Draft Regulation

Building Act
(R.S.Q., c. B-1.1)

New residential buildings — Guarantee plan — Amendments

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Regulation to amend the Regulation respecting the guarantee plan for new residential buildings, the text of which appears below, may be approved by the Government, with or without amendment, on the expiry of 45 days following this publication.

The purpose of the amendments proposed in the draft Regulation is to make corrective adjustments to certain provisions that in the past have posed application difficulties, to extend the time for applying for mediation or arbitration to 30 days, to render stakeholders more accountable in how the regulation is applied by providing for civil penalties should managers or contractors fail in their obligations regarding information on the guarantee or its implementation, to provide for transmission of information on acceptance of the common portions to each known beneficiary, to govern the publicity of guarantee plans to ensure that a clear distinction is made between the compulsory guarantee plan and any other guarantee plan, to clarify certain time limits to be respected by the manager, to specify the information that must be contained in any decision rendered by the manager so that the beneficiary is made aware of available remedies in timely fashion, and to allow the manager to require new information from accredited contractors.

As regards poor workmanship, it is specified that the contractor's obligations under the guarantee plan are to be linked to the contractor's obligations under the Construction Code.

The amounts that may be the subject of claims are indexed according to the New Housing Price Index (NHPI) or the Consumer Price Indices (CPI), according to the nature of the amount to be adjusted.

The draft Regulation has no negative impact on the public or enterprises, including small and medium-sized businesses.

Further information may be obtained by contacting Guy Pelletier, Régie du bâtiment du Québec, 545, boulevard Crémazie Est, 7^e étage, Montréal (Québec) H2M 2V2; telephone: (514) 864-2491; fax: (514) 873-1939.

DIVISION IX DISCIPLINARY PROCESS

§1. Examination of complaints

52. Every complaint against a stenographer or a former stenographer for an offence against this Regulation, the Stenographers' Act (R.S.Q., c. S-33) or any other Act or regulation imposing a duty on the stenographer must be made in writing and sent to the chair of the Comité sur la sténographie.

53. The complainant must provide full details regarding the complaint and state, in particular, the nature and circumstances of the offence, and attach any testimony, information or document that may support the complaint.

54. A register of complaints must be kept and an acknowledgement of receipt for each complaint must be sent in writing by the secretary of the committee to the complainant as soon as possible.

55. Within 10 days of receipt of a complaint, the chair of the committee designates two members of the committee, namely one advocate and one stenographer, who summarily examine the content and decide how to dispose of the complaint.

56. The members of the committee seized of the complaint have 30 days following their designation to summarily examine the complaint and determine whether the complaint should be heard before the committee or dismissed.

57. If the complaint is considered to be unfounded, the members of the committee must provide a written decision setting out their reasons for dismissing the complaint. The decision is final and without appeal.

The secretary of the committee must send a copy of the decision to the complainant.

58. If the members of the committee accept the complaint or if they disagree, they so notify the chair and the complaint must be heard.

§2. Hearing

59. Within five days after receipt by the chair of the notice provided for in section 58, a copy of the complaint must be served on the stenographer in accordance with the provisions of the Code of Civil Procedure (R.S.Q., c. C-25).

A notice must be attached stating that the complaint was summarily examined and that it was decided to hold a hearing; the notice must also indicate that the stenographer has 20 days following the date of service to appear in writing at the head office of the committee.

60. When he or she appears, the stenographer must indicate whether or not he or she acknowledges the offence, failing which the stenographer is deemed to contest the offence.

61. On the expiry of the time provided for the stenographer to appear, the stenographer has 20 days to send the committee a written contestation, including a description of the facts, the written statements of the stenographer's witnesses and the exhibits in support of the contestation.

62. On the expiry of the time provided for in section 61, the chair designates two members of the committee, namely one advocate and one stenographer, neither of whom may be a member who summarily examined the complaint, to hear the complaint with the chair, and ensures that the complete record is forwarded to the designated members.

63. The committee formed to hear the complaint may sit in Montréal, Québec or any other place that, in its opinion, best suits the circumstances.

