Food

— Amendments

Regulation to amend the Regulation respecting food

WHEREAS, under paragraphs *f*, *g* and *n* of section 40 of the Food Products Act (R.S.Q., c. P-29), the Government may make regulations respecting the various matters set forth therein;

WHEREAS, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), a draft of the attached Regulation was published in Part 2 of the *Gazette officielle du Québec* of 20 July 2005 with a notice that it could be made by the Government on the expiry of 45 days following that publication;

WHEREAS it is expedient to make the Regulation with amendments;

IT IS ORDERED, therefore, on the recommendation of the Minister of Agriculture, Fisheries and Food:

THAT the Regulation to amend the Regulation respecting food, attached to this Order in Council, be made.

ANDRÉ DICAIRE,
Clerk of the Conseil exécutif

Regulation to amend the Regulation respecting food*

Food Products Act
(R.S.Q., c. P-29, s. 40, pars. *f*, *g* and *n*)

1. The Regulation respecting food is amended in section 1.1.1 by inserting the following after subparagraph *j* of the first paragraph:

“(k) “hot or cold unit”: for the purpose of establishing the fees payable for the permits referred to in subparagraphs 1 and 2 of the first paragraph and subparagraphs 1 and 3 of the second paragraph of section 1.3.6.7, a device, container or other installation designed to keep food hot at 60 °C or above, or to keep food cold at 13 °C or below and containing food offered to consumers in a self-service environment.

A device, container or installation referred to in the first paragraph that is at least 1.5 metres high and not more than 3.65 metres long constitutes a unit. If the device, container or installation at least 1.5 metres high is longer than 3.65 metres, the number of units is calculated by adding the lengths of each side accessible to the public and dividing the result obtained by 3.65 metres. The latter result is then rounded up to the next whole number; if the fraction is 0.5, the number is rounded up to the next higher whole number.

A device, container or installation not referred to in the second paragraph constitutes a unit if its surface area is 3.35 square metres or less. If that surface area exceeds 3.35 square metres, it constitutes more than one unit, namely the number obtained by dividing the surface area by 3.35 square metres. The result is then rounded up to the next whole number; if the fraction is 0.5, the number is rounded up to the next higher whole number.

* The Regulation respecting food (R.R.Q., 1981, c. P-29, r.1) was last amended by the regulation made by Order in Council 466-2005 dated 18 May 2005 (2005, *G.O.* 2, 1224). For previous amendments, refer to the *Tableau des modifications et Index sommaire*, Québec Official Publisher, 2005, updated to 1 March 2005.

In the case of devices, containers or installations referred to in the third paragraph placed side by side with no space in between, the surface area for the purpose of determining the number of units they constitute is the sum of the surface areas of each device, container or installation.

Despite this subparagraph and for the purposes of the third paragraph of section 1.3.6.7, a device, container or any other installation that keeps food cold consisting solely of fresh whole, cut, peeled, grated or sliced fruit or vegetables is not taken into consideration in the calculation of the number of hot or cold units.

This subparagraph does not apply to the hot or cold units in the rooms of tourist accommodation establishments as defined in section 1 of the Regulation respecting tourist accommodation establishments made by Order in Council 1111-2001 dated 19 September 2001.”.

2. Section 1.3.1.1 is amended

(1) in the second paragraph,

(a) by replacing subparagraph 2 by the following:

“(2) where applicable, the registration number assigned to the person under the Act respecting the legal publicity of sole proprietorships, partnerships and legal persons (R.S.Q., c. P-45);”;

(b) by inserting the following after subparagraph 6:

“(6.1) for the purpose of establishing the fees payable for the permits referred to in subparagraphs 1 and 2 of the first paragraph and subparagraphs 1 and 3 of the second paragraph of section 1.3.6.7, the total number of hot or cold units containing food offered to consumers in a self-service environment, other than units that keep food cold consisting solely of fresh whole, cut, peeled, grated or sliced fruit or vegetables, calculated in the manner described in subparagraph *k* of the first paragraph of section 1.1.1;”;

(2) by replacing the third paragraph by the following:

“Every permit application must be accompanied by payment to the Minister of Finance of the amount of the fees payable for the issue of each permit and by payment of the costs for the opening of a file for a permit application.

Despite the third paragraph, no costs for the opening of a file are payable for the permits referred to in paragraphs 3 and 4 of section 1.3.5.B.1 and paragraphs 3 and 4 of section 1.3.5.C.1.”.

