Rules applicable.

For the purpose of determining the assets of a corporation in accordance with the second paragraph, the following rules apply :

(a) if the corporation’s financial statements have not been prepared, or have not been prepared in accordance with generally accepted accounting principles, its assets are those that would be shown if such financial statements had been prepared in accordance with generally accepted accounting principles ; and

(b) if the corporation is a cooperative, the second paragraph shall be read as if the reference therein to “submitted to the shareholders” were a reference to “submitted to the members”.

Computation of assets of a corporation.

**“1029.8.21.19.** For the purposes of the second paragraph of section 1029.8.21.18, in computing the assets of a corporation at any time, the amount that is the surplus reassessment of its property at that time and the amount of

(b) for the purpose of determining the amount that the new corporation is deemed to have paid to the Minister under this division for the taxation year in which the calendar year ends, the new corporation is deemed to have paid, in the preceding period, the aggregate of all amounts each of which is the salaries or wages paid by a predecessor corporation to an employee in a period within the preceding period for which the employee

i. is an eligible employee of the predecessor corporation, or

ii. if the employee reports for work at an establishment of the predecessor corporation situated in Québec, would be an eligible employee of the predecessor corporation if the establishment where the employee so reported for work had been situated in an eligible region.

Decrease in or  
cessation of activities.

**“1029.8.36.72.79.** Subject to sections 1029.8.36.72.77 and 1029.8.36.72.78, where, at a particular time in a particular calendar year, the activities carried on by a person or partnership, in this section referred to as the “vendor”, in relation to a recognized business or a business that would be a recognized business if a qualification certificate had been issued in its respect, diminish or cease, and where it may reasonably be considered that, as a result, another person or partnership, in this section referred to as the “purchaser”, begins, after the particular time, to carry on similar activities in the course of carrying on such a business, or increases, after that time, the scope of similar activities carried on in the course of carrying on such a business, the following rules apply, subject to the third and fourth paragraphs, for the purpose of determining the amount that a corporation is deemed to have paid to the Minister under this division for the taxation year in which the particular calendar year ends and for the taxation year in which a subsequent calendar year ends:

(a) the aggregate of all amounts each of which is the salaries or wages paid by the vendor to an employee in its base period in relation to the particular calendar year for which the employee is an eligible employee, or the salaries or wages of an employee who reports for work at an establishment of the vendor situated in Québec, paid by the vendor in its base period in relation to the particular calendar year for which the employee would be an eligible employee of the vendor if the establishment where the employee so reported for work had been situated in an eligible region, is deemed to be equal to the amount by which that aggregate otherwise determined exceeds the amount determined by the formula

$$A \times B \times C;$$

(b) the purchaser is deemed

i. to have an eligible amount for the particular calendar year equal to the aggregate of the purchaser’s eligible amount for the year otherwise determined and the amount that is the proportion of the aggregate of all amounts each of which is the salaries or wages paid by the vendor to an employee in a period within the particular calendar year for which the employee is an eligible employee, or the salaries or wages of an employee who reports for work at an establishment of the vendor situated in Québec, paid by the vendor in a period within the particular calendar year for which the employee would be an

eligible employee of the vendor if the establishment where the employee so reported for work had been situated in an eligible region, to the extent that the employee may reasonably be considered to have been assigned to the carrying on of the part of the activities that diminished or ceased at the particular time, that the number of days in the particular calendar year which precede the particular time is of the number of days in the particular calendar year which precede the particular time and during which the vendor carried on those activities, and

ii. to have a base amount in relation to the particular calendar year equal to the aggregate of

(1) the base amount of the purchaser otherwise determined in relation to the particular calendar year,

(2) the amount that is the proportion of the salaries or wages paid by the vendor to an employee in a period within the particular calendar year for which the employee is an eligible employee, or the salaries or wages of an employee who reports for work at an establishment of the vendor situated in Québec, paid by the vendor in a period within the particular calendar year for which the employee would be an eligible employee of the vendor if the establishment where the employee so reported for work had been situated in an eligible region, to the extent that the salaries or wages may reasonably be considered to relate to the carrying on by the employee of the part of the activities that diminished or ceased at the particular time, that the number of days in the particular calendar year which precede the particular time is of the number of days in the particular calendar year which precede the particular time and during which the vendor carried on those activities, and

(3) the aggregate of all amounts each of which is the salaries or wages paid by the purchaser to an employee in a period of the particular calendar year and after the particular time, for which the employee is an eligible employee, or the salaries or wages of an employee who reports for work at an establishment of the purchaser situated in Québec, paid by the purchaser in a period of the particular calendar year and after the particular time for which the employee would be an eligible employee of the purchaser if the establishment where the employee so reported for work had been situated in an eligible region, to the extent that the salaries or wages may reasonably be considered to relate to the carrying on by the employee of the part of the activities that began or increased at the particular time.

Interpretation.

In the formula provided for in subparagraph *a* of the first paragraph,

(*a*) *A* is the aggregate of all amounts each of which is the salaries or wages paid by the vendor to an employee in its base period for the particular calendar year for which the employee is an eligible employee, or the salaries or wages of an employee who reports for work at an establishment of the vendor situated in Québec, paid by the vendor in a period within the year for which the employee would be an eligible employee of the vendor if the establishment

where the employee so reported for work had been situated in an eligible region;

(b) B is the proportion that the number of the vendor's employees referred to in subparagraph *a* who are assigned to the part of the activities that diminished or ceased at the particular time is of the number of the vendor's employees assigned to those activities immediately before the particular time; and

(c) C, where this section applies for the purpose of determining the amount that a corporation is deemed to have paid to the Minister under this division in respect of the particular calendar year, is the proportion that the number of days in the particular calendar year following the particular time is of 365.

Exception.

Where a particular corporation is, at any time in a calendar year, a purchaser in relation to activities carried on by a person or partnership and, at a subsequent time in the same calendar year, the particular corporation is a vendor in relation to all of those activities, this section does not apply to the particular corporation either as vendor or as purchaser in respect of the activities and, for the purpose of determining the amount that a corporation is deemed to have paid to the Minister under this division, the particular corporation is deemed to have paid, from that time to the subsequent time, no portion of the salaries or wages that may reasonably be considered to relate to the employees assigned to the carrying on of the activities that ceased after the subsequent time.

Exception.

For the purposes of this section, where a corporation is, at a particular time in a calendar year, a purchaser in relation to activities carried on by a person or partnership and, at a subsequent time in the same calendar year, that corporation is a vendor in relation to part of those activities, the following rules apply for the purpose of determining the eligible amount of the corporation for the year and its base amount in relation to that year:

(a) the corporation's employees are deemed to have been paid by the corporation only the portion of the salaries or wages that may reasonably be considered to have been paid to the employees assigned to the part of the activities that the corporation continues to carry on after that subsequent time; and

(b) the person's or partnership's employees are deemed to have been paid by the person or partnership only the portion of the salaries or wages that may reasonably be considered to have been paid to the employees assigned to the part of the activities that the corporation continues to carry on after that subsequent time.

Assistance, benefit or advantage deemed nil.

**“1029.8.36.72.80.** For the purposes of this division, where a corporation has received, is entitled to receive or may reasonably expect to receive non-government assistance, or where a person or partnership has obtained, is entitled to obtain or may reasonably expect to obtain a benefit or

advantage, whether in the form of a reimbursement, compensation, guarantee, in the form of proceeds of disposition of property which exceed the fair market value of the property, or in any other form or manner, in respect of a taxation year or a fiscal period in which the base period of the corporation in relation to a calendar year ends, in respect of a recognized business, or a business that would have been a recognized business if a qualification certificate had been issued in its respect, and where it may reasonably be considered that the main reason for the assistance or the benefit or advantage is to reduce, in accordance with subparagraph i or iii of subparagraph *a* or *b* of the first paragraph of section 1029.8.36.72.75, as the case may be, the amount of the salaries or wages paid by the corporation in its base period, in relation to the business, so as to cause a corporation to be deemed to have paid an amount to the Minister under this division for a taxation year or to increase an amount that a corporation is deemed to have paid to the Minister under this division for a taxation year, the amount of the assistance or of the benefit or advantage is deemed to be equal to zero.

