and 105 must be within the limits established by regulation. If not, the amounts shall be adjusted in the manner prescribed in the regulation.
- Indexing. 108. The pension amounts added under sections 104 and 105 are indexed annually, at the time prescribed under section 119 of the Act respecting the Québec Pension Plan, by the excess of the rate of increase in the Pension Index determined by that Act over 3%. Section 116 applies to the indexing.
- Reduction. 109. The reduction of 2% referred to in section 63 does not apply to the pension amount added under section 105, and the pension granted to the spouse, in the case of the death of the pensioner, shall be computed without reference to that amount.
- Provisions applicable. 110. Section 104 applies to an employee who is entitled to a deferred pension. However, that section and section 105 do not apply to a person who ceased to be a member of the Government and Public Employees Retirement Plan before 31 December 1999 nor to a pensioner under this plan, the Pension Plan of Peace Officers in Correctional Services, the Teachers Pension Plan, the Civil Service Superannuation Plan or pension plans established under sections 9, 10 and 10.0.1 of the Act respecting the Government and Public Employees Retirement Plan, who holds or returns to pensionable employment under this plan or, if the employee is a pensioner under the plan, who holds pensionable employment under the Government and Public Employees Retirement Plan except, in the case of a pensioner, in respect of the years and parts of a year of service that have already given the pensioner entitlement to the amounts referred to in those sections.
- Benefit. The pension of the spouse of an employee who dies after becoming eligible for a pension and the amounts paid to the spouse or successors of an employee who dies before becoming eligible for a pension must take into account the benefit provided for in section 104.

DIVISION VIII**MISCELLANEOUS PROVISIONS**

Contributory days added.	111. For the purposes of the eligibility and the computation of any pension of an employee, a maximum of 90 contributory days may be added to the service credited to the employee to enable the employee to make up any period of leave without pay while he or she was holding pensionable employment, except on contrary notice from the employee.
Applicability.	The first paragraph does not apply to service credited under this plan on an actuarially equivalent basis.
Days not credited.	112. For each calendar year from 1 January 1987, the days and parts of a day that are not credited to an employee who holds pensionable employment under the plan for at least one day during that calendar year shall be considered solely for purposes of eligibility for a pension.
Days considered.	However, during the year in which the employee becomes a member of the plan, the days comprised between 1 January and the first day on which the employee holds pensionable employment shall not be considered for the purposes of eligibility. Moreover, during the year in which the employee ceases to be a member of the plan, the days comprised between the last day on which the employee holds pensionable employment and 31 December shall not be considered, but where the employee ceases to be a member of the plan when the employee is not holding pensionable employment, the days, if any, shall be considered until the date on which the Commission receives an application for the redemption of service by virtue of which years and parts of a year of service were credited or counted under the plan in respect of the employee or until the employee becomes eligible for a pension.
Provisions applicable.	Subject to section 111, the first and second paragraphs also apply to an employee who was not credited under sections 38 and 118 with the days and parts of a day during which he or she was on leave without pay.
Application.	For the purposes of the second paragraph, an application for the redemption of service includes an application by virtue of which years and parts of a year of service were counted in respect of the employee for the purpose of acquiring pension credits under section 3.2 of the Act respecting the Government and Public Employees Retirement Plan.
Applicability.	This section does not apply for the purposes of Division III of Chapter IV.
Pension reduction factor.	113. For the purposes of section 112, the Government may, by regulation, establish a pension reduction factor and criteria for the application of that factor. The Government may also designate classes and subclasses of employees to whom the factor and the criteria are not applicable.
Years of service added.	114. The years and parts of a year of service for which pension credit has been granted under the Act respecting the Teachers Pension Plan, the Act

respecting the Civil Service Superannuation Plan or under the Act respecting the Government and Public Employees Retirement Plan, while the employee was a member of one of those plans or pursuant to section 3.2 of the Act respecting the Government and Public Employees Retirement Plan, and those for which a pension, a deferred pension or a paid-up annuity certificate, within the meaning of section 76 of the Act respecting the Government and Public Employees Retirement Plan was obtained under a supplemental pension plan from an employer party to the Government and Public Employees Retirement Plan, must be added, solely for purposes of eligibility for any pension, to the years of service credited in accordance with sections 31 and 138. The same rule applies to years and parts of a year of service recognized solely for purposes of eligibility for a pension under the Pension Plan of Peace Officers in Correctional Services, the Government and Public Employees Retirement Plan, the Teachers Pension Plan or the Civil Service Superannuation Plan and to years and parts of a year of service not credited under this plan by reason of the application of section 149 and those recognized solely for purposes of eligibility for a pension under an agreement of transferability entered into under section 203 in respect of this plan if, in the last two cases, they have not otherwise been credited under section 150 or under the agreement concerned, as the case may be.

Years of service added.

The years and parts of a year of service for which pension credit is granted are added, for purposes of eligibility for a pension, to the years of service credited to an employee to determine, in the case of death, the right of the spouse to a pension even if the employee died before completing all the payments computed in accordance with section 96 of the Act respecting the Government and Public Employees Retirement Plan.

Indexing.

115. Every pension, except a pension paid under section 80 of the Act respecting the Government and Public Employees Retirement Plan, is indexed annually, at the time prescribed under section 119 of the Act respecting the Québec Pension Plan,

(1) for that part attributable to service prior to 1 July 1982, by the rate of increase of the Pension Index determined by the said Act;

(2) for that part attributable to service subsequent to 30 June 1982 but prior to 1 January 2000, by the excess of the rate of increase of the Pension Index over 3%; and

(3) for that part attributable to service subsequent to 31 December 1999, by the formula provided for in subparagraph 2 of this paragraph or by one-half of the rate of increase of the Pension Index, according to the formula that is the most advantageous.

Provisions applicable.

Where the number of years of service credited exceeds 35 years, subparagraphs 1 to 3 of the first paragraph are applied in the order that is the most advantageous for the pensioner.

- Indexing. The deferred pension is, at the same time, indexed annually at the rate of increase of the Pension Index determined by the said Act from 1 January following the date on which the employee ceased to be a member of the plan to 1 January of the year in which the employee reached 65 years of age. From 1 January following the date on which the employee reached 65 years of age, the deferred pension is indexed in the manner set out in the first paragraph.
- Adjustment. 116. The first adjustment of any pension resulting from indexing, except that of a deferred pension, is made proportionately
- (1) to the number of days for which the pension was or would have been paid during the year in which the employee ceased to be a member of this plan in relation to the total number of days in that year; and
- (2) in the case of a pension granted to the spouse where the employee was eligible for a pension at the time of death, to the number of days for which the pension was or would have been paid during the year of death, in relation to the total number of days in that year.
- Deferred pension. In the case of a deferred pension, the adjustment on 1 January following the date on which the employee reaches 65 years of age is made proportionately to the number of days for which the pension was paid or would have been paid in the year in which the employee retired in relation to the total number of days in that year.
- Cash payment. 117. The Commission, upon the application of a beneficiary other than a beneficiary referred to in section 89, may, at any time after the pension becomes payable, make cash payment of the actuarial value, established in accordance with the actuarial assumptions and methods determined by regulation, of all benefits under the plan including, where applicable, pension credits acquired under the Act respecting the Government and Public Employees Retirement Plan, the Act respecting the Teachers Pension Plan or the Act respecting the Civil Service Superannuation Plan, if the aggregate amount of the benefits does not exceed \$1,229 annually.
- Indexing. The amount of \$1,229 is, at the time prescribed under section 119 of the Act respecting the Québec Pension Plan, indexed annually by the rate of increase of the Pension Index established by the said Act.

