2. APPLICABLE PROVISIONS

The Act respecting elections and referendums in municipalities (R.S.Q., c. E-2.2) applies to the referendum of December 7, 2003 in the municipality, subject to the provisions of the Act amended or replaced by this agreement.

With the necessary adaptations, and to the extent that they are compatible, the following provisions of Title I of the Act respecting elections and referendums in municipalities apply to Title II of the aforementioned Act:

(1) the provisions of Divisions III and IV of Chapter V dealing with election officers and the Chief Electoral Officer;

(2) the provisions of Division II of Chapter VI dealing with the preparation, revision, and coming into force of the list of electors for a referendum for the municipality or sector concerned, as the case may be;

However, the clerk or secretary-treasurer is not obliged to submit a request pursuant to section 100 if he or she has already submitted a request pursuant to section 546, based on the same reference date and with regard to the territory covered by the referendum or a territory including that territory;

(3) the provisions of subdivisions 2 to 6 of Division IV of Chapter VI dealing with the advance poll, polling stations, materials required for the poll, formalities prior to the opening of polling stations, and polling proceedings;

(4) the provisions of Division V of Chapter VI dealing with the counting and addition of votes;

(5) the provisions of subdivision I of Division VII of Chapter VI dealing with the recount or re-addition of votes;

(6) the provisions of Chapter VII dealing with the electoral code of ethics.

Notwithstanding paragraph 3 of the second paragraph, the provisions of subdivision 2 of Division IV under Chapter VI of Title I dealing with the advance poll do not apply in the case of a referendum that concerns only some of the qualified voters in the municipality, unless the council of the municipality orders that those provisions shall apply to the referendum, or unless a facility contemplated in the second paragraph of section 50 is located in the territory in which the referendum will take place.

3. INTERPRETATION

Unless stated otherwise, expressly or as a result of the context of a provision, the following expressions, terms and words have, for the purposes of this agreement, the meaning and application given in this section.

3.1 “electronic voting system” means an apparatus consisting of the following devices

- a computer containing in its memory the list of electors, used for the preparation of electronic voting cards;

- a reader of electronic voting cards;

- one or more printers;

- one or more autonomous voting terminals;

- electronic cards used to place the terminals in “election” mode, to vote (electronic voting cards), to place the terminals in “end of election” mode, and to record the results from each autonomous voting terminal;

3.2 “voting terminal” means an independent device containing a display with a graphical representation of a ballot paper, buttons used by qualified voters to vote, and a memory card to record and compile the votes cast by qualified voters;

3.3 “electronic card reader” means a device allowing the information required for a qualified voter to vote to be transferred onto an electronic card;

3.4 “rejected ballot paper” means a ballot paper for which the button corresponding to “I do not wish to vote for the office of mayor” or “I do not wish to vote for this

referendum” has been pushed by a qualified voter on the voting terminal;

3.5 “operations trail” means a print-out of the operations (audit) of a voting terminal.

4. ELECTION

4.1 For the purposes of the referendum on December 7 of the year 2003 in the municipality, a sufficient number of “PERFAS-MV” model electronic voting systems will be used.

4.2 As soon as the resolution ordering the holding of a referendum has been passed, the municipality must take the necessary steps to provide its qualified voters with adequate information concerning the testing of the new method of voting.

5. SECURITY MECHANISMS

Each electronic voting system must include the following security mechanisms:

(1) a report displaying a total of “zero” must be automatically produced by the electronic ballot box when a voting terminal is turned on on the first day of advance polling and on polling day;

(2) a verification report must be generated on a continuous basis and automatically saved on the memory card of the voting terminal, and must record each procedural operation;

(3) a mechanism which prevents a voting terminal from being placed in “end of poll” mode while polling is still under way, because the terminal can only be placed in “end of poll” mode by the insertion of an “end of poll” card;

(4) a mechanism to ensure that the compilation of results is not affected by any type of interference once the electronic ballot box has been placed in “poll” mode;

(5) each voting terminal must be equipped with seals, two to prevent the opening of the box and one covering the screws of the voting terminal;

(6) each voting terminal must be equipped with a back-up power source (battery) able to operate for two to five hours, unless all the terminals are connected to a generator;

(7) if a voting terminal is defective, its internal memory card may be removed and transferred immediately into another voting terminal in order to allow the procedure to continue.

6. PROGRAMMING

Each electronic voting system used is specially programmed by the firm PG Elections inc. for the municipality in order to recognize and tally ballot papers in accordance with this agreement.
