Limit.

(2) B is the amount determined under the second paragraph of section 457.1.4;

(3) C is the composite amount referred to in subparagraph 1 of the first paragraph of section 457.1.4; and

(4) D is the amount of the input tax refund claimed by the registrant, in a fiscal year, in relation to the composite amount.

Reporting period.

“457.1.6. Where a registrant is required under section 457.1.4 to add, in determining the registrant’s net tax, an amount determined by reference to an input tax refund claimed by the registrant in a return for a reporting period in a particular fiscal year, the appropriate reporting period is

(1) where the registrant ceases to be registered under Division I of Chapter VIII in a reporting period ending in the particular fiscal year, that reporting period;

(2) where the registrant’s reporting period is the registrant’s fiscal year, the reporting period that is the later of

(a) the particular fiscal year, and

However, where section 457.1.4 of the said Act, enacted by subsection 1, applies to taxation years that include 12 June 2003, the second and third paragraphs of that section shall be read as follows:

“For the purposes of this section, the determined amount to which subparagraph 3 of the first paragraph refers is equal

(1) where the registrant carries on a business of selling, as an intermediary, property included in the inventory of another person, to the amount determined by the formula

$$A + 1\% \times [(B - C) + C/D] \times 2; \text{ and}$$

(2) in any other case, to the amount determined by the formula

$$A + 1\% \times B \times 2.$$

For the purposes of these formulas,

(1) A is the amount obtained by multiplying the particular amount by the proportion that the number of days in the year that precede 13 June 2003 is of the number of days in that year;

(2) B is the amount obtained by multiplying the amount that is or would be, if the registrant were a taxpayer under section 1 of the Taxation Act, the amount, for the taxation year, of the registrant's gross revenue from the business or property by the proportion that the number of days in the year that follow 12 June 2003 is of the number of days in that year;

(3) C is the amount obtained by multiplying the amount that is or would be, if the registrant were a taxpayer under the Taxation Act, the amount of the commissions or other similar amounts determined by reference to the sales made by the registrant, as an intermediary, of property included in the inventory of another person that are included, for the taxation year, in determining the income from the registrant's business, for the purposes of that Act by the proportion that the number of days in the year that follow 12 June 2003 is of the number of days in that year; and

(4) D is or would be, if the registrant were a taxpayer under the Taxation Act, the average percentage used in computing the commissions or other similar amounts determined by reference to the sales made by the registrant, as an intermediary, of property included in the inventory of another person that are included, for the taxation year, in determining the income from the registrant's business, for the purposes of that Act."

The assessment must take into account the employee's classification on the date of the transfer and the experience and formal training acquired in the course of employment with Bibliothèque et Archives nationales.

Determination of classification.

If an employee is transferred under section 75, the deputy minister or chief executive officer determines the employee's classification in accordance with the assessment provided for in the first paragraph.

Criteria.

If an employee is promoted under section 75, the classification assigned to the employee must take into account the criteria set out in the first paragraph.

Discontinuance of operations.

77. In the event of a partial or total discontinuance of the operations of Bibliothèque et Archives nationales or a shortage of work, an employee referred to in section 75 is entitled to be placed on reserve in the public service with the classification held before the date of transfer.

Criteria.

In that case, the chair of the Conseil du trésor determines the employee's classification taking into account the criteria set out in the first paragraph of section 76.

Transfer refused.

78. A person who, in accordance with the applicable conditions of employment, refuses to be transferred to Bibliothèque et Archives nationales is assigned to Bibliothèque et Archives nationales until the chair of the Conseil du trésor is able to place the person in accordance with section 100 of the Public Service Act. The same applies to a person placed on reserve under section 77, which person remains in the employ of Bibliothèque et Archives nationales.

Termination of employment.

79. Subject to the remedies available under a collective agreement, an employee referred to in section 75 whose employment is terminated may bring an appeal under section 33 of the Public Service Act.

Coming into force.

80. This Act comes into force on the date or dates set by the Government.

Chapter 29

AN ACT RESPECTING THE EXERCISE OF CERTAIN MUNICIPAL POWERS IN CERTAIN URBAN AGGLOMERATIONS

[Assented to 17 December 2004]

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS:

TITLE I

OBJECTS AND DEFINITIONS

- Object. **1.** The object of this Act is to determine the municipal powers that, rather than being exercised separately for each local municipal territory included in an urban agglomeration defined in Title II, must be exercised globally for that urban agglomeration.
- Object. A further object is to prescribe the rules for the exercise of those powers.
- Urban agglomeration. **2.** An urban agglomeration corresponds to the territory, as it exists on 17 December 2004, of Ville de Montréal, Ville de Québec, Ville de Longueuil, Ville de Mont-Laurier, Ville de La Tuque, Municipalité des Îles-de-la-Madeleine, Ville de Sainte-Agathe-des-Monts, Ville de Mont-Tremblant, Ville de Cookshire-Eaton, Ville de Rivière-Rouge or Ville de Sainte-Marguerite-Estérel.
- City. In this Act, each such municipality is designated as a “city”.
- Interpretation: **3.** For the purposes of this Act,
- “former municipality”; (1) “former municipality” means a local municipality that ceased to exist upon the constitution of the city;
- “Minister”; (2) “Minister”, except in a minister’s title, means the Minister of Municipal Affairs, Sports and Recreation;
- “reconstituted municipality”; (3) “reconstituted municipality”, with respect to a city, means a local municipality constituted to give effect to the results of a referendum poll held under the Act respecting the consultation of citizens with respect to the territorial reorganization of certain municipalities (2003, chapter 14), whose territory corresponds to the territory of a former municipality;

“body”;

(4) “body”, in a provision specifying that it is a body of a local municipality, means a mandatory body of the municipality within the meaning of section 18 of the Act respecting the Pension Plan of Elected Municipal Officers (R.S.Q., chapter R-9.3), any other body otherwise under the authority of the municipality, or a supramunicipal body, within the meaning of that section, whose territory includes the territory of the municipality;

“reorganization”.

(5) “reorganization”, with respect to a city, means all the acts provided for in an Act or statutory instrument to constitute the reconstituted municipality or municipalities whose territory is included in the territory of the city, and to reduce the territory of the city accordingly.

TITLE III

URBAN AGGLOMERATION POWERS

CHAPTER I

GENERAL PROVISIONS

- Urban agglomeration powers. **16.** Municipal powers over the matters referred to in Chapter II and the subjects referred to in Chapter III are urban agglomeration powers.
- Exclusivity. **17.** Only the central municipality, to the exclusion of the other related municipalities, may act with respect to those matters and subjects.
- Jurisdiction. The central municipality has jurisdiction in its own territory and in the territory of any other related municipality over the acts that may be performed respecting those matters and subjects.
- Total population. If a provision of an Act or a statutory instrument under that Act concerning such a matter or subject refers to the population of a municipality, the population of the central municipality is deemed to be the total population of all the related municipalities for the purposes of the provision.
- Performance of act. **18.** If, according to an Act or an applicable statutory instrument, the act that may be performed respecting those matters and subjects is under the authority of a municipal council or an executive committee, the central municipality performs the act in the first case through its council provided for in Chapter I of Title IV and, in the second case, through that council or its executive committee, depending on what is specified in the order made under section 135.

Urban agglomeration council.

That council is designated as an “urban agglomeration council”.

CHAPTER II

MATTERS CONCERNING ALL THE RELATED MUNICIPALITIES

DIVISION I

GENERAL PROVISIONS

Matters of collective interest.

19. The following matters concern the related municipalities as a whole:

- (1) municipal assessment;
- (2) passenger transportation;
- (3) the thoroughfares forming the arterial road system of the urban agglomeration;
- (4) premises or facilities for the dumping of snow from the territory of the central municipality and at least one reconstituted municipality;
- (5) water supply and water purification;
- (6) residual materials disposal and reclamation, and the development and adoption of a residual materials management plan;
- (7) municipal watercourses;
- (8) the components of public security, namely,
 - (a) police, civil protection and fire protection services;
 - (b) the 9-1-1 emergency centre;
 - (c) the development and adoption of the civil protection plan and the fire safety cover plan;
- (9) the municipal court;
- (10) social housing and assistance intended specifically for the homeless;
- (11) the components of economic development, namely,
 - (a) the promotion of the territory of a related municipality, including the promotion of tourism, when it is done outside that territory;
 - (b) tourist services in the urban agglomeration;
 - (c) local development centres;

- (d) convention centres, ports and airports;
- (e) industrial parks and railway sidings; and
- (f) assistance intended specifically for a business; and

(12) if the central municipality succeeded a regional county municipality or an urban community, any other matter over which the central municipality now exercises jurisdiction and over which the regional county municipality or urban community exercised jurisdiction under a legislative provision.

Jurisdiction.

20. The central municipality's jurisdiction over any of those matters applies to the extent specified, where applicable, in any of Divisions II to IX and subject to Chapter IV.

DIVISION II

MUNICIPAL ASSESSMENT

Jurisdiction over assessment.

21. Unless a regional county municipality has jurisdiction over assessment for related municipalities under section 5 or 5.1 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), the central municipality has that jurisdiction for itself and, despite section 6 of that Act, for any other related municipality.

Responsibility.

In that case, the central municipality is the municipal body responsible for assessment, within the meaning of that Act, as regards an assessment roll of a related municipality.

DIVISION III

ARTERIAL ROAD SYSTEM

Identification.

22. The urban agglomeration council identifies the thoroughfares forming the arterial road system in the urban agglomeration, on a map, plan or other illustration specified in a by-law that is subject to the right of objection under section 115.

Exemption.

However, when such thoroughfares are identified in the order made under section 135, the urban agglomeration council is not required to identify them.

Amendments.

The urban agglomeration council may then only amend elements of the identification made in the order in the manner provided for in the first paragraph. In such a case, the document specified in the by-law must indicate how it differs from the identification made in the order.

Exclusive jurisdiction.

23. The central municipality's exclusive jurisdiction over the thoroughfares identified covers road maintenance and management, including snow removal, signs and signals, and traffic and parking regulation.

Penal proceedings. However, it does not include the power to institute penal proceedings for contravening a provision of a by-law, a resolution or an order that concerns traffic or parking on such a thoroughfare. The related municipality in whose territory the contravention is committed may institute proceedings even if, in the case of a reconstituted municipality, the by-law, resolution or order was not adopted by the council or executive committee.

Financing. **24.** The central municipality's exclusive jurisdiction over a thoroughfare also includes, depending on whether or not it is in the central municipality's territory, the obligation to use or obtain a sum determined under the second paragraph to finance expenditures related to the exercise of an urban agglomeration power.

Sum. The sum is the part of the subsidy, paid under a program established by the Government, a minister or a government body to compensate the municipalities for road maintenance, that is attributable to the thoroughfare referred to in the first paragraph.

DIVISION IV

WATER SUPPLY AND WATER PURIFICATION

Exclusive jurisdiction. **25.** In the case of the urban agglomeration of Montréal, the urban agglomeration of Québec and the urban agglomeration of Longueuil, the central municipality's exclusive jurisdiction over water supply and water purification does not include the installation, repair and maintenance of purely local water or sewer mains or the connecting of water or sewer mains to an immovable.

Local water and sewer mains. All water or sewer mains that are not trunk lines within the meaning of section 26 are purely local. They include the equipment accessory to them, such as, in the case of waterworks, hydrants, cocks, valves and boosters.

Trunk water main. **26.** In the case of a waterworks system, a water main used to transport drinking water from the filtration plant to a reservoir, or from a reservoir to a water distribution main, is a trunk water main.

Trunk sewer main. In the case of a sewer system, an interceptor or main used to transport waste water from a branch line situated under a thoroughfare to an interceptor, or to discharge drainage water from such a sewer main into a watercourse or a retention basin, is a trunk interceptor or trunk sewer main.

Identification. **27.** The urban agglomeration council identifies the water or sewer mains that are not purely local on a map, plan or other illustration specified in a by-law that is subject to the right of objection under section 115.

Exemption. However, when such water or sewer mains are identified in the order made under section 135, the urban agglomeration council is not required to identify them.

Amendments.

The urban agglomeration council may then only amend elements of the identification made in the order in the manner provided for in the first paragraph. In such a case, the document specified in the by-law must indicate how it differs from the identification made in the order.

Agreement.

28. In the case of any urban agglomeration other than those referred to in section 25, the central municipality only has exclusive jurisdiction over water supply and water purification if, immediately before the city was constituted, jurisdiction over that matter was exercised under an agreement between former municipalities. The central municipality's exclusive jurisdiction applies only to infrastructures and equipment covered by that agreement and those replacing them.

Territories not included.

If, however, none of the territories of the former municipalities party to the agreement are included in the central municipality's territory, the central municipality does not have exclusive jurisdiction over water supply and water purification.

Pooling of infrastructures and equipment.

For the purposes of the first two paragraphs, a pooling of infrastructures and equipment through the assumption of jurisdiction by a regional county municipality is considered to be a pooling of infrastructures and equipment under an agreement.

DIVISION V

SOCIAL HOUSING

Exclusive jurisdiction.

29. The central municipality's exclusive jurisdiction over social housing applies, subject to the power of a regional county municipality to take on certain aspects of the financing of social housing under article 681.2 of the Municipal Code of Québec (R.S.Q., chapter C-27.1) or the obligation of the Communauté métropolitaine de Montréal to do so under section 153 of the Act respecting the Communauté métropolitaine de Montréal (R.S.Q., chapter C-37.01).

DIVISION VI

LOCAL DEVELOPMENT CENTRE

Exclusive jurisdiction.

30. If the central municipality's exclusive jurisdiction over local development centres includes the power to determine the number of such centres in the urban agglomeration and to define the territory in which each centre has jurisdiction, the urban agglomeration council exercises this power by a by-law that is subject to the right of objection under section 115.

DIVISION VII**PORT AND AIRPORT**

Exclusive jurisdiction. **31.** The central municipality's exclusive jurisdiction over ports and airports applies only if the main vocation of the port or airport is neither to serve recreational craft nor to provide access to an immovable for the owner of the immovable, a person residing or working in or on that immovable or a visitor or client.

DIVISION VIII**INDUSTRIAL PARK**

Industrial park. **32.** An industrial park is any group of immovables forming an identifiable whole in the territory of a municipality and consisting of

(1) land acquired under the Act respecting municipal industrial immovables (R.S.Q., chapter I-0.1), another Act or a statutory instrument whose object is to allow a municipality or a municipal body to provide businesses with immovables for industrial, para-industrial or research purposes, including technology;

(2) improvements to the land referred to in paragraph 1; and

(3) buildings and other structures on the land referred to in paragraph 1.

Exclusive jurisdiction. **33.** The central municipality's exclusive jurisdiction over an industrial park includes the functions provided for by a legislative provision or a text referred to in paragraph 1 of section 32 to create a new park or manage an existing park.

Alienation or lease of an immovable. **34.** In the exercise of functions relating to the management of an industrial park, the urban agglomeration council may make decisions to alienate or lease an immovable included in the park by a by-law subject to the right of objection under section 115.

Financing. **35.** The central municipality's exclusive jurisdiction over an industrial park also includes, depending on whether or not the park is in the central municipality's territory, the obligation to use or to obtain a sum determined under the second paragraph to finance expenditures related to the exercise of an urban agglomeration power.

Sum. The sum is the balance of the revenue derived from the presence of the industrial park for a fiscal year, except revenue from a tax or other method of financing imposed by the urban agglomeration council, once the following have been excluded:

(1) that which must by law be used, for the fiscal year, to discharge commitments made for the park; and

(2) that which is taken into consideration in establishing the aggregate taxation rate of a municipality.

Exemption.

36. The urban agglomeration council may prescribe, by a by-law subject to the right of objection under section 115, that an existing industrial park it identifies is outside its exclusive jurisdiction.

DIVISION IX

BUSINESS ASSISTANCE

Assistance.

37. The central municipality's exclusive jurisdiction over assistance intended specifically for a business applies as regards a tax credit in the manner specified in the second and third paragraphs.

Tax credit.

The urban agglomeration council may grant a tax credit reducing the amount of any tax it levies.

Prohibition.

No related municipality, including the central municipality, may grant a tax credit reducing the amount of another tax.

By-law.

38. The urban agglomeration council may, by a by-law subject to the right of objection under section 115,

(1) specify what constitutes and what does not constitute assistance intended specifically for a business; and

(2) prescribe that a type of assistance it specifies is outside the central municipality's exclusive jurisdiction, even if the type of assistance specified is intended specifically for a business.

CHAPTER III

EQUIPMENT, INFRASTRUCTURES AND ACTIVITIES OF COLLECTIVE INTEREST

List of equipment.

39. The urban agglomeration council may draw up a list of the equipment located in the urban agglomeration that meets the conditions set out in section 40.

Amendment of list.

However, if such a list is included in the order made under section 135, the urban agglomeration council may amend it but may not draw up another list.

Conditions.

40. Equipment may appear on the list if the following three conditions are met:

(1) the equipment belongs to a related municipality or a body of a related municipality;

(2) it is appropriate that the central municipality and at least one reconstituted municipality jointly finance the related expenditures or share the related revenue; and

(3) the equipment is not referred to in a by-law in force under article 681.1 of the Municipal Code of Québec (R.S.Q., chapter C-27.1), an agreement or order in force under Division IV.1 of the Act respecting the Commission municipale (R.S.Q., chapter C-35) or Schedule V to the Act respecting the Communauté métropolitaine de Montréal (R.S.Q., chapter C-37.01), or a by-law in force under Division V of Chapter III of that Act or Division VI of Chapter III of the Act respecting the Communauté métropolitaine de Québec (R.S.Q., chapter C-37.02).

Criteria.	The condition prescribed in subparagraph 2 of the second paragraph is met when the equipment is relatively well-known, unique in the urban agglomeration, or widely used by citizens or ratepayers of a related municipality although not located in its territory.
Power to establish rules.	41. The central municipality's exclusive jurisdiction over equipment on the list consists in the power of the urban agglomeration council to establish, by a by-law subject to the right of objection under section 115, rules on the subjects referred to in the second paragraph that concern both the central municipality and at least one reconstituted municipality.
Subjects.	Those subjects are the management of equipment, the financing of related expenditures and the sharing of related revenue.
Equity.	Revenue must be shared equitably on the basis of the respective participation of the related municipalities in financing expenditures.
Rules.	42. The rules established for equipment on the list may, however, prescribe that the equipment is managed, related expenditures are financed and related revenue is shared in the same manner as if the equipment were property related to the exercise of urban agglomeration jurisdiction over a matter referred to in Chapter II.
Resolution.	43. The resolution by which the urban agglomeration council draws up or amends the list must set out appropriate conditions for transition purposes regarding any subject referred to in section 41 in relation to equipment added to or removed from the list.
Approval.	To come into force, the resolution must be approved by the Minister or by the person designated by the Minister to examine the merits of the resolution and make a decision in the Minister's place.
Equipment removed.	If equipment is removed from the list, that approval may be given only once a resolution expressing the agreement of the municipality concerned has been adopted by the council that would have the authority to make decisions concerning a subject referred to in section 41 in relation to that equipment, should the resolution of the urban agglomeration council come into force.

Reasons for refusal.	The reasons for a refusal to grant approval must be given in writing.
Provisions applicable.	44. Sections 39 to 43 apply, with the necessary modifications, to an infrastructure or activity, particularly to the provision of assistance for the purpose of carrying out a project.
Activity covered.	An activity of a municipality or a municipal body may be covered by those sections even if the project in relation to which the activity is carried on is not initiated by the municipality or body.

CHAPTER IV

COMPLEMENTARY PROVISIONS

DIVISION I

POWERS NOT EXERCISED ACCORDING TO GENERAL RULES

Power not exercised.	45. An urban agglomeration power is not required to be exercised by the sole fact that it has been conferred on the central municipality by a provision of Chapter II or Chapter III.
Assumption of power.	That sole fact does not prevent a regional county municipality from exercising its right to assume all or part of that power. The power must be assumed in respect of all the related municipalities or all their territories.
Delegation of power.	The sole fact that the power has been conferred on the central municipality does not prevent the central municipality from delegating all or part of the power, in particular to a reconstituted municipality, by an agreement entered into according to the applicable rules. The delegation may be made in respect of a reconstituted municipality or its territory only if the reconstituted municipality is the delegatee or if it enters into the agreement in order to accept that the delegatee act for the reconstituted municipality or in its territory.
Presumption.	Any provision respecting the exercise of an urban agglomeration power is also deemed to pertain, where applicable, to the exercise of only part of the power or to the exercise of all or part of the power as regards only some of the related municipalities or in only a few of their territories.
Delegation by agreement.	46. If, following delegation by agreement, a power is exercised by each reconstituted municipality for itself or in its own territory, any act inherent in the exercise of the power in respect of the central municipality or in its territory which, according to section 18, should be performed by the urban agglomeration council, must rather be performed by the regular municipal council.
Limited substitution.	That substitution does not apply to the power or obligation of the urban agglomeration council to make by-laws or levy taxes.

- By-law. **47.** The urban agglomeration council may prescribe, by a by-law subject to the right of objection under section 115, that an urban agglomeration power is exercised, in respect of a related municipality or in its territory, by the council of that related municipality or, in the case of the central municipality, by the regular council of the central municipality.
- Scope. The by-law must apply to all the related municipalities or their territories. It may prescribe the conditions and manner of the delegation, which must not involve discrimination based on the municipalities or their territories.
- Resolutions. **48.** In any case other than the cases referred to in sections 46 and 47, the urban agglomeration council and the regular council of the central municipality may, by similar resolutions, provide for the delegation, for a set period, of the exercise of an urban agglomeration power in respect of the municipality or in its territory.
- Substitution. Once the two resolutions are in force for the set period, the substitution under section 46 applies.
- Provision without effect. **49.** A provision of an Act or statutory instrument that gives a borough council a right, power or obligation as regards a given subject is completely or partially without effect, to the extent that all or part of the subject comes under an urban agglomeration power.
- Subdelegation. However, if the regular council of the central municipality has been delegated the exercise of that power under sections 46 to 48, it may subdelegate the power as regards the borough to the borough council, according to the rules set out by the charter of the municipality.
- Authorization required. **50.** Before making a decision whose object is to have the central municipality participate, alone or with a partner, in the creation of a body that will exercise an urban agglomeration power in respect of a related municipality or in the territory of the related municipality, the urban agglomeration council must be authorized to do so by the council of that municipality, and, where applicable, by the regular council of the central municipality.
- Exception. The first paragraph does not apply if the powers exercised by the body in fulfilling its mission do not include an act normally performed by the urban agglomeration council.
- Agreement maintained. **51.** If, immediately before the reorganization of the city whose territory corresponds to the urban agglomeration, an urban agglomeration power is exercised by a municipal body under an agreement entered into by the city, the agreement is maintained as if all the related municipalities were party to it, and the acts performed by the central municipality under the agreement are deemed to be performed in the exercise of the urban agglomeration power.

Municipal body.	For the purposes of the first paragraph and of section 52, “municipal body” has the meaning assigned by section 307 of the Act respecting elections and referendums in municipalities (R.S.Q., chapter E-2.2), and also means a local municipality.
Power not conferred.	52. If, immediately before the reorganization of the city whose territory corresponds to the urban agglomeration, an urban agglomeration power belongs to a municipal body and the power is neither temporary nor revocable, it is not conferred on the central municipality.
Revocability of power.	A power is deemed revocable if it is exercised by a body established by the city which may be dissolved by order or at the sole request of the city.
Simultaneous jurisdiction.	The first paragraph does not apply during the period in which, under the law applicable immediately before the city is reorganized, the central municipality and the municipal body simultaneously exercise jurisdiction over the same matter.
Police services.	53. If, immediately before the reorganization of the city whose territory corresponds to the urban agglomeration, police services are provided to the city by the Sûreté du Québec, the urban agglomeration power regarding such services is not conferred on the central municipality.

DIVISION II

INHERENT OR ACCESSORY ACTS

Inherent or accessory acts.	54. Decision making related to acts inherent in or accessory to the exercise of an urban agglomeration power is deemed part of the power.
List.	Such acts include: <ul style="list-style-type: none"> (1) the making of an agreement or any other form of contract; (2) the imposition of a method of financing and the inclusion of an item in the budget or the capital expenditure program; (3) the allocation of human or physical resources; (4) the taking of other administrative measures or the setting of standards; and (5) the response to a resolution announcing a regional county municipality’s intention to assume all or part of a power for related municipalities.

DIVISION III**CONCURRENT POWERS**

Power to establish rules.

55. If the infrastructures and equipment forming a system consist both of infrastructures and equipment that come under an urban agglomeration power, and infrastructures and equipment that do not, the urban agglomeration council may, by a by-law subject to the right of objection under section 115, establish rules so that the exercise of a power as regards the latter infrastructures and equipment does not affect the former infrastructures and equipment in such a way as to significantly reduce the leeway of the central municipality in exercising the urban agglomeration power.

Compliance with rules.

Every related municipality must comply with the rules established in such a by-law that is in force.

Application of power.

The power conferred by the first paragraph applies in particular to thoroughfares, water supply, water purification and residual materials.

Power to establish rules.

56. In addition to the case referred to in section 55, the urban agglomeration council may, by a by-law subject to the right of objection under section 115, establish rules to prevent the exercise of an urban agglomeration power and of another power as regards the same persons or the same property from causing needless inconvenience and to foster consistency of action.

Compliance with rules.

Every related municipality must comply with the rules established in such a by-law that is in force.

Act coming under multiple powers.