Corporations deemed associated.

**“1029.8.36.72.81.** Where it may reasonably be considered that one of the main reasons for the separate existence of two or more corporations in a calendar year is to cause a qualified corporation to be deemed to have paid an amount to the Minister under this division in respect of that year or to increase an amount that a qualified corporation is deemed to have paid to the Minister under this division in respect of that year, those corporations are deemed, for the purposes of this division, to be associated with each other at the end of the year.

(2) Subsection 1 has effect from 1 January 2001. However, where section 1029.8.36.72.70 of the said Act applies before 20 December 2001, it shall be read with the following definitions inserted in alphabetical order in the first paragraph:

““government assistance” means assistance from a government, municipality or other public authority whether as a grant, subsidy, forgivable loan, deduction from tax, investment allowance or as any other form of assistance, other than an amount that is deemed to have been paid to the Minister for a taxation year under this division;

““non-government assistance” means an amount that would be included in computing the income of a taxpayer by reason of paragraph *w* of section 87 if that paragraph were read without reference to subparagraphs ii and iii thereof, other than an amount that is deemed to have been paid to the Minister for a taxation year under this division;”.

(*b*) that is determined by multiplying the amount refunded, paid or allocated by the proportion that the income or loss of the partnership for the partnership's fiscal period that ends in the repayment year is of the corporation's share of that income or loss, on the assumption that, if the partnership's income and loss for that fiscal period are nil, the partnership's income is equal to \$1,000,000.

Determination of amount.

The amount to which the first paragraph refers is equal to,

(b) in the case provided for in subparagraph *b* of the first paragraph, the amount by which the portion of the particular expenditure that may reasonably be attributed to the cost of application software, unless the portion is included in computing an amount that is deemed to be refunded under subparagraph *a*, exceeds the aggregate of all amounts each of which is an amount that relates to the portion of the particular expenditure that, in a taxation year preceding the repayment year but subsequent to the particular year, was refunded, otherwise paid or allocated to a payment to be made by the corporation.

Exception.

No tax is payable for a taxation year under section 1129.0.17 in respect of any amount that is refunded or otherwise paid to the partnership or corporation, or is allocated to a payment to be made by the partnership or corporation, if that amount is included in an amount that is deemed to have been refunded, under this section, in a fiscal period of the partnership that ends in the taxation year or in a preceding taxation year."

c. I-3, ss. 1129.4.29  
and 1129.4.30,  
replaced.

**268.** (1) Sections 1129.4.29 and 1129.4.30 of the said Act, enacted by section 124 of chapter 9 of the statutes of 2002, are replaced by the following :

Tax payable.

**"1129.4.29.** Every corporation that is deemed to have paid an amount to the Minister, under section 1029.8.36.0.85, on account of its tax payable for a particular taxation year under Part I, in relation to eligible expenses incurred in the particular year in respect of a strategic building, shall pay the tax referred to in the second paragraph for a subsequent taxation year, in this section referred to as the "repayment year", in which an amount relating to the eligible expenses is, directly or indirectly, refunded or otherwise paid to the corporation or allocated to a payment to be made by the corporation.

Determination of tax.

The tax to which the first paragraph refers is equal to the amount by which the aggregate of all amounts each of which is an amount that the corporation is deemed to have paid to the Minister under section 1029.8.36.0.85 or 1029.8.36.0.89, in relation to the eligible expenses, exceeds the total of

(a) the aggregate of all amounts each of which is an amount that the corporation would be deemed to have paid to the Minister under section 1029.8.36.0.85 or 1029.8.36.0.89, in relation to the eligible expenses, if every amount that is, at or before the end of the repayment year, so refunded, paid or allocated, in relation to the eligible expenses, were refunded, paid or allocated in the particular year; and

(b) the aggregate of all amounts each of which is a tax that the corporation is required to pay to the Minister under this section or section 1129.4.30 for a taxation year preceding the repayment year, in relation to the eligible expenses.

Exception.

However, no tax is payable under this section if section 1129.4.30.1 applies in respect of the strategic building for the repayment year or for a preceding taxation year.

Tax payable.

**"1129.4.30.** Every corporation that is deemed to have paid an amount to the Minister, under section 1029.8.36.0.85, on account of its tax payable for a taxation year under Part I, in relation to the eligible expenses incurred in the particular year in respect of a strategic building, shall pay the tax referred to in the second paragraph for a taxation year of its filing period, in this section referred to as the "particular year", in respect of which the corporation is in default by reason of either of the following situations :

(a) the corporation fails to file the qualification certificate relating to the strategic building with the Minister as required by section 1029.8.36.0.87, for the particular year; or

(b) the corporation disposes of the strategic building in the particular year.

Determination of tax.

The tax to which the first paragraph refers is equal to,

(a) where the particular year is one of the first five taxation years of the corporation's filing period, the amount by which the aggregate of all amounts each of which is an amount that the corporation is deemed to have paid to the Minister, under section 1029.8.36.0.85 or 1029.8.36.0.89, in relation to the eligible expenses, exceeds the aggregate of all amounts each of which is a tax that the corporation is required to pay to the Minister under section 1129.4.29 for the particular year or for a preceding taxation year, in relation to the eligible expenses; or

(b) where the particular year is one of the last nine taxation years of the corporation's filing period, the amount determined by the formula

$$A \times [(15 - B) \times 10] / 100.$$

Interpretation.

In the formula provided for in subparagraph *b* of the second paragraph,

(a) *A* is the amount that would be determined under subparagraph *a* of the second paragraph, if that subparagraph applied to the particular year; and

(b) *B* is the number of taxation years, including the particular year, following the taxation year that includes the completion date of the work.

Exception.

However, no tax is payable under this section if the section applied in respect of the strategic building for a taxation year preceding the particular year or if section 1129.4.30.1 applies in respect of the building for the particular year or for a preceding taxation year."

**3.** Section 53.30 of the said Act is amended

(1) by replacing “establishment, in particular” in subparagraph 6 of the first paragraph by “persons, in particular those operating” ;

(2) by replacing “by agreement between the organization and the Minister” at the end of subparagraph *a* of subparagraph 7 of the first paragraph by “in an agreement between the organization and the Société québécoise de récupération et de recyclage, which must be transmitted to the Minister” ;

c. Q-2, ss. 53.31.1-53.31.20, added.

**4.** The said Act is amended by inserting the following after section 53.31:

“§4.1. — *Compensation for municipal services*

Compensation.

**“53.31.1.** The persons referred to in subparagraph 6 of the first paragraph of section 53.30 are required, to the extent and on the conditions set out in this subdivision, to compensate the municipalities for the services provided by the municipalities to ensure that the materials designated by the Government under section 53.31.2 are recovered and reclaimed.

Designation of materials.

**“53.31.2.** The Government may, by regulation, designate the materials or classes of materials referred to in subparagraph 6 of the first paragraph of section 53.30 in respect of which the compensation regime established under this subdivision is to apply.

Criteria.

The designation shall be made taking into account, among other things, the proportion of the population receiving municipal curbside recycling services and the territories in which the services are provided, after evaluating the results achieved with regard to recycling or reclamation in other forms of the containers, packaging or packaging materials, printed matter or other products concerned.

Compensatory contribution.

The Government may also, by regulation, as regards one or more designated materials or classes of materials, specify which persons from among the persons referred to in subparagraph 6 of the first paragraph of section 53.30 are required to pay a compensatory contribution as compensation to the municipalities.

Annual compensatory contribution.

**“53.31.3.** The annual compensatory contribution payable corresponds to a percentage of the total of the net costs of the services provided by the municipalities in relation to the materials or a class of materials designated by the Government.

