EXPLANATORY NOTES

The purpose of this Act is to implement measures announced in the Budget Speech of 30 March 2010 and measures aimed at returning to a balanced budget in 2013-2014 and reducing the debt.

It curbs government spending

(1) by limiting the percentage increase in the remuneration of senior executives and management personnel of government departments and bodies during the period from 1 April 2010 to 31 March 2015;

(2) by prohibiting, for a two-year period, the granting of bonuses, allowances, compensation or other additional performance-based remuneration to senior executives and management personnel of government departments and certain bodies, and to the office staff of a minister;

(3) by requiring State-owned enterprises and certain of their subsidiaries to require their senior executives and management personnel to participate in efforts to reduce performance-based additional remuneration, the result of which should be at least comparable to that required of senior executives and management personnel in other bodies;

(4) by asking bodies in the health and social services network, bodies in the education network and universities to make an effort to downsize their management and administrative personnel, mainly through attrition;

(5) by requiring certain bodies to take measures to reduce their advertising, training, travel and other administrative operating expenses; and

(6) by cancelling the increases in the annual indemnity payable to Members of the National Assembly for the period from 1 April 2010 to 31 March 2012.

As regards the funding of public services,

(1) it creates the Fund to Finance Health and Social Services Institutions, into which the health contribution it imposes will be paid, among other sums, in order to finance institutions in that sector based on their productivity and results;

(2) it creates the Road and Public Transit Infrastructure Fund to finance projects in that sector and provides that most of the proceeds from the fuel tax are to be paid into it, as well as the duties on driver's licences and most registration fees; and

(3) it prescribes when and how fees are adjusted.

To reduce the debt,

(1) it amends the Act to reduce the debt and establish the Generations Fund to revise the debt reduction targets to be attained in 2025-2026;

(2) it amends the Hydro-Québec Act to provide for the annual payment into the Generations Fund of a portion of the dividends paid by Hydro-Québec to the Government, up to a total of \$1,575,000,000; and

(3) it amends the Act respecting the Régie de l'énergie to allow a gradual increase in the heritage pool electricity cost as of the year 2014 and the adjustment of that cost after five years.

The Act increases

(1) the part of the proceeds from the tobacco tax to be paid into the Sports and Physical Activity Development Fund;

(2) the authorized capital of the Société des établissements de plein air du Québec and the Société générale de financement; and

(3) the maximum term of imprisonment for certain fiscal offences.

Lastly, the Act contains transitional and final provisions.

DIVISION I

INTERPRETATION

1. In this chapter,

“body” means

(1) a government body, that is, a government department or a body whose personnel is appointed in accordance with the Public Service Act (R.S.Q., chapter F-3.1.1);

(2) a State-owned enterprise, that is, Hydro-Québec, Investissement Québec, the Société de l'assurance automobile du Québec, the Société des alcools du Québec, the Société des loteries du Québec and the Société générale de financement, as well as each subsidiary constituted under the laws of Québec or another jurisdiction in Canada all of whose shares are held directly or indirectly by one of those enterprises, except the subsidiaries of the Société générale de financement;

(3) a body of the Administration, that is, a body whose constituting Act provides that the remuneration of the members of its personnel is determined in accordance with the conditions defined by the Government, a government agency mentioned in Schedule C to the Act respecting the process of negotiation of the collective agreements in the public and parapublic sectors (R.S.Q., chapter R-8.2), the Centre de recherche industrielle du Québec, Immobilière SHQ and the Société de développement de la Baie James, but not a State-owned enterprise or the Caisse de dépôt et placement du Québec;

(4) a body in the education network, that is, a school board or the Comité de gestion de la taxe scolaire de l'Île de Montréal established by the Education Act (R.S.Q., chapter I-13.3) or a college to which the General and Vocational Colleges Act (R.S.Q., chapter C-29) applies;

(5) a body in the health and social services network, that is, an institution or a body classified as an institution to which the Act respecting the process of negotiation of the collective agreements in the public and parapublic sectors applies; or

(6) a university, that is, an educational institution at the university level referred to in paragraphs 1 to 11 of section 1 of the Act respecting educational institutions at the university level (R.S.Q., chapter E-14.1).

