IT IS ORDERED, therefore, on the recommendation of the Minister of Employment and Social Solidarity:

THAT the Regulation respecting training mutuals, attached to this Order in Council, be approved.

GÉRARD BIBEAU,
Clerk of the Conseil exécutif

Regulation respecting training mutuals

An Act to promote workforce skills development and recognition
(R.S.Q., c. D-7.1, ss. 8, 20, 1st par., subpars. 1 and 2 and 2nd par., and s. 21, pars. 1 to 3;
2007, c. 3, ss. 7 and 15)

DIVISION I OBJECT

1. The payments made by an employer to a training mutual or the expenditures incurred by an employer with such a mutual are eligible as training expenditures insofar as the training mutual is recognized by the Minister of Employment and Social Solidarity pursuant to this Regulation.

2. The purpose of a training mutual is to structure, develop and implement a training services offer adapted to the workforce characteristics and needs in a sector of economic activity or a region, to their socio-economic environment and to technological or structural changes in the market.

DIVISION II RECOGNITION AS A TRAINING MUTUAL

3. Only a sectoral workforce committee, a parity committee constituted under the Act respecting collective agreement decrees (R.S.Q., c. D-2) or a regional grouping of employers constituted as a legal person under Part III of the Companies Act (R.S.Q., c. C-38), having a multiparty board of directors composed of a majority of representatives of employers and of representatives of the workforce of the employer members, may be recognized as a training mutual.

4. To be recognized as a training mutual, the applicant must show that the employers prepared to participate in the training mutual belong to the same sector of economic activity or are from the same region and share common problems associated with skills development and recognition.

The applicant must also show that the mutualisation of training services is an appropriate manner of addressing those problems and that a sufficient number of employers share a desire to work collaboratively to that end.

Problems are considered common if the employers have similar training or training management and organization needs, or the characteristics specific to a sector of economic activity or a region are such that it is difficult for the employers in that sector or region to allocate an amount for eligible training expenditures that is at least 1% of their payroll.

5. An application to have a training mutual recognized must contain the following information provided by the applicant:

(1) the applicant's name and address;

(2) the applicant's Québec business number assigned under section 21 of the Act respecting the legal publicity of sole proprietorships, partnerships and legal persons (R.S.Q., c. P-45);

(3) the sector of economic activity or the region concerned;

(4) a description of the composition of its board of directors; and

(5) identification of the employers who are members of the group.

DIVISION III

DURATION, SUSPENSION AND REVOCATION OF RECOGNITION

6. A training mutual is recognized for a period of three years.

The recognition may be renewed thereafter for the same period provided that the applicant complies with the conditions set out in this Regulation.

7. The Minister may suspend or revoke a training mutual's recognition for fraud or misrepresentation or if the Minister becomes aware that the conditions set out in the Act or in this Regulation were not or are no longer being complied with.

Before making such a decision, the Minister must notify the holder of the recognition in writing as prescribed by section 5 of the Act respecting administrative justice (R.S.Q., c. J-3) and allow the holder at least 10 days to present observations.

8. The Minister is to give public notice of the suspension or revocation of a training mutual's recognition by any means the Minister considers appropriate.

DIVISION IV

FINANCIAL PROVISIONS, STATEMENT AND ATTESTATION

9. The sums received by a training mutual as employer payments or employer expenditures must be used in their entirety for

(1) the services or activities relating to skills development and recognition for the workforce of the employers having made a payment or incurred an expenditure, such as determination of personnel training needs, preparation of an adapted training offer, training planning, management and organization, training impact analyses or negotiation of agreements with service providers;

(2) training activities and their assessment; and

(3) the training mutual's expenses.

The same applies to interest earned on employer payments.

10. A training mutual must maintain a detailed statement of revenue and expenditure for the purposes of this Regulation and retain all relevant vouchers. It must forward to the Minister any voucher the Minister may request.

The accounting must be separate from that of its other activities.

11. Payments received by a training mutual must be deposited in a trust account, a chartered bank or other institution authorized by law to receive deposits.

12. When the activities of a training mutual cease by reason of a refusal to renew its recognition or because of a suspension or revocation of its recognition, or for any other reason, the sums collected by the training mutual and the interest earned on unexpended sums must be paid into the Workforce Skills Development and Recognition Fund.

If the training mutual's activities cease because of a revocation, the sums are maintained in the Fund for a period not exceeding three years after the date of the decision, to be used to train the personnel of the employers having made a payment to the training mutual whose recognition is revoked.

13. For each calendar year and for the purposes of the Act, a training mutual is to give each employer having participated in the training mutual a statement of the employer's expenditures that are eligible as payments made to or expenditures incurred with the training mutual.

14. A training mutual must ensure that employees participating in a training activity it organizes receive a participation voucher once their participation has ended. It must also be able to issue such a voucher at any subsequent time, at the request of a participant.

DIVISION V

ACCOUNTABILITY

15. A training mutual must maintain and make available to the Minister a record in which it enters, for each training activity,

(3) the names of the recognized educational institution, instructor or training body;

- (4) the names of the employers involved;
- (5) the number of participating employees and the classes of employment involved;
- (6) the cost; and
- (7) the result of the assessment.

16. A training mutual must file with the Minister, on or before 31 March of each year, audited financial statements and an annual report of activities. The report must include

- (1) a list of employers having made a payment or incurred an expenditure;
- (2) the amount of the sums obtained from the employers referred to in paragraph 1;
- (3) a list of the activities held; and
- (4) the clientele to whom the activities were directed and the number of participation vouchers issued pursuant to section 14.

DIVISION VI FEES

17. The fees for the processing of a recognition application or renewal application are \$250, except for a sectoral committee.

DIVISION VII TRANSITIONAL AND FINAL

18. This Regulation replaces the Regulation respecting collector organizations approved by Order in Council 874-97 dated 2 July 1997.

A collector organization recognized by that Regulation has six months from the date of coming into force of this section to obtain recognition pursuant to this Regulation as a training mutual. If that recognition is not obtained, the sums collected by the organization and the interest earned on unexpended sums must be paid into the Workforce Skills Development and Recognition Fund. The second paragraph of section 12 of this Regulation applies, with the necessary modifications, to those sums.

Regulation respecting the exemption applicable to a holder of a training initiative quality certificate

An Act to promote workforce skills development and recognition
(R.S.Q., c. D-7.1, s. 20, 1st par., subpar. 3 and 2nd par.; 2007, c. 3, s. 14)

DIVISION I TRAINING INITIATIVE QUALITY CERTIFICATE

§1. Object and publicity

1. An employer who holds a training initiative quality certificate is exempt from the application of Divisions I and II of Chapter II of the Act. The employer is presumed to participate in workforce skills development for the effective period of the certificate.

2. The Minister is to make the list of employers holding a training initiative quality certificate public by any means the Minister considers appropriate.

§2. Conditions for issue

3. A training initiative quality certificate is issued by the Minister to an employer who applies therefor in writing, using the form provided, if the following conditions are met:

(1) the employer undertakes, for the effective period of the certificate, to engage in continuous training of its employees by implementing and applying a skills development process in keeping with the strategy of the enterprise, department or body, which includes

(a) an analysis of the situation of the enterprise, department or body, its perspectives as regards skills improvement and development and identification of its training needs;

(b) a plan of the proposed training activities, including a mechanism to follow up on their implementation; and

(c) mention of the method chosen to assess the effects of the training given to employees;

(2) the skills development process is prepared within the enterprise, department or body, within the framework of a formal cooperation structure requiring the participation of representatives of both the employer and the employees;

(3) the skills development process involves the participation of representatives of both the employer and the employees at every step of its implementation; and

(4) the employer undertakes to allow verification in accordance with section 7.

4. For the purposes of paragraphs 2 and 3 of section 3, each certified association of employees representing the employees of the employer, and the employees who are not represented by a certified association may designate at least one representative.

§3. Term, conditions for renewal and revocation

5. A training initiative quality certificate is effective for three calendar years, including the calendar year of the application.

It may be renewed thereafter for periods of 3 calendar years, provided that the employer applying for renewal complies with all the conditions set out in this Regulation and maintains the skills development process.

6. Following verification or a complaint, or on the Minister's own initiative, the Minister may revoke a training initiative quality certificate in a case of fraud or misrepresentation, or if the Minister becomes aware that the conditions and undertakings set out in this Regulation were not or are no longer being complied with.

Before making such a decision, the Minister must notify the certificate holder in writing as prescribed by section 5 of the Act respecting administrative justice (R.S.Q., c. J-3) and grant the certificate holder at least 10 days to present observations.

For the calendar year in which the certificate is revoked, the employer is required to participate in workforce training development by allocating an amount for eligible training expenditures that is at least 1% of its payroll.

In addition, as an administrative penalty, such an employer must pay an amount equal to 1% of its payroll into the Workforce Skills Development and Recognition Fund for the years in which the employer was exempted without entitlement. The employer may, however, deduct from that amount the eligible training expenditures that the employer can justify in accordance with the Act for that period. The employer may not apply for another training initiative quality certificate before the expiry of a 5-year period.

DIVISION II VERIFICATION

7. The Minister may verify or cause to be verified the manner in which the skills development process of an employer holding a training initiative quality certificate is implemented and applied. The verification pertains to the application of this Regulation, in particular compliance with the conditions and undertakings under section 3.

On request, the person conducting the verification must produce identity and the certificate signed by the Minister attesting to the person's status.

However, an exemption granted under that Regulation remains valid for its remaining term.

10. This Regulation comes into force on 1 January 2008.

Important

Overtime pay, retroactive pay, bonuses, and similar amounts are considered wages if they are paid along with the employee's wages. If they are paid separately, do not use the following tables; instead, deduct 4.95% of the gross amount without taking the exemption into account.

Important

Overtime pay, retroactive pay, bonuses, and similar amounts are considered wages if they are paid along with the employee's wages. If they are paid separately, do not use the following table; instead, deduct 4.95% of the gross amount without taking the exemption into account.

Draft Regulation

Building Act
(R.S.Q., c. B-1.1)

Regulation — Amendments

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Regulation to amend the Regulation respecting the application of the Building Act, appearing below, may be made by the Government on the expiry of 45 days following this publication.

The draft Regulation is complementary to the draft Regulation respecting the professional qualification of contractors and owner-builders. The proposed amendments introduced further relax requirements for owner-builders and include a licence exemption for low-risk work. As for higher-risk work, a licence exemption is provided for if the owner-builder has the work carried out by a specialized contractor holding all the licence subclasses required for the work. An amendment is made, however, to the licence exemption for work estimated at less than \$20,000 so that it applies only to maintenance and repair work carried out on a building for an owner-builder.

The draft Regulation also exempts owner-builders from the requirement to prove their knowledge in administration and in project management. Natural persons apply-

ing for a licence for themselves or for legal persons or partnerships must prove their knowledge or experience in higher-risk work.

The draft Regulation proposes to exempt trustees in bankruptcy from the requirement to hold a licence for the carrying out of work entrusted to a holder of a general contractor's licence or a specialized contractor's licence.

Lastly, under the draft Regulation, general or undeclared partnerships that are constituted for only one construction project are exempted on certain conditions from the requirement to hold a licence.

The draft Regulation will have no negative impact on the public or on enterprises, including small and medium-sized businesses.

Further information may be obtained by contacting Jocelyne Raymond, Régie du bâtiment du Québec, 545, boulevard Crémazie Est, 7^e étage, Montréal (Québec) H2M 2V2; telephone: 514 873-0303; fax: 514 873-1939.

Any person wishing to comment on the draft Regulation is requested to submit written comments to Daniel Gilbert, President and Chief Executive Officer, Régie du bâtiment du Québec, 545, boulevard Crémazie Est, 3^e étage, Montréal (Québec) H2M 2V2, within the 45-day period.

Draft Regulation

An Act respecting contracting by public bodies
(2006, c. 29)

Construction contracts of public bodies — Promise and awarding of grants

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Regulation respecting construction contracts of public bodies and amending other regulatory provisions, appearing below, may be made by the Government on the expiry of 45 days following this publication.

The draft Regulation determines the conditions governing construction contracts entered into by public bodies subject to the Act respecting contracting by public bodies (2006, c. 29). In compliance with all applicable inter-governmental agreements, it aims to promote the objectives set out in section 2 of the Act respecting contracting by public bodies that include transparency in contracting processes, honest and fair treatment of tenderers, and accountability reporting by the chief executive officers of public bodies to verify the proper use of public funds.

The draft Regulation also proposes to revoke the provisions of the following regulations and by-laws currently applicable to construction contracts: the Regulation respecting supply contracts, construction contracts and service contracts of government departments and public bodies, made by Order in Council 961-2000 dated 16 August 2000, the By-law respecting special rules governing supply contracts, construction contracts, and services contracts of the Société immobilière du Québec, approved by Order in Council 76-96 dated 24 January 1996, the By-law concerning special rules respecting certain contracts entered into by the Société québécoise d'assainissement des eaux, approved by Order in Council 1229-94 dated 17 August 1994, the Regulation respecting the application of the Act respecting health services and social services (R.R.Q., 1981, c. S-5, r.1), the Regulation respecting contracts of the Corporation d'hébergement du Québec, approved by Order in Council 972-2001 dated 23 August 2001, the Regulation respecting building construction by establishments, regional councils and the Corporation d'hébergement du Québec, approved by Conseil du trésor Decision 148183 dated 10 January 1984, the Regulation respecting construction contracts

for immovables of school boards, made by Order in Council 1015-90 dated 11 July 1990, the Regulation respecting contracts for the construction of immovables of general and vocational colleges, made by Order in Council 1072-94 dated 13 July 1994, and the Regulation respecting grants for the purposes of construction (R.R.Q., 1981, c. A-6, r.29).