The members of the committee set the date for the hearing and draw up minutes to that effect. Before doing so, they may request the secretary of the committee to verify the availability of the complainant and the stenographer.

64. If a member of the committee is absent or unable to act, the member may be replaced by a person designated in the same manner as the person to be replaced.

If, during the hearing or advisement, a member is unable to act for any reason, the hearing may be validly continued and a decision validly rendered by the other two members.

65. A member of the committee may be recused for one of the reasons set forth in article 234 of the Code of Civil Procedure other than the reason in paragraph 7 of that article.

66. The hearing may not be stenographed unless a request from one of the parties is received at least three days before the date of the hearing or unless the committee so decides.

67. Every hearing is public.

The committee may, of its own motion or on request, order that a hearing be held *in camera* or ban access to or the publication or release of any information or document it indicates, in the interest of good morals or public order, in particular to preserve professional secrecy or protect a person's privacy or reputation.

68. Article 294.1 of the Code of Civil Procedure applies, with the necessary modifications, before the members of the committee.

69. Only the evidence collected by the committee during the hearing or in accordance with section 68 is to be taken into consideration.

70. The committee may conduct the hearing in the absence of the stenographer who is the subject of the complaint if the stenographer fails to appear at the time and place set for the hearing.

71. The complaint may be amended at any time, on the conditions necessary to safeguard the rights of the parties.

72. No person may testify, under penalty of nullity of the deposition, unless the person swears to tell the truth.

§3. Decision

73. The committee formed to hear the complaint must render its decision as to guilt within 60 days from the time the matter is taken under advisement.

74. The decision of the committee is rendered by a majority of its members. The decision and its reasons are recorded in writing and signed, and include any dissent.

A copy of the decision must immediately be sent to the parties by certified mail or by fax to their attorneys.

75. If the stenographer has been convicted, the parties may, within 30 days following the conviction, be heard by the committee formed to hear the complaint or make written submissions on the penalty to be imposed.

76. The committee must impose the penalty within 30 days following the submissions on penalty; the decision on the penalty and its reasons are recorded in writing and signed, and include any dissent, and must immediately be sent to the parties by certified mail or by fax to their attorneys.

77. The committee may order the complainant or the stenographer to pay all or part of the costs, or it may apportion the costs between them in the proportions it indicates.

78. The costs include the costs of stenography and transcribing testimony as well as the accommodation and travelling expenses of the committee members.

79. Where a stenographer has been convicted of an offence under Divisions VI to VIII, the committee may impose one or more of the following penalties in respect of each count in the complaint:

- (1) a reprimand;
- (2) a restriction on the right to practise stenography;
- (3) temporary striking off the roll of stenographers;
- (4) revocation of the stenographer certificate;
- (5) the obligation to remit to a person entitled to it a sum of money the stenographer is holding for the person;
- (6) the obligation to transmit any document or information, or the obligation to complete, update or rectify any document or information.

80. A decision of the committee may also require the stenographer to successfully complete an internship or a refresher course, or both, and restrict the stenographer's right to practise or temporarily strike the stenographer off the roll until that requirement is met.

81. A decision of the committee may also recommend that the stenographer submit to a program designed to facilitate the stenographer's return to the practice of stenography.

82. The revocation of a stenographer certificate results in the permanent striking of the stenographer off the roll.

83. Every decision of the committee is final and without appeal.

84. Stenographers who have been struck off the roll or whose right to carry on their activities has been restricted may, before the expiry of the penalty, request to the Comité sur la sténographie, by way of a petition to the chair, that they be re-entered on the roll or, in the case of a restriction, that they be allowed to resume full right to practise.

The rules for hearings set out in this Regulation apply, with the necessary modifications, to the hearing of the petition.

85. A decision of the committee may be corrected if it contains an error in writing, a mistake in calculation or any other clerical error.

Such correction may be effected by the committee of its own initiative, as long as execution of the decision has not commenced. It may also be effected on the motion of a party served in accordance with the Code of Civil Procedure.

86. This Regulation comes into force on the date of coming into force of sections 2 and 5 to 8 of the Act to amend the Act respecting the Barreau du Québec and the Stenographers' Act (2001, c. 64).