A person appointed under an Act by the National Assembly or the Government, together with the personnel the person manages, is considered to be a government body.

“management personnel” means

(1) in a government body, a State-owned enterprise, a body of the Administration or a body in the education network or the health and social services network, the persons who exercise management duties or are assigned the status of manager except senior executives and employees within the meaning of the Labour Code (R.S.Q., chapter C-27); or

(2) in universities, the members of the administrative personnel referred to in section 4.5 of the Act respecting educational institutions at the university level.

“senior executive” means,

(1) in a State-owned enterprise, the most senior officer, other than the president and chief executive officer of the Société de l'assurance automobile du Québec, a vice-president or vice-chair or any person with management responsibilities who reports directly to the most senior officer;

(2) in a body of the Administration, the most senior officer, a vice-president or vice-chair or any person with management responsibilities who reports directly to the most senior officer and is not appointed by the National Assembly or the Government;

(5) in a university, a member of the senior administrative personnel to whom section 4.4 of the Act respecting educational institutions at the university level applies.

DIVISION II

REMUNERATION

2. Salary rates and scales for the senior executives and management personnel of government bodies and bodies in the education network and in the health and social services network, in force on the 31 March preceding each period specified below, are increased by the following percentages:

- (1) for the period from 1 April 2010 to 31 March 2011, 0.5%;
- (2) for the period from 1 April 2011 to 31 March 2012, 0.75%;
- (3) for the period from 1 April 2012 to 31 March 2013, 1.00%;
- (4) for the period from 1 April 2013 to 31 March 2014, 1.25%; and
- (5) for the period from 1 April 2014 to 31 March 2015, 1.5%.

3. The bonuses and allowances of the personnel referred to in section 2, in force on the 31 March preceding each period specified in that section, are increased by the same percentages for the same periods.

Bonuses and allowances do not include amounts paid to cover expenses, such as allowances for meal or travel expenses.

Bonuses and allowances expressed as a percentage of salary, in force on the 31 March preceding each period specified in section 2, may not be increased for those periods.

4. The prescribed 1.25% increase for the period from 1 April 2013 to 31 March 2014 is increased by a percentage increase equal to the difference between the cumulative increase in Québec's nominal gross domestic product (GDP) for the years 2010, 2011 and 2012, based on Statistics Canada data, and the forecast cumulative increase in Québec's nominal GDP for the same years, established at 3.8% for the year 2010, 4.5% for the year 2011 and 4.4% for the year 2012.

The percentage increase so computed may not, however, be greater than 0.75%.

The chair of the Conseil du trésor publishes a notice of the percentage increase in the *Gazette officielle du Québec* within 60 days after publication of the Statistics Canada data regarding Québec's nominal GDP for the year 2012.

5. The prescribed 1.5% increase for the period from 1 April 2014 to 31 March 2015 is increased by a percentage increase equal to the difference between the cumulative increase in Québec's nominal GDP for the years 2010, 2011, 2012 and 2013, based on Statistics Canada data, and the forecast cumulative increase in Québec's nominal GDP for the same years, established at 3.8% for the year 2010, 4.5% for the year 2011, 4.4% for the year 2012 and 4.3% for the year 2013.

The percentage increase so computed may not, however, be greater than 1.5% minus the percentage increase announced for the preceding period.

The chair of the Conseil du trésor publishes a notice of the percentage increase in the *Gazette officielle du Québec* within 60 days after publication of the Statistics Canada data regarding Québec's nominal GDP for the year 2013.

6. The salary rates and scales and the bonuses and allowances of the senior executives and management personnel of State-owned enterprises, bodies of the Administration and universities, in force on the 31 March preceding each period specified in section 2, may not be increased by a higher percentage than the percentages prescribed in that section or computed under section 4 or 5 for the same periods or the periods determined under section 7, as applicable.

7. If an increase came into effect in the year preceding 12 May 2010, each increase in salary rates and scales and in bonuses and allowances prescribed by this chapter is postponed to the next anniversary date of that increase.

