

Draft Regulations

Draft Regulation

Environment Quality Act
(chapter Q-2)

Compensation for adverse effects on wetlands and bodies of water and other regulatory provisions —Amendment

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (chapter R-18.1), that the Regulation to amend mainly the Regulation respecting compensation for adverse effects on wetlands and bodies of water and other regulatory provisions, appearing below, may be made by the Government on the expiry of 45 days following this publication.

The draft Regulation adds details for certain activities exempted from the payment of a financial contribution to compensate for adverse effects on wetlands and bodies of water, and adds new activities.

It also makes changes to the activities for which the payment of a financial contribution may be replaced by work to restore or create wetlands and bodies of water, and adds new activities.

The draft Regulation specifies, in cases where an applicant wishes to replace the payment of a financial contribution by work to restore or create wetlands and bodies of water if that possibility is allowed for an activity, the contents of the plan for completing the work.

Other adjustments are made to the parameters used to calculate the amount of the financial contribution to better reflect the reality of development in Québec's boreal regions and the abundance of wetlands in those regions.

Consequential amendments are made to the Regulation respecting sand pits and quarries, made by Order in Council 871-2020 dated 19 August 2020.

Other amendments are made to the Regulation respecting the regulatory scheme applying to activities on the basis of their environmental impact, made by Order in Council 871-2020 dated 19 August 2020, adding new activities eligible for a declaration of compliance pursuant to section 31.0.6 de la Environment Quality Act (chapter Q-2) and new activities exempted from the application of subdivision 1 of that Act pursuant to section 31.0.11.

The draft Regulation may be adjusted to take into account, where applicable, the amendments proposed by the draft Regulation respecting the temporary implementation of the amendments made by chapter 7 of the Statutes of 2021 in connection with the management of flood risks published as a draft in the *Gazette officielle du Québec* of 23 June 2021 should it be made before the draft Regulation.

Study of the matter has shown that the draft Regulation will lead to savings of \$600,000 for the promoters of projects in wetlands and bodies of water. However, the changes made to the formula will generate extra costs, assessed at \$30,000, for the promoters of projects in wetlands and bodies of water. Overall, the draft Regulation will have a net impact of \$300,000, apportioned between municipalities (\$700,000), enterprises (\$400,000) and the Government and the public (\$200,000).

Further information on the draft Regulation may be obtained on the website of the Ministère de l'Environnement et de la Lutte contre les changements climatiques at <https://www.environnement.gouv.qc.ca/eau/milieux-humides/reglement-compensation-mhh.htm> or by contacting Jean-Pierre Laniel, Director General, Direction de la conservation de la biodiversité, Ministère de l'Environnement et de la Lutte contre les changements climatiques, édifice Marie-Guyart, 4^e étage, 675, boulevard René-Lévesque Est, Québec (Québec) G1R 5V7; telephone: 418 571-3335; email: rcamhh.questions@environnement.gouv.qc.ca.

Any person wishing to comment on the draft Regulation is requested to submit written comments within the 45-day period to Jean-Pierre Laniel, at the above contact information.

BENOIT CHARETTE
*Minister of the Environment and
the Fight Against Climate Change*

Regulation to amend mainly the Regulation respecting compensation for adverse effects on wetlands and bodies of water and other regulatory provisions

Environment Quality Act

(chapter Q-2, ss. 31.0.6, 46.0.5, 46.0.22 and 95.1; 2021, chapter 7, s. 90)

REGULATION RESPECTING COMPENSATION FOR ADVERSE EFFECTS ON WETLANDS AND BODIES OF WATER

1. The Regulation respecting compensation for adverse effects on wetlands and bodies of water (chapter Q-2, r. 9.1) is amended by replacing section 4 by the following:

“4. For the purposes of this Regulation, unless otherwise indicated by the context,

“forest development activity” means an activity referred to in paragraph 1 of section 4 of the Sustainable Forest Development Act (chapter A-18.1) that specifically targets forest enhancement and conservation;

“public body” means any body to which the Government or a minister appoints the majority of the members, to which, by law, the personnel is appointed in accordance with the Public Service Act (chapter F-3.1.1), or at least half of whose capital stock is derived from the Consolidated Revenue Fund;

“silvicultural treatment” means a forest development activity intended, as part of a given silvicultural regime and scenario, to direct the development of a stand, and in particular its renewal, or to improve its yield and quality.”.