It also proposes to amend the Regulation respecting the promise and awarding of grants (R.R.Q., 1981, c. A-6, r.22) since colleges and universities are to be subject to the Regulation respecting construction contracts of public bodies.

The draft Regulation has no significant impact on the public. It will lighten the administrative burden of enterprises since they will be subject to only one regulation, which should also reduce their administrative expenses.

Further information on the draft Regulation may be obtained by contacting Lucien Turcotte, Director, Réglementation en biens et services, Secrétariat du Conseil du trésor, 875, Grande-Allée Est, Québec (Québec) G1R 5R8; telephone: 418 644-3421; fax: 418 528-6877; e-mail: lucien.turcotte@sct.gouv.qc.ca

Any interested person wishing to comment on the draft Regulation may do so before the expiry of the 45-day period by writing to the Minister responsible for Government Administration and Chair of the Conseil du trésor, 875, Grande-Allée Est, Québec (Québec) G1R 5R8.

MONIQUE JÉRÔME FORGET,
*Minister responsible for
Government Administration and
Chair of the Conseil du trésor*

Regulation respecting construction contracts of public bodies and amending other regulatory provisions

An Act respecting contracting by public bodies (2006, c. 29, s. 23)

CHAPTER I SCOPE

1. This Regulation applies to construction contracts referred to in subparagraph 2 of the first paragraph of section 3 of the Act respecting contracting by public bodies (2006, c. 29). It also applies to mixed contracts for construction work and professional services and to contracts to devise savings from the improvement of energy efficiency, as defined in section 27.

2. For the purposes of this Regulation, the electronic tendering system is the system approved by the Government under section 11 of the Act.

CHAPTER II PUBLIC CALL FOR TENDERS

DIVISION I GENERAL

3. A public call for tenders must be made in accordance with the provisions of this Chapter.

If a public body makes a public call for tenders to award a contract involving an expenditure below the public tender threshold referred to in subparagraph 1 of the first paragraph of section 10 of the Act, the tender closing date set out in subparagraph 6 of the second paragraph of section 4, the requirement as to the place of the establishment set out in subparagraph 2 of the first paragraph of section 6 and the time for sending an addendum set out in the second paragraph of section 9 may differ.

In the case of a task order contract or a contract involving quality evaluation, the public call for tenders must comply with the special provisions of Chapter III.

DIVISION II TENDER DOCUMENTS

4. Every public call for tenders is made by publishing a notice on the electronic tendering system.

The notice forms part of the tender documents and must specify and contain

- (1) the name of the public body;
- (2) a brief description of the construction work required and the site of the work;
- (3) the nature and amount of any required tender security;
- (4) whether or not an intergovernmental agreement within the meaning of section 2 of the Act applies;
- (5) the place where the tender documents or information may be obtained;
- (6) the place as well as the closing and opening dates and times, the closing date being not be less than 15 days after the date on which the notice is published; and

(7) the fact that the public body is not bound to accept any tender.

5. In its tender documents, a public body must provide

(1) a description of the construction work and conditions on which the contract is to be carried out;

(2) in the case of a joint call for tenders within the meaning of section 15 of the Act, the identity of every public body and legal person established in the public interest that are parties to the joint call for tenders;

(3) the eligibility requirements of contractors and the compliance requirements for tenders;

(4) a list of the documents or other items required from contractors;

(5) the tender opening procedure;

(6) the contract award rule, including any calculation to be applied before awarding the contract;

(7) the contract to be signed; and

(8) any other particular required under this Regulation.

In the case referred to in subparagraph 2 of the first paragraph, every party to a joint call for tenders must use the services of the selected contractor, on the conditions specified in the tender documents.

6. In order to submit a tender, a contractor must meet the following eligibility requirements:

(1) have all the necessary qualifications, authorizations, permits, licences, registrations, certificates, accreditations and attestations;

(2) have in Québec or in a territory covered by an applicable intergovernmental agreement an establishment where activities are carried on on a permanent basis, clearly identified under the contractor's name and accessible during regular business hours; and

(3) meet any other eligibility requirement specified in the tender documents.

Despite subparagraph 2 of the first paragraph, if competition is insufficient, the public body may make eligible any contractor that has an establishment in a territory not covered by an applicable intergovernmental agreement, provided that the public body so specifies in the tender documents.

A contractor that fails to comply with any of those requirements is ineligible.

7. Compliance requirements must specify the cases that will entail automatic rejection of a tender, namely

(1) the place or the closing date or time has not been complied with;

(2) a required document is missing;

(3) the security provided does not comply with the form and conditions required;

(4) the required signature of an authorized person is missing;

(5) an erasure of or correction to the tendered price is not initialled;

(6) the tender is conditional or restrictive; and

(7) any other compliance requirement stated in the tender documents as entailing automatic rejection of a tender has not been complied with.

8. Provided that it is specified in the tender documents, a public body may refuse to consider any contractor that, in the two years preceding the tender opening date, has been given an unsatisfactory performance report by the public body, failed to follow up on a tender or contract or had a contract cancelled because of failure to comply with the contract conditions.

9. A public body may amend the tender documents by sending an addendum to the contractors concerned.

If the amendment is likely to affect the prices, the addendum must be sent at least 5 days before the tender closing time; if that 5-day period cannot be complied with, the closing time must be extended by the number of days needed to ensure compliance with the 5-day period.

10. The public body must specify in the tender documents what guarantees are required and the form and conditions to be complied with.

11. Tender security is required by a public body if the estimated amount of the contract is equal to or greater than \$500,000, and may be required in all other cases.

Where tender security is required, the contractor must also provide, prior to the signing of the contract, performance security and security for the contractor's obligations with respect to wages, materials and services.

12. Tender security in the form of a bond must be submitted in accordance with the requirements of Schedule 1.

Performance security or security for the contractor's obligations with respect to wages, materials and services in the form of a bond must be submitted in accordance with the requirements of Schedule 2 or Schedule 3, as the case may be.

DIVISION III CALLING FOR AND OPENING OF TENDERS

13. A public body solicits solely a price in order to award a construction contract.

14. Tenders are opened by the public body at a public opening in the presence of a witness at the designated place and on the date and time fixed in the tender documents.

The names of the contractors and their respective total prices are disclosed, subject to subsequent verifications.

Within 4 business days, the public body must make the tender opening results available on the electronic tendering system.

DIVISION IV EVALUATION OF TENDERS AND CONTRACT AWARDING

15. The public body evaluates the tenders received, ensuring that the contractors are eligible and their tenders are compliant.

If the public body rejects a tender because the contractor is ineligible or the tender is non-compliant, it must so inform the contractor and give the reason for the rejection no later than 15 days after awarding the contract.

16. A public body must award the contract to the contractor that submits the lowest price.

17. If several contractors obtain identical results following a call for tenders, the contract is awarded by a drawing of lots.

18. The public body awards the contract on the basis of the work described and the rules established in the tender documents and according to the price submitted.

The public body may, however, negotiate the price submitted and the price stipulated in the contract may be less than the price submitted if

- (1) only one contractor submitted a compliant tender;
- (2) the contractor agreed to a new price; and
- (3) it is the only change made to the conditions set out in the tender documents or to the tender in the course of the negotiation.

CHAPTER III SPECIAL RULES FOR AWARDING CONTRACTS

DIVISION I TASK ORDER CONTRACTS

19. A public body may enter into a task order contract when the procurement requirements are recurrent and the monetary value of the works and the rate or frequency are uncertain.

20. The public body must indicate in the tender documents the approximate monetary value of the construction work that the public body intends to have performed.

21. A task order contract is entered into for a term not exceeding 3 years, including any renewal.

DIVISION II CONTRACTS INVOLVING QUALITY EVALUATION

§1. Call for tenders in 2 stages

22. Despite section 13, a public body may decide to evaluate the quality of a tender by making a call for tenders in two stages.

The first stage consists in selecting contractors by soliciting only a quality demonstration in accordance with the evaluation conditions in Schedule 4. At the second stage, the contractors selected are invited to submit a tender that includes only a price.

The public body must specify in the tender documents the rules to be used to evaluate the quality of tenders, including the evaluation criteria.

23. The public body awards the contract to the contractor that submits the lowest price.

§2. Mixed contracts for construction work and professional services

24. In order to award a mixed contract for construction work and professional services, a public body may consider the quality of a tender. To that end, the public body applies the evaluation conditions in Schedule 5.

In that case, the public body must specify in the tender documents the rules to be used to evaluate the quality of tenders, including the evaluation criteria selected and their respective weighting.

The price and the quality demonstration must be presented separately so that the first paragraph of section 31 may apply. In addition to the cases referred to in section 7, the compliance requirements must state that failure to comply with the requirement will entail automatic rejection of a tender.

25. Pursuant to section 24, the public body awards the contract to the contractor that submits the lowest adjusted price.

26. A public body may make a public call for tenders in two stages in order to award a contract.

At the first stage, the public body selects contractors by soliciting only a quality demonstration. The tender documents must indicate whether every selected contractor or only a limited number of them will be invited to take part in the second stage.

The selection committee evaluates the quality of a tender according to the following conditions and procedure:

(1) if all the selected contractors are invited to take part in the second stage, the quality of a tender is evaluated in accordance with the evaluation conditions in Schedule 4 and all the contractors that meet at least the minimum quality level are retained;

(2) if only a limited number of contractors are invited to take part in the second stage, the quality of a tender is evaluated in accordance with the evaluation conditions in sections 1 to 7 of Schedule 5 and only those who obtain the highest final scores are retained.

At the second stage, the public body invites the selected contractors to submit separately a price and a quality demonstration in conformity with the evaluation conditions in Schedule 5.

§3. Contracts to devise savings from the improvement of energy efficiency

27. This subdivision applies to contracts to devise savings from the improvement of energy efficiency, if the contracts involve both professional services and construction work and are paid for directly out of the savings.

28. To award a contract to devise savings from the improvement of energy efficiency, a public body must consider the quality of a tender. To that end, it must describe, in the tender documents, the contractor selection process including the tender evaluation process and in particular the evaluation grid, the criteria used and the weighting.

29. The public body awards the contract to the contractor that submits the tender with the highest weighted financial value.

For the purposes of the first paragraph, the financial value of a tender is the net discounted savings resulting from the project, namely the current value of the savings less the current value of the costs incurred by the project. The weighted financial value is obtained by multiplying the project's financial value by the final percentage obtained for quality.

§4. Disclosure of tenderers' names

30. At the public opening of tenders under section 14 for a contract involving quality evaluation, only the names of the contractors are disclosed and the results of the opening are made available in accordance with the third paragraph of that section.

§5. Evaluation of tenders

31. Tenders are to be evaluated by a selection committee set up for that purpose by the public body. The committee evaluates quality without knowing the price submitted.

Where the tender evaluation is to award a contract involving an expenditure equal to or above the public tender threshold, the selection committee must be composed of a secretary in charge of coordinating activities and of at least three members.

32. The public body must inform each tenderer of the results of the quality evaluation within 15 days after awarding the contract.

If Schedule 4 applies, the particulars sent to tenderers are

- (1) confirmation that their tender was accepted or not; and
- (2) the name of and price submitted by the successful tenderer.

If Schedule 5 applies, the particulars sent to tenderers are

- (1) confirmation that their tender was accepted or not;
- (2) their quality score, their adjusted price and their rank according to the adjusted prices, where applicable; and
- (3) the name, quality score and price of the successful tenderer, and the resulting adjusted price.

If Subdivision 3 applies, the particulars sent to tenderers are

- (1) the weighted financial value of their tender and their rank; and
- (2) the name of the successful tenderer and the weighted financial value of the tender.

33. For the purposes of section 18 with respect to a contract involving quality evaluation, the condition in subparagraph 1 of the second paragraph of that section is that only one contractor must have submitted an acceptable tender.

DIVISION III COMPENSATION

34. Where it is decided after tenders are opened that a contract is not to be awarded following a public call for tenders or, if a quality evaluation is to be made, after a meeting of the selection committee, the tenderer that would have been awarded the contract receives as compensation and final settlement for expenses incurred the amount of

- (1) \$2,000, if the tender is equal to or greater than \$500,000 but less than \$1,000,000; or
- (2) \$5,000, if the tender is equal to or greater than \$1,000,000.

CHAPTER IV QUALIFICATION OF CONTRACTORS

35. A public body may qualify contractors prior to entering into construction contracts pertaining to transport infrastructures if

- (1) the qualification of contractors is preceded by a public notice to that effect on the electronic tendering system;
- (2) a list of the qualified contractors is published on the electronic tendering system and every contractor is informed of entry on the list or the reason for refusal if entry is denied; and

(3) a public notice of qualification is published again at least once a year, even though the public body may qualify contractors at intervals varying from 1 to 3 years.

36. Where the public body evaluates the quality of applications for qualification, it must apply the evaluation conditions in Schedule 4 or in sections 1 to 7 of Schedule 5.

37. Except in the cases described in section 13 of the Act, every contract subsequent to the qualification of contractors is limited to the qualified contractors only and, if a contract involves an expenditure equal to or above the public tender threshold, it must be awarded through a public call for tenders.

