Draft Regulation

Building Act
(chapter B-1.1)

Construction Code

Application of the Act —Amendment

Notice is hereby given, in accordance with sections 10 and 11 of the Regulations Act (chapter R-18.1), that the Regulation to amend the Construction Code and the Regulation respecting the application of the Building Act, appearing below, may be approved by the Government, with or without amendment, on the expiry of 45 days following this publication.

The draft Regulation replaces Chapter IV, Elevators and other elevating devices, to include by reference the 2019 editions of ASME A17.1-2019/CSA B44:19, Safety Code for Elevators and Escalators, and CSA B355:19, Platform lifts and stair lifts for barrier-free access, published by CSA Group, to which amendments have been made to meet the specific needs of Québec.

The draft Regulation provides that before carrying out construction work on an elevator or other elevating device other than maintenance, repair or demolition work, plans and specifications must be prepared by a recognized person. The draft Regulation also provides that, following such work, a certificate of conformity with the Construction Code (chapter B-1.1, r. 2) must be produced by a recognized person and sent to the Régie du bâtiment du Québec.

The draft Regulation also designates, in the Construction Code (chapter B-1.1, r. 2), the elevators and other lifts that are facilities intended for use by the public and strikes out such designations in the Regulation respecting the application of the Building Act (chapter B-1.1, r. 1).

The measures proposed will result in additional construction costs estimated at \$38.9 million per year.

Further information on the draft Regulation may be obtained by contacting Amar Khif, engineer, Direction de la réglementation, Régie du bâtiment du Québec,

255, boulevard Crémazie Est, Bureau 100 Montréal (Québec) H2M 1L5; telephone: 514-864-8902; email: amar.khif@rbq.gouv.qc.ca.
