2. In this Regulation, “person trained in criminology” means any person who holds a bachelor’s degree or a master’s degree in the field of criminology issued by Université Laval, the Université de Montréal or the University of Ottawa.

3. A person trained in criminology may, within the scope of the activities referred to in subparagraph *i* of paragraph *d* of section 37 of the Professional Code (chapter C-26), engage in the following professional activities :

(1) assess a person suffering from a mental or neuropsychological disorder attested by the diagnosis or evaluation of an authorized professional;

(2) assess a person further to a decision of the director of youth protection or of a tribunal made under the Youth Protection Act (chapter P-34.1);

(3) assess an adolescent further to a decision of a tribunal made under the Youth Criminal Justice Act (Statutes of Canada, 2002, chapter 1);

(5) make decisions as to the use of isolation measures in accordance with the Act respecting health services and social services and the Act respecting health services and social services for Cree Native persons.

4. A person trained in criminology must, to engage in the professional activities referred to in section 3, be registered in the register kept by the Ordre des travailleurs sociaux et des thérapeutes conjugaux et familiaux du Québec and meet the requirements related to the mandatory training provided for in this Regulation.

5. A student registered in a program of studies leading to a diploma issued by an educational institution referred to in section 2 may, under the supervision of a training supervisor holding a diploma referred to in that section, engage in the professional activities referred to in paragraphs 2 and 3 of section 3 where the activities are required for the completion of the program of studies.

The training supervisor must be registered in the register kept by the Order.

The educational institution referred to in section 2 sends, on request, to the Order the particulars of the training supervisor and the student supervised as well as the conditions of supervision.

DIVISION II MANDATORY TRAINING

6. A person trained in criminology must complete at least 6 hours of training for each professional activity engaged in per 2-year reference period.

7. A person trained in criminology chooses, among the eligible training activities determined in section 8, those provided for in the program of training activities established by the Order pursuant to section 9 or recognized by the Order pursuant to section 10 and that are related to the professional activity engaged in.

DIVISION III TRAINING ACTIVITIES

- (3) the clientele covered by the training activity;
- (4) legal and organizational aspects of the practice;

To that end, the Order determines the training activities constituting the program, that is, courses, seminars, symposiums, conferences or conventions and the persons, university educational institutions, organizations or specialized institutions authorized to offer them.

The determination is made by taking into consideration the following criteria :

- (2) the competence and qualifications of the instructor in relation to the subject matter;
- (3) the curricular framework;
- (4) the quality of instructional material provided;
- (5) the recognition of attendance to or successful completion of the training activity.

10. A training activity referred to in the first paragraph of section 8 that is not listed in the program of training activities established by the Order may be recognized on request by a person trained in criminology. The request must be sent to the Order at least 60 days before the date set for the holding of the activity or within 120 days following the date on which it is held, along with the supporting documents specifying the activity concerned, its duration, content, the person in charge or the instructor and, if applicable, the result obtained and any other information allowing to establish that the activity complies with the criteria in the second paragraph of section 9.

The request for recognition following the date on which the training activity is held is valid only for the person having attended the training activity.

The Order rules on the request within 30 days of its receipt.

In case of refusal, the secretary of the Order notifies the person in writing of its decision. The secretary also informs the person of his or her right to apply for a review of the decision within 15 days of receipt of the notice. The person must send the application for review in writing to the secretary of the Order, along with his or her written observations.

DIVISION IV EXEMPTION FROM TRAINING

11. A person trained in criminology who shows that it is impossible for him or her to comply with the required training may, for a given reference period, be exempted from having to attend training.

To obtain an exemption, the person applies to the Order by completing the form provided for that purpose and provides the following information :

- (2) a doctor's note or any other proof attesting to the fact that the person is unable to attend.

Before refusing an application for exemption, the Order must so notify the applicant and inform the applicant of his or her right to submit written observations within 15 days. The Order sends its decision to the applicant within 60 days of receipt of the application.

12. As soon as the exemption is no longer required, the person trained in criminology must so notify the Order in writing and comply with the training requirement prescribed by this Regulation, under the terms and conditions set by the Order.

Before setting the terms and conditions, the Order must so notify the person in writing and inform the person of his or her right to submit written observations within 15 days. The Order determines the terms and conditions of training within 60 days of receipt of the notice informing it that the exemption is no longer required

(1) the training activities attended during that reference period;

The Order may request any document in support of the information recorded in the declaration of the person who must then send it within 10 days after the date of receipt of the request.