57. If an act that, according to an Act or a statutory instrument applicable to the central municipality, must be performed by the central municipality's council or executive committee, comes under both an urban agglomeration power and another power, the act is performed by the deliberative body specified in section 18.

Expenditures.

If the act involves expenditures, the expenditures are mixed and are subject to the by-law under section 69.

TITLE IV**RULES RELATING TO THE EXERCISE OF URBAN AGGLOMERATION POWERS****CHAPTER I****URBAN AGGLOMERATION COUNCIL**

Urban agglomeration council.

58. Every central municipality has an urban agglomeration council the nature, composition and operating rules of which are set out in the order made under section 135.

Deliberative body.	The council is a deliberative body of the municipality.
Principles.	<p>59. The order must respect the following principles:</p> <p>(1) every related municipality must be represented on the urban agglomeration council;</p> <p>(2) the number of votes assigned to the representative or to all the representatives of each related municipality must be in the same proportion to the number of votes assigned to all the members of the urban agglomeration council as the population of the municipality is to the total population of all the related municipalities; and</p> <p>(3) the meetings of the urban agglomeration council must be public.</p>
Executive committee.	<p>60. In the case of a central municipality that has an executive committee, the executive committee may exercise an urban agglomeration power, depending on what is specified in the order made under section 135.</p>
Information given at meetings.	<p>61. At a meeting of the council of a related municipality, the mayor</p> <p>(1) informs the council of the matters that are to be considered at a future meeting of the urban agglomeration council;</p> <p>(2) sets out the position the mayor intends to take on any matter referred to in paragraph 1, discusses that position with the other members present and proposes the adoption of a resolution establishing the council's stance; and</p> <p>(3) reports on the decisions made by the urban agglomeration council at a previous meeting.</p>
Stance.	<p>62. If the regular council of the central municipality or the council of a reconstituted municipality takes a stance on a matter that is to be referred to the urban agglomeration council, every member of the urban agglomeration council representing that municipality must, during the discussion and vote on the matter, act in conformity with the stance taken.</p>
Exception.	<p>63. If all the members of the regular council of the municipality are on the urban agglomeration council, sections 61 and 62 do not apply to the mayor of the central municipality and to a representative of that municipality, respectively.</p>
Town not taken into consideration.	<p>64. For the purposes of the provisions of this chapter and of the order made under section 135 that relate to the urban agglomeration council, Ville de L'Île-Dorval is not taken into consideration with respect to the urban agglomeration of Montréal.</p>
Territory.	Its territory is deemed to be included in the territory of Ville de Dorval.

CHAPTER II**URBAN AGGLOMERATION FINANCES****DIVISION I****URBAN AGGLOMERATION EXPENDITURES**

Expenditures treated separately.	65. The expenditures incurred by the central municipality in the exercise of urban agglomeration powers are treated separately from those incurred in the exercise of other powers.
Expenditures related to equipment.	66. Expenditures related to equipment, infrastructures or activities of collective interest are deemed to be incurred in the exercise of urban agglomeration powers, if the rules the content of which is provided for in section 42 apply to those expenditures.
Expenditures related to conditions of employment.	67. Expenditures related to the conditions of employment of the members of deliberative bodies authorized to exercise urban agglomeration powers that are urban agglomeration expenditures according to the order made under section 135 are deemed to be incurred in the exercise of urban agglomeration powers.
Mixed expenditures.	The order may determine the circumstances in which the expenditures related to those conditions of employment are mixed expenditures.
Conditions.	68. In addition to what is prescribed in section 57 and in the order made under section 135, expenditures incurred by the central municipality in the exercise of both urban agglomeration powers and other powers are mixed expenditures if <ol style="list-style-type: none">(1) an employee of the municipality or a contractor or service provider under contract with the municipality performs an act; or(2) property for which the municipality assumes the capital costs or usage costs is used.
Criteria.	69. The urban agglomeration council, by a by-law subject to the right of objection under section 115, establishes criteria for determining what part of a mixed expenditure is an expenditure incurred in the exercise of urban agglomeration powers.
Classes.	The by-law may define classes among the mixed expenditures and establish different criteria according to the classes.
Auditor.	70. The auditor responsible for expressing an opinion on the aggregate taxation rate of the central municipality must also provide an opinion on the breakdown of the mixed expenditures.

Presumption. The auditor is deemed to have a favourable opinion as to the breakdown upon declaring the aggregate taxation rate in compliance.

DIVISION II

URBAN AGGLOMERATION REVENUES

Application of revenues. **71.** The revenues of the central municipality derived from the exercise of an urban agglomeration power must be applied to the financing of the expenditures incurred in the exercise of that power.

Revenues from financing. The same applies for the revenues derived from a method of financing if, under an Act or statutory instrument, those revenues are to be applied to the financing of such expenditures.

Revenues. **72.** The revenues from the following activities are deemed to derive from the exercise of an urban agglomeration power:

(1) the issuance of permits, certificates and other authorizations under by-laws, resolutions and orders of a deliberative body exercising an urban agglomeration power;

(2) the imposition of fines and other monetary penalties and the charging of costs for offences under by-laws, resolutions and orders referred to in paragraph 1 that do not concern traffic or parking on thoroughfares; and

(3) the remittance of costs owing to the fact that a municipal court comes under the central municipality.

Presumption. **73.** The revenues from equipment, an infrastructure or an activity of collective interest are deemed to derive from the exercise of an urban agglomeration power if the rules the content of which is provided for in section 42 apply to those revenues.

Share of revenues related to offences. **74.** In addition to what is set out in section 72, the share of the revenues that is to be allocated to an interested municipality under an Act, a statutory instrument or a contract, when those revenues are from fines, other monetary penalties and costs relating to offences under certain legislative provisions that municipalities are responsible for enforcing and that do not concern traffic or parking on thoroughfares, is paid to the central municipality, to the exclusion of any other related municipality.

Presumption. A provision or stipulation prescribing the payment of that share as regards such offences committed in an urban agglomeration is deemed to apply only to the central municipality.

Payment of sum. **75.** Any sum or part of a sum referred to in any of the following paragraphs to which a related municipality is entitled under a program established by the

Government, a minister or a government body is paid to the central municipality, to the exclusion of any other related municipality.

Sums. The central municipality receives any sum provided for in

- (1) the program to promote municipal mergers; and
- (2) the program to promote municipal reorganization.

Parts of sums. The central municipality receives any part, designated under the program as being intended for urban agglomeration purposes, of any sum provided for in

- (1) the element relating to compensations to stand in lieu of taxes, in the program designed to neutralize the financial effects of a municipal merger;
- (2) the program relating to payment of compensation as regards public lands; and
- (3) the program relating to payment of “levelling” compensation.

Succession. If the central municipality succeeded to the rights and obligations of a regional county municipality, it receives any sum provided for in

- (1) the element relating to duties for the exploitation of resources, in the program designed to promote the diversification of municipal revenues; and
- (2) the assistance program for regional county municipalities.

Allocation of sums. **76.** The sums referred to in sections 74 and 75 and the revenues from any tax or other method of financing imposed by the urban agglomeration council must be allocated exclusively to the financing of expenditures incurred in the exercise of an urban agglomeration power.

Other sums. The same applies, with respect to a sum referred to in the second paragraph of section 86, to the part of the sum that is paid to the central municipality by reason of the taxes, compensations and modes of tariffing imposed by the urban agglomeration council.

DIVISION III

TAXATION PROVISIONS

§ 1. — *Interpretation*

Act. **77.** For the purposes of this division, “Act”, except in the title of an Act, means the Act respecting municipal taxation (R.S.Q., chapter F-2.1).

§ 2. — *Assessment roll*

Roll of rental values.	78. If any of the related municipalities does not have a roll of rental values, the urban agglomeration council may, for the purpose of its own taxation powers, decide that the municipality has such a roll.
By-law.	It makes the decision by a by-law subject to the right of objection under section 115.
Provision applicable.	Section 14.1 of the Act applies to the by-law and, where applicable, to the by-law repealing it as if they were resolutions adopted by the council of the municipality concerned.
Property assessment roll.	79. Where the property assessment roll of any of the related municipalities does not contain the indications identifying each unit of assessment belonging to each of the categories provided for in sections 244.34 to 244.36 of the Act or specifying to which class provided for in section 244.54 of the Act each unit belonging to the category provided for in that section 244.34 belongs, the urban agglomeration council may, for the purposes of its own taxation powers, decide that the roll must contain such indications.
Resolution.	Section 57.1.1 of the Act applies to the resolution adopted to that effect by the urban agglomeration council as if it were a resolution adopted by the council of the municipality concerned.
Equilibration.	80. The equilibration defined in section 46.1 of the Act must be effected upon the establishment of each assessment roll of a related municipality, even though its population is less than 5,000 inhabitants, if the population of another related municipality is equal to or greater than that number.
Uniform decision.	If the population of every related municipality is less than 5,000 inhabitants, the decision to effect or not to effect the equilibration, if it is not compulsory, must be uniform for all related municipalities.
Assessment rolls.	81. The assessment rolls of all related municipalities are drawn up and deposited so that they come into force simultaneously and apply for the same fiscal years.
Time limit for deposit.	They must be deposited on the same day. Otherwise, they are deemed not to have been deposited within the time limit prescribed by the Act.
Postponement.	For the purpose of complying with this requirement, the municipal body responsible for assessment may, under section 71 of the Act, postpone the deposit of a roll even though it could deposit the roll before 16 September preceding the first fiscal year for which the roll was drawn up.
Urban agglomeration property roll.	82. The expression “urban agglomeration property roll” means, subject to the adjustment provided for in the second paragraph, the aggregate of all the property assessment rolls of the related municipalities that are applicable simultaneously.

Value adjusted.	For the purposes of the urban agglomeration property roll, each value entered on the property assessment roll of a reconstituted municipality is adjusted by dividing it by the median proportion of that roll and by multiplying the quotient so obtained by the median proportion of the property assessment roll of the central municipality.
Median proportion.	For the purposes of the second paragraph, the median proportion of a roll is that established under section 264 of the Act for the first fiscal year for which the roll applies.
Urban agglomeration rental roll.	If all the related municipalities have a roll of rental values, the first three paragraphs apply, with the necessary modifications, and the aggregate of such rolls is called the “urban agglomeration rental roll”.
Roll summary.	83. The assessor must produce and send a summary of the urban agglomeration property roll.
Provisions applicable.	The provisions of the regulation made under paragraph 1 of section 263 of the Act that relate to the summary of a property assessment roll apply, with the necessary modifications and in particular with the modifications provided for in the third and fourth paragraphs, as regards the summary of the urban agglomeration property roll.
Time limit.	The summary reflecting the state of the urban agglomeration property roll on the date it is deposited is produced by the assessor within ten days after the day on which the median proportions and comparative factors of all the property assessment rolls of the related municipalities are established, under section 264 of the Act, for the first fiscal year for which the rolls apply.
Sending.	The assessor sends the summary to the clerk or secretary-treasurer of the central municipality within the same time as the time within which the assessor must, under the regulation made under the second paragraph, send the Minister the form filled out on the basis of the information included in the summary. The assessor is exempted from sending the form to the Minister.
Exemption.	However, the exemption does not render inoperative a provision of an Act or a statutory instrument that refers to the form in order to identify data contained in the property assessment roll, if that provision is applicable as regards the urban agglomeration property roll. In that case, the provision applies as if the assessor had filled out the form to send it to the Minister.
Median proportion and comparative factor.	84. The median proportion and the comparative factor of the urban agglomeration property roll and the urban agglomeration rental roll, for a fiscal year, are those established under section 264 of the Act for that fiscal year for the property assessment roll of the central municipality.

§ 3. — *Taxes and other methods of financing*

- Financing. **85.** For the purpose of financing expenditures incurred in the exercise of an urban agglomeration power, the urban agglomeration council may, by a by-law subject to the right of objection under section 115, levy any tax or impose any other method of financing that may be levied or imposed by a local municipality.
- Exception. However, it may not levy such a tax or impose such other method of financing if the revenues derived must, under an Act or statutory instrument, be allocated exclusively to the financing of expenditures other than those referred to in the first paragraph.
- Revenues reserved. Likewise, the regular council of the central municipality or the council of a reconstituted municipality may not levy a tax or impose another method of financing if the revenues from such tax or other method of financing must, under an Act or statutory instrument, be allocated exclusively to the financing of expenditures incurred in the exercise of an urban agglomeration power.
- Powers exercised concurrently. **86.** Subject to the second and third paragraphs of section 85, the urban agglomeration council and the regular council of the central municipality or the council of a reconstituted municipality may exercise concurrently the power conferred on them to levy the same tax or impose the same other method of financing.
- Parts of sum treated separately. The Government must therefore treat separately the part of the sum it must pay to a related municipality under section 210, 254 or 257 of the Act that stands in lieu of taxes, compensations and modes of tariffing imposed by the urban agglomeration council, and the other part of that sum. In addition, each of the corresponding parts of any sum paid under a program established by the Government, a minister or a government body to increase the compensations standing in lieu of taxes paid to the municipalities must also be treated separately.
- Compensation. For the purposes of this Act, the sum that the Government must pay under the second sentence of the first paragraph of section 257 of the Act is considered to be a compensation standing in lieu of taxes, compensations and modes of tariffing referred to in that sentence.
- Detailed account. **87.** If the account sent to a taxpayer includes the taxes or compensations that the taxpayer is required to pay as a result of decisions made both by the urban agglomeration council and by the regular council of the central municipality or the council of the reconstituted municipality, each of the taxes or compensations imposed by each of the councils must be identified and detailed in the account in accordance with the regulation under paragraph 2 of section 263 of the Act.
- Separate accounts. If separate accounts are sent for the taxes or compensations imposed by each council, each tax or compensation appearing in each account must be detailed in accordance with that regulation.

Values used in calculating tax.

88. If the urban agglomeration council levies a tax based on property value or rental value, the values used as the basis for the calculation of the amount of the tax are the values that are considered, under section 82, to be entered on the urban agglomeration property or rental roll. Any reference to the property assessment roll or the rental roll of the municipality, as the case may be, in any provision relating to the tax so levied by the urban agglomeration council, is deemed to be a reference to the urban agglomeration property or rental roll.

Compensation.

The same applies to any compensation in lieu of a tax provided for in section 210, 254 or 257 of the Act.

Other compensation.

The same also applies to any compensation provided for in section 205 of the Act.

Averaging of variation.

The first three paragraphs apply subject to the power of the urban agglomeration council under section 106 to take advantage of the averaging of the variation in the taxable values resulting from the coming into force of the roll.

General property tax rate.

89. The general property tax rate to which section 205.1 of the Act refers is the rate fixed by the council imposing the compensation provided for in section 205 of the Act.

Sums.

The sums to which that section 205.1 refers are the sums that would be payable in respect of the immovable concerned and that would derive from municipal taxes, compensations or modes of tariffing imposed by the council imposing the compensation provided for in that section 205.

Figures replaced.

The figures 0.006 and 0.01 appearing in the first and second paragraphs of that section 205.1 are replaced by the figures determined in accordance with the rules prescribed by the order made under section 135.

Prohibition.

90. No related municipality may require another related municipality to pay a compensation under section 205 of the Act for an immovable that is related to the exercise of an urban agglomeration power as regards a matter that is referred to in Chapter II of Title III or that is subject to the rules the content of which is provided for in section 42.

Amount replaced.

91. The amount of \$10 mentioned in the first paragraph of section 231 of the Act is replaced by the amounts determined in accordance with the rules prescribed in the order made under section 135.

Units of assessment.

92. For the purpose of calculating the sum payable to Ville de Montréal under section 231.5 of the Act, the units of assessment referred to in the third paragraph of that section are made up of immovables situated in the whole urban agglomeration of Montréal rather than only in the sole territory of the central municipality.

Exception.	However, no part of that sum is an urban agglomeration revenue.
Application of extension.	93. The extension of the imposition of the business tax under the fifth paragraph of section 232 of the Act applies separately for the tax imposed by the urban agglomeration council and the tax imposed by the regular council of the central municipality or the council of a reconstituted municipality.
Application of decision.	The same applies for a decision to grant the credit provided for in section 237 of the Act.
Business establishment.	For the purposes of sections 240 and 241 of the Act as regards the business tax imposed by the urban agglomeration council, a person that ceases to occupy a business establishment situated in the territory of a related municipality and occupies a business establishment situated in the territory of another related municipality is treated as if the person had successively occupied two establishments situated in the same local municipal territory.
Powers exercised concurrently.	94. The urban agglomeration council and the regular council of the central municipality or the council of a reconstituted municipality may exercise concurrently their power to apply the various general property tax rates scheme provided for in Division III.4 of Chapter XVIII of the Act.
Impact of decision.	A decision by either of those councils to impose a general property tax at a rate specific to a category of immovables has no effect on the power of the other to impose a general property tax at a rate specific to the same category or to another category.
Impact of decision.	The same applies for a decision by either of those councils to exercise a power under subdivision 5 of that division relating to an abatement to take into account certain vacancies.
Tax rates.	95. A decision by the urban agglomeration council to take advantage of the various general property tax rates scheme does not allow the regular council of the central municipality or the council of a reconstituted municipality to impose a special tax at different rates under section 487.1 or 487.2 of the Cities and Towns Act (R.S.Q., chapter C-19) or article 979.1 or 979.2 of the Municipal Code of Québec (R.S.Q., chapter C-27.1), and vice versa.
Application of rule.	96. In the case of any rule prescribed in Division III.4 of Chapter XVIII of the Act under which the composition of a category of immovables and the manner of establishing or applying the rate specific to a category vary according to whether or not the business tax is imposed, according to whether or not a rate specific to another category has been set or according to the amount of revenues from another tax, the rule is applied by taking into account only the taxes imposed or the rates set by the same council.
Hypothetical rates.	For the purposes of the first paragraph, if the regular council of the central municipality exercises the power under section 244.49.1 of the Act, the hypothetical rates established under that section are considered to be rates set by the council.

Maximum specific rate.

97. For the purpose of establishing the maximum specific rate applicable as regards the rate specific to the category of industrial immovables or to the category of immovables consisting of six or more dwellings, the rules prescribed in section 244.45.4 or 244.48.1 of the Act that relate to the calculation of an adjusted coefficient apply only if the council setting the specific rate concerned is the council that exercised the power under section 253.27 of the Act.

Impact of decision.

98. A decision by the urban agglomeration council to impose the general property tax at a rate specific to the category of serviced vacant land does not allow the regular council of the central municipality or the council of a reconstituted municipality, as the case may be, to impose the tax on unserviced vacant land provided for in Division III.5 of Chapter XVIII of the Act, and vice versa.

Incidental matters.

99. The urban agglomeration council may exercise powers relating to incidental matters, such as the conditions of payment, interest and penalties, regarding the taxes or other methods of financing it imposes.

Alternative.

If it does not exercise those powers, the rules applicable to such matters for similar taxes or other methods of financing imposed by the regular council of the central municipality or the council of the reconstituted municipality, according to the identity of the debtor, apply regarding the taxes and methods of financing imposed by the urban agglomeration council.

§ 4. — *Aggregate tax data*

Taxation rate.

100. An urban agglomeration aggregate taxation rate is established for the central municipality, in particular for the purpose of calculating

(1) the maximum rate of the business tax imposed by the urban agglomeration council;

(2) the maximum rate specific to the category of non-residential immovables or the category of industrial immovables that may be set by the urban agglomeration council within the framework of the various general property tax rates scheme; and

(3) the part of the sum that the Government must pay under the first paragraph of section 254 of the Act, regarding an immovable referred to in any of the last three paragraphs of section 255 of the Act, and that stands in lieu of taxes, compensations and modes of tariffing imposed by the urban agglomeration council.

Revenues taken into consideration.

101. Among the revenues that must normally be taken into consideration in establishing the aggregate taxation rate, only the revenues from taxes, compensations and modes of tariffing imposed by the urban agglomeration council are taken into consideration to establish the urban agglomeration aggregate taxation rate.

Revenues not taken into consideration.	Those revenues are not taken into consideration in establishing the regular aggregate taxation rate of the central municipality.
Taxable values.	102. The taxable values taken into consideration to establish the urban agglomeration aggregate taxation rate are the values that are considered, under section 80, to be entered on the urban agglomeration property roll.
Establishment of rate.	If an urban agglomeration aggregate taxation rate must be established for a certain purpose and, according to the provisions governing the establishment of a regular aggregate taxation rate for that purpose, adjusted values must be taken into consideration, instead of the values entered on a roll, to take into account a municipality's decision to exercise the power under section 253.27 of the Act, such adjusted values are not taken into consideration instead of those referred to in the first paragraph unless the urban agglomeration council has exercised the power under that section 253.27. The rules prescribed in the provisions referred to above concerning the establishment of the adjusted values and any adjusted taxable property assessment must take into account the modifications provided for in section 106.
Impact of decision.	A decision of the urban agglomeration council to exercise the power under section 253.27 of the Act has no effect on the central municipality's regular aggregate taxation rate.
Maximum rate.	103. An urban agglomeration taxable non-residential property assessment is established for the central municipality under section 244.42 of the Act, subject to the second paragraph, for the purpose of calculating the maximum rate specific to the category of non-residential immovables or the category of industrial immovables that the urban agglomeration council may set within the framework of the various general property tax rates scheme.
Provision applicable.	Section 102 applies, with the necessary modifications, for the purpose of establishing that urban agglomeration taxable non-residential property assessment.
Standardized property value.	104. The sum of the standardized property values of the related municipalities that are applicable for a fiscal year and are established in accordance with the regulation made under paragraph 7 of section 262 of the Act is the standardized property value of the urban agglomeration for that fiscal year.
<i>§ 5. — Measures to mitigate transfers and tax burden variations</i>	
Powers exercised concurrently.	105. The urban agglomeration council and the regular council of the central municipality or the council of a reconstituted municipality may exercise concurrently their power to apply any of the measures provided for in Divisions IV.3 to IV.5 of Chapter XVIII of the Act.
Impact of decision.	A decision by either of those councils to apply such a measure has no effect on the power of the other to apply the same or any other measure. Any

prohibition for a municipality to apply two or more measures limits only the powers of the council that ordered the application of any such measure.

Provisions applicable.

106. If the urban agglomeration council exercises the power under section 253.27 of the Act as regards the averaging of the variation in the taxable values resulting from the coming into force of the roll, Division IV.3 of Chapter XVIII of the Act applies with the necessary modifications and, in particular, the following modifications:

(1) the property assessment roll and roll of rental values referred to are the urban agglomeration property roll and the urban agglomeration rental roll; and

(2) the value resulting from the adjustment under the second paragraph of section 82 is deemed to be entered on the roll, even following an alteration to the roll.

Provisions applicable.

107. If the urban agglomeration council exercises the power under section 253.36 or 253.51 of the Act as regards the abatement or surcharge applicable to certain property taxes, Division IV.3 of Chapter XVIII of the Act applies with the necessary modifications and, in particular, the following modifications:

(1) the property assessment roll referred to is the urban agglomeration property roll;

(2) the value resulting from the adjustment under the second paragraph of section 82 is deemed to be entered on the roll, even following an alteration to the roll;

(3) the property taxes concerned are solely the property taxes imposed by the urban agglomeration council; and

(4) the expenditures provided for in a budget that are concerned are solely urban agglomeration expenditures.

Property taxes and expenditures.

Consequently, if the regular council of the central municipality exercises such a power, the property taxes concerned are solely those imposed by that council and the expenditures concerned are solely those that are not urban agglomeration expenditures.

Provisions applicable.

108. If the urban agglomeration council exercises the power under section 253.54 of the Act as regards the transitional diversification of the rates of certain property taxes, Division IV.5 of Chapter XVIII of the Act applies with the necessary modifications and, in particular, the following modifications:

(1) the property assessment roll concerned is the urban agglomeration property roll;

(2) the value resulting from the adjustment under the second paragraph of section 82 is deemed to be entered on the roll, even following an alteration to the roll;

(3) the property taxes concerned are solely the property taxes imposed by the urban agglomeration council; and

(4) the rules prescribed in section 253.54.1 of the Act apply only if the urban agglomeration council exercises the power under section 244.29 of the Act and only the specific rates of the general property tax that are set by that council are taken into consideration.

Property taxes and rules.

Consequently, if the regular council of the central municipality exercises the power under section 253.54 of the Act, the property taxes concerned are solely those imposed by that council and the rules prescribed in section 253.54.1 of the Act apply only if that council exercises the power under section 244.29 of the Act, in which case only the specific rates of the general property tax set by that council are taken into consideration.

Rules applicable.

The rules prescribed in sections 96 and 100 to 103 apply for the purpose of adapting the provisions to which section 253.59 of the Act refers.

Transitional scheme.

109. Any transitional scheme to limit variations in the tax burden provided for in an Act or statutory instrument governing the central municipality remains applicable to it, with the necessary modifications and, in particular, the modifications set out in the second paragraph, and is not applicable to a reconstituted municipality.

Application of scheme.

For the purpose of applying the scheme to the central municipality,

(1) a sector corresponds to the territory of any former municipality other than the former municipality whose territory corresponds to the territory of a reconstituted municipality;

(2) among the revenues included in or excluded from the tax burden according to the applicable provisions, the revenues resulting from decisions made by the urban agglomeration council are also taken into consideration;

(3) the increase in the tax burden attributable to a reduction in the territory of the central municipality that is inherent in the city's reorganization is deemed not to result from the constitution of the city; and

(4) the regular council, to the exclusion of the urban agglomeration council, takes the measures provided for in the applicable provisions to limit the variation in the tax burden, whether by setting separate rates for the general property tax or the business tax according to sectors or by granting an abatement or requiring a supplement regarding such a tax.