In addition, unless otherwise provided for,

(1) the expressions “watercourse”, “littoral zone”, “wetland”, “body of water”, “wooded wetland”, “open wetland”, “floodplain”, “lakeshore” and “riverbank”, “wooded peat bog” and “open peat bog” have the same meaning as in the Regulation respecting activities in wetlands, bodies of water and sensitive areas, made by Order in Council 871-2020 dated 19 August 2020;

(2) paragraphs 1 to 4 of section 313 of the Regulation respecting the regulatory scheme applying to activities on the basis of their environmental impact, made by Order in Council 871-2020 dated 19 August 2020, apply to this Regulation;

(3) the bioclimatic domains are those referred to in Schedule III of the Regulation respecting the regulatory scheme applying to activities on the basis of their environmental impact.”.

2. Section 5 is amended

(1) in the first paragraph,

(a) by replacing subparagraph 1 by the following:

“(1) projects that result in a cumulative loss of area according to the type of environment concerned

(a) of 30 m² or less of open wetland or a body of water;

(b) of 300 m² or less of wooded wetland;”;

(b) by inserting “maintain, re-establish or” after “to” in subparagraph 2;

(c) by striking out subparagraph 5;

(d) by replacing subparagraph 6 by the following:

“(6) work subject to a general authorization within the meaning of section 31.0.5.1 of the Act when carried out in a watercourse whose geometry has already been modified in accordance with an agreement, municipal by-law or authorization, and work referred to in section 105 of the Municipal Powers Act (chapter C-47.1);”;

(e) by striking out subparagraph 9;

(f) by replacing subparagraph 10 by the following:

“(10) work related to slope stabilization work carried out on the shore, bank or littoral zone of a lake or watercourse using one of the following methods:

(a) phytotechnology;

(b) when the work relates to a road infrastructure, a water management or treatment facility referred to in section 32 of the Act or an electric power transmission and distribution network, where the work is carried out by a department, a public body or an entity that has jurisdiction in any of the territories listed in Schedule IV using

i. a method combining phytotechnology and the use of inert woody materials;

ii. a method combining phytotechnology and keyed rock infill;”;

(g) by replacing “beach nourishment to counter the effects of erosion” in subparagraph 11 by “sedimentary nourishment to counter a sedimentary deficit”;

(h) by replacing subparagraph 12 by the following:

“(12) the development or expansion of a new parcel of land for the cultivation of non-aquatic plants and mushrooms, and work on infrastructures directly connected to such cultivation, when the activities are carried out in wooded wetland located outside the sugar maple-bitternut hickory bioclimatic domain;”;

(i) by replacing subparagraph 13, as amended in section 1 of the Regulation to amend the Regulation respecting compensation for adverse effects on wetlands and bodies of water, made by Order in Council 871-2020 dated 19 August 2020, by the following:

“(13) with the exception of silvicultural drainage, silvicultural treatments carried out in an open wetland and other forest development activities carried out in a wooded wetland;”;

(k) by adding the following at the end:

“(14) work to redevelop and rehabilitate an abandoned mining site carried out by the minister responsible for natural resources;

(15) work that a municipality must carry out pursuant to sections 29 and 30 of the Regulation respecting municipal wastewater treatment works (chapter Q-2, r. 34.1) to comply with the standards applicable to a wastewater treatment works.”;

(2) by replacing the second paragraph by the following:

“For the purposes of subparagraph 12 of the first paragraph, activities carried out in a 100m strip of wooded wetland bordering on an open peat bog of less than 4 ha are not exempted.”.

3. Section 6 is amended

(1) by replacing “at a value of \$0.8307 per square metre” in the description of the factor “vl” by “using the price mentioned in section 5 of Division II of Schedule I to the Regulation respecting the sale, lease and granting of immovable rights on lands in the domain of the State (chapter T-8.1, r. 7)”;

(2) by adding the following paragraph after the formula:

“The value of the factor “vl”, as determined in Schedule IV, is updated on 1 January each year, and the Minister publishes the result of the update by means of a notice in the *Gazette officielle du Québec* or by any other means the Minister considers appropriate.”.