3. Section 1.3.1.5 is amended by replacing “by money order or certified cheque, payable to the order of the Minister of Finance, at least 60 days prior to the date of expiry of the permit” by “to the Minister of Finance. The application and the fees payable must be received by the Minister before the permit expiry date.”.

4. Section 1.3.1.8 is amended by inserting “the number of hot or cold units,” after “validity period of the permit,” in the second paragraph.

5. Section 1.3.5.C.1 is amended

(1) by replacing “4” in the part before paragraph 1 by “6”;

“(1) “general preparation without buffet” permit;

(1.1) “general preparation with buffet” permit;

(2) “keep hot or cold without buffet” permit;

When applying for the permit, the operator must indicate which of the two subparagraphs corresponds to the principal activity of the operation for which the permit is to be issued. Draft Regulation

Legal Aid Act
(R.S.Q., c. A-14)

Legal aid — Amendments

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Regulation to amend the Regulation respecting legal aid, the text of which appears below, may be made by the Government on the expiry of 45 days following this publication.

The draft Regulation provides for increases in the thresholds of eligibility for gratuitous or contributory legal aid to take place each year from January 2006 to January 2010. The thresholds of eligibility on 1 January 2010 are to be harmonized, generally speaking, with the thresholds of exit under the Employment Assistance Program for persons who have a severely limited capacity for employment, these thresholds being increased to take into account the maximum amounts provided for in the child assistance plan. In January 2006, the threshold of eligibility for a single person will be \$9695, an increase of more than 9% in relation to the current threshold of \$8870. Moreover, as of 1 January 2007, the draft Regulation proposes, in addition to the increase provided therein, an annual increase of the thresholds of eligibility equivalent to that applicable, if any, in the benefits paid by the Employment Assistance Program to persons who have a severely limited capacity for employment pursuant to the Act respecting income support, employment assistance and social solidarity (R.S.Q., c. S-32.001). Such annual increase, if any, will be maintained after January 2010.

The draft Regulation will make it possible for several thousand additional persons to have access to legal aid by increasing the financial eligibility thresholds.

To date, study has shown that the amendments will have no financial impact on enterprises, including small and medium-sized businesses.

Further information may be obtained by contacting Pierre Dion, Bureau de la sous-ministre, Ministère de la Justice, 1200, route de l’Église, 9^e étage, Sainte-Foy (Québec) G1V 4M1; telephone: 418 643-4090; fax: 418 643-3877; e-mail: pdion@justice.gouv.qc.ca.

Any person having comments on the matter is asked to send them in writing, before the expiry of the 45-day period, to the Minister of Justice, 1200, route de l’Église, 9^e étage, Sainte-Foy (Québec) G1V 4M1.

YVON MARCOUX,
Minister of Justice

* The Regulation respecting exemptions applicable to securities sectors, approved by Order in Council 747-2005 dated 17 August 2005 (2005, *G.O.* 2, 3456), was not modified since its approval.

Draft Regulation

An Act respecting the Ministère du Travail
(R.S.Q., c. M-32.2)

Tariff of charges for subscription to a computerized research service regarding labour relations and conditions of employment

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Regulation respecting the tariff of charges for subscription to a computerized research service regarding labour relations and conditions of employment, the text of which appears below, may be made by the Government on the expiry of 45 days following this publication.

The purpose of the draft Regulation is to establish subscription charges for a computerized research service made available on the Internet by the Minister of Labour. To that end, four types of subscription are proposed.

The draft Regulation has no negative impact on enterprises, including small and medium-sized businesses.

Further information may be obtained by contacting Hélène Laverdure, Direction des ressources financières et matérielles, Ministère du Travail, 200, chemin Sainte-Foy, 5^e étage, Québec (Québec) G1R 5S1; telephone: 418 643-2924; fax: 418 528-6058; e-mail: helene.laverdure@travail.gouv.qc.ca.

Any interested person having comments to make on the draft Regulation is asked to send them in writing, before the expiry of the 45-day period, to the Minister of Labour, 200, chemin Sainte-Foy, 6^e étage, Québec (Québec) G1R 5S1.