Power.

Consequently, only the regular council may exercise a power under section 232.3 or 244.49.1 of the Act.

Application of rules.

110. The rules applicable to the city before the reorganization that, while not constituting the transitional scheme to limit variations in the tax burden, ensure the transition towards standardized taxation throughout the territory of the city and provide that, during the transition period, the terms of various methods of financing, in particular the rate of the general property tax, are to vary according to the territories of the former municipalities cease to apply with respect to taxes and other methods of financing imposed by the urban agglomeration council.

Restriction.

Those rules continue to apply only in the territory of the central municipality and with respect to the taxes and other methods of financing imposed by the regular council of the central municipality.

DIVISION IV

OTHER FINANCIAL PROVISIONS

Auditor.

111. An auditor of the central municipality audits both the aspects of the administration of the central municipality that concern urban agglomeration powers and the other aspects.

Municipal contribution.

112. If, pursuant to section 52, an urban agglomeration power is not conferred on the central municipality and the municipal body referred to in that section exercises that power in the whole urban agglomeration and solely in that urban agglomeration, any municipal contribution to the financing of the body's expenditures that are related to the exercise of that power must be made by the central municipality.

Financing.

The contribution is an urban agglomeration expenditure that must be financed by urban agglomeration revenues.

Police services.

113. If, pursuant to section 53, the urban agglomeration power as regards police services is not conferred on the central municipality, the contribution payable to the Government for the services provided by the Sûreté du Québec, the amount of which is calculated on the basis of the population and the standardized property value of a municipality, according to the regulation made under section 77 of the Police Act (R.S.Q., chapter P-13.1), must be paid by the central municipality.

Contribution.

The amount of the contribution is calculated on the basis of the sum of the populations of the related municipalities and the standardized property value of the urban agglomeration.

Financing.

The contribution is an urban agglomeration expenditure that must be financed by urban agglomeration revenues.

Distribution of sum.

114. The sum that a related municipality must receive under a program referred to in the second paragraph must be treated in two parts so that the distribution between the part paid to the central municipality for urban

agglomeration purposes and the part paid to that municipality for other purposes or paid to the reconstituted municipality, as the case may be, corresponds to the distribution of the total amount of property taxes that would have been imposed on the immovables referred to in that paragraph, if those immovables were entered on the property assessment roll, made to take into account the taxes imposed by either the urban agglomeration council or by the regular council of the central municipality or the council of the reconstituted municipality.

Compensation program.

The first paragraph applies to any program established by the Government, a minister or a government body to compensate municipalities for all or part of the reduction in their property tax base resulting from the non-entry on the property assessment roll of certain immovables designed to abate, control or monitor pollution.

Values used in estimate.

The values used to calculate the sum payable under the program referred to in the second paragraph are used to estimate the amount of property taxes that would be imposed on those immovables on the basis of their taxable value.

CHAPTER III

MISCELLANEOUS PROVISIONS

DIVISION I

RIGHT OF OBJECTION TO CERTAIN BY-LAWS

Authenticated copy.

115. As soon as practicable after the adoption of a by-law under section 22, 27, 30, 34, 36, 38, 41, 47, 55, 56, 69, 78 or 85, an authenticated copy of the by-law is sent to the Minister.

Objection.

A related municipality may inform the Minister of its objection to the by-law within 30 days after its adoption. An authenticated copy of the resolution setting out the objection is sent simultaneously to the Minister and every other related municipality within the same 30-day period.

Publication.

Once the 30-day period has expired, if no objection has been filed with the Minister, the by-law may be published to meet the publication requirement for its coming into force. If an objection has been filed, the by-law must be approved by the Minister or by the person designated by the Minister to examine the merits of the by-law and make a decision in the Minister's place.

Reasons for refusal.

The reasons for a refusal to grant approval must be given in writing.

By-law.

116. A by-law provided for in section 36 may be published or approved, as the case may be, only once a resolution expressing the agreement of the municipality concerned has been adopted by the council that would have the authority to make decisions concerning the management of the industrial park referred to in the by-law should the by-law come into force.

DIVISION II

MIXED DOCUMENTS

Division of documents. **117.** Documents of the central municipality that contain both elements requiring a decision by a deliberative body exercising an urban agglomeration power and elements requiring a decision by a deliberative body exercising another power, particularly the budget and the program of capital expenditures, must be divided accordingly.

Division of documents. **118.** Documents of the central municipality that contain both elements setting out administrative acts performed in the exercise of an urban agglomeration power or the results of such acts and elements setting out administrative acts performed in the exercise of another power or the results of such acts, particularly the financial report, must be divided accordingly.

ORDERS

CHAPTER I

GENERAL PROVISIONS

Transitional rule or derogation. **119.** The provisions of any order under this Title may, for transition purposes, create a rule of municipal law or derogate from any provision of an Act under the administration of the Minister, a special Act governing a municipality or an instrument under such an Act.

Exception. However, a rule created or derogation made by a provision under section 126 is not limited to a transitional duration.

Coming into force of order. **120.** The provisions of an order under this Title come into force on the date of the publication of the order in the *Gazette officielle du Québec* or on any later date indicated in the order.

Amendment prohibited. **121.** Except for the correction of an error in writing or of an obvious omission, an order under this Title may not be amended after the first anniversary of the polling date fixed for the general election held under section 48 of the Act respecting the consultation of citizens with respect to the territorial reorganization of certain municipalities (2003, chapter 14) in anticipation of the reorganization of the city concerned.

Order of the Government. **122.** In addition to the orders provided for in Chapters II to IV, the Government may make any order, in keeping with the objects of this Act, to further clarify the scope of a provision of this Act or to correct any omission.

CHAPTER II**RECONSTITUTION ORDER**

Reconstitution order.	123. The Government may, by order, reconstitute as a local municipality the inhabitants and ratepayers of any sector referred to in section 5 of the Act respecting the consultation of citizens with respect to the territorial reorganization of certain municipalities (2003, chapter 14) where the answer given to the referendum question is deemed to be affirmative within the meaning of section 43 of that Act.
Particulars.	124. A reconstitution order must contain the following particulars: <ul style="list-style-type: none">(1) the name of the municipality;(2) a description of the territory of the municipality prepared by the Minister of Natural Resources, Wildlife and Parks;(3) an indication whether the municipality is governed by the Cities and Towns Act (R.S.Q., chapter C-19) or by the Municipal Code of Québec (R.S.Q., chapter C-27.1);(4) the particular legislative provisions that apply to the municipality, among those that applied specifically to the former municipality whose territory corresponds to the territory of the municipality and that were declared applicable to the city by the city's constituting act or by an order;(5) the place for the first meeting of the council of the municipality;(6) the name of the first clerk or secretary-treasurer of the municipality;(7) if the territory of the city is included in the territory of a regional county municipality, the name of the latter; and(8) if section 163 applies to the municipality, the fact that it is deemed to have obtained a recognition under the second paragraph of section 29.1 of the Charter of the French language (R.S.Q., chapter C-11).
Provision applicable.	Section 110.1 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9) applies, with the necessary modifications, to the first meeting of the council of the municipality.
Position holders.	125. A reconstitution order may mention the name of the first holder of a position of officer or employee of the municipality other than the position of clerk or secretary-treasurer, or refer to a document containing the list of such position holders.
Presumption.	A first position holder mentioned by the order or the document to which it refers is deemed to have been appointed or hired by the council of the municipality.

Application of provisions not limited.

That presumption does not limit the application of any provision of an Act or statutory instrument that subsequently governs the municipality as regards the deliberative body or officer having authority to appoint, hire, dismiss or fire the holder of such a position. However, the first general manager, clerk, treasurer or secretary-treasurer cannot be dismissed in the first 12 months following the reorganization of the city.

Provision applicable.

128. A reconstitution order may prescribe any time limit for the municipality to replace a time limit under the Pay Equity Act (R.S.Q., chapter E-12.001) and under sections 176.28 and 176.29 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9).

Incidental rules.

The reconstitution order may set out the rules incidental to the replacement of the time limit.

Adjustments in compensation.

Despite any change to the applicable time limits, the adjustments in compensation for predominantly female job classes remain retroactive to 21 November 2001 and may, for the purpose of calculating the amount of adjustments to be paid, be spread, having regard to section 70 of the Pay Equity Act, over a period between 21 November 2001 and 21 November 2005.

Collective agreement.

For the purposes of section 74 of that Act, adjustments in compensation for predominantly female job classes and the terms of payment of the adjustments are considered to form part of the collective agreement applicable to employees holding positions in those job classes on or after 21 November 2001.

CHAPTER III

AMENDING ORDER

Amending order.

129. The Government may, by order, amend the charter of a central municipality.

Charter.

For the purposes of this chapter, “charter” means the Act or order under which the central municipality was constituted, including any amendment made by an Act or order.

Effect of amendment.

Any amendment to a legislative element of the charter by an order has the same effect as if it were made by an Act.

Description of territory.	130. An amending order must describe the territory of the central municipality, taking into account the exclusion of the territory of any reconstituted municipality.
Boroughs.	An amending order may describe any borough included in the new territory.
Changes.	If warranted by the new territorial division into boroughs, an amending order must change, for some or all of the boroughs, the name or number by which a borough is designated, the number of members on the borough council or the number of councillors from the borough on the regular council of the central municipality.
Preparation of description.	A description under the first or second paragraph is prepared by the Minister of Natural Resources, Wildlife and Parks.
Name change.	131. In the case of Ville de Sainte-Marguerite–Estérel, an amending order may change the name of the central municipality.
Removal of provisions.	132. An amending order must remove from the charter any provision pertaining specifically and exclusively to the territory corresponding to the territory of a reconstituted municipality.
Exception.	The first paragraph does not apply if the provision concerns an urban agglomeration power and the essence of the provision is not taken up in the order made under section 135.
Time limits.	133. An amending order may prescribe any time limit for the central municipality to replace a time limit under the Pay Equity Act (R.S.Q., chapter E-12.001) and under sections 176.28 and 176.29 of the Act respecting municipal territorial organization (R.S.Q., chapter O-9).
Incidental rules.	The amending order may set out the rules incidental to the replacement of the time limit.
Adjustments in compensation.	Despite any change to the applicable time limits, the adjustments in compensation for predominantly female job classes remain retroactive to 21 November 2001 and may, for the purpose of calculating the amount of adjustments to be paid, be spread, having regard to section 70 of the Pay Equity Act, over a period between 21 November 2001 and 21 November 2005.
Collective agreement.	For the purposes of section 74 of that Act, adjustments in compensation for predominantly female job classes and the terms of payment of the adjustments are considered to form part of the collective agreement applicable to employees holding positions in those job classes on or after 21 November 2001.
Implicit amendment.	134. An amending order may formalize an implicit amendment made to the charter by a provision of this Act.

CHAPTER IV

AGGLOMERATION ORDER

Urban agglomeration order.

135. The Government may make an order designated as an “urban agglomeration order” for each urban agglomeration.

Rules.

136. An urban agglomeration order must prescribe rules on the following matters as regards the urban agglomeration council:

(1) the nature of the council, according to whether or not it is separate from the ordinary council of the central municipality;

(2) the number of council members;

(3) the special positions on the council, such as the positions of chair and vice-chair;

(4) the manner of determining the holders of the positions of council member and the holders of the positions under paragraph 3;

An urban agglomeration order may prescribe rules on any other matter, as appropriate, to take into account the existence of the urban agglomeration council.

Executive committee.

137. If the central municipality has an executive committee, an urban agglomeration order may

(1) prescribe that certain functions specified in the order, among those assigned to the committee by any Act or statutory instrument, are not exercised by the committee if they are included in an urban agglomeration power; and

(2) prescribe the manner in which functions under paragraph 1 are exercised by the urban agglomeration council.

Urban agglomeration commissions.

138. An urban agglomeration order may prescribe the manner in which the power of an urban agglomeration council to establish urban agglomeration commissions is exercised.

An urban agglomeration order must prescribe rules relating to the conditions of employment of the members of the council of any related municipality, pertaining in particular to</p> <ul style="list-style-type: none">(1) remuneration and compensation, including the application of the minimum and maximum set out in the Act respecting the remuneration of elected municipal officers (R.S.Q., chapter T-11.001);(2) the reimbursement of expenses;(3) compensation for loss of income and severance and transition allowances; and(4) the pension plan.

Provisions taken up.	140. An urban agglomeration order may take up any provision removed from the charter of the central municipality under section 132 that concerns an urban agglomeration power, adapting it where necessary.
Figures replaced.	141. An urban agglomeration order must prescribe rules for establishing which figures replace the figures 0.006 and 0.01 appearing in the first and second paragraphs of section 205.1 of the Act respecting municipal taxation (R.S.Q., chapter F-2.1), for the purposes of the exercise by the urban agglomeration council and by the regular council of the municipality or the council of a reconstituted municipality of the power provided for in section 205 of that Act under which the owner of a non-taxable immovable may be required to pay compensation for municipal services.
Amount replaced.	The order must also prescribe rules for establishing the amounts that replace the amount of \$10 appearing in the first paragraph of section 231 of that Act, for the purposes of the exercise by those councils of the power provided for in that section under which the owner or occupant of a trailer may be required to pay tax in the form of the cost of a permit.

- Assets and liabilities. **145.** An urban agglomeration order must contain a list of the property, debts, claims, deficits, surpluses and all other assets and liabilities of the city that are transferred to each reconstituted municipality, or refer to a document containing such a list.
- Power or obligation. An urban agglomeration order may assign any power or obligation to the central municipality or any reconstituted municipality as regards an asset or liability that remains with or is transferred to it, as the case may be, in order to take into account the fact that the asset or liability is of collective interest before the reorganization of the city.
- Act. If it assigns such a power or obligation to the central municipality and an act of the council or executive committee is required for the exercise of the power or the performance of the obligation, the order must specify whether or not the act is under the authority of the deliberative body authorized to exercise urban agglomeration powers.
- Rule. **146.** An urban agglomeration order may prescribe any rule for distinguishing, among the assets or liabilities that remain with the central municipality, those that are related to the exercise of an urban agglomeration power from those that are not.
- Continuity of pension plans. **147.** An urban agglomeration order may prescribe rules to ensure, for the transitional period specified, the continuity of a pension plan for officers or employees that is not terminated immediately before the reorganization of the city.

In the case of a related municipality of an urban agglomeration referred to in subparagraph 3 of that paragraph, that roll is deemed to be in its second and third years of application, respectively, in 2006 and 2007.

Rolls.

169. The city's property assessment roll or roll of rental values updated in accordance with the Act is the urban agglomeration property roll or the urban agglomeration rental roll for any preceding fiscal year referred to in section 168.

Separate summaries.

170. The assessor must produce a separate summary for each part of the city's property assessment roll that is the property assessment roll of a related municipality. The summary is considered to be the summary of a roll.

Aggregate summary.

In addition to those separate summaries, the assessor may continue to produce an aggregate summary for the city's property assessment roll. The aggregate summary or all the separate summaries, at the assessor's option, is or are considered to be the urban agglomeration property assessment roll.

Maximum specific rate.

171. If the urban agglomeration council, the regular council of the central municipality or the council of a reconstituted municipality takes advantage of the various general property tax rates scheme for a fiscal year referred to in the second paragraph, the coefficient calculated under the third or fourth paragraph is used for the purpose of establishing the maximum specific rate applicable in respect of the rate specific to the category of industrial immovables or to the category of immovables consisting of six or more dwellings.

Fiscal years.

The fiscal years concerned are

(1) in the case of an urban agglomeration referred to in subparagraph 1 of the first paragraph of section 167 or in the second paragraph of that section, a fiscal year for which the property assessment roll coming into force on 1 January 2006 applies; and

(2) in the case of an urban agglomeration referred to in subparagraph 2 or 3 of the first paragraph of section 167, a fiscal year preceding the fiscal year in which the first property assessment roll drawn up specifically for each related municipality comes into force.

Coefficient.

In the case of the tax imposed by the urban agglomeration council, the coefficient is calculated by applying sections 244.44 to 244.45.4 or 244.47 to 244.48.1 of the Act, as the case may be, with the following modifications:

(1) the rolls compared are the city's property assessment roll applicable for the fiscal year 2005, and

(a) in the case of an urban agglomeration referred to in subparagraph 1 of the first paragraph of section 167 or in the second paragraph of that section, the first property assessment roll referred to in section 82; and

(b) in the case of an urban agglomeration referred to in subparagraph 2 or 3 of the first paragraph of section 167, the urban agglomeration property roll referred to in section 169;

(2) the coefficient applicable for the fiscal year 2005 is the coefficient determined on the basis of the city's decision as to the establishment of a rate specific to the category concerned for that fiscal year, according to the following rules if the city did not act in a uniform manner for its whole territory:

(a) if it set a single rate specific to the category concerned for part of its territory, that rate is taken into consideration as if it had been set for the whole territory; and

(b) if it set two or more rates specific to the category concerned for different parts of its territory, the highest rate is taken into consideration as if it had been set for the whole territory.

Coefficient.

In the case of the tax imposed by the regular council of the central municipality or the council of a reconstituted municipality, the coefficient is calculated by applying sections 244.44 to 244.45.4 or 244.47 to 244.48.1 of the Act, as the case may be, with the following modifications:

(1) the rolls compared are the part of the city's property assessment roll applicable for the fiscal year 2005 that includes the immovables situated in the territory of the municipality, and

(a) in the case of an urban agglomeration referred to in subparagraph 1 of the first paragraph of section 167 or in the second paragraph of that section, the first property assessment roll drawn up specifically for the municipality; and

(b) in the case of an urban agglomeration referred to in subparagraph 2 or 3 of the first paragraph of section 167, the municipality's property assessment roll referred to in section 168;

(2) the coefficient applicable for the fiscal year 2005 is the coefficient determined on the basis of the city's decision as to the establishment of a rate specific to the category concerned for that fiscal year, according to the following rules if the city did not act in a uniform manner for the whole territory that has become the territory of the central municipality:

(a) if it set a single rate specific to the category concerned for a part of the territory that has become the territory of the central municipality, that rate is taken into consideration as if it had been set for the whole territory; and

(b) if it set two or more rates specific to the category concerned for different parts of the territory that has become the territory of the central municipality, the highest rate is taken into consideration as if it had been set for the whole territory; and

(3) in the case of the maximum specific rate applicable in respect of the rate specific to the category of industrial immovables, the only alterations to the city's roll that are taken into account, among those referred to in sections 244.45.1 to 244.45.3 of the Act, are the alterations that concern immovables situated in the territory of the municipality.

Preceding roll.

172. In the case of any related municipality of an urban agglomeration referred to in subparagraph 1 of the first paragraph of section 167 that applies the measure for averaging the variation in the taxable values resulting from the coming into force of the roll as regards its roll coming into force on 1 January 2006, the preceding roll referred to in sections 253.28 to 253.31 of the Act is the part of the city's assessment roll, applicable in 2005, that includes the immovables or business establishments situated in the territory of the related municipality.

Restriction.

173. In the case of an urban agglomeration referred to in subparagraph 1 of the first paragraph of section 167, neither the urban agglomeration council nor the regular council of the central municipality or the council of a reconstituted municipality may exercise the powers under Division IV.4 of Chapter XVIII of the Act concerning the abatement or surcharge applicable to certain property taxes, for any of the fiscal years for which the first property assessment roll drawn up specifically for each related municipality applies.

Preceding roll.

174. In the case of any related municipality referred to in subparagraph 1 of the first paragraph of section 167 that applies the measure concerning the transitional diversification of the rates of certain property taxes for the fiscal year 2006 or the fiscal year 2007, the preceding roll referred to in sections 253.56 to 253.58 of the Act is the part of the city's assessment roll, applicable in 2005, that includes the immovables situated in the territory of the related municipality.

Rules.

175. Despite section 110, in the case of the urban agglomeration of Montréal, the urban agglomeration council may continue to apply the rules referred to in that section for the fiscal year 2006 as regards the taxes and other

methods of financing that it imposes to finance the expenditures related to the exercise of one of the urban agglomeration powers over water supply, water purification, and residual materials disposal and reclamation.

Equalization scheme.

176. For the purpose of determining whether a related municipality is eligible, for the fiscal year 2006, under the equalization scheme established by the regulation made under paragraph 7 of section 262 of the Act and for the purpose of determining, where applicable, the sum payable to that municipality under that scheme for that fiscal year,

(1) the competent assessor for the city's property assessment roll applicable for the fiscal year 2005

(a) fills out the form which, under the regulation made under paragraph 1 of section 263 of the Act, must be completed using information included in the summary of the roll, as if the part of the city's property assessment roll including the immovables situated in the territory becoming the territory of the related municipality were the roll of the related municipality and as if a summary of that roll had been produced during the last quarter of 2004 to reflect the state of that roll on the applicable date, according to the regulation, for the purpose of the fiscal year 2005; and

(b) sends the Minister the form referred to in subparagraph *a*, duly completed, before 1 May 2006;

(2) the standardized property value per inhabitant of the related municipality for the fiscal year 2005, except for the purpose of establishing the median of such values, is established on the basis of

(a) the part of the city's standardized property value for the fiscal year 2005 that is attributable to the territory becoming the territory of the related municipality, according to the form referred to in subparagraph *a* of paragraph 1; and

(b) the part of the city's population as at 1 January 2005 that is attributable to the territory becoming the territory of the related municipality, as stated in an order of the Minister based on an estimate of the Institut de la statistique du Québec;

(3) the average value of the dwellings situated in the territory of the related municipality for the fiscal year 2005, except for the purpose of establishing the median of such values, is established on the basis of

(a) the number of dwellings situated in the territory becoming the territory of the related municipality and their taxable value, according to the form referred to in subparagraph *a* of paragraph 1, among the dwellings taken into consideration for the purpose of establishing the average value of the dwellings situated in the territory of the city for the fiscal year 2005; and

(b) the comparative factor established for the city's property assessment roll for the fiscal year 2005 under section 264 of the Act; and

(4) for the purpose of establishing the median of the standardized property values per inhabitant and the median of the average values of the dwellings for the fiscal year 2005, the values referred to in paragraphs 2 and 3 are not taken into account, and if the form relating to the summary of the city's property assessment roll for that fiscal year is received by the Minister before 1 November 2005, the standardized property value per inhabitant and the average value of the city's dwellings established on the basis of that form are taken into account.

CHAPTER III

OTHER TRANSITIONAL PROVISIONS

177. The Minister determines in advance the population of each related municipality, based on an estimate of the Institut de la statistique du Québec and taking into account the territory of each related municipality as it will stand following the reorganization of the city. The Minister may determine in the same manner the population of a borough as it will stand following the reorganization.

Notice.

The Minister publishes a notice of the populations figures so determined in the *Gazette officielle du Québec*.

178. As of the time the majority of candidates elected to positions on the council of a related municipality in an election referred to in section 121 have made the oath under section 313 of the Act respecting elections and referendums in municipalities (R.S.Q., chapter E-2.2), the council may perform the acts normally performed in anticipation of the start of a fiscal year, such as adopting the budget and the related by-laws and resolutions, as well as other acts whose effective date is delayed, however, until the date on which the city is reorganized.

Acts.

The same applies, with the necessary modifications, to any borough council.

Existence of council.

In the case of a reconstituted municipality, the council exists, for the purposes of the performance of those acts, as if the municipality existed between the time referred to in the first paragraph and the date on which the city is reorganized.

Establishment of urban agglomeration council.

179. As of the day on which all the councils of the related municipalities are operational as set out in section 178 or the day on which all the mayors of

those related municipalities who have been elected at the election referred to in section 121 have made the oath, whichever is later, the urban agglomeration council is or may be established, depending on whether the rules set out in the order made under section 135 prescribe that all the members of that council sit on the council by virtue of office or that some members must be designated.

Acts.

The urban agglomeration council may perform the acts referred to in the first paragraph of section 178 and, to that end, exists as if the urban agglomeration existed in the form provided for in Title II between the day on which it is established and the date on which the city is reorganized.

Positions held concurrently.

180. As of the day on which a person's term in the position to which the person was elected at the election referred to in section 121 begins until the date on which the city is reorganized, the person may hold that position and the position of city council member concurrently.

Retroactive effect.

181. Any by-law or resolution of the urban agglomeration council, the regular council of the central municipality or the council of the reconstituted municipality that deals with the remuneration, compensation, reimbursement of expenses or any other component of remuneration provided for in the Act respecting the remuneration of elected municipal officers (R.S.Q., chapter T-11.001) regarding the council members may have retroactive effect to the date on which the council was able to begin to act under section 178 or 179.

Conditions of employment.

The retroactive effect given under the first paragraph also applies to the other conditions of employment related to remuneration, such as employee and employer contributions to the pension plan.

Reduction.

In the case of a person referred to in section 180, the amount of the remuneration and compensation that would be payable to the person for the period referred to in that section, under a by-law referred to in the first paragraph, is reduced by the amount the person receives from the city as remuneration and compensation for that period.

Notice of the location and any relocation of the head office of the agency is published in the *Gazette officielle du Québec*.
- Meetings. The agency may hold its meetings anywhere in Québec.