4. Section 7 is amended by replacing “The adjustment” in the third paragraph by “The adjusted cost”.

5. Section 10 is amended

(1) in the first paragraph,

(a) in the portion before subparagraph 1

i. by replacing “or” after wetlands by “and”;

ii. by replacing “following work” by “following activities”;

(b) by replacing subparagraph 4 by the following:

“(4) the development or expansion of a new parcel of land for the cultivation of non-aquatic plants and mushrooms, and work on infrastructures directly connected to such cultivation, when

(a) the activity is carried out in an open wetland other than an open peat bog with an area of at least 4 ha; or

(b) the activity is carried out in a wooded wetland in the sugar maple-bitternut hickory bioclimatic domain;”;

(c) by striking out “within the meaning of section 32 of the Act respecting the exercise of certain municipal powers in certain urban agglomerations (chapter E-20.001),” in subparagraph 5;

(d) by adding the following at the end:

“(6) silvicultural drainage and other forest development activities carried out

(a) in an open wetland;

(b) on the shore or bank or in the floodplain of a lake or watercourse;

(7) all work on the shore or bank or in the floodplain of a lake or watercourse when carried out by a government department, a public body or an entity having authority over one of the places listed in Schedule IV.”;

(2) by replacing the second paragraph by the following:

“For the purposes of subparagraph 4 of the first paragraph, activities carried out in a 100m strip of wooded wetland bordering on an open peat bog of less than 4 ha are not concerned.

The activities mentioned in the first paragraph exclude those referred to in section 5.”.

6. The following is added after section 10:

“10.1. An applicant who wishes to replace a financial contribution pursuant to section 10 must, when informed of the amount of the required financial contribution, file an application with the Minister for that purpose, accompanied by a plan of the work to restore or create wetlands or bodies of water.

The work that an applicant plans to carry out must target the following objectives:

(1) in the case of work on wetlands:

(a) the retention of the water surface to ensure a hydrological regime typical of a wetland;

(b) a regeneration of hygrophilous vegetation after 3 years;

(2) in the case of work on bodies of water:

(a) an improvement in the hydrogeomorphologic state of the watercourse, along with habitat connectivity and heterogeneity;

(b) the restoration of the natural dynamics for all the bodies of water on the site;

(3) the presence, in the restored or newly created environments, of biophysical characteristics and plant associations that are typical of wetlands and bodies of water and approach the natural state of similar environments;

(4) a contribution to the preservation of the habitat of a threatened or vulnerable species referred to in the Regulation respecting threatened or vulnerable wildlife species and their habitats (chapter E-12.01, r. 2) or the Regulation respecting threatened or vulnerable plant species and their habitats (chapter E-12.01, r. 3), as the case may be.

10.2. The application referred to in the first paragraph of section 10.1 must contain an assessment of the relevance of the site or sites selected to carry out the work, including the following documents:

(1) a description of the damage caused by the project, according to the type of wetland or body of water concerned;

(2) a document showing the location of more than one site identified for the work that presents ecological potential for the restoration or creation of wetlands and bodies of water as a component in the watershed in which they are situated;

(3) a map showing the types of wetlands and bodies of water present on each site identified;

(4) a summary assessment of the ecological potential for the restoration or creation of wetlands and bodies of water on each site identified;

(5) a document showing the environmental advantages and disadvantages of each site identified and setting out the expected gains in terms of the area and ecological functions of restored or newly created wetlands and bodies of water that will compensate for the damage caused by the project;

(6) a document showing the land uses allowed by the municipality under a zoning by-law for each site identified;

(7) a letter from the regional county municipality confirming that the sites identified match the conservation objectives set out in a metropolitan land use and development plan, or in any interim control by-law or in a by-law adopted by a regional county municipality pursuant to the Act respecting land use planning and development (chapter A-19.1), or, if none, a letter confirming the conservation interest of the sites identified;

(8) a document showing, among the sites identified, the site or sites selected to carry out the work, with the reasons for their selection.

10.3. The plan of work to restore or create wetlands of bodies of water referred to in the first paragraph of section 10.1 must include the following information and documents:

(1) a georeferenced map showing the location of the types of wetlands and bodies of water present on the site or sites selected before the work is carried out;

(2) a detailed characterization of the site or sites selected to carry out the work;

(3) the objectives of the work;

(4) a detailed description of the work;

(5) a plan of the work and the timeframe for carrying out the plan;

(6) any corrective measures that must be provided for following the work and the monitoring measures that will be applied in the first, third and fifth years after the work is completed;

(7) the methods planned to ensure the sustainability of the restored or newly created ecosystems.”.

