2. Retirement and survivors' pensions and industrial accident and occupational disease cash benefits payable under the Agreement by one Party in the territory of the other Party shall also be payable outside the territories of both Parties, under the same conditions that the first Party applies to its nationals under its own legislation.

ARTICLE 6 REDUCTION AND SUSPENSION CLAUSES

Reduction and suspension clauses under the legislation of one Party, in case of accumulation of a pension or benefit with other social security benefits or income obtained from the exercise of a professional activity, are opposable to the beneficiaries even when the benefits are acquired under the other Party's plan or if the income is obtained from a professional activity exercised in the territory of the other Party.

This rule does not apply to the accumulation of two pensions or benefits of the same nature.

PART II **APPLICABLE STATUTES**

ARTICLE 7 **GENERAL RULE**

Subject to Articles 8 to 11, workers exercising a professional activity in the territory of one Party shall be subject to the legislation of that Party.

ARTICLE 8 **SPECIAL RULES**

Salaried workers who, while in the service of an undertaking having in the territory of one Party an establishment for which they normally work, are detached by the undertaking in the territory of the other Party to perform work on behalf of that undertaking, remain, as well as the family members accompanying them, subject to the legislation of the first Party as if they continued to be employed in its territory provided that the expected duration of the work they must perform does not exceed 24 months.

2. Paragraph 1 applies even if the work performed in the territory of the other Party is considered to be an independent activity under the legislation of that Party.

3. Self-employed workers who exercise a professional activity in the territory of both Parties are subject only to the legislation of the Party in whose territory they ordinarily reside.

To determine the amount of contributions owed under the legislation of that Party, self-employed professional income earned in the territory of both Parties may be taken into account.

4. In the case of simultaneous exercise of a self-employed professional activity in Belgium and paid employment in Québec, the latter activity is considered to be employment exercised in Belgium, to determine the obligations resulting from the Belgian legislation relating to the social status of self-employed workers.

ARTICLE 9 **SALARIED WORKERS EMPLOYED BY AN INTERNATIONAL CARRIER**

1. Salaried workers who work in the territory of both Parties as travelling personnel for an international carrier which transports passengers or goods by air or by sea, and which has its head office in the territory of one Party, shall, with respect to such work, be subject only to the legislation of the Party in whose territory the head office is located.

2. However, if the undertaking has, in the territory of the other Party, a branch or permanent agency, the salaried workers that branch or agency employs are subject to the legislation of the Party in the territory in which the branch or agency is located, except for the salaried workers who are sent there on a temporary basis.

3. If salaried workers work for the most part in the territory of the Party in which they reside, they shall, with respect to such work, be subject only to the legislation of that Party, even if the carrier employing them has no head office, branch or permanent agency in that territory.

ARTICLE 10 **PERSONS EMPLOYED ON BEHALF OF A PUBLIC AUTHORITY**

1. Persons employed on behalf of a public authority of one Party and assigned to a posting in the territory of the other Party shall be subject only to the legislation of the first Party for all matters relative to that post.

However, if those persons are nationals of the Party employing them, they may, within six months from the start of the employment or the coming into force of the Agreement, elect to be subject only to the legislation of that Party.

3. As regards Québec, the term “public authority” means the Gouvernement du Québec.

ARTICLE 11 **DEROGATIONS**

The competent authorities may, by mutual agreement, derogate from the provisions of Articles 7 to 10 with respect to any worker or category of workers.

PART III **PROVISIONS RELATING TO PENSIONS AND BENEFITS**

CHAPTER I **PROVISIONS RELATING TO BELGIAN PENSIONS**

SECTION A **RETIREMENT AND SURVIVORS' PENSIONS**

ARTICLE 12

1. Subject to the provisions of paragraph 2, the periods referred to in subparagraphs *a* and *b* of paragraph 4 are totalized to the extent necessary, provided that they do

not overlap, with periods of insurance completed under the legislation of Belgium, for the acquisition, maintenance or recovery of the entitlement to pensions.

2. When the legislation of Belgium subordinates the award of certain pensions to the condition that the periods of insurance have been completed in a determined profession, only the periods referred to in subparagraphs *a* and *b* of paragraph 4 during which the same profession was exercised in Québec are totalized for entitlement to the pensions.

3. When the legislation of Belgium subordinates the award of certain pensions to the condition that the periods of insurance have been completed in a determined profession and when the periods did not give entitlement to the said pensions, the said periods are considered to be valid for the payment of pensions provided for in the general plan for salaried workers.

4. When the competent body resorts to totalization,

(*a*) it shall recognize 12 months of contributions under the legislation of Belgium for each period of insurance certified by the competent body in Québec;

(*b*) where entitlement to a pension is not conferred despite the application of subparagraph *a*, it shall recognize one month of contribution under the legislation of Belgium, when that month is considered to be a month of residence within the meaning of the Old Age Security Act that applies in the territory of Québec, provided that that month does not overlap a period of insurance completed under the legislation of Québec;

(*c*) it shall totalize, in accordance with paragraph 1 or 2, the periods of insurance completed under its legislation and the months recognized under subparagraphs *a* and *b*.

ARTICLE 13

1. When a person meets the conditions required under the legislation of Belgium to be entitled to the pensions without having recourse to totalization, the Belgian body shall calculate the entitlement to the pension directly on the basis of periods of insurance completed in Belgium and according only to the legislation of Belgium.