Amount.

The amount of the compensatory contribution shall be determined by material or class of materials designated by the Government.

Calculation.

Subject to a maximum percentage fixed under section 53.31.4, the amount of the compensatory contribution is established by multiplying the percentage determined under that section by the total amount of the net costs determined under section 53.31.5 or, where applicable, section 53.31.7.

First contribution payable.

To establish the first annual compensatory contribution payable in relation to a material or a class of materials, the net costs taken into account are those borne by the municipalities in the year preceding the year in which the

designation of the material or class of materials by the Government becomes effective. The amount of the compensatory contribution shall, however, be established as a proportion of the number of months elapsed since the designation.

- Maximum percentage.      “**53.31.4.** The percentage of the total of the net costs subject to compensation shall be determined by the Government and may not exceed 50%.
- Maximum amount.      The Government may also determine, by regulation, the maximum amount of the annual compensatory contribution payable in relation to a material or a class of materials.
- Total amount of net costs.      “**53.31.5.** The total amount of the net costs of the municipal services subject to compensation and the nature of the expenses taken into account shall be determined by agreement between the municipal groupings and the body certified by the Société québécoise de récupération et de recyclage.
- Agreement.      “**53.31.6.** The Société québécoise de récupération et de recyclage shall support and assist the municipal groupings and the certified body in reaching an agreement. The Société shall see that any agreement entered into is conducive to the achievement of the objectives established in the residual materials management policy adopted under section 53.4 of this Act.
- Determination of total net costs.      “**53.31.7.** Failing agreement between the certified body and the municipal groupings within the time determined by the Minister, the Société québécoise de récupération et de recyclage shall determine the total amount of the net costs of the municipal services subject to compensation.
- Approval.      The determination of the amount is subject to the prior approval of the Minister.
- Municipal groupings.      “**53.31.8.** The municipal groupings referred to in section 53.31.5 are the Union des municipalités du Québec and the Fédération québécoise des municipalités. Another body representing the municipalities may be substituted for or added to the municipal groupings if the body is designated for that purpose by the Société québécoise de récupération et de recyclage.
- Applications for certification.      “**53.31.9.** Applications for certification to represent the persons required to pay a compensatory contribution under this subdivision shall be made to the Société québécoise de récupération et de recyclage.
- Information.      The Société may require any body to supply it with any information necessary to assess the merits of the application and, in particular, to ascertain the body’s representativeness of the persons specified in the application.
- Number of certifications.      “**53.31.10.** Unless another grouping criterion is established by the Société québécoise de récupération et de recyclage, the Société shall issue as

many certifications as there are materials or classes of materials designated by the Government under section 53.31.2.

- Effect. This rule does not prevent the Société from issuing more than one certification to the same body.
- Joint certification. The Société may also issue joint certification in relation to the same materials or class of materials if the applicant bodies submit to the Société an agreement which the Société considers satisfactory as regards the manner in which the bodies are to share their responsibilities. The agreement shall specify in particular the proportion of the compensatory contribution that will be paid by each body.
- Minimum criteria. **“53.31.11.** The Minister may specify minimum criteria to be taken into account by the Société québécoise de récupération et de recyclage in certifying a body.
- Time limit. The Minister may also determine the period within which applications for certification may be made to the Société. At the end of that period, the Société may designate a body on its own initiative if no application has been made or if no application satisfies the criteria fixed.
- Compensation amount. **“53.31.12.** The certified body shall remit to the Société québécoise de récupération et de recyclage, in trust, the amount of the compensation owed to the municipalities.
- Time and term of payment. The times at which and the terms according to which the amount is payable to the Société shall be agreed between the Société and the certified body. Failing agreement, they shall be determined by the Minister.
- Goods or services. The Government may, by regulation, provide that the amount of the compensation referred to in the first paragraph in relation to materials or a class of materials may be paid, in whole or in part, through a contribution in goods or services.
- Dissemination of information. The contributions in goods or services must enable the dissemination of information, awareness and education messages concerning environmental matters and favour messages intended to promote the recovery and reclamation of residual materials.
- Terms and conditions. The terms and conditions for applying a payment through contributions in goods or services shall be established by agreement between the certified body concerned and the Société québécoise de récupération et de recyclage, subject to any directives that the Minister may give in that regard.
- Collection of contributions. **“53.31.13.** A certified body required to remit an amount of compensation under section 53.31.12 may collect, from its members and from persons who or which, without being members, carry on activities similar to those carried on by the members in relation to the designated materials or

classes of materials, the contributions necessary to remit the full amount of compensation and to indemnify the body for its management costs and other expenses incidental to the compensation regime.

Schedule of contributions.

**“53.31.14.** The contributions payable shall be established on the basis of a schedule of contributions that has been the subject of a special consultation of the persons concerned.

Criteria.

The criteria taken into account to determine the schedule must evolve over the years in such manner as to foster the accountability of the various classes of persons concerned as regards the environmental consequences of the products they manufacture, market, distribute or commercialize or the materials they otherwise generate, having regard in particular to the content of recycled materials, the nature of the materials used, the volume of residual materials produced and their potential for recovery, recycling or other forms of reclamation.

Exemptions or exclusions.

The schedule of contributions may also provide for exemptions or exclusions in addition to those resulting from decisions made under section 53.31.2. The schedule of contributions may also specify the terms according to which the contributions are to be paid to the certified body, which must take into account payments through a contribution in goods or services made in accordance with section 53.31.12.

Approval.

The schedule must be approved by the Government.

Opinion.

**“53.31.15.** The Société québécoise de récupération et de recyclage shall give an opinion to the Government on the advisability of approving the schedule of contributions proposed by the certified body. The approved schedule of contributions shall be published in the *Gazette officielle du Québec*.

Interest rate.

**“53.31.16.** The sum owed to a certified body as a compensatory contribution to the municipalities bears interest at the rate fixed under section 28 of the Act respecting the Ministère du Revenu (chapter M-31).

Remedy.

Where a certified body pursues a remedy to claim a sum it is owed under this Act, the certified body is entitled to claim, in addition to interest, an amount equal to 20% of that sum.

Distribution criteria.

**“53.31.17.** The certified body and the municipal groupings shall agree on the criteria under which the compensation paid is to be distributed among the municipalities. They shall also agree on the times at which and the terms according to which the compensation is payable to the municipalities concerned.

Distribution criteria.

Failing agreement within the time prescribed by the Minister, the Société québécoise de récupération et de recyclage shall determine the applicable distribution criteria and fix the other terms according to which the payments are to be made to the municipalities concerned.

- Compensation.           **“53.31.18.** The Société québécoise de récupération et de recyclage may withhold from any sum received as compensation for the municipalities a percentage of the sum to indemnify the Société for its management costs and other expenses related to the compensation regime, including expenses for informational, awareness and educational activities and for development activities related to the reclamation of the designated materials or classes of materials.
- Maximum percentage.       The percentage that may be withheld by the Société under the first paragraph shall be determined by the Government and may not exceed 10%.
- Information and documents.   **“53.31.19.** In addition to the powers provided for in section 53.31, the Minister may determine, by regulation, the information and documents concerning the matters referred to in that section that a person or municipality is required to periodically make available to the Minister or to furnish to the Société québécoise de récupération et de recyclage or to a body certified by the Société under this subdivision, as regards designated materials or classes of materials, for the establishment or application of a schedule of contributions for the purpose of compensating the municipalities.
- Confidentiality.           **“53.31.20.** The information obtained under section 53.31.19 by a body certified by the Société québécoise de récupération et de recyclage is confidential ; it may not be disclosed or made accessible to persons not legally entitled thereto except with the written authorization of the person concerned.
- Restriction.               Persons working with such a body may not use confidential information obtained in connection with the compensation regime established under this subdivision to obtain, directly or indirectly, a benefit for themselves or for others.”