7. Section 13 is revoked.

8. Section 14.1, as added by section 1 of the Regulation to amend the Regulation respecting compensation for adverse effects on wetlands and bodies of water, made by Order in Council 1291-2020 dated 2 December 2020, is amended by inserting “subparagraph *b* of subparagraph 6 and subparagraph 7 of the first paragraph of section 10,” after “9.”.

9. Section 15, as amended by section 2 of the Regulation to amend the Regulation respecting compensation for adverse effects on wetlands and bodies of water, made by Order in Council 1291-2020 dated 2 December 2020, is amended by inserting “subparagraph *b* of subparagraph 6 and subparagraph 7 of the first paragraph of section 10,” after “9.”.

10. Schedule II is amended

(1) by adding the following at the end of the portion before the table in section 1:

“In the case of an open peat bog, the factor “ $I_f \text{ NI}$ ” is, in all cases, set at 1. The same applies when it is not possible to determine the initial state of an environment.”;

(2) by replacing the table in section 2 by the following:

Impact of the activity over the portion of the wetland affected by the activity				
Components	Negligible NI = 0.9	Low NI = 0.6	High NI = 0.1	Very high NI = 0
Vegetation	Undisturbed vegetation	Disturbed or destroyed vegetation over less than 20% of the affected portion of the wetland	Disturbed or destroyed vegetation over more than 20% or more of the affected portion of the wetland	N/A

Soil	Compacted soil or soil subject to rutting over less than 5% of the affected portion of the wetland	Compacted soil or soil subject to rutting over 5% or more of the affected portion of the wetland OR Soil affected by work that does not change, in the entire affected portion of the wetland, the direction of the flow of water	Disturbed, ploughed or excavated soil OR Soil affected by work that changes, in the entire affected portion of the wetland, the direction of the flow of water	Removed, covered or sealed soil in the entire affected portion of the wetland
Water	Undisturbed hydrological regime	Disturbed hydrological regime over less than 5% of the affected portion of the wetland	Disturbed hydrological regime over 5% to 40% of the affected portion of the wetland	Disturbed hydrological regime over more than 40% of the affected portion of the wetland

“;

(3) by striking out section 3.

11. Schedule III is amended

(1) by replacing section 1 by the following:

“1. The factor representing the initial state of the portion of the littoral zone affected by the activity “*If INI*” is

(1) in the part of a watercourse following the bed of a ditch, set at 1;

(2) in the part of a watercourse whose geometry has already been modified in accordance with an agreement, municipal by-law or authorization, set at 1.2;

(3) in all other cases, set at 1.5.”;

(2) by replacing the second paragraph of section 2 by the following:

“Where none of the situations described in the table applies, the factor “*If INI*” is set at 1.2. The same applies when it is not possible to determine the initial state of an environment.”;

(3) by replacing the second paragraph of section 3 by the following:

“Where none of the situations described in the table applies, the factor “*If INI*” is set at 1. The same applies when it is not possible to determine the initial state of an environment.”;

(4) by replacing the table in section 4 by the following:

“

Impact of the activity on the portion of the littoral zone affected by the activity			
Components	Low NI = 0.7	High NI = 0.3	Very high NI = 0
Biological	Plant associations or aquatic macrophyte stands destroyed over less than 20% of its total area	Plant associations or aquatic macrophyte stands destroyed over 20% to 75% of its total area	Plant associations or aquatic macrophyte stands destroyed over more than 75% of its total area OR Destruction, even partial, of spawning areas
Soil	Digging or dredging over a distance of less than 5 times the width of the watercourse and not more than 30 m OR Presence of a stabilization work for the catchment of sediments in the affected portion of the littoral zone of the lake or watercourse OR Presence of a stabilization work in a gentle slope for the dissipation of the energy of the waves from the St. Lawrence Estuary, the Gulf of St. Lawrence or the seas surrounding Québec OR Presence of a mechanical stabilization work using inert woody materials	Digging or dredging over a distance of 5 to 10 times the width of the watercourse and not more than 60 m OR Digging or dredging in the St. Lawrence Estuary, the Gulf of St. Lawrence or the seas surrounding Québec OR Discharge in open water of dredged sediments	Digging or dredging over a distance of more than 10 times the width of the watercourse or more than 60 m OR Digging or dredging in the littoral zone of the lake OR Natural substratum removed over more than 20% of the affected portion of the littoral zone of the lake or watercourse OR Modification of the longitudinal slope or fluvial style of the affected portion of the littoral zone of the watercourse OR Presence of any stabilization work not described in this table OR Channelling, even partial, of the affected portion of the littoral zone of the lake or watercourse