CHAPTER V CONDITIONS TO BE MET PRIOR TO ENTERING INTO CONTRACTS

DIVISION I REQUIRED AUTHORIZATION

38. Authorization from the chief executive officer of the public body is required before a notice of the call for tenders is published if the tender validity period is greater than 45 days.

Such an authorization is also required before entering into a contract involving an expenditure equal to or above the public tender threshold if

- (1) only one contractor submitted a compliant tender; or
- (2) only one contractor submitted an acceptable tender following a quality evaluation in accordance with Division II of Chapter III.

In the case provided for in subparagraph 2 of the second paragraph and in the case of a mixed contract for construction work and professional services, the selection committee must not know the price and the chief executive officer of the public body is to determine whether or not the awarding process should be continued.

DIVISION II

QUALITY ASSURANCE

39. A public body may require a quality assurance system, including the ISO 9001:2000 standard, for the carrying out of a contract. The public body must specify the requirement in the tender documents.

If such a requirement unduly reduces competition, the public body must allow any contractor to submit a tender and grant to a contractor that fulfils the requirement referred to in the first paragraph a preferential margin not exceeding 5%. In the latter case, the price submitted by such a contractor is, for the sole purpose of determining the successful tenderer, reduced by the preferential margin, without any effect on the price for contract awarding purposes.

The percentage of the preferential margin to be applied must be indicated in the tender documents.

CHAPTER VI

ACCOUNTABILITY REPORTING

40. Following a public call for tenders, the public body must publish on the electronic tendering system, within 15 days of the awarding of the contract, the name of the successful tenderer and the amount of the contract.

41. The public body must publish on the electronic tendering system, at least once every 6 months, a list of the contracts involving an expenditure greater than \$25,000 entered into by mutual agreement or following an invitation to tender, except contracts involving confidential or protected information within the meaning of subparagraph 3 of the first paragraph of section 13 of the Act.

42. The list to be published pursuant to section 41 must contain at least the following information:

- (1) the name of the contractor, the date and the amount of the contract;
- (2) the nature of the construction work to be performed under the contract; and

(3) in the case of a contract by mutual agreement involving an expenditure above the public tender threshold, the provision in the Act or Regulation under which the contract was awarded.

CHAPTER VII

CONTRACT MANAGEMENT CONDITIONS

DIVISION I

CHANGE ORDERS

43. A public body may make changes to the work by issuing a change order.

44. The value of a change is determined as follows:

(1) estimation, negotiation and acceptance of a detailed lump sum;

(2) if the nature of the change in the work is such that a lump sum cannot be estimated, application of the unit prices indicated in the contract or subsequently agreed on; or

(3) if the nature of the change is such that a lump sum or unit prices cannot be estimated, addition of the cost of labour, materials and equipment relating to the change and increased

(a) by 15% if the work is performed by the contractor; or

(b) by 10% for the contractor and 15% for the subcontractor if the work is performed by a subcontractor.

For the purposes of subparagraph 3 of the first paragraph, the cost of labour, materials and equipment corresponds to the actual costs of the items listed in Schedule 6. The increase includes the contractor's overhead, administrative costs and profits.

45. If the public body and the contractor cannot agree on the value of a change at the first negotiation, the detailed estimate of the change required is then determined by the public body and paid according to the conditions stipulated in the contract.

46. If the public body determined the amount of a change and the contractor filed a dispute over that amount in writing to the public body within 15 days of the issue of the change order, the parties must pursue the negotiations as follows:

(1) in the case of work relating to a building, the negotiations are pursued in accordance with sections 48 to 50;

(2) in the case of civil engineering work other than work relating to a building, the parties pursue the negotiations with a manager representing the public body and an officer of the contractor with a view to settling the dispute in whole or in part.

If the public body and the contractor cannot settle the dispute in accordance with subparagraph 2 of the first paragraph, the contractor may submit a claim to the public body. In the absence of an agreement between the public body and the contractor, the parties retain all their rights and remedies, in particular those under section 52.

47. No change may be required after the work has been accepted with reservation.

DIVISION II SETTLEMENT OF DISPUTES

§1. *Work relating to a building*

48. The public body and the contractor must attempt to settle amicably any difficulty arising from a contract by following the following steps and procedures:

(1) having a manager representing the public body and an officer of the contractor attempt to settle the dispute in whole or in part within 60 days after receipt of the notice of dispute from the contractor; the parties may agree to extend that period;

(2) if the negotiations do not enable the dispute to be settled in full, the public body or the contractor may, by sending a written notice to the other party within 10 days after the end of the preceding step, require mediation of the unsettled issues, which must be carried out within 60 days following receipt of the notice of mediation; the parties may agree to extend that period.

If a notice of mediation is not sent within the time specified in subparagraph 2 of the first paragraph, the negotiation process is then terminated.

49. The mediator is chosen by mutual agreement between the public body and the contractor. The function of the mediator is to assist the parties in clarifying the dispute and defining their positions and interests, and to discuss and explore mutually satisfying solutions to settle the dispute.

The parties, along with the mediator, define the rules applicable to the mediation and set its duration, specify their commitments, expectations and needs as well as the role and duties of the mediator. The fees and expenses of the mediator are to be paid in equal parts by the parties, unless a different sharing arrangement has been agreed upon.

The representative of each party must be duly authorized by the officer of the public body or contractor, as the case may be, to proceed with the mediation.

50. In the absence of an agreement between the public body and the contractor following mediation, the parties retain all their rights and remedies, in particular those under section 52.

§2. *Civil engineering work other than work relating to a building*

51. The public body and the contractor must attempt to settle amicably any difficulty arising from a contract by resorting to the dispute resolution clauses in the contract, if any.

In the absence of an agreement between the public body and the contractor, the parties retain all their rights and remedies, in particular those under section 52.

§3. *Civil engineering work and work relating to a building*

52. The public body or the contractor may also settle any difficulty through a court of justice or an adjudicative body, as the case may be, or an arbitrator. In the latter case, general or special authorization from the Minister of Justice is required for public bodies referred to in subparagraph 1 or 2 of the first paragraph of section 4 of the Act.

DIVISION III PERFORMANCE EVALUATION

53. A public body must record in a report the evaluation of any contractor whose performance is considered to be unsatisfactory.

54. The public body must complete its evaluation not later than 60 days after the end of the contract and send a copy of the evaluation to the contractor.

55. A contractor may forward comments in writing on the report to the public body within 30 days following receipt of a report of unsatisfactory performance.

56. Within 30 days after the expiry of the time in section 55 or following receipt of the contractor's comments, as the case may be, the chief executive officer of the public body is to uphold or cancel the evaluation and inform the contractor of the decision. If the chief executive officer fails to act within the prescribed time, the contractor's performance is considered to be satisfactory.

DIVISION IV PAYMENT

57. Payment of any contract entered into in contravention of the provisions of this Regulation is subject to authorization by the Minister responsible.

CHAPTER VIII TRANSITIONAL AND FINAL

58. A public body must implement the provisions of subparagraph 2 of the first paragraph of section 5 within 2 years after the coming into force of this Regulation. Within that period, the public body must at least state, in the tender documents, the public bodies and legal persons established in the public interest that are or are likely to be parties to the joint call for tenders.

In that case, the present and future parties to the joint call for tenders must deal with the selected contractor, on the conditions set out in the tender documents.

59. The Regulation respecting the promise and awarding of grants (R.R.Q., 1981, c. A-6, r.22) is amended by revoking subparagraph b of the second paragraph of section 4.

60. The provisions in the following regulations and by-laws that apply to construction contracts are revoked:

(1) the Regulation respecting supply contracts, construction contracts and service contracts of government departments and public bodies, made by Order in Council 961-2000 dated 16 August 2000;

(2) the By-law respecting special rules governing supply contracts, construction contracts, and services contracts of the Société immobilière du Québec, approved by Order in Council 76-96 dated 24 January 1996;

(3) the By-law concerning special rules respecting certain contracts entered into by the Société québécoise d'assainissement des eaux, approved by Order in Council 1229-94 dated 17 August 1994;

(4) the Regulation respecting the application of the Act respecting health services and social services (R.R.Q., 1981, c. S-5, r.1); and

(5) the Regulation respecting contracts of the Corporation d'hébergement du Québec, approved by Order in Council 972-2001 dated 23 August 2001.

61. The Regulation respecting building construction by establishments, regional councils and the Corporation d'hébergement du Québec, approved by Conseil du trésor Decision 148183 dated 10 January 1984, is revoked.

62. The Regulation respecting construction contracts for immovables of school boards, made by Order in Council 1015-90 dated 11 July 1990, is revoked.

63. The Regulation respecting contracts for the construction of immovables of general and vocational colleges, made by Order in Council 1072-94 dated 13 July 1994, is revoked.

64. The Regulation respecting grants for the purposes of construction (R.R.Q., 1981, c. A-6, r.29) is revoked.

65. This Regulation comes into force on the fifteenth day following the date of its publication in the *Gazette officielle du Québec*.

SCHEDULE 4

(s. 22, 26, 32, 36)

QUALITY EVALUATION CONDITIONS

for a contract award based on the lowest price

1. At least 3 criteria are required for quality evaluation.
2. The public body must specify in the tender documents, for each criterion, the elements of quality required to reach an “acceptable level of performance”, which corresponds to the public body’s minimum expectations for the criterion.
3. An acceptable tender in terms of quality is a tender that, for each criterion, meets the “acceptable level of performance”. A tender that does not reach that level of performance in respect of any criterion is rejected.

SCHEDULE 5

(s. 24, 26, 32, 36)

QUALITY EVALUATION CONDITIONS

for a contract award based on the lowest adjusted price

1. The evaluation grid must have at least 3 quality evaluation criteria.
2. The public body must specify in the tender documents, for each criterion, the elements of quality required to reach an “acceptable level of performance”, which corresponds to the public body’s minimum expectations for the criterion.
3. Each criterion in the evaluation grid is weighted on the basis of its importance for the carrying out of the contract. The total weight of the criteria is 100%.
4. Each criterion is evaluated on a scale of 0 to 100 points, the “acceptable level of performance” corresponding to 70 points.
5. At least 70 points may be required in respect of any criterion described in the evaluation grid. A tender that does not reach that minimum is rejected.
6. The final score for the quality of a tender is the total of the weighted scores obtained in respect of each criterion; the weighted scores are determined by multiplying the score obtained for a criterion by the weight of that criterion.
7. An acceptable tender in terms of quality is a tender whose final score is at least 70%.
8. The price of each acceptable tender is adjusted according to the following formula:

$$\text{Adjusted price} = \frac{\text{Price submitted}}{\text{Quality adjustment factor}}$$

The quality adjustment factor is equal to:

$$1 + K \left(\frac{\text{Final score for quality} - 70}{30} \right)$$

where

“K” is the additional percentage that the public body is willing to pay to move from a 70-point tender to a 100-point tender, for all criteria.

9. The public body determines in the tender documents the value of K, which must range from 15% to 30%.

SCHEDULE 6

(s. 41)

COST OF LABOUR, MATERIALS AND EQUIPMENT

The contractor must prove each expense relating to a change. The cost of labour, materials and equipment attributable to making the change to the work corresponds to the actual costs of the contractor and subcontractors, in the following categories:

(1) wages and employment benefits paid to workers under an applicable collective agreement and to the foreman and, where applicable, the superintendent supervising the employees on the construction site;

(2) the travel and accommodation expenses of the additional employees required;

(3) the cost of all materials, products, supplies, including materials incorporated into the work by reason of the change to the work, including transportation, storage and handling expenses, the whole corresponding to the lowest price granted to the contractor and subcontractors;

(4) taxes and other duties imposed by any competent authority on the labour, materials and equipment required and to which the contractor is subject, excluding the goods and services tax (GST) and the Québec sales tax (QST) if the public body is exempt from those taxes;

(5) the cost for transporting and using additional equipment and tools that are required, other than hand tools used by the employees;

(6) the cost of additional quality control performed by the person responsible for quality assurance or the superintendent on the work relating to the change;

(7) applicable patent royalties and rights;

(8) additional insurance and security premiums that the contractor must pay as a result of the increase in the contract price;

(9) energy and heating expenses directly attributable to the change;

(10) the cost for the removal and disposal of waste and debris attributable to the change;

(11) the necessary additional protections, temporary installations and security devices;

(12) any other required additional labour, materials or equipment cost not specified in the preceding paragraphs and attributable to performing the change.

Draft Regulation

An Act respecting contracting by public bodies (2006, c. 29)

Supply contracts of public bodies

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Regulation respecting supply contracts of public bodies, appearing below, may be made by the Government on the expiry of 45 days following this publication.

The draft Regulation determines the conditions governing supply contracts entered into by public bodies subject to the Act respecting contracting by public bodies (2006, c. 29). In compliance with all applicable inter-governmental agreements, it aims to promote the objectives set out in section 2 of the Act respecting contracting by public bodies that include transparency in contracting processes, honest and fair treatment of tenderers, and accountability reporting by the chief executive officers of public bodies to verify the proper use of public funds.

The draft Regulation also proposes to revoke the provisions of the following regulations and by-laws currently applicable to supply contracts: the Regulation respecting supply contracts, construction contracts and service contracts of government departments and public bodies, made by Order in Council 961-2000 dated 16 August 2000, the By-law respecting special rules governing supply contracts, construction contracts, and services contracts of the Société immobilière du Québec, approved by Order in Council 76-96 dated 24 January 1996, the By-law concerning special rules respecting certain contracts entered into by the Société québécoise d'assainissement des eaux, approved by Order in Council 1229-94 dated 17 August 1994, the Regulation respecting the application of the Act respecting health services and social services (R.R.Q., 1981, c. S-5, r.1) and the Regulation respecting contracts of the Corporation d'hébergement du Québec, approved by Order in Council 972-2001 dated 23 August 2001.