CHAPTER V

SPECIAL MEASURES

DIVISION I

LEAVE WITHOUT PAY

- Days credited. 118. The days and parts of a day during which an employee was, while holding pensionable employment under the Government and Public Employees Retirement Plan, on leave without pay that was in progress on 1 July 1983 or

that began after that date and ended before 19 June 1986, and the days and parts of a day during which the employee was on part-time or full-time leave without pay, that was in progress on 19 June 1986 and that began after 18 June 1986, shall be credited subject to the terms and conditions determined by regulation, on an application filed by the employee, if

(1) the employee has been authorized to take the leave by the employee's employer;

(2) the employee pays an amount equal to 200% of the contributions that would have been deducted from the pensionable salary the employee would have received if he or she had not been on leave according, where applicable, to the number of days and parts of a day comprised in the leave out of the number of contributory days in the year, that is, 200 or 260, according to the basis of remuneration; and

(3) the employee held, in the case of a leave that was in progress on 1 July 1983 or that began after that date and that ended before 19 June 1986, from the end of the leave, pensionable employment under the Government and Public Employees Retirement Plan or, in the case of a leave that was in progress on 19 June 1986 or that began after that date, held, where applicable, in the case of a full-time leave without pay, pensionable employment under this plan or the Government and Public Employees Retirement Plan, or pensionable employment under the Pension Plan of Peace Officers in Correctional Services if, in that case, the employee was not holding pensionable employment under the Civil Service Superannuation Plan at the time of the leave without pay, from the end of the last leave authorized by the employer or, in the case of a part-time leave without pay, from the end of the authorized leave, or except in all cases, if the employee has died or become disabled or eligible for retirement, or unless upon his or her return, the employee has availed himself or herself of an agreement of transferability entered into under section 158 of the Act respecting the Government and Public Employees Retirement Plan or, if the leave is followed by a maternity leave, from the end of the leave or, where applicable, from the end of a leave without pay immediately following a maternity leave.

Maternity, paternity or adoption leave.

However, in the case of unpaid leave relating to maternity, paternity or adoption leave that was in progress on 1 January 1991 or that began after that date, the employee shall pay only one-half of the amount referred to in subparagraph 2 of the first paragraph, provided the unpaid leave is permitted under his or her conditions of employment.

Leave without pay.

An employee who was on leave without pay that was in progress on 22 December 1992 or that began after that date, and who held pensionable employment under the Government and Public Employees Retirement Plan for part of that period may be credited, in accordance with the first or second paragraph, with only the days and parts of a day during which he or she did not hold such employment.

- Provisions applicable. Section 39 applies in respect of a leave in progress on 19 June 1986 or that began after that date. As regards a leave that ended before that date, the second paragraph of section 233 of the Act respecting the Government and Public Employees Retirement Plan applies, except for the reference to section 26. In all cases, section 40 of this Act applies.
- Provisions applicable. 119. Section 118 also applies to an employee whose leave without pay began while he or she was a member of the Government and Public Employees Retirement Plan and ended while he or she was a member of this plan. However, for the portion of the leave taken under this plan, the contributions referred to in subparagraph 2 of the first paragraph of that section shall be established in accordance with this plan.
- Leave without pay. 120. The days during which an employee, after becoming a member of the Government and Public Employees Retirement Plan, was on leave without pay for a period ending before 1 July 1983, provided the leave has not otherwise been credited under this plan, shall be credited under this plan, at the request of the employee, on terms and conditions determined by regulation, if the employee
- (1) was authorized for such purpose by his or her employer;
 - (2) pays, in the case of a period of leave prior to 1 July 1982, an amount equal to 240% of the contributions that would have been withheld under the Government and Public Employees Retirement Plan had the employee not been on leave, from the pensionable salary the employee was receiving when he or she was granted the leave and an amount equal to 200% of such contributions, in the case of a period of leave after 30 June 1982; and
 - (3) held pensionable employment under the Government and Public Employees Retirement Plan from the end of the employee's leave without pay, unless the employee has become disabled.
- Unpaid amount. Notwithstanding the foregoing, any amount remaining unpaid at the end of the leave bears interest compounded annually and computed from the mid-point of the year in which the leave ends at the rate determined for each period by this Act until the date of receipt of the application.
- Payment. The amount required for those days to be credited is payable in cash or by instalments spread over the period and payable at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal made by the Commission expires.
- Teacher or officer. 121. A teacher or officer who ceases to be a member of the Teachers Pension Plan or, as the case may be, the Civil Service Superannuation Plan and who becomes a member of this plan may, unless he or she has elected to become a member of the Government and Public Employees Retirement Plan

under section 13 or 215.0.0.1.1 of the Act respecting the Government and Public Employees Retirement Plan as those sections read on 31 December 2000, be credited under this plan with all years or parts of a year that could have been credited under section 21 of the Act respecting the Teachers Pension Plan or section 66.1 of the Act respecting the Civil Service Superannuation Plan, as the case may be, provided the teacher or officer satisfies the conditions prescribed therein.

Provisions applicable. Sections 39 and 40 apply to this section.

Provisions applicable. 122. The provisions of the Act respecting the Government and Public Employees Retirement Plan apply to an application for redemption of years or parts of a year in respect of any pensionable employment under the Government and Public Employees Retirement Plan filed by the employee who, during the qualification period provided for in section 10, holds simultaneously pensionable employment under this plan and pensionable employment under the Government and Public Employees Retirement Plan.

DIVISION II

MATERNITY LEAVE

Maternity leave. 123. The days and parts of a day of maternity leave commencing after 31 December 1988 of an employee who held pensionable employment under the Government and Public Employees Retirement Plan shall be credited to the employee, without contributions, up to 130 contributory days.

Several pensionable employments. If the employee holds more than one pensionable employment under the Government and Public Employees Retirement Plan in a year, the days and parts of a day of such maternity leave shall be credited to the employee before any other service.

Provisions applicable. 124. Section 123 also applies to an employee who was granted maternity leave that began while the employee was a member of the Government and Public Employees Retirement Plan and ended while the employee was a member of this plan. However, as regards that leave, the employee may not be credited with more than 130 days without contributions.

Maternity leave. 125. Notwithstanding section 126, an employee who was granted maternity leave may be credited, without contributions, with the days of maternity leave that was in progress on 1 July 1973 or that began after that date and ended before 1 July 1976, up to a total of 90 contributory days.

Maternity leave. An employee who was a member of the Government and Public Employees Retirement Plan may be credited with the days and parts of a day of maternity leave that was in progress on 1 July 1983 or that began on or before 31 December 1988, without contributions, up to a total of 130 contributory days.