8. No bonus, allowance, premium, compensation or other additional remuneration based on personal performance or the performance of a body for either of the fiscal years beginning in 2010 and 2011, may be granted to

(1) the management personnel of a government body;

(2) a senior executive or the management personnel of a body of the Administration, a body in the health and social services network, a body in the education network or a university; or

(3) the members of a minister's office staff referred to in section 11.5 of the Executive Power Act (R.S.Q., chapter E-18).

The first paragraph does not prevent progression within a salary scale that is dependent on a performance evaluation, or the payment of performance-based additional remuneration for a fiscal year beginning not later than 2009.

For the purposes of this chapter, "fiscal year" includes a financial year.

9. State-owned enterprises must require their senior executives and management personnel to participate in efforts to reduce performance-based additional remuneration, the results of which should be at least comparable to the effort required of senior executives and management personnel in government bodies.

The Government may, on the recommendation of the Minister of Finance, change the conditions of employment concerning performance-based additional remuneration in a State-owned enterprise if the board of directors of the enterprise fails to change them within a reasonable time in order to achieve the results sought in the first paragraph.

10. The management personnel of the Société de l'assurance automobile du Québec established under the Act respecting the Société de l'assurance automobile du Québec (R.S.Q., chapter S-11.011) are subject to sections 2 and 8. The Société's senior executives are subject to sections 6 and 8.

DIVISION III

CONTROL OF CERTAIN EXPENSES AND HIRING LIMITS

11. By the end of their fiscal year beginning in 2013, bodies in the health and social services network, bodies in the education network and universities must have reduced their administrative operating expenses by at least 10% in relation to administrative operating expenses incurred during their fiscal year beginning in 2009.

To that end, bodies in the health and social services network and bodies in the education network must, among other things, take the necessary measures to ensure that at the end of their fiscal year beginning in 2010, the sum of their advertising, training and travel expenses has been reduced by 25% in relation to the sum of those expenses for the preceding fiscal year.

Similarly, universities must, among other things, take the necessary measures to ensure that at the end of their fiscal year beginning in 2010, the sum of their training and travel expenses has been reduced by 25% in relation to the sum of those expenses for the preceding fiscal year.

This section does not exempt a body or university from the application of the Act to promote workforce skills development and recognition (R.S.Q., chapter D-8.3).

12. The management personnel and administrative personnel in bodies in the health and social services network, bodies in the education network and universities must be reduced, giving priority to attrition, to reduce operating expenses. The reduction must continue until the end of the fiscal year beginning in 2013, even if operating expenses have been reduced in accordance with section 11.

13. By 30 September 2010, each body in the education network and each university must submit a plan to reduce both administrative operating expenses and personnel to the Minister of Education, Recreation and Sports.

Similarly, each health and social services agency and each health and social services council must, by the same date, submit such a plan to the Minister of Health and Social Services.

The plan of an agency or council must include the measures applicable to the agency or council, as well as those applicable to the other bodies in the health and social services network in its region.

14. The board of directors or, failing such a board, the person holding the position of highest authority within a body other than a budget-funded body listed in Schedule 2 to the Financial Administration Act (R.S.Q., chapter A-6.001), except a State-owned enterprise, must adopt a policy to reduce the body's administrative operating expenses in accordance with the first and second paragraphs of section 11, keeping in mind the body's commercial characteristics.

This section also applies to the Commission administrative des régimes de retraite et d'assurances, the Commission de la santé et de la sécurité du travail and the Régie des rentes du Québec, but does not apply to Héma-Québec.

15. The board of directors of a State-owned enterprise, keeping in mind the enterprise's characteristics, must adopt a policy aimed at reducing the expenses referred to in the first and second paragraphs of section 11.

16. The policies referred to in sections 14 and 15 must be submitted to the Government before 30 September 2010, for approval with or without amendment. If a body or State-owned enterprise fails to submit such a policy before that date, the Government may order that the applicable policy be adopted.

The Minister responsible for a State-owned enterprise is responsible for the application of section 15 and this section to the enterprise.

17. The Minister responsible for a body to which this division applies may provide guidelines to the body on measures to reduce administrative operating expenses in accordance with section 11 and to reduce the personnel referred to in section 12.

