An Act to amend the Act to preserve agricultural land and agricultural activities and other legislative provisions in order to promote the preservation of agricultural activities
(1996, c. 26)

CONCERNING the amendment to the Guidelines concerning the Prevention of Air Pollution in Livestock Operations

WHEREAS the Act to amend the Act to preserve agricultural land and agricultural activities and other legislative provisions in order to promote the preservation of agricultural activities (1996, c. 26) was assented to on June 20, 1997;

WHEREAS under section 87 of the amending Act, until the coming into force of a regulation respecting odours and passed by a municipality, immunity from prosecution also applies with regard to odours caused by agricultural activities exercised in an agricultural zone in the territory of that municipality, if such activities are exercised in accordance with the standards provided by the Guidelines concerning the Prevention of Air Pollution in Livestock Operations, drafted by the Minister of the Environment and Wildlife and published in the *Gazette officielle du Québec*;

TREFFLÉ LACOMBE,
*Chairman of the Board
and Chief Executive Officer
of the Commission de la santé
et de la sécurité du travail*

Regulation respecting the classification of employers, the statement of wages and the rates of assessment

An Act respecting industrial accidents and occupational diseases
(R.S.Q., c A-3.001, s. 454, 1st par., subpars. 4.3, 5, 5.1 and 6, 1996, c. 70)

CHAPTER 1 INTRODUCTORY PROVISION

1. The purpose of this regulation is to determine the units of classification as well as the rates applicable to each of these units, to establish the rules of classification of employers under these units and to provide certain rules for employers' statement of gross wages.

CHAPTER 2 DEFINITIONS

2. In this regulation,

“auxiliary worker” means a worker who contributes, without participating directly therein, to activities referred to by more than one unit under which his employer is classified;

“exceptional unit” means the units of classification 90010 or 80020 in Schedule 1.

CHAPTER 3 CLASSIFICATION

3. The rules for the classification of employers provided under this chapter apply subject to the specific rules provided in Schedule 1.

DIVISION 1 GENERAL RULES

4. The Commission classifies each employer under a unit according to the nature of the sum of activities that he carries on.

5. If the activities carried on by an employer do not appear among the units of classification in Schedule 1, the employer is then classified under the unit that best corresponds to those activities.

6. Where an employer has failed to transmit the information required by law as to the nature of his activities, the Commission shall identify the units of classification which, according to the information available, may correspond to the activities of this employer and classify him under the unit, among those identified, with the highest rate of assessment.

7. Where various kinds of activities are carried on by an employer, the Commission shall classify the employer under more than one unit if the following conditions are met:

- (1) more than one unit exists for these activities;
- (2) no unit exists which groups all of the activities;

(3) subject to the specific rule provided under Schedule 1, at least one worker, other than an auxiliary worker, assigned to one of the employer's activities referred to by a unit, is not substantially and simultaneously exposed to risks of employment injury from another of the employer's activities.

8. Where several employers form a related group within the meaning of sections 17 to 21 of the Taxation Act (R.S.Q., c. I-3) and the services furnished by one employer of the group are mainly for the service of another employer of the same group and the services are normally an integral part of the activities of the other employer, the Commission shall classify the employer furnishing the services in the same manner as the other employer.

DIVISION 2 CLASSIFICATION RULES UNDER AN EXCEPTIONAL UNIT

9. An employer is also classified under an exceptional unit if the unit under which he is classified according to Division 1 expressly provides therefor, insofar as at least one of his workers carries out a task referred to under the exceptional unit.

10. Notwithstanding section 9, an employer classified under several units, in accordance with Division 1, is only classified under an exceptional unit if at least 45 % of the gross wages of his workers are stated in respect of the units expressly providing for classification under this unit and if at least one of his workers is referred to by this unit.

For purposes of calculating the proportion provided in the first paragraph, the gross wages of an auxiliary worker shall be excluded.

CHAPTER 4 RULES GOVERNING THE STATEMENT OF WAGES APPLICABLE TO THE EMPLOYER CLASSIFIED UNDER SEVERAL CLASSIFICATION UNITS

11. In addition to the rules provided by law, this chapter establishes the rules for stating wages appli-

cable to employers classified under more than one unit; these rules apply subject to the specific rules provided in Schedule 1.

DIVISION 1 ESTIMATE OF GROSS WAGES

12. The estimate of gross wages that the employer must transmit to the Commission in accordance with sections 290 and 292 of the Act must be established in accordance with the rules provided under Division 2, with the exception of sections 18 and 19, while making whatever adaptations may be necessary.

DIVISION 2 RULES GOVERNING THE STATEMENT OF THE AMOUNT OF GROSS WAGES

13. The employer classified under more than one unit states the gross wages earned during the preceding calendar year by a worker who participates in the activities referred to by just one of these units in respect of this unit.