The draft Regulation has no significant impact on the public. It will lighten the administrative burden of enterprises since they will be subject to only one regulation, which should also reduce their administrative expenses.

Further information on the draft Regulation may be obtained by contacting Lucien Turcotte, Director, Réglementation en biens et services, Secrétariat du Conseil du trésor, 875, Grande-Allée Est, Québec (Québec) G1R 5R8; telephone: 418 644-3421; fax: 418 528-6877; e-mail: lucien.turcotte@sct.gouv.qc.ca

Any interested person wishing to comment on the draft Regulation may do so before the expiry of the 45-day period by writing to the Minister responsible for Government Administration and Chair of the Conseil du trésor, 875, Grande-Allée Est, Québec (Québec) G1R 5R8.

MONIQUE JÉRÔME FORGET,
*Minister responsible for
Government Administration and
Chair of the Conseil du trésor*

Regulation respecting supply contracts of public bodies

An Act respecting contracting by public bodies (2006, c. 29, s. 23)

CHAPTER I SCOPE

1. This Regulation applies to supply contracts referred to in subparagraph 1 of the first paragraph of section 3 of the Act respecting contracting by public bodies (2006, c. 29).

2. For the purposes of this Regulation, the electronic tendering system is the system approved by the Government under section 11 of the Act.

CHAPTER II PUBLIC CALL FOR TENDERS

DIVISION I GENERAL

3. A public call for tenders must be made in accordance with the provisions of this Chapter.

If a public body makes a public call for tenders to award a contract involving an expenditure below the public tender threshold referred to in subparagraph 1 of the first paragraph of section 10 of the Act, the tender closing date set out in subparagraph 6 of the second

paragraph of section 4, the requirement as to the place of the establishment set out in subparagraph 2 of the first paragraph of section 6 and the time for sending an addendum set out in the second paragraph of section 9 may differ.

In the case of a delivery order contract or a contract involving quality evaluation, the public call for tenders must comply with the special provisions of Chapter III.

DIVISION II TENDER DOCUMENTS

4. Every public call for tenders is made by publishing a notice on the electronic tendering system.

The notice forms part of the tender documents and must specify and contain

- (1) the name of the public body;
- (2) a brief description of the procurement requirements and the place of delivery;
- (3) the nature and amount of any required tender security;
- (4) whether or not an intergovernmental agreement within the meaning of section 2 of the Act applies;
- (5) the place where the tender documents or information may be obtained;
- (6) the place as well as the closing and opening dates and times, the closing date being not less than 15 days after the date on which the notice is published; and
- (7) the fact that the public body is not bound to accept any tender.

5. In its tender documents, a public body must provide

- (1) a description of the procurement requirements and terms of delivery;
- (2) in the case of a joint call for tenders within the meaning of section 15 of the Act, the identity of every public body and legal person established in the public interest that are parties to the joint call for tenders;
- (3) the eligibility requirements of suppliers and the compliance requirements for tenders;
- (4) a list of the documents or other items required from suppliers;

- (5) the tender opening procedure;
- (6) the contract award rule, including any calculation to be applied before awarding the contract; and
- (7) any other particular required under this Regulation.

In the case referred to in subparagraph 2 of the first paragraph, every party to a joint call for tenders must deal with the selected supplier, on the conditions specified in the tender documents.

6. In order to submit a tender, a supplier must meet the following eligibility requirements:

- (1) have all the necessary qualifications, authorizations, permits, licences, registrations, certificates, accreditations and attestations;
- (2) have in Québec or in a territory covered by an applicable intergovernmental agreement an establishment where activities are carried on on a permanent basis, clearly identified under the supplier's name and accessible during regular business hours; and
- (3) meet any other eligibility requirement specified in the tender documents.

Despite subparagraph 2 of the first paragraph, if competition is insufficient, the public body may make eligible any supplier that has an establishment in a territory not covered by an applicable intergovernmental agreement, provided that the public body so specifies in the tender documents.

A supplier who fails to comply with any of those requirements is ineligible.

7. Compliance requirements must specify the cases that will entail automatic rejection of a tender, namely

- (1) the place or the closing date or time has not been complied with;
- (2) a required document is missing;
- (3) the required signature of an authorized person is missing;
- (4) an erasure of or correction to the tendered price is not initialled;
- (5) the tender is conditional or restrictive; or

(6) any other compliance requirement stated in the tender documents as entailing automatic rejection of a tender has not been complied with.

8. Provided that it is specified in the tender documents, a public body may refuse to consider any supplier who, in the two years preceding the tender opening date, has been given an unsatisfactory performance report by the public body, failed to follow up on a tender or contract or had a contract cancelled because of failure to comply with the contract conditions.

9. A public body may amend the tender documents by sending an addendum to the suppliers concerned.

If the amendment is likely to affect the prices, the addendum must be sent at least 5 days before the tender closing time; if that 5-day period cannot be complied with, the closing time must be extended by the number of days needed to ensure compliance with the 5-day period.

DIVISION III CALLING FOR AND OPENING OF TENDERS

10. A public body solicits solely a price in order to award a supply contract.

11. Tenders are opened by the public body at a public opening in the presence of a witness at the designated place and on the date and time fixed in the tender documents, unless the tenders are in the form of a price list whose scope or layout does not make it possible to specify a total price.

At the public opening, the names of the suppliers and their respective total prices are disclosed, subject to subsequent verifications.

Within 4 business days, the public body must make the tender opening results available on the electronic tendering system.

DIVISION VI EVALUATION OF TENDERS AND CONTRACT AWARDING

12. The public body evaluates the tenders received, ensuring that the suppliers are eligible and their tenders are compliant.

If the public body rejects a tender because the supplier is ineligible or the tender is non-compliant, it must so inform the supplier and give the reason for the rejection no later than 15 days after awarding the contract.

13. A public body awards the contract to the supplier who submits the lowest price.

14. If several suppliers obtain identical results following a call for tenders, the contract is awarded by a drawing of lots.

15. The public body awards the contract on the basis of the procurement requirements described and the rules established in the tender documents and according to the price submitted.

The public body may, however, negotiate the price submitted and the price stipulated in the contract may be less than the price submitted if

- (1) only one supplier submitted a compliant tender;
- (2) the supplier agreed to a new price; and

(3) it is the only change made to the conditions set out in the tender documents or to the tender in the course of the negotiation.

CHAPTER III SPECIAL RULES FOR AWARDING CONTRACTS

DIVISION I DELIVERY ORDER CONTRACTS

16. A public body may enter into a delivery order contract with one or more suppliers when the procurement requirements are recurrent and the quantity of goods and the rate or frequency at which they are acquired are uncertain.

17. The public body must indicate in the tender documents the approximate quantities of goods likely to be acquired or, failing that, the approximate monetary value of the contract and, where applicable, the places of delivery.

18. If the delivery order contract is entered into with more than one supplier, the orders are directed to the supplier who submitted the lowest price, unless the supplier cannot fill the orders, in which case the other suppliers are solicited according to their respective rank.

Such orders may, however, be awarded to any of the selected suppliers whose submitted price does not exceed the lowest price by more than 10%, so long as the awarding rule is authorized by the chief executive officer of the public body before the notice of a call for tenders is published.

DIVISION II CONTRACTS INVOLVING QUALITY EVALUATION

19. Despite section 10, a public body may decide to evaluate the quality of a tender; in such a case, it must request a price and a quality demonstration based on predetermined evaluation criteria.

The public body must specify in the tender documents the rules to be used to evaluate the quality of tenders, including the evaluation criteria selected and, where applicable, their respective weighting.

The price and the quality demonstration must be presented separately so that the first paragraph of section 24 may apply. In addition to the cases referred to in section 7, the compliance requirements must state that failure to comply with the requirement will entail automatic rejection of a tender.

20. At the public opening of tenders under section 11, only the names of the suppliers are disclosed and the results of the opening are made available in accordance with the third paragraph of that section.

21. The public body must evaluate quality as provided in Schedule 1 or Schedule 2, as the case may be.

22. Where an evaluation is based on a minimum level of quality, the public body must apply the evaluation conditions in Schedule 1 and award the contract to the supplier who submitted the lowest price.

23. Where an evaluation is based on measurement of the level of quality followed by calculation of the price-quality ratio, the public body must apply the evaluation conditions in Schedule 2 and award the contract to the supplier who submitted the lowest adjusted price.

24. Tenders are to be evaluated by a selection committee set up for that purpose by the public body. The committee must evaluate quality without knowing the price submitted.

Where the evaluation of tenders is for awarding a contract involving an expenditure equal to or above the public tender threshold, the selection committee must be composed of a secretary in charge of coordinating activities and of at least three members.

25. For the purposes of section 15 in respect of a contract requiring quality evaluation, the condition in subparagraph 1 of the second paragraph of that section is that only one supplier must have submitted an acceptable tender.

26. The public body must inform each tenderer of the results of the tender quality evaluation within 15 days after awarding the contract.

If Schedule 1 applies, the particulars sent to tenderers are

(1) confirmation that their tender was accepted or not; and

(2) the name of and price submitted by the successful tenderer.

If Schedule 2 applies, the particulars sent to tenderers are

(1) confirmation that their tender was accepted or not;

(2) their quality score, their adjusted price and their rank according to the adjusted prices, where applicable; and

(3) the name, quality score and price of the successful tenderer, and the resulting adjusted price.

CHAPTER IV SPECIAL CONTRACTS

DIVISION I ACQUISITION OF SAND, STONE, GRAVEL OR BITUMINOUS COMPOUNDS

27. A contract to acquire sand, stone, gravel or bituminous compounds involving an expenditure below \$200,000 may be entered into by mutual agreement.

DIVISION II CONTRACT RELATING TO RESEARCH AND DEVELOPMENT

28. A supply contract relating to research and development activities may be entered into by mutual agreement where, due to technical or scientific reasons, only one supplier is able to carry it out and there is no other alternate solution or substitute goods.

CHAPTER V CERTIFICATION OF GOODS

29. A public body must certify the goods if it is expedient to ascertain before proceeding with a call for tenders that the goods meet a recognized standard or an established technical specification.

30. A public body may use a certification process for goods if

(1) the certification of goods is preceded by a public notice to that effect on the electronic tendering system;

(2) a list of the certificated goods is published on the electronic tendering system and every supplier is informed of the goods that are entered on the list or the reason for refusal if entry is denied; and

(3) a public notice of certification is published again at least once a year, even though the public body may certify goods at intervals varying from 1 to 3 years.

31. Except in the cases described in section 13 of the Act, every contract subsequent to the certification of goods is limited to the certified goods only and, where a contract involves an expenditure equal to or above the public tender threshold, it must be awarded through a public call for tenders.

CHAPTER VI CONDITIONS TO BE MET BEFORE ENTERING INTO CONTRACTS

DIVISION I REQUIRED AUTHORIZATION

32. The authorization of the chief executive officer of the public body is required for every contract whose expected term is greater than 3 years. Despite the foregoing, the chief executive officer of the public body may not authorize a delivery order contract whose expected term is greater than 5 years, including any renewal.

That authorization is also required before entering into a contract involving an expenditure equal to or above the public tender threshold if

(1) only one supplier submitted a compliant tender; or

(2) only one supplier submitted an acceptable tender following a quality evaluation under Division II of Chapter III.

In the case provided for in subparagraph 2 of the second paragraph, the selection committee must not know the price and the chief executive officer of the public body is to determine whether or not the awarding process should be continued.

DIVISION II AFFIRMATIVE ACTION PROGRAM

33. This Division applies only to public bodies referred to in subparagraph 1 or 2 of the first paragraph of section 4 of the Act.

34. Where the amount of a supply contract is \$100,000 or more, or where the amount of a supply subcontract is \$100,000 or more, the contract or subcontract may not be entered into with a Québec supplier or subcontractor whose business employs more than 100 persons unless the supplier or subcontractor has made a commitment to implement an affirmative action program that complies with the Charter of human rights and freedoms (R.S.Q., c. C-12) and holds an attestation to that effect issued by the Chair of the Conseil du trésor.

If such a contract or subcontract is to be entered into with a supplier or subcontractor outside Québec but within Canada whose business employs more than 100 persons, the supplier or subcontractor must provide an attestation to the effect that the supplier or subcontractor has already made a commitment to implement an employment equity program of the province or territory concerned, as applicable, or failing that, to implement a federal employment equity program.

35. The Chair of the Conseil du trésor is to cancel the attestation issued to any Québec supplier who does not fulfil a commitment to implement an affirmative action program. Such a supplier may not enter into a supply contract or subcontract as long as a new attestation has not been issued.

A supplier located outside Québec but in Canada whose attestation referred to in the second paragraph of section 34 has been revoked may not enter into a supply contract or subcontract as long as a new attestation has not been issued.

DIVISION III QUALITY ASSURANCE, SUSTAINABLE DEVELOPMENT AND ENVIRONMENT

36. A public body may require a quality assurance system, including the ISO 9001:2000 standard, or a specification relating to sustainable development and the environment for the carrying out of a contract. The public body must specify the requirement in the tender documents.