- Conditions. The employee referred to in the first paragraph must, in order to be credited with such maternity leave, have contributed to the Teachers Pension Plan, the Civil Service Superannuation Plan or the Government and Public Employees Retirement Plan, as the case may be, in the 12 months preceding the beginning of the maternity leave, and have again contributed to the Teachers Pension Plan, the Civil Service Superannuation Plan or the Government and Public Employees Retirement Plan within two years following the year in which the maternity leave ended.
- Presumption. For the purposes of the third paragraph, an employee who, in respect of a period of service immediately preceding the date on which she became a member of the Government and Public Employees Retirement Plan, contributed to a supplementary pension plan or redeemed the entire period of service in the form of a pension credit under the Act respecting the Government and Public Employees Retirement Plan is deemed to have contributed to this plan in the 12 months preceding the date on which the employee's maternity leave began. In such a case, the employee may be credited with the days of maternity leave during which she was a member of the Government and Public Employees Retirement Plan and the days of maternity leave during which she was not a member of that plan may be added, solely for purposes of eligibility for a pension, to the years of service credited, if those days have not otherwise been counted or credited.
- Reimbursement. Any contributions paid by the employee referred to in the first paragraph to redeem days of maternity leave pursuant to the provisions relating to the redemption of days of leave without pay are reimbursed without interest if they were redeemed while the employee was a member of the Teachers Pension Plan or the Civil Service Superannuation Plan, or with interest if they were redeemed while the employee was a member of the Government and Public Employees Retirement Plan.
- Maternity leave. 126. An employee who was granted maternity leave while she was a member of the pension fund of officers of education established by Part VIII of the Education Act (Revised Statutes of Québec, 1964, chapter 235) or while she was a teacher within the meaning of the Teachers Pension Plan may be credited, without contributions and up to 90 contributory days, for pension purposes under this plan, with the days of a maternity leave that was in progress on 1 July 1965 or that began after that date but ended before 1 July 1976, provided the 90-day period allows the employee to complete 95% or more of the school year in which she was granted the leave.
- Maternity leave. An employee who was granted maternity leave may be credited, without contributions and up to 120 contributory days, for pension purposes under this plan, with the days of maternity leave that was in progress on 1 July 1976 or that began after that date but ended before 1 July 1983.
- Conditions. The employee referred to in the first or second paragraph must, to be credited with days of maternity leave, have contributed to the pension fund of officers of education established by Part VIII of the Education Act, the Government and Public Employees Retirement Plan, the Teachers Pension

Plan or the Civil Service Superannuation Plan, as the case may be, during the 12 months preceding the beginning of the maternity leave, and have again contributed to the Teachers Pension Plan, the Government and Public Employees Retirement Plan or the Civil Service Superannuation Plan during the two years following the year in which the maternity leave ended even if, in the last two cases, the employee referred to in the first paragraph was not a teacher within the meaning of the Teachers Pension Plan at the time she again contributed.

Refund.

The contributions paid by the employee to redeem days of maternity leave pursuant to the provisions relating to the redemption of leave without pay are refunded without interest if they were redeemed while the employee was a member of the Teachers Pension Plan or the Civil Service Superannuation Plan and the sums paid by the employee are refunded with interest if they were redeemed while she was a member of the Government and Public Employees Retirement Plan. However, if the period redeemed in respect of maternity leave which ended before 1 July 1976 exceeds 100 days, the days of maternity leave cannot be credited without contributions, and the contributions or, as the case may be, the sums paid by the employee cannot be refunded. If the period redeemed in respect of maternity leave that was in progress on 1 July 1976 or that began after that date, exceeds the period credited pursuant to this section, the balance of the redeemed period remains credited to the account of the employee even if it is less than 30 days.

Indexing.

127. That part of the pension attributable to service credited pursuant to section 126, if the service is credited in respect of a year credited to the employee pursuant to section 130, is indexed annually, at the time prescribed under section 119 of the Act respecting the Québec Pension Plan, by the excess of the rate of increase in the Pension Index determined under that Act over 3%. Section 116 applies to the indexing. In all other cases, sections 115 and 116 apply.

Provisions applicable.

Section 140 and the third paragraph of section 180 apply in respect of service credited under this division as regards an employee who was granted maternity leave while she was a member of the pension fund of officers of education established under Part VIII of the Education Act or while she was a teacher within the meaning of the Teachers Pension Plan.

DIVISION III

YEARS CREDITED OR REFUNDED BY REASON OF MARRIAGE, MATERNITY OR ADOPTION

Years of teaching credited.

128. The years and parts of a year of teaching that have been recognized for seniority purposes, under a collective agreement applicable between 1979 and 1985, in the case of a dismissal or forced resignation by reason of marriage or maternity, in respect of a female employee who is a member of the teaching or professional staff of a school board, may be credited.

- Conditions. The employee must, to have such years and parts of a year credited, pay an amount equal to the contributions refunded to her with 5% interest, compounded annually, for the period comprised between the date of the refund and 30 June 1973, and with interest, compounded annually, at the rate determined for each period by this Act, for the period comprised between 1 July 1973 and the date of receipt of the application.
- Payment. The amount determined under the second paragraph is payable in cash or by instalments spread over the period and payable at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal made by the Commission expires.
- Provisions applicable. 129. Section 128 applies to a female employee of a school board who is a member of the management personnel if she was dismissed or forced to resign by reason of marriage or maternity pursuant to a by-law or written policy of the school board where the employee held pensionable employment under the Government and Public Employees Retirement Plan.
- Marriage, maternity or adoption. 130. An employee who, while she was a member of the pension fund of officers of education established by Part VIII of the Education Act or while she was a teacher within the meaning of the Teachers Pension Plan, ceased to be a member of her pension plan by reason of marriage, maternity or adoption if, in the latter case, the adoption was subsequently recognized for legal purposes by a judgment, may be credited, for pension purposes under this plan with all or part of her years of teaching prior to 1 January 1968 for which she obtained a refund of contributions if the marriage, maternity or adoption occurred in the 12 months preceding or in the 24 months following the date on which she ceased to be a member of her plan.
- Conditions. The employee must, to be credited with such years and parts of a year, pay the sum of \$4,159 per year. That amount must be increased by an amount equal to 1.65% of her basic pensionable salary, computed on an annual basis, on the date of receipt of her application. If however, the employee held part-time employment on that date, the basic pensionable salary that must be used is the salary she would have received if she had held that employment full time.
- Payment. The amount required to have those years and parts of a year credited is payable either in cash or by instalments spread over the period and payable at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal made by the Commission expires.
- Indexing. 131. The sum of \$4,159 provided for in the second paragraph of section 130 shall be indexed, on 31 December of each year, by the interest rate established pursuant to section 203 and in force on that date.

- Indexing. 132. The part of the pension attributable to service credited pursuant to section 130 is indexed annually, at the time prescribed under section 119 of the Act respecting the Québec Pension Plan, by the excess of the rate of increase in the Pension Index determined under that Act over 3%. Section 116 applies to the indexing.
- Provisions applicable. The second paragraph of section 77, section 140 and the third paragraph of section 180 apply in respect of service credited under this division. The sums collected under section 130 are paid into the consolidated revenue fund.