Training hours completed after the default may only be computed for the year of the reference period during which the person was in default.

15. The person trained in criminology must keep, for at least 2 years after the end of a reference period, the documents in support of the information recorded in the person's declaration of training.

DIVISION VI DEFAULT

16. The Order sends a final notice to the person trained in criminology who failed to remedy the default indicated in the notice referred to in section 14, informing the person that the person has an additional 15-day period from the receipt of the final notice to remedy the default and that, otherwise, the person must cease to engage in the professional activity concerned until the person provides the Order with proof that the person has met the requirements indicated in the notice.

DIVISION VII TRANSITIONAL AND FINAL

17. For the purposes of this Regulation, the first reference period begins on 1 April 2014.

2. The allowable number of students determined under section 1 must be adjusted by adding the number of students who may be taken into account for the purposes of the reduction in the school population.

The number of students who may be taken into account for the purposes of the reduction in the school population is determined by

(1) calculating the number of students who may be taken into account for the purposes of the reduction in the total number of students by

(a) multiplying by 0.99 the total of the numbers obtained under paragraphs 2 to 4 and 7 to 10 of section 1 of the Regulation respecting computation of the maximum yield of the school tax for the 2012-2013 school year (chapter I-13.3, r. 3.3), to which is added, where applicable, the number obtained under subparagraph 1 of the second paragraph of section 2 of that Regulation; and

(b) subtracting from the product obtained under subparagraph *a*, the sum of the numbers obtained under paragraphs 2 to 4 and 7 to 10 of section 1, as they read taking into account the application of section 3, if applicable;

(2) determining the number of students who may be taken into account for the purposes of the reduction in the number of 5-year-old preschool and elementary school students by

(b) multiplying by 0.99 the total of the numbers obtained under subparagraph *a* and paragraphs 2, 3, 8 and 9 of section 1 of the Regulation respecting computation of the maximum yield of the school tax for the 2012-2013 school year to which is added, where applicable, the number obtained under subparagraph 2 of the second paragraph of section 2 of that Regulation;

(c) calculating the number of 5-year-old preschool and elementary school students who may be taken into account under paragraph 7 of section 1; and

(d) subtracting from the product obtained under subparagraph *b*, the total of the numbers obtained under subparagraph *c* and paragraphs 2, 3, 8 and 9 of section 1, as they read taking into account the application of section 3, if applicable;

(3) calculating the number of students who may be taken into account for the purposes of the reduction in the number of secondary school students by

(a) calculating the number of secondary school students who may be taken into account under paragraph 7 of section 1 of the Regulation respecting computation of the maximum yield of the school tax for the 2012-2013 school year;

(b) multiplying by 0.99 the total of the numbers obtained under subparagraph *a* and paragraphs 4 and 10 of section 1 of the Regulation respecting computation of the maximum yield of the school tax for the 2012-2013 school year to which is added, where applicable, the number obtained under subparagraph 3 of the second paragraph of section 2 of that Regulation;

(c) calculating the number of secondary school students who may be taken into account under paragraph 7 of section 1; and

(d) subtracting from the product obtained under subparagraph *b*, the total of the numbers obtained under subparagraph *c* and paragraphs 4 and 10 of section 1, as they read taking into account the application of section 3, if applicable;

(4) subtracting from the sum of numbers obtained under paragraphs 2 and 3, the number obtained under paragraph 1 and multiplying by 0.37 the resulting number; and

(5) adding the numbers obtained under paragraphs 1 and 4.

In the operations prescribed in this section, when a number is lower than zero, it is deemed to be zero.