CHAPTER II

MISSION AND POWERS

- Processes. The agency promotes the following in exercising its functions:
- (1) a process for the selection of partners and the conclusion of contracts that is both transparent and fair, in order to ensure healthy competition among interested enterprises;

(2) the implementation of means for citizens to learn about the public-private partnership process and the added value of public funds invested;

(3) the use of reporting mechanisms based on the accountability of public bodies and on the fact that those bodies must ensure supervision of the infrastructure, equipment and public service delivery projects;

(4) the use in the public interest of consultation and communication processes involving the people concerned by the projects.

Functions.

5. In pursuing its mission, the agency

(2) operates a public-private partnership knowledge and expertise centre accessible to all interested persons and, for that purpose, collects and analyzes information on public-private partnerships in Canada and abroad;

(3) informs public bodies, the business community and the general public on the concept of public management in the public-private partnership mode; and

(4) provides expert services to public bodies for the evaluation of the feasibility of their infrastructure, equipment and public service delivery projects in the public-private partnership mode, for the process of selecting partners and for the negotiation, conclusion and management of partnership contracts.

Public-private partnership contract.

6. A public-private partnership contract is a long-term contract under which a public body allows a private-sector enterprise to participate, with or without a financial contribution, in designing, constructing and operating a public work. The purpose of the contract can be the delivery of a public service.

Stipulations.

The contract must stipulate the results to be achieved and determine how responsibilities, investment, risks and profits are to be shared so as to enhance the services delivered to citizens.

Public bodies.

7. For the purposes of this Act, public bodies include

(1) government departments;

(2) persons and government bodies and enterprises referred to in section 2 of the Financial Administration Act (R.S.Q., chapter A-6.001);

A public body may use the agency's advisory and expert services for the evaluation of the feasibility of its infrastructure, equipment or public service delivery projects in the public-private partnership mode, for the process of selecting partners and for the negotiation and conclusion of public-private partnership contracts. These services are made available if, in the opinion of the agency, the nature and importance of the project warrant it.

Services to departments.

In addition, a department must use the services of the agency for any project for which a public-private partnership is considered, if the department is directly or indirectly the main source of financing for the project and if the project is considered to be a major one according to the criteria determined by the Government for that purpose.

Opinions and recommendations.

9. The agency issues advisory opinions, attaching any recommendations it may have, on any matter within its purview that is submitted to it by the chair of the Conseil du trésor.

Project feasibility.

10. When an investment project is of considerable importance, the Government may give the agency a mandate to evaluate its feasibility in the public-private partnership mode and, possibly, to select a partner and negotiate and conclude a partnership contract for the carrying out of the project.

A legal person or partnership the majority of whose directors may be elected by the agency is also a subsidiary of the agency.
Provisions applicable.	14. Sections 2 and 12 apply, with the necessary modifications, to subsidiaries of the agency all of whose shares are held directly or indirectly by the agency. Such subsidiaries are considered mandataries of the State.

(7) consider the quality of the service provided to the insureds by the Société and any change made to the automobile insurance plan;

(8) consider the economic and social concerns indicated by the Société and the public.”

(4) from 1 January 1992, to every person belonging to certain classes of employees of the Institut Philippe Pinel, as determined by regulation, subject to paragraph 5 of section 3. The regulation may also, despite any inconsistent provision of this Act, except the provisions of Chapter V.1, contain special provisions applicable to the classes of employees so determined. This regulation may have effect for up to 12 months before its adoption.

Application.

“2. This plan also applies from 1 January 2005 to a person referred to in sections 4 to 5.1, as they read before 31 December 2004, to the extent that the person was a member of the plan on the latter date and would have continued to be a member of the plan on 1 January 2005 had those sections not been repealed.

Exclusions.

“3. The plan does not apply to a person who

(1) is under 18 years of age;

(2) becomes an employee on or after 31 December of the year in which the employee attains 69 years of age;

(3) is a member of the Sûreté du Québec;

(4) is a Member of the National Assembly;

(5) could have elected to become a member of this plan under the second paragraph of section 1.1 as it read before 1 January 2005 but did not do so and did not cease to be a member of the initial pension plan;

(6) is excluded by regulation from the plan by reason of the person's class or conditions of employment, remuneration or mode of remuneration; or

(7) is referred to under the fifth paragraph of section 23 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1).

Employee.

“4. For the purposes of this Act, the person to whom this plan applies is considered as an employee unless that person is a pensioner under this plan, the Government and Public Employees Retirement Plan, the Teachers Pension Plan, the Civil Service Superannuation Plan, the Pension Plan of Management Personnel, the Pension Plan of Certain Teachers or a pension plan established under sections 9, 10 and 10.0.1 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10).

69 years of age.

“5. An employee ceases to be a member of the plan on 31 December of the year in which the employee attains 69 years of age.

Pensionable
employment.

“6. Pensionable employment under this plan is employment held by an employee referred to in section 1.

Pensionable
employment.

Pensionable employment under the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) becomes, in respect of an employee who qualifies for membership in this plan, pensionable employment under this plan from the day after the day on which the employee becomes qualified.

“DIVISION II

“MEMBERSHIP

Membership.

“7. For the purposes of this plan, an employee is a member of a pension plan from the first day on which the employee holds pensionable employment. However, an employee who, before becoming a member of this plan, obtained the transfer of past service to this plan is deemed to have become a member of the plan on the date on which the Commission administrative des régimes de retraite et d’assurances, established under section 136 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10), received the application for the redemption of the past service.

Presumption.

For the purposes of this plan, an employee is deemed to hold pensionable employment when the employee holds full-time or part-time employment, which includes any period during which the employee is absent without pay, is eligible for salary insurance benefits or, in the case of a female employee, is on maternity leave.

Salary insurance.

For the purposes of this plan, salary insurance means the salary insurance that is mandatory for the employee but does not include the salary insurance referred to in section 42.1.

Membership in
pension plan.

“8. Membership in a pension plan continues as long as the employee remains an employee within the meaning of the plan.

Presumption.

However, for the purposes of eligibility for and computation of benefits under this plan, the membership of an employee who ceases to be an employee within the meaning of this plan for any period during which pensionable employment is not held is deemed to have ceased,

(1) if the employee is not eligible for a pension, on the last day the employee held pensionable employment or, where applicable, on the date the Commission received an application for redemption pursuant to which years and parts of a year of service were credited or counted under the plan, if such date is subsequent to the last day referred to above;

(2) if the employee is eligible for a pension, on the first day the employee became eligible, beginning on the day or date that would have been considered if paragraph 1 had applied.

“DIVISION III**“QUALIFICATION**

Qualification.	“8.1. An employee qualifies for membership in this plan on the day the employee has accumulated 10 years of service.
Years of service.	<p>The following years and parts of a year of service are taken into account for qualification purposes:</p> <p>(1) those credited in pensionable employment under the first paragraph of section 6;</p> <p>(2) those credited in pensionable employment under the first paragraph of section 6 which must be credited again under section 25;</p> <p>(3) those credited under section 143.3; and</p> <p>(4) those which must be credited again under section 24.</p>
Total service.	For the purposes of subparagraphs 1 and 2 of the second paragraph, only the days and parts of a day for which the employee paid or was exempt from contributions must be counted in the total service, including those referred to in section 20 and those credited under section 21.
Years of service not taken into account.	“8.2. Despite section 8.1, the years and parts of a year of service taken into account under this plan before the employee, qualified or not, took advantage of a transfer agreement signed under section 133 are not taken into account for qualification purposes if the employee was a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel before the service was credited once again under this plan in application of the agreement.
Precedence.	“8.3. The qualification of an employee under this plan prevails over the qualification of the employee under the Act respecting the Pension Plan of Management Personnel (chapter R-12.1).
Qualified employee.	“8.4. Despite section 8.1, the employee referred to in section 2 is qualified under this plan on 1 January 2005.
10 years of service.	The employee who, before 1 January 2005, accumulated the 10 years of service required for qualification purposes is qualified under this plan on that date.

“DIVISION IV**“TERMINATION OF MEMBERSHIP AND BENEFITS PAYABLE TO NON-QUALIFIED EMPLOYEES OR PERSONS**

Applicability.

“8.5. This division applies to an employee or a person who has been a member of this plan, who was not qualified under it and who is not a pensioner within the meaning of section 4, who applies for benefits under this plan and is or was a member of the Government and Public Employees Retirement Plan, the Pension Plan of Management Personnel, the Teachers Pension Plan or the Civil Service Superannuation Plan. However, this division does not apply to a person or employee whose years and parts of a year of service credited or counted under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel are credited or counted under this plan in application of Chapter IX.1 on successive membership and who, since 1 January 2005, has not again become a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel.

Application for benefits.

“8.6. An application for benefits under this Act submitted by an employee or a person referred to in section 8.5 is considered an application for benefits under the Act respecting the Government and Public Employees Retirement Plan (chapter R-10), the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), the Act respecting the Teachers Pension Plan (chapter R-11) or the Act respecting the Civil Service Superannuation Plan (chapter R-12). However, the application for benefits is not considered an application for the payment before the age of 65 of a deferred pension payable under those plans.

Application for benefits.

An application for benefits submitted by an employee or a person referred to in section 8.5 under the Act respecting the Government and Public Employees Retirement Plan, the Act respecting the Pension Plan of Management Personnel, the Act respecting the Teachers Pension Plan or the Act respecting the Civil Service Superannuation Plan is considered an application for benefits under this Act.

Eligibility.

To be eligible for benefits under a pension plan referred to in the first paragraph, the employee or person must no longer be a member of any of the plans.

Government and Public Employees Retirement Plan or Pension Plan of Management Personnel.

“8.7. If an employee or a person is eligible for a pension under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel or if that employee or person would be eligible for a pension under one of those plans if the years and parts of a year of service credited or counted under this plan, for which contributions were not reimbursed, were credited or counted under one of those plans, the employee or person shall retire under that other plan. However, for the purposes of eligibility for and computation of benefits under those plans, the membership of the employee or person is deemed to have ceased on the date the employee or person ceased to be a member of this plan under section 8, the Government

and Public Employees Retirement Plan under section 3.1 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10), or the Pension Plan of Management Personnel under section 9 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), whichever is latest. In the event of death, the application for benefits is deemed to have been made on the day of the death.

Government and
Public Employees
Retirement Plan.

“3.8. If an employee or a person who was a member of the Teachers Pension Plan or the Civil Service Superannuation Plan and who did not, on a later date, become a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel before becoming a member of this plan would become eligible for a pension under the Government and Public Employees Retirement Plan if the years and parts of a year of service credited or counted under this plan, the Teachers Pension Plan or the Civil Service Superannuation Plan, for which contributions were not reimbursed, were credited or counted under the Government and Public Employees Retirement Plan, that employee or person shall retire under the Government and Public Employees Retirement Plan. For the purposes of eligibility for benefits under the Government and Public Employees Retirement Plan, this plan, the Teachers Pension Plan or the Civil Service Superannuation Plan and computation of those benefits, membership of the employee or person in these plans is deemed to have ceased on the date the employee or person ceased to be a member of this plan under section 8, the Teachers Pension Plan under section 2.2 of the Act respecting the Teachers Pension Plan (chapter R-11) or the Civil Service Superannuation Plan under section 55.1 of the Act respecting the Civil Service Superannuation Plan (chapter R-12), whichever is latest. In the event of death, the application for benefits is deemed to have been made on the day of the death.”

2. The heading of Chapter II of the said Act is replaced by the following heading:

“PENSIONABLE SALARY, YEARS OF SERVICE AND REDEMPTION OF SERVICE”.

c. R-9.2, s. 14, am.

3. Section 14 of the said Act is amended by replacing the second, third and fourth paragraphs by the following paragraphs:

Pensionable salary.

“If the total service credited in respect of the pensionable employments of the employee is reduced under section 16, the pensionable salary of the employee is equal to the total of the following amounts:

(1) the pensionable salary for each employment in respect of which service is credited in full; and

(2) the pensionable salary for the employment in respect of which service is credited in part, multiplied by the service credited in respect of that employment over the service accumulated in such employment.

Adjustment of
contributions.

Contributions related to the employment referred to in subparagraph 2 of the second paragraph are adjusted to take into account the pensionable salary calculated.”

c. R-9.2, s. 14.1, am.

4. Section 14.1 of the said Act is amended

(1) by inserting “for one year of service” after “employee” in the second line of the first paragraph;

(3) by adding the following paragraph at the end:

Pensionable salary.

“For the purposes of the second paragraph, the pensionable salary must not exceed the amount obtained by multiplying the limit referred to in the first paragraph by the service credited to the employee during the year.”

c. R-9.2, s. 14.2,
added.

5. The said Act is amended by inserting the following section after section 14.1:

“pensionable salary”.

“14.2. For the purposes of this Act, “pensionable salary” refers to the pensionable salary determined in accordance with this division. However, section 14.1 is excluded from this reference in respect of the years prior to 1 January 1992.”

c. R-9.2, Chap. II,
Div. II, ss. 15-41.6,
replaced.

6. Division II of Chapter II of the said Act, comprising sections 15 to 41.6, is replaced by the following:

“DIVISION II

“YEARS OF SERVICE

“§ 1. — *Service under this plan*

Service credited.

“15. One year or part of a year of service is credited, for each calendar year, to the employee for the service accumulated if the contributions have been paid and not refunded and for service that is otherwise credited to the employee under this Act.

Service credited.

Service is credited according to the number of days and parts of a day for which the employee paid or was exempt from contributions and the days and parts of a day otherwise credited to the employee out of the number of contributory days in a year, that is, 200 or 260, according to the basis of remuneration. If, in the total number of days and parts of a day, there remains a part of a day that is less than 0.5, the fraction is disregarded. If a fraction equal to or greater than 0.5 remains, it is considered a full day.

- Several employments. **“16.** If an employee simultaneously holds more than one pensionable employment under the plan, the service accumulated by the employee is credited up to one year of service, beginning with service in respect of the employment to which the highest annual basic salary that is paid or would have been paid to the employee under the conditions of employment applicable on the last day credited in the year is attached.
- Restriction. Despite the first paragraph, no employee may, in the year in which the employee becomes a member of this plan, be credited with more service than the number of contributory days comprised between the date on which the employee becomes a member of this plan and the end of that year. During the year in which the employee retires or becomes entitled to a deferred pension, the employee may not be credited with more service than the number of contributory days comprised between 1 January and the date the employee ceased to be a member of the plan. In such cases, the service is credited, beginning with the service pertaining to the employment to which the highest annual basic salary is attached, in accordance with the first paragraph.
- Maximum service credited. **“17.** If an employee who does not qualify for membership in this plan holds pensionable employment simultaneously under this plan and under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, the total service credited to the employee under this plan, in accordance with sections 15 and 16, and the total service credited to the employee under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel cannot exceed one year.
- Days credited without contributions. **“18.** The days and parts of a day of a period during which an employee receives salary insurance benefits or during which the employee would receive such benefits were it not for the waiting period prescribed by the salary insurance plan or were the employee not receiving a disability benefit under the Act respecting the Québec Pension Plan (chapter R-9) or an income replacement indemnity under the Act respecting industrial accidents and occupational diseases (chapter A-3.001), the Automobile Insurance Act (chapter A-25), the Act to promote good citizenship (chapter C-20), the Crime Victims Compensation Act (chapter I-6) or any other Act, other than an Act of Québec having the same effect, are credited without contributions up to three years of service for each period of eligibility.
- Female employee. The days and parts of a day during which a female employee receives the income replacement indemnity provided for in section 36 of the Act respecting occupational health and safety (chapter S-2.1) by reason of the exercise of a right granted under sections 40, 41 and 46 of the said Act, are credited without contributions up to two years of service for each period of eligibility.
- Contributions. However, if the salary insurance plan so provides, the insurer pays the contributions which would have been paid by the employee, which are then credited to the account of the employee.

Salary insurance
benefits.

“19. An employee referred to in the first paragraph of section 18 who, under the salary insurance plan provided for in the employee’s conditions of employment, is entitled to salary insurance benefits for a maximum period of two years of service continues to be a member of the plan during the year following the last day of that two-year period, even if the employer terminated the employee’s employment, if on that day the employee was disabled within the meaning of the salary insurance plan.

Service credited.

During that year, the service credited to the employee or to a person exempt from contributions is the service that would have been credited to the employee or person if such employment had been held, and the pensionable salary is the salary the employee or person would have received.

Reduction.

However, the service credited to an employee or person who dies, resigns or retires during the year following the two-year period referred to in the first paragraph is reduced by the period comprised between the date of the event and the end of that year. The service credited is also reduced by the period comprised between the date on which the employee is entitled, following an application to that effect, to the amount referred to in section 74.1 or 74.8 and the end of that year.

Reduction.

The service credited under this section to an employee who returns to pensionable employment during the two-year period is reduced by the period comprised between the first day on which the employee holds such employment and the end of the year.

Mandatory
supplementary salary
insurance plan.

“20. A person referred to in paragraph 1, 2 or 4 of section 1 who receives benefits under a mandatory supplementary salary insurance plan pursuant to the applicable conditions of employment shall continue to be a member of this plan in respect of the employment that gives entitlement to the benefits even if the employer has terminated the person’s employment. The person shall continue to be a member as long as the benefits are being received or would have been received had it not been for the reduction applied to them following payment of a salary as a result of a career reorientation, demotion or new classification, payment of a disability benefit under the Act respecting the Québec Pension Plan (chapter R-9), payment of an income replacement indemnity under the Act respecting industrial accidents and occupational diseases (chapter A-3.001) or the Automobile Insurance Act (chapter A-25), or payment of an employment income, until the person becomes entitled to a pension under subparagraph 2 or 3 of the first paragraph of section 44 or attains 65 years of age, whichever comes first.

Exemption.

The exemption from contributions provided for in section 18 of this Act applies and, thereafter, the insurer shall pay an amount equal to 185.19% of the contribution referred to in the first paragraph of section 42 and 100% of the contribution referred to in the second paragraph of that section.

Applicability.

The first and second paragraphs do not apply to an employee who receives benefits under a mandatory basic long-term salary insurance plan applicable to management personnel in the public and parapublic sectors.

Maternity leave. **“21.** The days and parts of a day of a maternity leave are credited to the employee without contributions for up to 130 contributory days.

Days credited. If the employee holds more than one pensionable employment in a year, the days and parts of a day of maternity leave are credited to her before any other service.

Application for credit. However, the employee must apply to the Commission to be credited with the days and parts of a day of a maternity leave in progress on 1 January 1988 or which began at the latest on 31 December 1988 while she was covered under paragraph 1 of section 1.

Accumulated sick leave. **“22.** The days and parts of a day of absence that are totally compensated out of accumulated sick leave are credited to the employee only if the contributions have been paid. This rule applies even in cases provided for in sections 18 and 21.

“§ 2. — Service under another plan

Service credited. **“23.** Subject to sections 24 and 25, the years and parts of a year of service credited to an employee and the years and parts of a year of service for which pension credit was granted to the employee under the Act respecting the Government and Public Employees Retirement Plan (chapter R-10), the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), the Act respecting the Teachers Pension Plan (chapter R-11) or the Act respecting the Civil Service Superannuation Plan (chapter R-12), must be credited under this plan on an actuarially equivalent basis established on the day following the date the employee qualifies for membership in this plan, if the contributions have not been refunded to the employee.

Actuarial value. The years and parts of a year of service are credited beginning with the most recent service, until the actuarial value of the benefits established in respect of those years and parts of a year of service under this plan reaches the actuarial value of the benefits accrued under the other pension plans concerned, without exceeding the total service credited or counted under each of the other plans.

Several pension plans. If the years and parts of a year of service are credited or counted under more than one of the pension plans referred to in the first paragraph, the total service credited or counted under each of those plans is used for retirement eligibility purposes to establish the actuarial value of the benefits accrued under each plan.

Actuarial assumptions and methods. The actuarial values of the benefits are established on the basis of actuarial assumptions and methods determined by regulation and which may vary according to the pension plans and the benefits concerned.

Service credited. **“24.** The years and parts of a year of service referred to in section 143.3, which are no longer credited under this plan to the employee referred to in section 23 by reason of section 143.8, must once again be fully credited under

this plan on the day following the date on which the employee qualifies for membership in this plan after 31 December 2004, if the contributions have not been refunded to the employee. The same applies if the employee is referred to in section 143.25.

Service credited.

“25. The years and parts of a year of service credited to the employee referred to in section 23 under this plan and the years and parts of a year of service for which pension credit was granted to the employee under this plan and that were credited under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel before 1 January 2005, under sections 143.5 and 143.9, the second paragraph of section 143.23 or the third paragraph of section 143.24 of this Act, section 115.7 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or section 149 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), as it read before 1 January 2005, must be credited once again under this plan on the day following the date the employee qualifies for membership in this plan after 31 December 2004, as though those sections had not applied. However, the years and parts of a year of service counted under this plan and for which pension credit was granted are credited in accordance with section 23.

Refund of contributions.

However, if an employee received a refund of contributions under section 41 of this Act as it read before 1 January 2005, the years and parts of a year of service referred to in the first paragraph shall be credited under this plan in proportion to the amount of the actuarial value of the benefits accrued under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel over the total amount of contributions accumulated under sections 71 to 73, as they read before 1 January 2005. The amounts are those used for the purposes of section 41.

Service credited.

The years and parts of a year of service referred to in the first and second paragraphs are credited beginning with the most recent service.

Service not credited.

“26. An employee may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of section 23 and the first paragraph of section 25 by paying to the Commission the difference between the actuarial values of the benefits resulting from those years and parts of a year of service.

Service not credited.

An employee referred to in the second paragraph of section 25 may be credited with all or part of the years and parts of a year of service not credited under this plan by paying to the Commission an amount equal to the refund referred to in the second paragraph of that section.

Service credited.

The years and parts of a year of service referred to in the first and second paragraphs are credited beginning with the most recent service.

Interest.

The amount to be paid by the employee bears interest, compounded annually, at the rates determined for each period in Schedule VII to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10), from

the first day of the month that follows the date on which the actuarial values are established to the date the application is received at the Commission and at the rate determined in Schedule VII to that Act from the day following that date to the date of the redemption proposal made by the Commission. For the purposes of the second paragraph, however, interest runs from the first day of the month during which the Commission paid the refund instead of the first day of the month following the date on which the actuarial values are established.

Provision applicable. Section 30 applies to service redeemed under this section.

Refund. **“27.** The Commission shall refund to a person who becomes subject to section 109.3 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or to section 138.2 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) any amounts paid under section 40 of this Act, as it read before 1 January 2005, to be credited with the years and parts of a year of service referred to in that section 109.3 or 138.2, with interest.

“DIVISION III

“REDEMPTION OF SERVICE IN PENSIONABLE EMPLOYMENT UNDER THIS PLAN

Period of absence without pay. **“28.** An employee who has had a period of absence without pay at a time during which pensionable employment was held under this plan may, if the employee so requests, be credited with all or part of a period of absence that was in progress on 1 January 1988 or that began after that date. If that period of absence ended after 31 December 2004, it must have consisted of more than 30 consecutive days or, in the case of a period of part-time absence without pay, of more than 20% of the regular time of a full-time employee holding similar employment.

Pensionable days credited. The employee may not be credited with fewer than 10 pensionable days during the same calendar or school year unless the number of days of absence is less than ten. In that case, the employee must be credited with all such days.

Redemption of period of absence. To redeem a period of absence, the employee must be contributing to the plan on the date the application is received by the Commission, unless the employee is not contributing to the plan under section 18 or section 21. The application must be made after the date on which the period of absence ends. However, such a period may also be redeemed if, at the end of the period, the employee is no longer contributing to the plan by reason of eligibility for a pension, death, a transfer agreement entered into under section 133 or, if the employee contributed after the period of absence, when the employee's application for redemption and application for pension are received simultaneously at the Commission.

Cessation of membership. An employee who ceases to be a member of the plan after a period of absence without pay of 30 consecutive days or less for which only part of the

amount to be withheld under section 42.0.1 has been withheld may also be credited with that part of the period of absence for which no amount has been withheld.

Restriction.

An employee who holds another pensionable employment under this plan or who holds pensionable employment under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel during a period of absence without pay may not be credited with the days and parts of a day during which that employment is held.

Cost of redemption.

“29. The amount required of the employee to pay the cost of redemption referred to in section 28 is equal to the contributions that would have been withheld under this plan from the pensionable salary that would have been received if the employee had not been absent during the period covered by the application, based on the number of days and parts of a day to be redeemed out of the number of pensionable days and the applicable annual remuneration. The contribution rate referred to in the first paragraph of section 42, in force on 1 January 1988, is used to compute the contribution that would have been withheld for a period of absence in progress on that date. However, the supplementary contribution rate applicable under the third paragraph of section 42 is the rate in force on the date the Commission receives the application for redemption.

Contribution withheld.

Despite the first paragraph, the contribution withheld for a period of absence before 1 January 2000 from an employee to whom section 5 as it read on 31 December 2004 applied during that period of absence, is the contribution established under the first paragraph of section 42, with the addition to each of the rates provided for under that paragraph of the supplementary contribution rate in force on the date the application is received, applicable under the third paragraph of that section. In the case of a period of absence after 31 December 1999 but before 1 January 2005, the contribution is established under the first and second paragraphs of section 42, with the addition to the contribution rate thus established of the supplementary contribution rate in force on the date the application is received, applicable under the third paragraph of that section.

Interest.

However, in cases where the application for redemption of a period of absence without pay is received by the Commission more than six months after the end of the period of absence, the amount required under the first or second paragraph bears interest, compounded annually, at the rates determined in Schedule VI to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10). The interest runs from the end of the sixth month following the end of the period of absence without pay until the date the Commission receives the application.

Payment of redemption cost.