Water	Filling carried out over a distance of not more than 5 times the width of the watercourse and not more than 30 m OR Filling in the St. Lawrence Estuary, the Gulf of St. Lawrence or the seas surrounding Québec	Filling over a distance of more than 5 times the width of the watercourse or more than 30 m OR Presence of a structure or work, other than a stabilization work, in the littoral zone of the lake or watercourse OR Filling carried out in the littoral zone of the lake
--------------	--	--

“;

(5) by replacing “0.5” in section 5 by “1”;

(6) by replacing “0.1” in section 6 by “0.5”;

(7) by replacing the table in section 7 by the following:

“

Impact of the activity on the portion of the lakeshore or riverbank affected by the activity		
Low NI = 0.7	High NI = 0.3	Very high NI = 0
Vegetation destroyed over less than 20% of the affected portion of the lakeshore or riverbank OR Filling carried out over 20% or more of the affected portion of the lakeshore or riverbank OR Presence of a structure or work over less than 20% of the affected portion of the lakeshore or riverbank	Vegetation destroyed over 20% to 75% of the affected portion of the lakeshore or riverbank OR Filling carried out over 20% or more of the affected portion of the lakeshore or riverbank OR Presence of a structure or work over less than 20% of the affected portion of the lakeshore or riverbank	Vegetation destroyed over more than 75% of the affected portion of the lakeshore or riverbank OR Presence of a structure or work over 20% or more of the affected portion of the lakeshore or riverbank

“.

12. Schedule IV is amended

(1) by replacing “is, in all cases, set at “1”” in the portion before the table in section 1 by “that is applicable to the activity is that of the nearest local municipality”,

(2) by replacing the table in section 1 by the following:

* For the purpose of this Schedule, the term "Indian reserve" refers to a reserve within the meaning of the Indian Act (R.S.C. 1985, c. I-5), an Indian establishment and the Kanesatake Mohawk interim land base within the meaning of the Kanesatake Interim Land Base Governance Act (S.C. 2001, c. 8).".

REGULATION RESPECTING SAND PITS AND QUARRIES

13. The Regulation respecting sand pits and quarries (chapter Q-2, r. 7.1), as amended by section 3 of the Regulation to amend the Regulation respecting sand pits and quarries, made by Order in Council 871-2020 dated 19 August 2020, is amended in section 20 by replacing "section 344" in the fourth paragraph by "sections 343.2 and 344".

REGULATION RESPECTING THE REGULATORY SCHEME APPLYING TO ACTIVITIES ON THE BASIS OF THEIR ENVIRONMENTAL IMPACT

14. The Regulation respecting the regulatory scheme applying to activities on the basis of their environmental impact, made by Order in Council 871-2020 dated 19 August 2020, is amended in section 4 by adding the following at the end:

“(14) bioclimatic domains are those referred to in Schedule III.”.

15. Section 24 is amended by replacing subparagraph 1 in the first paragraph by the following:

“(1) maintenance work on a watercourse is work

(a) to maintain it in a functional hydraulic and ecological state by

i. maintaining or restoring the watercourse to a dynamic balance, as reflected in a hydraulic geometry adapted to the conditions of the watershed; or

ii. maintaining or re-establishing the ecological functions of the watercourse;

(b) carried out by cleaning;

(c) ensuring proper management of vegetation and sediments in the littoral zone or on a riverbank, lakeshore or floodplain;”.

16. Section 51 is amended, in subparagraph 6 of the first paragraph,

(1) by striking out “cannabis,”;

(2) by inserting “raised in wetlands and bodies of water and crops” after “crops”.

17. Section 132 is replaced by the following:

“132. This Division applies to the cultivation of non-aquatic plants and mushrooms in a building or greenhouse.”

18. Section 133 is amended by inserting “, other than cannabis,” after “plants” in paragraph 2.

19. Section 134 is revoked.

20. Section 135 is amended by replacing the first paragraph by the following:

“The cultivation of non-aquatic plants, other than cannabis, or of mushrooms in a building or greenhouse, carried on by an operator on a total area of more than 10,000 m² but less than 50,000 m², is eligible for a declaration of compliance on the condition that all wastewater discharged into the environment is stored in a watertight container before being spread on a cultivated parcel in accordance with an agri-environmental fertilization plan, or before being eliminated.”.