DIVISION IV

PROGRESSIVE RETIREMENT

- Applicability. 133. This division applies to an employee, except a seasonal or casual employee, who has not already availed himself or herself of it and who, within the scope of an agreement with his or her employer, agrees to a reduction of his or her working time for a period of one to five years, provided he or she retires at the end of that period. However, the employee's working time may not be less than 40% of the regular time of a full-time employee in such employment.
- Conditions. Before an employee may avail himself or herself of this division, the employee must obtain from the Commission reasonable assurance that he or she will be entitled to a pension on the date set for the end of the agreement. For this purpose, the Commission shall estimate the years or parts of a year of service that will be credited to the employee at the end of the agreement. Any change to the date fixed for the beginning or the end of the agreement must be accepted by the Commission before being made.
- Extension. However, if at the end of the agreement the number of years or parts of a year of service credited to the employee is less than the number estimated by the Commission or the employee is not entitled to a pension, or if the agreement is suspended by reason of circumstances determined by regulation, the agreement shall be extended, even where this causes the period to exceed five years, until the date on which the number of years or parts of a year of service credited to the employee is equal to the estimate made by the Commission in the first case and, in the other cases, until the date on which the employee becomes entitled to a pension.
- Presumption. A person who has availed himself or herself of Division II.1 of Chapter V.1 of Title I of the Act respecting the Government and Public Employees Retirement Plan is deemed to have already availed himself or herself of this division, and the agreement entered into with the person's employer shall continue to apply as if it had been entered into pursuant to this division.
- Deduction. 134. The employer shall make a deduction from the salary paid to the employee equal to the deduction the employer would have made if the employee had not availed himself or herself of this division.

- Exemption. If the employee is receiving salary insurance benefits, the exemption from contributions provided for in section 34 is the exemption to which the employee would have been entitled if the employee had not availed himself or herself of this division.
- Pensionable salary. 135. For the purposes of this plan and Title IV of the Act respecting the Government and Public Employees Retirement Plan, the pensionable salary for the years or parts of a year covered by the agreement is the salary the employee would have received or, for a period in respect of which salary insurance benefits apply, the salary the employee would have been entitled to receive if the employee had not availed himself or herself of this division. The service credited is the service that would have been credited to the employee if the employee had not availed himself or herself of this division.
- Nullity. 136. If an agreement becomes null or terminates by reason of circumstances that, in each case, are determined by regulation, the pensionable salary, the service credited and the contributions are determined, for each circumstance, in the manner prescribed by regulation.
- Regulation. The regulation may prescribe the terms and conditions on which an employee may be credited with service not recognized by reason of any such circumstance.
- Effect. 137. The regulations made under this division may have effect 12 months or less before they are made.

CHAPTER VI

TRANSFER AND REDEMPTION OF SERVICE

DIVISION I

PAST SERVICE OF AN EMPLOYEE WHO WAS A MEMBER OF THE GOVERNMENT AND PUBLIC EMPLOYEES RETIREMENT PLAN

- Years of service credited. 138. The years and parts of a year of service credited to an employee under the Government and Public Employees Retirement Plan shall, if the employee's contributions have not been refunded to the employee, be credited under this plan from the date on which the employee became a member or on or before the date on which the employee qualified for membership in this plan.
- Forfeiture. Subject to the provisions of the Act respecting the Government and Public Employees Retirement Plan concerning pension credits and paid-up annuity certificates, the employee referred to in the first paragraph forfeits any right, benefit or advantage the employee would have been entitled to claim under the Government and Public Employees Retirement Plan.

DIVISION II**PAST SERVICE OF AN EMPLOYEE WHO WAS A MEMBER OF THE TEACHERS PENSION PLAN OR CIVIL SERVICE SUPERANNUATION PLAN**

Years of service credited.

139. Every person who has become a member of this plan pursuant to the third paragraph of section 23, except where the person makes the election provided for therein, shall be credited, for pension purposes, with the years or parts of a year of service credited under the Teachers Pension Plan or the Civil Service Superannuation Plan if the person's contributions have not been refunded to the person.

Years of service credited.

The employee, other than the person referred to in the first paragraph, may be credited, for pension purposes, with the years and parts of a year of service credited under the Teachers Pension Plan or the Civil Service Superannuation Plan if the person's contributions have not been refunded, if the person is not a pensioner under either of those plans, if the person ceases to be a member of either of those plans before 1 January 1991 and if the person has been a member of the Government and Public Employees Retirement Plan before that date. Notwithstanding the fact that no application to that effect has been made by the employee, the years and parts of a year of service shall be credited to the employee upon computation of any pension unless the employee gives written notice to the contrary before the pension is paid. However, where an application is made for the statement referred to in section 163, the Commission shall assess the benefits accrued under this plan and, where applicable, shall pay the sums awarded to the spouse after including such years and parts of a year of service.

Years of service added.

Where an employee is not covered by the first or the second paragraph or has not made the election provided for in sections 13 and 215.0.0.1.1 of the Act respecting the Government and Public Employees Retirement Plan as they read on 31 December 2000, the years and parts of a year of service shall be added, solely for purposes of eligibility for a pension, to the service credited to the employee under this plan, provided the employee has not received or is not entitled to a refund of contributions under the Teachers Pension Plan or the Civil Service Superannuation Plan and provided the employee is not a pensioner under either of those plans when he or she ceases to be a member of this plan.

Provisions applicable.

140. In the case of physical or mental disability, death or cessation of employment or where an employee ceases to be a member of this plan, the provisions of the Teachers Pension Plan or the Civil Service Superannuation Plan that concern eligibility for a pension and the payment of a pension, as they read on 31 December 1990, continue to apply until a pension becomes payable under this plan, if the years and parts of a year of service that had been credited under those plans were credited under the Government and Public Employees Retirement Plan in accordance with section 98 of the Act respecting the Government and Public Employees Retirement Plan or under this plan in accordance with section 139. Such provisions continue to apply only if they are more advantageous than those of this plan.

- Provisions applicable. Notwithstanding the first paragraph, section 76 of the Act respecting the Civil Service Superannuation Plan, as it read on 1 January 2000, continues, at the time of the death of an employee, to apply if the employee made the election to be a member of the Government and Public Employees Retirement Plan in accordance with section 215.0.0.1.1 of the Act respecting the Government and Public Employees Retirement Plan, as it read on that date, until a pension becomes payable under this plan.
- Provisions applicable. The regulations made under section 75.1 of the Act respecting the Teachers Pension Plan and section 111.2 of the Act respecting the Civil Service Superannuation Plan and the sections of those Acts concerning eligibility for a pension and payment of a pension by reason of a total and permanent disability, in force on 1 January 2000, apply to the employee if the years and parts of a year of service that had been credited under the plans established under those Acts were credited under the Government and Public Employees Retirement Plan before 1 January 2001 in accordance with section 98 of the Act respecting the Government and Public Employees Retirement Plan or under this plan in accordance with section 139, until a pension becomes payable under this plan. Such provisions shall continue to apply only if they are more advantageous than those of this plan.
- Actuarial value. However, the actuarial value of the pensions is payable under the plans concerned only in the case of a pension granted to the spouse or to the pensioner but, in the latter case, only when the pensioner attains 65 years of age.

DIVISION III

SPECIAL PROVISIONS

- Refund. 141. An employee who has received a refund of his or her contributions may be credited with the years and parts of a year of service referred to in section 110 of the Act respecting the Government and Public Employees Retirement Plan upon remitting the refunded sums to the Commission. The employer shall also remit the employer's share to the Commission.
- Refund. If the employee has received the refund of his or her contributions and the contributory amounts of his or her employer, the employee shall remit such sums.
- Interest. The sums remitted in order to be credited with such years and parts of a year bear interest from the date on which they were refunded, at the rate of 7.25%, compounded annually.
- Years of service credited. 142. The years and parts of a year of service completed by the employees of the Commission des services juridiques and of the corporations constituted under the Legal Aid Act (R.S.Q., chapter A-14) shall be credited for pension purposes under this plan for the period from 1 July 1973 to 30 June 1975 if, during that period, the employees paid contributions to the pension fund

established by the Regulation respecting the pension plan for employees of the Commission des services juridiques and of other corporations to which the plan applies, unless they apply for a refund of the contributions paid during the said period.