“30. The amount required of the employee to pay the cost of redemption referred to in section 28 is payable either in a lump sum or in instalments over the period and at the intervals determined by the Commission.

Interest.

An amount paid in instalments bears interest, compounded annually, at the rate determined in Schedule VII to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) in force on the date the application for redemption is received at the Commission and computed from the date on which the redemption proposal made by the Commission expires.

“DIVISION IV

“REDEMPTION OF SERVICE IN PENSIONABLE EMPLOYMENT UNDER ANOTHER PLAN

“§ 1. — *General provisions*

Period of absence
without pay.

“31. An employee who has had a period of absence without pay while holding pensionable employment under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel and who ceased to be a member of one of those plans after a period of absence without pay of 30 consecutive days or less for which only part of the amount to be withheld under section 29.0.1 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or section 41.1 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) was withheld may be credited under this plan with that part of the period of absence for which no amount was withheld.

Period of absence
without pay.

“32. An employee who has had a period of absence without pay at a time while holding pensionable employment under the Civil Service Superannuation Plan, even if in this employment the employee was a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, may be credited with all or part of the period of absence if it began after 12 June 1969.

Provisions applicable.

The second, third and fifth paragraphs of section 28 apply for the purposes of this section.

Cost of redemption.

“33. The amount required of the employee to pay the cost of redemption provided for in sections 31 and 32 is equal to the contributions that would have been withheld if the employee had been a member of this plan from the pensionable salary that would have been received if the employee had not been absent during the period covered by the application, based on the number of days and parts of a day to be redeemed out of the number of pensionable days and the applicable annual remuneration. The contribution withheld for a period of absence before 1 January 2000 is the contribution determined under the first paragraph of section 42, with the addition to each of the rates provided for under that paragraph of the supplementary contribution rate in force on the date the application is received, applicable under the third paragraph of that section. However, for a period of absence that began before 1 January 1988 or was in progress on that date, the first paragraph of section 42, as it read on 1 January 1988, applies and the personal exemption and the maximum pensionable earnings referred to in that paragraph are those

in force during that period. In the case of a period of absence after 31 December 1999, the contribution is determined under the first and second paragraphs of section 42, with the addition to the contribution rate determined of the supplementary contribution rate in force on the date the application is received, applicable under the third paragraph of that section.

Interest.

The amount bears interest, compounded annually, at the rates determined in Schedule VI to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) and at an annual rate of 4% for each year or part of a year before 1973. The interest accrues from the midpoint of each year until the date on which the application for redemption is received at the Commission.

Payment of redemption cost.

The amount required of the employee to pay the cost of redemption under this section is payable in accordance with section 30.

Casual employment.

“34. An employee who has held casual employment defined by regulation under paragraph 14 of the first paragraph of section 134 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) is entitled to be credited with all or part of the service earned while in casual employment between 30 June 1973 and 1 January 1988 with a body contemplated by the Government and Public Employees Retirement Plan or with a body which, in the opinion of the Commission, would have been contemplated by the plan had it not ceased to exist. For the purposes of this paragraph, any period during which the employee was eligible for salary insurance benefits is counted as a period of service.

Service credited.

If the employee applies to have only part of that service credited, the most recent service will be credited first. Any pension credit that may have been granted under the Act respecting the Government and Public Employees Retirement Plan or the Act respecting the Pension Plan of Certain Teachers (chapter R-9.1) in respect of such service is cancelled and the sums paid to obtain the pension credit are refunded with interest, compounded annually at the rates determined in Schedule VI to the Act respecting the Government and Public Employees Retirement Plan to the date the application is received at the Commission and at the rate determined in Schedule VII to that Act from the day following that date.

Payment of redemption cost.

The amount required of the employee to pay the cost of redemption is determined in accordance with section 33. The amount is payable in accordance with section 30.

Repayment of refunded contributions.

“35. An employee who, on 1 January 1988, was a peace officer referred to in paragraph 1 of section 1 but who, on 31 December 1987, was a member of the Civil Service Superannuation Plan or an employee who, on 1 January 1992, was a manager referred to in paragraph 3 of section 1 or a person referred to in paragraph 4 of that section but who, on 31 December 1991, was a member of the Civil Service Superannuation Plan may be credited under this plan with the years and parts of a year of service for which contributions have been

refunded under the Civil Service Superannuation Plan, provided the employee repays the contributions with interest at the rate of 4% compounded annually and computed from the day of the refund.

Payment of redemption cost.

The amount required of the employee to pay the cost of redemption is payable in a lump sum or in instalments in accordance with Schedule I. The payments are withheld from the employee's pensionable salary or from any pension benefits, except a child's pension, which becomes payable under this plan.

Service to be credited.

“36. An employee is entitled to be credited with the years and parts of a year of service during which the employee was a member of the staff of a minister or of a person referred to in section 124.1 of the Act respecting the National Assembly (chapter A-23.1), provided the employee has not otherwise been credited with those years and parts of a year and any employee contributions in respect of them have not been refunded.

Interest.

To have all or part of that service credited, the employee must pay to the Commission an amount equal to the contribution that would have been required if the employee had been a member of this plan. The amount bears interest, compounded annually, at the rates determined for each period in Schedule VI to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) from the midpoint of each year until the date the application is received at the Commission and at the rate determined in Schedule VII to that Act from the day following that date to the date of the redemption proposal made by the Commission. Years and parts of a year of service are credited beginning with the most recent service.

Payment of redemption cost.

The amount required of the employee to pay the cost of redemption under this section is payable in accordance with section 30.

Member of National Assembly.

“37. An employee is entitled to be credited with the years and parts of a year of service during which the employee was a member of a pension plan that applied before 1 January 1992 to a Member of the National Assembly and in respect of which the employee obtained a refund of contributions, unless the employee has already exercised a right of redemption in respect of such years and parts of a year under a pension plan other than this plan.

Payment of redemption cost.

The amount required of the employee to pay the cost of redemption is determined in accordance with section 33. However, the pensionable salary is that of the first year in which, after having been a Member of the National Assembly, the employee was a member of this pension plan, the Teachers Pension Plan, the Civil Service Superannuation Plan or the Government and Public Employees Retirement Plan. This amount is payable in accordance with section 30.

Canadian Forces.

“38. An employee who did not pay contributions to the Civil Service Superannuation Plan, the Government and Public Employees Retirement Plan or the Pension Plan of Certain Teachers before 1 January 1987 but who began

to pay contributions to any of those plans or to the Pension Plan of Management Personnel after that date may, if an application is made within 12 months of the date on which the employee began to pay contributions to any of those plans, be credited with years and parts of a year of active service in the regular Canadian Forces or the forces levied by Canada in wartime within the meaning of the Canadian Forces Superannuation Act (Revised Statutes of Canada, 1985, chapter C-17), provided the employee is not receiving pension benefits under that Act. An employee who never paid contributions to any of those plans may purchase those years and parts of a year of active service by applying for such purchase within 12 months of the date on which the employee begins to pay contributions to this plan.

Payment of redemption cost.

The amount required of the employee to pay the cost of redemption is determined in accordance with section 33. However, the pensionable salary is that received by the employee in the regular Canadian Forces during the years and parts of a year of service to be redeemed. This amount is payable in accordance with section 30.

“§ 2. — *Maternity leave*

Civil Service
Superannuation Plan.

“**39.** A female employee may be credited with the days and parts of a day of a maternity leave in progress on 1 July 1983 or which began after that date, up to 130 contributory days, if, at the time the leave began, she was holding pensionable employment under the Civil Service Superannuation Plan, even if, while holding that employment, she was a member of the Government and Public Employees Retirement Plan, the Pension Plan of Management Personnel or the Pension Plan of Certain Teachers, provided the leave has not been otherwise credited under this plan.

Days credited.

The days and parts of a day of a maternity leave are credited under this plan without contributions by multiplying them by a factor of 0.87.

Payment of redemption cost.

The employee may be credited with the days and parts of a day not credited under the second paragraph. The amount required of the employee to pay the cost of redemption is determined in accordance with section 33. This amount is payable in accordance with section 30.

Teachers Pension Plan.

“**40.** A female employee who was granted a maternity leave while she was a member of the pension fund of officers of education established by Part VIII of the Education Act (Revised Statutes of Québec, 1964, chapter 235) or while she was a teacher within the meaning of the Teachers Pension Plan may be credited, without contributions and up to 90 contributory days, with the days of a maternity leave which was in progress on 1 July 1965 or which began after that date but ended before 1 July 1976, provided the leave has not been otherwise credited under this plan, and provided the 90-day period allows the employee to complete 95% or more of the school year in which she was granted the maternity leave.

Days credited.

A female employee who was granted a maternity leave may be credited, without contributions and up to 120 contributory days, with the days of a maternity leave that was in progress on 1 July 1976 or which began after that date but ended before 1 July 1983, provided the leave has not been otherwise credited under this plan.

Requirements.

To be credited with the days of the maternity leave, the employee referred to in the first or second paragraph is required to have contributed to the pension fund of officers of education established by Part VIII of the Education Act, the Teachers Pension Plan, the Civil Service Superannuation Plan or the Government and Public Employees Retirement Plan within 12 months preceding the beginning of the maternity leave, and to have again contributed to the Teachers Pension Plan, the Civil Service Superannuation Plan or the Government and Public Employees Retirement Plan within the two years following the year in which the maternity leave ended, even if, in the last two cases, the employee referred to in the first paragraph was not a teacher within the meaning of the Teachers Pension Plan at the time she again contributed.

Refund of contributions.

Contributions paid by the employee to redeem the maternity leave under the provisions relating to the redemption of a leave without pay are refunded without interest if the leave was redeemed while she was an employee for the purposes of the Teachers Pension Plan or the Civil Service Superannuation Plan, and the sums paid by the employee are refunded with interest if the leave was redeemed while she was an employee for the purposes of the Government and Public Employees Retirement Plan. In this last case, interest is compounded annually at the rates determined in Schedule VI to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) to the date the application is received at the Commission and at the rate determined in Schedule VII to that Act from the day following that date. However, if the period redeemed in respect of a maternity leave which ended before 1 July 1976 exceeded 100 days, the maternity leave cannot be credited without contributions and the contributions or the sums paid by the employee cannot be refunded. If the period redeemed in respect of a maternity leave which was in progress on 1 July 1976 or which began after that date exceeded the period credited under this section, the balance of the redeemed period remains credited to the account of the employee, even if it is less than 30 days.

Marriage, pregnancy or adoption.

“41. An employee who, while she was a member of the pension fund of officers of education established by Part VIII of the Education Act (Revised Statutes of Québec, 1964, chapter 235) or while she was a teacher within the meaning of the Teachers Pension Plan, ceased to be an employee for the purposes of her pension plan by reason of marriage, pregnancy or adoption may, provided, in the last case, the adoption was subsequently recognized for legal purposes by a judgment, be credited with all or part of her years of teaching prior to 1 January 1968 for which she obtained a refund of contributions, if the marriage, pregnancy or adoption occurred in the 12 months preceding or in the 24 months following the date on which she ceased to be covered by her plan.

Payment of redemption cost.

The amount required of the employee to pay the cost of redemption is determined in accordance with section 33. This amount is payable in accordance with section 30. A pension credit granted under the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) for one or more years and parts of a year is cancelled and the amounts paid to obtain the pension credit are refunded with interest, compounded annually at the rates determined in Schedule VI to that Act to the date the application is received at the Commission and at the rate determined in Schedule VII to that Act from the day following that date.

“§ 3. — Paid training period

Pension credit.

“41.1. An employee is entitled to pension credit for the years and parts of a year of past service as a paid trainee, by having such years and parts of a year counted under the plan.

Paid trainee.

The categories of employees and the rules, terms and conditions applicable to have years and parts of a year of past service as a paid trainee counted, the years and parts of a year of service which may be counted and their number, which may vary with the category of employees, are determined by regulation under subparagraph 11.3 of the first paragraph of section 134 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10).

Years of service added.

“41.2. The years and parts of a year of service for which pension credit is granted under this subdivision are added, solely for the purposes of pension eligibility, to the years of service credited to an employee under section 15.

Provisions applicable.

“41.3. Sections 88, 90 to 93, the second paragraph of section 95 and sections 96 and 97 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) apply to the pension credit obtained under section 41.1, with the necessary modifications.

Tariff.

“41.4. The amount that an employee must pay to be entitled to pension credit is determined using the tariff established under section 95 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10).

Consolidated revenue fund.

The amounts paid by an employee to acquire pension credit are paid into the consolidated revenue fund.

Death of employee.

“41.5. The years and parts of a year of service for which pension credit is granted are added to the years of service credited to the employee to determine, in the event of death, the entitlement of the spouse to a pension even if the employee died before completing all the payments computed in accordance with section 96 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10).

Provisions applicable.	“41.6. Sections 73.1 to 73.3 and 73.5 to 73.7 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) apply, with the necessary modifications, to an employee who has acquired pension credit under this subdivision. Any reference to a provision of that Act is a reference to the corresponding provision of this Act.
Limits.	The pension amounts added under the first paragraph must be within the limits established by regulation. If not, the amounts are adjusted in the manner prescribed by the regulation. <i>“§ 4. — Employees who were members of the pension plan of the Sûreté du Québec</i>
Service credited.	“41.7. The years and parts of a year of service credited to an employee under the pension plan of the Sûreté du Québec (C.T. 181151 dated 18 August 1992) may be credited under this plan on an actuarially equivalent basis if the employee qualifies for membership in this plan. The employee must no longer have been an employee for the purposes of the pension plan of the Sûreté du Québec for at least 210 days and not have received a refund of contributions nor be a pensioner of that plan. However, the time limit does not apply if the employee simultaneously submits an application for benefits and an application for a transfer under this plan.
Actuarial value.	The years and parts of a year of service are credited, beginning with the most recent service, until the actuarial value of the benefits established in respect of those years and parts of a year of service under this plan reaches the actuarial value of the benefits accrued under the pension plan of the Sûreté du Québec, without exceeding the service credited or counted under that plan.
Actuarial assumptions and methods.	The actuarial values of the benefits are determined on the date the Commission receives the transfer application and on the basis of actuarial assumptions and methods determined by regulation.
Service not credited.	“41.8. The employee may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of section 41.7 by paying to the Commission an amount equal to the difference between the actuarial values concerned by these years and parts of a year of service.
Service credited.	The years and parts of a year of service referred to in the first paragraph are credited, beginning with the most recent service.
Interest.	The amount required of the employee referred to in the first paragraph bears interest, compounded annually, at the rates determined for each period in Schedule VII to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) from the first day of the month following the date on which the actuarial values are established to the date the transfer application is received at the Commission, and at the rate determined in Schedule VII from the day following the latter date to the date of the redemption proposal made by the Commission.

- Payment and interest. The amount determined under the third paragraph is payable in a lump sum or in instalments over the period and at the times determined by the Commission. If it is paid in instalments, it bears interest, compounded annually, at the rate determined in Schedule VII to the Act respecting the Government and Public Employees Retirement Plan in force on the date the application is received at the Commission, computed from the date on which the redemption proposal expires.
- Refund. **“41.9.** The Commission shall refund to a person whose years and parts of a year of service credited under this plan have been transferred to the pension plan of the Sûreté du Québec on an actuarially equivalent basis, the amount, if any, by which the total amount of contributions accrued with interest under sections 71 and 73 exceeds the actuarial value of the benefits accrued under that pension plan.
- “§ 5. — Special provisions*
- Act applicable. **“41.10.** Despite sections 31, 32, 34 and 39 to 41.6 of this Act, the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) applies to an application for the redemption of years and parts of a year of service in pensionable employment under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel by an employee who is not qualified under this plan and who simultaneously holds pensionable employment under this plan and pensionable employment under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel.
- Provisions applicable. **“41.11.** Division III of this chapter applies to an employee or person referred to in section 8.7 or 8.8 who is entitled to a pension under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel.
- Interpretation. With respect to the employee or person referred to in section 8.7 or 8.8, the eligibility for a pension provided for in the third paragraph of section 28 refers to the pension accrued under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel.
- Transfer. **“41.12.** The Commission must transfer to a locked-in retirement account, for the employee or person referred to in section 8.7 or 8.8, the actuarial value of the additional benefits referred to in section 66.1 and the actuarial value of the supplementary benefits referred to in section 66.4, determined on the date membership in this plan ceased, established in accordance with section 8.7 or 8.8.
- Actuarial assumptions and methods. The actuarial values of the benefits are established on the basis of actuarial assumptions and methods determined by regulation, which may vary with the benefits concerned.

- Interest. The amount transferred under the first paragraph bears interest, compounded annually, at the rates determined for each period in Schedule VI to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10), computed from the date on which the employee ceases to be a member of the plan until the date the amount is transferred. In the event of death, the amount accrued with interest is paid to the spouse or, if there is no spouse, to the successors.
- Limit. The amount to be transferred may not exceed the limit established under the Income Tax Act (Revised Statutes of Canada, 1985, chapter 1, 5th Supplement). If the amount exceeds the limit, the excess amount is refunded to the employee. In the event of death, the excess amount is paid to the spouse or, if there is no spouse, to the successors.
- “locked-in retirement account”. For the purposes of this Act, the expression “locked-in retirement account” has the meaning assigned it by the Regulation respecting supplemental pension plans approved by Order in Council 1158-90 (1990, G.O. 2, 2318).
- Refund. **“41.13.** The Commission shall refund to an employee or a person referred to in section 8.7 or 8.8 whose years and parts of a year of service credited under this plan have been transferred under section 109.2 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or under section 138.1 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), on an actuarially equivalent basis established on the date determined under section 8.7 or 8.8, on which the employee’s or person’s membership in the plan ended, any amount by which the total amount of contributions accumulated with interest under sections 71 to 73, reduced by the actuarial value of the additional or supplementary benefits established in accordance with the first and second paragraphs of section 41.12 of this Act, exceeds the actuarial value of the benefits accrued under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel.
- Balance of redemption costs. **“41.14.** The employee who qualifies for membership in this plan while redeeming service under the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) must pay the balance of the redemption costs within 30 days of receiving notice from the Commission to that effect. If the employee does not pay the balance within that time limit, the service is credited under this plan in accordance with section 23, but in proportion to the sums paid by the employee, excluding interest, on the total redemption costs.”
- c. R-9.2, s. 42, am. **7.** Section 42 of the said Act is amended
- (1) by replacing “employment, is not an employee for the purposes of this plan, and except for an employee referred to in section 119, from, in the latter case, the date on which the employee’s election not to participate applies” in the second, third and fourth lines of the first paragraph by “employment under this plan, under the Government and Public Employees Retirement Plan or

under the Pension Plan of Management Personnel, is not an employee within the meaning of this plan”;

(2) by replacing the third paragraph by the following paragraphs:

Contribution rate.	“In addition, the employer shall, in respect of the employee who has qualified for membership in this plan and holds pensionable employment under the second paragraph of section 6, add to the contribution rate determined under the first and second paragraphs an additional contribution rate determined by regulation.
Maximum amount.	The amount withheld annually may not exceed 9% of the pensionable salary paid to the employee.”
c. R-9.2, s. 42.0.1, added.	8. The said Act is amended by inserting the following section after section 42:
Amount withheld.	“42.0.1. The employer shall also, in accordance with section 42, withhold an amount equal to the amount the employer would have withheld from the employee’s pensionable salary if the employee had not been absent without pay for a period of 30 consecutive days or less or for a part-time period corresponding to 20% or less of the regular time of a full-time employee holding similar employment.
Terms and conditions.	The terms and conditions applicable to the collection of the amount withheld are determined by the Commission.
Exception.	However, the first paragraph does not apply to an employee who, under the applicable conditions of employment, is entitled to participate in a time management program providing that the employee is not required to pay contributions to the plan and that such contributions are to be borne by the employer.”
c. R-9.2, s. 42.2, added.	9. The said Act is amended by inserting the following section after section 42.1:
Employer’s contribution.	“42.2. The employer referred to in the first paragraph of section 31 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or the first paragraph of section 44 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) shall pay the employer’s contribution at the same time as the employee contributions to the plan.”
c. R-9.2, s. 43.2, added.	10. The said Act is amended by inserting the following section after section 43.1:
Qualifying employer premiums.	“43.2. The amounts paid under sections 42.2 to 43.1 must be qualifying employer premiums within the meaning of the Income Tax Act (Revised Statutes of Canada, 1985, chapter 1, 5th Supplement).”

- c. R-9.2, s. 44, am. **11.** Section 44 of the said Act is amended by replacing the third paragraph by the following paragraph:
- Applicability. “Subparagraph 5 of the first paragraph applies only to employees referred to in paragraph 1 or 2 of section 1 or to employees, except middle managers, referred to in paragraph 4 of that section, for any period of absence without pay or disability giving entitlement to the application of section 18, in progress on the date of coming into force of a mandatory supplementary salary insurance plan referred to in section 20.”
- c. R-9.2, s. 46, am. **12.** Section 46 of the said Act is amended by replacing “sections 18, 31, 32 and 32.1” in the third line of the third paragraph by “section 21, 39 or 40”.
- c. R-9.2, s. 46.1, am. **13.** Section 46.1 of the said Act is amended

Interest.

The transferred sums bear interest from the midpoint of the year in which they were paid until the date of the transfer, except sums transferred under section 102 of the Act respecting the Government and Public Employees Retirement Plan which bear interest from the date of the transfer. Interest is compounded annually at the rates determined, for each period, in Schedule VI to that Act.

Transfers.

“136. Subject to section 139, the Commission shall transfer to the consolidated revenue fund, with respect to the years and parts of a year of service credited to the employee under section 23, the actuarial value of any benefits accrued to the employee under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, in respect of the years and parts of a year of service for which contributions or sums paid by the employee have been deposited in the Caisse de dépôt et placement du Québec without, however, exceeding the actuarial value of the equivalent benefits to which the employee is entitled under this plan. The actuarial values are those established under section 23 in respect of those years and parts of a year of service.

Interest.

Deposit.

“137. The Commission must deposit in the Caisse de dépôt et placement du Québec the actuarial value of the benefits accrued under this plan, with respect to the years and parts of a year of service that were credited to an

employee under this plan and transferred under section 109.2 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or section 138.1 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), less the amount established under the first and second paragraphs of section 41.12 without, however, exceeding the actuarial value of the equivalent benefits to which the employee is entitled under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel. The actuarial values are those established under that section 109.2 or 138.1.

Interest.

The sums transferred under the first paragraph bear interest, compounded annually, at the rates determined for each period in Schedule VI to the Act respecting the Government and Public Employees Retirement Plan or section 406 of the Act respecting the Pension Plan of Management Personnel and Schedule VII to that Act, from the date the employee's or person's membership, established under section 8.7 or 8.8 of this Act, is deemed to have ceased until the date on which the sums are deposited in the Caisse de dépôt et placement du Québec. The sums are paid to the Caisse, into the funds and in the proportions determined under the second paragraph of section 130 or, as the case may be, section 131.1 of the Act respecting the Government and Public Employees Retirement Plan or under the second paragraph of section 180 or, as the case may be, section 181 of the Act respecting the Pension Plan of Management Personnel.

Date of membership.

Provision applicable.

The second paragraph of section 137 applies to the amount determined under the first paragraph of this section.

Cancellation.

“139. When the transfer of years and parts of a year of service is cancelled under section 25, the Commission must transfer the sums that were initially deposited in the Caisse de dépôt et placement du Québec under sections 138 and 138.1 of this Act, as they read before 1 January 2005, to the consolidated revenue fund as though sections 138 and 138.1 had not applied. These sums bear interest in accordance with the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel from the date they are deposited in the Caisse de dépôt et placement du Québec until the date they are transferred to the consolidated revenue fund.

Cancellation.

When the transfer of years and parts of a year of service is cancelled under section 109.3 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or section 138.2 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), the Commission must transfer the sums that were initially deposited in the consolidated revenue fund under sections 135 to 136.1, as they read before 1 January 2005, to the Caisse de dépôt et placement du Québec as though sections 135 to 136.1 had not applied. Furthermore, the years and parts of a year of service prior to 1 January 1988 or 1 January 1992 credited under this plan in accordance with the first paragraph of section 39, as it read before 1 January 2005, must be credited in full under this plan to the employee or person referred to in the first paragraph unless the contributions have been refunded.

“DIVISION III

“SUCCESSIVE MEMBERSHIP

Service credited. **“143.4.** In respect of an employee or a person, who is not referred to in section 143.3, who was a member of the Government and Public Employees

Retirement Plan, the Pension Plan of Management Personnel, the Teachers Pension Plan or the Civil Service Superannuation Plan and who subsequently became a member of this plan before 1 January 2005, the years and parts of a year of service referred to in the second paragraph of section 22 and in section 23, as they read before 1 January 2005, must be credited under this plan in accordance with section 23 on the date the employee or person began contributing to this plan.

Rates of interest.

The first paragraph of section 40, as it read before 1 January 2005, applies to the employee. However, with respect to a redemption proposal sent by the Commission after 31 December 2004, the rates of interest that apply are:

(1) 5.34% for each year and part of a year before 1 June 2001;

(2) the rates determined for each period in Schedule VII to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) from 1 June 2001 to 31 December 2006;

(3) the rates determined for each period in Schedule VI to that Act from 1 January 2007 until the date of the redemption proposal sent by the Commission.

Service credited.

The years and parts of a year of service referred to in the second paragraph are credited beginning with the most recent service.

Payment and interest.

