The purpose of those Draft Regulations is to establish new terms of cooperation between the professional orders and the authorities of the teaching institutions in question. They also specify the mandate of the committees, which includes in particular examining the objectives of the training programs and reviewing the objectives of the training programs of teaching institutions and of courses, training periods or professional

examinations prescribed by the professional orders, in order to ensure that the training is relevant to the professional skills to be learned.

Improving the quality of the training of professionals, which is the goal of the Regulations, will result in better protection for the public and a more adequate response to its needs. Moreover, the improvement in the cooperation between each order and the authorities of teaching institutions should bring about a reduction in the cost of training by eliminating overlap and duplication.