LAURENT LESSARD,
Minister of Labour

Regulation respecting the tariff of charges for subscription to a computerized research service regarding labour relations and conditions of employment

An Act respecting the Ministère du Travail
(R.S.Q., c. M-32.2, s. 16.1)

1. This Regulation applies in respect of a computerized research service for various documents concerning labour relations and conditions of employment made available by subscription on the Internet by the Minister of Labour.

A subscription to the service enables collective agreements, certain agreements, arbitration awards of disputes and grievances, certain decisions and orders given by the Commission des relations du travail and certain petitions filed with the Commission to be searched.

2. An individual subscription may be daily, monthly or annual. A group subscription is annual.

3. The subscription charges are as follows:

- | | |
|---|----------|
| (1) daily individual subscription: | \$30; |
| (2) monthly individual subscription: | \$150; |
| (3) annual individual subscription: | \$1,000; |
| (4) group subscription for a maximum of five users: | \$3,000; |
| (5) additional user in a group subscription: | \$300. |

The charges are adjusted on 1 April of each year based on the percentage change in the All-items Consumer Price Index for Canada for the preceding calendar year. The change is calculated by comparing the index for the preceding year with the index for the year preceding that year. The index for a given year is the average of the monthly indexes published by Statistics Canada.

The adjusted amounts are reduced to the nearest dollar if they contain a fraction of a dollar less than \$0.50; they are increased to the nearest dollar if they contain a fraction of a dollar equal to or greater than \$0.50.

The Minister is to publish the results of the adjustment in Part 1 of the *Gazette officielle du Québec* or by such other means as the Minister considers appropriate.

4. This Regulation comes into force on the fifteenth day following the date of its publication in the *Gazette officielle du Québec*, except the second, third and fourth paragraphs of section 3, which come into force on 2 April 2006.

Draft Regulation

Environment Quality Act
(R.S.Q., c. Q-2)

Water quality in swimming pools and other artificial pools

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1) and section 124 of the Environment Quality Act, that the Regulation respecting water quality in swimming pools and other artificial pools, the text of which appears below, may be made by the Government on the expiry of 60 days following this publication.

The draft Regulation replaces the Regulation respecting public wading and swimming pools that dates back to 1976. The purpose of the draft Regulation is to establish water quality standards for swimming pools and other artificial pools located indoors or outdoors and used for swimming, recreation, sports or leisure purposes. Public pools are covered as are private pools reserved exclusively for the residents and guests of immovables or mobile home parks having more than nine dwelling units.

The draft Regulation prescribes pool water quality standards based on the latest Canadian and American studies on the subject. Pool operators are to monitor water quality using water samples collected at specific frequencies and in certain cases sent for analysis to laboratories accredited by the Minister of Sustainable Development, Environment and Parks. The monitoring results are to be entered in a public record maintained by the person in charge of the pool.

The draft Regulation eliminates the need for the issuance of permits and other authorizations by the Minister of Sustainable Development, Environment and Parks in relation to swimming pools and other artificial pools. Several standards, in particular standards relating to the construction of pools and their water treatment systems, will no longer be included in the Regulation, but rather in a technical guide setting out the rules for pool installation and maintenance.

This Regulation applies to swimming pools and other artificial pools accessible to the general public or a restricted group of persons and to private swimming pools and other artificial pools reserved exclusively for the residents and invited guests of immovables or mobile home parks having more than nine dwelling units.

3. This Regulation does not apply to swimming pools and other artificial pools that are

(1) used only for hygienic, therapeutic, rehabilitation or ritual purposes;

(2) special purpose floating baths or thermal pools;

(3) temporary pools used only for competition purposes;

(4) fountains or water displays connected directly to a waterworks system, without water recirculation, and in which the accumulation of water is less than 5 cm;

(5) pools created for architectural or ornamental purposes; or

(6) artificial lakes.

4. The “person in charge of a pool” means the owner or operator of a swimming pool or other artificial pool to which this Regulation applies.