WHEREAS it is appropriate to affirm the desire of Québec society as a whole to act in a coordinated manner and pursue a course of action designed to combat poverty and social exclusion ;

**THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS :**

#### **CHAPTER I**

##### **OBJECT AND DEFINITION**

Object.

**1.** The object of this Act is to guide the Government and Québec society as a whole towards a process of planning and implementing actions to combat poverty, prevent its causes, reduce its effects on individuals and families, counter social exclusion and strive towards a poverty-free Québec.

National strategy. To that end, this Act establishes a national strategy to combat poverty and social exclusion. It also establishes an advisory committee on the prevention of poverty and social exclusion and an observatory on poverty and social exclusion which shall assume the functions assigned to them by this Act to achieve the goals set out in the national strategy.

Fund. This Act further provides for the creation of the Fonds québécois d'initiatives sociales, dedicated to combatting poverty and social exclusion.

“poverty”. **2.** For the purposes of this Act, “poverty” means the condition of a human being who is deprived of the resources, means, choices and power necessary to acquire and maintain economic self-sufficiency or to facilitate integration and participation in society.

## CHAPTER II

### NATIONAL STRATEGY TO COMBAT POVERTY AND SOCIAL EXCLUSION

Establishment. **3.** For the purposes of this Act, a national strategy to combat poverty and social exclusion is established.

Purpose. **4.** The national strategy is intended to progressively make Québec, by 2013, one of the industrialized nations having the least number of persons living in poverty, according to recognized methods for making international comparisons.

Actions. **5.** The national strategy shall consist of a set of actions implemented by the Government, its socio-economic partners, regional and local communities, community organizations and other social stakeholders to counter poverty and facilitate social inclusion. In that respect, the Government shall solicit citizen participation, particularly the participation of persons living in poverty.

Actions. The actions must address both the causes and the consequences of poverty and social exclusion to ensure that all persons concerned may obtain the support and encouragement their situation requires and may, on their own, achieve self-sufficiency, and participate actively in the life and advancement of the community.

Goals. **6.** The goals of the national strategy are

- (1) to promote respect for and protection of the dignity of persons living in poverty and combat prejudices in their regard;
- (2) to improve the economic and social situation of persons and families living in poverty and social exclusion;
- (3) to reduce the inequalities that may be detrimental to social cohesion;

(4) to encourage persons and families living in poverty to participate in community life and social development ;

(5) to develop and reinforce the sense of solidarity throughout Québec so that society as a whole may participate in the fight against poverty and social exclusion.

Main axes of actions.

**7.** In order to achieve the goals set out in the national strategy, the actions taken by Québec society as a whole and the Government, to the extent provided for by law or on the conditions determined by the Government, must be oriented along the following five axes :

(1) preventing poverty and social exclusion, with a focus on developing the potential of individuals ;

(2) strengthening the social and economic safety net ;

(3) promoting access to employment and increasing the attractiveness of work ;

(4) promoting the involvement of society as a whole ; and

(5) ensuring consistent and coherent intervention at all levels.

Consideration of specific needs.

Those actions must also, in their conception and implementation, take into account realities specific to women and men, in particular through gender-based analysis, as well as the greater incidences of poverty in certain regions or areas and the specific needs of certain groups in society having particular difficulties, particularly because of their age, ethnic origin or an impairment or disability.

Preventive action.

**8.** Preventive action must be aimed at, in particular,

(1) recognizing the family as the basic unit of personal and social development and, while respecting the role of parents, supporting families with dependent children that are at risk of long-term poverty through early and integrated intervention aimed at giving the families access to a range of services and programs adapted to their needs and to those of their children ;

(2) promoting school success and facilitating school and social integration of young persons, particularly the disadvantaged ;

(3) improving basic education and access to continuing education to enable adults to complete and update their occupational qualifications, facilitating recognition of their experience and promoting access to information and communication technologies ;

(4) supporting volunteer and community actions that contribute to the social inclusion of persons living in poverty ;

(5) recognizing the contribution of the elderly to society and supporting those living in poverty to provide them with access to a variety of services and programs adapted to their needs; and

(6) promoting, for persons living in poverty, access to culture, recreation and sports.

Strengthening of social and economic safety net.

**9.** Action to strengthen the social and economic safety net must be aimed at, in particular,

(1) raising the level of income granted to persons and families living in poverty, having regard to their particular situation and the resources at their disposal to meet their essential needs;

(2) encouraging low-income workers to enter or remain on the labour market, especially through work income supplements;

(3) providing persons living in poverty or social exclusion with health, social and educational services that are adapted to their specific needs;

(4) facilitating dignified access, for persons and families living in poverty, to a food supply that is both sufficient and nutritious, at reasonable costs, and to simple and reliable information enabling those persons and families to make enlightened dietary choices;

(5) facilitating the availability of decent and affordable housing through housing assistance measures or the development of social housing for the socially disadvantaged, including the homeless, and strengthening community support for those persons.

Access to employment.

**10.** Within the scope of its action to promote access to employment and increase the attractiveness of work, the Government must act in concert with its various labour market partners and community organizations, in particular

(1) to intensify employment assistance so as to better support the communities in their efforts to create employment and, particularly in high-poverty areas in which employment assistance measures and services must be adapted to the needs of the groups identified as being more affected by poverty;

(2) to favour an approach centred on community-based intervention and the integration of social and economic development;

(3) to favour, in the workplace, the social and occupational integration of persons who have particular difficulty entering the labour market, in particular persons who have an impairment or disability; and

(4) to enhance the quality of jobs so that the workers receive an income adequate to provide an acceptable standard of living, in comparison with the

income of Québec workers generally, enjoy better employment protection against the risks of exclusion and benefit from measures enabling them to achieve a better balance between family and work.

Involvement of all stakeholders.

**11.** Action to promote the involvement of society as a whole must provide for the inclusion of stakeholders representative of the broader Québec community. For that purpose, such actions must, in particular,

(1) favour citizen participation, particularly that of persons living in poverty and social exclusion and the organizations representing them ;

(2) support specific local and regional initiatives for the achievement of the goals set out in the national strategy ;

(3) recognize the social responsibility of enterprises and include the labour market partners ; and

(4) recognize the contribution of volunteer and community action.

Consistent intervention.

**12.** Within the scope of its action to ensure consistent and coherent intervention at all levels, the Government must, in particular,

(1) ensure that the policies and measures intended to help in the fight against poverty and social exclusion are complementary and coherent ;

(2) devise means of measuring the progress achieved and improving knowledge on poverty issues, in particular through the development of research networks, and provide for accountability and coordination mechanisms designed to ensure consistent intervention ;

(3) support in a durable manner innovation and adaptation of programs and services on the regional and local levels, develop coordinated action and collaboration and provide for a procedure for disseminating innovative experiments carried out ;

(4) remain abreast of and examine innovative approaches taken by other countries and participate in international forums ; and

(5) with the representatives of the native nations, discuss ways in which the actions may be adapted to the particular needs of the native peoples.

### CHAPTER III

#### GOVERNMENT ACTION PLAN

Establishment.

**13.** To implement the national strategy to combat poverty and social exclusion, the Government must, before 4 May 2003, establish a government action plan setting forth a set of activities the Government plans on carrying out to achieve the goals pursued, and make it public.

Targets.

**14.** The Government shall, within the scope of the action plan, set targets to be reached, in particular to improve the income of recipients under the Employment-Assistance Program established under the Act respecting income support, employment assistance and social solidarity (R.S.Q., chapter S-32.001), and the income of persons working full-time or on a sustained basis who live in poverty according to the indicators used by the Government.

Amendments to  
Employment-  
Assistance Program.

