

## Regulation to amend the Regulation respecting the application of the Public Curator Act

Public Curator Act  
(chapter C-81, s. 68, par. 12)

**1.** The Regulation respecting the application of the Public Curator Act (chapter C-81, r. 1) is amended in section 14 by replacing “600, boulevard René-Lévesque Ouest, Montréal, H3B 4W9” by “1832-500, rue Sherbrooke Ouest, Montréal, H3A 0J2”.

**2.** This Regulation comes into force on 26 June 2023.

106232

Gouvernement du Québec

**O.C. 723-2023, 19 April 2023**

Act respecting roads  
(chapter V-9)

### Roads under the management of the Minister of Transport — Amendment of Order in Council number 292-93 dated March 3, 1993

CONCERNING the amendment of Order in Council number 292-93 dated March 3, 1993, concerning the roads under the management of the Minister of Transport

WHEREAS the Government, under the first paragraph of section 2 of the Act respecting roads (chapter V-9), determines, by Order in Council published in the *Gazette officielle du Québec*, the roads under the management of the Minister of Transport and Sustainable Mobility;

WHEREAS the Government, under the first paragraph of section 3 of the Act respecting roads, may, by Order in Council published in the *Gazette officielle du Québec*, determine that a road under the management of the Minister of Transport and Sustainable Mobility shall pass, on the date indicated in the Order in Council, under the management of a municipality in accordance with chapter I and division I of chapter IX of title II of the Municipal Powers Act (chapter C-47.1);

WHEREAS the Government, under the second paragraph of section 3 of the Act respecting roads, may, by Order in Council published in the *Gazette officielle du Québec*, determine that a road under the management

of a municipality shall pass, on the date indicated in the Order in Council, under the management of the Minister of Transport and Sustainable Mobility;

WHEREAS Order in Council number 292-93 dated March 3, 1993, and its subsequent amendments determined, by municipality, the roads under the management of the Minister of Transport;

WHEREAS the schedule of this Order in Council and its subsequent amendments should be amended again, with regard to the municipalities indicated, in order to correct the description of certain roads and list the roads that were geometrically redefined and the roads that were the object of a change of right-of-way width, as indicated in the schedule of this Order in Council;

WHEREAS the schedule of this Order in Council and its subsequent amendments, with regard to the municipalities indicated, should be amended again in order to determine that certain roads under the management of the Minister of Transport and Sustainable Mobility shall pass under the management of the municipalities in the territory of which they are located, and that certain roads under the management of a municipality shall pass under the management of the Minister of Transport and Sustainable Mobility, by making the required additions and removals, as indicated in the schedule of this Order in Council;

IT IS ORDERED, accordingly, on the recommendation of the Minister of Transport and Sustainable Mobility:

THAT the schedule of Order in Council number 292-93 dated March 3, 1993, and its subsequent amendments be amended again, with regard to the municipalities indicated, in order to correct the description of certain roads and list the roads that were geometrically redefined and the roads that were the object of a change of right-of-way width, as indicated in the schedule of this Order in Council;

THAT the schedule of Order in Council number 292-93 dated March 3, 1993, and its subsequent amendments be amended again, with regard to the municipalities indicated, in order to determine that certain roads under the management of the Minister of Transport and Sustainable Mobility shall pass under the management of the municipalities in the territory of which they are located, and that certain roads under the management of a municipality shall pass under the management of the Minister of Transport and Sustainable Mobility, by making the required additions and removals, as indicated in the schedule of this Order in Council;

THAT this Order in Council be effective as of the date it is published in the *Gazette officielle du Québec*.

YVES OUELLET  
*Clerk of the Conseil exécutif*

## SCHEDULE

### ROADS UNDER THE MANAGEMENT OF THE MINISTER OF TRANSPORT AND SUSTAINABLE MOBILITY

#### PRESENTATION NOTE

The roads under the management of the Minister of Transport and Sustainable Mobility are described for each municipality in which they are located. The update of the schedule of Order in Council number 292-93 dated March 3, 1993, and its subsequent amendments states the corrections to the description of a road, the addition or removal of roads, and the changes affecting the right-of-way width of a road or its geometric redevelopment.

#### Main road

Road	Segment	Section	Sub-road	Description
00138	- 01	- 110	- <b>000-C</b>	Main road (000) with <u>C</u> ontiguous lanes
00020	- 02	- 090	- <b>000-S</b>	Main road (000) with <u>S</u> eparated (divided) lanes
00020	- 02	- 090	- 0-00-1	Main road (000) with number serving for computer validation “1” (from 0 to 9)

#### Ramp

Road	Segment	Section	Sub-road	Description
00020	- 02	- 090	- <b>32A</b>	Ramp (3), intersection No. 2, named “A”
00020	- 02	- 090	- 3-02-0-A	Ramp (3), intersection No. 02, named “0-A”

#### A) CORRECTIONS TO THE DESCRIPTION, ADDITIONS OR REMOVALS

Roads covered by a “Correction to the description”, “Addition” or “Removal” are described by means of the following five elements:

##### 1. ROAD CLASS

The nomenclature of road classes comes from the functional classification established by the ministère des Transports et de la Mobilité durable.

##### 2. SECTION IDENTIFICATION

The roads are identified according to the coding used by the Ministère to subdivide its road network. The coding breaks down into Road / Segment / Section / Sub-road. The sequence within the sub-road has evolved over the years (the current coding appears in bold in the examples below). Here is how to interpret the information:

##### 3. ROAD NAME (ODONYM)

For roads with a number lower than 1000, this number is recorded in this element, and not the odonym. The odonym is used for other roads.

When one or more ramps exist along a road section, the total number of ramps attached to this section is also recorded in this element. The cumulative length of all these ramps is then found under the heading “Length in kilometres”.

##### 4. LOCATION OF BEGINNING

This element contains the description of a physical reference point to locate the beginning of a road section or identifies a municipal limit.

##### 5. LENGTH IN KILOMETRES

The length in kilometres is recorded for each road or part of a road. This length, established by the Minister of Transport and Sustainable Mobility, corresponds to the distance travelled by a vehicle between two points, without

considering the number of lanes or the layout in contiguous lanes or divided roadways. Thus, the length is the same, whether for an autoroute or a collector road.

#### B) CHANGE OF RIGHT-OF-WAY WIDTH OR GEOMETRIC REDEVELOPMENT

The roads that are the object of a “Change of right-of-way width” or “Geometric redevelopment” are described by means of the same elements as section A above, as well as the plan number, the land surveyor’s name and the number of the land surveyor’s minutes, where relevant.
