Draft Regulation

Act respecting the Régie de l'énergie (chapter R-6.01)

Act to amend the Act respecting energy efficiency and energy conservation standards for certain electrical or hydrocarbon-fuelled appliances (2021, chapter 28)

Quantity of renewable natural gas to be delivered by a distributor — Amendment

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (chapter R-18.1), that the Regulation to amend the Regulation respecting

the quantity of renewable natural gas to be delivered by a distributor, appearing below, may be made by the Government on the expiry of 45 days following this publication.

The draft Regulation specifies the materials, sources of energy and manufacturing processes required in order that the natural gas or hydrogen from renewable sources that is added to natural gas constitutes gas from renewable sources.

The draft Regulation also increases the minimum quantity of gas from renewable sources that must be delivered annually by a distributor and determines the terms and conditions according to which the quantity of delivered hydrogen from renewable sources is computed. The draft Regulation also provides that gas from renewable sources must be delivered for final consumption in the territory for which a distributor obtained exclusive distribution rights.

Study of the matter shows no negative impact on small and medium-sized businesses specifically, but it is estimated that there will be additional costs for natural gas distributors and consumers, and that those extra costs could constrain the competitiveness of enterprises.

Further information on the draft Regulation may be obtained by contacting Xavier Brosseau, Director, provisioning and biofuel, Ministère de l'Énergie et des Ressources naturelles, 5700, 4^e Avenue Ouest, bureau A-422, Québec (Québec) G1H 6R1; telephone: 418 627-6385, extension 708351; email: xavier.brosseau@mern.gouv.qc.ca.

Any person wishing to comment on the draft Regulation is requested to submit written comments within the 45-day period to Dominique Deschênes, Associate Deputy Minister for Innovation and Energy Transition, Ministère de l'Énergie et des Ressources naturelles, 1300, rue du Blizzard, bureau 200, Québec (Québec) G2K 0G9.