CHAPTER II WATER QUALITY STANDARDS

5. The bacteriological and physicochemical quality of pool water must comply with the following standards:

BACTERIOLOGICAL PARAMETERS

Parameter	Standard
Facultative aerobic and anaerobic heterotrophic bacteria	<100 CFU/ml (colony forming units)
<i>Escherichia coli</i>	<1 CFU/100 ml
<i>Pseudomonas aeruginosa</i>	<1 CFU/100 ml
<i>Staphylococcus aureus</i>	<30 CFU/100 ml

PHYSICO-CHEMICAL PARAMETERS

Parameter	Standard
Alkalinity	80 – 150 mg/l CaCO ₃
Cyanuric acid (outdoor pools only)	30 – 100 mg/l
Chloramines	≤0.5 mg/l
Residual disinfectant	
Free chlorine: indoor pools	0.8 to 2 mg/l
outdoor pools	0.8 to 3 mg/l
Total bromine	2 to 5 mg/l
Ozone	0 mg/l
pH	7.2 – 7.8
Oxidation-reduction potential (ORP)	>700 millivolts
Turbidity	≤0.5 NTU (nephelometric turbidity unit)

If cyanuric acid is used during the disinfection of the water in an outdoor pool, the concentration of free residual disinfectant must be increased by one unit. Cyanuric acid must not be used in indoor pools.

6. If the pool water temperature exceeds 35 °C, the standards set out in section 5 apply, except the standards for chlorine, bromine and oxidation-reduction potential which are the following:

STANDARDS FOR RESIDUAL DISINFECTANT AND ORP WHEN WATER TEMPERATURE EXCEEDS 35 °C

Parameter	Standard
Residual disinfectant	
Free chlorine	2 to 3 mg/l
Total bromine	3 to 5 mg/l
Oxidation-reduction potential (ORP)	>750 mV

7. Pool water clarity must be such that the black disc referred to in section 12 of the Regulation respecting safety in public baths (R.R.Q., 1981, c. S-3, r.3) is visible from any point at the edge of the pool.

8. Fill and draw pools with no water circulation system must be drained and disinfected daily before being refilled and reused.

Sections 5 to 7 of this Chapter and Chapters III to V of this Regulation do not apply to fill and draw pools.

CHAPTER III WATER QUALITY MONITORING

DIVISION I NATURE AND FREQUENCY OF SAMPLINGS

9. The person in charge of a public pool or a private pool for the use of immovables or mobile home parks having more than 50 dwelling units must collect or have water samples collected for on-site analysis of the following physicochemical parameters, at the corresponding minimum frequencies:

SAMPLINGS

Parameter	Frequency
Alkalinity	Once a week
Free residual disinfectant (chlorine, bromine or ORP)	On opening, every three hours during operation and on closing

Parameter	Frequency
Chloramines	At the same time as the free residual disinfectant readings
pH	At the same time as the free residual disinfectant readings
Clarity	Midday once a day
Temperature	Midday once a day

If the pool is equipped with continuous measuring and recording equipment, the person in charge of the pool must record the results of the free residual disinfectant tests at the frequency indicated above and perform at least one manual test per day for comparison purposes.

10. The person in charge of a public pool or a private pool for the use of immovables or mobile home parks having more than 50 dwelling units must also collect or have water samples collected to monitor

(1) facultative aerobic and anaerobic heterotrophic bacteria and *Escherichia coli*;

(2) turbidity; and

(3) *Pseudomonas aeruginosa* bacteria if the water temperature regularly exceeds 35 °C. In that case, the requirement to monitor facultative aerobic and anaerobic heterotrophic bacteria does not apply to the person in charge of the pool.

Samples are to be collected at least one hour after the pool opens, at least twice per month of operation for outdoor pools and once per month of operation for indoor pools, with samples taken no fewer than 10 days apart during the pool opening period. In the case of outdoor pools, the first microbiological analysis results must comply with the standards at the time the season opens.

Samples for turbidity analysis are to be collected at the filtration system outlet or in the return inlet.

11. The person in charge of a private pool for the use of immovables or mobile home parks having fewer than 51 dwelling units must collect or have water samples collected at least twice a day, approximately one hour after the opening of the pool and at midday, for on-site analysis of the pH and free residual disinfectant, namely chlorine, bromine or ORP.

DIVISION II METHODS FOR COLLECTING, PRESERVING, ANALYZING AND SENDING SAMPLES

12. The water samples required by this Chapter must be collected and preserved as well as analyzed or sent, as applicable, in accordance with the methods described in the guide entitled *Méthodes de prélèvement, de conservation et d'analyse des échantillons relatifs à l'évaluation de la qualité de l'eau des piscines et autres bassins artificiels*, published by the Ministère du Développement durable, de l'Environnement et des Parcs.

13. Water samples collected pursuant to section 10 must be sent for analysis to laboratories accredited by the Minister of Sustainable Development, Environment and Parks under section 118.6 of the Environment Quality Act (R.S.Q., c. Q-2).