14. The employer states the gross wages earned during the preceding calendar year by a worker who, without being an auxiliary worker, participates in several activities referred to by more than one unit under which he is classified by indicating the portion of these gross wages earned in respect of each of these units.

Notwithstanding the first paragraph and subject to the specific rule provided in Schedule 1, the employer states this worker's gross wages in respect of the unit for which the rate of assessment is the highest if this worker is substantially and simultaneously exposed to risks of employment injury from several activities referred to under more than one unit under which he is classified.

15. The employer classified under more than one unit states, in a manner distinct from that of his other workers, the gross wages earned by an auxiliary worker, except if this involves an auxiliary worker referred to by an exceptional unit under which he is classified, in which case the rule in section 17 applies.

16. The gross wages of an auxiliary worker stated in accordance with section 15 are distributed by the Commission:

1) on a prorata basis of stated gross wages in respect of each of the units that expressly provide for classification under an exceptional unit, where the employer is classified under one or several exceptional units and under several other units;

2) on a prorata basis of stated gross wages in respect of each of the units that expressly provide for classification under an exceptional unit, where the employer is classified under several units but cannot be classified under an exceptional unit because none of his workers is carrying on any work referred to by an exceptional unit;

3) on a prorata basis of stated gross wages in respect of each of the units that do not expressly provide for classification under an exceptional unit, where the employer is not classified under an exceptional unit.

17. The employer states the gross wages earned by a worker who carries on an activity referred to by an exceptional unit under which he is classified in respect of this unit.

18. The statement of the gross wages of the worker's made by the employer under this section must reflect faithfully his activities and be based on verifiable date.

19. An employer who cannot distribute between several units all or part of the gross wages earned by a worker during a work week, must state the gross wages or the portion of the gross wages that he cannot distribute in respect of the unit for which the rate of assessment is the highest.

However, the employer can state the totality of the gross wages earned by a worker during a week in respect of a unit when this worker devotes over 90 % of his time during this work week to activities referred to in this unit.

CHAPTER 5

RATES OF ASSESSMENT AND CLASSIFICATION UNITS

20. The units of classification, the sectors under which they are grouped and the rates of assessment applicable to each unit for a year, are those appearing in Schedule 1.

21. The rates appearing in the "General Rate" column of Schedule 1, are those applicable to all firms except federal firms, whose rates of assessment are those appearing in the "Special Rate" column.

22. The rates of assessment applicable to employers belonging to a sector of activities for which a joint sector-based association was formed under the Act respecting occupational health and safety (R.S.Q., c. S-2.1) are increased to the extent provided for in Schedule 2 in order to cover the cost of the subsidy granted to that association for a year.

23. The amount provided for in section 313 of the Act is the one determined in Schedule 3.

24. The rate applicable for purposes of establishing the amount payable by the person who registers as a director in accordance with section 18 of the Act is the one determined in Schedule 3.

25. This Regulation comes into force on January 1st, 1998.

Radiology technologists — Standards for a diploma equivalence or training equivalence for the issue of a permit

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the “Regulation respecting the standards for a diploma equivalence or training equivalence for the issue of a permit by the Ordre des technologues en radiologie du Québec”, adopted by the Bureau of the Ordre des technologues en radiologie du Québec, may be submitted, with the recommendation of the Office, to the government which will approve it, with or without amendments, upon the expiry of 45 days following this publication.

According to the Ordre des technologues en radiologie du Québec, the main purpose of this Regulation is to determine, in conformity with requirements under the Professional Code, the equivalence standards enabling the Bureau of the Order to recognize, for purposes of issuing the permit of the Order, the equivalence of diplomas awarded by educational institutions located outside Québec as well as the equivalence for training acquired in Québec or outside Québec, with regard to individuals who do not hold a diploma recognized by the government regulation as providing entitlement to the permit of the Order.

Further information regarding this Regulation may be obtained by contacting Mr. Alain Crompt, General Director and Secretary of the Ordre des technologues en radiologie du Québec, 7400, boulevard Les Galeries-d’Anjou, bureau 420, Anjou (Québec), H1M 3M2; telephone numbers: (514) 351-0052 or 1-800-361-8759; fax number: (514) 355-2396.

Any interested person having comments to make on this Regulation is asked to send them, before the expiry of the aforementioned 45-day period, to the chairman of the Office des professions du Québec, complexe de la place Jacques-Cartier, 320, rue Saint-Joseph Est, 1^{er} étage, Québec (Québec), G1K 8G5. These commentaries will be transmitted by the Office to the Minister responsible for the enforcement of professional acts; they may also be transmitted to the professional order that has adopted

the regulation, namely the Ordre des technologues en radiologie du Québec, as well as to interested individuals, departments and organizations.