3. Where the sum obtained by adding the numbers of full-time students referred to in paragraphs 2 to 4 and 7 to 10 of section 1 exceeds the sum obtained by adding the numbers of full-time students referred to in paragraphs 2 to 4 and 7 to 10 of section 1 of the Regulation respecting computation of the maximum yield of the school tax for the 2012-2013 school year by 200 or 2%, and is at least 200 or 2% lower than the sum obtained by adding the numbers of full-time students in the categories referred to in paragraphs 2 to 4 and 7 to 10 of section 1, established according to the Minister's enrolment estimates for the 2013-2014 school year, paragraphs 2 to 4 of section 1 are to be read as follows:

“(2) calculating the number of 5-year-old preschool students who may be taken into account, by multiplying by 1.80 the number of such full-time students, established according to the Minister's enrolment estimates for the 2013-2014 school year, except students referred to in paragraphs 7 and 8;

(3) calculating the number of elementary school students who may be taken into account, by multiplying by 1.55 the number of such full-time students, established according to the Minister's enrolment estimates for the 2013-2014 school year, except students referred to in paragraphs 7 and 9;

(4) calculating the number of secondary school students who may be taken into account, by multiplying by 2.40 the number of such full-time students, established according to the Minister's enrolment estimates for the 2013-2014 school year, except students referred to in paragraphs 7 and 10;”.

4. For the purposes of section 1,

(1) students who may be taken into account by a school board for the purposes of paragraph 5 of section 1 are students who were admitted for the 2011-2012 school year to a vocational training centre under the jurisdiction of the school board to receive educational services in vocational training, in vocational education programs authorized pursuant to section 467 of the Education Act;

(2) the number of full-time students is obtained by adding the number of students enrolled full-time who participate in the minimum number of hours of activities prescribed by the basic school regulation applicable to them and the number of students enrolled part-time converted into a number of full-time students by

(a) using the following equation to calculate the proportion of full-time attendance per student enrolled part-time:

$$\frac{\text{the student's number of hours of activities per school year}}{\text{the minimum number of hours of activities per school year prescribed by the basic school regulation applicable to the student}}$$

(b) adding, for each of the categories of students referred to in paragraphs 1 to 10 of section 1, the proportions obtained under subparagraph a;

(3) the students who may be taken into account by a school board for the purposes of paragraph 11 of section 1 are

(a) 4-year-old preschool students enrolled on 30 September 2012 in the day care services of the school board for a minimum of 2 periods per day, at least 3 days per week; and

5. For the computation of the maximum yield of the school tax for the 2013-2014 school year, the amount per student is \$794.24, or \$1,032.48 if the allowable number of students is less than 1,000, and the base amount is \$238,265, namely the amounts established for the 2012-2013 school year indexed by 1.64%.

6. This Regulation comes into force on the date of its publication in the *Gazette officielle du Québec*.

Draft Order

Natural Heritage Conservation Act
(chapter C-61.01)

Assignment of proposed biodiversity reserve status to land of the former Dunn property

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (chapter R-18.1), that the draft Order respecting the assignment of proposed biodiversity reserve to land of the former Dunn property and the establishment of the plan of that protected area and its conservation plan, appearing below, may be made by the Minister on the expiry of 45 days following this publication.

The draft Order is to set aside, in accordance with the Natural Heritage Conservation Act (chapter C-61.01), for a period of four years, as a proposed biodiversity reserve, the property of some 117 hectares acquired from the Michael Dunn Succession. That assignment of status is to render applicable the activities framework described in the conservation plan drawn up for that area in respect of land designated in the plan that accompanies it.

The activities framework is comprised in Division 3 of the proposed conservation plan of the Réserve de biodiversité projetée Michael-Dunn appearing below. The activities framework is based, in general, on the provisions contained in the Amendments to the conservation plans for the proposed biodiversity and aquatic reserves made by Order in Council 136-2008 dated 20 February 2008.

Further information on the draft Order, the conservation plan of the Réserve de biodiversité projetée Michael-Dunn and the plan of the proposed limits for that reserve may be obtained by contacting Patrick Beauchesne, Director, Direction du patrimoine écologique et des parcs, Ministère du Développement durable, de l'Environnement, de la Faune et des Parcs, édifice Marie-Guyart, 4^e étage, boîte 21, 675, boulevard René-Lévesque Est, Québec (Québec) G1R 5V7; telephone: 418 521-3907, extension 4783; fax: 418 646-6169; email: patrick.beauchesne@mddefp.gouv.qc.ca

Any person wishing to comment on the draft Order is requested to submit written comments within the 45-day period to Patrick Beauchesne, Director, Direction du patrimoine écologique et des parcs, Ministère du Développement durable, de l'Environnement, de la Faune et des Parcs, at the abovementioned address.

QUÉBEC STRATEGY FOR PROTECTED AREAS

**Réserve de
biodiversité
projetée
Michael-Dunn**

Conservation plan

April 2013

1. Protection status and Toponym

The protection status of the area described below is that of "proposed biodiversity reserve", a status governed by the *Natural Heritage Conservation Act* (chapter C-61.01).