**15.** The action plan must also propose amendments to the Employment-Assistance Program, to the extent provided for by the Act respecting income support, employment assistance and social solidarity, in particular

(1) to eliminate the reductions of benefits resulting from the application of the provisions of that Act as regards shared housing and minimum lodging costs;

(2) to introduce the minimum benefit principle, a threshold below which benefits cannot be reduced by reason of the application of administrative penalties, setoff or a combination of both;

(3) to enable adults and families to own property and liquid assets of a value greater than the value allowed at the time the action plan is established, in order to encourage self-sufficiency or take into account transitory economic difficulties; and

(4) in respect of any family having a dependent child, to exclude an amount from child support income.

Powers of the  
Government.

**16.** The conditions, terms and schedule for the implementation of the activities set forth in the action plan, and those related to the attainment of the income improvement targets, shall be determined by the Government or, where applicable, as provided for by law, having regard to the other national priorities, the collective wealth and the particular circumstances of the persons and families concerned.

Economic  
improvement  
measures.

**17.** The action plan must also include measures and programs designed to improve the economic and social situation of persons and families living in poverty and social exclusion, and a procedure for determining the resources that the departments and bodies concerned intend to devote to priority intervention areas identified concurrently with regional or municipal representatives.

Agreements with  
partners.

**18.** As an incentive for collective involvement, the action plan may provide for the making of agreements between the Minister and national, regional and local partners, and for coordination mechanisms and periodical monitoring of activities carried out in connection with those agreements.

Financial assistance.

The Minister may, within the scope of an agreement and subject to the conditions the Minister determines, provide financial assistance to support specific initiatives.

In that capacity, the Minister shall give the other ministers any advice he or she considers advisable to improve the economic and social circumstances of persons and families living in poverty and social exclusion, and shall take part in the development of measures that could have a significant impact on such persons and such families.
- Information. It is incumbent upon the departments and bodies of the Government to communicate to the Minister any information necessary for the carrying out of such responsibilities.

- Annual report. **21.** The Minister shall make an annual report to the Government on the activities carried out within the scope of the government action plan. The Minister may, for that purpose, request from other ministers specific reports concerning the activities carried out in their fields of jurisdiction. The Minister shall make the report public within 60 days after submitting it to the Government.
- Amendments to action plan. The Minister may also propose to the Government amendments to the action plan, taking into account the advisory opinions received from the Comité consultatif de lutte contre la pauvreté et l'exclusion sociale and those of the indicators proposed by the Observatoire de la pauvreté et de l'exclusion sociale that were retained.

**“678.0.2.2.** A regional county municipality shall, if it wishes to affirm its jurisdiction under article 678.0.2.1, adopt a resolution announcing its intention to do so. The resolution must mention in particular the local municipalities in respect of which the regional county municipality wishes to affirm its jurisdiction and the matter or part of a matter with respect to which the regional county municipality would acquire jurisdiction. An authenticated copy of the resolution must be transmitted by registered mail to each of the local municipalities whose territory is situated in the territory of the regional county municipality.

**“678.0.2.3.** The clerk or secretary-treasurer of the local municipality in respect of which the regional county municipality wishes to affirm its jurisdiction shall, in a document transmitted by the clerk or secretary-treasurer to the regional county municipality, identify any officer or employee all of whose working time is devoted exclusively to all or part of the matter with respect to which the regional county municipality has announced, in the resolution provided for in article 678.0.2.2, its intention to affirm its jurisdiction, and whose services will no longer be required because the local municipality has lost its jurisdiction with respect to that matter.

Besides identifying any officer or employee concerned, the document referred to in the first paragraph must specify the nature of the officer’s or employee’s employment relationship with the municipality, the conditions of employment of the officer or employee and, where applicable, the date on which the officer’s or employee’s employment relationship with the municipality would normally have ended. - Duties. **43.** A person who acts as a first responder under this Act must inform his or her employer of the duties incumbent upon a first responder and inform the employer when, on receiving a call from the health communication centre, he or she must leave work precipitously or cannot report for work.

- (1) does not comply with the continuing education requirements, refuses to submit to the qualification assessment process referred to in the second paragraph of section 64 for the maintenance of registration, refuses to participate in the qualification assessment process, or does not submit to medical supervision related to the application of the protocols referred to in section 65 in the exercise of his or her functions ;

Review committee.

In the cases referred to in paragraphs 2 and 3 of section 67, or where the ambulance technician does not comply with a request of the regional medical director under the first paragraph or under section 68 within the time specified, the regional medical director may, within 60 days after the request, request the national medical director of pre-hospital emergency services to form a review committee which may confirm the ambulance technician's registration or temporarily or permanently strike the ambulance technician from the registry.

- Authority. **9.** Land in the domain of the State within an ecological reserve and land that has been set aside for that purpose shall be under the authority of the Minister.
- Transfer of authority. Land in the domain of the State within an aquatic reserve, biodiversity reserve or man-made landscape and land set aside for those purposes shall remain under the authority of the minister or of the government body holding them. That minister or a government body may, however, transfer authority

over all or part of such land to the Minister, or may entrust the administration of the land to the Minister.

Administration of land.

Similarly, the Minister may entrust the administration of land or transfer authority over land to another minister or to a government body.

Protection status.

**10.** The Government may change the current protection status of a protected area in order to assign a protection status provided for in this Act.

Biodiversity reserve.

Unless the order effecting such a change provides for another type of status, the protected area shall become a biodiversity reserve and be governed by the provisions of this Act that apply to biodiversity reserves, with the necessary modifications, from the time and on the conditions specified in the order.

Conditions for revocation or termination of status.

Where conditions are provided for by law for the revocation or termination of a protected area's status, the conditions must be fulfilled before a change in status under this section may take place.

Authority.

Authority over land in the domain of the State is not affected by such a change of status, unless the Government provides otherwise.

Provisions applicable.

**11.** Legislative and regulatory provisions not incompatible with this Act, the regulations or the agreements and conservation plans provided for in the Act continue to apply within land that has been set aside or established as an aquatic reserve, biodiversity reserve, ecological reserve, nature reserve or man-made landscape.

Measures.

The activities permitted in those areas may, therefore, remain subject to the measures provided for in other laws that govern the carrying on of the activities, including activities for which an authorization, lease, permit or licence must be obtained or certain fees must be paid.

Management powers.

**12.** The Minister may, on the conditions the Minister determines, entrust any natural person or legal person established in the public interest or for a private interest with all or any of the Minister's powers relating to the management of an aquatic reserve, biodiversity reserve, ecological reserve or man-made landscape.

Delegation of functions.

A delegation of functions in relation to a man-made landscape must be first offered to the local and regional municipal authorities in whose territory the protected area is situated.

**TITLE II****SPECIAL PROTECTION MEASURES FOR CERTAIN NATURAL SETTINGS****CHAPTER I****AUTHORIZATIONS****DIVISION I****NATURAL SETTINGS DESIGNATED BY A PLAN**

Rare or exceptional natural settings.

**13.** A natural setting that is remarkable because of the rarity or exceptional interest of one of its biophysical features may be designated by the Minister, who shall prepare a plan of it.

Authorization.

Any proposed human intervention in a designated natural setting, or if the human intervention has commenced, any furtherance or continuance of it, is subject to the authorization of the Minister.

Exemptions.

The Minister may, however, exempt any person or any category of human intervention determined by the Minister from the requirement to obtain authorization. Any human intervention already subject to an authorization of the Minister under the Environment Quality Act (chapter Q-2) or any other provision for which the Minister is responsible is also exempted from that requirement.

Human intervention.

In this chapter, human intervention includes any type of undertaking, works, construction, industry or activity, including the production of goods or services.

Plan.

**14.** The Minister shall prepare a plan of the natural setting proposed to be designated under section 13, in collaboration with the Société de la faune et des parcs du Québec, the Minister responsible for the Société and the Minister of Natural Resources.

Publication.

**15.** The Minister shall make public a proposal to designate a natural setting under section 13 by publishing a notice in the *Gazette officielle du Québec* and in a newspaper circulated in the region in which the natural setting is situated.

Content of notice.