Transfer.

The sums accumulated in such pension fund are transferred to the Commission.

Members of Sûreté du Québec.

143. An employee may, for pension purposes under this plan, be credited with the years and parts of a year of service accumulated under the pension plan of the members of the Sûreté du Québec

(1) if the employee has not received a refund of his or her contributions ;

(2) if the employee is not entitled to a pension or deferred pension under the said plan.

Contributions.

The contributions collected under the said plan are credited to the employee up to the amount of the contributions that would have been paid by the employee before 1 January 1997 under the Government and Public Employees Retirement Plan or that would have been paid by the employee after 31 December 1996 under the said plan in respect of non-unionizable employees or under this plan.

Years of service credited.

144. An employee may be credited with the years and parts of a year of service during which the employee was a member of the staff of a minister or of a person referred to in section 124.1 of the Act respecting the National Assembly, provided the employee has not otherwise been credited with such years and parts of a year or has not received a refund of the contributions in respect thereof.

Conditions.

The employee must, to be credited with all or part of such service, pay to the Commission an amount equal to the contribution that the employee should have paid before 1 January 1997 under the Government and Public Employees Retirement Plan or that the employee would have paid after 31 December 1996 under the said plan in respect of non-unionizable employees or under this plan. The amount bears interest, compounded annually, at the rates determined for each period by this Act. The interest runs from the midpoint of each year to the date on which the redemption proposal is made by the Commission. Where only part of the employee's service is credited, the most recent service is credited first.

Payment.

The amount established pursuant to the second paragraph is payable in cash or by instalments spread over the period and payable at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal expires.

- Years credited. 145. An employee may, for pension purposes, be credited with the years and parts of a year during which the employee contributed to a pension plan that applied before 1 January 1992 to a Member of the National Assembly and in respect of which the employee's contributions have been refunded to the employee, except if the employee has already exercised a right of redemption in respect of such years and parts of a year under a pension plan other than this plan.
- Payment. The employee must pay to the Commission, for each of such years and parts of a year, an amount equal to the amount obtained by applying the rate of contribution applicable under the Government and Public Employees Retirement Plan for each year and part of a year to the lesser of the following amounts :
- (1) the indemnity the employee received as a Member ; and
 - (2) the pensionable salary the employee is entitled to receive during the first year in which the employee holds pensionable employment under the Government and Public Employees Retirement Plan or under this plan, whichever occurs first, after having been a Member.
- Pension. The pension is based solely on the pensionable salary the employee was receiving while he or she was a member of the Government and Public Employees Retirement Plan or the pensionable salary the employee is receiving while he or she is a member of this plan.
- Casual employment. 146. An employee who has held casual employment within the meaning of the Act respecting the Government and Public Employees Retirement Plan is entitled to be credited, for pension purposes under this plan, with the service accumulated in such capacity between 30 June 1973 and 1 January 1988 with an agency or body party to the Government and Public Employees Retirement Plan or with an agency or body which, in the opinion of the Commission, would have been a party to the plan had it not ceased to exist. For the purposes of this paragraph, any period during which the employee received salary insurance benefits or was granted maternity leave under the provisions concerning parental leaves forming part of the employee's conditions of employment shall be counted as a period of service.
- Conditions. The employee must, to be credited with that service, pay to the Commission an amount equal to the contributions the employee would have been required to pay if the employee had been a member of the Government and Public Employees Retirement Plan or, in the case of a female employee who was granted maternity leave, an amount equal to the contribution she would have been required to pay on the pensionable salary to which she would have been entitled had there been no maternity leave, increased by interest compounded annually at the rates determined, for each period, by this Act. The interest shall run from the midpoint of each year until the date of receipt of the application. Where only part of the employee's service is credited, the most recent service is credited first.

- Payment. 147. The amount established pursuant to section 146 is payable in cash or by instalments spread over the period and payable at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal made by the Commission expires.
- Officers of education. 148. The years and parts of a year of service in respect of which a person has contributed to the pension fund of the officers of education established by Part VIII of the Education Act but not to the Teachers Pension Plan or the Civil Service Superannuation Plan, shall be credited for pension purposes if the contributions the person paid to that pension fund after 30 June 1973 while the person was a member of the Government and Public Employees Retirement Plan have been refunded to the person.
- Conditions. Those years shall also be credited for pension purposes to an employee who has not requested that they be transferred to the Government and Public Employees Retirement Plan and who has not received a refund of the contributions paid into the pension fund referred to in the first paragraph.
- Conditions. The person referred to in the first paragraph must, to be credited with the years and parts of a year of service referred to therein, pay an amount equal to the contributions refunded to the person, with interest, compounded annually, at the rates determined for each period by this Act for the period comprised between the date of the refund and the date of receipt of the application.
- Years of service credited. 149. The years and parts of a year of service credited to an employee under the Pension Plan of Peace Officers in Correctional Services shall, if the employee has not received a refund of his or her contributions, be credited under this plan on an actuarially equivalent basis as established on the date on which the employee begins to pay contributions to this plan. Those years and parts of a year of service shall, in that case, be credited, beginning with the latest service, until the actuarial value of the benefits, as established in respect of those years and parts of a year of service under this plan, reaches the actuarial value of the benefits accrued under the Pension Plan of Peace Officers in Correctional Services, without exceeding the service credited to the employee under that plan.
- Actuarial values. The actuarial values of the benefits shall be established according to the actuarial assumptions and methods determined by regulation, which may vary according to the pension plans concerned.
- Years of service credited. 150. The employee may be credited with all or part of the years and parts of a year of service not credited under this plan pursuant to section 149 or section 115.7 of the Act respecting the Government and Public Employees Retirement Plan by paying to the Commission the difference between the actuarial values concerned for those years and parts of a year of service. The amount to be paid by the employee shall bear interest, compounded annually, at the rates determined, for each period, by this Act and the interest accrues

from the date on which the actuarial values were established until the date of the redemption proposal made by the Commission.

- Payment. The sum established under the first paragraph is payable in cash or by instalments spread over the period and payable at the intervals determined by the Commission. If paid by instalments, the amount bears interest, compounded annually, at the rate in force on the date of receipt of the application, computed from the date on which the redemption proposal made by the Commission expires.
- Refund. 151. The Commission shall refund to an employee whose years and parts of a year of service credited under this plan have been transferred to another pension plan on an actuarially equivalent basis, the amount, if any, by which the total amount of the contributions accumulated under sections 73, 77, 205 and 206 exceeds the amount of the actuarial value of the benefits accrued to the employee under that other pension plan.
- Years of service credited. 152. An employee who is a member of the pension plan established by the Government pursuant to section 10 of the Act respecting the Government and Public Employees Retirement Plan and who, in accordance with that plan, elects to become a member of this plan, shall be credited, for pension purposes, with the years and parts of a year of service credited under the pension plan established by the Government pursuant to that section.
- Years of service credited. The years and parts of a year of service credited under that plan shall be credited, for pension purposes, to an employee who, for reasons set out in that plan, ceases to hold pensionable employment under that plan and, within 180 days, holds pensionable employment under this plan.
- Provisions applicable. The first and second paragraphs apply to the employee if he or she has not received a refund of his or her contributions or if the employee's credited service has not otherwise been recognized under this plan.