21. Section 136 is amended

(1) by replacing “All activities involved in the” by “The”;

(2) by striking out the letter “s” at the end of the word “exercées” in the French text.

22. Section 137 is renumbered 340.1.

23. Section 138 is revoked.

24. Section 139 is renumbered 345.1.

25. Section 328 is amended by adding the following paragraph at the end:

“For the construction of a building used for maple syrup production as part of a forest development activity in a wooded wetland, the conditions set out in subparagraphs 2 and 3 of the first paragraph do not apply but the area of the building must not exceed 100 m².”.

26. Section 341 is amended by adding the following at the end:

“(6) the cultivation of non-aquatic plants or mushrooms and tree-clearing work to prepare the land for cultivation.”.

27. The following is inserted before section 342:

“§ 1. — *General provision*”.

28. The following is inserted before section 343:

“§ 2. — *Activities eligible for a declaration of compliance*”.

29. The following is inserted after section 343:

343.1. Tree-clearing work to prepare the land for cultivation, and the subsequent cultivation of non-aquatic plants or mushrooms, are eligible for a declaration of compliance when carried out in a wooded wetland with an area of not more than 10 ha, on the following conditions:

(1) the activity is carried out outside the sugar maple-bitternut hickory and sugar maple-basswood bioclimatic domains;

(2) the activity is carried out more than 100 m from an open peat bog.

In addition to the elements provided for in section 41, a declaration of compliance under the first paragraph must include a declaration from an agronomist attesting that the activity complies with the conditions applicable under this Division and the conditions, if any, provided for by regulation.

343.2. An activity carried out in a wetland of more than 1,000 m² but less than 3,000 m² in area, of human origin, is eligible for a declaration of compliance on the following conditions:

(1) the activity is carried out outside the sugar maple-bitternut hickory bioclimatic domain;

(2) the activity is carried out more than 30 m from any other wetland and from the littoral zone;

(3) the wetland has been present for at least 10 years;

(4) the wetland does not result from work performed under a program to promote the restoration and creation of wetlands and bodies of water drawn up pursuant to the Act to affirm the collective nature of water resources and to promote better governance of water and associated environments (chapter C-6.2) or work performed in accordance with the Regulation respecting compensation for adverse effects on wetlands and bodies of water (chapter Q-2, r. 9.1).".

“§ 3. — Exempted activities”.

30. Section 345 is amended by adding the following at the end:

“(4) in connection with a forest development activity carried out in a wooded wetland, the burying of pipes to carry sap and the associated wires.”.

31. The following is added at the end:

"SCHEDULE III – (section 4)

BIOCLIMATIC DOMAINS

When an activity is carried out in the territory of a municipality that overlaps more than one bioclimatic domain, the bioclimatic domain applicable to the activity is the domain that represents the largest part of the territory of the municipality.

».

TRANSITIONAL AND FINAL

32. Every application for the issuance, amendment or renewal of an authorization filed with the Minister under the Environment Quality Act (chapter Q-2) that are pending on (*insert the date of coming into force of this Regulation*) are continued and decided in accordance with the Regulation respecting compensation for adverse effects on wetlands and bodies of water (chapter Q-2, r. 9.1) as amended by this Regulation.

33. A person or municipality that, before (*insert the date of coming into force of this Regulation*), is awaiting the issuance, amendment or renewal of an authorization under the Environment Quality Act (chapter Q-2) for an activity that, on or after date, is eligible for a declaration of compliance may file a declaration of compliance with the Minister for that activity.

Any documents required for a declaration of compliance that were previously filed for the application for authorization, amendment or renewal need not be re-filed.

The fee payable for the declaration of compliance need not be paid if the fee payable for the application for authorization, amendment or renewal has been deposited.

34. Every application for the issuance, amendment or renewal of an authorization filed with the Minister under the Environment Quality Act (chapter Q-2) before (*insert the date of coming into force of this Regulation*) for an activity that, on or after that date, is exempted, is continued and decided solely with respect to the activities that remain subject to ministerial authorization or an amendment of authorization pursuant to that Act.

The fee payable for the part of the application concerning an exempted activity may be refunded on request.

35. This Regulation comes into force on the fifteenth day following the date of its publication in the *Gazette officielle du Québec*.