The notice must include a summary plan of the zone proposed to be designated. The notice must state

(1) the places where copies of the original plan kept by the Minister are accessible, and the procedure for obtaining a copy of the plan ;

(2) that no designation by the Minister may be made before 30 days have elapsed following publication of the notice in the *Gazette officielle du Québec* ; and

(3) that any interested person may, within the 30-day period, send comments to the person specified in the notice.

Copy.

Where the natural setting is situated on land under private ownership, the Minister shall also forward a copy of the notice to the owner of the land.

Publication of definitive plan.

**16.** The Minister shall publish the definitive plan of a natural setting designated under section 13 in the *Gazette officielle du Québec*. The Minister shall also give notice of any subsequent revocation of the designation.

Copy.

The Minister shall forward a copy of the plan

(1) to every minister and government body that was consulted on the plan ;

(2) to the Minister of Natural Resources for entry on the land use plan prepared in accordance with section 21 of the Act respecting the lands in the domain of the State (chapter T-8.1) and in the registers of rights kept by that minister ;

(3) to the regional and local municipal authorities whose territory is affected by the plan, so that the plan may be taken into account in the exercise of their powers ; and

(4) to the owner of any land under private ownership covered by the plan and to the registry office for entry in the land register.

Coming into force of designation.

**17.** The designation of a natural setting comes into force on the fifteenth day following the date of publication of the plan in the *Gazette officielle du Québec*.

Register.

**18.** The Minister shall maintain and make accessible a register of all natural settings designated under section 13.

## DIVISION II

### OTHER SETTINGS DESIGNATED BY THE MINISTER

Non-designated zone.

**19.** The Minister may also require, in a zone that is not designated under section 13, that proposed human intervention, or if the human intervention has commenced, any furtherance or continuance of it be submitted for authorization, if the Minister has serious cause for believing that the human intervention may severely degrade a natural setting that is remarkable because of the rarity or exceptional interest of one of its biophysical features.

Communication of decision.

**20.** The Minister's decision subjecting human intervention to authorization must be communicated by registered mail to the person concerned, informing the person of the right to appeal.

**DIVISION III****APPLICATIONS FOR AUTHORIZATIONS AND DECISIONS**

- Information or documents. **21.** The Minister may require an applicant to provide any information or document the Minister considers is necessary to examine an application or to make an authorization subject to appropriate conditions.
- Directives. The Minister may give directives as to the form and content of the applications for authorization that must be made to the Minister.
- Fees. The Minister may, by order, determine the fees payable for an application for authorization or an application to amend, renew or terminate an existing authorization. Every ministerial order made under this section shall be published in the *Gazette officielle du Québec* and shall come into force in accordance with the Regulations Act (chapter R-18.1).
- Criteria. **22.** When deciding an application for authorization, the Minister shall take into consideration
- (1) any constraints and damaging effects of the intervention on the natural setting;
  - (2) the possibility of ensuring the conservation of the natural setting in another manner;
  - (3) the consequences of an authorization on the maintenance of the biodiversity of Québec;
  - (4) the availability of other locations in which the intervention may be carried on;
  - (5) the possibility of modifying the methods and means considered, of revising the stages or other components of the intervention so that any degradation of the natural setting is reduced to a minimum or prevented;
  - (6) the possibilities of using the land for purposes other than the intervention;
  - (7) the consequences of a refusal for the applicant;
  - (8) the presence of a marked disproportion between the anticipated benefits derived from preserving the natural setting and the injury that may result from limiting or prohibiting the intervention; and
  - (9) the comments made by the Ministère des Ressources naturelles and the Société de la faune et des parcs du Québec.
- Conditions. The Minister may subject an authorization to the conditions the Minister determines.

Communication of decisions.

**23.** The Minister's decisions on applications for authorization must be communicated by registered mail to the persons concerned and inform them of the right to appeal.

Contestation.

**24.** Every decision made by the Minister on an application for authorization and every decision to subject human intervention to an authorization under section 19 may be contested by the person concerned before the Administrative Tribunal of Québec.

Proceeding.

The proceeding in respect of such decisions must be brought within 30 days of the Minister's decision.

## CHAPTER II

### ORDERS

Threat of degradation.

**25.** Where the Minister is of the opinion that a natural setting that is remarkable because of the rarity or exceptional interest of one of its biophysical features is facing a real or apprehended threat of irreversible degradation, the Minister may make an order, effective for a period of not more than 30 days,

(1) directing that the site be closed, or permitting access only to certain persons or on certain conditions, and providing for the posting of a notice to that effect in public view at or near the entrance to the site ;

(2) directing that an activity be terminated or that special security measures be taken if the activity is a source of threat to the natural setting ;

(3) directing that any thing, animal or introduced plant be destroyed in the manner indicated by the Minister, or that certain animals or plants be treated if they are a source of threat to the natural setting ; and

(4) directing that any other measure the Minister considers necessary be taken to prevent greater threat to the natural setting, or to mitigate the effects of or eliminate the threat.

Notification.

Before making an order against a person, the Minister must notify the person in writing as prescribed by section 5 of the Act respecting administrative justice (chapter J-3) and allow the interested person at least 10 days to present observations. The Minister may, however, where urgent action is required or so as to prevent irreparable harm, make an order without being bound by such prior obligations. In such a case, the person may, within the time prescribed, present observations to the Minister for a review of the order.

Reduction or cancellation.

A judge of the Superior Court may reduce the effective period of or cancel the order on application by an interested person.

- Powers of judge. On application by the Minister, a judge of that Court may also, in addition to ordering the person to comply therewith, extend, renew or make permanent the order if the judge considers that the continued existence of the natural setting is seriously threatened and is of the opinion that the order made by the Minister is appropriate.
- Amendments. The judge may also make any amendment to the order that appears to the judge to be reasonable in the circumstances.
- Rules. **26.** Every application to a judge under this division must be made according to the rules applicable to ordinary procedure contained in the Code of Civil Procedure (chapter C-25).
- Service of applications. Applications made by the Minister must be served on the person or persons they concern, but the judge may waive that requirement if the judge considers that the delay resulting from the service would unnecessarily imperil the natural setting.
- Peace officer. All orders issued must be personally served on the person concerned and may in particular be executed by a peace officer.
- Suspension of execution of orders. Applications are decided by preference and orders issued are executory notwithstanding an appeal. A judge of the Court of Appeal may, however, suspend the execution of an order if the judge considers the suspension is necessary in the interest of justice.

### TITLE III

#### TEMPORARY PROTECTION OF LAND

#### CHAPTER I

##### LAND SET ASIDE AND TEMPORARY PROTECTION STATUS

- Conservation plan and temporary protection status. **27.** For the purpose of protecting land to be established as a new protected area, such as a park, the Minister shall, with the approval of the Government, prepare the plan of that area, establish a conservation plan and assign temporary protection status to the area as a proposed aquatic reserve, biodiversity reserve, ecological reserve or man-made landscape.
- Collaboration. The selection of land, the choice of protection status, and the conservation plans for the areas shall be effected by the Minister in collaboration with the government departments and bodies concerned including the minister responsible for the Société de la faune et des parcs du Québec, the Société, the Minister of Natural Resources, the Minister of Agriculture, Fisheries and Food, the Minister of Culture and Communications, the Minister of Municipal Affairs and Greater Montréal and the Minister of Regions.

Consultation of municipal authorities.

In the case of a proposed man-made landscape, the local and regional municipal authorities in whose territories the land set aside is situated must also be consulted.

Other consultations.

Such consultations shall not affect consultations required under other laws, such as consultation of the Coordinating Committee on hunting, fishing and trapping provided for in section 75 of the Act respecting hunting and fishing rights in the James Bay and New Québec territories (chapter D-13.1).

Setting aside of land.

**28.** Unless the Government authorizes a longer period, the setting aside of land under section 27 is valid for a period of not more than four years, which may be renewed or extended.

Renewals or extensions.