CHAPTER VII

RETURN TO WORK OF A PENSIONER

DIVISION I

PENSIONER UNDER THIS PLAN WHO HOLDS PENSIONABLE EMPLOYMENT UNDER THIS PLAN OR THE GOVERNMENT AND PUBLIC EMPLOYEES RETIREMENT PLAN

- Employee covered by this plan. 153. A pensioner who returns to pensionable employment under this plan or who holds pensionable employment under the Government and Public Employees Retirement Plan becomes, notwithstanding section 4, an employee covered by this plan and is a member thereof.

- Cessation of payment. The payment of a pensioner's pension and any benefit under subparagraphs 7 and 8 of the first paragraph of section 97 shall cease while the pensioner holds or returns to the pensionable employment referred to in the first paragraph and the pensioner's pension is, at the time the pensioner ceases to hold that employment, recomputed in accordance with section 155, and sections 157 and 158 apply.
- Non-resumption of membership. 154. Notwithstanding section 153, a pensioner may elect not to resume membership in this plan while holding or upon returning to pensionable employment under the first paragraph of section 153. The pensioner's pension and the benefits referred to in subparagraphs 7 and 8 of the first paragraph of section 97 shall cease to be paid for a period corresponding to the service that would have otherwise been credited to the pensioner while the pensioner holds or has returned to such employment, had the election not been made.
- Non-resumption of membership. An election not to resume membership in this plan applies from the date on which the Commission receives notice in writing to that effect. However, the election made by an employee who did not have years or parts of a year of service credited or counted under the plan or who did not have years or parts of a year of service counted under section 3.2 of the Act respecting the Government and Public Employees Retirement Plan, since the first day on which the employee held his or her last pensionable employment under the plan shall apply from that day.
- Pension and benefits. However, a pensioner who, before 1 January 1983, held pensionable employment under the Government and Public Employees Retirement Plan, the Teachers Pension Plan or the Civil Service Superannuation Plan, except where the pensioner has received or is entitled only to a refund of contributions for the period prior to that date, and who holds or has returned to pensionable employment referred to in the first paragraph of section 153 and has elected not to resume membership in this plan may continue, until the pensioner attains 65 years of age, to receive his or her pension and the benefits referred to in the first paragraph and receive his or her salary.
- Recomputation. 155. The pension of a pensioner who has become an employee covered by this plan in accordance with section 153 shall, at the time the pensioner ceases to hold employment, be recomputed to take into account the pensionable salary of and the years of service credited to the pensioner for the period during which the pension ceases to be paid.
- Indexing. 156. If the pensioner elects not to resume membership in this plan in accordance with section 154, the pension credits accrued to the pensioner under this plan shall be indexed in accordance with the plan for the period during which the pension ceases to be paid.
- Cessation of employment. 157. On ceasing to hold employment, the employee referred to in section 155 is entitled to receive the indexed pension or the pension recomputed in

accordance with this plan for the period during which it ceases to be paid, whichever is greater.

Benefits. 158. To determine the benefits, other than the pension accrued under this plan, to which an employee referred to in section 153 or a pensioner referred to in the first and second paragraphs of section 154 will be entitled when he or she ceases to be employed, the benefits are adjusted in accordance with the plan concerned.

DIVISION II

Benefits. 159. Any benefit under the Teachers Pension Plan or the Civil Service Superannuation Plan shall cease to be paid to a pensioner under either of those plans who is 65 years of age or over, while the pensioner is holding pensionable employment under this plan, for a period corresponding to the service credited to the pensioner while he or she is holding such pensionable employment or, if the pensioner has made the election provided for in section 160, to the service that would have otherwise been credited to the pensioner while he or she is holding such pensionable employment, had such election not been made.

Applicability. However, the first paragraph does not apply in respect of a pension granted to the spouse or in cases where the rules provided for in sections 89 to 100 and 102 and 103 apply.

Non-membership. 160. Notwithstanding section 70 of the Act respecting the Teachers Pension Plan and section 89.4 of the Act respecting the Civil Service Superannuation Plan, the pensioner referred to in section 159 may elect not to be a member of this plan while holding pensionable employment under this plan.

Non-membership. An election not to be a member of this plan applies from the date of receipt by the Commission of a notice in writing to that effect. However, the election made by an employee who did not have years or parts of a year of service credited or counted under this plan or who did not have years or parts of a year of service counted under section 3.2 of the Act respecting the Government and Public Employees Retirement Plan since the first day on which the employee held pensionable employment applies from that day or from the date on which the employee reaches sixty-five years of age, if that first day is prior to that date.

Benefits. 161. The benefits referred to in section 159 to which an employee is entitled upon ceasing to hold employment shall be adjusted in accordance with the plan concerned.

Computation. 162. The pension accrued under this plan by a pensioner who is a member of the Teachers Pension Plan or the Civil Service Superannuation Plan who continues to hold pensionable employment under this plan after the day on which the pensioner attains 65 years of age and who, under section 160, elects not to be a member of this plan, shall be computed and become payable from the date determined in the second paragraph of that section. CHAPTER VIII

PARTITION AND ASSIGNMENT OF BENEFITS BETWEEN SPOUSES

Statement. 163. From the filing of an application for separation from bed and board, divorce, annulment of marriage or for the payment of a compensatory allowance, the employee or former employee and his or her spouse are entitled to obtain, following an application made to the Commission on the conditions and in the manner prescribed by regulation, a statement setting out the value of the benefits accrued to the employee or former employee under this plan, the value of such benefits for the period of the marriage and any other information determined by the regulation.

Statement. The employee or former employee and his or her spouse are also entitled to obtain such a statement, following an application made to the Commission on the conditions and in the manner prescribed by regulation, for the purposes of mediation conducted prior to proceedings in family matters.

Benefits. 164. For the purposes of partition and assignment, the benefits accrued under this plan shall be established according to the rules fixed by regulation, which may differ from the rules otherwise applicable under this Act. The benefits shall be established and assessed in accordance with the actuarial rules, assumptions and methods determined by the regulation, which may vary according to the nature of the benefits established.

Benefits. The benefits shall be established and assessed on the date the proceedings are instituted or the date on which the spouses ceased to live together, as the case may be. If, on that date, an employee does not qualify for membership in this plan pursuant to section 10, the employee's benefits shall be established and assessed under this chapter but according to the rules prescribed by Division II of the Regulation respecting the partition and assignment of benefits accrued under the Government and Public Employees Retirement Plan made by Order in Council 351-91 (1991, G.O. 2, 1307).

