EXPLANATORY NOTES

This bill amends the rules for awarding certain construction, supply and services contracts to give effect to the provisions of the Agreement on the Opening of Public Procurement for Québec and Ontario.

It also amends the Act respecting municipal debts and loans to enable municipalities and municipal bodies to issue bonds using a procedure that differs from the procedure prescribed in an Act or regulation in respect of municipal bonds.

The bill empowers intermunicipal boards to enter into agreements with another board, a municipality, school board, educational institution, non-profit organization and certain public institutions for the joint purchase of equipment or materials. It also enables intermunicipal boards to make joint calls for public tenders for the awarding of insurance or services contracts and to enter into an agreement with a municipal association for the purchase of equipment or materials, the performance of work or the awarding of insurance or services contracts by the association on behalf of the board.

Under the bill, regional county municipalities, urban communities and municipalities whose territory is not within the territory of a regional county municipality or that of an urban community are required to provide financial assistance to a non-profit organization having economic promotion and development as its object.

Lastly, the bill clarifies in particular the power of municipalities to grant subsidies to holders of bus transport permits, and grants the power to regulate public beaches and public or private swimming-pools for safety purposes to municipalities governed by the Municipal Code of Québec.

53. The said charter is amended by inserting, after article 107, the following articles:

“107.0.1. The executive committee may choose to use a system of bid weighting and evaluating whereby each bid obtains a number of points based on the price as well as on the quality or quantity of goods, services or work, the delivery procedure, servicing, the experience and financial capacity required of the supplier or contractor or on any other criteria directly related to the procurement.

Where the executive committee chooses to use such a system, the call for tenders or any document to which it refers shall mention all the requirements and all criteria that will be used for evaluating the bids, as well as the weighting and evaluation methods based on those criteria.

In such a case, the executive committee shall not award the contract to a person other than the person whose bid was received within the time fixed and obtained the highest score.

For the purposes of subarticle 7 of article 107, the bid having obtained the highest score shall be considered to be the lowest tender.

“107.0.2. The executive committee may establish a qualification process which shall not discriminate on the basis of the province or country of origin of the goods, services, suppliers or contractors.

However, where the executive committee establishes a qualification process solely for the purposes of awarding a contract referred to in subarticle 3.1 of article 107, the process may discriminate as permitted in the case of a call for public tenders in relation to such a contract under subarticle 3.2 of article 107.

The city shall invite the interested parties to obtain their qualification or the qualification of their goods or services, by causing the clerk to publish a notice to that effect in accordance with the rules set out in the first paragraph of subarticle 3.1 of article 107.

“107.0.3. A call for tenders may stipulate that the goods, services, suppliers or contractors concerned by or able to satisfy the call for tenders must first be certified, qualified or registered by an organization accredited by the Standards Council of Canada or first be certified or qualified under the process provided for in article 107.0.2.

The first paragraph does not apply where, under the process provided for in article 107.0.2, only one supplier or contractor has become qualified.

“107.0.4. Subject to subarticles 3.2 and 7 of article 107, no call for public tenders or document to which it refers shall discriminate on the basis of the province or country of origin of the goods, services, suppliers or contractors.”

54. Article 749 of the said charter, amended by section 14 of chapter 90 and section 6 of chapter 92 of the statutes of 1968, by section 15 of chapter 52 of the statutes of 1976, by section 224 of chapter 38 of the statutes of 1984, by section 39 of chapter 87 of the statutes of 1988 and by section 21 of chapter 54 of the statutes of 1994, is again amended by replacing the words “and VIII” in the fourth and fifth lines of the fifth paragraph by the words “, VIII and VIII.1”.

The first regulation under the third paragraph of section 466.3 of the Cities and Towns Act or under the third paragraph of article 627.3 of the Municipal Code of Québec, as the case may be, is not subject to the publication requirements of section 11 of the Regulations Act (R.S.Q., chapter R-18.1).

58. A call for public tenders by a municipal body that was published only in a daily newspaper, before the date fixed by the Government for the coming into force of a provision of this Act which makes mandatory the publication of such a call for tenders by means of an electronic tendering system, is considered to be a call for tenders published by means of such a system for the purposes of an awarding process in progress on that date.

The first paragraph, adapted as required, applies to any call for tenders that, before that date, was published by means of an electronic tendering system that does not satisfy the requirements of the provision referred to in the first paragraph and in a newspaper distributed or circulated in the territory of the municipal body.