The anticipated permanent protection status is that of "biodiversity reserve", a status also governed by the *Natural Heritage Conservation Act*.

The provisional toponym is "Réserve de biodiversité projetée Michael-Dunn". The official toponym will be determined when the territory is given permanent protection status.

2. Plan and description

2.1. Geographic location, boundaries, and dimensions

The boundaries and location of Réserve de biodiversité projetée Michael-Dunn are shown on the plan in Appendix I.

Réserve de biodiversité projetée Michael-Dunn, which covers an area of 1,176 km² (117.6 ha), is located between 45°0'19" and 45°0'48" north latitude and 72°11'8" and 72°12'46" west longitude. The southern boundary of the biodiversity reserve is adjacent to the Canada-U.S. border and the western boundary is the eastern shore of Lac Memphrémagog opposite Île de la Province. The reserve is located approximately 3 km west of Bebee and roughly 860 meters south of Cedarville in the municipality of Ogden within the Memphrémagog RCM and the Estrie administrative region.

2.2. Ecological overview

Réserve de biodiversité projetée Michael-Dunn is located in the Plateau d'Estrie-Beauce natural region in the Appalachian natural province. More specifically, it is part of the Lac Memphrémagog Basin ecological district and the Appalachian Uplands physiographic unit. This proposed biodiversity reserve contributes to the conservation of ecosystems representative of the Lac Memphrémagog Basin ecological district.

2.2.1. Representative elements

Climate: The area is characterized by a continental climate with a moderate average temperature (4.5 to 6.6°C), subhumid annual rainfall (800 to 1,359 mm), and a long growing season (180 to 209 days). The area belongs to the maple-linden bioclimatic domain.

Geology and geomorphology: Réserve de biodiversité projetée Michael-Dunn belongs to the Appalachian geologic province, consisting of Paleozoic intrusive rock. The geologic foundation in the

proposed reserve is composed mainly of mudrock, sandstone, limestone, and conglomerate. As regards geomorphology, the Lac Memphrémagog Basin ecological district consists of hummocks. In the proposed biodiversity reserve, surface deposits are glacial drift along the lake's edge (ground moraines without morphology) and glaciolacustrine deposits (silty clay and sandy) inland. Organic deposits are also observed around a small unnamed lake. The altitude varies from 208 m to 261 m.

Hydrography: The protected area is part of the Rivière Magog sub-watershed, which is part of the Rivière Saint-François watershed. The biodiversity reserve protects slightly more than one kilometer of Lac Memphrémagog shoreline. A runnel flows through the area from northwest to southeast over a distance of 825 meters, emptying into a small unnamed lake. This lake located on either side of the Canada-U.S. border covers 975 m² of the proposed reserve and is surrounded by wetlands. A small, intermittent watercourse also flows through the area.

Flora: Close to 100.5 ha of Réserve de biodiversité projetée Michael-Dunn is forest environment while 17.5 ha is pastureland.

Eco-forest map data indicates that sugar maple–tolerant hardwood stands comprise the dominant tree species community, covering almost 40% of the area, or 47.5 ha. An inventory carried out in August 2010 shows however that while sugar maple (*Acer saccharum*) is generally dominant in the area, it grows alongside highly diverse hardwood species including several intolerant species: American white ash (*Fraxinus americana*), large-toothed and quaking aspen (*Populus grandidentata*, *P. tremuloides*), white birch (*Betula papyrifera*), American beech (*Fagus grandifolia*), red maple (*Acer rubrum*), and less commonly yellow birch (*Betula alleghaniensis*), American linden (*Tilia americana*), and black cherry (*Prunus serotina*). Certain softwood species are also present including Eastern hemlock (*Tsuga canadensis*) and Eastern white cedar (*Thuja occidentalis*), which can become predominant locally, especially in riparian areas of Lac Memphrémagog. Balsam fir (*Abies balsamea*), white pine (*Pinus strobus*), and red spruce (*Picea rubens*), although less abundant, have also been recorded within this tree species community. The presence of red pine (*Pinus resinosa*), silver maple (*Acer saccharinum*), and speckled alder (*Alnus incana* subsp. *rugosa*) along the shoreline is worth noting.