If such a requirement unduly reduces competition, the public body must allow any supplier to submit a tender and grant to a supplier that fulfils the requirement referred to in the first paragraph a preferential margin not exceeding 10%. In the latter case, the price submitted by such a supplier is, for the sole purpose of determining the successful tenderer, reduced by the preferential margin, without any effect on the price for contract awarding purposes.

The percentage of the preferential margin to be applied must be indicated in the tender documents.

CHAPTER VII ACCOUNTABILITY REPORTING

37. Following a public call for tenders, the public body must publish on the electronic tendering system, within 15 days of the awarding of the contract, the name of the successful tenderer and the amount of the contract.

In the case of a delivery order contract involving several suppliers, the public body must publish their names and their respective total price.

If the contract involves price lists whose scope or layout prevents an integral publication, the public body must indicate on the electronic tendering system how information on the results may be obtained.

38. The public body must publish on the electronic tendering system, at least once every 6 months, a list of the contracts involving an expenditure greater than \$25,000 entered into by mutual agreement or following an invitation to tender, except contracts involving confidential or protected information within the meaning of subparagraph 3 of the first paragraph of section 13 of the Act.

39. The list to be published pursuant to section 38 must contain at least the following information:

(1) the name of the supplier, the date and the amount of the contract;

(2) the nature of the goods covered by the contract; and

(3) in the case of a contract by mutual agreement involving an expenditure above the public tender threshold, the provision in the Act or Regulation under which the contract was awarded.

CHAPTER VIII CONTRACT MANAGEMENT CONDITIONS

DIVISION I SETTLEMENT OF DISPUTES

40. The public body and the supplier must attempt to amicably settle any difficulty that may arise out of a contract by resorting to the dispute resolution clauses in the contract, if any.

If the matter may not be settled in that manner, it may be referred to a court of justice or an adjudicative body, as the case may be, or to an arbitrator. In the latter case, a general or special authorization from the Minister of Justice is required for public bodies referred to in subparagraph 1 or 2 of the first paragraph of section 4 of the Act.

DIVISION II PERFORMANCE EVALUATION

41. A public body must record in a report the evaluation of any supplier whose performance is considered to be unsatisfactory.

42. The public body must complete its evaluation not later than 60 days after the end of the contract and send a copy of the evaluation to the supplier.

43. A supplier may forward comments in writing on the report to the public body within 30 days following receipt of a report of unsatisfactory performance.

44. Within 30 days after the expiry of the time in section 43 or following receipt of the supplier's comments, as the case may be, the chief executive officer of the public body is to uphold or cancel the evaluation and inform the supplier of the decision. If the chief executive officer fails to act within the prescribed time, the supplier's performance is considered to be satisfactory.

DIVISION III PAYMENT

45. Payment of any contract entered into in contravention of the provisions of this Regulation is subject to authorization by the Minister responsible.

CHAPTER IX TRANSITIONAL AND FINAL

46. A public body must implement the provisions of subparagraph 2 of the first paragraph of section 5 within 2 years after the coming into force of this Regulation.

Within that period, the public body must at least state, in the tender documents, the public bodies and legal persons established in the public interest that are or are likely to be parties to the joint call for tenders.

In that case, the present and future parties to the joint call for tenders must deal with the selected supplier, on the conditions set out in the tender documents.

47. The provisions in the following regulations and by-laws that apply to supply contracts are revoked:

(1) the Regulation respecting supply contracts, construction contracts and service contracts of government departments and public bodies, made by Order in Council 961-2000 dated 16 August 2000;

(2) the By-law respecting special rules governing supply contracts, construction contracts, and services contracts of the Société immobilière du Québec, approved by Order in Council 76-96 dated 24 January 1996;

(3) the By-law concerning special rules respecting certain contracts entered into by the Société québécoise d'assainissement des eaux, approved by Order in Council 1229-94 dated 17 August 1994;

(4) the Regulation respecting the application of the Act respecting health services and social services (R.R.Q., 1981, c. S-5, r.1); and

(5) the Regulation respecting contracts of the Corporation d'hébergement du Québec, approved by Order in Council 972-2001 dated 23 August 2001.

48. This Regulation comes into force on the fifteenth day following the date of its publication in the *Gazette officielle du Québec*.

SCHEDULE 1

(ss. 21, 22, 26)

QUALITY EVALUATION CONDITIONS FOR A CONTRACT AWARD BASED ON THE LOWEST PRICE

1. At least 3 criteria are required for quality evaluation.

2. The public body must specify in the tender documents, for each criterion, the elements of quality required to reach an "acceptable level of performance", which corresponds to the public body's minimum expectations for the criterion.

3. An acceptable tender in terms of quality is a tender that, for each criterion, meets the “acceptable level of performance”. A tender that does not reach that level of performance in respect of any criterion is rejected.

SCHEDULE 2

(ss. 21, 23, 26)

QUALITY EVALUATION CONDITIONS FOR A CONTRACT AWARD BASED ON THE LOWEST ADJUSTED PRICE

1. The evaluation grid must have at least 3 quality evaluation criteria.

2. The public body must specify in the tender documents, for each criterion, the elements of quality required to reach an “acceptable level of performance”, which corresponds to the public body’s minimum expectations for the criterion.

3. Each criterion in the evaluation grid is weighted on the basis of its importance for the carrying out of the contract. The total weight of the criteria is 100%.

4. Each criterion is evaluated on a scale of 0 to 100 points, the “acceptable level of performance” corresponding to 70 points.

5. At least 70 points may be required in respect of any criterion described in the evaluation grid. A tender that does not reach that minimum is rejected.

6. The final score for the quality of a tender is the total of the weighted scores obtained in respect of each criterion; the weighted scores are determined by multiplying the score obtained for a criterion by the weight of that criterion.

7. An acceptable tender in terms of quality is a tender whose final score is at least 70%.

8. The price of each acceptable tender is adjusted according to the following formula:

$$\text{Adjusted price} = \frac{\text{Price submitted}}{\text{Quality adjustment factor}}$$

The quality adjustment factor is equal to:

$$1 + K \left(\frac{\text{Final score for quality} - 70}{30} \right)$$

where

“K” is the additional percentage that the public body is willing to pay to move from a 70-point tender to a 100-point tender, for all criteria.

9. The public body determines in the tender documents the value of K, which must range from 15% to 30%.

Draft Regulation

Environment Quality Act
(R.S.Q., c. Q-2)

Dishwashing detergents — Prohibition of sale

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1) and section 124 of the Environment Quality Act, that the Regulation to prohibit the sale of certain dishwashing detergents, appearing below, may be made by the Government on the expiry of 60 days following this publication.

The purpose of the draft Regulation is to reduce the phosphorus content of waste water from dwellings associated with the use of household dishwashing detergents. Currently, the contribution from dishwashing detergents to the total phosphorus content of domestic waste water before treatment is between 7% and 24%.

As of 1 July 2010, only products meeting the phosphorus content requirements will be permitted to be sold or distributed in Québec. While phosphorus may currently reach 8.7% by weight of the soap, that percentage will be reduced under the Regulation to a maximum of 0.5%, which is essentially the threshold level at which the analysis methods detect phosphorus content.

The economic impact associated with the coming into force of the Regulation will be negligible because of the manufacturers’ public voluntary commitment to comply with the requirement before the deadline of 1 July 2010. Retailers will have time to sell off inventories of detergents in their possession.

Further information on the draft Regulation to prohibit the sale of certain dishwashing detergents may be obtained by contacting Didier Bicchi, Head, Service des eaux municipales, Direction des politiques de l’eau, Ministère

du Développement durable, de l'Environnement et des Parcs, Édifice Marie-Guyart, 8^e étage, boîte 42, 675, boulevard René-Lévesque Est, Québec (Québec) G1R 5V7; telephone: 418 521-3885, extension 4852; fax: 418 528-0990; e-mail: didier.bicchi@mddep.gouv.qc.ca

Any person wishing to comment on the draft Regulation may submit written comments to Didier Bicchi at the above address, within the 60-day period.

and *l*, s. 46, pars. *c* and *f* and s. 109.1)

1. This Regulation applies to dishwashing detergents for domestic use.

2. In this Regulation, “phosphorus” means elemental phosphorus.

3. As of 1 January 2010, no dishwashing detergent may be offered for sale, sold, distributed or otherwise made available to consumers if

- (1) it contains 0.5% or more phosphorus by weight; or
- (2) the package does not indicate the percentage by weight of the phosphorus content of the product.

The phosphorus content is determined by a laboratory accredited by the Minister of Sustainable Development, Environment and Parks under section 118.6 of the Environment Quality Act (R.S.Q., c. Q-2) or, if the detergent is manufactured outside Québec, by a laboratory certified by a competent authority.

4. Every person who commits an offence against this Regulation is liable,

(1) in the case of a natural person, to a fine of \$2,000 to \$20,000 for a first offence and \$4,000 to \$40,000 for any subsequent offence; and

(2) in the case of a legal person, to a fine of \$6,000 to \$120,000 for a first offence and \$12,000 to \$240,000 for any subsequent offence.

Draft Regulation

Building Act
(R.S.Q., c. B-1.1)

Professional qualification of contractors and owner-builders

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Regulation respecting the professional qualification of contractors and owner-builders, appearing below, may be approved by the Government, with or without amendment, on the expiry of 45 days following this publication.

The draft Regulation modernizes the qualification system for building contractors by proposing new competency evaluation standards and a new construction work classification better adapted to the prevailing practices in the construction field. Several of the current 98 licence subcategories are merged thereby reducing their number to 60. The 23 licence subcategories for general contractors are reduced to 11 and the 75 licence subcategories for specialized contractors are reduced to 49 and are classed according to the level of risk involved in the work. The licence subcategories for owner-builders are modified so that owner-builders having construction work carried out become general owner-builders, and owner-builders carrying out the work become specialized owner-builders who may carry out construction work or have it carried out. Lastly, persons or partnerships may hold a contractor's licence and an owner-builder's licence concurrently, and natural persons may apply for a general contractor's licence or an owner-builder's licence on behalf of more than one legal person or partnership on certain conditions.

The draft Regulation proposes that examinations focus more specifically on the knowledge required for the management of an enterprise and, to a lesser degree, on the carrying out of construction work governed by other laws. Examinations will be adapted according to the modifications made to the licence subclasses and will be divided into modules although no exemption will be permitted for a module. Persons who fail a supplemental examination will not be admitted to any new examination before the expiry of a six-month period following the date of the Board's decision regarding the failure. Construction work knowledge will be verified solely for the licence subclasses for high-risk work. It is proposed in the draft Regulation that contractors be exempted from the examination only if they have completed a full training program. Proof of one-year experience as a manager will, however, no longer be required and it will be possible for persons who have acted as a guarantor in

the five years preceding their licence application to be exempted from an examination despite a bankruptcy or an offence under one of the Acts listed in the relevant provision of the draft Regulation.

Under the draft Regulation, all contractors will be required to provide security to compensate clients who sustain a loss as a result of a failure to carry out construction work or the construction work itself. The draft Regulation replaces the security for fraud, embezzlement or misuse of funds that was rarely used by clients because of the difficulty in obtaining the proof required. The new security will be required as soon as the Regulation comes into force although contractors will be allowed to provide the new security in the period between the approval of the Regulation and its coming into force. This formality replaces the production of balance sheets, financial statements and security for fraud.

The draft Regulation is a reflection of the Government's decision to simplify regulations and administration. By significantly reducing procedures it will facilitate dealings on the website of the Régie du bâtiment du Québec.

Lastly, fees for the issue and maintenance of general contractor's licences and general owner-builder's licences are increased to take into account the scope of the work authorized under those licence subclasses. The licence maintenance fees that replace the existing licence renewal fees are reduced by just over \$50. Fees of \$75 are to be paid for a first examination and fees for supplemental examinations are reduced from \$126.75 to \$75.

Transitional measures are provided to ensure the preservation of the rights of certain contractors.

The draft Regulation will have no negative impact on the public or on enterprises, including small and medium-sized businesses.

Further information may be obtained by contacting Jocelyne Raymond, Régie du bâtiment du Québec, 545, boulevard Crémazie Est, 7^e étage, Montréal (Québec) H2M 2V2; telephone: 514 873-0303; fax: 514 873-1939.

Any person wishing to comment on the draft Regulation is requested to submit written comments to Daniel Gilbert, President and Chief Executive Officer, Régie du bâtiment du Québec, 545, boulevard Crémazie Est, 3^e étage, Montréal (Québec) H2M 2V2, within the 45-day period.

Building Act
(R.S.Q., c. B-1.1, s. 185, 1st par., subpars. 8 to 18, 19.7, 20 and 38 and s. 192; 2005, c. 22, s. 45)

CHAPTER I INTERPRETATION

1. In this Regulation, “guarantor” means a natural person doing business alone or an officer who shows that, following examinations prescribed by this Regulation or by any other method of evaluation considered appropriate by the Régie du bâtiment du Québec under subparagraph 1 of the first paragraph of section 58 of the Building Act (R.S.Q., c. B-1.1), unless the person or officer is exempt therefrom under that Act or a regulation made thereunder, he or she has the knowledge or relevant experience in managing a building undertaking and in carrying out construction work, or who holds a recognition or attestation issued by the Board under section 58.1 of the Act.

2. 7. A specialized contractor’s licence is required of any contractor whose main activity consists in carrying out or having carried out, in whole or in part, construction work in the licence subclasses in the specialized contractor class, or in making or submitting tenders, personally or through an intermediary, for the purpose of carrying out or having carried out, in whole or in part, such work.

