Draft Regulation

Medical Act
(R.S.Q., c. M-9)

Physicians

— Acts contemplated in section 31 of the Medical Act which may be done by classes of persons other than physicians (anti-varicella and anti-Lyme disease vaccines)

— Amendments

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Bureau of the Collège des médecins du Québec, at its meeting held on 15 October 1999, adopted the Regulation amending the Regulation respecting the acts contemplated in section 31 of the Medical Act which may be done by classes of persons other than physicians.

That Regulation was sent to the Office des professions du Québec which will examine it pursuant to section 95 of the Professional Code. It will then be submitted, with the Office's recommendation, to the Government which may approve it with or without amendment pursuant to the same section, upon the expiry of 45 days following this publication.

According to the Collège des médecins du Québec, that Regulation, which follows up on a request from the Director of public health protection at the Ministère de la Santé et des Services sociaux, adds the anti-varicella vaccine and the anti-Lyme disease vaccine to the list of vaccines that may be administered by nurses, on certain conditions. Such addition also allows auxiliary nurses to contribute to and participate in the administration of those vaccines under the remote supervision of a physician.

According to the Collège des médecins du Québec, the Regulation will have no impact on any kind of business.

Further information on the proposed Regulation may be obtained by contacting Dr. Rémi H. Lair, Assistant Secretary General, Collège des médecins du Québec,
