YVES OUELLET,
Clerk of the Conseil exécutif

Regulation respecting the rates for using the public fast-charging service for electric vehicles

Hydro-Québec Act
(chapter H-5, s. 22.0.2)

1. The rates for using the public fast-charging service for electric vehicles are set at \$10.00 per hour for the use of a 50 kW fast-charging station.

2. The rates are adjusted by operation of law on 1 January of each year by a rate corresponding to the annual variation in the overall average Québec consumer

price index without alcoholic beverages and tobacco products for the 12-month period ending on 30 September of the year preceding the year for which the rates are to be adjusted.

The results of the adjustment are rounded up to the nearest multiple of \$0.25. An amount that is equidistant from 2 multiples is rounded off to the higher multiple.

If the results of the adjustment cannot be rounded up to the higher multiple in accordance with the rounding rule in the second paragraph, the annual adjustments are deferred and accumulated until the amount can be rounded up to the higher multiple.

The application of this section may not decrease the rates below their pre-adjustment level.

The Minister publishes the results of the adjustment in the *Gazette officielle du Québec*.

3. This Regulation comes into force on the fifteenth day following the date of its publication in the *Gazette officielle du Québec*.