Guidelines for bodies in the health and social services network, bodies in the education network or universities must be submitted to the Conseil du trésor for approval and guidelines for other bodies must be submitted to the Government for approval.

DIVISION IV**MEASURES**

18. A body within the meaning of this chapter must report on the application of this chapter in the annual report that it is required to prepare and that covers all or part of an application period specified in section 2 or section 7, as applicable.

19. A government body, a State-owned enterprise or a body of the Administration must provide any information the chair of the Conseil du trésor requests on the implementation of this chapter. The chair of the Conseil du trésor may also require the preparation of documents on the implementation of this chapter.

Bodies in the health and social services network, bodies in the education network and universities must provide any information the Minister responsible requests on the implementation of this chapter. That Minister may also require the preparation of documents on the implementation of this chapter.

20. This chapter applies despite any contrary provision of an Act, regulation, by-law, order, order in council, directive, decision, policy, budget rule, agreement, contract or other similar instrument.

However, it does not restrict the application of the Pay Equity Act (R.S.Q., chapter E-12.001), including the application of increases in salary rates and scales that result from that application.

21. Changes to conditions of employment that result from the application of this chapter may not give rise to any compensation or reparation.

22. An increase in salary rates and scales or in bonuses and allowances that is greater than the increase prescribed in sections 2 to 7 or the payment of additional remuneration in contravention of section 8 is of no effect.

If no agreement is reached regarding the repayment of an amount paid in contravention of this chapter, a body must recover the amount by deducting from an employee's remuneration each pay period an amount not exceeding 30% of the employee's gross salary.

23. The salary and bonus adjustments resulting from the application of this chapter do not bear interest.

24. The Government may, on the recommendation of the Conseil du trésor,

(1) exempt a body or a category of bodies, in whole or in part, from the application of this chapter; and

(2) exempt a person or a category of persons, in whole or in part, from the application of this chapter.

25. The Government may, without further formality, set or change the amount or the date of payment of any funds that the Government or a Minister or mandatory body of the Government pays to a body to which this chapter applies in order to take into account the application of this chapter.

26. An order made by the Government under this chapter takes effect on the date on which it is adopted or on another date specified in the order. The Regulations Act (R.S.Q., chapter R-18.1) does not apply to such an order.

27. Unless otherwise provided, the chair of the Conseil du trésor is responsible for the administration of Divisions I to IV of this chapter.

DIVISION III**ADJUSTMENT OF CERTAIN FEES AND OTHER PROVISIONS
RELATING TO FEES****FINANCIAL ADMINISTRATION ACT**

51. The Financial Administration Act (R.S.Q., chapter A-6.001) is amended by inserting the following after section 83:

“CHAPTER VIII.1**“ADJUSTMENT OF CERTAIN FEES AND OTHER PROVISIONS
RELATING TO FEES**

“83.1. For the purposes of this chapter,

(1) “body” means a government department or body, except the committee on the remuneration of judges and justices of the peace and the Conseil de la magistrature;

(2) “institution” means

(a) a school board, the Comité de gestion de la taxe scolaire de l'Île de Montréal, a general and vocational college or a university institution listed in paragraphs 1 to 11 of section 1 of the Act respecting educational institutions at the university level (chapter E-14.1); or

(b) a health and social services agency or a public institution governed by the Act respecting health services and social services (chapter S-4.2);

(3) “fee” means the consideration in money, set by a law, the Government, a minister or a body, to be paid for a particular public service or a set of public services delivered by a body or an institution in the course of its activities.

Consideration paid by the Government, a minister, a body or an institution is not a fee.

“83.2. For the purposes of this chapter, when a fee is subject to the authorization or approval of a body, a minister or the Government, it is considered to be set by the giver of the authorization or approval.

“83.3. Fees are adjusted by operation of law on 1 January of each year by a rate corresponding to the annual change in the overall average Québec consumer price index without alcoholic beverages and tobacco products for the 12-month period ending on 30 September of the year preceding the year for which the fee is to be adjusted. The Minister publishes the rate without delay on the Minister’s website and in the *Gazette officielle du Québec*.