Red maple–softwood stands are the second leading community, covering 26 ha. Red maple is dominant in this stand, which also includes white birch, American white ash, American black ash (*Fraxinus nigra*), sugar maple, yellow birch, aspen, hemlock, and white pine.

Lastly, tolerant hardwood–softwood stands and white pine–aspen stands occupy 13 and 8 ha respectively. Forest species present within the tolerant hardwood stands are similar to those within the maple–tolerant hardwood stands. Sugar maple is however less abundant in these stands, and intolerant

hardwoods generally seem more numerous. Red pine and silver maple are virtually absent. In white pine stands a fair number of hemlock can be observed.

Striped maple (*Acer pensylvanicum*) dominates the shrub stratum. The herbaceous stratum is dominated primarily by various fern species including New York fern (*Thelypteris noveboracensis*), evergreen wood fern (*Dryopteris intermedia*; syn.: *D. spinulosa* var. *intermedia*), and lady fern (*Athyrium filix-femina*). These ferns are found mainly with wild sasparilla (*Aralia nudicaulis*), wild lily of the valley (*Maianthemum canadense*), and rosy twistedstalk (*Streptopus lanceolatus*). Riparian flora is distinguished by an abundance of plants from the heath family including black huckleberry (*Gaylussacia baccata*), highbush blueberry (*Vaccinium corymbosum*), velvetleaf huckleberry (*Vaccinium myrtilloides*), and wintergreen (*Gaultheria procumbens*). Some basins are home to a diverse flora comprising numerous species associated with wetlands or nutrient-enriched environments.

Fauna:

While no wildlife inventory has been carried out on the Dunn property, the fauna is probably typical of the region, and the presence of large mammals (deer, moose) is likely.

2.3.Land occupation and uses

The land for Réserve de biodiversité projetée Michael-Dunn was left to the Government of Québec by Michael Dunn on his death in 2007. Dunn owned 400 ha of farmland on either side of the border. In the deed creating the trust tasked with disposing of his property, Dunn asked that his land be given to the Canadian and U.S. governments. Canada did not accept this gift, so the Canadian portion was offered to the Québec government. The latter accepted the land on April 9, 2010, and took possession of the 117.6 ha north of the border on December 14, 2010. In his will Dunn indicated his desire that the land remain in an open state, with hiking and camping permitted. Authority over the land was transferred to Ministère du Développement durable, de l'Environnement et des Parcs by Ministère des Ressources naturelles et de la Faune under a notice of transfer of authority published in the Register of the Domain of the State under No. 51.

The impact of treading on the undergrowth flora has already been recorded in certain parts of the area. Signage and appropriate amenities must therefore be installed to limit the impact of recreation and education activities on biodiversity. New trails and marked campsites would help in this regard.

The proposed biodiversity reserve is accessible by land from Chemin Arnold, which meets Cedarville at Glines Corner. The reserve can also be reached by water via Lac Memphrémagog. Two farm roads provide access to the pastureland from Dunn Farm in the United States.

Historically speaking, the proposed biodiversity reserve lies in an archaeological zone with topographical characteristics that could have been favourable to the establishment of ancient populations. Additionally, lac Memphrémagog includes numerous archaeological sites, which increases the probability of chance discoveries or of updating such sites within the sector. Prehistoric, colonisation era and pre-industrial era local development vestiges may also be found on these lands.

3. Activities within the Réserve

§1. Introduction

Activities carried on within the proposed reserve are governed mainly by the provisions of the Natural Heritage Conservation Act.

This Division describe prohibited activities in addition to those already forbidden by the above-mentioned Act and provides the framework for the various activities permitted so as to better protect the natural environment in keeping with the conservation principles and other management objectives established for the proposed biodiversity reserve. The permitted and prohibited activities considered for the period that follows the assignment of permanent status by the Government are the same with the necessary adjustments to take into account the application of section 46 of the Act.

Under the Natural Heritage Conservation Act, the main activities prohibited in an area to which a status of proposed biodiversity reserve has been assigned are :

- mining, and gas or petroleum development;
- forest development activity within the meaning of section 4 of the Sustainable Forest Development Act (chapter A-18.1); and
- the development of hydraulic resources and any production of energy on a commercial or industrial basis.