The amount required of the employee to pay the cost of the redemption is payable either in a lump sum or in instalments over the period and at the intervals determined by the Commission. An amount paid in instalments bears interest, compounded annually, at the rate determined in Schedule VII to the Act respecting the Government and Public Employees Retirement Plan in force on the date the Commission receives the application for redemption and computed from the date on which the redemption proposal made by the Commission expires.

Provision applicable.

Section 115.9 of the Act respecting the Government and Public Employees Retirement Plan or section 151 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), as it read before 1 January 2005, applies as necessary.

Service credited.

“143.5. In respect of a person who was a member of this plan and who subsequently became a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel before 1 January 2005, years and parts of a year of service referred to in section 115.7 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or section 149 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), as it read before 1 January 2005, and the years and parts of a year of service for which pension credit was granted to the person under this plan, must be credited under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, in accordance with that section 115.7 or 149.

- Provisions applicable. The first paragraph of section 115.8 of the Act respecting the Government and Public Employees Retirement Plan or the first paragraph of section 150 of the Act respecting the Pension Plan of Management Personnel, as it read before 1 January 2005, and the third and fourth paragraphs of section 143.4 of this Act apply to the person who is a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel.
- Provision applicable. Section 41, as it read before 1 January 2005, applies as necessary.
- Service credited. **“143.6.** In respect of an employee or a person who was a member of this plan and who subsequently became a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, and who, before 1 January 2005, again became a member of this plan, the years and parts of a year of service credited under this plan and the years and parts of a year of service for which pension credit was granted under this plan and which were credited under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel before 1 January 2005 under section 115.7 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or section 149 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), as it read before 1 January 2005, must be credited again under this plan as though that section 115.7 or 149 had not applied. However, the years and parts of a year of service counted under this plan and for which pension credit was granted are credited to the employee or person on that date in accordance with section 23 of this Act as it read before 1 January 2005.
- Refund of contributions. However, if the employee or person received a refund of contributions under section 41, as it read before 1 January 2005, the years and parts of a year of service are credited under this plan in proportion to the amount of the actuarial value of the benefits accrued under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel over the total amount of contributions accumulated with interest under sections 71 to 73, as they read before 1 January 2005. These amounts are those used for the purposes of section 41.
- Payment and interest. The employee referred to in the second paragraph may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of that second paragraph by paying to the Commission an amount equal to the refund paid under section 41. The amount bears interest, compounded annually, at the rates determined for each period under the second paragraph of section 143.4 from the date on which the Commission paid the refund until the date of the redemption proposal made by the Commission. The third and fourth paragraphs of section 143.4 apply.
- Refund. The Commission refunds the employee or person any sums paid under section 115.8 of the Act respecting the Government and Public Employees Retirement Plan or section 150 of the Act respecting the Pension Plan of Management Personnel, as it read before 1 January 2005, with interest computed in accordance with the applicable pension plan.

Service credited.

“143.7. In respect of an employee or a person referred to in section 143.6, the years and parts of a year of service credited to the employee under the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) or the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) and the years and parts of a year of service for which pension credit was granted under the latter Act must be credited under this plan in accordance with the first paragraph of section 143.4. However, these years and parts of a year of service are credited on the last date on which the employee or person once again began contributing to this plan before 1 January 2005.

Service credited.

However, in respect of an employee or a person referred to in sections 143.3 and 143.8 and who subsequently becomes an employee or person referred to in section 143.6, the years and parts of a year of service credited under the Act respecting the Pension Plan of Management Personnel or the Act respecting the Government and Public Employees Retirement Plan or counted under the latter Act, must again be credited under this plan in accordance with section 143.3 if they are referred to in that section, or in accordance with the first paragraph of this section if they are not referred to in section 143.3.

Provisions applicable.

Furthermore, the second, third and fourth paragraphs of section 143.4 and, where necessary, the fifth paragraph of that section apply.

Service credited.

“143.8. In respect of a person who was a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, who subsequently became a member of this plan and who, before 1 January 2005, again became a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, the years and parts of a year of service credited under the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) or the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) and the years and parts of a year of service for which pension credit was granted under the latter Act before 1 January 2005 and which were credited under this plan under sections 22 and 23, as they read before 1 January 2005, or section 143.3 or 143.4 of this Act must be once again credited under the Pension Plan of Management Personnel or the Government and Public Employees Retirement Plan or, as the case may be, counted again under the latter plan, as though those sections had not applied.

Refund of contributions.

However, if the person received a refund of contributions under section 115.9 of the Act respecting the Government and Public Employees Retirement Plan or section 151 of the Act respecting the Pension Plan of Management Personnel, as it read before 1 January 2005, the years and parts of a year of service are credited under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, in proportion to the amount of the actuarial value of benefits accrued under this plan over the total amount of contributions accumulated under sections 50, 55, 218 and 219 of the Act respecting the Government and Public Employees Retirement Plan or sections 73, 77, 205, 206 and 406 of the Act respecting the Pension Plan of Management Personnel, as they read before 1 January 2005. The amounts are those used for the purposes of that section 115.9 or 151.

- Payment. The person referred to in the second paragraph who was a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of that second paragraph by paying to the Commission an amount equal to the refund. The second and third paragraphs of section 143.5 apply. However, the interest on the amount is computed from the date on which the Commission paid the refund.
- Refund and interest. The Commission refunds to the person any sums paid under section 40, as it read before 1 January 2005. The amounts bear interest computed in accordance with sections 71 to 73.
- Service credited. **“143.9.** In respect of a person referred to in section 143.8, the years and parts of a year of service credited under this plan and the years and parts of a year of service for which pension credit was granted under this plan must be credited under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, in accordance with the first paragraph of section 143.5. However, these years and parts of a year of service are credited on the last date on which the person once again began contributing to the Government and Public Employees Retirement Plan or to the Pension Plan of Management Personnel.
- Provisions applicable. Furthermore, the second and, where necessary, the third paragraph of section 143.5 apply.
- Service credited. **“143.10.** In respect of a person who was a member of the Teachers Pension Plan or the Civil Service Superannuation Plan and who subsequently became a member of this plan and who, before 1 January 2005, became a member of the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, the years and parts of a year of service credited under this plan must be credited under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel in accordance with the first paragraph of section 143.5.
- Provisions applicable. Furthermore, the second and, where necessary, the third paragraph of section 143.5 apply.
- Provisions applicable. **“143.11.** Sections 135 to 138.1, as they read before 1 January 2005, apply, with the necessary modifications, to any sums to be transferred under sections 143.3 to 143.10.
- Cancellation. When the transfer of years and parts of a year of service is cancelled under section 143.6, the Commission must transfer the sums that were initially deposited in the Caisse de dépôt et placement du Québec under sections 138 and 138.1, as they read before 1 January 2005, to the consolidated revenue fund as though sections 138 and 138.1 had not applied. The sums bear interest computed in accordance with the Government and Public Employees

Retirement Plan or the Pension Plan of Management Personnel from the date they were deposited in the Caisse de dépôt et placement du Québec until the date of transfer to the consolidated revenue fund.

Cancellation.

When the transfer of years and parts of a year of service is cancelled under section 143.8, the Commission must transfer the sums that were initially deposited in the consolidated revenue fund under sections 135 to 136.1, as they read before 1 January 2005, to the Caisse de dépôt et placement du Québec as though sections 135 and 136 or 136.1 had not applied. The sums bear interest computed in accordance with this plan from the date they were transferred to the consolidated revenue fund until the date they were deposited in the Caisse de dépôt et placement du Québec.

Refund.

In the case of a refund under the fourth paragraph of section 143.6, the Commission must take the sums out of the relevant funds of the Caisse de dépôt et placement du Québec according to the procedure for the payment of benefits contained in Division II of Chapter IX of Title I of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or Division II of Chapter X of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1). In the case of a refund under the fourth paragraph of section 143.8, the Commission must take the sums out of the consolidated revenue fund.

Provisions applicable.

“143.12. Section 48 of this Act, section 36.2 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) and section 54 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), as they read before 1 January 2005, continue to apply with respect to the years and parts of a year of service contemplated under this division.

“DIVISION IV

“SIMULTANEOUS MEMBERSHIP

Date of qualification.

“143.13. The date on which an employee or a person who simultaneously holds or held pensionable employment under this plan and under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel qualifies for membership in this plan is 31 December of the year during which the employee or person accumulated the service required. If, in respect of an employee or a person referred to in section 143.3, this date is prior to the date the employee or person began contributing to this plan, that employee or person becomes qualified on 31 December of the year during which contribution to that plan began.

Maximum service credited.

“143.14. If, on 31 December 2004, an employee simultaneously holds, or if, before 1 January 2005, an employee or a person simultaneously held, pensionable employment under this plan and under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, the total service credited under this plan and under the Government

and Public Employees Retirement Plan or the Pension Plan of Management Personnel for each year prior to 1 January 2005 during which the employee or the person simultaneously held pensionable employment or, if the employee or the person qualifies for membership, for the year the employee or person qualified for membership and for each year prior to that year during which the employee or person simultaneously held such employments, may not exceed one year.

Provisions applicable. Sections 15 and 17 of this Act, section 20.2 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) and section 33.1 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) apply with respect to each year referred to in the first paragraph.

Service credited. **“143.15.** Subject to section 143.24, the years and parts of a year of service referred to in section 143.14 that were credited to the employee or person before 1 January 2005 under the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) or the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or the years and parts of a year of service for which pension credit was granted under the latter Act, before the date on which the employee qualified for membership in this plan, must be credited under this plan in accordance with the second paragraph of section 22 and with section 23, as they read before 1 January 2005, on the day following the date on which the employee or person qualified for membership in this plan.

Service not credited. An employee may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of the first paragraph. The second, third and fourth paragraphs and, where necessary, the fifth paragraph of section 143.4 apply.

Service credited. The years and parts of a year of service for which pension credit was granted to an employee or person under the Act respecting the Government and Public Employees Retirement Plan after the date on which the employee or person qualified for membership under this plan, but before 1 January 2005, must be credited under this plan on an actuarially equivalent basis established in accordance with section 23, as it read before 1 January 2005, on the day following the date on which the employee or person qualified for membership in this plan.

Service credited. **“143.16.** The years and parts of a year of service that were credited while an employee or a person held pensionable employment under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel after the date the employee or person qualified for membership in this plan must be credited under this plan, if the employee or person did not receive a refund of contributions, in proportion to the amount of contributions paid under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel over the amount of contributions that would have been withheld under this Act if service had been accumulated, for each of the years and parts of a year concerned, except those

credited under sections 22 and 221.1 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or sections 36, 123 and 125 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), as they read before 1 January 2005. The years and parts of a year of service are credited beginning with the most recent service.

Contributions.

The contributions that would have been withheld if the employee or person had been a member of this plan are, for the years prior to 1 January 2000, those determined under the first paragraph of section 42 by adding to each of the rates provided for in that paragraph, the additional contribution rate in force on 1 January 2005 applicable under the third paragraph of that section. With respect to the years after 31 December 1999 but prior to 1 January 2005, the contributions are determined under the first and second paragraphs of section 42 by adding to the contribution rate thus established, the additional contribution rate in force on 1 January 2005 applicable under the third paragraph of that section.

Contributions.

For the purposes of this section, contributions paid under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel include the amounts paid by the employee and the amounts from which the employee was exempt for the years and parts of a year concerned, but do not include contributions deducted in excess. These contributions and those that would have been withheld under this plan also include accrued interest, compounded annually, at the rates determined for each period in Schedule VI to the Act respecting the Government and Public Employees Retirement Plan with respect to contributions paid under that Act and to those withheld under this Act, and under section 406 of the Act respecting the Pension Plan of Management Personnel and in Schedule VII to that Act with respect to contributions paid under that Act. Interest is computed from the midpoint of each year and part of a year concerned until 31 December 2004.

Service not credited.

“143.17. An employee may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of the first paragraph of section 143.16. The amount required of the employee to pay the cost of redemption is equal to the contributions that would have been withheld in accordance with the second paragraph of that section. The additional contribution rate is that in force on the date the Commission receives the application for redemption.

Interest.

The amount bears interest, compounded annually, at the rates determined for each period in the second paragraph of section 143.4. The interest accrues from the midpoint of each year and part of a year concerned until the date of the redemption proposal sent by the Commission. The third and fourth paragraphs of section 143.4 apply to the redemption referred to in this section.

Provisions applicable.

“143.18. The second paragraph of section 6 and sections 14, 16 and 42 apply for each year and part of a year of service credited by reason of sections 143.16 and 143.17 that were subsequent to the year during which the employee or person qualified for membership in this plan and during which

the employee or person held more than one pensionable employment simultaneously under this plan after the date of qualification for membership but before 1 January 2005.

Basic annual salary.

“143.19. The Government may, by regulation, establish the procedures for the computation of the basic annual salary for the years 1988 to 1992 that must be considered when the total service credited is reduced under section 143.18.

Balance of contributions.

“143.20. For the purposes of this division, in respect of the employee or person who qualified for membership in this plan before 1 January 2005, the Commission may, on 31 December 2004, offset the amount of contributions paid in excess under this plan, the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel against, in order, the amounts that may be paid under section 143.17 and which may be reduced under section 143.18, and the amounts that may be paid under the second paragraph of section 143.15. These amounts and contributions accrue with interest in accordance with the pension plan concerned until 31 December 2004. The Commission reimburses to the employee or person, in accordance with the pension plan concerned, any balance of contributions established on 31 December 2004, with interest at the rate determined in Schedule VI to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or Schedule VII to the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), depending on whether the balance of contributions is paid under this plan, the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel. Sections 151, 218 and 219 of the Act respecting the Government and Public Employees Retirement Plan and sections 204, 205 and 406 of the Act respecting the Pension Plan of Management Personnel apply.

Provisions applicable.

Sections 191 to 191.2 of the Act respecting the Government and Public Employees Retirement Plan apply, without an application being required, only to an employee who did not qualify for membership in this plan before 1 January 2005.

Presumption.

However, for the purposes of section 151 of the Act respecting the Government and Public Employees Retirement Plan, the application is deemed to have been received at the Commission on 1 July 2006.

Provisions applicable.

“143.21. Sections 135 to 136.1, as they read before 1 January 2005, apply, with the necessary modifications, to any sums to be transferred under sections 143.3 and 143.15.

Transfers.

Sums paid to the Caisse de dépôt et placement du Québec under the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) with respect to the years and parts of a year of service credited to the employee under the first paragraph of section 143.16 are transferred to the consolidated revenue fund, except the employer's

contributions paid under sections 31 to 31.2 of the Act respecting the Government and Public Employees Retirement Plan or sections 44 to 46 of the Act respecting the Pension Plan of Management Personnel. Sections 135 to 136.1, as they read before 1 January 2005, apply to the sums transferred under this paragraph.

“DIVISION V

“SPECIAL PROVISIONS

Provisions applicable.

“143.22. In respect of the employee or person to whom Divisions III and IV of this chapter both apply, Division III applies before Division IV if successive membership occurs before simultaneous membership. If successive membership occurs after simultaneous membership, only Division IV applies.

Membership.

“143.23. A person qualified for membership in this plan under section 143.2 on 1 January 2005, who held pensionable employment under this plan and pensionable employment under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel in a non-simultaneous manner and who, on 31 December 2004, held pensionable employment under one of those two last plans, shall continue to be a member of the latter plan from 1 January 2005, unless the person elects to become a member of this plan by sending a notice to that effect to the Commission before 30 June 2006.

Service credited.

The years and parts of a year of service credited under this plan and those for which pension credit was granted to the person referred to in the first paragraph who did not elect to become a member of this plan must be credited under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel, in accordance with the first paragraph of section 143.5 or 143.9. The second and third paragraphs of this section apply.

Date of membership.

If the person referred to in the first paragraph elects to become a member of this plan, membership begins on 1 January 2005. Section 143.3, 143.4, 143.6 or 143.7 applies on that date.

Membership.

“143.24. A person qualified for membership in this plan under section 143.13 before 1 January 2005, who simultaneously held pensionable employment under this plan and pensionable employment under the Government and Public Employees Retirement Plan or under the Pension Plan of Management Personnel and who, on 31 December 2004, held pensionable employment under only one of those two last plans, shall continue to be a member of the latter plan from the day following the date of qualification for membership in this plan, unless the person elects to become a member of this plan by sending a notice to that effect to the Commission before 30 June 2006.

Membership.

A person qualified for membership in this plan who simultaneously held pensionable employment under this plan and under the Government and Public Employees Retirement Plan or the Pension Plan of Management

Personnel and who, subsequently, but before 1 January 2005, held pensionable employment only under one of the latter two plans, is a member of that plan from the day following the date of qualification for membership in this plan for as long as the person held that employment or is once again a member of that plan if pensionable employment was again held under one of those two plans after the date of qualification but before 1 January 2005, unless the person elects to become a member of this plan by sending a notice to that effect to the Commission before 30 June 2006.

Service credited.

The years and parts of a year of service credited under this plan and those for which pension credit was granted to the person referred to in the first or second paragraph who did not elect to become a member of this plan must be credited under the Pension Plan of Management Personnel or the Government and Public Employees Retirement Plan in accordance with the first paragraph of section 143.5. However, they are credited on the last date on which the person once again began contributing only to one of those plans. The second and third paragraphs of section 143.5 apply.

Date of membership.

If the person referred to in the first or second paragraph elects to become a member of this plan, membership begins from the day following the date on which the person qualified for membership under section 143.13. Sections 143.15 to 143.21 apply on that date.

Qualification for membership.

“143.25. The employee referred to in the second paragraph of section 143.23 or the third paragraph of section 143.24 and who again holds pensionable employment under the first paragraph of section 6 after 31 December 2004 qualifies once again for membership in this plan on the first day that employment is held.

Actuarial assumptions and methods.

“143.26. For the purposes of this chapter, the actuarial assumptions and methods used to establish the actuarial value of the benefits are those determined in section 23, section 115.7 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or section 149 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), as it read before 1 January 2005.

Provision applicable.

“143.27. Section 179 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) applies to an application for the review of a decision on years of service and pensionable salary, with respect to the years and parts of a year of service credited or counted under this chapter to the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel.

Cost of redemption.

“143.28. The employee qualified for membership in this plan, referred to in Division IV, and who, on 31 December 2004, was redeeming years of service under the Act respecting the Government and Public Employees Retirement Plan (chapter R-10), the Act respecting the Teachers Pension Plan (chapter R-11), the Act respecting the Civil Service Superannuation Plan (chapter R-12) or the Act respecting the Pension Plan of Management Personnel

(chapter R-12.1) may continue to pay the cost of the redemption under the conditions provided for in this Act. The years and parts of a year of service are then credited under this plan in accordance with section 143.15 of this Act in proportion, however, to the amounts paid, excluding interest, over the cost of redemption. However, the sums paid by the employee after the date on which those referred to in the first paragraph of section 143.21 are transferred to the consolidated revenue fund are deposited in that fund.

Special provisions.

“143.29. The Government may, by regulation, determine special provisions applicable to an employee who, as of 1 January 2005, is a member of this plan and the Pension Plan of Certain Teachers successively or simultaneously, or to a person who, before that date, was a member of this plan and the Pension Plan of Certain Teachers successively or simultaneously. These provisions may be different from those of this Act, except those provided for under Chapter V.1, from those of the Act respecting the Pension Plan of Certain Teachers (chapter R-9.1), except those provided for under Chapter VI.1, and from those of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10), except those provided for in Chapter VII.1 of Title I.

Special provisions.

The Government may, by regulation, determine special provisions applicable to an employee or a person who, as of 1 January 2005, is a member of this plan and the Teachers Pension Plan or the Civil Service Superannuation Plan successively or simultaneously, or to a person who, before that date, was a member of this plan and the Teachers Pension Plan or the Civil Service Superannuation Plan successively or simultaneously, other than the employee or person referred to in section 8.8. These provisions may be different from those of this Act, except those provided for under Chapter V.1, from those of the Act respecting the Teachers Pension Plan (chapter R-11), except those provided for under Chapter V.1, from those of the Act respecting the Civil Service Superannuation Plan (chapter R-12), except those provided for under Division III.1, and from those of the Act respecting the Government and Public Employees Retirement Plan, except those provided for in Chapter VII.1 of Title I.

Effect.

Regulations made under this section may have effect from 1 January 2005.”

(1) under an order, a judgment of a court of competent jurisdiction, or a written agreement on or after the breakdown of a marriage or civil union or of a situation similar to a conjugal relationship between an employee and the

employee's spouse or former spouse, in settlement of rights arising out of the marriage or civil union or situation;

The interest rate applicable to the redemption cost paid in instalments is the rate provided for in Schedule VII to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10).

Provision not applicable.

"147.6. Section 30 does not apply to an application for redemption received at the Commission before 31 December 2004 if Schedule VI to the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) applied on the date of receipt.

Provision applicable.

"147.7. Section 102, as it read before 1 January 2005, continues to apply in the case of an employee or a pensioner who died before that date.

Provisions applicable.

"147.8. Chapter V, as it read before 1 January 2005, continues to apply with respect to a pensioner referred to in that chapter who held pensionable employment under this plan or pensionable employment under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel on that date and who, on 1 January 2005, continues to hold that employment.

Presumption.

A pensioner who holds pensionable employment under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel on 31 December 2004 or who held such employment before 1 January 2005 and who, at the time that employment ceased, was entitled to a pension under this plan is deemed, if the pensioner did not apply for benefits under this plan before again holding such employment, to retire in accordance with section 40 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10) or section 59 of the Act respecting the Pension Plan of Management Personnel (chapter R-12.1), unless the pensioner is entitled to a pension with actuarial reduction. In that case, the pensioner is deemed to retire on the first day such employment is again held.

Refund of contributions.

When a pensioner is entitled to a refund of contributions under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel at the time pensionable employment ceases, the refund becomes payable on the first day on which such employment is again held despite sections 49 and 49.1 of the Act respecting the Government and Public

Employees Retirement Plan or sections 71 and 72 of the Act respecting the Pension Plan of Management Personnel. The pensioner entitled to a deferred pension under the Government and Public Employees Retirement Plan or the Pension Plan of Management Personnel is a member of that plan as long as pensionable employment is again held under the plan.

Cost of redemption.

“147.9. An employee who was redeeming years of service on 31 December 2004 under sections 25, 27, 29 to 33, 35, 37 or 40, as they read before 1 January 2005, continues to pay the cost of the redemption under conditions in force on that date, and sections 22, 23 and 39, as they read before 1 January 2005, continue to apply for the years redeemed.

Employee contributions.

“147.10. Additional employee contributions and the sums paid under the third paragraph of section 42 are not considered in the accounting of employee contributions.

“DIVISION III.2

“EMPLOYEE WHO WAS A MEMBER OF THE PENSION PLAN OF PEACE OFFICERS IN CORRECTIONAL SERVICES

Service credited. **“109.2.** Subject to section 109.3, the years and parts of a year of service credited to an employee or a person referred to in section 8.7 or 8.8 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2) under the Pension Plan of Peace Officers in Correctional Services, the Teachers Pension Plan or the Civil Service Superannuation Plan and the years and parts of a year of service for which pension credit was granted under that Act, the Act respecting the Teachers Pension Plan (chapter R-11) or the Act respecting the Civil Service Superannuation Plan (chapter R-12) must be credited under this plan on an actuarially equivalent basis established on the date, determined in accordance with that section 8.7 or 8.8, on which the employee’s or person’s membership in this plan ended, if the contributions have not been refunded.

Actuarial value. The years and parts of a year of service are credited, beginning with the most recent service, until the actuarial value of the benefits established in respect of those years and parts of a year of service under this plan reaches the actuarial value of the benefits accrued under the other pension plans concerned, without exceeding the total service credited or counted under each of the other plans. The second paragraph of section 35 applies.

Several pension plans.	When the years and parts of a year of service are credited or counted under more than one of the pension plans referred to in the first paragraph, the total number of years of service credited or counted under each of those plans is used for retirement eligibility purposes to establish the actuarial value of the benefits accrued under each plan.
Actuarial assumptions and methods.	The actuarial values of the benefits are established on the basis of actuarial assumptions and methods that are determined by regulation and which may vary with the pension plans and benefits concerned.
Service credited.	“109.3. The years and parts of a year of service credited under this plan to an employee referred to in section 109.2 and the years and parts of a year of service for which pension credit was granted under this plan and which were credited under the Pension Plan of Peace Officers in Correctional Services before 1 January 2005, under sections 22 and 23, as they read before 1 January 2005, and section 143.3, 143.4 or 143.7 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2), must be credited or counted once again under this plan on the date, determined in accordance with section 8.7 or 8.8 of that Act, on which the employee’s membership in this plan ended, as though that section 22, 23, 143.3, 143.4 or 143.7 had not applied.
Refund of contributions.	However, if an employee received a refund of contributions under section 115.9 as it read before 1 January 2005, the years and parts of a year of service are credited under this plan in proportion to the amount of the actuarial value of benefits accrued under this plan over the total amount of contributions accumulated under sections 50, 55, 218 and 219 as they read before 1 January 2005. The amounts are those used for the purposes of section 115.9.
Service credited.	The years and parts of a year of service referred to in the first paragraph are credited beginning with the most recent service.
Service not credited.	“109.4. An employee may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of section 109.2 by paying to the Commission the difference between the actuarial values of the benefits resulting from those years and parts of a year of service.
Service not credited.	An employee referred to in section 109.3 may be credited with all or part of the years and parts of a year of service not credited under this plan by paying to the Commission an amount equal to the refund referred to in that section.
Service credited.	The years and parts of a year of service referred to in the first and second paragraphs are credited beginning with the most recent service.
Interest.	The amount to be paid by the employee bears interest, compounded annually, at the rates determined in Schedule VI from the date on which the actuarial values are established until the date the application is received at the Commission and at the rate determined in Schedule VII from the day following the date the application is received until the date of the redemption proposal

made by the Commission. However, for the purposes of the second paragraph, interest is computed from the date on which the Commission paid the refund instead of the date on which the actuarial values were established.