“83.4. A fee is not adjusted if it was set in the preceding year or was increased in the preceding year otherwise than under section 83.3.

A fee is not adjusted according to the adjustment rate provided for in section 83.3 if the estimated change in the cost of the public service for which it is collected is less than the adjustment rate, provided the estimated change was approved by the Minister of Finance. In such a case, the fee is adjusted, on 1 January following the approval given by the Minister, according to the rate corresponding to the estimated change in the cost of the public service.

Estimating the change in the cost of the public service falls to the body or the minister having the authority to set the fee.

On the recommendation of the Minister of Finance, the Government may exempt a fee or a set of fees from being adjusted under section 83.3.

“83.5. The adjustment rates referred to in sections 83.3 and 83.4 may not be less than zero.

The Minister makes a regulation to determine the rules for rounding off adjusted fees according to those rates. The regulation may provide for postponing the application of an adjustment to a subsequent year in the cases it determines.

“83.6. The body or minister who set a fee adjusted under section 83.3 or 83.4 publishes the results of the adjustment in the *Gazette officielle du Québec* if the fee was published in the *Gazette officielle du Québec* at the time it was set. When other fees are adjusted under that section, the body or the minister informs the public of the results by any means considered appropriate.

“83.7. Estimating the cost of a public service funded by a fee set by the Government and publishing the results of the adjustment of such a fee falls to the minister responsible for the body or institution that delivers the public service.

“83.8. A fee may be set under this Act to fund a particular public service or a set of public services delivered by a body or an institution, provided the law does not otherwise confer the power to set that fee.

In the case of a department or an institution, the fee must be determined by government regulation; in the case of another body, the fee is set by a regulation of that body, approved by the Government with or without amendment.

The Government may make the regulation if the body fails to make it within the time prescribed.

“83.9. Despite any legislative provision to the contrary, the Government may make a regulation amending two or more regulations it has made in order to set fees for public services delivered by the bodies or the institutions governed by this Act.

The regulation must specify each of the public services or set of public services for which a fee was set and clearly set out the new fee.

“83.10. The Minister or the body having the authority to set the fee for a public service or a set of public services delivered by another body or an institution may require that other body or institution to furnish the information needed to set the fee and to estimate the change in the cost of the service or set of services.

The same holds for the minister responsible for the body or institution that delivers a fee-funded public service if the fee for the public service was set by the Government.

“83.11. This chapter does not apply to fees set directly by an Act, a contract or the Régie de l'énergie.”

(2) section 37.21 must be interpreted without reference to sections 1025 and 1026 of the Taxation Act (R.S.Q., chapter I-3).

In addition, if, because of section 37.21 of the Act respecting the Régie de l'assurance maladie du Québec, enacted by section 32, either section 1025 or 1026 of the Taxation Act applies to a given year which is any of the years 2011, 2012 and 2013 for the purpose of computing the payments an individual referred to in section 37.17 of the Act respecting the Régie de l'assurance maladie du Québec, enacted by section 32, must pay for that year, the following rules apply:

78. The expenditures made after 31 March 2010 by the Minister of Transport out of the appropriations granted by Parliament and that, on the date they were made, are in the nature of costs that may be charged against the Road and Public Transit Infrastructure Fund, are charged against that Fund.

This class includes Rate L contracts except those relating principally to an industrial activity defined in section 52.1.1 of that Act.

A consumer with an annual contract for minimum billing demand of 5,000 kilowatts or more is eligible for Rate L provided the contract is principally related to such an industrial activity; otherwise, the consumer is eligible for Rate LG.

Section 50, except as regards section 88.8 of the Transport Act (R.S.Q., chapter T-12), has effect from 1 May 2010.

82. This Act comes into force on 12 June 2010, subject to the following provisions:

(1) paragraph 2 of section 39 comes into force on the date of coming into force of paragraph 1 of section 54 of the Act to again amend the Highway Safety Code and other legislative provisions (2008, chapter 14). On the same date, subparagraph 5 of the first paragraph of section 648.4 of the Highway Safety Code (R.S.Q., chapter C-24.2) ceases to have effect;