The renewals or extensions of that period may not, however, unless so authorized by the Government, be such that the term of the setting aside exceeds six years.

Publication of notice.

**29.** Notice of the setting aside of land by the Minister pursuant to section 27 shall be published in the *Gazette officielle du Québec* and in a newspaper circulated in the region concerned or, if there is no such newspaper, in the region closest to the proposed protected area. The notice shall contain a summary description of the location of the land set aside and state that a copy of the notice may be obtained on the payment of a fee.

Content.

The notice shall also specify

(1) the type or types of permanent protection status proposed for the area and the Act under which the status may be conferred;

(2) the date on which temporary protection of the land is to take effect, or if the area includes different protection zones according to its conservation plan, the dates on which protection takes effect in each zone and where applicable, the duration of the protection; and

(3) the period of time for which the land has been set aside by the order.

Conservation plan.

The notice published in the *Gazette officielle du Québec* shall also include the conservation plan for the land set aside.

Copy.

**30.** A copy of the plan prepared for land set aside under section 27 shall be forwarded

(1) to every minister or government body having participated in the preparation of the plan;

(2) to the Minister of Natural Resources for entry on the land use plan prepared in accordance with section 21 of the Act respecting the lands in the domain of the State (chapter T-8.1) and in the registers of rights kept by that minister;

(3) to the regional and local municipal authorities whose territory is affected by the plan so that the plan may be taken into account in the exercise of their powers; and

(4) in the case of a proposed man-made landscape on land that includes land under private ownership, to the registry office for entry in the land register.

Amendment, replacement or revocation.

**31.** The Minister may, on the same conditions, amend, replace or revoke the plan of land set aside under section 27 or the conservation plan established for that land.

Period unaffected.

No amendment to or replacement of a plan may affect the period of time for which the land has been set aside.

Termination.

**32.** Land ceases to be set aside when permanent protection status is assigned under this or another Act, when the term for which the land has been set aside expires, or on publication in the *Gazette officielle du Québec* of a notice of revocation of the plans by the Minister, with the approval of the Government.

## CHAPTER II

### CONSERVATION PLAN

For that purpose and in addition to the other information required by section 29, the notice of the setting aside of land published in the *Gazette officielle du Québec* must specify

(1) that no permanent protection status may be ordered by the Government before 60 days have elapsed following publication of the notice in the *Gazette officielle du Québec*; and

§2. — *Aquatic reserves, biodiversity reserves and man-made landscapes*

Public consultation.

**39.** Before a proposal is made to the Government on permanent protection status for land set aside as a proposed aquatic reserve, biological reserve or man-made landscape, the Minister shall entrust the Bureau d'audiences publiques sur l'environnement or one or more persons the Minister designates as commissioners with the mandate to hold a public consultation.

Exemptions.

The Government may, however, exempt any proposal it designates from the consultation process. An exemption may be made in particular where the Government considers that other means may be used to clarify the various issues raised by the proposal, such as the environmental and social impact assessment and review procedure provided for in Chapter II of the Environment Quality Act (chapter Q-2).

Publication of notice.

In every such case of exemption, the Minister shall publish in the *Gazette officielle du Québec* a notice containing the particulars required under paragraphs 1 and 2 of section 38, with the necessary modifications. The notice shall also be published in a newspaper circulated in the region concerned or, if there is no such newspaper, in the region closest to the proposed protected area. The decision of the Government shall be published in the *Gazette officielle du Québec* with the Minister's notice, and shall briefly state the reasons justifying the exemption.

- Subsidies and tax credits program. “151.6. The city may establish a program for the purpose of granting, in the circumstances described in the second paragraph, a subsidy or a credit to the debtor of the general property tax imposed, for any of the fiscal years referred to in the fourth paragraph, on any unit of assessment that is eligible according to the rules provided for in the fifth paragraph.
- Conditions. The subsidy or credit may be granted where the following conditions are met:
- (1) for a particular fiscal year, the rental tax is not imposed in respect of a sector, either separately or within the whole territory of the city;
- (2) the rental tax was imposed in respect of the sector referred to in subparagraph 1, for the fiscal year preceding the fiscal year referred to in that subparagraph, without being imposed in respect of the whole territory of the city;
- (3) in respect of the sector referred to in subparagraph 1 and for the fiscal year referred to in that subparagraph, the estimated general property tax revenues derived from the application of all or part of any of the rates specific to the categories provided for in sections 244.33 and 244.34 of the Act respecting municipal taxation (chapter F-2.1), combined, where applicable, with the estimated revenues derived from the tax imposed pursuant to the sixth paragraph of section 101 of Schedule C, are greater than they would have been were it not for the loss of rental tax revenues; and

(4) the city does not avail itself of the power provided for in section 244.59 of the Act respecting municipal taxation.

Rental tax.

For the purposes of the second paragraph, “rental tax” means the business tax, the tax provided for in section 101 of Schedule C where its rate is based on the rental value, or the combination of those two taxes if they cease simultaneously to be imposed in respect of the sector referred to in subparagraph 1 of that paragraph.

Fiscal years.

The fiscal years for which the subsidy or credit may be granted are the fiscal year referred to in subparagraph 1 of the second paragraph and the next two fiscal years.

Eligible units of assessment.

The eligible units of assessment are determined among the units of assessment situated in the sector referred to in subparagraph 1 of the second paragraph and that belong to the group described in section 244.31 of the Act respecting municipal taxation. The program shall set out rules to determine the eligibility of units of assessment. The rules may, for that purpose, use criteria that are based on

- (1) the value of the unit;
- (2) the vacant nature, as defined by the rules, of the land in the unit;
- (3) the vacancy, as defined by the rules, of the unit or of certain of its parts;
- (4) the transfer of the tax burden, as defined by the rules, measured in respect of the unit.

Credit.

The credit shall diminish the amount payable of the general property tax imposed on any eligible unit of assessment in respect of which all or part of a rate referred to in subparagraph 3 of the second paragraph applies. The amount of the subsidy or credit shall be established according to the rules set out in the program. The rules may define categories among the units concerned and vary according to those categories. The rules shall also specify the conditions and procedures for the granting of the subsidy or credit.

Cost.

The cost of the aggregate of the subsidies or credits granted in respect of the units of assessment situated in a sector shall be a burden on the aggregate of the units situated in the sector that belong to the group described in section 244.31 of the Act respecting municipal taxation.

Non-residential immovables.

Where the city imposes the surtax or the tax on non-residential immovables, it must, if it avails itself of the power under the first paragraph, prescribe the rules enabling the appropriate correspondences to be made so as to obtain the same results, as regards the application of the first seven paragraphs, were the city to impose the general property tax with rates specific to the categories comprising the units of assessment subject to the surtax or the tax on non-residential immovables.