Payment and interest. The amounts established under this section are payable either in a lump sum or in instalments over the period and at the times determined by the Commission. An amount paid in instalments bears interest, compounded annually, at the rate determined in Schedule VII in force on the date the application is received at the Commission and computed from the date on which the redemption proposal made by the Commission expires.

Refund. **“109.5.** The Commission shall refund with interest to a person who becomes subject to section 25 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2) the amounts paid under section 115.8, as it read before 1 January 2005, in order to be credited with the years and parts of a year of service referred to in that section 25.

Balance of redemption costs. **“109.6.** The employee or person who becomes subject to section 8.7 or 8.8 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2) while redeeming service under that Act must pay the balance of the redemption costs within 30 days of receiving notice from the Commission to that effect. If the employee does not pay the balance within that time limit, the service is credited under this plan in accordance with section 109.2, but in proportion to the sums paid, excluding interest, on the total redemption costs.

Refund. **“109.7.** The Commission shall refund to an employee whose years and parts of a year of service credited under this plan have been transferred to the Pension Plan of Peace Officers in Correctional Services on an actuarially equivalent basis, under section 23 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2), any amount by which the total amount of the contributions accumulated with interest under sections 50, 55, 218 and 219 exceeds the amount of the actuarial value of the benefits accrued under that pension plan, if the total amount of those contributions accumulated with interest is at least equal to the actuarial value of the deferred pension accrued under this plan and established in accordance with subparagraph 2 of the first paragraph of section 215.13.

Transfer. The Commission shall transfer into a locked-in retirement account in respect of an employee whose years and parts of a year of service credited under this plan have been transferred to the Pension Plan of Peace Officers in Correctional Services on an actuarially equivalent basis under section 23 of the Act respecting the Pension Plan of Peace Officers in Correctional Services, any amount by which the actuarial value of the deferred pension accrued under this plan and established in accordance with subparagraph 2 of the first paragraph of section 215.13 exceeds the amount of the actuarial value of the benefits accrued under the Pension Plan of Peace Officers in Correctional Services, if the actuarial value of the deferred pension is greater than the total amount of the contributions accumulated with interest under sections 50, 55, 218 and 219.

“DIVISION III.3**“EMPLOYEE WHO WAS A MEMBER OF THE PENSION PLAN OF THE SÛRETÉ DU QUÉBEC**

Service credited.

“109.8. The years and parts of a year of service credited to an employee under the pension plan of the Sûreté du Québec (C.T. 181151 dated 18 August 1992) may be credited under this plan on an actuarially equivalent basis. The employee must no longer have been an employee for the purposes of the pension plan of the Sûreté du Québec for at least 210 days and must not have received a refund of contributions or be a pensioner under that plan. However, the time limit does not apply if the employee simultaneously applies for benefits and for a transfer of that service under this plan.

Actuarial value.

The years and parts of a year of service are credited, beginning with the most recent service, until the actuarial value of the benefits established in respect of those years and parts of a year of service under this plan reaches the actuarial value of the benefits accrued under the pension plan of the Sûreté du Québec, without exceeding the service credited or counted under the latter plan.

Actuarial assumptions and methods.

The actuarial values of the benefits are established on the date the transfer application is received at the Commission on the basis of actuarial assumptions and methods determined by regulation.

Service not credited.

“109.9. An employee may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of section 109.8 by paying to the Commission the difference between the actuarial values of the benefits resulting from those years and parts of a year of service.

Service credited.

The years and parts of a year of service referred to in the first paragraph are credited beginning with the most recent service.

Interest.

The amount to be paid by the employee referred to in the first paragraph bears interest, compounded annually, at the rates determined for each period in Schedule VI from the date on which the actuarial values are established until the date the application for redemption is received at the Commission and at the rate determined in Schedule VII from the day following the date the application is received until the date of the redemption proposal made by the Commission.

Payment and interest.

The amounts established under the third paragraph are payable either in a lump sum or in instalments over the period and at the times determined by the Commission. An amount paid in instalments bears interest, compounded annually, at the rate determined in Schedule VII in force on the date the application is received at the Commission and computed from the date on which the redemption proposal made by the Commission expires.

Refund.

“109.10. The Commission shall refund to a person whose years and parts of a year of service credited under this plan have been transferred to the pension plan of the Sûreté du Québec on an actuarially equivalent basis any amount by which the total amount of the contributions accumulated with interest exceeds the amount of the actuarial value of the benefits accrued under that pension plan, if the total amount of the contributions accumulated with interest under sections 50, 55, 218 and 219 is at least equal to the actuarial value of the deferred pension accrued under this plan and established in accordance with subparagraph 2 of the first paragraph of section 215.13.

Transfer.

The Commission shall transfer into a locked-in retirement account in respect of an employee whose years and parts of a year of service credited under this plan have been transferred to the pension plan of the Sûreté du Québec on an actuarially equivalent basis any amount by which the actuarial value of the deferred pension accrued under this plan exceeds the amount of the actuarial value of the benefits accrued under the pension plan of the Sûreté du Québec, if the actuarial value of the deferred pension is greater than the total amount of the contributions accumulated with interest under sections 50, 55, 218 and 219.”

“EMPLOYEE WHO WAS A MEMBER OF THE PENSION PLAN OF PEACE OFFICERS IN CORRECTIONAL SERVICES

Service credited.

“138.1. Subject to section 138.2, the years and parts of a year of service credited under the Pension Plan of Peace Officers in Correctional Services to an employee or a person referred to in section 8.7 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2) and the years and parts of a year of service for which pension credit is granted under that Act must be credited under this plan on an actuarially equivalent basis established on the date, determined under that section 8.7, on which the employee’s or person’s membership in this plan ended, if the contributions have not been refunded.

Actuarial value.

The years and parts of a year of service are credited, beginning with the most recent service, until the actuarial value of the benefits established in respect of those years and parts of a year of service under this plan reaches the actuarial value of the benefits accrued under the Pension Plan of Peace Officers in Correctional Services, without exceeding the service credited or counted under that plan. The second paragraph of section 51 applies.

Actuarial assumptions
and methods.

The actuarial values of the benefits are established on the basis of actuarial assumptions and methods that are determined by regulation and which may vary with the pension plans and benefits concerned.

Service credited.

“138.2. The years and parts of a year of service credited under this plan to an employee referred to in section 138.1 and the years and parts of a year of service for which pension credit was granted to the employee under the

Government and Public Employees Retirement Plan and which were credited under the Pension Plan of Peace Officers in Correctional Services under sections 22 and 23, as they read before 1 January 2005, and section 143.3, 143.4 or 143.7 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2) must be credited once again under this plan on the date, determined in accordance with section 8.7 of that Act, on which the employee's membership in this plan ended or, as the case may be, counted again under the Act respecting the Government and Public Employees Retirement Plan (chapter R-10), as though these sections 22, 23 and 143.3, 143.4 or 143.7 had not applied.

Refund of
contributions.

However, if an employee received a refund of contributions under section 151, as it read before 1 January 2005, the years and parts of a year of service are credited under this plan in proportion to the amount of the actuarial value of benefits accrued under the Pension Plan of Peace Officers in Correctional Services over the total amount of contributions accumulated under sections 73, 77, 205 and 206, as they read before 1 January 2005. The amounts are those used for the purposes of section 151.

Service credited.

The years and parts of a year of service referred to in the first and second paragraphs are credited beginning with the most recent service.

Service not credited.

“138.3. An employee may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of section 138.1 by paying to the Commission the difference between the actuarial values of the benefits resulting from those years and parts of a year of service.

Service not credited.

An employee referred to in section 138.2 may be credited with all or part of the years and parts of a year of service not credited under this plan by paying to the Commission an amount equal to the refund referred to in that section.

Service credited.

The years and parts of a year of service referred to in the first and second paragraphs are credited beginning with the most recent service.

Interest.

The amount to be paid by the employee bears interest, compounded annually, at the rates determined in Schedule VII from the date on which the actuarial values are established until the date the application is received at the Commission and at the rate determined in Schedule VIII from the day following the date the application is received until the date of the redemption proposal made by the Commission. However, for the purpose of the second paragraph, interest is computed from the date on which the Commission paid the refund instead of the date on which the actuarial values were established.

Payment and interest.

The amounts established under this section are payable either in a lump sum or in instalments over the period and at the times determined by the Commission. An amount paid in instalments bears interest, compounded annually, at the rate determined in Schedule VIII on the date the application is received at the Commission and computed from the date on which the redemption proposal made by the Commission expires.

Refund. **“138.4.** The Commission shall refund an employee or person who becomes subject to section 25 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2) any amounts paid under section 150, as it read before 1 January 2005, to have credited the years and parts of a year of service referred to in that section 25, with interest.

Balance of redemption costs. **“138.5.** The employee or person who becomes subject to section 8.7 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2) while redeeming service under that Act must pay the balance of the redemption costs within 30 days of receiving notice from the Commission to that effect. If the employee does not pay the balance within that time limit, the service is credited under this plan in accordance with section 138.1, but in proportion to the sums paid, excluding interest, on the redemption costs.

Refund. **“138.6.** The Commission shall reimburse to an employee whose years and parts of a year of service credited under this plan have been transferred to the Pension Plan of Peace Officers in Correctional Services on an actuarially equivalent basis under section 23 of the Act respecting the Pension Plan of Peace Officers in Correctional Services (chapter R-9.2) any amount by which the total amount of the contributions accumulated with interest under sections 73, 77, 205, 206 and 406 exceeds the amount of the actuarial value of the benefits accrued to the employee under that pension plan, if the total amount of those contributions accumulated with interest is at least equal to the actuarial value of the deferred pension accrued under this plan and established in accordance with subparagraph 2 of the first paragraph of section 215.13 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10).

Transfer. The Commission shall transfer into a locked-in retirement account in respect of an employee whose years and parts of a year of service credited under this plan have been transferred to the Pension Plan of Peace Officers in Correctional Services, on an actuarially equivalent basis under section 23 of the Act respecting the Pension Plan of Peace Officers in Correctional Services any amount by which the actuarial value of the deferred pension accrued under this plan and established in accordance with subparagraph 2 of the first paragraph of section 215.13 of the Act respecting the Government and Public Employees Retirement Plan exceeds the amount of the actuarial value of the benefits accrued under the Pension Plan of Peace Officers in Correctional Services, if the actuarial value of the deferred pension is greater than the total amount of the contributions accumulated with interest.

“DIVISION I.3

basis. The employee must no longer have been an employee for the purposes of the pension plan of the Sûreté du Québec for at least 210 days and must not have received a refund of contributions or be a pensioner under that plan. However, the time limit does not apply if the employee simultaneously submits an application for benefits and an application for a transfer under this plan.

Actuarial value.

The years and parts of a year of service are credited, beginning with the most recent service, until the actuarial value of the benefits established in respect of those years and parts of a year of service under this plan reaches the actuarial value of the benefits accrued under the pension plan of the Sûreté du Québec, without exceeding the service credited or counted under that plan.

Actuarial assumptions and methods.

The actuarial values of the benefits are determined on the date the application for transfer is received at the Commission on the basis of actuarial assumptions and methods determined by regulation.

Service not credited.

“138.8. An employee may be credited with all or part of the years and parts of a year of service not credited under this plan by reason of section 138.7 by paying to the Commission the difference between the actuarial values of the benefits resulting from those years and parts of a year of service.

Service credited.

The years and parts of a year of service referred to in the first paragraph are credited beginning with the most recent service.

Interest.

The amount to be paid by the employee referred to in the first paragraph bears interest, compounded annually, at the rates determined for each period in Schedule VII to the Act respecting the Pension Plan of Management Personnel (chapter R-12.1) from the date on which the actuarial values are established until the date the application for redemption is received at the Commission and at the rate determined in Schedule VIII to that Act from the day following the date the application is received until the date of the redemption proposal made by the Commission.

Payment and interest.

The amount established under the third paragraph is payable either in a lump sum or in instalments over the period and at the times determined by the Commission. An amount paid in instalments bears interest, compounded annually, at the rate determined in Schedule VIII to the Act respecting the Government and Public Employees Retirement Plan in force on the date the application is received at the Commission and computed from the date on which the redemption proposal made by the Commission expires.

Refund.

“138.9. The Commission shall refund to a person whose years and parts of a year of service credited under this plan have been transferred to the pension plan of the Sûreté du Québec on an actuarially equivalent basis any amount by which the total amount of the contributions accumulated with interest under sections 73, 77, 205, 206 and 406 exceeds the amount of the actuarial value of the benefits accrued to the person under that pension plan, if the total amount of the contributions accumulated with interest is at least equal to the actuarial value of the deferred pension accrued under this plan and

established in accordance with subparagraph 2 of the first paragraph of section 215.13 of the Act respecting the Government and Public Employees Retirement Plan (chapter R-10).

Transfer.

The Commission shall transfer into a locked-in retirement account in respect of an employee whose years and parts of a year of service credited under this plan have been transferred to the pension plan of the Sûreté du Québec, on an actuarially equivalent basis, any amount by which the actuarial value of the deferred pension accrued under this plan exceeds the amount of the actuarial value of the benefits accrued under the pension plan of the Sûreté du Québec, if the actuarial value of the deferred pension is greater than the total amount of the contributions accumulated with interest under sections 73, 77, 205, 206 and 406.”

	Provisions relating to the structure of credit unions and federations
	<ol style="list-style-type: none"> 1. The new provisions relating to the structure of credit unions and federations whose fiscal period ended before 1 February 1997, and that therefore have eight months in which to hold their annual meeting, apply thereto from the time at which their respective annual meeting is held. Pending the annual meeting, such credit unions and federations may hold a special meeting for the purpose of determining the interest that is payable on permanent shares following the allocation of the annual surplus earnings. In such case, the new provisions relating to structure apply thereto only from the time at which the annual meeting is held. Credit unions and federations that do not take advantage of that extended time period may postpone until a later special meeting, held before 1 October 1997, the election of the members of their board of directors and board of audit and ethics, in which case the new provisions relating to structure will apply thereto only from the time at which that meeting is held. 2. In the case of credit unions and federations whose fiscal period ends between 1 February 1997 and 31 May 1997 and that must therefore hold their annual meeting before 1 October 1997, the same provisions will apply from the time at which their respective annual meeting are held. 3. In the case of credit unions and federations whose fiscal period ends between 1 June 1997 and 31 August 1997 and that therefore are not obliged to hold their annual meeting before 1 October 1997, the same provisions will apply, from the latter date, except where such credit unions or federations hold a special meeting before that time, in which case those same provisions apply thereto from the time at which that meeting is held. 4. Notwithstanding the foregoing, where, on 15 February 1997, credit unions are involved in a process of amalgamation, the new provisions relating to structure will apply thereto from the time at which the amalgamation becomes effective, if the amalgamation agreement complies with those provisions. Where the agreement does not comply, the amalgamating credit unions have until 30 September 1997 to remedy the situation at a single special meeting of all the members of the credit unions that are being amalgamated.
	Provisions relating to administration
	<ol style="list-style-type: none"> 5. Decisions rendered by credit committees before they were abolished may be reviewed by any employee who is appointed for that purpose and whose position allows him to grant credit. 6. Representatives of legal persons who are members of a credit union and have been acting as directors or members of the board of supervision shall continue to act in that capacity until the end of their term of office. 7. The provisions of section 54 of the Act to amend the Savings and Credit Unions Act apply immediately to officers who, on 15 February 1997, are under suspension from duty. 8. Credit unions, federations and confederations have 18 months from the coming into force of paragraph 4 of section 36 of that Act to provide liability insurance for directors and officers. 9. The reports on activities that would have been submitted by the credit committees and ethics committees, had they not been abolished, shall be drafted by the boards of audit and ethics.)

Chapter 44

AN ACT RESPECTING VILLE DE LA POCATIÈRE

[Assented to 23 June 2004]

Preamble. AS it is in the interest of Ville de La Pocatière that it be granted certain powers;

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS:

Tax credit. **1.** Ville de La Pocatière may adopt a program by by-law to grant a tax credit, on the conditions stipulated in the program, for the establishment or enlargement of high technology facilities on the territory described in the schedule.

“high technology”. For the purposes of this section, the expression “high technology” refers in particular to new technologies in the agri-forestry, agri-environmental and agri-food transformation fields used mainly for

(1) scientific or technological research or development;

(2) scientific or technological training;

(3) the management of a technological business; or

(4) the manufacturing of technological products, including scientific research and experimental development activities.

Period. A by-law passed under this section may not provide for a tax credit exceeding five years and the eligibility period for the program may not extend beyond 31 December 2010.

Calculation method. The purpose of the tax credit is to offset any increase in property taxes that may result from a reassessment of the immovables after completion of the work. For the fiscal year in which the work is completed and for the next two fiscal years, the amount of the tax credit shall be the difference between the amount of the property taxes that would have been payable if the assessment of the immovables had not been changed and the amount of the taxes actually payable. For the next two fiscal years, the amount of the tax credit shall be, respectively, 80% and 60% of the amount of the tax credit for the first fiscal year.

Entitlement.

The by-law referred to in the first paragraph must state that only those immovables where at least 50% of the net total floor space is used or intended to be used for the activities referred to in the second paragraph may give entitlement to a tax credit.

Coming into force.

2. This Act comes into force on 23 June 2004.

Chapter 46

AN ACT RESPECTING VILLE DE BROWNSBURG-CHATHAM, VILLE DE LACHUTE AND MUNICIPALITÉ DE WENTWORTH-NORD

[Assented to 23 June 2004]

Preamble. AS it is in the interest of Ville de Brownsburg-Chatham, Ville de Lachute and Municipalité de Wentworth-Nord that certain powers be granted to them, in particular to allow them to consolidate land;

As Ville de Brownsburg-Chatham considers it necessary to make certain amendments to Order in Council 1112-99 dated 29 September 1999;

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS:

“municipality”. **1.** The word “municipality”, wherever it is used in this Act, refers to Ville de Brownsburg-Chatham, Ville de Lachute and Municipalité de Wentworth-Nord.

“sector described in the schedule”. The expression “sector described in the schedule”, wherever it is used, refers to a sector described in Schedule A for Ville de Brownsburg-Chatham, Schedule B for Ville de Lachute and Schedule C for Municipalité de Wentworth-Nord.

Taxes in arrears. **2.** The municipality may, in a sector described in the schedule, be declared the owner of an immovable on which municipal taxes have not been paid for three consecutive years.

Future thoroughfare. The municipality may also, in a sector described in the schedule, be declared the owner of an immovable which is not entered on the assessment roll or is exempt from property tax and is identified as or considered by the court to be a future thoroughfare.

Application. **3.** The application is made by a motion presented before the Superior Court sitting in the district in which the immovable is situated. The motion may concern more than one immovable belonging to different owners.

Indemnity. The motion may be granted only after publication of a notice in a newspaper in the territory of the municipality requesting all persons who may have rights respecting the immovables to appear in court within 60 days in order to claim an indemnity equal to the value of their rights, after the deduction of an amount sufficient to pay all outstanding municipal and school taxes, any accrued interest and the costs pertaining to the motion, including publication

costs. The indemnity claimed may not exceed the actual value of the immovable before the deduction, on the date of coming into force of this Act.

Publication of notice. The publication of the notice replaces service. The notice must indicate that it is given under this Act.

Description of immovables. The description of the immovables concerned that are parts of a lot is deemed to be sufficient if it mentions the lot number and the approximate area of the part of the lot concerned as well as the name of its owner.

Judgment. If the judgment grants the motion, it orders the registrar to enter the judgment in the land register of the immovables so described to stand in lieu of title for the municipality even if the description of the immovables does not comply with the rules of the Civil Code of Québec in the matter.

No appeal. No appeal lies from the judgment rendered on the motion.

Title and real rights. **4.** The municipality becomes the owner of the immovables in respect of which publication of the judgment declaring ownership is effected at the registry office, and no claim in respect of the immovables may be made at a later time. The publication gives title to the municipality, the validity of which cannot be contested for any reason. The real rights that may affect the immovables concerned, including prior claims, hypothecs, resolute clauses or clauses granting rights of cancellation, and servitudes other than public servitudes are extinguished.

Cancellation. The municipality may draw up a list of the real rights, other than public servitudes, that encumber the immovables described in the judgment declaring ownership, that have been published, and that are extinguished under this section and, on an application to that effect, the registrar cancels the registration of those rights.

Powers. **5.** To consolidate land or to reconstitute the original lots in a sector described in the schedule that is situated in an agricultural zone established by an order under the Act respecting the preservation of agricultural land and agricultural activities (R.S.Q., chapter P-41.1) and on which the municipality wishes to promote, ensure or maintain agricultural operations, the municipality may

- (1) acquire an immovable by agreement or by expropriation;
- (2) hold and manage the immovable;
- (3) carry out the required development, restoration, demolition or clearing work on the immovable;
- (4) transfer or lease the immovable; and
- (5) exchange an immovable it owns in its territory for another immovable it wishes to acquire, if their value is comparable. If the municipality considers

that an unconditional exchange would not be appropriate, it may also offer as consideration an amount of money in lieu of or in addition to an immovable.

Logging operations.

In order to consolidate land in a sector described in the schedule that is not situated in such an agricultural zone, the municipality may exercise the powers listed in the first paragraph, mainly to facilitate, ensure or maintain logging operations.

Acquisitions,
exchanges and
transfers.

6. Acquisitions by agreement or expropriation, exchanges provided for in the first paragraph of section 5 and transfers referred to in section 28 do not constitute an alienation within the meaning assigned to that term in the definition in section 1 of the Act respecting the preservation of agricultural land and agricultural activities.

Offer of exchange.

7. An offer of exchange is made by service on the owner of a notice to that effect, accompanied by the text of sections 5 to 23 and 29 of this Act. Section 40.1 of the Expropriation Act (R.S.Q., chapter E-24) applies to the service of the notice. The notice is then published at the registry office.

Notice.

The notice must also be published in the *Gazette officielle du Québec* at least 10 days before being served on the owner.

Contents.

The notice must indicate that it is given under this Act and contain, in particular, the following information:

- (1) a description of the immovable that the municipality wishes to acquire;
- (2) the name of the owner of the immovable;
- (3) a description of the immovable offered as consideration; and
- (4) the time limit for filing an objection with the municipality.

Consideration.

In the case provided for in subparagraph 5 of the first paragraph of section 5, the notice must mention the sum of money, if any, offered by the municipality as consideration.

Objection.

8. Within 60 days of the date of being served the notice referred to in section 7, the owner of the immovable that the municipality wishes to acquire may file with the municipality a substantiated objection, in writing, to the consideration offered. Holders of real rights in the immovable and, in particular, holders of claims secured by a prior claim or hypothec on the immovable have the same right within that time.

Indemnity.

In addition, every owner, lessee or occupant of an immovable upon which there is a servitude other than a public servitude may, within the same time, file a substantiated objection with the municipality, in writing, for the purpose of claiming an indemnity.

Time limit.

No objection may be filed after the expiry of that time.

Expiry.	At the expiry of the time provided for in the first paragraph, if no objection to the consideration offered has been filed, the municipality makes the exchange with the owners of the immovables.
Agreement on exchange.	9. If, within the time mentioned in section 8, the owner of the immovable that the municipality wishes to acquire or the holder of a real right in the immovable, other than a servitude, files a substantiated objection in writing, the municipality may enter into an agreement on the exchange with that person.
Agreement on indemnity.	As well, if the owner, lessee or occupant of an immovable the municipality wishes to acquire, upon which there is a servitude other than a public servitude, files a substantiated objection in writing, the municipality may enter into an agreement on the indemnity with that person.
Agreement.	Any agreement entered into must be evidenced in writing. After payment or deposit with the Superior Court of any sum of money agreed upon, the municipality makes the exchange.
Fair consideration.	10. Failing agreement within 30 days after the expiry of the time for filing a notice of objection, the owner of the immovable that the municipality wishes to acquire or the holder of a real right in the immovable, other than a servitude, may, within 15 days after the expiry of the 30-day period, by a motion served on the municipality, apply to the Administrative Tribunal of Québec to have the Tribunal determine fair consideration for the exchange.
Indemnity.	Within that 15-day period, the owner, lessee or occupant of an immovable the municipality wishes to acquire upon which there is a servitude other than a public servitude may apply to the Administrative Tribunal of Québec to have the Tribunal determine the amount of the indemnity resulting from the extinction of the servitude.
Expiry of period.	If, at the expiry of the 15-day period provided for in the first paragraph, no application has been made to the Administrative Tribunal of Québec in relation to the consideration, the municipality may make the exchange as proposed.
Hearing.	11. When a person makes an application under section 10, the Administrative Tribunal of Québec hears the parties and determines the consideration or the indemnity payable to that person.
Consideration.	The consideration giving effect to an application made under the first paragraph of section 10 may consist, in whole or in part, of an immovable.
Indemnity.	The indemnity giving effect to an application made under the second paragraph of section 10 may consist only of a sum of money.
Exchange.	Following the decision of the Administrative Tribunal of Québec and, if applicable, the payment of the sum determined or its deposit with the Superior Court, the municipality makes the exchange.