9. The licence subclasses in the general contractor class are those in Schedule I.

The licence subclasses in the general owner-builder class are those in Schedule I, except subclasses 1.1.1 and 1.1.2, with “general contractor” and “contractor” replaced wherever they appear by “general owner-builder” and “owner-builder” respectively.

10. The licence subclasses in the specialized contractor class are those in Schedules II and III.

The licence subclasses in the specialized owner-builder class are those in Schedule II, with “specialized contractor” and “contractor” replaced wherever they appear by “specialized owner-builder” and “owner-builder” respectively.

11. Related construction work authorized by a licence subclass in Schedule I, II or III must be carried out at the same time as work in that licence subclass.

The holder of a licence subclass may carry out construction work that is similar or related to work in the licence subclass, except work reserved exclusively to master pipe-mechanics and electrical contractors.

DIVISION IV EXAMINATION OF KNOWLEDGE

§1. *Conditions for admission to and passing of examinations*

17. A person is eligible, for each application for the issue or amendment of a licence, for the examination prescribed for the licence class or subclass applied for.

To pass the examination, the person must obtain the passing mark for each examination module; that mark remains valid for a five-year period for an application for the issue or amendment of a licence, or for a three-year period in the case provided for in the first paragraph of section 58.1 of the Act.

18. A person who fails an examination or examination module may register for only one supplemental examination within 30 days of the date of the Board's decision regarding the failure.

A person who fails a supplemental examination or examination module may not sit for another examination or examination module for a period of six months after the date of the Board's decision regarding the failure.

A person who failed an examination or examination module and did not register for a supplemental examination or failed to appear for the examination may not sit for another examination or examination module for a period of six months after the date of the Board's decision regarding the failure.

19. The examination of a person who is admitted to an examination sitting under false pretenses or who disrupts the examination proceedings by committing fraud, plagiarizing or cheating or by cooperating in such acts is cancelled and that person may not be admitted to any examination or examination module for a period of one year after the date of the cancellation by the Board.

§2. *Exemption from examination*

20. A person is exempt from an examination under subdivision 3 if the person meets any of the following conditions:

(1) the person has successfully completed a training program in the subject-matter of the examination related to the licence subclass applied for and recognized by the Board;

(5) if the examination is prescribed by section 24, the person has acted, in the five years preceding the licence application, as a construction work guarantor for the licence subclass applied for.

An examination exemption granted to a person under false pretenses is cancelled and the person may not be admitted to any examination or examination module for a period of one year after the date of cancellation by the Board.

§3. *Examinations*

— Management of a building undertaking

21. The examination of knowledge in administration is established by the Board in relation to the licence class or subclass applied for. It may deal with the subjects listed below and be divided into modules:

- (1) financial management;
- (2) management;
- (3) labour relations; and
- (4) statutes and regulations.

22. The examination of knowledge in safety management on construction sites is established by the Board in relation to the licence class or subclass applied for. It may deal with the subjects listed below and be divided into modules:

- (1) prevention management;
- (2) compensation files management;
- (3) assessment management; and
- (4) statutes and regulations.

23. The examination of knowledge in project and site management is established by the Board in relation to the licence class or subclass applied for. It may deal with the subjects listed below and be divided into modules:

- (1) management of construction activities;

- (2) reading and interpreting plans and specifications;
- (3) assessment of costs and tenders;
- (4) quality control activities; and
- (5) statutes and regulations.

— Carrying out of construction work

24. The examination of knowledge in the carrying out of construction work is established by the Board in relation to the licence subclass applied for. It may deal with the subjects listed below and be divided into modules:

- (1) knowledge of the standards, regulations and construction techniques specific to construction work in the licence subclass; and
- (2) reading and interpreting plans and specifications specific to construction work in the licence subclass.

DIVISION V SECURITY

25. Every contractor must provide the security required by section 84 of the Act to compensate clients who sustain a loss directly resulting from instalments paid, a failure to carry out construction work or faulty work or defects discovered in the year following the completion of the work. It does not, however, cover the claims of persons who took part in the construction work, damages for moral injury or punitive damages.

26. Despite section 25, security is not required if licences in subclasses 1.1.1 and 1.1.2 in Schedule I only are applied for.

27. The amount of security required is established as follows:

- (1) \$20,000 if a licence in a subclass in the general contractor class is applied for;
- (2) \$10,000 if licences only in the subclasses in the specialized contractor class are applied for.

28. Security is to be provided in the form of

- (1) an individual or group insurance policy issued in favour of the Régie du bâtiment du Québec;
- (2) a certified cheque or a bank draft to the order of the Minister of Finance;

(3) bonds or other debt securities issued or guaranteed by Québec, another Canadian province, Canada or a Canadian municipality, entered in the book entry system of a Canadian clearing house and having a market value at all times that is at least equal to the security required;

(4) guaranteed investment certificates or term investment certificates, in Canadian dollars, issued in favour of the Minister of Finance having a term of at least 12 months, automatically renewable for the term of the licence and redeemable without restriction during their term; or

(5) an irrevocable and unconditional letter of credit issued in favour of the Régie du bâtiment du Québec.

29. The security referred to in paragraph 1 of section 28 may be issued only by a legal person authorized to act as surety under the Bank Act (S.C. 1991, c. 46), the Savings and Credit Unions Act (R.S.Q., c. C-4.1), the Act respecting trust companies and savings companies (R.S.Q., chapter S-29.01) or the Act respecting insurance (R.S.Q., c. A-32) and, in the case of a group insurance policy, an association of contractors may, for its members, offer the security solidarily with a legal person authorized under this section.

The security referred to in paragraph 2, 4 or 5 of section 28 may be issued only by a bank, a savings and credit union or a trust company referred to in one of the Acts mentioned in the first paragraph.

30. The security referred to in paragraph 2, 3 or 4 of section 28 may be provided only by the contractor for itself; in such case, the contractor must fulfil the same obligations as the surety, in addition to the contractor's obligations as principal debtor.

31. The security must be drawn up on the standard form containing the elements prescribed by sections 32 to 37 and made public by the Board. It must also be signed by the surety or by the contractor, if the security is provided by the latter and, at the surety's request, by the principal debtor.

In the case of a group insurance policy, the policy must be deposited with the Board and the association of contractors must, at the Board's request, provide it with the information required for acceptance of the policy.

32. The surety is required to fulfil its obligation up to the amount required by section 27.

Despite the foregoing, in the case of security provided by a group insurance policy for the members of an association of contractors, the total amount of the policy is established as follows:

(1) \$250,000 if the association has fewer than 1,000 members;

(2) \$500,000 if the association has a minimum of 1,000 members but fewer than 5,000 members; and

(3) \$1,000,000 if the association has 5,000 members or more.

33. The surety must undertake to be solidarily liable with the contractor towards the Board, in the case of individual security, or with every member of the group, in the case of a group insurance policy, to compensate in principal, interest and costs, up to the amount of security required, any client who has a liquidated claim related to a loss referred to in section 25 that is evidenced by a final judgment rendered against the contractor or surety otherwise than on an acquiescence in the demand under articles 457 to 461 of the Code of Civil Procedure (R.S.Q., c. C-25), or by an agreement or a transaction to settle the dispute made between the client and the contractor or the syndic and the surety. That undertaking must bind the administrators, heirs and legal representatives of the surety.

34. If the security is provided by the contractor for itself, the contractor must undertake to pay, up to the amount of security required, the principal, interest and costs awarded by a final judgment rendered against the contractor or agreed upon in an agreement or a transaction between the client and the contractor or syndic and settling a dispute arising from the compensation of a client who sustained a loss referred to in section 25. The undertaking must bind the directors, heirs and legal representatives of the contractor.

35. The surety must waive the benefits of discussion and division.

36. The security must be valid for the term of the licence and must be provided without an expiry date.

The surety or contractor may terminate the security only on written notice of at least 60 days to the Board.

If the contractor's licence ceases to have effect because the contractor did not pay the fees and charges required to maintain the licence when they became due, the security remains valid, where applicable, for the new licence issued to the contractor provided that the new licence is issued within 60 days of the due date and requires the same amount of security.

37. Even if the security has expired, the obligations of the surety continue to apply in respect of construction work if

(1) the work pertains to a contract concluded while the security was in force or the work was performed while the security was in force; or

(2) no more than two years have elapsed since the completion of the work before a civil lawsuit is filed or an agreement or transaction is made.

38. Each licence holder covered under a group insurance policy must be identified by a member certificate stating

(1) the name of the surety;

(2) the name of the group for which the surety is to act;

(3) the number of the certificate of the group member;

(4) the amount of security required under section 27;

(5) the number of the group insurance policy and its date of issue;

(6) a document attesting that the licence holder is a member of the group and is covered by the group insurance policy; and

(7) the signature of a duly authorized representative of the surety or the association of contractors.

39. Subject to the second paragraph of section 31, the security forms for an individual or group insurance policy, an irrevocable and unconditional letter of credit, an undertaking provided by the contractor for itself and member certificates are to be kept by the Board.

The security referred to in paragraph 2, 3 or 4 of section 28 must be forwarded by the Board to the Minister of Finance who receives the security on deposit under the Deposit Act (R.S.Q., c. D-5) until the expiry date and, thereafter, for a five-year period unless the contractor shows that no lawsuit filed within the time set out in section 37 is in progress.

40. The security to which this Division applies is required to guarantee, for the term of the security,

(1) first, the compensation in principal, interest and costs of any natural person having a liquidated claim related to a loss referred to in section 25 and evidenced by a judgment rendered against the contractor or the surety, or by an agreement or transaction made between the client and the contractor or the syndic and the surety to settle a dispute; and

(2) second, the compensation of any other client, on the conditions mentioned in subparagraph 1.

However, clients may not be compensated from the security to which this Division applies for any part of their claim for which they may obtain compensation under other security issued by a person authorized to act as surety under the first paragraph of section 29; every claim for compensation from the security must be accompanied by a sworn statement from the client attesting that the client cannot obtain compensation from other security.

41. Where the Board receives a copy of a final judgment, agreement or transaction referred to in section 40 that settles a dispute, the Board is to open a claim file on the contractor concerned and so notify the surety. Every copy of a judgment, agreement or transaction received thereafter must be entered in the file.

In the case of more than one surety, the claim is made to the surety having issued the security that was in force at the time the contract was entered into, evidenced by a written document or the payment of an instalment. Otherwise, the claim is made to the surety having issued the security that was in force at the commencement of the work.

42. Where the surety receives from a person other than the Board a copy of a final judgment, agreement or transaction referred to in section 40 that settles a dispute, the surety must forward the copy to the Board without giving effect to the claim.

43. At the end of each six-month period following the opening of a claim file, the Board is to pay, in principal, interest and costs, the claims received during the six preceding months. To that end, the Board must,

(1) if the security was provided by means of an individual or group insurance policy or an irrevocable and unconditional letter of credit, notify the surety by sending the surety a copy of the judgments, agreements or transactions with instructions to remit to the Board the sums necessary to satisfy the claims;

(2) if the security was provided by means of a certified cheque or bank draft, request the Minister of Finance to remit to the Board the sums necessary to satisfy the claims;

(3) if the security was provided by means of bonds or other debt instruments or investment certificates, request the Minister of Finance to cash them and to remit to the Board the sums necessary to satisfy the claims.

The surety or the Minister of Finance is to remit to the Board the sums necessary to satisfy the claims within 30 days of receipt of a notice or request to that effect.

44. If the total amount of the claims exceeds the sums available to satisfy the claims on the date of the notice or request made under the first paragraph of section 43, the Board is to satisfy in full all the claims from natural persons, if the sums available are sufficient; otherwise, the Board is to satisfy the claims on a pro rata basis.

If sums are still available once the claims from natural persons have been satisfied, the Board is to satisfy the claims from the other clients on a pro rata basis.

45. Where a judgment, agreement or transaction is executed in accordance with section 43, the contractor must upgrade the security provided so that it meets the requirements of section 27 at all times.

In the case of a group insurance policy, the total amount of the policy must at all times satisfy the requirements of section 32.

CHAPTER III SPECIAL CASES OF LICENCE APPLICATION

46. A natural person, whether or not the person holds a licence, may apply for a licence on behalf of more than one partnership or legal person if the person holds 50% of the shares of those partnerships or 50% of the voting shares of those legal persons and the person has not waived the rights attaching to the person's participation or shares.

Despite the first paragraph, a natural person who, on 30 June 1992, held a contractor's licence and is the guarantor for a partnership or legal person as an officer may, for the same licence subclasses, remain the guarantor for that partnership or legal person.

Despite the first paragraph, a natural person who, on 30 June 1992, did not hold a contractor's licence but is the guarantor for more than one partnership or legal person as an officer may, for the same licence subclasses, remain the guarantor for those partnerships or legal persons.

47. A natural person who is the guarantor for a legal person holding a licence and holding 50% of the voting shares of one or more legal persons, and who has not waived the rights attaching to the voting shares may apply for a licence on behalf of those legal persons.

Despite the first paragraph, a natural person who, on 30 June 1992, was a guarantor for more than one legal person as an officer may, for the same licence subclasses, remain the guarantor for those legal persons.

48. A natural person who is the guarantor for a legal person holding a licence may apply for a licence on behalf of a legal person controlled by or affiliated with that legal person.

Legal persons are affiliated if one is controlled by the other.

A legal person is controlled by another legal person if the latter owns 50% of the voting shares and has not waived the rights attaching to those shares.