Following payment in full of the sums awarded to the spouse of the employee or former employee, every sum payable under this plan in respect of the employee's or former employee's participation shall be reduced in accordance with the actuarial rules, assumptions and methods prescribed by regulation, which may vary according to the nature of the entitlement giving rise to such sum.
- Partition. 168. Where, following a separation from bed and board, the value of the benefits accrued to an employee or former employee under this plan has been included in whole or in part in the value of the benefits that may be partitioned, the partition of the family patrimony shall entail, for the spouse who obtained it, the extinction of any other benefit, advantage or refund which the spouse could claim in his or her quality as spouse, unless the spouses resume living together.
- Pension credits. 169. For the purposes of this chapter, the pension credits granted pursuant to section 3.2 of the Act respecting the Government and Public Employees Retirement Plan and those granted under the Act respecting the Teachers Pension Plan and the Act respecting the Civil Service Superannuation Plan shall be considered to be benefits accrued under this plan.
- Applicability. 170. Chapter IV of Title III of the Act respecting the Government and Public Employees Retirement Plan does not apply to decisions of the Commission concerning the establishment and assessment of the benefits accrued under this plan. Any other decision of the Commission pursuant to this chapter may be contested by the employee or former employee and his or her spouse in the manner provided for for this plan.

- Actuarial valuation. 171. Once every three years, the Comité de retraite referred to in section 173.1 of the Act respecting the Government and Public Employees Retirement Plan shall require the Commission to cause an actuarial valuation of the plan to be prepared by the actuaries designated by the Commission. If no such request is made, the Commission shall cause the actuarial valuation to be prepared if more than three years have elapsed since the last valuation.

Revision of rate.	174. The Government may, by regulation, revise the rate of contribution to the plan. The rate shall be based on the result of the actuarial valuation of the plan and shall be adjusted as of 1 January following receipt by the Minister of the report of the independent actuary.
Amendments to plan.	175. Where the object of a bill introduced in the National Assembly is to make immediate or future amendments to the plan, the Commission shall have a report prepared indicating to what extent the bill will affect the estimates of the latest actuarial valuation report.

The accounting records relating to the special-purpose fund shall be separate from those relating to the employees' contribution fund. The fund is subject to paragraph 3 of section 173.2 of the Act respecting the Government and Public Employees Retirement Plan.

Transfer.

191. Each year, an amount equal to 2.72% of the pensionable salary of the employees shall be transferred from the employers' contributory fund at the Caisse de dépôt et placement du Québec to the special-purpose fund. The amount is intended to provide for the funding of the additional benefits that result from the application, from 1 January 2001, of the measures referred to in section 190 and that pertain to years and parts of a year of service subsequent to 31 December 2000.

Transfers.

192. Transfers made in accordance with section 191 shall terminate on the date on which the aggregate of the amount of 44 million dollars referred to in paragraph 2 of section 215.0.0.18 of the Act respecting the Government and Public Employees Retirement Plan as it read on 1 January 2000, accumulated with interest from that date, and the amount of all transfers made in accordance with section 215.0.0.19 of that Act, as it read on that date and with section 191 of this Act, accumulated with interest from the date of the respective transfers, equals the amount of 433 million dollars referred to in paragraph 1 of the said section 215.0.0.18, with accrued interest.

For the purposes of the first paragraph, the rate of interest is determined in accordance with section 189.

Transfer.

193. Not later than 31 December 2001, there shall be transferred from the special-purpose fund to the consolidated revenue fund an amount determined by regulation, intended for the funding of the additional benefits that result from the application, from 1 January 2000, of the measures provided for in

sections 33, 74.1, 74.2, 77 and 215.0.0.6 to 215.0.0.8 of the Act respecting the Government and Public Employees Retirement Plan as they read on 1 January 2000, in respect of the person who made the election provided for in section 215.0.0.1.1 of that Act, as it read on that last date, and that pertain to the years and parts of a year of service transferred from the Teachers Pension Plan and the Civil Service Superannuation Plan to the Government and Public Employees Retirement Plan.

- Amount transferred. The amount shall correspond to the actuarial value of the difference between the additional benefits that result from the application of the measures referred to in the first paragraph and the benefits that would result from the application of the provisions of the Teachers Pension Plan or the Civil Service Superannuation Plan, as the case may be, as they read on 31 December 1999.
- Computation. The amount shall be computed on the basis of the assumptions used in the most recent actuarial valuation that is available at the time of the transfer and prepared under section 171 and shall bear interest from 1 January 2000 until the date of transfer, at the rate determined in accordance with section 189.
- Transfer. 194. In the year following each three-year period, there shall be transferred from the special-purpose fund to the employees' contribution fund and the employers' contributory fund, in equal shares, an amount corresponding to the actuarial value of the difference between the benefits that result from the application of the measures referred to in section 190 and the benefits that would result from the application of sections 33 and 77 of the Act respecting the Government and Public Employees Retirement Plan as they read on 31 December 1999, with respect to each of the employees who are members of this plan who have retired during the period from 1 January of the first year of the three-year period to 31 December of the last year of that period. Shall be excluded from that difference, where applicable,
- (1) any part of the difference that pertains to the years and parts of a year of service relating to the Teachers Pension Plan or the Civil Service Superannuation Plan which have been transferred to the Government and Public Employees Retirement Plan; and
 - (2) 2/12 of any part of the difference that pertains to the years and parts of a year of service credited prior to 1 July 1982.
- Eligibility. For the purposes of the first paragraph, the employees who would not have been eligible for an immediate pension under section 33 of the Act respecting the Government and Public Employees Retirement Plan as it read on 31 December 1999 shall be considered as having been eligible for an immediate pension to which is applied the actuarial reduction provided for in section 38 of that Act as it read on that date, until the time when they would have been eligible for a pension without actuarial reduction.

Actuarial value.

The actuarial value of the benefits provided for in the first paragraph shall be established on the basis of the assumptions used in the most recent actuarial valuation of the plan that is available at the time of the transfer and prepared under section 171 of this Act. The actuarial value shall bear interest, from the date of retirement of each of the employees referred to in the first paragraph until the date of the transfer, at the rate determined under section 189.

Transfer.

195. On the date on which transfers from the employers' contributory fund to the special-purpose fund are terminated pursuant to section 192, the balance of the special-purpose fund shall be transferred, in equal shares, to the employers' contributory fund and to the employees' contribution fund. After that operation, the special-purpose fund shall be dissolved.

CHAPTER XII

MISCELLANEOUS PROVISIONS

Administration.

197. The Commission administrative des régimes de retraite et d'assurances is responsible for the administration of this plan.

Application.

198. No person may claim any benefit, advantage or refund under this plan if the person has not applied therefor to the Commission.

Payment of benefit.

Even in the absence of an application therefor, the Commission may pay any benefit under this plan on the date on which it is or becomes payable without actuarial reduction. However, such a benefit shall be paid on or before

31 December of the year in which the employee attains 69 years of age or, where the employee continues to hold pensionable employment under the plan on that date, on or after the date on which the employee retires.

Redemption proposal. 199. Where an application for the redemption of years or parts of a year is filed with the Commission under this pension plan, the Commission shall send to the employee a redemption proposal valid for a period of 60 days from the date it is made.

Notice. An application for redemption is deemed never to have been made if the Commission does not receive from the employee before the 60-day period expires a notice to the effect that the employee accepts the proposal.