That body shall also calculate the amount of the pension that would be obtained by applying the rules provided for in subparagraphs *a* and *b* of paragraph 2. Only the higher amount is kept.

2. If a person may claim a pension under the legislation of Belgium, entitlement to which is conferred only by applying the totalization provided for in Article 12, the following rules shall apply:

(*a*) the Belgian body shall calculate the theoretical amount of the pension that would be owed if all the periods totalized under Article 12 had been completed only under the legislation it applies;

(*b*) the Belgian body shall then calculate the amount owed, on the basis of the amount referred to in subparagraph *a*, in proportion to the duration of the periods of insurance completed under its legislation in relation to the duration of all periods calculated under subparagraph *a*.

SECTION B DISABILITY

ARTICLE 14

For the acquisition, maintenance or recovery of entitlement to disability pensions, the provisions of Article 12 shall apply by analogy.

ARTICLE 15

1. If entitlement to Belgian disability pensions is conferred only by totalization of the Québec and Belgian periods in accordance with Article 14, the amount of the pension owed shall be determined according to the terms and conditions in paragraph 2 of Article 13.

2. Where entitlement to Belgian disability pensions is conferred without having recourse to Article 14, and the amount resulting from the addition of the Québec pension and the Belgian pension calculated according to paragraph 1 of this Article is lower than the amount of the pension owed under the Belgian legislation only, the competent Belgian institution shall grant a supplement equal to the difference between the sum of the two pensions mentioned above and the amount owed under the sole legislation of Belgium.

ARTICLE 16

Notwithstanding the provisions of Article 14, in the cases referred to in paragraph 1 of Article 15, no disability pension shall be owed by Belgium where the periods of insurance completed under its legislation, prior to the occurrence of the event, do not reach, as a whole, one year.

ARTICLE 17

1. By derogation to the provisions of paragraph 1 of Article 12 and Article 16, entitlement to disability pensions of workers who have worked in mines or quarries with underground operations in Belgium and Québec shall be determined following the rules defined in Article 13, when, considering the periods totalized for that purpose,

these workers fulfill the conditions provided for in the special legislation of Belgium on the disability of mine workers and equivalent workers.

2. For the purposes of paragraph 1, the periods referred to in paragraph 4 of Article 12, during which the same profession was exercised in Québec for the acquisition and determination of entitlement, shall be totalized with the periods of actual occupation or equivalent periods in Belgian mines or quarries with underground operations.

3. If, taking into account the periods thus totalized, the interested person does not meet the conditions required to receive pensions under the special legislation of Belgium concerning the disability of mine workers and equivalent workers, the periods of actual occupation or equivalent periods in Belgian mines or quarries with underground operations are taken into account for awarding pensions from the disability insurance plan for salaried workers.

ARTICLE 18

In case of transfer of residence and temporary stay in the territory of Québec, the competent authority of Belgium may require that the beneficiary of a disability pension obtain authorization by the competent Belgian body. Authorization may only be refused if the displacement of the interested person is not advisable for medical reasons.

SECTION C PROVISIONS COMMON TO BELGIAN PENSIONS

ARTICLE 19

1. If, because of the increase of the cost of living, the variation of the level of salaries or other cause for adjustment, Québec pensions are modified by a determined percentage or amount, Belgian pensions shall not be recalculated.

2. In case of a modification to the method of establishment or to the rules for the calculation of Québec pensions, a new calculation of the Belgian pension shall be performed in accordance with Article 13.

CHAPTER II PROVISIONS RELATING TO QUÉBEC PENSIONS

ARTICLE 20

1. For the acquisition, maintenance or recovery of entitlement to Québec pensions, the periods of insurance completed, in accordance with the legislation of each Party, shall be totalized, to the extent necessary, provided they do not overlap.

2. If persons who have been subject to the legislation of both Parties meet the requirements for entitlement to a pension, for themselves or for dependents, survivors or beneficiaries, under Québec legislation, without having recourse to the totalization referred to in paragraph 1, the competent body of Québec shall determine the amount of the pensions in accordance with the provisions of the legislation it administers.

3. If the persons referred to in paragraph 2 do not meet the requirements for entitlement to a pension without totalization, the competent body of Québec shall:

(a) recognize one year of contribution when the competent body of Belgium certifies that a period of insurance of at least 3 months or 78 days in a calendar year has been credited under the legislation of Belgium, provided that the year is included in the contributory period defined in Québec legislation; and

(b) totalize years recognized under subparagraph *a* with periods of insurance completed under Québec legislation, in accordance with paragraph 1.

4. If the totalization provided for in paragraph 3 entitles persons to a pension, the competent body of Québec shall determine the amount payable by adding the amounts calculated in accordance with the following subparagraphs *a* and *b*:

(a) that part of the pension related to earnings is calculated according to the provisions of the legislation of Québec;

(b) the amount of the flat-rate portion of the pension payable under the provisions of the Agreement is determined by multiplying the amount of the flat-rate pension determined under the provisions of the Québec Pension Plan by the fraction which represents the ratio of the periods of contributions to the Québec Pension Plan in relation to the contributory period as defined in the legislation relating to that Plan.

CHAPTER III PROVISIONS RELATING TO HEALTH BENEFITS
