

(2) “dwelling” means a dwelling unit that has at least 1 room and allows access to at least a washer and dryer as well as a kitchen with a refrigerator, a stove and a microwave oven.

No accommodation costs, other than the amounts provided for in the first paragraph, may be required from the employee, in particular for access to an additional room.

With each increase in the general rate of the minimum wage, the amounts provided for in section 6 are increased by the percentage corresponding to the increase in the general rate of the minimum wage, without exceeding the percentage corresponding to the Consumer Price Index.

The Consumer Price Index for a year is the yearly average computed on the basis of the monthly Consumer Price Index in Canada established by Statistics Canada under the Statistics Act (R.S.C. 1985, c. S-19), for the 12 months of the calendar year preceding the increase in the general rate of the minimum wage in relation to the 12 months of the calendar year preceding that year.

If the percentage computed under the fourth paragraph includes more than 2 decimals, the first two decimals alone are retained and the second is increased by 1 unit if the third is equal to or greater than 5.

The Minister publishes the result of the increase in the *Gazette officielle du Québec*.

**6.** This Regulation comes into force on 1 May 2012.

(R.S.Q., c. N-1.1)

### Clothing industry — Labour standards specific to certain sectors — Amendment

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (R.S.Q., c. R-18.1), that the Regulation to amend the Regulation respecting labour standards specific to certain sectors of the clothing industry, appearing below, may be made by the Government on the expiry of 45 days following this publication.

The draft Regulation increases the rate of minimum wage that applies to certain sectors of the clothing industry from \$9.65 per hour to \$9.90 per hour, as of 1 May 2012. Four sectors of the clothing industry are subject

to the Regulation respecting labour standards specific to certain sectors of the clothing industry: the women’s clothing industry, the men’s clothing industry, the men’s and boys’ shirt industry and the leather glove industry.

The increase will improve the buying power of low-income employees and allow them to take part in the collective growth. It constitutes a work incentive and forms part of the government measures to favour solidarity and social inclusion. It will also maintain the competitiveness of enterprises in the sectors of activity concerned by taking into account their capacity to pay.