§2 Prohibitions, prior authorizations and other conditions governing certain activities in the proposed reserve

§2.1. Protection of resources and the natural environment

3.1. Subject to the prohibition in the second paragraph, no person may establish in the proposed reserve any specimens or individuals of a native or non-native species of fauna into the reserve, including by stocking, unless the person has been authorized by the Minister.

No person may stock a watercourse or body of water for aquaculture, commercial fishing or any other commercial purpose.

No person may establish in the proposed reserve a non-native species of flora, unless the person has been authorized by the Minister.

3.2. No person may use fertilizer or fertilizing material in the proposed reserve.

3.3. No person may carry on hunting, fishing or trapping activities in the proposed reserve.

3.4. No person may carry on activities relating to mining, gas and petroleum exploration, including brine and underground reservoir exploration, prospecting, and digging or boring in the proposed reserve.

3.5. No person may, unless the person has been authorized by the Minister :

- (1) intervene in a wetland area, including a marsh, swamp or bog;
- (2) modify the reserve's natural drainage or water regime, including by creating or modifying watercourses or bodies of water;

- (4) install or erect any structure, infrastructure or new works in or on the bed, banks, shores or floodplain of a watercourse or body of water;
- (5) carry on any activity other than those referred to in the preceding paragraphs that is likely to degrade the bed, banks or shores of a body of water or watercourse or directly and substantially affect the biochemical characteristics or quality of aquatic or riparian environments or wetland areas in the proposed reserve, including by discharging or dumping waste or pollutants into the watercourse or body of water;
- (6) carry out soil development work, including any burial, earthwork, removal or displacement of surface materials or any cutting, harvesting or destruction of the vegetation cover, for any purpose including the development of recreational and tourist infrastructures;
- (7) install or erect any structure, infrastructure or new works;
- (8) reconstruct or demolish an existing structure, infrastructure or works;

3.6. Despite subparagraphs 6, 7, 8 and 9 of the first paragraph of section 3.5, no authorization is required to carry out work referred to in subparagraph 1 of this section when the requirements of subparagraph 2 are met.

(1) The work involves :

(a) the maintenance or repair of an existing structure, infrastructure or works including ancillary facilities;

(b) the demolition or reconstruction of an existing structure, infrastructure or works, including an appurtenance or ancillary facility to such structure.

(2) The work is carried out in compliance with the following requirements :

(a) the work involves a structure, infrastructure or works authorized within the proposed reserve;

(b) the work is carried out within the area of land or right of way subject to the right to use or occupy the land in the proposed reserve, whether the right results from a lease, servitude or other form of title, permit or authorization;

(c) the work is carried out in compliance with the conditions of a permit or authorization issued for the work or in connection with the structure, infrastructure or works involved, and in accordance with the laws and regulations that apply.

For the purposes of this section, repair work includes work to replace or erect works or facilities to comply with the requirements of an environmental regulation.

3.7. No person may bury, abandon or dispose of waste, snow or other residual materials elsewhere than in waste disposal containers, facilities or sites determined by the Minister or in another place with the authorization of the Minister.

§2.2. Rules of conduct for users

3.8. Any person staying, carrying on an activity or travelling within the proposed reserve is required to have paid, if need be, the rights of access required by the delegate where such power has been delegated to the authorities by the Minister.

3.9. Any person staying, carrying on an activity or travelling within the proposed reserve is required to maintain the premises in a satisfactory state and before leaving, return the premises to their natural state to the extent possible.

3.10. Any person who makes a campfire must ensure that :

- (1) the place where the fire is lit is provided for and laid out for that purpose as indicated by signage;
- (2) the fire is at all times under the immediate supervision of a person on the premises; and
- (3) the fire is completely extinguished before leaving the premises.

3.11. In the proposed reserve, no person may :

- (1) cause any excessive noise;
- (2) behave in a manner that unduly disturbs other users or interferes with their enjoyment of the premises; or
- (3) harass wildlife.

For the purposes of subparagraphs 1 and 2 of the first paragraph, behaviour that significantly disturbs other persons and constitutes unusual or abnormal conditions for the carrying on of an activity or for the permitted use of property, a device or an instrument within the proposed reserve is considered excessive or undue.

3.12. No person may enter, carry on an activity or travel in a given sector of the proposed reserve if the signage erected by the Minister restricts access, circulation or certain activities in order to protect the public from a danger or to avoid placing the fauna, flora or other components of the natural environment at risk, unless the person has been authorized by the Minister.