Cash payment. Moreover, an application is deemed never to have been made if the cash payment of the cost of redemption is not made before the 60-day period expires, where such a payment is required owing to the choice made by the employee or by operation of law. Where the payment is to be made by instalments and the employee fails to make a payment, the application for redemption is deemed never to have been made in respect of service for which the payments have not been made if the employee does not make the payment that has become overdue 30 days after the date of a notice from the Commission to that effect. In that case, the most recent service is credited first. However, in the case of sections 38, 84 to 87, 118, 120, 141 and 148, the application for redemption is deemed never to have been made as regards the entire service, and the sums that have been paid by the employee shall be refunded with the interest provided for in section 204 and computed in accordance with sections 205 and 206.

Interest. No interest is computed for the period during which the redemption proposal provided for in the first paragraph is valid. Where the Commission refuses the redemption of years or parts of a year and the decision is reversed following a review or arbitration based on the data contained in the record at the time of the refusal, no interest is computed in respect of such years or parts of a year between the date of the refusal and the date of expiry of the redemption proposal.

Application for review. 200. Notwithstanding section 199, an employee who files an application for review during the period in which the redemption proposal is valid is not bound to accept the proposal during that period or to make payments until a final determination has been made. After mailing the decision of the Comité de retraite or of the arbitrator, as the case may be, the Commission shall send the employee a notice which reiterates or amends the redemption proposal as of the date of the proposal, and section 199 applies.

Interest. Any unpaid amount in respect of the redemption proposal bears interest, compounded annually and payable according to the same terms and conditions as the redemption, at the rate in force on the date of receipt of the application for redemption, from the date of the proposal until the date of the Commission's notice, unless interest is otherwise payable for that period by operation of law.

- Defined benefit limit. 201. No benefit resulting from the redemption under this plan of years or parts of a year prior to 1 January 1990 may exceed the defined benefit limit applicable in respect of such years or parts of a year under the Income Tax Act (Revised Statutes of Canada, 1985, chapter 1, 5th Supplement).
- Regulations. For the purposes of the first paragraph, the limit applicable to the pensionable salary for the purpose of establishing the cost of redemption, the limit applicable to the service that may be credited, and the rules and procedures for computing that part of the pension which relates to the years or parts of a year redeemed, may be established by regulation.
- Regulations. 202. The periods of absence of an employee that may be credited under this plan, which may vary according to the year in which the employee was absent, are, for each type of absence and in total, determined by regulation.
- Transfer agreement. 203. The Commission may, with the authorization of the Government, enter into a transfer agreement with any body having a pension plan or the body that administers the plan, to cause to be counted or credited, as the case may be, in respect of an employee who is a member of this plan, all or part of the years of service counted under the pension plan of which the employee was a member. If such a transfer agreement stipulates that years and parts of a year of service counted under the other pension plan are recognized solely for purposes of eligibility for a pension under this pension plan, the employee who pays an amount determined in the agreement in order to be credited with all or part of the years and parts of a year of service under the pension plan shall do so in the manner prescribed in the second paragraph of section 150.
- Agreements. The Commission may, subject to the applicable legislative provisions, enter into such an agreement with a government in Canada or any of the departments or bodies of such a government.
- Agreements. Such agreements may provide the conditions and the procedure applicable to a transfer and provide for the case of an employee who enters the service of a government in Canada or of one of its departments or of any other body.
- Interest. 204. The interest payable under this plan is the interest provided for in Schedule VII in respect of the period indicated. Such interest is established in relation to the rate of return of certain classes of amounts referred to in section 177 and designated by regulation.
- Rate of interest. The rate is established annually according to the rules and in the manner determined by regulation.
- Interest. 205. The interest on contributions within the meaning of section 73 accrues at the rates determined for each period under this Act. However, until 31 December 1990, interest accrues at 90% of those rates.
- Applicability. The first paragraph does not apply to the computation of the interest accrued under this plan for the purposes of section 71 of the Act respecting the Pension Plan of Peace Officers in Correctional Services.

Computation of interest.	206. For the purposes of the computation of the interest, the contributions of the employee within the meaning of section 73, except the amounts that the employee had paid into a pension plan from which service has been transferred to this plan pursuant to sections 149 and 203, are deemed received at the mid-point of each year. The manner of computing the interest on any of the contributions of an employee within the meaning of section 73 is established by regulation.
Amendments.	207. The Government may, by order, amend Schedules I and III to VII. It may also amend Schedule II, but only to the extent provided for in section 220 of the Act respecting the Government and Public Employees Retirement Plan. Any such order may have effect 12 months or less before it is made.
Effect.	Any order made under paragraphs 2 and 4 of section 2 and under paragraph 7 of section 3 may have effect six months or less before it is made, and any order made under paragraph 5 of section 2 may have effect 12 months or less before it is made. However, any order made under paragraph 3 of section 2 may have effect from any date subsequent to 31 December 2000.
Supplementary benefits.	208. The Government may, with respect to classes of employees designated under the first paragraph of section 23, establish a plan that provides for supplementary benefits payable from the date of retirement. The Government may also provide in the plan for the payment of benefits to the spouses of such employees.
Benefits.	Benefits accrued during marriage under the supplementary benefits plan form part of the family patrimony established under the Civil Code of Québec. In that respect, the Government may render all or some of the rules contained in Chapter VIII or enacted under that chapter applicable to the plan. It may also prescribe special rules governing the determination and assessment of the supplementary benefits so granted.
Inalienability and unseizability.	In addition, the amounts paid under this plan are inalienable and unseizable. However, they are unseizable only up to 50% in the case of amounts arising out of the partition of the family patrimony between spouses, the payment of support or the payment of a compensatory allowance.
Effect.	An order under the first or second paragraph may have effect 12 months or less before it is made.
Administration.	209. The Commission is responsible for the administration of the supplementary benefits plan. At least once every three years, the Commission shall cause an actuarial valuation of the plan to be made by the actuaries it shall designate.
Applicability.	Divisions I and II of Chapter IV of Title III of the Act respecting the Government and Public Employees Retirement Plan do not apply with respect to an employee belonging to a designated class, but such an employee may, in the year following the mailing date of any decision of the Commission

concerning the employee, file with the Commission an application for arbitration. The arbitrator shall be the person appointed pursuant to the second paragraph of section 183 of that Act, and sections 184 to 186 of that Act apply.

Benefits.

The benefits payable under the supplementary benefits plan are paid out of the consolidated revenue fund.

Inalienability and unseizability.

210. All sums paid or refunded under this plan are inalienable and unseizable. To that end, a person's entitlements under this plan may not be assigned, encumbered, anticipated, given as security or waived. The fact of reducing the benefits for the purpose of avoiding the revocation of registration of the plan does not constitute a waiver.

Assignment.

The first paragraph does not operate to prevent, to the extent that the plan provides therefor, an assignment

(1) under an order, a judgment of a court of competent jurisdiction, or a written agreement on or after the breakdown of the marriage or of a situation similar to a conjugal relationship between an employee and the employee's spouse or former spouse, in settlement of rights arising out of the marriage or situation ;

(2) made by the legal representative of a deceased employee, in settlement of the succession.

Provisions applicable.

211. Sections 139 and 148 apply notwithstanding the provisions of section 10 of the Charter of human rights and freedoms (R.S.Q., chapter C-12).

Exception.

The said sections shall operate notwithstanding the provisions of section 15 of the Constitution Act, 1982 (Schedule B to the Canada Act, chapter 11 in the 1982 volume of the Acts of the Parliament of the United Kingdom).

Minister responsible.

212. The Government shall designate the Minister to be responsible for the administration of this Act.