- Subsidies program. “151.6.1. The city may establish a program for the purpose of granting a subsidy, in the circumstances described in subparagraphs 1 to 3 of the second paragraph of section 151.6 and for any of the fiscal years referred to in the fourth paragraph of that section, to any eligible lessee.
- Eligible lessee. A lessee referred to in subparagraph *g* or *h* of paragraph 1 of section 236 of the Act respecting municipal taxation (chapter F-2.1) or in any of paragraphs 3 to 5 of that section is, among the lessees whose lease is entered into for all or part of a unit of assessment situated in the sector referred to in subparagraph 1 of the second paragraph of section 151.6 and that belongs to the group described in section 244.31 of that Act, an eligible lessee.
- Amount. The amount of the subsidy is established according to the rules set out by the program. The rules may define categories among the eligible lessees and vary according to those categories. The rules shall also specify the conditions and procedures for the granting of the subsidy.
- Cost. The cost of the aggregate of the subsidies granted to the lessees of units of assessment situated in a sector shall be a burden on the aggregate of the units situated in the sector that belong to the group described in section 244.31 of the Act respecting municipal taxation.
- Rent increase. “151.6.2. Where a unit of assessment situated in a sector that belongs to the group described in section 244.31 of the Act respecting municipal taxation (chapter F-2.1) is the subject of a lease that is in force on the first day following the fiscal year of reference, within the meaning of the second paragraph, and that does not allow the owner to increase the rent stipulated to take into account new taxes for which the owner becomes the debtor, or to have the lessee otherwise assume payment of such a tax, the owner may nonetheless, in accordance with the rules set out in this section, increase the rent stipulated to take into account all or part of the additional amount payable by the owner for a fiscal year in relation to the fiscal year of reference by reason of the imposition of a mode of property taxation specific to the non-residential sector.
- Fiscal year of reference. The fiscal year of reference is the last fiscal year for which the city imposes the rental tax in respect of the sector concerned, either separately or within the whole territory of the city. “Rental tax” means the business tax or the tax provided for in section 101 of Schedule C where its rate is based on the rental value. Where one of those taxes ceases to be imposed in respect of the sector while the other continues to be imposed, the fiscal year of reference is determined on the basis of the first tax.
- Rent. The rent that may be so increased is the rent payable for the period, subsequent to the fiscal year of reference, in which the lease is effective and that includes all or part of a fiscal year for which the amount referred to in the first paragraph is payable.

- Exception.                However, the rent stipulated in a lease entered into for part of the unit of assessment that does not constitute premises within the meaning of the last two paragraphs of section 244.34 of the Act respecting municipal taxation, cannot be so increased.
- Proportional increase.    Where the lease is entered into for such premises among other premises within the unit of assessment, the increase in rent shall take into account only the proportion of the amount referred to in the first paragraph that corresponds to the proportion that the premises under lease are of the total of the rental values of all the premises at the end of the fiscal year of reference. However, another proportion, as agreed upon by the owner and all the lessees of the premises, may be established.
- Amount payable.            Subject to the seventh and eighth paragraphs, the amount payable for a fiscal year by reason of the imposition of a mode of property taxation specific to the non-residential sector is,
- (1) where under section 244.29 of the Act respecting municipal taxation, the city fixes a general property tax rate specific to the category provided for in section 244.33 of that Act, the difference obtained by subtracting the amount of the tax that would be payable if only the basic rate provided for in section 244.38 of that Act were applied from the amount of the tax payable in respect of the unit of assessment for the fiscal year ; or
- (2) where the city imposes the surtax or the tax on non-residential immovables, the amount of the surtax or of the tax payable in respect of the unit of assessment for the fiscal year.
- Amount payable.            Where the city avails itself of the power under the sixth paragraph of section 101 of Schedule C to impose the tax provided for in that section for a fiscal year, the total obtained by adding the amount of that tax payable in respect of the unit of assessment and the amount determined under the sixth paragraph of this section is the amount payable for that fiscal year by reason of the imposition of a mode of property taxation specific to the non-residential sector.
- Amount payable.            For the fiscal year before the end of which the lease ceases to be effective, the amount payable by reason of the imposition of a mode of property taxation specific to the non-residential sector is the product obtained by multiplying the amount determined under the sixth or the seventh paragraph, as the case may be, by the quotient resulting from the division of the number of whole days in the fiscal year that have elapsed at the time at which the lease ceases to be effective, by 365 or by 366 in the case of a leap year.
- Provisions applicable.      Sections 491 and 244.64 of the Act respecting municipal taxation apply, with the necessary modifications, for the purpose of interpreting, in the first case, the word “owner” and, in the second case, the words “surtax” and “tax” used in this section.”

- Coefficient. The applicable coefficient for that preceding fiscal year is deemed to be equal to 1 if, for that preceding fiscal year, the municipality has not fixed a rate specific to the category of industrial immovables or has fixed a rate that was equal to or less than the rate specific to the category of non-residential immovables.

- Adjusted coefficient. “244.45.4. Where the municipality avails itself of the power under section 253.27 in respect of its property assessment roll, the operations described in the second and third paragraphs are performed to calculate an adjusted coefficient, by which the rate specific to the category of non-residential

immovables is multiplied, to establish the maximum rate specific to the category of industrial immovables for either of the first two fiscal years for which the roll applies.

Calculation. The first operation in relation to the calculation of the adjusted coefficient consists in subtracting the second of the following coefficients from the first :

(1) the coefficient from which the other coefficient is subtracted is the coefficient that is calculated pursuant to section 244.44 for the fiscal year for which the maximum specific rate is established; and

(2) the coefficient that is subtracted from the other coefficient is the coefficient that is applicable for the last fiscal year for which the property assessment roll of the municipality in force immediately before the roll referred to in the first paragraph applied.

Calculation. The second operation consists in algebraically adding the coefficient described in subparagraph 2 of the second paragraph and the number that is one-third or two-thirds, according to whether the fiscal year for which the maximum specific rate is established is the first or the second fiscal year to which the roll referred to in the first paragraph applies, of the difference resulting from the subtraction under the second paragraph.

Two fiscal years. Where the property assessment roll in respect of which the municipality avails itself of the power under section 253.27 applies to two fiscal years only, an adjusted coefficient is calculated only for the first of those fiscal years. For that purpose, for the application of the third paragraph, one-half, rather than one-third or two-thirds, of the difference resulting from the subtraction under the second paragraph shall be taken into account.”

c. F-2.1, s. 244.47, am. 67. Section 244.47 of the said Act, amended by section 234 of chapter 37 of the statutes of 2002, is again amended by replacing the second and third paragraphs by the following paragraphs :

Coefficient. “Where the municipality fixes a rate specific to that category for a fiscal year, the applicable coefficient for that fiscal year is the product obtained by multiplying the quotient resulting from the division under the first paragraph of section 244.48 by the coefficient applicable for the last fiscal year for which the property assessment roll of the municipality in force immediately before the roll applying for the fiscal year for which the rate is fixed applied.

Coefficient. The applicable coefficient for that preceding fiscal year is deemed to be equal to 1 if, for that preceding fiscal year, the municipality has not fixed a rate specific to the category of immovables consisting of six or more dwellings.

Provisions applicable. The first three paragraphs apply subject to section 244.48.1.”

c. F-2.1, s. 244.48, am. 68. Section 244.48 of the said Act, amended by section 235 of chapter 37 of the statutes of 2002, is again amended by striking out the sixth paragraph.

c. F-2.1, s. 244.48.1, added.

69. The said Act is amended by inserting the following section after section 244.48:

Adjusted coefficient.

“244.48.1. Where the municipality avails itself of the power under section 253.27 in respect of its property assessment roll, the operations described in the second and third paragraphs are performed to calculate an adjusted coefficient, by which the basic rate is multiplied, to establish the maximum rate specific to the category of immovables consisting of six or more dwellings for either of the first two fiscal years for which the roll applies.

Calculation.

The first operation in relation to the calculation of the adjusted coefficient consists in subtracting the second of the following coefficients from the first:

(1) the coefficient from which the other coefficient is subtracted is the coefficient that is calculated pursuant to section 244.47 for the fiscal year for which the maximum specific rate is established; and

(2) the coefficient that is subtracted from the other coefficient is the coefficient that is applicable for the last fiscal year for which the property assessment roll of the municipality in force immediately before the roll referred to in the first paragraph applied.

Calculation.

The second operation consists in algebraically adding the coefficient described in subparagraph 2 of the second paragraph and the number that is one-third or two-thirds, according to whether the fiscal year for which the maximum specific rate is established is the first or the second fiscal year to which the roll referred to in the first paragraph applies, of the difference resulting from the subtraction under the second paragraph.

Two fiscal years.

Where the property assessment roll in respect of which the municipality avails itself of the power under section 253.27 applies to two fiscal years only, an adjusted coefficient is calculated only for the first of those fiscal years. For that purpose, for the application of the third paragraph, one-half, rather than one-third or two-thirds, of the difference resulting from the subtraction under the second paragraph shall be taken into account.”