3.16. No person may carry on forest management activities for the purpose of maintaining biodiversity, unless the person has been authorized by the Minister.

§ 2.4 Authorization exemptions

3.17. Despite the preceding provisions, an authorization is not required for an activity or other form of intervention within the proposed reserve if urgent action is necessary to prevent harm to the health or

safety of persons, or to repair or prevent damage caused by a real or apprehended disaster. The person concerned must, however, immediately inform the Minister of the activity or intervention that has taken place.

3.18. Despite the preceding provisions, the following activities and interventions carried out by Hydro-Québec (Société) or by any other person for Hydro-Québec do not require the prior authorization of the Minister under this conservation plan :

- (1) any activity or intervention required within the proposed reserve to complete a project for which express authorization had previously been given by the Government and the Minister, or only by the Minister, in accordance with the Environment Quality Act (chapter Q-2), if the activity or intervention is carried out in compliance with the authorizations issued;
- (2) any activity or intervention necessary for the preparation and presentation of a pre-project report for a project requiring an authorization under the Environment Quality Act; and
- (3) any activity or intervention relating to a project requiring the prior authorization of the Minister under the Environment Quality Act if the activity or intervention is in response to a request for a clarification or for additional information made by the Minister to the Société, and the activity or intervention is carried out in conformity with the request.

The Société is to keep the Minister informed of the various activities or interventions referred to in this section it proposes to carry out before the work is begun in the reserve.

For the purposes of this section, the activities and interventions of the Société include but are not restricted to pre-project studies, analysis work or field research, work required to study and ascertain the impact of electric power transmission and distribution line corridors and rights of way, geological or geophysical surveys and survey lines, and the opening and maintenance of roads required for the purpose of access, construction or equipment movement incidental to the work.

4. Activities governed by other laws

Certain activities likely to be carried out in the proposed reserve are also governed by other applicable legislative and regulatory provisions, including those that require issuance of a permit or authorization or the payment of fees. Some activities may also be prohibited or restricted under other laws or regulations applicable in the proposed reserve.

In proposed reserves, a special legal framework may govern permitted activities, particularly in the following spheres :

- Environmental protection: measures set out in particular in the *Environment Quality Act* (chapter Q-2) and its regulations;