The analysis request forms furnished by the laboratories must be duly completed and sent with the samples.

The analyzing laboratory must send the sample analysis results to the person in charge of the pool concerned within ten days after the samples are collected.

CHAPTER IV NON-COMPLIANCE WITH WATER QUALITY STANDARDS

14. The laboratory analyzing a water sample must immediately communicate any result indicating that the water does not comply with a bacteriological or turbidity standard to the person in charge of a public pool or a private pool for the use of immovables or mobile home parks having more than 50 dwelling units.

15. If the pool water does not comply with one of the water quality standards in Chapter II, the person in charge of the pool must as soon as possible take the necessary remedial measures. In particular, the person in charge of the pool must ascertain whether the system is being adequately maintained and operated and, if necessary, adjust the level of free disinfectant in the water.

If a sample analysis shows that the water contains *Escherichia coli* or *Pseudomonas aeruginosa* bacteria, the person in charge of the pool must collect or have a second sample collected within 24 hours after obtaining the results to test for the presence of the identified microorganism.

16. The person in charge of a pool must close and immediately evacuate the pool when events such as accidents, water treatment equipment failure or any other infrastructure breakdown may degrade water quality and expose persons to soiling or contamination.

The person in charge of a pool must do the same in the presence of

(1) *Escherichia coli* or *Pseudomonas aeruginosa* bacteria in the second sample collected pursuant to the second paragraph of section 15;

(2) free residual chlorine over 5 mg/l;

(3) vomitus or feces; or

(4) chloramines over 1.0 mg/l.

The person in charge of the affected pool must as soon as possible inform the public health director of the measures taken when an event referred to in the first paragraph occurs, in the situations referred to in subparagraphs 1 to 3 of the second paragraph and if the situation referred to in subparagraph 4 of the second paragraph persists for more than 24 hours. For the purposes of section 83 of the Environment Quality Act, the person in charge of the pool must also inform the municipality concerned of any incident that requires the closing of the pool.

The person in charge of the pool may reopen the pool as soon as water quality once again complies with the quality standards in Chapter II; the person must so inform every person required to be notified when the pool was closed.

CHAPTER V RECORD

17. The person in charge of a pool must maintain a record containing

(1) the results of the water monitoring tests conducted pursuant to sections 9 and 10 or 11, as applicable;

(2) identification of the pool, the date of the monitoring and the name of the persons who performed the monitoring;

(3) the number of bathers present during the monitoring; and

(4) any information pertaining to the events referred to in the first paragraph of section 16.

18. Each person conducting water monitoring tests must enter the results in the record and certify therein that he or she collected, preserved and analyzed, in accordance with this Regulation, the samples required to be analyzed on site.

The person must also certify that he or she collected, preserved and sent the laboratory samples in accordance with this Regulation, and that the results received pursuant to section 13 were accurately entered in or attached to the record.

The person in charge of the pool must ensure that the entries and certifications in the record comply with the requirements of this section.

19. The record must be kept for a minimum of two years and be made available to the Minister of Sustainable Development, Environment and Parks and the public health director of the region concerned. The record must be posted where it may be easily consulted by any interested person.

CHAPTER VI GENERAL

20. Every person in charge of a pool who allows access to the pool while the water does not comply with the quality standards in Chapter II or who contravenes any of sections 9 to 12, the first or second paragraph of section 13, section 17, the third paragraph of section 18 or section 19 is liable

(1) to a fine of \$1,000 to \$10,000, in the case of a natural person; and

(2) to a fine of \$2,000 to \$20,000, in the case of a legal person.

21. Every person in charge of a pool who contravenes section 15 or 16 is liable

(1) to a fine of \$2,000 to \$20,000, in the case of a natural person; and

(2) to a fine of \$4,000 to \$40,000, in the case of a legal person.

22. Every laboratory that contravenes the third paragraph of section 13 or section 14 is liable to a fine of \$2,000 to \$20,000.

23. In the case of a second or subsequent offence, the fines prescribed by this Chapter are doubled.

For this purpose, briefs must be received within sixty days of publication of this notice, i.e. before December 27, 2005, at the following address: Ministère du Développement Durable, de l'Environnement et des Parcs, Service des parcs, Édifice Marie-Guyart, 675, boulevard René-Lévesque Est, 4^e étage, boîte 21, Québec (Québec) G1R 5V7.