- Provisions applicable. **12.** Sections 40.1, 48 and 58 of the Expropriation Act apply to the proceedings, with the necessary modifications.
- Transfer of ownership. **13.** The ownership of an immovable described in a notice under section 7 is transferred by the publication of a notice of the transfer at the registry office. The notice of transfer contains the description of the immovable referred to and a reference to the notice served under section 7, indicating its publication number at the registry office.
- Real rights. The real rights in the immovable acquired by the municipality, other than the servitudes, are transferred to the immovable transferred as consideration.
- Servitudes. Public servitudes continue to encumber the immovable acquired by the municipality, but the other servitudes are extinguished.
- Copy of notice. **14.** The municipality sends the owner with whom an exchange has been made a certified true copy of or extract from the notice referred to in section 13 that concerns the owner. The document must mention the number under which the notice was published at the registry office and is valid as a title of ownership.
- Transfer of rights. **15.** As of the transfer of the right of ownership resulting from an exchange, the immovables affected by the exchange are subject only to the rights and actions which the new owner may exercise.
- Registration. **16.** Registration of the real rights that affected the immovable acquired by the municipality and that may be transferred to the immovable transferred as consideration under section 13 must be carried over to the immovable by a notice published at the registry office within six months of the transfer of ownership.
- Extinction of rights. At the expiry of the six months, any rights that have been registered but not carried over are extinguished and any notice of carrying over consequent to a requisition presented more than six months after the transfer of ownership is without effect.
- Prior claims and hypothecs. The prior claims and hypothecs that have been registered and carried over to the immovable transferred as consideration retain the initial order they had on the immovable acquired by the municipality.
- Notice. **17.** Upon publication of a notice referred to in section 13, the municipality sends the holders of real rights in the immovable acquired by the municipality, including claims secured by a prior claim or hypothec on the immovable but excluding servitudes, a notice, by registered mail, advising them to carry over to the immovable transferred as consideration by the municipality the registration of the real rights in respect of which they appear as holders, within six months after the transfer of ownership.

- Notice of transfer. **18.** The second paragraph of section 4 applies, with the necessary modifications, to the notice of transfer referred to in section 13.
- Cancellation. The cancellation of the registration of real rights other than servitudes does not prevent the application of section 16.
- Act not applicable. **19.** The Act respecting duties on transfers of immovables (R.S.Q., chapter D-15.1) does not apply to the transfer of an immovable under section 5.
- Act not applicable. **20.** The Act respecting the acquisition of farm land by non-residents (R.S.Q., chapter A-4.1) does not apply to an immovable exchanged in accordance with the first paragraph of section 5.
- Provisions applicable. **21.** This Act does not operate to limit or prevent the application of all or any of the provisions of a fiscal law within the meaning of section 1 of the Act respecting the Ministère du Revenu (R.S.Q., chapter M-31).
- Exception. **22.** This Act does not apply to an immovable real right published under an Act, regulation, order in council, order, agreement or arrangement administered by the Minister of Revenue.
- Withdrawal. **23.** The municipality may withdraw wholly or partially from a measure taken for the purpose of exchanging an immovable to which this Act applies, before publication of the notice referred to in section 13.
- Damages. Damages granted following withdrawal may not exceed the value of the immovable entered on the assessment roll in force on the date on which the notice under section 7 is sent, multiplied by the factor established for the roll under the Act respecting municipal taxation (R.S.Q., chapter F-2.1).
- Surtax. **24.** In addition to any property tax that it may impose and levy on land situated in a sector described in the schedule, the municipality may, by by-law, impose and levy annually on that land a surtax that may be equal to the total property taxes that the municipality may impose and levy on that land for the fiscal year concerned.
- By-law. The by-law may set a minimum amount for the surtax, which may not exceed \$100. It may also indicate the categories of land subject to the surtax and impose a surtax whose rate may vary according to the category.
- Exclusions. **25.** The following lands are not subject to the surtax provided for in section 24:
- (1) land on which there is a building whose property value exceeds 25% of the property value of the land, according to the assessment roll in force;
 - (2) land owned by a railway undertaking and on which there is a railway track;

(3) land used for overhead electric powerlines;

(4) land forming part of an agricultural operation registered in accordance with a regulation made under section 36.15 of the Act respecting the Ministère de l'Agriculture, des Pêcheries et de l'Alimentation (R.S.Q., chapter M-14); and

(5) land that may be used for purposes other than agriculture under an authorization of the Commission de protection du territoire agricole du Québec or that benefits from acquired rights within the meaning of Chapter VII of the Act to preserve agricultural land and agricultural activities.

Financial reserve.

26. The municipality must, by by-law, create a financial reserve for the benefit of a sector described in the schedule for the purpose of financing the consolidation of land, and allocate to that reserve the revenue from the surtax imposed under section 24.

Consolidation.

The sums from the reserve may be used solely to further, in the sectors described in the schedules, the consolidation, the acquisition by agreement or by expropriation, the exchange, the transfer and, in an agricultural zone established by an order under the Act respecting the preservation of agricultural land and agricultural activities, the reconversion of land for agricultural purposes.

By-law.

The by-law must set out, in particular, the length of time the reserve will exist and the allocation of the amount, if any, by which the income of the reserve exceeds its expenditures. If there is no such provision, any excess amount is paid into the general fund.

Agricultural zone.

27. When, under this Act, the municipality becomes the owner of immovables that are sufficient to be used for genuine and sustained agricultural purposes, in a sector described in the schedule and situated in an agricultural zone established by an order under the Act respecting the preservation of agricultural land and agricultural activities, it submits a plan to the Minister of Natural Resources, Wildlife and Parks entailing the striking out or replacement of the numbers of the lots it owns in accordance with article 3043 of the Civil Code of Québec.

Ministerial authorization.

Every operation carried out under the first paragraph of this section must be authorized by the Minister of Agriculture, Fisheries and Food after the opinion of the Commission de protection du territoire agricole du Québec has been obtained.

Offer to sell.

28. Within two years following the authorization required under section 27, the municipality must offer for sale, at its actual value, the lot concerned by the cadastral amendment so that it may be used for agricultural purposes, and must so advise the Minister of Agriculture, Fisheries and Food and the Fédération régionale de l'Union des producteurs agricoles.

Extension.

If the municipality fails to find a purchaser for a lot at its actual value within the required time, it must so advise the Minister of Agriculture, Fisheries and Food, who may grant an extension for the selling of the lot or, at the request of the council, authorize the municipality to retain it permanently.

Powers of the municipality.

The municipality may, with respect to an immovable it is authorized to retain, carry out development, restoration, demolition or clearing work, or operate or lease it.

Title.

29. The title the municipality obtains under this Act to immovables situated in the sectors described in the schedules may not be contested.

Non-profit organization.

30. The municipality may enter into an agreement with a non-profit organization, entrusting it with the administration, management and operation of an immovable acquired under this Act, and lend the organization money for those purposes. The municipality may also use the money from the financial reserve created under section 26 to finance the activities of that organization.

31. Section 20 of Order in Council 1112-99 dated 29 September 1999 constituting Ville de Brownsburg-Chatham is amended by replacing “five” in the first line by “eight”.

AN ACT RESPECTING COMPAGNIE DE CIMETIÈRES CATHOLIQUES DES BOIS-FRANCS

[Assented to 17 December 2004]

Preamble.

AS le Cimetière de Saint-Joseph de Victoriaville is a legal person duly constituted under the Act to incorporate le Cimetière de Saint-Joseph de Victoriaville (1955-56, chapter 148), and as that legal person requests that its incorporating act be replaced by this Act;

As that legal person was constituted to allow the Sainte-Victoire, Saint-Gabriel Lalemant and Sainte-Famille parishes, all situated in Victoriaville, to erect and own a cemetery for their common use and for the use of any other parish in the region of Ville de Victoriaville that could be admitted as a member of the legal person;

As the Act to incorporate le Cimetière de Saint-Joseph de Victoriaville is no longer adapted to the social and economic situation of the Catholic parishes;

As the corporation, at the request of Monseigneur Raymond St-Gelais, Bishop of Nicolet, intends to change its structure and objects in order to acquire and administer the cemeteries currently owned by fabriques, within the meaning of the Act respecting fabriques (R.S.Q., chapter F-1), or by any other body under the authority of the Bishop of Nicolet, to administer, on behalf of certain fabriques, the cemeteries owned by those fabriques, and to provide other services related to the disposal of the body or ashes of a deceased person;

As the Act respecting Roman Catholic cemetery corporations (R.S.Q., chapter C-40.1) does not contain all the provisions required to meet the needs of the fabriques under the authority of the Bishop of Nicolet that are or may become members of the legal person;

As the general meeting of members of le Cimetière de Saint-Joseph de Victoriaville has approved the request to replace its incorporating act;

As Monseigneur Raymond St-Gelais, Bishop of Nicolet, has approved the request;

As it is appropriate and in the public interest to grant the request;

3. The head office of the company is situated in the diocese of Nicolet, at the address determined by a resolution adopted by the board of directors and approved by the general meeting of members.

AN ACT RESPECTING VILLE DE LA TUQUE

[Assented to 17 December 2004]

Preamble.

AS it is advisable to validate the application of loan by-law No. 85-96 of the former Municipalité de Lac-Édouard;

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS:

Validity.

1. By-law No. 85-96 of the former Municipalité de Lac-Édouard, and the work carried out, the expenditures made, the compensations or sums of money required and levied and the payments received from ratepayers under the by-law may not be invalidated for any of the following reasons:

- (1) the cost of the work exceeds the authorized cost;
- (2) the amount of the loan exceeds the authorized amount;
- (3) a compensation or sum of money was required and levied instead of the regular property tax;
- (4) the term of part of the loan exceeds the authorized term;
- (5) the amount levied annually exceeds the amount authorized for the period prior to the permanent financing of the loan;
- (6) the provisions relating to the payment in one instalment of the portion of the loan principal relating to an immovable were not properly applied;
- (7) tax accounts were not sent or were insufficient;
- (8) a compensation or sum of money was required and levied for immovables totally exempt from municipal or school property taxes under the Act respecting municipal taxation (R.S.Q., chapter F-2.1);
- (9) the work benefits immovables not covered by the by-law.

Incontestability.

A compensation or sum of money required or levied or a payment relating to an immovable made under the by-law before 17 December 2004 may not be contested and is deemed to have been required, levied or made under the by-law as amended by this Act.

Expenditure.

2. Despite section 1 of the by-law, the amount of the expenditure the municipality is authorized to make and of the related loan is \$1,078,482.29. In addition, the term of the loan is

(1) five years for the amount of \$19,082; and

(2) 15 years for the amount of \$213,275.

By-law, s. 2, replaced.

3. Section 2 of the by-law is replaced by the following sections:

“2. In order to defray the annual payment of interest and principal of part of the loan, in the amount of \$19,082, a compensation is required of each owner of an immovable mentioned in Schedule A and will be levied each year for five years on each such immovable.

The amount of the compensation is calculated annually by distributing the cost incurred for the annual payment of interest and principal in proportion to the balances set out in Schedule A for each owner concerned.

“2.1. In order to defray the annual payment of interest and principal of part of the loan, in the amount of \$56,775, a compensation is required of each owner of an immovable mentioned in Schedule B and will be levied each year for 15 years on each such immovable.

The amount of the compensation is calculated annually by distributing the cost incurred for the annual payment of interest and principal in proportion to the balances set out in Schedule B for each owner concerned.

“2.2. In order to defray the annual payment of interest and principal of part of the loan, in the amount of \$156,500,

(1) for 50% of that amount, a compensation on each immovable mentioned in Schedule C is required of the owner of the immovable and will be levied each year for 15 years, in an amount calculated annually by dividing the annual payment for that part of the loan by the number of immovables whose owners are subject to payment of the compensation; and

(2) for 50% of that amount, a special tax at a sufficient rate is levied and will be collected each year for 15 years on all taxable immovables in the sector formed by the former *Municipalité de Lac-Édouard*, on the basis of their value as it appears on the assessment roll in force.”

Exemption.

4. An owner or occupant may be exempted from paying the compensation under section 2 or 2.1 or paragraph 1 of section 2.2 of the by-law by paying, in one instalment, the portion of the principal which, upon maturity of that part of the loan, would have been provided by the compensation required for the immovable. That portion must be calculated on the basis of the distribution set out in Schedule A or Schedule B, as the case may be, as it applies at the time of payment, and the calculation must take into account any compensations paid under those sections before the payment.

- Payment. The payment must be made 30 days before the date of any financing or refinancing of the part of the loan concerned. The amount of the loan is reduced by an amount equal to any sum paid under this section.
- Applicability. This section does not apply with respect to the immovable located at 276 Principale (registration number 9680-53-4972) or the immovable located at 32 Damasse (registration number 9680-62-7931).
- Reference. **5.** The clerk must enter a reference to this Act in the book of by-laws of the town, below the by-law referred to in section 1.
- Cases pending. **6.** This Act does not affect cases pending on 4 March 2004.
- Coming into force. **7.** This Act comes into force on 17 December 2004.

Chapter 52

AN ACT RESPECTING DESJARDINS TRUST INC. AND DESJARDINS SPECIALIZED FINANCIAL SERVICES MANAGEMENT INC.

[Assented to 17 December 2004]

Preamble.

AS Desjardins Trust Inc. was incorporated as a trust company by letters patent issued on 27 September 1962 and registered on 24 October 1962 under the Trust Companies Act (R.S.Q. 1977, chapter C-41), under the company name Société de fiducie du Québec;

As supplementary letters patent were issued on 5 December 1974 under the Trust Companies Act in order to change the company name to Fiducie du Québec;

As supplementary letters patent were issued on 28 September 1988, under the Act respecting trust companies and savings companies (R.S.Q., chapter S-29.01), which replaced the Trust Companies Act, in order to again change the company name, to Desjardins Trust Inc.;

As Desjardins Trust Inc. is a wholly-owned subsidiary of Desjardins Specialized Financial Services Management Inc., itself a wholly-owned subsidiary of Desjardins Financial Corporation Inc., which is a wholly-owned subsidiary of the Fédération des caisses Desjardins du Québec;

As it is expedient for Desjardins Trust Inc. to be continued as a federal trust company governed by the Trust and Loan Companies Act (Statutes of Canada, 1991, chapter 45);

As there is no legislation in Québec authorizing the continuance of a provincial trust company as a federal trust company governed by the Trust and Loan Companies Act;

As, before the continuance, Desjardins Trust Inc. and Desjardins Specialized Financial Services Management Inc. wish to transfer the shares they hold in the capital stock of their subsidiaries and other movable and immovable property to the Fédération des caisses Desjardins du Québec through one or more holding companies controlled by the federation, and as they must also at that time acquire securities issued by the federation or by such a holding company;

As the provisions of the Act respecting trust companies and savings companies governing the operations a Québec trust company carries on with restricted parties and those pertaining to the transfer of property do not allow Desjardins Trust Inc. to be party with a holding company controlled by the Fédération des caisses Desjardins du Québec or another restricted party to a contract for the transfer of certain property, nor to acquire certain securities from the federation or from such a holding company;

As section 474 of the Act respecting financial services cooperatives (R.S.Q., chapter C-67.3) does not allow a holding company controlled by the Fédération des caisses Desjardins du Québec and established under the laws of Québec for the sole purpose of holding the shares of a legal person that only carries on activities similar to those the federation is authorized to carry on to hold property other than the shares of that legal person;

As Desjardins Trust Inc. and Desjardins Specialized Financial Services Management Inc. also wish to transfer movable and immovable property they own to one or more legal persons belonging to the Fédération des caisses Desjardins du Québec group and as it is expedient to facilitate such transfers, particularly as regards their opposability;

As it is expedient to grant Desjardins Trust Inc. and the Fédération des caisses Desjardins du Québec all the powers connected with the property surrendered by Desjardins Specialized Financial Services Management Inc. and the three legal persons successively known as Desjardins Industrial Credit Inc. and now dissolved which, at the time of their dissolution, were part of the Fédération des caisses Desjardins du Québec group;

As it is expedient to pass an Act to protect the interests of the persons who do business with Desjardins Trust Inc., taking into consideration the fact that rights and obligations of Desjardins Trust Inc. will eventually be assumed by one or more of the holding companies controlled by the Fédération des caisses Desjardins du Québec and ultimately by the Fédération des caisses Desjardins du Québec itself;

As the directors and shareholders of Desjardins Trust Inc. and the directors and shareholder of Desjardins Specialized Financial Services Management Inc. have adopted a resolution agreeing to the passing of this Act and the implementation of each and every action and provision provided for in it;

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS:

“Desjardins Trust” means Desjardins Trust Inc.; and

“Federation”.

“Federation” means the Fédération des caisses Desjardins du Québec.

Powers.

2. Despite sections 69, 120, 133 and 154 to 160 of the Act respecting trust companies and savings companies (R.S.Q., chapter S-29.01),

(1) Desjardins Trust and Desjardins Management may transfer property to the Federation directly or through one or more holding companies controlled by the Federation. The terms and conditions of a transfer of property under this section must first be set out in a transfer agreement and approved by the Agence nationale d’encadrement du secteur financier, which may set the terms, conditions and restrictions it deems appropriate; and

(2) Desjardins Trust may acquire securities issued by a restricted party. Such an acquisition requires the prior approval of the Agence nationale d’encadrement du secteur financier and the Agency may, for that purpose, impose the conditions and restrictions it considers appropriate.

(3) Desjardins Trust may acquire property from a restricted party. The terms and conditions of an acquisition of property under this section must first be set out in an acquisition agreement and approved by the Agence nationale d’encadrement du secteur financier, which may set the terms, conditions and restrictions it considers appropriate.

Presumption.

3. Property transferred by Desjardins Trust or Desjardins Management to a holding company controlled by the Federation under the terms of an agreement referred to in section 2 is deemed to have been acquired by that holding company under section 474 of the Act respecting financial services cooperatives.

Continuance of suit.

4. When a transferee acquires property from Desjardins Trust or Desjardins Management, a suit, action, application, motion or other proceeding brought or a power or recourse exercised or that could be brought or exercised by or against Desjardins Trust or Desjardins Management in a court of justice, an administrative tribunal or a government body in Québec in respect of property or activities transferred may not be suspended, interrupted or cancelled, but may be continued, brought or exercised on behalf of or against the transferee without continuance of suit on written notice by the latter duly served on all restricted parties and filed of record.

Substitution.

5. In every notarial deed or deed under private signature, in every judgment or court order, or in any document involving or naming Desjardins Trust or Desjardins Management and pertaining to debts secured by movable or immovable securities, or to movable or immovable property acquired on realization of such securities or through the exercise of any other recourse, that were subsequently transferred in whole or in part by Desjardins Trust or Desjardins Management to one or more legal persons belonging to the Federation group, under the terms of one or more transfers that may have been successive, including a transfer by Desjardins Management to Desjardins Trust and then by Desjardins Trust to another legal person belonging to the Federation group, the name of the transferee is substituted by operation of law for the name of Desjardins Trust or Desjardins Management, from the effective date of the transfer, with the same effects as if it appeared in the document.

Formalities.

The substitution under this section is effected and may be set up against anyone without it being necessary to observe the formalities set out in articles 1641, 1642, 1645 and 3003 of the Civil Code or to publish or file this Act, the act of transfer or any other document evidencing the substitution with regard to those rights in any register in Québec. The registrar must accept for registration any act that mentions the substitution under this section although the act of transfer or this Act may not have been published.

Rights and liability.

6. Nothing in this Act affects the rights of a person with a claim against Desjardins Trust or Desjardins Management or diminishes, modifies or affects the liability of either one toward that person. However, all such rights may be exercised against the transferee of the property that is the subject of the claim.

Powers.

7. Despite any provision to the contrary, Desjardins Trust and the Federation each have the power and capacity

(1) to grant total or partial acquittance for any loan made by Desjardins Industrial Credit and surrendered by it or transferred to Desjardins Trust or Desjardins Management, or to grant, with or without consideration, total or partial release of the registration of any security or other right of a movable or immovable nature registered in the name of Desjardins Industrial Credit that arises from a contract, judgment or Act;

(2) to grant total or partial acquittance for any loan acquired by Desjardins Management that may be surrendered by it or to grant, with or without consideration, total or partial release of the registration of a security or other right of a movable or immovable nature registered in the name of Desjardins Management that arises from a contract, judgment or Act;

(3) to transfer, with or without consideration, property of a movable or immovable nature that was surrendered by Desjardins Industrial Credit or may be surrendered by Desjardins Management; and

(4) to correct, for and on behalf of Desjardins Industrial Credit or Desjardins Management, any act, contract or proceedings to which Desjardins Industrial Credit or Desjardins Management is a party.

Registration.

An act of acquittance, release, transfer or correction made by Desjardins Trust or the Federation under this section is registered by filing that act, which must refer to this Act and the acts constituting the rights cancelled, transferred or corrected, give their registration numbers and, if required by the Civil Code, include a description of the movable or immovable property concerned. The power and capacity of Desjardins Trust and the Federation to act on behalf and in the name of the holder of the rights affected by such a cancellation, transfer or correction result from this section. The registrar must accept for registration any act referred to in this section that mentions that Desjardins Trust or the Federation is acting on behalf of and in the name of the holder of the rights referred to in this Act and that is certified by an advocate or a notary. The capacity of Desjardins Trust or the Federation to act on behalf of and in the name of the holder of those rights is then held to have been verified within the meaning of article 3009 of the Civil Code.

Letters patent of continuance.

8. Desjardins Trust is authorized to apply for letters patent of continuance under the Trust and Loan Companies Act (Statutes of Canada, 1991, chapter 45).

Extra-provincial company.

9. On the date stated in the letters patent of continuance, Desjardins Trust ceases to be a Québec company within the meaning of section 6 of the Act respecting trust companies and savings companies.

Coming into force.

10. This Act comes into force on 17 December 2004.

Chapter 55

AN ACT RESPECTING THE ASSOCIATION DES POLICIERS PROVINCIAUX DU QUÉBEC

[Assented to 17 December 2004]

Preamble.

AS the Association des policiers provinciaux du Québec was constituted as an association under the Professional Syndicates Act (R.S.Q., chapter S-40) on 5 April 1966;

As section 13.04 of the articles and operating by-laws of the Association confers on the general assembly of active members the power to ratify or revoke decisions that are made and that are submitted to it by the executive committee and the conference of delegates of the Association;

As section 13.03 of the articles and operating by-laws of the Association provides that the quorum for the general assembly of members is 250 active members;

As the articles and operating by-laws of the Association, and their subsequent amendments, and the other decisions made by the executive committee and the conference of delegates were never validly ratified by the general assembly of active members because the quorum required for the valid constitution and operation of the general assembly could not be reached;

As section 9 of the Professional Syndicates Act provides that the Association may establish and administer special funds for assistance in case of illness for the benefit of its members;

As the Association adopted by-laws entitled “Règlements du régime d’assurance-maladie de l’Association des policiers provinciaux du Québec” establishing a health insurance plan for its members, which plan came into force on 1 January 1980;

As section 3.06 of the health insurance plan by-laws provides that the executive committee of the Association may amend the provisions of the plan at any time provided that the amendments are ratified by the general assembly of active members;

As several amendments were made to the health insurance plan after it came into force without being validly ratified by the general assembly of active members of the Association because the quorum required for the valid constitution and operation of the general assembly could not be reached;

As the approval required by sections 9 and 29 of the Professional Syndicates Act with respect to the articles and by-laws governing a special fund for assistance in case of illness was never obtained;

As it is in the interest of the Association des policiers provinciaux du Québec that these irregularities be remedied;

THE PARLIAMENT OF QUÉBEC ENACTS AS FOLLOWS:

General assembly.

1. From 17 December 2004 and until sections 13.02 and 13.03 of the articles and operating by-laws of the Association des policiers provinciaux du Québec are amended according to the procedure set out in the articles and by-laws, the general assembly of active members of the Association may be held on the same date as the conference of delegates, and the quorum for that general assembly is 175 active members.

Articles and operating by-laws.

2. In the event that the general assembly of active members of the Association approves the articles and operating by-laws of the Association des policiers provinciaux du Québec adopted on 6 February 1966 and all amendments made to those articles and operating by-laws from the date they were adopted to 31 August 2004, the articles and operating by-laws and the amendments so approved are deemed to have been ratified and to be enforceable from the date they were adopted by the executive committee of the Association.

Decisions of executive committee.

The same applies to the decisions made by the executive committee and the conference of delegates from the date the Association des policiers provinciaux du Québec was formed until 31 August 2004.

Health insurance plan by-laws.

3. In the event that the general assembly of active members of the Association approves the health insurance plan by-laws of the Association des policiers provinciaux du Québec in force since 1 January 1980 and all amendments made to those by-laws from the date they came into force to 31 August 2004, except the amendment adopted on 31 May 2003 eliminating the requirement to submit amendments to the health insurance plan to an assembly of active members of the Association for ratification, the by-laws and the amendments so approved are deemed to have been ratified by the general assembly of active members of the Association and approved in accordance with sections 9 and 29 of the Professional Syndicates Act. They are deemed to be enforceable from the date they were adopted by the executive committee of the Association.

Prohibition.

4. No irregularity or illegality may be alleged against the articles and operating by-laws, the decisions made by the executive committee and the conference of delegates or the by-laws of the health insurance plan of the Association des policiers provinciaux du Québec referred to in sections 1, 2 and 3, except the amendment mentioned in section 3, on the grounds that they were not ratified by the general assembly of active members of the Association or that they were not approved in accordance with sections 9 and 29 of the Professional Syndicates Act.