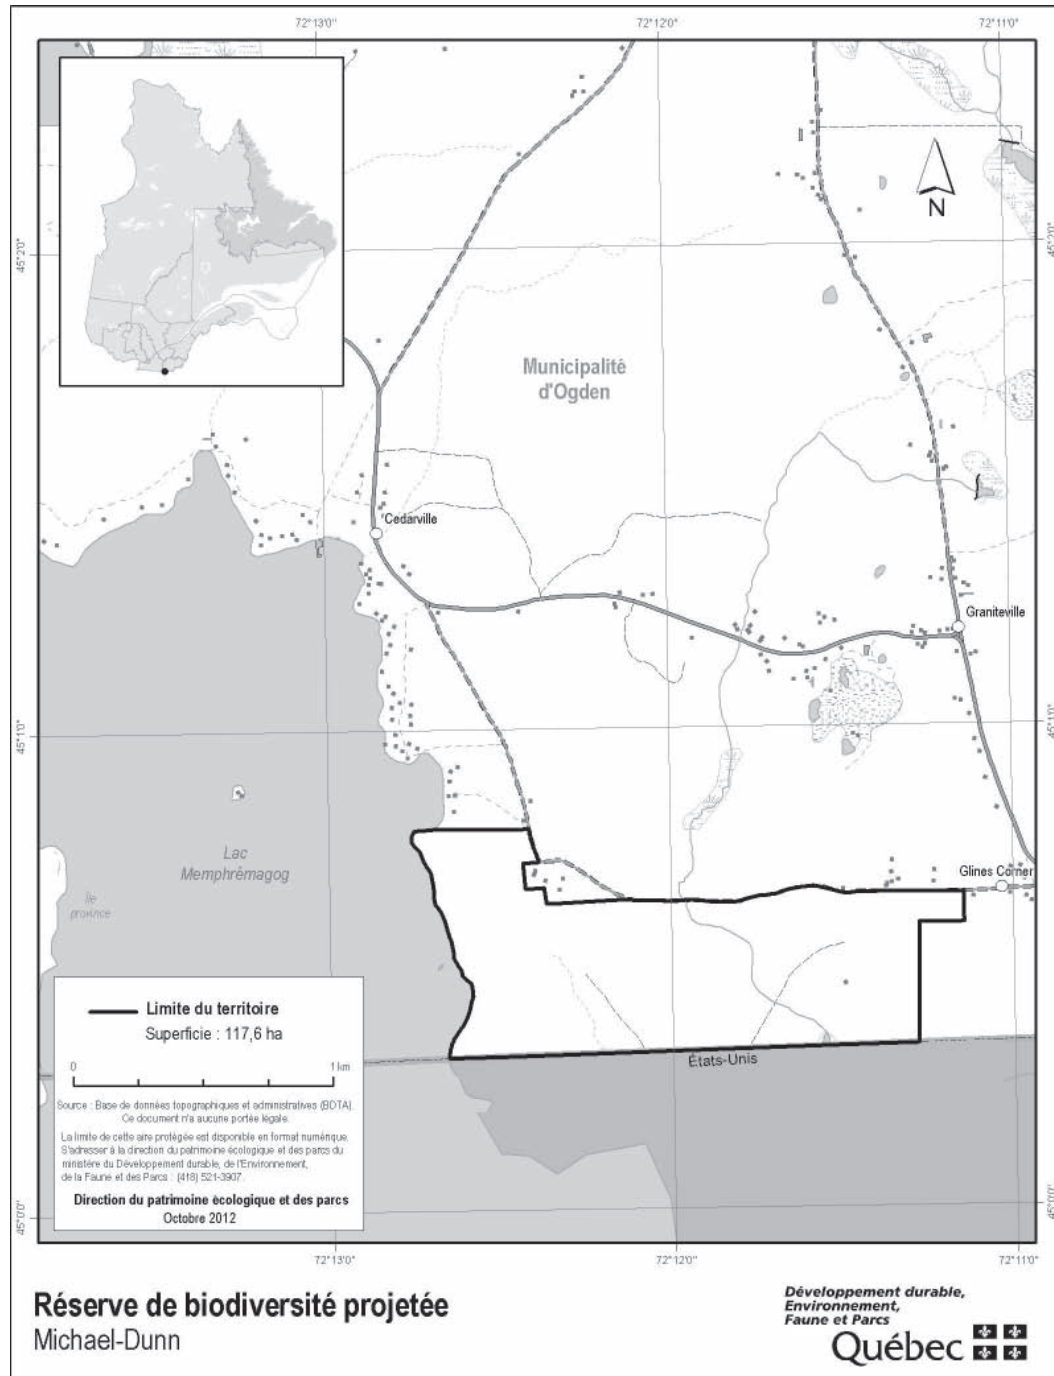

- Plant species designated as threatened or vulnerable: measures prohibiting notably the removal of these species under *Act respecting threatened or vulnerable species* (chapter E-12.01);
- Development and conservation of wildlife resources: measures set out in the *Act respecting the conservation and development of wildlife* (chapter C-61.1);
- Archeological research and chance discoveries : measures set out in particular in the *Cultural Heritage Act* (chapter P-9.002);
- Access and land rights related to the domain of the State: measures set out in the *Act respecting the lands in the domain of the State* (chapter T-8.1) and the *Watercourses Act* (chapter R-13);
- The regulation respecting motor vehicle traffic in certain fragile environments made under the *Environment Quality Act*;
- Building and development standards: regulatory measures adopted by regional and local municipal authorities under applicable legislation.

5. Responsibilities of the Minister of Sustainable Development, Environment, Wildlife and Parks

The Minister of Sustainable Development, Environment, Wildlife and Parks is responsible for the conservation and management of Réserve de biodiversité projetée Michael-Dunn. He supervises and monitors the activities that may be carried out within the reserve. In carrying out these duties, the minister can count on the cooperation and participation of other stakeholders with special responsibilities for this land or areas nearby, such as the Minister of Natural Resources, the Memphrémagog RCM, and any organization(s) with an interest in the conservation and management of this land. MDDEFP could also delegate certain management responsibilities to regional partners under a delegation agreement drawn up for this purpose. The partners' duties would take into account the type of protection desired for this natural environment and its current protection status. No additional conservation measures are anticipated at this time. With respect to zoning, as the conservation objectives for the temporary protection period are the same throughout the area, the proposed reserve comprises a single conservation zone.