49. A natural person who holds a contractor's licence may apply for a contractor's licence on behalf of a partnership or legal person constituted for the purpose of construction work on a single construction project and for the same licence subclasses the person already holds, if the person is a partner in the partnership or a shareholder holding voting shares of the legal person and the person has not waived the rights attaching to the person's participation or shares.

A natural person may make such an application on behalf of more than one partnership or legal person thus constituted, provided that the person meets the conditions mentioned in the first paragraph in respect of each partnership or legal person.

50. A natural person who is the guarantor for a partnership or legal person that holds a contractor's licence and is a partner in one or more partnerships or a shareholder holding voting shares of one or more legal persons constituted for the purpose of construction work on a single construction project may, for the same licence subclasses held, apply for a contractor's licence on behalf of those partnerships or legal persons. That partnership or legal person must not have waived the rights attaching to its participation or shares.

51. A partnership or person may hold a contractor's licence and an owner-builder's licence concurrently.

52. A natural person may apply for a contractor's licence and an owner-builder's licence on behalf of the same partnership or legal person.

56. The fees payable under section 53 are not reimbursed by the Board following the suspension, cancellation or relinquishment of a licence.

The charges payable under section 53 are not reimbursed by the Board, except if the Board allows an application for a review of a decision.

However, the Board is to reimburse the holder for the licence fees and charges paid under section 53 in relation to a licence obtained under section 49 or 50 for construction work on a single construction project if the holder's tender is rejected, on receipt by the Board, at the latest on the thirtieth day following the date on which the tender rejection notice is received, of a document from the holder requesting the licence be relinquished and attesting that the tender was rejected and that no construction work was carried out after the licence was issued. Despite the foregoing, the reimbursement does not include additional charges paid under section 55 for a priority processing request.

CHAPTER V TRANSITIONAL AND FINAL

57. Licences issued in accordance with section 53 of chapter 22 of the Statutes of 2005 specify the licence classes and subclasses which, under Schedule IV, correspond to those mentioned on the replaced licence, as well as the capacity of the guarantors, in accordance with sections 61 to 64.

58. As of (*insert the date of coming into force of this section*), a natural person applying for the issue, maintenance or amendment of a building contractor's licence for the person or on behalf of a partnership or legal person may provide the security prescribed by Division V of Chapter II to serve in lieu of the security referred to in section 297.2 of the Act as well as the documents mentioned in section 24, 25 or 26, as the case may be, of the Regulation respecting the professional qualification of building contractors and owner-builders, approved by Order in Council 876-92 dated 10 June 1992, except if the application deals only with licence subcategories 3031 and 3032 in Schedule A to that Regulation.

However, for the purposes of the first paragraph, paragraphs 1 and 2 of section 27 are to be read as follows:

Draft Regulation

An Act respecting contracting by public bodies (2006, c. 29)

Service contracts of public bodies

— **Tariff of fees for professional services rendered to the Government**

— **Architects' Fees (Services to Government) Regulation**

— **Tarif d'honoraires pour services professionnels fournis au Gouvernement par des ingénieurs**

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Regulation respecting service contracts of public bodies and amending other regulatory provisions, appearing below, may be made by the Government on the expiry of 45 days following this publication.

The draft Regulation determines the conditions governing service contracts entered into by public bodies subject to the Act respecting contracting by public bodies (2006, c. 29). In compliance with all applicable intergovernmental agreements, it aims to promote the objectives set out in section 2 of the Act respecting contracting by public bodies that include transparency in contracting processes, honest and fair treatment of tenderers, and accountability reporting by the chief executive officers of public bodies to verify the proper use of public funds.

The draft Regulation also proposes to revoke the provisions of the following regulations and by-laws currently applicable to service contracts: the Regulation respecting supply contracts, construction contracts and service contracts of government departments and public bodies, made by Order in Council 961-2000 dated 16 August 2000, the By-law respecting special rules governing supply contracts, construction contracts, and services contracts of the Société immobilière du Québec, approved by Order in Council 76-96 dated 24 January 1996, the By-law concerning special rules respecting certain contracts entered into by the Société québécoise d'assainissement des eaux, approved by Order in Council 1229-94 dated 17 August 1994, the Regulation respecting the application of the Act respecting health services and social services (R.R.Q., 1981, c. S-5, r.1) and the Regulation respecting contracts of the Corporation d'hébergement du Québec, approved by Order in Council 972-2001 dated 23 August 2001.

It also amends the Tariff of fees for professional services provided to the Government (R.R.Q., 1981, c. A-6, r.30), the Architects' Fees (Services to Government) Regulation, made by Order in Council 2402-84 dated 31 October 1984, and the Tarif d'honoraires pour services professionnels fournis au Gouvernement par des ingénieurs, made by Order in Council 1235-87 dated 12 August 1987, so that the prescribed tariffs may apply to every public body subject to the Act respecting contracting by public bodies.

The draft Regulation has no significant impact on the public. It will lighten the administrative burden of enterprises since they will be subject to only one regulation, which should also reduce their administrative expenses.

Further information on the draft Regulation may be obtained by contacting Lucien Turcotte, Director, Réglementation en biens et services, Secrétariat du Conseil du trésor, 875, Grande Allée Est, Québec (Québec) G1R 5R8; telephone: 418 644-3421; fax: 418 528-6877; e-mail: lucien.turcotte@sct.gouv.qc.ca

Any interested person wishing to comment on the draft Regulation may do so before the expiry of the 45-day period by writing to the Minister responsible for Government Administration and Chair of the Conseil du trésor, 875, Grande Allée Est, Québec (Québec) G1R 5R8.

Government Administration and
Chair of the Conseil du trésor*

Regulation respecting service contracts of public bodies and amending other regulatory provisions

An Act respecting contracting by public bodies (2006, c. 29, s. 23)

CHAPTER I SCOPE

1. This Regulation applies to service contracts referred to in subparagraph 3 of the first paragraph of section 3 of the Act respecting contracting by public bodies (2006, c. 29) and contracts considered as such under the third paragraph of that section.

2. For the purposes of this Regulation, the electronic tendering system is the system approved by the Government under section 11 of the Act.

CHAPTER II PUBLIC CALL FOR TENDERS

DIVISION I GENERAL

3. A public call for tenders must be made in accordance with the provisions of this Chapter.

If a public body makes a public call for tenders to award a contract involving an expenditure below the public tender threshold referred to in subparagraph 1 of the first paragraph of section 10 of the Act, the tender closing date set out in subparagraph 6 of the second paragraph of section 4, the requirement as to the place of the establishment set out in subparagraph 2 of the first paragraph of section 6, the time for sending an addendum set out in the second paragraph of section 9 and the composition of the selection committee provided for in the second paragraph of section 26 may differ.

In the case of a contract referred to in Chapter III, the public call for tenders must comply with the special provisions of that chapter.

DIVISION II TENDER DOCUMENTS

4. Every public call for tenders is made by publishing a notice on the electronic tendering system.

The notice forms part of the tender documents and must specify and contain

- (1) the name of the public body;
- (2) a brief description of the services required;
- (3) the nature and amount of any required tender security;
- (4) whether or not an intergovernmental agreement within the meaning of section 2 of the Act applies;
- (5) the place where the tender documents or information may be obtained;
- (6) the place as well as the closing and opening dates and times, the closing date being not less than 15 days after the date on which the notice is published; and
- (7) the fact that the public body is not bound to accept any tender.

5. In its tender documents, a public body must provide

- (1) a description of the procurement requirements and conditions on which the contract is to be carried out;
- (2) in the case of a joint call for tenders within the meaning of section 15 of the Act, the identity of every public body and legal person established in the public interest that are parties to the joint call for tenders;
- (3) the eligibility requirements of service providers and the compliance requirements for tenders;
- (4) a list of the documents or other items required from service providers;
- (5) the tender opening procedure;
- (6) where a quality evaluation of tenders is to be made, the evaluation rules, including the criteria selected and, where applicable, their respective weighting;
- (7) the contract award rule, including any calculation to be applied before awarding the contract;
- (8) the contract to be signed; and
- (9) any other particular required under this Regulation.

In the case referred to in subparagraph 2 of the first paragraph, every party to a joint call for tenders must use the services of the selected provider, on the conditions specified in the tender documents.

6. In order to submit a tender, a service provider must meet the following eligibility requirements:

- (1) have all the necessary qualifications, authorizations, permits, licences, registrations, certificates, accreditations and attestations;
- (2) have in Québec or in a territory covered by an applicable intergovernmental agreement an establishment where activities are carried on on a permanent basis, clearly identified under the service provider's name and accessible during regular business hours; and
- (3) meet any other eligibility requirement specified in the tender documents.

Despite subparagraph 2 of the first paragraph, if competition is insufficient, the public body may make eligible any service provider that has an establishment in a territory not covered by an applicable intergovernmental agreement, provided that the public body so specifies in the tender documents.

A service provider who fails to comply with any of those requirements is ineligible.

7. Compliance requirements must specify the cases that will entail automatic rejection of a tender, namely

(1) the place or the closing date or time has not been complied with;

(2) a required document is missing;

(3) the required signature of an authorized person is missing;

(4) an erasure of or correction to the tendered price is not initialled;

(5) the tender is conditional or restrictive;

(6) the price submitted and the quality demonstration are not presented separately as required by section 16, where applicable; and

(7) any other compliance requirement stated in the tender documents as entailing automatic rejection of a tender has not been complied with.

8. Provided that it is specified in the tender documents, a public body may refuse to consider any service provider who, in the two years preceding the tender opening date, has been given an unsatisfactory performance report by the public body, failed to follow up on a tender or contract or has had a contract cancelled because of failure to comply with the contract conditions.

9. A public body may amend the tender documents by sending an addendum to the service providers concerned.

If the amendment is likely to affect the prices, the addendum must be sent at least 5 days before the tender closing time; if that 5-day period cannot be complied with, the closing time must be extended by the number of days needed to ensure compliance with the 5-day period.

DIVISION III **SERVICE CONTRACTS OF A TECHNICAL NATURE**

§1. Calling for and opening of tenders

10. A public body solicits solely a price to award a service contract of a technical nature.

11. Tenders are opened by the public body at a public opening in the presence of a witness at the designated place and on the date and time fixed in the tender documents, unless the tenders are in the form of a price list whose scope or layout does not make it possible to specify a total price.

At the public opening, the names of the service providers and their respective total prices are disclosed, subject to subsequent verifications.

Within 4 business days, the public body must make the tender opening results available on the electronic tendering system.

§2. Evaluation of tenders and contract awarding

12. The public body evaluates the tenders received, ensuring that the service providers are eligible and their tenders are compliant.

If the public body rejects a tender because the provider is ineligible or the tender is non-compliant, it must so inform the service provider and give the reason for the rejection no later than 15 days after awarding the contract.

13. A public body awards the contract to the service provider who submits the lowest price.

14. If several service providers obtain identical results following a call for tenders, the contract is awarded by a drawing of lots.

15. The public body awards the contract on the basis of the procurement requirements described and the rules established in the tender documents and according to the price submitted.

The public body may, however, negotiate the price submitted and the price stipulated in the contract may be less than the price submitted if

(1) only one service provider submitted a compliant tender;

(2) the service provider agreed to a new price; and

(3) it is the only change made to the conditions set out in the tender documents or to the tender in the course of the negotiation.

DIVISION IV PROFESSIONAL SERVICE CONTRACTS

§1. Calling for and opening of tenders

16. A public body must evaluate the quality of a tender to award a professional service contract; the public body must request a price, if required, and a quality demonstration based on predetermined evaluation criteria.

The price and the quality demonstration must be presented separately so that the first paragraph of section 26 may apply.

17. The provisions of the first paragraph of section 11 apply to a professional service contract. At the public opening of tenders, only the names of the service providers are disclosed and the results of the opening are made available in accordance with the third paragraph of that section.

§2. Evaluation of tenders and contract awarding

18. The provisions of section 12 apply to professional service contracts.

19. The public body must evaluate quality as provided in Schedule 1 or Schedule 2, as the case may be.

20. Where an evaluation is based on a minimum level of quality, the public body must apply the evaluation conditions in Schedule 1 and award the contract to the service provider who submitted the lowest price.

21. Where an evaluation is based on measurement of the level of quality followed by calculation of the price-quality ratio, the public body must apply the evaluation conditions in Schedule 2 and award the contract to the service provider who submitted the lowest adjusted price.

22. Where an evaluation is based solely on measurement of the level of quality, the public body must apply the evaluation conditions in sections 1 to 7 of Schedule 2 and award the contract to the service provider whose acceptable tender obtained the highest final score.

23. A public body may solicit only a quality demonstration if a tariff applicable to the contract concerned exists and has been established under an Act or approved by the Government or the Conseil du trésor.

24. Despite section 23, a public body may solicit only a quality demonstration to award an architecture or engineering contract, excluding a forest engineering contract.

If such a contract, excluding a contract for soils and materials engineering, involves an expenditure below \$250,000 and a regionalized public call for tenders is issued, the project manager must be a permanent resource of the service provider. The workplace of the permanent resource must be an establishment of the provider that has been in the region specified in the tender documents for at least 2 months before the tender closing date.

For the purposes of the second paragraph, permanent resource means a natural person who, on an annual basis, devotes at least 75% of his or her working time to the service provider and at least 1,100 hours.

25. A public body may make a public call for tenders in two stages in order to award a contract.

At the first stage, the public body selects service providers by soliciting only a quality demonstration. The tender documents must indicate whether every selected service provider or only a limited number of them will be invited to take part in the second stage.