ROBERT DIAMANT,
*Chairman of the Office des
professions du Québec*

Regulation respecting the standards for a diploma equivalence or training equivalence for the issue of a permit by the Ordre des technologues en radiologie du Québec

Professional Code
(R.S.Q., c. C-26, s. 93, par. c)

1. The secretary of the Ordre des technologues en radiologie du Québec shall forward a copy of this Regulation to a candidate wishing to be granted an equivalence in respect of a diploma conferred by a teaching establishment outside Québec or wishing to be granted a training equivalence.

In this Regulation,

“diploma equivalence” means the recognition by the Bureau of the Order that a diploma conferred by a teaching establishment outside Québec certifies that a candidate’s level of knowledge is equivalent to that attained by the holder of a diploma recognized by the Government as meeting the requirements for the permit issued by the Order; and

“training equivalence” means the recognition by the Bureau of the Order that a candidate’s training has enabled him to attain a level of knowledge equivalent to that attained by the holder of a diploma recognized by the Government as meeting the requirements for the permit issued by the Order.

2. A candidate applying for a diploma equivalence or training equivalence shall provide the secretary of the Order with those among the following documents that are required in support of his application:

(1) his academic record, with a description of the courses taken, the number of credits obtained or course hours completed, and an official transcript of the marks obtained;

(2) a copy of any diploma conferred, certified as true by the teaching establishment;

(3) a document attesting to his participation in and successful completion of any training period served;

(4) a document attesting to his relevant work experience, with a description thereof;

(5) an official document attesting to his membership in one or more foreign bodies corresponding to the Order; and

(6) payment of the fees prescribed by the Bureau of the Order for opening a record, in accordance with paragraph 8 of section 86.0.1 of the Professional Code (R.S.Q., c. C-26).

3. Where documents submitted in support of an application for recognition of an equivalence are written in a language other than French or English, they shall be accompanied by a translation into French or English, certified in a sworn statement by the person who did the translation.

4. The secretary shall forward the documents prescribed in section 2 to the committee formed by the Bureau to study diploma equivalence or training equivalence applications and make an appropriate recommendation.

At the first meeting following receipt of such recommendation, the Bureau shall decide, in accordance with this Regulation, whether to grant a diploma equivalence or training equivalence and, within 30 days following its decision, shall notify the candidate thereof in writing.

5. A candidate holding a diploma conferred by a teaching establishment outside Québec shall be granted a diploma equivalence if that diploma was conferred upon completion of university or college studies comprising not less than 69 credits in radiography, 67 credits in radio-oncology or 77 credits in nuclear medicine, or the equivalent. Each credit shall correspond to 45 hours of course attendance and personal work, and the credits shall be apportioned as indicated in Schedule I.

6. Notwithstanding section 5, where the diploma in respect of which an equivalence application has been filed was conferred five years or more prior to the date of the application, a diploma equivalence shall be denied if the candidate's knowledge, owing to developments in the profession, no longer corresponds to that currently being taught.

A diploma equivalence shall nonetheless be granted if the candidate's relevant work experience and any training acquired since obtaining the diploma have enabled him to attain the requisite level of knowledge.

7. A candidate shall be granted a training equivalence where he demonstrates that, after not less than three years of relevant work experience, acquired in particular through the practice of radiology and medical imaging techniques, his knowledge and skills are equivalent to those attained by the holder of a diploma recognized as meeting permit requirements.

8. To determine whether a candidate's level of knowledge and skills meets the requirements of section 7, the committee shall take all of the following factors into account:

(1) type and years of experience;

(2) type of courses taken and course content;

(3) training periods served;

(4) total years of education; and

(5) the fact that the candidate holds one or more diplomas conferred in Québec or elsewhere.

9. Within 15 days following a decision not to grant a diploma equivalence or training equivalence, the Bureau shall notify the candidate thereof in writing and shall indicate the programs of study, training periods or examinations that must be successfully completed for the equivalence to be granted.

10. A candidate who receives the information referred to in section 9 may apply to the Bureau for a hearing, provided that he applies to the secretary of the Order in writing within 30 days following the date on which the decision not to grant a diploma equivalence or training equivalence is mailed.

Within 45 days following the date of receipt of an application for a hearing, the Bureau shall hear the candidate and shall review its decision if necessary. To that end, the secretary shall convene the candidate by means of a notice in writing sent by registered or certified mail not less than 10 days before the date of the hearing.

The Bureau's decision is final and shall be sent to the candidate in writing within 30 days following the date of the hearing.

11. This Regulation replaces the Regulation respecting the standards for equivalence of diplomas for the issue of a permit by the Ordre des technologues en radiologie du Québec, approved by Order in Council 1439-92 dated 23 September 1992.

12. This Regulation comes into force on the fifteenth day following the date of its publication in the *Gazette officielle du Québec*.