The selection committee evaluates the quality of a tender according to the following conditions and procedure:

(1) if all the selected service providers are invited to take part in the second stage, the quality of a tender is evaluated in accordance with the evaluation conditions in Schedule 1 and all the providers who meet at least the minimum quality level are retained;

(2) if only a limited number of service providers are invited to take part in the second stage, the quality of a tender is evaluated in accordance with the evaluation conditions in sections 1 to 7 of Schedule 2 and only those who obtain the highest final scores are retained.

At the second stage, the public body invites the selected service providers to submit a tender that includes only a price or a quality demonstration with or without a price.

If only a price is required, sections 10 to 15 apply and, where the quality level of a tender is evaluated, sections 16 to 24 and 26 to 28 apply.

26. Tenders are to be evaluated by a selection committee set up for that purpose by the public body. If a price is submitted, the committee must evaluate quality without knowing the price submitted.

The selection committee must be composed of a secretary in charge of coordinating activities and of at least three members.

27. The provisions of sections 14 and 15 apply to a professional service contract, except that the condition in subparagraph 1 of the second paragraph of section 15 is that only one service provider must have submitted an acceptable tender.

28. The public body must inform each tenderer of the results of the tender quality evaluation within 15 days after awarding the contract.

If Schedule 1 applies, the particulars sent to tenderers are

(1) confirmation that their tender was accepted or not; and

(2) the name of and price submitted by the successful tenderer.

If Schedule 2 applies, the particulars sent to tenderers are

(1) confirmation that their tender was accepted or not;

(2) their quality score, their adjusted price and their rank according to the adjusted prices, where applicable; and

(3) the name, quality score and price of the successful tenderer, and the resulting adjusted price.

29. Except for contracts for financial or banking services, sections 16 to 28 apply where the public body evaluates the quality of a tender following an invitation to tender. However, the composition of the selection committee provided for in the second paragraph of section 26 may differ.

CHAPTER III SPECIAL RULES FOR AWARDING CONTRACTS

DIVISION I TASK ORDER CONTRACTS

30. A public body may enter into a task order contract with one or more service providers when the procurement requirements are recurrent and the number of requests and the rate or frequency at which they are to be performed are uncertain.

31. The public body must indicate in the tender documents the approximate monetary value of the services that the public body intends to request.

32. If the task order contract is entered into with more than one service provider, the performance requests are made to the service provider who submitted the lowest price, unless the provider cannot perform the service, in which case the other providers are solicited according to their respective rank.

DIVISION II SERVICE CONTRACTS OF A TECHNICAL NATURE

33. Despite section 10, a public body may decide to evaluate the quality of a tender in order to award a service contract of a technical nature and must then apply the provisions of Division IV of Chapter II.

DIVISION III PROFESSIONAL SERVICE CONTRACTS

34. Despite section 16, a public body may, except in the cases provided for in section 24, decide to solicit only a price in order to award a professional service contract; the public body must then apply the provisions of Division III of Chapter II.

CHAPTER IV SPECIAL CONTRACTS

DIVISION I LEGAL SERVICE CONTRACTS

35. A legal service contract may be entered into by mutual agreement.

36. For the public bodies referred to in subparagraph 1 of the first paragraph of section 4 of the Act, a legal service contract is entered into by the Minister of Justice or with the Minister's consent.

DIVISION II FINANCIAL OR BANKING SERVICE CONTRACTS

37. A financial or banking service contract may be entered into by mutual agreement.

38. For the public bodies referred to in subparagraph 1 or 2 of the first paragraph of section 4 of the Act, a financial or banking service contract is entered into by the Minister of Finance or with the Minister's consent.

DIVISION III ADVERTISING CAMPAIGN CONTRACTS

39. A public body may solicit only a quality demonstration to award an advertising campaign contract.

The amount indicated in the contract may not be greater than the amount predetermined in the tender documents.

DIVISION IV **TRANSPORT INFRASTRUCTURE CONTRACTS**

40. In the case of professional services for engineering or land surveying relating to transport infrastructures for which only a quality demonstration is solicited in accordance with section 23 or 24, the special awarding rules below may be applied with the authorization of the Minister of Transport if

(1) following a public call for tenders, contracts are awarded to more than one service provider, despite section 22; or

(2) a delivery order contract is awarded to more than one service provider, despite section 32.

For the purposes of subparagraph 1 of the first paragraph, contracts are awarded to the service providers whose acceptable tenders obtained the highest final scores. If the monetary value of the contracts differs, the contract with the highest value is awarded to the service provider whose acceptable tender obtained the highest final score, and so on.

For the purposes of subparagraph 2 of the first paragraph, the tender documents must indicate whether all or a limited number of the service providers who submitted an acceptable tender will be retained. If the case of a limited number, the service providers retained are those who obtained the highest final scores. Performance requests are then distributed among the service providers retained in a fair manner that takes into account the objectives set out in subparagraphs 2 and 6 of the first paragraph of section 2 of the Act.

DIVISION V **TRAVEL SERVICE CONTRACTS**

41. A public body may solicit only a quality demonstration to award a travel service contract involving an expenditure equal to or above the public tender threshold.

In that case, the public body negotiates the amount of the contract with the service provider whose acceptable tender obtained the highest score for quality.

CHAPTER V **QUALIFICATION OF SERVICE PROVIDERS**

42. A public body may qualify service providers prior to the acquisition process if

(1) the qualification of service providers is preceded by a public notice to that effect on the electronic tendering system;

(2) a list of the qualified service providers is published on the electronic tendering system and every provider is informed of entry on the list or the reason for refusal if entry is denied; and

(3) a public notice of qualification is published again at least once a year, even though the public body may qualify service providers at intervals varying from 1 to 3 years.

43. Where the public body evaluates the quality of applications for qualification, it must apply the evaluation conditions in Schedule 1 or in sections 1 to 7 of Schedule 2.

44. Except in the cases described in section 13 of the Act, every contract subsequent to the qualification of service providers is limited to qualified providers only and, if a contract involves an expenditure equal to or above the public tender threshold, it must be awarded through a public call for tenders.

CHAPTER VI **CONDITIONS TO BE MET PRIOR TO ENTERING INTO CONTRACTS**

DIVISION I **REQUIRED AUTHORIZATION**

45. The authorization of the chief executive officer of the public body is required for every contract of a repetitive nature whose expected term is greater than 3 years. Despite the foregoing, the chief executive officer of the public body may not authorize a contract whose expected term is greater than 5 years, including any renewal.

Authorization is also required before entering into a contract involving an expenditure equal to or above the public tender threshold if

(1) only one service provider submitted a compliant tender; or

(2) only one service provider submitted an acceptable tender following a quality evaluation.

In the case provided for in subparagraph 2 of the second paragraph, the selection committee must not know the price and the chief executive officer of the public body is to determine whether or not the awarding process should be continued.

DIVISION II **AFFIRMATIVE ACTION PROGRAM**

46. This Division applies only to public bodies referred to in subparagraph 1 or 2 of the first paragraph of section 4 of the Act.

47. Where the amount of a service contract is \$100,000 or more, or where the amount of a service subcontract is \$100,000 or more, the contract or subcontract may not be entered into with a Québec service provider or subcontractor whose business employs more than 100 persons unless the service provider or subcontractor has made a commitment to implement an affirmative action program that complies with the Charter of human rights and freedoms (R.S.Q., c. C-12) and holds an attestation to that effect issued by the Chair of the Conseil du trésor.

If such a contract or subcontract is to be entered into with a service provider or subcontractor outside Québec but within Canada whose business employs more than 100 persons, the service provider or subcontractor must provide an attestation to the effect that the service provider or subcontractor has already made a commitment to implement an employment equity program of the province or territory concerned, as applicable, or failing that, to implement a federal employment equity program.

48. The Chair of the Conseil du trésor is to cancel the attestation issued to any Québec service provider who does not fulfil a commitment to implement an affirmative action program. Such a service provider may not enter into a service contract or subcontract as long as a new attestation has not been issued.

A service provider located outside Québec but in Canada whose attestation referred to in the second paragraph of section 47 has been revoked may not enter into a service contract or subcontract as long as a new attestation has not been issued.

DIVISION III **QUALITY ASSURANCE, SUSTAINABLE DEVELOPMENT AND ENVIRONMENT**

49. A public body may require a quality assurance system, including the ISO 9001:2000 standard, or a specification relating to sustainable development and the environment for the carrying out of a contract. The public body must specify the requirement in the tender documents.

If such a requirement unduly reduces competition, the public body must allow any service provider to submit a tender and grant to a service provider that fulfils the requirement referred to in the first paragraph a preferential margin not exceeding 10%. In the latter case, the price submitted by such a service provider is, for the sole purpose of determining the successful tenderer, reduced by the preferential margin, without any effect on the price for contract awarding purposes.

The percentage of the preferential margin to be applied must be indicated in the tender documents.

In the case of a contract whose quality evaluation is based solely on the quality measurement, the public body must ascertain that there is enough competition to allow the first paragraph to apply.

CHAPTER VII **ACCOUNTABILITY REPORTING**

50. Following a public call for tenders, the public body must publish on the electronic tendering system, within 15 days of the awarding of the contract, the name of the successful tenderer and the amount of the contract.

In the case of a task order contract involving several service providers, the public body must publish their names and their respective total price.

If the contract involves price lists whose scope or layout prevents an integral publication, the public body must indicate on the electronic tendering system how information on the results may be obtained.

51. The public body must publish on the electronic tendering system, at least once every 6 months, a list of the contracts involving an expenditure greater than \$25,000 entered into by mutual agreement or following an invitation to tender, except contracts involving confidential or protected information within the meaning of subparagraph 3 of the first paragraph of section 13 of the Act.

52. The list to be published pursuant to section 51 must contain at least the following information:

- (1) the name of the service provider, the date and the amount of the contract;
- (2) the nature of the service to be provided under the contract; and
- (3) in the case of a contract by mutual agreement involving an expenditure above the public tender threshold, the provision in the Act or Regulation under which the contract was awarded.

CHAPTER VIII CONTRACT MANAGEMENT CONDITIONS

DIVISION I SETTLEMENT OF DISPUTES

53. The public body and the service provider must attempt to amicably settle any difficulty that may arise out of a contract by resorting to the dispute resolution clauses in the contract, if any.

If the matter cannot be settled in that manner, it may be referred to a court of justice or an adjudicative body, as the case may be, or to an arbitrator. In the latter case, a general or special authorization from the Minister of Justice is required for public bodies referred to in subparagraph 1 or 2 of the first paragraph of section 4 of the Act.

DIVISION II PERFORMANCE EVALUATION

54. A public body must record in a report the evaluation of any service provider whose performance is considered to be unsatisfactory.

SCHEDULE 1

(ss. 19, 20, 25, 28, 43)

QUALITY EVALUATION CONDITIONS FOR A CONTRACT AWARD BASED ON THE LOWEST PRICE

1. At least 3 criteria are required for quality evaluation.

2. The public body must specify in the tender documents, for each criterion, the elements of quality required to reach an “acceptable level of performance”, which corresponds to the public body’s minimum expectations for the criterion.

3. An acceptable tender in terms of quality is a tender that, for each criterion, meets the “acceptable level of performance”. A tender that does not reach that level of performance in respect of any criterion is rejected.

SCHEDULE 2

(ss. 19, 21, 22, 25, 28, 43)

QUALITY EVALUATION CONDITIONS FOR A CONTRACT AWARD BASED ON THE LOWEST ADJUSTED PRICE OR BASED ON THE FINAL SCORE FOR THE HIGHEST QUALITY

1. The evaluation grid must have at least 3 quality evaluation criteria.

2. The public body must specify in the tender documents, for each criterion, the elements of quality required to reach an “acceptable level of performance”, which corresponds to the public body’s minimum expectations for the criterion.

3. Each criterion in the evaluation grid is weighted on the basis of its importance for the carrying out of the contract. The total weight of the criteria is 100%.

4. Each criterion is evaluated on a scale of 0 to 100 points, the “acceptable level of performance” corresponding to 70 points.

5. At least 70 points may be required in respect of any criterion described in the evaluation grid. A tender that does not reach that minimum is rejected.

6. The final score for the quality of a tender is the total of the weighted scores obtained in respect of each criterion; the weighted scores are determined by multiplying the score obtained for a criterion by the weight of that criterion.

7. An acceptable tender in terms of quality is a tender whose final score is at least 70%.

8. The price of each acceptable tender is adjusted according to the following formula:

$$\text{Adjusted price} = \frac{\text{Price submitted}}{\text{Quality adjustment factor}}$$

The quality adjustment factor is equal to:

$$1 + K \left(\frac{\text{Final score for quality} - 70}{30} \right)$$

where

“K” is the additional percentage that the public body is willing to pay to move from a 70-point tender to a 100-point tender, for all criteria.

9. The public body determines in the tender documents the value of K, which must range from 15% to 30%.

WHEREAS a school general election was scheduled on November 4, 2007 in Québec school boards;

WHEREAS the returning officer of the Commission scolaire de la Moyenne-Côte-Nord made a request to the Chief Electoral Officer to adapt the provisions of the Act Respecting School Elections (R.S.Q., c. E-2.3), to interrupt polling for security reasons and compensate for time lost at a later date;

WHEREAS the security of election staff and electors who exercise their voting right must be ensured;

The Chief Electoral Officer, pursuant to the powers conferred upon him by section 30.8 of the Act respecting school elections, has decided to adapt the provisions of this Act as follows:
